The intention of this document is to gather together statements made on particular topics, primarily from the [Contact Reports](#), into one section for reference and research purposes. I have undoubtedly inadvertently overlooked many pertinent excerpts during my research process. Although I have tried to be careful when copying/pasting text from the [Future of Mankind](#) website, I may have unknowingly introduced some clerical errors in the process. Many of the English translations are unofficial preliminary translations and likely contain errors. There are some German words in the Contact Reports that cannot be adequately translated into English; consult the [FIGU Dictionary](#). **In all cases, for accuracy, please consult the Contact Report links for context and clarification, possibly newer/corrected translations, and for the German language originals.**

The first few pages of this document contain the list of topics, which are hyperlinked to their corresponding section, i.e. click on the topic to be taken to that section. In some places I have inserted a note *{in purple braces and italics (to show that these are not part of the original text)}* to help clarify something. I have placed some excerpts in **bold purple** to highlight (what I think is) an important point in the text. This is an ongoing project. Additional excerpts, topics, corrections, and comments are welcomed: [dchance@wustl.edu](mailto:dchance@wustl.edu)

*While the topics listed here are certainly interesting, and important in that they attempt to clarify and correct false assumptions, misunderstandings, and deliberate deceptions, it is worth noting the following comment by Billy:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_709](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_709)

### **Billy:**

But it is still tedious to be pestered again and again with these questions, which are, after all, really only knowledge-based, but not consciousness-evolution-based, and thus also not of a spirit-teaching [aka Creation-energy] based matter.

...

Of course, I know that as a rule, sheer curiosity is confused with a thirst for knowledge, but in the process all that, precisely **that which is fundamentally of importance and significance, the 'teaching of truth, teaching of the spirit, teaching of life' or the teaching of the spirit,** comes short [is given short shrift].

*And in conjunction with that, a word from Semjase:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_088](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_088)

### **Semjase:**

131. By the way, neither us and our ships, and our existence, are of importance at all but only the task we all have to fulfil.

*Some words from Billy Meier that apply to many of these topics:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_250](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_250)

Whereby the so-called supernatural of course does not exist in any way, because everything and everything is always naturally explainable and also naturally given. The supernatural exists only in the ignorance and the incomprehension of man, because he has no knowledge about all

those things which he cannot understand and cannot explain himself. Truthfully everything so-called supernatural is absolutely natural and thus also classified according to the corresponding laws of spirit or matter, which are able to give an explanation for everything and everyone, whereby something supernatural becomes a fact of non-existence. Everything that can be grasped and perceived, everything that can be seen and heard and everything that can be felt, recognized, experienced and experienced, etc., is always real, real and natural in every case, regardless of whether it takes place on a spiritual or material level or on a medium level between spirit and matter, which is so often called the level of the supernatural or the supernatural by parapsychologists and esoterics who do not understand it.

*Some words from Quetzal that apply to many of these topics:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_216](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_216)

151. Unfortunately, the human beings of the Earth always tend to search for impossible explanations for things that they do not know and do not understand.

152. And wherever or for whatever they find no explanations, then it must be aliens, ghosts, or demons, and even when that is no longer possible, then it is simply taken to be a miracle, even though there are no miracles within the entire creational realm and, thus, also in the entire universe and in all dimensions.

153. In fact, everything that is seen can be explained, it is just that the necessary insights and knowledge are also necessary for this, and precisely in these, the Earth-humans are still lacking in very many respects.

154. Their cognition and understanding as well as their knowledge and their wisdom are still not so comprehensive that they could understand and explain all things and concerns, etc., which is why, in their ignorance, they call everything that is still unexplainable to them miracles or search for solutions and explanations that fall into the realms of fantasy and error.

*Some words from Ptaah that apply to many of these topics:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_443](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_443)

15. Belief is just very much simpler *than* investigating the effective truth through one's own seeking and one's own cognitive work.

16. Furthermore the fantastic and illusory will sooner be accepted by the Earth-humans than even the truth and reality which appears banal compared to the fantastic and illusory.

17. Therefore it is so that standing on the firm ground of the facts, truth and reality is proscribed while the untruthful, fantastic, and illusory and all the swindling, lies, deceit and slander which is bound with it – which, since time immemorial, have always been booming business – effect the Earth-humans like sweet balm which stills the delight and demand for that which is fantastic and illusory.

18. So lying, swindle, falsehoods, deceit and slander are means through which the human allows himself to be very easily beguiled, because everything is only swallowed and does not have to truthfully be contemplated, while the search for the effective truth and its processing is bound with very much effort and cognitive work as well as with a sense for the recognition of reality.

19. However the irresponsible scribblers – who invent the crazy and unreal as well as unrealistic conspiracy theories, copy the entire nonsense from each other and throw everything to their believers as fodder, and therewith earn much money – know exactly that.

20. That is also the case with the books of the hacks named by you who, without conscience, spread their horrendous nonsense of their dim-witted conspiracy theories and thereby lead their faithful readers into error, convey to them a completely wrong picture of the world and hound them into angst and terror.

#### **Quetzal:**

22. ... much guilt will be awarded for an event that will occur on the 11th of September, 2001 in America, when fundamentalist, radical extremists, who hate Americans, will murder thousands of humans in an act of terrorism, about which I may not mention the closer details officially but rather only tell you confidentially.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_212](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_212)

#### **Quetzal:**

27. The Earth-humans will still cry out in the coming years, when the two B. (note: Bush), as father and son, take over the presidency in America, as I have told you.

28. Both of them will be inharm warmongers and will cause contempt for human life and evil acts of war to be spread into the wide world, in their self-glorification and vindictiveness and in their lust for power, thereby stirring up terrorism throughout the world, but they will also exert themselves under the guise of peacemaking.

29. In truth, they will indulge themselves in a form of terrorism, like earthly humanity has never seen or experienced before.

30. Their terrorism will encounter foreign countries in a war-like manner and will demand many thousands of human lives.

31. But revenge for this will not be missing, for in evil acts of terrorism, they will be encountered by foreign extremist powers in their own country, whereby also thousands will lose their lives, particularly through an act of evil, when the Americans, in their great pride, are encountered by aircraft that are reutilised as destructive and thousand-fold deadly weapons.

**Billy:**

You mean, what will happen with respect to the WTC, as you told me in confidence, an event that will arrive in about 15 years, do you mean that?

**Quetzal:**

32. That is of correctness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_215](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_215)

**Quetzal:**

161. Thus, I will offer Henoah's prophecies in an understandable form.

217. Far in the West, it will be different; the United States of America will be a country of total destruction.

218. The cause for this will be manifold.

219. With her global conflicts which are continuously instigated by her and which will continue far into the future, America is creating enormous hatred against her, worldwide, in many countries.

220. As a result, America will experience enormous catastrophes which will reach proportions barely imaginable to the human beings of the Earth.

221. The destruction of the WTC, i.e., the World Trade Centre, by terrorists will only be the beginning.

222. Yet all the apocalyptic events will not only be brought about due to the use of unbelievably deadly and destructive weapons—such as chemical, laser and others – and by cloned murder machines; but in addition to this, the Earth and nature, maltreated to the deepest depths by the irresponsible human beings of Earth, will rise up and cause destruction and bring death onto the Earth.

223. Enormous firestorms and gigantic hurricanes will sweep over the USA, bringing devastation, destruction and annihilation, as will never have happened before in living memory.

224. Not only will America, but also all other Western industrial countries which still live at the beginning of the new millennium in the delusion that they could dominate and rule over underdeveloped nations, i.e., Third World countries, not only soon lose influence over these but must defend themselves against them.

225. According to the prophecies of Henoah, the truth about industrialised countries is that they only seem to appear to be true civilisations, but in fact they are not; because more and more, at the end of the 20th century and at the beginning of the third millennium, they will disregard all true love, true freedom and true wisdom as well as true peace along with all values of humaneness and of being true humans.

226. But not even all the terrible happenings will hinder the USA in continuing to proceed with its actions against all countries.

227. Even when the North American continent will be stricken by the most terrible catastrophe which has ever been recorded, evil military powers will wreak havoc with computerised and nuclear, biological and chemical weapons, whereby it will also happen that computerized weapons become independent and cannot be controlled any longer by human beings.

228. Overall, this is the most important part of Henoah's prophecies.

**Billy:**

... when the WTC will be destroyed by terrorists with hijacked commercial airplanes, whereby thousands of human beings will die, that Bush junior – and several of his criminal confidants – will then know this but do nothing about it. A criminal act so that Bush gains the upper hand and can move against Islam, of course always under the guise of wanting to free the USA and the world from terrorism. ...

**Billy:**

... *The Americans have for decades - apart from the Indian massacres, slavery and various other atrocious things of the last centuries - committed acts of violence all over the world, including in Vietnam and in Islamic states etc, for which they had to expect that one day they would be presented with the bill for it, which unfortunately happened in a very terrible way on September 11th, 2001 with the terrorist attacks on the World Trade Center and the Pentagon and the fortunately failed assassination attempt on Camp David. Of course, there is no justification whatsoever for what happened, quite the contrary. And it is extremely terrible that many innocent people lost their lives in the process. ...*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_328](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_328)

**Billy:**

But now another question concerning the terrorist attack on the World Trade Centre in New York on 11th September 2001. The speech is about the fact that the American government and especially President Bush had been warned about this event, but that he had consciously and radically put a stop to everything in order to be able to realize his plans for world domination, his greed for the acquisition of resources and land, and the American position as world police, etc., in the form of the 'war on terror' in a worldwide form. And when you consider what he has already done in Afghanistan – like his father, who was not a bit better – you can imagine that the rumour is true.

**Ptaah:**

138. In this respect I am not allowed to give an open answer, since you are writing down the reports of the conversations when you later retrieve them from our recording devices.

**Billy:**

Aha, this answer also says a lot. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_435](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_435)

**Billy:**

*The so-called SOG-TEAM (Special Operations Group) of the CIA (Central Intelligence Agency) actually exists, and this is a damned unpleasant fact, because both the SOG-TEAM and the CIA do not shy away from any murder. The CIA is the real secret US world government, whose headquarters are located in Langley, Virginia. The main task of this secret organization, which functions as an intelligence agency and is a superpower in the superstate, is espionage, for which the US government pumps billions of US dollars into it. It can be said with a clear conscience that the CIA has practically unlimited power and is not afraid of any crime or inhumanity. ...*

*On the 11th of September 2001, the World Trade Center was attacked, and only six days later, on the 17th of September, the monstrous thing happened that is unique in all democratic states in our world and therefore has never happened before: the completely irresponsible, sectarian and self-important US President George W. With his signature, Bush issued a carte blanche for the CIA, authorizing it to imprison or abduct people even on the vaguest suspicion and to use interrogation methods that are beyond all human rights, human dignity and humanity. This*

*applies both to al-Qaeda fighters and to people who are simply suspected of terrorism or of endangering the state etc., which therefore applies both to clear and suspected persons who are involved in terrorism or who are simply suspected of being terrorists and enemies of the state through denunciation or espionage. And the CIA does not have to justify itself to the President of the United States, the Senate or the public about these activities, because the CIA is so powerful that it is completely above the government and even controls it. And consider that the CIA is only one of 15 US secret services - but the most powerful one, which, even through the other secret services and through the FBI and the police in general, lays out its networks and has them under control. So the CIA is not only the secret service that governs and controls the USA, but the whole world. And anyone who does not follow its rules is, in a nutshell, killed hard and fast. The most radical weapon is the SOG team resp. the SOG-Army, which is unique in the history of all secret services of the world and whose elite soldiers are merciless killer robots, who kill out of lust for killing, do not care about law and order, but only kill blindly, if they can only follow their orders. ...*

*If the USA is the largest terrorist state on earth, which acts globally and wants to bring all earthly resources and countries under its thumb, for which every dirty means is just good enough, then the CIA is the largest and state-sanctioned or legalized crime organization that has ever existed on our globe and has no equal. And when, on the 11th of September 2001, the Al-Qaeda terrorists struck New York, crashing into the two towers of the World Trade Center with two hijacked passenger planes and triggering an inferno, another plane was piloted into the Pentagon and a fourth one crashed in the state of Pennsylvania, the power of the CIA grew immeasurably. New anti-terrorist laws were created, which practically wrote carte blanche for the search for terrorists. The press was muzzled and the CIA was given freedoms so incredible that a normal citizen could not even imagine them. However, this could only have happened as a result of the Al-Qaeda terrorist act, which indicates that it was deliberately allowed to happen. The fact is that the CIA, through its spies and informers, was just as fully informed as the irresponsible US President George W. Bush about the terrorist plot being devised by Osama bin Laden, but neither he, the CIA nor any of the secret services did anything to prevent the disaster. There were several reasons for this, because, on the one hand, the terrorist attack had to serve to give the CIA even more unlimited power and, on the other hand, by carrying out this attack with bland and dirty lies, it was possible to dupe the American people and launch the war in Iraq. Furthermore, the expected terrorist attack also guaranteed that the CIA and the other secret services and the US government would not only have to gain more power but also a larger sum of money, which actually happened when the terrorist act was carried out and claimed more than 3,000 human lives, which both the CIA and US President Bush had to accept with cold calculation. There was no reaction on the part of the secret service and Bush or CIA head George Tenet even when, on the 30th/31st of August 2001, the FBI and the CIA arrested a suspect in Minneapolis by the FBI and the CIA named Zacarias Moussaoui, who, as it turned out, was a replacement assassin in connection with a plane hijacking. CIA chief Tenet did not respond to warnings that terrorist attacks were to be carried out using hijacked passenger planes, while also concealing important information from the FBI that would have allowed the arrest of all those terrorists involved in the terrorist disaster. But anything is possible for money and power in the USA, both for the US President and his vassals who are in bondage to him, and for the criminal secret service, the CIA, and all other secret services.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_544](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_544)

**Billy:**

... In recent weeks I have been asked again and again about the events of September 11, 2001 in New York because of the terrorist attack. But there are also broadcasts on television about conspiracy theories concerning the events of September 11, 2001. In this connection, for example, the predominant conspiracy theory is that the US Government itself instigated this

catastrophe and had the CIA etc. pack the two towers full of explosives and then have them blown up, which is why they collapsed. ...

**Ptaah:**

113. ... in relation to the conspiracy theory, which is widespread in relation to 11 September 2001, and not only in the United States, it must be said that this in fact corresponds to a nonsense.

114. Truthfully, everything arose the way the investigations by specialists and the secret services have resulted.

115. Nevertheless, however, there were certain weak intelligence findings in relation to this Al-Qaeda crime, which were also brought to the attention of US President George W. Bush, but which he completely ignored, just as they were not taken seriously to the extent that they should have been by the few people who were responsible for it at the CIA, namely only three persons - who vaguely knew about the findings.

116. The ignorance on the part of Bush himself was based on sheer foolishness, on the one hand, and on the other, on the deeply rooted and only half-way conscious of confused thoughts of having a means of countering the ever-present threat of terror on a global scale, should a terrorist catastrophe occur.

117. As we were able to clarify, the vague cognitions of the three CIA people - two agents and a supervisor - were directed towards the likely possibility of a terrorist attack on the USA, whereby, however, not a single assumption referred to the two towers of the WTC.

118. The assumption was simply of a general nature.

119. In his confused foolishness, the US President GW Bush was unable to calculate the real danger in advance to such an extent that he would have ordered measures that take hold and also mobilized the CIA on a large scale for the purpose of making accurate investigations and taking precautionary nationwide protection measures.

120. And such protection measures would in fact have been possible, as our probability calculations have shown, but, as a result of the failure of the US President and the three CIA people, everything turned out differently.

121. However, this was already noticeable in 1976 like that, when my daughter Semjase made the respective predictions for you, and you were obliged to silence.

122. Then Quetzal made the same predictions for you again in 1986.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_626](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_626)

**Billy:**

.. Then I want to ask you again about 9/11, because a conspiracy theorist, a certain David Ray Griffin, who apparently belongs to a so-called 'truth movement', claims that the hijackings and the destruction of the towers were faked by the US government and US secret services. ...

**Ptaah:**

91. And with regard to Griffin's absurd claims, it is to be said that the whole thing is absolute nonsense and based on deliberately fabricated false 'evidence', whereby Griffin, in his conspiracy delusion, created 'lines of evidence' that have no truth whatsoever.

92. The truth is that everything happened by Bin Laden or Al-Qaida terrorists, as it was made known to the world public and as it also corresponds to what you copied from Wikipedia on the internet.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_672](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_672)

9/11 conspiracy theories: The terrorist attacks on the 11th of September 2001 are alleged to have been either knowingly authorised or carried out by US secret services themselves.

164. FALSE

165. The US President and US intelligence services had only suspicions and vague indications of impending attacks in the US by US-hostile Islamist terrorists, but no knowledge of how, when and where they would take place.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_688](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_688)

**Billy:**

Good, then now a question, because I am asked again and again from all over the world in relation to the events of 2001, when the double attack on the 'World Trade Center' in New York took place on 11.9.2001 and the crazy conspiracy theory arose from this that the US government and the CIA themselves had planned and carried out this catastrophe. At the time, however, you expressly stated that this was absolute nonsense, because the conspiracy theory had come about and been circulated particularly because many people had heard several explosions that had allegedly been caused by explosives and for which the blame was conspiratorially placed on the US government and the CIA. But you have explained that these explosions did take place, not because of explosives, but because the many tonnes of aluminum from the destroyed aircraft melted as thinly as water and developed tremendous heat and exploded when they came into contact with the water from the sprinkler systems, because such thinly liquid aluminum is highly explosive when it comes into contact with water, as you have explained. And the immense heat of the aluminum, which is as thin as water, also melted the steel girders, whose protective concrete shells were torn open by the impact of the planes and exposed the steel, which could not withstand the great heat. According to your explanation, this made it possible for the steel girders to melt and for them to collapse and also for the towers to collapse. But you said – I do not know why, because I never ask for such explanations – that I should keep silent for at least 15 years and not say anything, just as I should not write anything down about it. But now this time is over, and moreover I am asked again and again why the 'World Trade Center' event is supposed to be a conspiracy theory, hence the question whether I am now allowed to speak openly about it and give a correct answer to the questioners?

**Ptaah:**

143. Today there is nothing to prevent you from answering questions; but the reason why I had to impose silence on you is based on our directives, which did not allow us to reveal facts that first have to be investigated.

**Billy:**

You mean in terms of scientific investigations that need to be conducted by Earthlings?

**Ptaah:**

144. Exactly, and such investigations have been going on for some time in the correct manner, consequently the experts are on their way to the correct findings.

**Billy:**

Interesting, though, what took them more than 15 years. But that is understandable, because the cogs of science to their findings and progress turn slowly on Earth.

**Ptaah:**

145. That will change in the more distant future.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_717](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_717)

**Sfath {1947}:**

285. However, also the USA itself will not be spared by this emerging terrorism, especially when at the beginning of the new millennium New York will be hit by much suffering and destruction and terror will claim thousands of human lives.

*(note Billy: World Trade Center = terrorist attacks on 11th September 2001, where at the same time four coordinated aeroplane hijackings took place and these aeroplanes were steered by Al-Qaida terrorists into the World Trade Center, into the Pentagon and into a field near Shanksville,*

*about 100 kilometres east of Pittsburgh in Pennsylvania, resulting in the total death of thousands of human beings.)*

286. It is all caused by the world domination greed of the USA itself, which will stupidly and thoughtlessly train hostile and devious revolutionaries of various countries of South America etc., as well as Arab religious fanatics etc. in a military-guerrilla way, who will be organised in the background in a terrorist way and will later attack the hated hegemonic United States of America and bring thousands of deaths and destruction to their country.

#### **Ptaah:**

39. When then about 13,500 years ago the up to then last Plejaren community of immigrants came to Earth, then this happened in a completely secret form, namely because since the time of 389,000 years earlier other extraterrestrials had come to the Earth in the meantime and had settled down far and wide on all continents, above all the [long-skulled ones](#).

40. In ancient Egypt in particular, they rose to positions of power, waged wars and subjugated tribes of peoples, such as those who called themselves 'Ebraya'.

41. It was these who, in later times, under the leadership of a Negrid Plejaren descendant called 'Avian' (note meaning of name: 'He who gives refuge') – who was, however, called 'Avrahm' by the 'Ebraya' – had joined forces about 4,500 years ago with the still few distant descendants of the ancient Plejaren immigrants who appeared about 13,500 years ago and also begat many descendants.

42. From these descendants begotten between Plejaren descendants and the 'Ebraya', a sixfold lineage of termination then emerged, namely from the reincarnation line of Nokodemion, whose spirit-form reincarnated several times and in rapid succession among the 'Ebraya'.

43. This was after the then messenger Aijum from the Nokodemion line lost his life in the Gobi desert during the warfare of the earth immigrant community about 385,000 years ago and his spirit-form either remained in the earthly realm or migrated and returned, about which unfortunately nothing is known in detail.

44. What is known to us, however, is that the old Plejaren immigrants very quickly mixed with the above-mentioned tribes of peoples, but it turned out that this time, too, unpleasant disputes arose, which led to the fact that, despite the efforts of the heralds, various of these peoples split up and partly also fell into bondage to other peoples.

45. However, when I speak of those peoples into which the Plejaren immigrants integrated themselves, I am not referring to large peoples, but to larger tribes of peoples that did not correspond to complex forms of social organisation.

46. The members of these tribes of peoples, which corresponded to a tribal ethnicity, traced back to a common ancestry, which ensured that a certain mutual cohesion was given as a result of kinship.

47. This, however, did not prevent larger national peoples, who could no longer be called tribes of peoples, but real great peoples or state peoples, from forcibly binding smaller tribes of peoples into servitude.

48. This was also partly the case with the tribes of peoples who had settled around the Mediterranean areas and had mixed with the Plejaren immigrants at an early stage, who were then forced into servitude in the land of the ruling long-sufferers.

49. But the same thing happened to the 'Ebraya' not only by the rulers in ancient Egypt, but also to their distant descendants by the king of the New Babylonian Empire, Nabu-kudurri-usur II, who is also called Nebuchadnezzar II.

50. The proto-tribal leader of the 'Ebraya' was a very distant Negrid descendant of a Plejaren group who had appeared on Earth as immigrants more than 13,500 years ago, who had also mixed with Earth-humans, this proto-tribal leader called 'Avian' living in a land area called 'Plecht', east of the Mediterranean, with a nomadic tribe of 'Ebraya' who called him 'Avrahm'.

...

**Billy:**

... Now, however, something interests me, namely you have said that the Plejaren descendant named 'Avian', who appeared among the 'Ebraya', thus among the early Hebrews, who was then however called 'Avram', had been of a negroid nature, so a black-skinned human being as we say. To that, the question whether this man then also founded a family with the 'Ebraya' and fathered offspring?

**Ptaah:**

71. That was the case, yes, as our handed-down knowledge shows, but this was concealed in the extremely heavily falsified written folk-history of the 'Ebraya' as well as all the facts I have mentioned.

72. In addition, the teaching brought to them of Nokodemion, was extensively rejected and an untrue religious story was invented to the contrary, just as in the same wise was the history of the origin of the 'Ebraya' people's tribes and their descendants.

73. Truthly the records were only written out many decades after the real events by scribes with their own interpretations, ideas and fantasies, just as was the case with the six proclaimers.

**Billy:**

According to the belief of the theistic god-delusional peoples, they are all chosen and commissioned to spread the faith in god in relation to the one single god throughout the Earth. For this purpose, he is said to have made a covenant with Abram the African, the father of the early Hebrew people, at a very early time. He then revealed his insane teachings – which he had obviously made up out of his fingers – to the Hebrew people of that time, who recognised the imaginary god and allowed him to 'lead' them over the millennia, before the temple leader Moses came to the fore and seized power, proclaiming himself as leader and claiming that he had also made a covenant with god on Mount Sinai.

... the Hebrews in the early days had made apparent friendship with the natives, but then had turned over the glove and taken the land, although it did not belong to them, new hatred was created. They had been promised the 'promised land', but it was the wrong one, which the early ancestors of today's Israelis then took possession of. The founder of the original people 'Hebrano' – or whatever they were called – was 'Abram', I don't know exactly anymore, because it's been a long time since I have dealt with this, and besides, much of this and also other knowledge has been lost to me due to the stroke. Unfortunately, only fragments come to mind, so I can no longer put the exact connections together. But I do remember that the founder of the 'Hebrano', or what they were really called, was a dark-skinned man, a man from Africa, so he was different from what is claimed by the Jewish believers.

**Semjase:**

129. Well, you are right with your view that the human beings of the Earth are not descendants of the apes.

130. They were partially begotten by our forebears, who also mixed themselves with Earth beings, who were simply called "Eves" at that time.

131. A designation that means nothing other than ...

**Billy:**

... the bearing women or the one giving birth. ...

**Semjase:**

135. But the Earth beings at that time were of the most diverse forms and kinds.

136. Some of them were completely wild creatures of human-like forms, some of which had been marooned on the Earth in earlier millennia by our forebears, that is, their descendants.

147. The Eves were besides Earth-created hominid living creatures nothing more than very wild descendants of those marooned thousands of years ago, from whom at that time any tools were taken away.

148. They were like wild animals that lived in large hordes.

149. When our forebears finally settled on the Earth, they broke a strict law and inflicted Gewalt on these beings.

150. This means that they cast their spell on the female beings, who despite their wildness were somehow beautiful, and mated with them.

151. From this the first higher developed forebears of today's human beings emerged.

152. They were called Adam in the old language of the forebears, which means human being of Earth.

153. For the first of them, this designation then remained as his name, and you still use it today.

**Semjase:**

151. Semjasa, the supreme leader of all subleaders, copulated with an EVA; a female creature who, according to his understanding, was still preserved as the most human-like and also quite beautiful one.

152. The descendant of this act was of male gender and a human being in good form.

153. Semjasa called him Adam, which is tantamount to HUMAN BEING OF EARTH.

154. Another copulation of the same kind brought forth a female creature, and in later years Semjasa determined that these two Adams had to mate together.

**Billy:**

Well, then is it also correct that Noah was around 3.10 metres tall, while Adam actually measured around 5 metres?

**Semjase:**

**Billy:**

One more question about the Eve-Adam-apple: Semjase said that at the place where Adam was conceived there were no apples. Where do actually those originate that we have in Europe today?

**Quetzal:**

90. In fact, there were no apples in the area where Adam was conceived.

91. Concerning the European apples; these originate from the area of Alma-Ata in the Soviet Union.

92. The primary ancestor form of the apples was the wild apple 'Malus sieversii', if I'm not mistaken.

... Somewhere there was the Four Stream Land with the so-called Garden of Eden, which was also stolen from the Mesopotamian and Sumerian legends and put into the Bible. The Four Stream Country was so called because the Euphrates, the Tigris and the rivers Pirou and Gihon, or whatever they were called, flowed through it. The four rivers flowed there somewhere into a delta, but today the Persian Gulf respectively the Arabian Gulf, as it is also called, exists there, but as of today – in the year 2010 – it was first created about 8,000 years ago by a tremendous natural catastrophe, in which, as in the case of the various other floods, 'tremendous wild waters' surged for thousands of years, thousands of years and even for more than 100,000 years. ...

**Billy:**

... Sfath explained to me then that in pre-biblical times – more than 5,000 years ago – the whole huge area down there in the south of Iraq – where the city of Basra is also situated on the river Shatt al-Arab, which flows into the Persian Gulf about 100 kilometres away – all the way down to 'Dilmun' or to the east coast of today's Bahrain was ruled by the people of the Blackheads, who called themselves 'Saggiga' (Note Bernadette: Sumerians) because of their black hair ornaments. The whole large area was an unusually fertile and completely green area with a diverse animal and plant world, so to speak a huge paradisiacal natural kingdom with fields, meadows and forests. Dilmun, today's Bahrain, was also a large city in pre-biblical times and an important trading centre, for its strategically favourable location on the sea trade route between Mesopotamia and the Indus Valley was ideal and also promoted the prosperity of the entire country, from which many food products were obtained and shipped. The then flourishing and green region was also blessed with a large supply of fresh water from artesian springs, which, however, have dried up today. ... Sfath explained to me that this then vast fertile and paradisiacal area was that which is referred to in the Bible as the 'Garden of Eden' and where Adam and Eve are said to have been created. This Adam-Eve story, however, your father explained, did not lead back to the 'Garden of Eden' and thus not to the giant paradisiacal area far above the Persian Gulf down to Dilmun or today's Bahrain, but rather to the Babylonians, who invented this fable, which was then adopted by other peoples of that time on the one hand and on the other hand stolen from the ancient Hebrews and later practised as the story of the origin of human beings in the Torah and even later by the Christians in the Bible. Sfath said at the time that the original 'Garden of Eden-Adam-Eve fable' had corresponded to a completely different version, but which I have largely forgotten, which is why I want to ask you whether you are familiar with this version and whether you can give it to me again?

**Ptaah:**

22. ... the basis for it originated in Dilmun, namely by creating a legend that described 12 clans that came with all their relatives from a foreign region beyond the great mountains (Note Billy: The Persian Za-gros Mountains bordering Iraq are the only ones in that region above the Persian Gulf) high in the north and towards sunset (Note Billy: This indication points to Turkey's being the only one in the region above the Persian Gulf). Billy: This refers to Turkey), after which two young human beings, a woman named Udnare and a man named Udnadistin, who were very fond of each other, planted their first large garden together, planted all kinds of fruit and vegetables and soon produced two offspring, who were named Nerafton and Biratin.

23. These went as young men to look for wives in other areas and returned with their wives and other human beings to Dilmun, after which slowly over many decades the whole paradisiacal land was settled and became known everywhere as paradise, especially because from Dilmun a very active trade was carried on with various other countries.

212. This is the center of the actual secrets that hold a gigantic power in themselves.

213. This city is controlled by the race of the Sons of the Sun.

214. But unfortunately, a tendency toward earthly world domination also prevails with this race, just like with certain earthly religions and secret societies.

194. But Mu was also destroyed and ceased to exist, leaving only the underground city of Agharta.

...

203. Mu had been a land, and likewise, the capital.

204. Mu was a country like any other.

205. However, the city on the surface and the underground city of Agharta, each ruled by a man and a woman, were created by extraterrestrials.

206. Neither the country nor the cities were of special importance, except that they had been built and inhabited by extraterrestrials from the Lyra system and also destroyed again.

**Semjase:**

117. Agarta is built very deep in the Earth in two parts, each in a size of the city you call Zurich, i.e., the Agarta under the Gobi desert is about 1/6 smaller than Zurich, while its satellite city is about 1/4 smaller.

118. Both cities are called Agarta, but have the additional names Alpha and Beta.

...

121. Agarta Alpha is located several thousand metres below the surface of the Gobi Desert, but I am not allowed to give the exact location.

122. Agarta Beta is also underground, but is located below the Himalayas.

123. Agarta Beta includes, besides the city itself, a huge area of cave systems, which are almost uninhabited today, but were inhabited by subordinate human beings at that time.

124. The cave systems were the actual dwelling places of the people, while Agarta Beta was the administrative centre, which in turn was under the higher command of Agarta Alpha, which stood as the absolute centre of the two Agartas.

125. Both cities were connected by a 200-foot wide and 130-foot high underground tunnel, which corresponds to a size of 65 x 40 metres, which is not very exactly expressed by me.

126. However, the connecting tunnel was almost completely destroyed and not repaired during the great catastrophe of Gobi.

127. Today, for example, there is only a narrow connecting corridor, which makes weak traffic possible.

**Billy:**

So Asket told me. But now there is a man regarding Agarta whose name I have unfortunately forgotten, who has been appearing here and there for about 10 or 15 years, claiming that he is the Lord of the world and the supreme boss of Agarta. What do you think of that?

**Semjase:**

128. The existence of this man is unknown to me, but it is clear that he is a fraud.

129. The residents of Agarta would never go out to the world in public, because there are neither reasons nor interests.

130. On the other hand, this would be far too dangerous for him, but also for Agarta itself and its inhabitants.

**Billy:**

... It has been said since time immemorial that King Alexander III of Macedonia i.e. Alexander the Great was murdered by poison in Babylon. However Quetzal explained to me in 1984 that this wouldn't correspond to the truth. He told me that at the age of almost 33 the king had fallen

ill with the West Nile virus during his war campaigns in Babylonia, namely in Babylon in the year 323 B.C., whereby he had been treated by his doctors with all kinds of healing juices and beverages. One of the juices would have been a brew of 'white hellebore', and this brew would have finally led to the death. If I remember Quetzal's words correctly, the brew was used to irritate Alexander's throat several times a day with a buzzard feather soaked in it to induce a vomiting. The opinion of the doctors at that time – always according to Quetzal – was that it was assumed that vomiting would be extremely beneficial against fever, headaches, nausea and cramps as well as all kinds of other terrible things. This procedure with 'white hellebore' would then have caused the death of 'Alexander the Great' after 12 days or so, which however had not been intended by the doctors. 'White hellebore', or simply 'false helleborine', as the plant is called, grows in many countries and is highly toxic, and to my knowledge the poison also finds use in homeopathy, especially for diarrhoea with vomiting, dysentery as well as for collapse states and circulatory weaknesses. For my part I know the plant from the Alps and the Pyrenees as well as from the Jura, where the 'white hellebore' belongs to the typical flora, of which basically everything is very poisonous, so the rootstock and the roots as well as the whole stem, leaf and flower structure. And what else has to be said about 'Alexander the Great': He was a murderer without thinking, who himself murdered his best friends at will and was immensely addicted to conquering, which is why he also created a gigantic empire through campaigns of conquest, which spanned from Macedonia to Egypt and as far as Persia and India, and that within only a few years – from 336 to 323 BC —, during which he was king. Everywhere he designated the capital cities after his name, namely Alexandria or Alexandropolis. If I remember the history lessons correctly, he was born in Pella, Macedonia (Greece), in 356 BC. His father was King Philip II of Macedonia, who was treacherously murdered, which Alexander was able to witness secretly, which subsequently shaped him into a multiple murderer himself, but which did not prevent him from being a scholar of Aristotle. But now the question, why should 'Alexander the Great' have died unintentionally due to the brew 'white hellebore' if the brew was actually used as a medicine? Do you know anything about that?

**Ptaah:**

28. 'White hellebore' i.e. false helleborine belongs to the family Liliaceae and thus to the lily family.

29. The plant goes by the Latin name 'veratrum album, Linn' and is indeed very poisonous.

30. In prehistoric Greece, 'white hellebore' i.e. 'veratrum album' was the most important medicinal plant altogether.

31. It was regarded as the central medicine of the herbalists, the root diggers, for whom the plant was regarded as carrier of magical powers, hence they approached the plant only using shamanic rituals.

32. 'White hellebore' was considered a holy 'Plant of the Gods'.

33. The most important application of the root was its use as snuff, in other words it found a nasal use to trigger artificial sneezing, which was intended to make disease ghosts and demons leave the diseased body.

34. The poisonous active substances of the plant are steroid alkaloids and steroid-like alkaloids, with three ester alkaloids to be mentioned as the main active substances, namely Germerin and Protoveratrine A and B. But to answer your question now:

35. 'Alexander the Great' was indeed not murdered but died due to a so-called 'medical professional error'.

36. The king was indeed infected by the West Nile virus, lay seriously ill down and was treated by his personal physicians with all kinds of ointments, decoctions and brews.

37. And in fact it happened, the way Quetzal explained to you, that 'Alexander the Great' was being treated daily with a 'white hellebore' brew, just as you said:

38. A bird of prey feather was dipped two to three times a day with the tip into the brew to then be inserted into the king's mouth.

39. Thereby the palate was tickled until a vomiting occurred.
40. This procedure was repeated daily for about 12 days, causing 'Alexander the Great' to be unintentionally poisoned in small amounts without receiving a lethal dose all at once.
41. In this manner, the poison was slowly accumulated in his body and namely until the dosage was that large that the man died.
42. Still to explain is that with an intake of 1-2 grams of dried powder 'white hellebore' and with higher fever the entire arrangement brings forth a deadly effect.
43. In smaller quantities, 'white hellebore' can very well serve as an effective medication.

**Billy:**

It's scary to die like this. When I think of how the man must have suffered, regardless of whether he was a multiple murderer or not ...

**Ptaah:**

44. It is not to be wished to anyone.

40. Already often, beings from foreign races have come to your Earth and have undertaken their expeditions here.
41. They collected various things that could be of service to their investigations.
42. And it will also happen again and again that such beings will come here and pursue their studies.
43. They come from the most diverse worlds and systems.
44. They are often still new in the field of travel in outer space and, therefore, carry out expeditions to expand their knowledge and cognisance.
45. Thereby it can happen that they unintentionally come into contact with the Earth-humans, only to in such a case never come back again.
46. They do not crave power and the like, as they are glad that they finally have serenity and order in their own worlds.
47. With them, it can also happen that every now and then they take some Earth-humans, bring them into their beamships, and examine them very closely with their apparatuses and determine their anatomy most exactly.
48. However, they let these human beings go again without exception, as they do not want to harm them.
49. They are often more humane beings than the Earth-human.
50. But unfortunately, rather barbaric beings also travel outer space and come to Earth every now and then.
51. Many among them are power-hungry and evil.
52. With them, it can happen that they kidnap and abduct Earth-humans (also other planetary human beings of other systems) and bring them to their home planets.

54. The Earth-human and all other inhabitants of other worlds must beware of these creatures, for in their maliciousness, they often use the worst form of Gewalt.

Then several of the UFOs observed around the world are not UFOs at all, but simply terrestrial 'flying discs'.

**Ptaah:**

397. That is so, yes.

398. Often they are also forced to make emergency landings because their constructions, devices and apparatus are still very inadequate. ...

401. If distressed ships of this kind are approached by observers, by which I mean that they go near them, then they are often frightened by the occupants, or even abducted and deported, in order to ensure their absolute silence.

402. Such occurrences are unfortunately not uncommon on the Earth, but through the ignorance of human beings and various unreal 'enlightenment striving' groups they are invariably attributed to extraterrestrial life-forms.

403. In truth, there are probably also malignant intelligences from outer space that haunt your Earth or stray there, but there are not so many of them that they would be of great significance.

404. Most observations of 'flying discs' with human predations are of terrestrial origin.

405. Earth-humans should be aware of this when they encounter any 'flying discs' whose occupants are well aware of the fact that very many human beings believe these objects to be of extraterrestrial origin.

11. These intelligences are striving to bring the planet Earth and its humanity under their sovereignty.

12. For this they make use of very unfair means, and do not even shy away from human abductions.

13. They are one of those groups which operate with the earthly religions, and which successfully profit from it, as unenlightened Earth-humans get into connection with them and become religiously influenced.

14. Misled by these intrigues, the deceived contact persons then work unconsciously for the evil purposes of these troublemakers, and step by step they slowly bring them closer toward their goal.

15. Namely the goal, means the domination of the Earth and of the Earth-humans, which these intelligences have already been working towards for thousands of years.

16. Unfortunately, the deceived ones often come out of their silence, and spread the religion-induced misguidances that these ill-intentioned liars have given to them.

17. And they achieve great success through this, as you already well enough know, because the Earth-human is exceptionally strongly trapped in unreal religious paths.

That is known to me, but what does this have to do with these "birds"? To which group do they belong? Are they perhaps members of the 'pyramid moles'?

18. If you mean the Giza intelligences, then I confirm it.

**Billy:**

But you had in the past mentioned that humans are also kidnapped by aliens in the Bermuda-triangle.

**Semjase:**

188. Sure, but it is as rare as it is on all the rest of the Earth.

189. For those abductions mainly the Giza-Intelligences are predominant, together with time travellers and other elements of the universe.

190. However, these incidents are truly very rare and count for less than 0.02% of all abduction cases on the Earth.

**Semjase:**

14. In their lack of understanding and in their ignorance the erroneously lead ones seek fantastic explanations in technological, paranormal and purely intellectual areas, whereby the most impossible hypotheses are presented, and indeed also in the form that we are angels and God's messengers or that we come in evil and world-conquering, as well as with Earth-human abduction, intentions, etc., which of course all corresponds to evil nonsense.

15. In the main, these erroneously lead ones deal with purely sectarian and esoteric-parapsychological deficiencies as well as with the technical possibilities and construction methods of our ships, whereas they completely disregard our important task itself and the associated values and have no idea of it.

16. This is typical for the human being of the Earth, because he/she always reaches only for the material and completely overlooks the fundamental values, namely the spiritual and consciousness-based ones, about which he/she then makes up unbelievable fantasies and even claims that jet ships and spaceships, etc. are driven by spiritual forces and that they are also built according to spiritual models, etc.

17. This is as malicious a misleading claim as the one that we were moving in paranormal realms.

18. The greatest nonsense in this direction is created by those circles, which they call parapsychology circles, etc. which deal with those things and concerns which are incomprehensible to them and which are not understood in the least.

19. And it is precisely these circles that do the most malicious and misleading subversive activities in order to hinder and prevent the finding of the truth, which is only surpassed by those who are supposedly engaged in the purely material form of semi-scientific and fully-scientific investigation of the possible existence of our flying machines and ourselves.

20. But their actions are only a delusion, because in reality they are possessed by illogicalness and are still trapped in very material earthly and misleading forms of thinking, whereby they are unable to gain any knowledge and accuse anything and everything incomprehensible to them as lies and deception, whereby they feel very great and feel a megalomaniac satisfaction in themselves.

**Quetzal:**

81. Moreover, these {Sirian} renegades and 'Black Men', as we also call them, and these have nothing to do with the so-called 'Men in Black' who are of earthly origin and, thus, who are secret-service driven Earth-humans, who strive to induce real visions and hallucinations through apparatus-driven, suggestive impulses in Earth-humans who are susceptible to these.

82. Their repertoire ranges from fake sightings and observations as well as alleged abductions up to simulated contacts and sexual intercourse with extraterrestrials, from which alleged

pregnancies occur that, if they already appear, are caused quite normally with an earthly partner or by artificial manipulation of a medical nature or one's own nature.

83. Also through these extraterrestrial 'Black Men' the illusion is produced in susceptible Earth-humans that somehow, through carelessness, etc., things penetrated into their body unnoticed, such as the incidence of metal fragments or small projectiles, etc., implants of extraterrestrial forces and beings, which is absurd, of course.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_230](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_230)

**Billy:**

... However, just say, what do you think about more and more people claiming that they have been kidnapped by extraterrestrials? Women claim that they were pregnant by extraterrestrials and then later the procreated children were extracted from them and brought to a foreign world. Others – also men – claim that they were abducted by extraterrestrials and medically examined or provided with implants.

**Quetzal:**

577. In 9999.09 cases, this is a senseless imagination, as our latest investigations have shown.

**Billy:**

That is also my assumption. If all the nonsense about contacts with extraterrestrials regarding abductions and examinations by extraterrestrials, etc., worldwide and especially in North, Central and South America were to correspond to the correctness, then the Earth would be teeming with extraterrestrials. In fact, one would then only have to encounter extraterrestrials every step of the way. As I see things, it is as a rule a matter of notorious imaginations that lead to beliefs and delusions, whereby exceptions, as you say, amount to just about 0.01 cases per 10,000. The origin of these imaginations can be manifold, such as e.g. religious or sectarian belief, anxiety, gullibility, influencings by lies and fantasy stories of liars, swindlers and charlatans or jokers, etc. and so forth. And once notorious imaginations have arisen in the human being through thoughts and feelings, then these have such a mighty effect on the psyche and the consciousness that a mania emerges, from which in turn a delusion develops in the shortest time. Once this has developed, then the same happens as with notorious lying, namely that no distinction can anymore be made between lying and truth. In the case of the notorious illusion – which, to my knowledge, is still unknown to our earthly psychologists and psychiatrists and does not make sense to them either – it is no longer possible to distinguish between illusion and reality. Just as the notorious liar considers his lies to be effective truth and reality, so also the one who is in the grip of a notorious illusion sees his illusions as effective truth and reality. The ability to distinguish is destroyed. In this state, the person affected by the delusion of imagination no longer recognises the reality, because also his/her content of memory had been built up delusionally by the manic illusion. And the fact that the whole is also transferred to the subconscious and manifests itself from there again into the consciousness is only the end result of it all. Therefore, it is also no longer surprising that even through a process of hypnosis only the delusion of imagination is expressed and reflected. For through the hypnosis the fixed delusion of imagination is mobilised, whereby the hypnotised person does not reveal the effective truth, but only the facts of the delusion of imagination, in which everything is regarded as truth and reality. But there is even more that happens in this delusion, namely that the persons ill with the delusion of imagination, because that is whom we are dealing with, also imagine things such as marks of wounds and burns in such a delusional way that these actually form on the body or on the limbs and these can even hurt. We are talking here about a visually and organically observable form of psychosomatics and psychosomatosis, which can ultimately even lead to acute psychoneurosis and thus to psychogenic disorders, such as for example compulsive neurosis, depressive neurosis and anxiety neurosis. In some cases, even a somatoform disorder i.e. a personality disorder may occur.

**Quetzal:**

295. There are many irresponsible freeloaders who make big deals and immense profits with the UFO believers because they are cheated and financially exploited by the liars, swindlers and swindlers as well as charlatans.

296. This is how many people appear who knowingly and fraudulently claim to be in direct or telepathic contact with extraterrestrials, believing that the innocent are in full swindle.

297. On the other hand, your truthful contacts with us are vehemently denied by know-it-alls and opponents, envyers, autocrats, image addicts, sectarians, etc., and you are portrayed as a liar and a fraud, despite all the irrefutable evidence you can produce; evidence that no alleged contact person can produce.

298. But all this will intensify in the time to come, with the UFO believers running after all the contact swindlers without hesitation, courting them and going astray.

299. Increasingly many will claim through lies and deceit that they are in personal or telepathic contact with Semjase, with Ptaah, with me, or with others of our races, as well as with higher spirit-forms of our planes, in personal or telepathic as well as channeling contact.

300. But everything will only be lies, deceit and dizziness, because no human being on the Earth apart from you will be able to come into any kind of contact with us, just as we will only be able to come into contact with you, for which you know the reasons.

301. Nevertheless, in the next few years a contactee psychosis will spread across the Earth, as well as a true extraterrestrial delusion and a kidnapping delusion by extraterrestrials will appear in relation to belief in all imaginable and unimaginable extraterrestrials.

302. Thereby, through the extraterrestrial fairy tale, will create a financial violent business that will far exceed the previous one and will be coupled with esotericism and parapsychology.

303. This will benefit the secret plans of the countries which are doing their mischief with the flying discs, which is why they are very diligent in their machinations, which they then ascribe to aliens through their information channels, e.g. certain machinations with crop circles, animal massacres and alleged abductions and harm etc. by alleged aliens, in which all sorts of pretences are made by hypnosis and even foreign bodies are implanted in the 'abducted' etc.

304. Thus all possible and impossible aliens are invented, so that the secret plans and machinations can be carried out unchallenged, whereby however also the fear of aliens is stirred up and driven up.

305. So it is a fact that since 1945, when the plans of the air disk technology fell into the hands of the Americans, Russians and English, with few exceptions the whole earthly mankind is lied to and deceived, and to it every means is right – also alleged activities of extraterrestrials.

306. And all those fools, irresponsible, criminals, deceivers, liars and swindlers etc. in matters of alleged contacts with extraterrestrials, spirits, dead and higher beings are co-responsible for the fact that the secret machinations can be promoted in relation to the flying discs, because with their lies and deceits they promote everything still.

**Billy:**

... Also the so-called 'Little Greys' play a very important role, which allegedly in the USA about three million people are said to have insisted, impregnated and maltreated with operation scars and painting etc. ...

**Ptaah:**

37. Which, of course, is sheer nonsense and has no reality at all.

...

**Billy:**

My question refers once more to alleged contacts of human beings of Earth with extraterrestrials, whereby the specific is directed at claims which in my opinion sound quite

ridiculous. Apart from the approximately three million human beings who were in America allegedly harmed by extraterrestrials and subjected to all kinds of tests, whereby many women supposedly developed pregnancies and the 'Little Greys' allegedly then stole the hybrid children after the birth, the kidnapped and harmed human beings of Earth would after the tests have often suffered from pain and complained about operation scars and burn marks etc....

**Ptaah:**

73. This of course does not correspond to the truth, but to an unbelievable nonsense, which fanatical or otherwise incapable UFO- and ghost believers only too gladly want to recognize as real truth and believe in it rock-solidly, although not a word of the whole dizziness corresponds to the truth, which is well-consciously invented and controlled by certain organs for deception and scaremongering, in order to achieve certain goals.

74. In addition to these organs and persons, however, there are still many UFO-phantasts, who are mostly burdened *by sectarianism*, who themselves care for their bodies by teaching themselves wounds and burns, etc., by implanting crystals or pieces of metal into their flesh and letting everything scar in order to then claim that they have been kidnapped and persecuted by extraterrestrials, of which the scars and burns, etc. would testify.

75. Incompetent hypnotists, who then subject such persons to so-called 'truth hypnoses', then claim that the information given in hypnosis by the hypnotised would unfailingly correspond to the truth, because hypnosis could not lie.

76. However, it is never taken into account that a person in a hypnotic state can tell and pronounce the worst lies just as untraceably as is the case with the so-called technical lie detectors, without the specialists being able to recognize the lies, because the technical devices of this kind on earth are still so imperfect that they can be outwitted with simple and man's own means.

...

80. ...there is still to explain that many UFO phantasts and the like on their bodies use existing old scars, marks and other things actually also to claim that these signs would originate from embarrassments, tests and operations of extraterrestrials, by which they were kidnapped etc.

...

82. It is often precisely those elements that spread such stories in public in a lying, fraudulent or dizzying and charlatanic manner that are to blame for the fact that these scams, deceptions, lies and charlatanies are spreading more and more in Europe.

83. Their number in Europe, especially in Germany, is constantly growing, and unintelligently the Televisionsanstalten are still reaching out their hands to these swindlers, liars, swindlers and charlatans, etc., by dedicating their programmes to them, through which the unbelievable nonsense of the phantasts, the imagined and the insane, etc., can be heard. which will be broadcast to all countries, which will misinform and misorient the spectators, and which in turn will create new phantoms, liars, deceivers, charlatans, sectarians, delusionists and so on.

84. Journals also contribute to this, such as the magazine you sent me and many others of the same kind, thousands of which are produced and distributed all over the world, read by misguided and faith-dependent people and taken as hard cash.

85. And if you follow all these things, then you will find their origin in America.

...

88. The delusional faith of the believers, which also includes the UFO phantasts, UFO sick, UFO fanatics, ghost believers and crop circle believers, as well as all other believers, fanatics and sick who believe in unreal things, in no way allows them to accept even an icing on the cake of the actual truth.

89. They all want to be deceived because they are not stable and not mature enough to take their lives into their own hands.

90. Truthfully they seek the entire responsibility in higher levels, with a God, with angels and saints as well as with spirits and extraterrestrials etc., to whom they are so firmly attached in

faith that any attempt to explain the truth to them is almost hopeless.

**Billy:**

When Earth-humans are lifted into extraterrestrial flying apparatuses and examined by extraterrestrial human intelligences for examination purposes, you do not call these processes actual contacts, but rather investigation contacts. Together with Hans, I have coined the term 'examination contact' in this context. Could this term be used?

**Ptaah:**

22. This terminology is actually very good.

23. Examination contact.

24. This term also removes the sting from untruth that terrestrial humans would be kidnapped by alien beings.

25. The truth is that the Earth-foreigners, the exterhumanoids, see nothing wrong and above all no abduction in their examination contacts, but only a humane means to an end, in order to carry out incidental studies from which new knowledge etc. is gained.

...

**Billy:**

... But now back again to the alleged abductions of earthlings by extraterrestrials: Especially in America and South America and recently also in Germany such assertions occur again and again, whereby various attempts have been made to prove the 'truth' of the statements by hypnosis. If the assertions were correct, then already more than 3.5 million earth people would have been examination-contacted and many women, particularly Americans and South Americans, would have been impregnated. It is even absurdly claimed that children have already been born from such impregnations, half earthly half extraterrestrial – called hybrids.

**Ptaah:**

154. Everything corresponds to unbelievable nonsense.

155. First, there have been very few incidents of examination contacts for years, and second, there have been no impregnations of Earth women by extraterrestrial intelligences.

156. The so-called hybrids, reported by unreasonable newspaper and journal makers, are nothing more than abortions and mutations of a purely terrestrial nature, which are due to genetic damage, etc., caused by the parents or by environmental influences of a highly harmful nature, which can be very diverse.

157. There is no doubt that at present there are no descendants on earth or anywhere else on earth who have been conceived by extraterrestrials with earth women or by meerkats with extraterrestrial women.

158. Other claims correspond to infamous lies and slander, no matter whether they come from Elisabeth Klarer or from some other lunatics who currently claim this.

159. Even such assertions made under hypnosis usually correspond only to lies and slander, which are either invented by the hypnotized themselves or are tricked in by third parties or even by the person who carries out the hypnosis.

160. In complete contrast to the assertion that people under hypnosis would not lie and cheat and thus always tell the truth, there is the fact that under hypnosis one can lie and cheat just as in the normal state without hypnosis.

161. And exactly this fact is exploited by many in the matter of UFOs and alleged kidnappings etc., because the persons concerned want to make themselves great and distinguish themselves with it.

162. Often only a hypnotic state is faked, which is not difficult for humans and cannot be determined and recognized by the inexperienced hypnotists of the earth.

163. In this state of pretence, people lie and cheat just as they do in real hypnosis.

...

**Billy:**

The three groups that fly in and out of the earthly space besides you once had real contacts to earth people?

**Ptaah:**

174. No

**Billy:**

But did they have any examination contacts?

**Ptaah:**

175. That only applies to their two groups.

**Ptaah:**

50. We were just talking about those who had played an important role up to that point, namely the three groups that we had discussed in one of our last conversations.

51. In addition to these, there are a few other groups of extraterrestrial origin that fly to Earth and can be observed here more often, but none of which is in contact with any Earth-humans, neither on a private nor on a military or governmental basis.

52. Some of them come to earth purely for excursions or expeditions, others have other interests, but none in the way that the hysterical Americans portray this with the impregnation of earth women by Earth alien intelligences or the impregnation of Earth alien women by men of Earth.

53. The nonsense about massacring animals etc. etc. can also be forgotten, for such things do not apply either.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_257](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_257)

*The nasty machinations of the government, military and secret service people in respect of the demonizing of extraterrestrials have increased ever more since 1938 – indeed slowly and successively, thus, however all the more incessantly and expansively, until in the eighties, essentially, the greatest machination for the bedevilment of extraterrestrials began – through a shifty structure in the fashion of the secret service, as well as miscellaneous UFO and extraterrestrial enemies. Stories came about like the ghastly human and animal mutilations, the theft of human babies and the impregnating of terrestrial women through foreign visitors out of outer space. Horror stories were also disseminated about subterranean laboratories and the inhuman experiments taking place there. Were that still not enough, because the angst of the extraterrestrials wreaked even worse blooms, like, for example, it would be asserted that women impregnated by aliens would, after some months, have the baby growing in the womb snatched out to be allowed to finally grow further in a fluid-filled incubator, etc., in order to breed up a new humanity, etc. using these hybrid children. A further horror story was that the earth humans would be abducted, in order to take their genetic material that would be necessary for the extraterrestrials' further breeding of humans, who would serve as, so to say, nourishment providers, because the evil foreigners out of the depths of outer space supposedly nourish themselves on human blood. Similarly, it would also be asserted in respect of the animal mutilations in America, whereby the related far-fetched feeble-mindedness that namely beef blood demonstrates a genetic relationship with human blood, therefore the mutilated cattle would have their blood sucked out to store in the blood banks for crisis times – naturally through the evil extraterrestrials. Yet even that is not enough, because still many other assertions, slanderings and lies, and clearly to be recognised as feeble-minded, are put about, through which the humans are led into error and would be shifted into angst and terror, as has had manifold success, and certain mass hysteria has been released by a worldwide group of certain earth humans, which also leads to feelings of hate, etc.*

**Billy:**

But do you know to what extent other extraterrestrials maintain contact with Earth-humans, I mean with normal citizens and so on?

**Ptaah:**

51. Mostly, once in a while, from time to time unwanted contacts with Earth-humans arise, or then very rarely examination contacts are carried out, which are about examinations and tests etc.

52. But I have explained this to you before.

53. We do not know of any continuous contacts between extraterrestrials and Earth-humans, but they could still exist under certain circumstances, which however, is unlikely.

**Ptaah:**

30. Regarding the luminous objects that light up, seem to hang in the air, seem to divide into several objects, move away from each other, approach each other again and merge again, the following can be explained:

31. All the observers and witnesses of such sightings are deceived, because they are in no way extraterrestrial flying apparatuses or UFOs, as terrestrial people call the objects, which can be seen especially in many places in the USA and all over the world.

32. The secret machinations of the responsible authorities and offices in the US-America are responsible for these appearances of these light objects, but this is to remain secret, not only for the American, but for the whole world population.

39. To the secret machinations in this regard belong also still various others, which are to point out actions of extraterrestrials, like e.g. the alleged kidnappings of earth people as well as the massacring of cattle etc. by alleged extraterrestrial beings.

40. The fact that hypnosis is also used for allegedly affected people, as it was the case with the fraudulent moon landing in 1969, should be absolutely clear for every reasonable person.

**Billy:**

... The electromagnetic vibrations from electronic devices as well as strong Earth-magnetic vibrations are indeed really not harmless, because hallucinations, aggression, depression, low morale and discord – indeed also the phenomena of "ghostly apparitions" – can even be provoked which have no connection with acute or stored mental vibrations, respectively fluidal powers, rather, are based, as a rule, on fantasies and imaginations which are normally simply caused by states of angst. The basis for this can really be very strong electromagnetism, for example, by way of electronic devices, and so forth, or it can simply arise as a result of a strong magnetic field of the Earth. Extremely low-pitched sounds from electronic devices and other things as well as from nature, which cannot be perceived by the human ear – so-called infrasound – can cause strong vibrations, in the case of objects and with the human body and all its organs, such as, for instance, also in the eyes. The consequences of that are hallucinations and panic attacks as well as depression, discord and negative moral states, because the thoughts and feelings as well as the consciousness succumb to confusion as a result of the vibrations. In the said form, there is a connection among infra-sound, electromagnetism, and ghostly apparitions. Infrasound and electromagnetism can trigger the internal attack-and-escape mechanism of the human being as well as panic attacks and hallucinations, and so forth, and it is especially the case if one is in a spooky or weird-looking place, in a depressed mood or in a mystical situation, and so forth. That which is decisive in this regard is that the sense of the human beings is under great tension, whereby he perceives the environment and his situation, and so forth, as a threat. In this state, then "ghostly apparitions"

can be seen or strange, ghostly sounds can be heard, or unreal touches can be felt, and so forth. Strong electromagnetic fields have effects on the human body and its organs, which therefore also includes the brain and consciousness as well as the thoughts, emotions and the psyche, which lead to hallucinations, whereby the human being sees, hears and feels things which are not real. Electromagnetism and infrasound produce an effect on the human brain in such a way, that, for example, the feeling is created that someone strange is present – a ghost, and so forth, because he cannot be seen, or can be dimly seen as a result of the imagination. Faces and figures can also be seen and sounds as well as unreal breathing, and so forth can be heard, or, in the same way, unreal touches can be felt. Thereby the human being can become increasingly insecure and anxious, because the activity of fantasy and the imagination increases and everything is considered absolutely real, as for example in a similar manner to the way human beings appear who believe that they have been abducted and examined or impregnated by extraterrestrials and later have their foetuses stolen, which, in regard to pregnancy, naturally, only applies to women. With all of these human beings, fantasy and the imagination – so to speak – go mad, whereby everything is of such a strong nature that the fantasy images and the imagination appear absolutely real – all caused by infrasound, or by strong electromagnetic fields. And human beings who succumb to this, consider everything to be real, and believe that it is truthful reality, in such a way that, consequently, even polygraphs and interviews under hypnosis can be withstood.

Lie stories, as they have been and continue to be spread all over the world regarding alleged alien contacts and alleged alien abductions.

**Ptaah:**

21. Which, unfortunately, many humans of the Earth consider to be reality and truth without hesitation.

**Billy:**

While denouncing effective reality and truth as lies and deceit.

**Ptaah:**

22. That is unfortunately the reality, which is why you are slandered and insulted, because they banish the truth about your contacts with us into the realm of deceit and lies, while they elevate all swindlers, liars and cheats of both sexes and let them lead you astray.

**Billy:**

This cannot be changed, because, as the saying goes, the world wants to be cheated and lied to. The truth therefore counts for nothing, but only lies, deceit, charlatanry and forgery. But let us leave that alone, because talking about it is useless. Every human must reach the truth himself through his own reason and through his own intellect.

**Billy:**

... I am frequently asked, especially from the US and Mexico, about the sporadic appearance of small white objects at high altitude in the sky. I have also been sent a video showing such objects – white, round things that appear like small moving clouds that often change their position and sometimes seem to merge into each other, but then separate again. There are hundreds of such things at a time. To me it looks as if they are small cloud-like formations, which, as with larger similar phenomena in relation to earthquake lights, are caused by natural phenomena, such as gas concentrations, and by earth electromagnetic oscillations and energies, which are then mistaken for UFOs in the sense that they are extraterrestrial jet ships or flying machines. Also the earthquake lights are interpreted again and again as UFOs of extraterrestrial origin, because they often have forms which look like any futuristic flying objects.

These often shining electromagnetic objects also have the property, as you have explained to me, that hallucinations are caused in some humans, which are often based on the fact that some humans consider everything to be real. Very often such hallucinations lead to illusory experiences in such a way that the hallucinators see themselves as abducted by aliens, especially with regard to small grey males with big almond-shaped eyes etc. False memory images are created by the brain, which feign something experienced without actually happening. A phenomenon that also occurs in such humans in a state of hypnosis. As you once explained, in the hypnotic state stories and experiences are created in the brain that seem completely real, but are not real and therefore never happened. If I remember correctly, these hallucinations are triggered in the cranial and temporal lobes. So it follows that the alleged abductions of terrestrials by extraterrestrials are based on pure hallucinations, as well as all the associated stories of alleged medical examinations, impregnations, robbery of the foetus, of strange time gaps, the local displacement of the allegedly affected, the switching off of lights and car engines etc. Of the hundreds and thousands of allegedly abducted humans all over the world – with the USA leading the way – the truth is that only two authentic cases in the last 240 years can be mentioned, as you recently explained to me in a purely private conversation. Even the fairy tales of alleged implants etc. are based on hallucinations or on events in which the person concerned has unnoticed in some way a foreign body, metal or plastic etc., has penetrated the body or limbs. It is not uncommon for there to be several such foreign bodies. Even mass observations of alleged extraterrestrial missiles can be based on hallucinations caused by earth electromagnetic oscillations and their energies, especially if strange nebulous or cloud-like formations are connected with them, which are caused by ionizations in the atmosphere.

**Ptaah:**

63. Although we talked about it before, but apparently I misunderstood you regarding the objects in Mexico and explained that I had no answer to that.

64. But now I know what your question is about, which I can only answer in the sense that you just explained it.

65. And what you're going to say is actually based on our findings as we conveyed them to you.

66. Unfortunately, this will not change the fact that all those who believe in the absurdities of alleged abductions by extraterrestrials and in everything allegedly connected with them will not be lectured.

67. In this regard, any instruction in relation to reality is usually just as meaningless as it is in relation to crop circles, belief in ghosts, all esotericism, religious sectarianism, the false teachings of religions and everything that has to do with occultism and hallucinations, imaginations and delusions of any kind from the human brain.

37. What has to be said in respect to the married couple Hill *{Betty & Barney Hill}*, and all other persons who were allegedly abducted or even medically harmed, or who supposedly had implants implanted, and who under hypnosis exposed these occurrences is, that these occurrences have never happened, and are nothing but illusions, imagination, delusions and deliberate lies, as well as also schizophrenic illusionary products and disturbances of consciousness brought forth through the interference of electromagnetic fields of the Earth, through which unrealities, unreal happenings as well as unreal memories and unreal experiences are caused, but also unreal pain, fear and unreal perceptions and so forth.

38. The disrupted electromagnetic fields of the Earth have been the cause of the untrue memories of the Hills.

39. All these factors will become or could be knowingly or unknowingly manipulated, which means that the hypnotised describe their unreal happenings and unrealities etc. as reality, or that liars and deceivers are able to maintain their deliberate lies and deceit under hypnosis.
40. Hypnosis, namely, is in no means capable of finding out the truth in such or other cases.
41. All of the things which we previously assumed to be true through such circumstances, such as contacts between Earth-humans and Earth foreigners, as well as abductions by Earth foreigners, have proved to be false up to the early times of the last and penultimate centuries through the possibility of our newest technology with regard to the clarification of such occurrences.
42. As we did not master this extremely valuable technology in former times, we unfortunately have been led astray in regard to all these matters.
43. Because of this, and also of the lies and deception of many of Earth's human beings in regard to the aforementioned, we have unfortunately let ourselves be deceived in respect to alleged contacts between human beings of Earth and beings foreign to Earth but also in regard to alleged abductions and examination contacts etc.

**Billy:**

Around 22 years have now passed since you and Quetzal told me privately that you had comprehensive cognitions in regard to terrestrial UFOs and the massacre of animals and alleged abductions which were disguised as the shoddy efforts of extraterrestrials. You said thereby that, in regard to this, involved in these machinations are governments, the military, as well as industrial businesses and powerful ones of finance, which constitute a special group, to which still smaller groups are also related. At that time you promised that you would officially explain more about that when the time is ripe for that. Can one now speak publicly about that?

**Ptaah:**

...

21. With the named group, it concerns a worldwide branching from governments, the military, industrial groups, secret services, paramilitary and powerful ones of finance, as you correctly said.
22. Those in the know and contributors are only certain elements of the same, who profit greatly, financially and power-politically, from their secret machinations, for which reason the entire powers of the government, military and industrial as well as finance are not involved in the situation and are also not informed in regard to this.
23. The group is not organized, as such, rather is only a loose collection, whereby their interests, however, have a common form, which, already since the 1920s, was designed to operate a continuous, ingenious, large-scale disinformation campaign regarding the question of extraterrestrial life.
24. The group, which is split into many small groups, has many kinds of technical possibilities at their disposal, which they employ for their evil and human-misleading purposes.
25. That started with technologies of electromagnetism to do with precision electronics and computer engineering, up to and including apparatuses through which brainwashing and the programming and altering of consciousness is evoked in humans.
26. They even have back-engineered beamships at their disposal, whereby, in certain contexts, even antigravity finds application.
27. It has also occurred many times that premeditated "abductions" of Earth humans by "extraterrestrials", and the massacre of animals, has been and is faked by this group.
28. That stands partly also in connection with those illusionary and schizophrenic visions and apparent experiences of those who believe that they have had, or have, these kinds of real experiences.

29. Also wrong information and falsified pictures of alleged extraterrestrial flying devices is strategically circulated worldwide, whereby according to our investigations, about 98% of all false pictures, films, videos and false information is directed at moving the Earth humans to angst and terror of extraterrestrials and to engender hate and thoughts of revenge in the Earth humans.

30. Therefore, in this way, angst, terror and hate is stirred up against all life foreign to Earth.

31. Especially films for cinema and television serve this purpose, as also, however, do many books which are constructed on lies and untruths and are written partly by "experts" in psychology and psychiatry.

32. All this nonsense sells very well to the Earth humans because many on the search for the effective truth trust and believe this false information, and these films and pictures.

33. Angst, horror, terror, hate and revenge always sell well, while the truth appears too banal and therefore appears uninteresting as well as not worth knowing.

34. Only the fantastic and unreal find a place in the interests of Earth humans. 35. However, precisely that is the launching platform for the infamous machinations of the worldwide group, because, through disinformation and fear-mongering in regard to the malicious foreigners to Earth, the entire group, which reaches right around the world, derives horrendous advantages of a financial, governmental-power, military-power as well as an economic form.

35. However, precisely that is the launching platform for the infamous machinations of the worldwide group, because, through disinformation and fear-mongering in regard to the malicious foreigners to Earth, the entire group, which reaches right around the world, derives horrendous advantages of a financial, governmental-power, military-power as well as an economic form.

36. The entire war, electronics and weapons industries, and so forth, thereby gain an enormous boost.

37. Yet, in the worldwide group, secret paramilitary units also exist as smaller groups which carry out the same kind of operations which, however, are mostly controlled by the worldwide group.

38. In particular, these small groups carry out premeditated abductions which are credited ostensibly to the extraterrestrials, as well as, however, also simulated appearances of alleged extraterrestrial flying craft, which are then collectively declared to be extraterrestrial UFO appearances and are often observed, photographed and filmed by many people.

39. Thereby the illusion of an ostensible extraterrestrial abduction or observation of extraterrestrial flying devices is evoked.

40. What is further to say about that is that, in this worldwide group, with all the small groups who partly also work autonomously, there exists a proper "UFO trade" and a subculture in regard to animal massacres and abductions and so forth.

41. The entire thing is secretly financed through governments, the military, industrial groups and financially powerful ones who are interested in angst, terror and hate being stirred-up to their highest forms in regard to the alleged evil extraterrestrial foreigners, because they can thereby gain gigantic financial profit and advantage.

42. It is on this basis that, in every regard, from this group, only stories, cinema and television films and observations of UFOs will be accepted and profitably exploited, which are based on everything negative and – as is becoming proverbial with the Earth humans – on the malicious and aggressive nature of the extraterrestrials.

43. Only that which evokes angst, fear and terror as well as engenders hate and revenge is accepted by the group and exploited worldwide in order to obtain enormous profit with it.

44. Conversely, in addition to that, everything which is good and positive is vehemently slandered and is designated as a swindle, lie and deception, as is the case with you and us, since, in keeping with the interests of the group, we are not permitted to exist, and you are not permitted to be in contact with us, rather you must be a liar and a fraud.

45. So, from the group and their small groups, the Earth humans will be served up deliberately false and fear-influencing stories in regard to extraterrestrial UFOs and foreigners to Earth and their alleged horrifying machinations like, for example, painful examination contacts and animal massacres along with falsified encounters with alleged extraterrestrials.

46. Along with profit, the whole matter also serves deeply-based psychological propaganda in order to insult forms of life who are foreign to Earth and to brand them as malicious beings and to create angst, hate, revenge and hysteria because great financial means will be thereby freed up which serve research for the production of innovative and futuristic weapons of all kinds.

47. Therefore, in these Earth humans, in regard to the extraterrestrial, an enemy will be psychologically, deliberately created which does not exist and which will, in a manner, be made into a malicious being such that the Earth humans, in their angst, will be driven to freeing up horrendous sums in order to therewith manufacture weapons against the alleged malicious invaders.

48. Also, with these acts, various groups play off against each other, which, however, is part of a well-thought-out plan which is carried out and implemented by secret services, psycho-terrorists, espionage groups and treacherous disinformation agents and which is underpinned by false information regarding UFOs and alleged extraterrestrials.

49. Additionally belonging to this plan is the invention of an imaginary extraterrestrial enemy, as well as a danger emerging from this – an enemy and a danger which, naturally, will have to be fought.

50. The infamy is thereby that, first of all, everything is made ridiculous because the concerned "abductees", "examinees", "chance contactees" and UFO-observers can provide no evidence for their experiences which would withstand a real examination.

51. Then comes the second fact, which exists in the fact that angst, terror, hate and feelings of revenge is produced in the Earth humans whereby then the weapons industry can be built up and indeed especially in regard to futuristic weapons, of which the normal Earth humans have no idea, and of which they do not ever dare to dream.

52. The entirety is thereby a well-thought-out psychological network on which the progress of the entire weapons industry and the power of the military, of the federal leadership, the finance sharks and the industry businesses as well as the secret services can be built up ever further.

53. To this end angst, terror, hysteria, hate and revenge is sown in regard to all foreigners from outer space.

54. So the Earth humans become duped and financially exploited by the responsible ones of this dangerous group and their small groups and are deliberately driven to abhor and to hate the extraterrestrial foreigners.

55. Corresponding cinema and television films serve as especially suitable means for that.

56. The foreigner-angst, respectively, alien-angst, which is thereby produced surpasses all normal angst and the responsible ones of the group know that precisely, for which reason they can also thereby calculate that all necessary finances flow to them, which they require for their weapon research, their weapon manufacture, their leading of wars, and desires for power, as well as for unrealistic cinema and TV films which demonize the Earth-strangers.

57. The creation of an supposed threat from extraterrestrials as well as the alien-angst is, for them, a profitable matter which is operated under the shabby cloak of a federal, respectively, country security and of world peace.

58. For the entire machinations of the group, the meanest machinations are quite good enough which, as said, were already operating since the 1920s and to that also belong highly developed electronic weapons systems, futuristic flying discs, Earth humans who are hypnotically and surgically converted, as well as converted in their consciousness, to robots\*, whereby some have an appearance like the being which is called the "Little Grey".

59. On one hand there is the dim-witted paradox that the extraterrestrial flying devices are denied and the strangers to Earth are made ridiculous or made out to be monsters by means of

psychological propaganda, while, on the other hand, a financial exploitation of the peoples results through the inciting of angst, terror, hate and revenge and indeed thereby in that a simulation results in regard to a supposed threat from extraterrestrials.

60. A paradox without compare, to which the question must be put, how far are the Earth humans imbued with reason and understanding that they do not recognise this paradox.

61. The entire pre-arranged game of the group and their small groups, as already said elsewhere, also includes faked encounters with alleged extraterrestrials, whereby these are truly nothing other than normal Earth humans or those who have been transformed into "aliens".

62. In order then to affirm the improvised "encounters with those foreign to Earth" psychologists and other experts are pulled in into whom the wildest stories are hammered for so long until they believe the entire swindle and nonsense and employ "verifiable" and "genuine" analyses which are recorded and published in books and documentation as well as in cinema and TV films.

63. And since, as a rule, the supposed extraterrestrials are described as horrible villains, just according to the plan of the group and their small groups, the picture of the extraterrestrial threat is powerfully incited.

64. Thereby, not only is the slandering in regard to the real strangers to Earth always more exaggerated, as also more and more finances flow into the cash box of those who stupidly and dimwittedly earn as a result of the entire tissue of lies and slander and thereby come by the means to reach their criminal goals.

65. A certain part of the group has also fallen to a Christian sectarianism and to the supposed "End Times" in such a way that hope is directed at a malicious invasion of extraterrestrials resulting on Earth, and thereby the prophesied Armageddon will become reality in which Jesus Christ celebrates his official return and God the father will exercise his judgment.

66. Their delusion is therefore bound with a biblical end of the world, which, as they believe, rests on the terrible badness of the Earth humans.

67. And in order to accelerate this divine judgement as well as the return of Christ they do everything in order to make the way free for that.

68. The monstrous power of the worldwide group and their small groups as well as the religious fanaticism, together with the cultic maintaining of the secret of the entire underhanded, degenerated and deceptive as well as criminal and felonious machinations, lead to malignant effects which could not be worse.

69. These are the facts which I have to name in regard to your question.

**Ptaah:**

25. The last event of the kind that my daughter has explained with regard to contacts of examination and real abductions of terrestrial human beings by Earth foreigners was more than 370 years ago.

*{Note: See Contact Report 2}*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_589](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_589)

**Billy:**

Recently, various television programmes have been reporting on earlier UFO observations and also on various strange UFO encounters. To my knowledge, at least as you told me earlier, all these observations and encounters are not connected with you Plejaren in one single case.

**Ptaah:**

82. We on Earth have never been involved in such observations and encounters since ancient times.

83. However, we are well aware that incidents concerning observations and encounters have taken place in connection with Earth-humans and unknown flying objects or UFOs, as the common name is.

84. But we only know this since we have had the opportunity to do so in the last one and a half decades through the technology of the Sonaer.

85. Before that we were unfortunately deceived in many ways by many imaginative and imaginative Earth-humans through lies and deception as well as charlatanism and also fun.

86. Only with the technology of the Sonaer we were able to clarify that many Earth-humans, who reported alleged observations and encounters or even alleged contacts with Earth-foreigners, only told lies and charlatanism, as well as fraud with fake pictures and films.

87. Others, on the other hand, invented alleged experiences and even inflicted strange little injuries on their bodies, which they described as marks and signs etc. added to them by Earth-foreigners.

88. Many of these people were addicted to the desire for renown, as is also the case today, along with religious and sectarian motives and financial-profit motives.

89. But when Earth-humans have observed flying objects or UFOs unknown to them and encounters with such flying apparatus have taken place, and are still taking place around the world, then these refer today and in the future only to the four foreign groups and in no way to us, the Plejaren or our federated ones.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_710](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_710)

**Billy:**

... So I think that now with regard to the presence of the Earth-foreigners on Earth, it should be explained that through them really abductions and so on and also other occurrences have taken place.

...

... You stated that the reports concerning human beings on Earth who had been abducted by extraterrestrials, as well as contacts with extraterrestrials (here the insertion was 'as a rule' and 'with reservations'), corresponded to lies, fraud, boasting or sheer charlatany. So your statements were effectively only relative and as a rule only to be understood with reservations, which means that in this sense your statements and declarations were to be understood and understood only within certain limits and from certain points of view. Consequently, on the one hand, they were only true and to be understood from a certain point of view and were therefore limited in their validity and value, while on the other hand, through the 'as a rule' and 'with reservation', the possibility and fact of the existence of Earth-foreigners and Earth-future ones as well as abductions by them in relation to Earthlings remained just as open as also possible contacts. So your explanations, statements and declarations were formulated in such a way for the public and to be kept in writing by me and to be spread in the world, just without your mentioned additions 'as a rule' and 'under reserve', whereby the misunderstanding impression was awakened and it seemed as if you would completely deny all abductions concerning earthlings by extraterrestrials and any contacts with them. But this was not the case in reality, because you spoke of relatively and 'as a rule' and 'with reservations', which I had to conceal for certain reasons and must also do now according to your instructions.

... on the one hand the majority of the abduction and contact claims were really lies, frauds and swindles etc., while on the other hand a small part of the reports which became known concerning abductions by extraterrestrials were just as real and genuine, as you expressed this with 'as a rule' and 'with reservations', but about which I had to remain silent. As a result of the reasoning, which I am also not allowed to give now according to your objection, the abductions by extraterrestrials and the few trivial contacts had to be denied and their reality excluded and questioned by a misunderstanding.

...Certain abductions of human beings from Earth for various purposes, and thus of course the corresponding contacts, which have taken place again and again since time immemorial, have always belonged to the behaviour of the old Earth-foreigners and Earth-future, as well as to the newer ones who fly in and out of Earth and back again. But the fact is – in spite of abductions, etc. – that none of these Earth-foreigners and Earth-foreigners have, up to the present time, conveyed any messages and the like to the Earthlings, precisely messages with regard to how they would have fallen, or would fall today, within the framework of the 'Teaching of Truth, Teaching of the Spirit, Teaching of Life' and thus within the sphere of the Nokodemion and my Mission.

**{Billy}:**

*I have no precise knowledge of the abduction of earthlings by extraterrestrials, nor do I know any people who have had such experiences. In this regard, however, the Plejaren explain that such events would probably have occurred due to the aliens functioning on Earth, but that they would not care about this at all.*

*Basically, such abductions, if they actually take place, lead back to other intelligences, whereas the Plejaren have nothing to do with such abductions. The Plejaren themselves do not want to have anything to do with the strangers on Earth, as they call these other intelligences, and consequently they protect themselves against any sighting and locating of the strangers, because they do not want to enter into any contact with them under any circumstances, just as they do not want to enter into any contact with Earthlings.*

### **Alien Autopsy Film**

[https://en.wikipedia.org/wiki/Alien\\_autopsy](https://en.wikipedia.org/wiki/Alien_autopsy)

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_253](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_253)

**Billy:**

But what about the Roswell film that supposedly shows an autopsy of an alien being?

**Florena:**

33. We could not find any evidence that a Jack Barnett or Jack Baret, as Ray Santilli first really called the man, existed or actually shot the film.

34. We even took the trouble to go back to the time of the crash and look for the place, but the facts there were quite different from those shown in the film.

35. There was also no photographer or cameraman by the name of Jack Barret present who would have filmed and stolen several film reels.

36. Photographic and cinematographic shots were probably taken, but army members and secret service personnel were responsible for this, delivering all relevant material to the responsible authorities.

37. According to our investigations, the film is an infamous forgery that leaves nothing to be desired in terms of tastelessness, because a 16-year-old girl was irreverently and criminally abused as a model after she died of her illness, which defaced her.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_256](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_256)

**Billy:**

Another question: Florena told me to ask you, how one calls the disease that struck the 16-year-old girl, who is slanderously portrayed as an extraterrestrial in the Santilli film. What disease did the girl suffer from?

**Ptaah:**

82. Progeny (*note by Billy: Plejaren designation*).

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_331](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_331)

**Billy:**

At the 256th contact on the 13th of May 1996, Ptaah and I talked about the so-called Santilli film. First I talked to you about it and asked you what the disease was called that the 16-year-old girl suffered from, who was defamatory portrayed in the film as an alien being. Ptaah explained that the disease was called Proteria. Some time ago, language came back to this girl, but I could only tell you what the disease was, a so-called 'protoplasmic change' of the whole body, as Ptaah explained. When I looked for the term 'proteria' in the medical textbook 'Pschyrembel', I could not find it. The only term I found was progeria, but this has nothing to do with proteria, because progeria is a still incurable disease, which children already succumb to and within a few years show general symptoms of old and very old people.

**Florena:**

74. The term Proteria is not of earthly origin, but comes from our language, which is why you cannot find it in your textbooks.

75. I do not know what the disease is called in your language.

**Billy:**

I see; then I could have searched for the term for a long time. But what interests me now Where is the body of the girl who was abused for the movie? Do you know anything about it?

**Florena:**

76. The whole thing is familiar to me, because it was clarified by us:

77. The proterically ill and deceased girl herself was not abused for the reprehensible film and the alleged autopsy, but a macabre and malicious abuse only took place in the form of an image being made of artificial materials according to the girl and this being 'autopsied' by alleged doctors and pathologists in a way that was appropriate for filming.

78. So the deceased girl was not herself abused as a model, but only the plastic product, which was lying and fraudulently passed off as an extraterrestrial being.

**Billy:**

Then again about the Proteria: Can you tell me something more about it?

**Florena:**

85. It is, as I said, a term that comes from our language for an extremely rare disease, which, like other diseases, is no longer present in our country, but still occurs in absolute isolated cases on earth.

86. And as we know, in the form in which the girl was ill, there is no other case known on earth at the present time, which I can say because we record the illnesses of the people of the earth when they are peculiarities.

87. Proteria itself is, as I said, an extremely rare disease, which according to our records has only appeared four times on earth in the last 700 years.

88. The disease causes cellular and thus also gestalt, limb and organ deformations, which ultimately lead to death.

89. The age of people affected by this disease is very low, while the maximum age is between 15 and 20 years.

90. And as I said before, the 16-year-old Proteria girl was reverently used as a sequel to a dummy product, as you call it.

91. A structure made of skin-like plastics etc., equipped with similarly produced and animal organs as viscera and deliberately misrepresented as a Roswell alien being, on which a fake autopsy was then performed and banished to old stock of leftover film.

*see also Men In Black*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_219](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_219)

**Quetzal:**

81. Moreover, these {*Sirian*} renegades and 'Black Men', as we also call them, and these have nothing to do with the so-called 'Men in Black' who are of earthly origin and, thus, who are secret-service driven Earth-humans, who strive to induce real visions and hallucinations through apparatus-driven, suggestive impulses in Earth-humans who are susceptible to these.

82. Their repertoire ranges from fake sightings and observations as well as alleged abductions up to simulated contacts and sexual intercourse with extraterrestrials, from which alleged pregnancies occur that, if they already appear, are caused quite normally with an earthly partner or by artificial manipulation of a medical nature or one's own nature.

83. Also through these extraterrestrial 'Black Men' the illusion is produced in susceptible Earth-humans that somehow, through carelessness, etc., things penetrated into their body unnoticed, such as the incidence of metal fragments or small projectiles, etc., implants of extraterrestrial forces and beings, which is absurd, of course.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_230](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_230)

**Billy:**

... However, just say, what do you think about more and more people claiming that they have been kidnapped by extraterrestrials? Women claim that they were pregnant by extraterrestrials and then later the procreated children were extracted from them and brought to a foreign world. Others – also men – claim that they were abducted by extraterrestrials and medically examined or provided with implants.

**Quetzal:**

577. In 9999.09 cases, this is a senseless imagination, as our latest investigations have shown.

**Billy:**

That is also my assumption. If all the nonsense about contacts with extraterrestrials regarding abductions and examinations by extraterrestrials, etc., worldwide and especially in North, Central and South America were to correspond to the correctness, then the Earth would be teeming with extraterrestrials. In fact, one would then only have to encounter extraterrestrials every step of the way. As I see things, it is as a rule a matter of notorious imaginations that lead to beliefs and delusions, whereby exceptions, as you say, amount to just about 0.01 cases per 10,000. The origin of these imaginations can be manifold, such as e.g. religious or sectarian belief, anxiety, gullibility, influencings by lies and fantasy stories of liars, swindlers and charlatans or jokers, etc. and so forth. And once notorious imaginations have arisen in the human being through thoughts and feelings, then these have such a mighty effect on the psyche and the consciousness that a mania emerges, from which in turn a delusion develops in the shortest time. Once this has developed, then the same happens as with notorious lying, namely that no distinction can anymore be made between lying and truth. In the case of the notorious illusion – which, to my knowledge, is still unknown to our earthly psychologists and psychiatrists and does not make sense to them either – it is no longer possible to distinguish between illusion and reality. Just as the notorious liar considers his lies to be effective truth and reality, so also the one who is in the grip of a notorious illusion sees his illusions as effective truth and reality. The ability to distinguish is destroyed. In this state, the person affected by the delusion of imagination no longer recognises the reality, because also his/her content of memory had been built up delusionally by the manic illusion. And the fact that the whole is also transferred to the subconscious and manifests itself from there again into the consciousness is only the end result of it all. Therefore, it is also no longer surprising that even through a process of hypnosis only the delusion of imagination is expressed and reflected. For through the hypnosis the fixed delusion of imagination is mobilised, whereby the hypnotised person does

not reveal the effective truth, but only the facts of the delusion of imagination, in which everything is regarded as truth and reality. But there is even more that happens in this delusion, namely that the persons ill with the delusion of imagination, because that is whom we are dealing with, also imagine things such as marks of wounds and burns in such a delusional way that these actually form on the body or on the limbs and these can even hurt. We are talking here about a visually and organically observable form of psychosomatics and psychosomatosis, which can ultimately even lead to acute psychoneurosis and thus to psychogenic disorders, such as for example compulsive neurosis, depressive neurosis and anxiety neurosis. In some cases, even a somatoform disorder i.e. a personality disorder may occur.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

... Also the so-called 'Little Greys' play a very important role, which allegedly in the USA about three million people are said to have insisted, impregnated and maltreated with operation scars and painting etc. ...

**Ptaah:**

37. Which, of course, is sheer nonsense and has no reality at all.

**Billy:**

My question refers once more to alleged contacts of human beings of Earth with extraterrestrials, whereby the specific is directed at claims which in my opinion sound quite ridiculous. Apart from the approximately three million human beings who were in America allegedly harmed by extraterrestrials and subjected to all kinds of tests, whereby many women supposedly developed pregnancies and the 'Little Greys' allegedly then stole the hybrid children after the birth, the kidnapped and harmed human beings of Earth would after the tests have often suffered from pain and complained about operation scars and burn marks etc....

**Ptaah:**

73. This of course does not correspond to the truth, but to an unbelievable nonsense, which fanatical or otherwise incapable UFO- and ghost believers only too gladly want to recognize as real truth and believe in it rock-solidly, although not a word of the whole dizziness corresponds to the truth, which is well-consciously invented and controlled by certain organs for deception and scaremongering, in order to achieve certain goals.

74. In addition to these organs and persons, however, there are still many UFO-phantasts, who are mostly burdened *by sectarianism*, who themselves care for their bodies by teaching themselves wounds and burns, etc., by implanting crystals or pieces of metal into their flesh and letting everything scar in order to then claim that they have been kidnapped and persecuted by extraterrestrials, of which the scars and burns, etc. would testify.

75. Incompetent hypnotists, who then subject such persons to so-called 'truth hypnoses', then claim that the information given in hypnosis by the hypnotised would unfailingly correspond to the truth, because hypnosis could not lie.

76. However, it is never taken into account that a person in a hypnotic state can tell and pronounce the worst lies just as untraceably as is the case with the so-called technical lie detectors, without the specialists being able to recognize the lies, because the technical devices of this kind on earth are still so imperfect that they can be outwitted with simple and man's own means.

77. With regard to the allegedly massacred animals, it must be said that this is just as much unbelievable nonsense as the alleged pregnancies in American women caused by the 'Little Greys'.

80. ...there is still to explain that many UFO phantasts and the like on their bodies use existing old scars, marks and other things actually also to claim that these signs would originate from embarrassments, tests and operations of extraterrestrials, by which they were kidnapped etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_249](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_249)

**Billy:**

But now back again to the alleged abductions of earthlings by extraterrestrials: Especially in America and South America and recently also in Germany such assertions occur again and again, whereby various attempts have been made to prove the 'truth' of the statements by hypnosis. If the assertions were correct, then already more than 3.5 million earth people would have been examination-contacted and many women, particularly Americans and South Americans, would have been impregnated. It is even absurdly claimed that children have already been born from such impregnations, half earthly half extraterrestrial – called hybrids.

**Ptaah:**

154. Everything corresponds to unbelievable nonsense.

155. First, there have been very few incidents of examination contacts for years, and second, there have been no impregnations of Earth women by extraterrestrial intelligences.

156. The so-called hybrids, reported by unreasonable newspaper and journal makers, are nothing more than abortions and mutations of a purely terrestrial nature, which are due to genetic damage, etc., caused by the parents or by environmental influences of a highly harmful nature, which can be very diverse.

157. There is no doubt that at present there are no descendants on earth or anywhere else on earth who have been conceived by extraterrestrials with earth women or by meerkats with extraterrestrial women.

158. Other claims correspond to infamous lies and slander, no matter whether they come from Elisabeth Klarer or from some other lunatics who currently claim this.

159. Even such assertions made under hypnosis usually correspond only to lies and slander, which are either invented by the hypnotized themselves or are tricked in by third parties or even by the person who carries out the hypnosis.

160. In complete contrast to the assertion that people under hypnosis would not lie and cheat and thus always tell the truth, there is the fact that under hypnosis one can lie and cheat just as in the normal state without hypnosis.

161. And exactly this fact is exploited by many in the matter of UFOs and alleged kidnappings etc., because the persons concerned want to make themselves great and distinguish themselves with it.

162. Often only a hypnotic state is faked, which is not difficult for humans and cannot be determined and recognized by the inexperienced hypnotists of the earth.

163. In this state of pretence, people lie and cheat just as they do in real hypnosis.

*The nasty machinations of the government, military and secret service people in respect of the demonizing of extraterrestrials have increased ever more since 1938 – indeed slowly and successively, thus, however all the more incessantly and expansively, until in the eighties, essentially, the greatest machination for the bedevilment of extraterrestrials began – through a shifty structure in the fashion of the secret service, as well as miscellaneous UFO and extraterrestrial enemies. Stories came about like the ghastly human and animal mutilations, the theft of human babies and the impregnating of terrestrial women through foreign visitors out of outer space. Horror stories were also disseminated about subterranean laboratories and the inhuman experiments taking place there. Were that still not enough, because the angst of the extraterrestrials wreaked even worse blooms, like, for example, it would be asserted that women impregnated by aliens would, after some months, have the baby growing in the womb snatched out to be allowed to finally grow further in a fluid-filled incubator, etc., in order to breed up a new humanity, etc. using these hybrid children. A further horror story was that the earth humans would be abducted, in order to take their genetic material that would be necessary for*

*the extraterrestrials' further breeding of humans, who would serve as, so to say, nourishment providers, because the evil foreigners out of the depths of outer space supposedly nourish themselves on human blood. Similarly, it would also be asserted in respect to the animal mutilations in America, whereby the related far-fetched feeble-mindedness that namely beef blood demonstrates a genetic relationship with human blood, therefore the mutilated cattle would have their blood sucked out to store in the blood banks for crisis times – naturally through the evil extraterrestrials. Yet even that is not enough, because still many other assertions, slanderings and lies, and clearly to be recognised as feeble-minded, are put about, through which the humans are led into error and would be shifted into angst and terror, as has had manifold success, and certain mass hysteria has been released by a worldwide group of certain earth humans, which also leads to feelings of hate, etc.*

**Billy:**

... The electromagnetic vibrations from electronic devices as well as strong Earth-magnetic vibrations are indeed really not harmless, because hallucinations, aggression, depression, low morale and discord – indeed also the phenomena of "ghostly apparitions" – can even be provoked which have no connection with acute or stored mental vibrations, respectively fluidal powers, rather, are based, as a rule, on fantasies and imaginations which are normally simply caused by states of angst. The basis for this can really be very strong electromagnetism, for example, by way of electronic devices, and so forth, or it can simply arise as a result of a strong magnetic field of the Earth. Extremely low-pitched sounds from electronic devices and other things as well as from nature, which cannot be perceived by the human ear – so-called infrasound – can cause strong vibrations, in the case of objects and with the human body and all its organs, such as, for instance, also in the eyes. The consequences of that are hallucinations and panic attacks as well as depression, discord and negative moral states, because the thoughts and feelings as well as the consciousness succumb to confusion as a result of the vibrations. In the said form, there is a connection among infra-sound, electromagnetism, and ghostly apparitions. Infrasound and electromagnetism can trigger the internal attack-and-escape mechanism of the human being as well as panic attacks and hallucinations, and so forth, and it is especially the case if one is in a spooky or weird-looking place, in a depressed mood or in a mystical situation, and so forth. That which is decisive in this regard is that the sense of the human beings is under great tension, whereby he perceives the environment and his situation, and so forth, as a threat. In this state, then "ghostly apparitions" can be seen or strange, ghostly sounds can be heard, or unreal touches can be felt, and so forth. Strong electromagnetic fields have effects on the human body and its organs, which therefore also includes the brain and consciousness as well as the thoughts, emotions and the psyche, which lead to hallucinations, whereby the human being sees, hears and feels things which are not real. Electromagnetism and infrasound produce an effect on the human brain in such a way, that, for example, the feeling is created that someone strange is present – a ghost, and so forth, because he cannot be seen, or can be dimly seen as a result of the imagination. Faces and figures can also be seen and sounds as well as unreal breathing, and so forth can be heard, or, in the same way, unreal touches can be felt. Thereby the human being can become increasingly insecure and anxious, because the activity of fantasy and the imagination increases and everything is considered absolutely real, as for example in a similar manner to the way human beings appear who believe that they have been abducted and examined or impregnated by extraterrestrials and later have their foetuses stolen, which, in regard to pregnancy, naturally, only applies to women. With all of these human beings, fantasy and the imagination – so to speak – go mad, whereby everything is of such a strong nature that the fantasy images and the imagination appear absolutely real – all caused by infrasound, or by strong electromagnetic fields. And human beings who succumb to this, consider everything to be real, and believe that

it is truthful reality, in such a way that, consequently, even polygraphs and interviews under hypnosis can be withstood.

**Billy:**

... I am frequently asked, especially from the US and Mexico, about the sporadic appearance of small white objects at high altitude in the sky. I have also been sent a video showing such objects – white, round things that appear like small moving clouds that often change their position and sometimes seem to merge into each other, but then separate again. There are hundreds of such things at a time. To me it looks as if they are small cloud-like formations, which, as with larger similar phenomena in relation to earthquake lights, are caused by natural phenomena, such as gas concentrations, and by earth electromagnetic oscillations and energies, which are then mistaken for UFOs in the sense that they are extraterrestrial jet ships or flying machines. Also the earthquake lights are interpreted again and again as UFOs of extraterrestrial origin, because they often have forms which look like any futuristic flying objects. These often shining electromagnetic objects also have the property, as you have explained to me, that hallucinations are caused in some humans, which are often based on the fact that some humans consider everything to be real. Very often such hallucinations lead to illusory experiences in such a way that the hallucinators see themselves as abducted by aliens, especially with regard to small grey males with big almond-shaped eyes etc. False memory images are created by the brain, which feign something experienced without actually happening. A phenomenon that also occurs in such humans in a state of hypnosis. As you once explained, in the hypnotic state stories and experiences are created in the brain that seem completely real, but are not real and therefore never happened. If I remember correctly, these hallucinations are triggered in the cranial and temporal lobes. So it follows that the alleged abductions of terrestrials by extraterrestrials are based on pure hallucinations, as well as all the associated stories of alleged medical examinations, impregnations, robbery of the foetus, of strange time gaps, the local displacement of the allegedly affected, the switching off of lights and car engines etc. Of the hundreds and thousands of allegedly abducted humans all over the world – with the USA leading the way – the truth is that only two authentic cases in the last 240 years can be mentioned, as you recently explained to me in a purely private conversation. Even the fairy tales of alleged implants etc. are based on hallucinations or on events in which the person concerned has unnoticed in some way a foreign body, metal or plastic etc., has penetrated the body or limbs. It is not uncommon for there to be several such foreign bodies. Even mass observations of alleged extraterrestrial missiles can be based on hallucinations caused by earth electromagnetic oscillations and their energies, especially if strange nebulous or cloud-like formations are connected with them, which are caused by ionizations in the atmosphere.

**Ptaah:**

63. Although we talked about it before, but apparently I misunderstood you regarding the objects in Mexico and explained that I had no answer to that.

64. But now I know what your question is about, which I can only answer in the sense that you just explained it.

65. And what you're going to say is actually based on our findings as we conveyed them to you.

66. Unfortunately, this will not change the fact that all those who believe in the absurdities of alleged abductions by extraterrestrials and in everything allegedly connected with them will not be lectured.

67. In this regard, any instruction in relation to reality is usually just as meaningless as it is in relation to crop circles, belief in ghosts, all esotericism, religious sectarianism, the false teachings of religions and everything that has to do with occultism and hallucinations, imaginations and delusions of any kind from the human brain.

“... Since 1989 Dr. Boylan has conducted research into human encounters with the Star Visitors. This has led to his current focus, working with the Star Kids. He has created the Star Kids Project, Ltd., and is working at outreach to these hybrid children with advanced abilities and their families, raising consciousness about Star Seed heritage, educating these children and parents about advanced abilities and their proper use, and informing the public about this new cosmic generation. ...”

**Ptaah:**

35. The whole thing corresponds to complete nonsense, and it is quite good if you publish this feeble-mindedness so that Earth humans can see clearly which charlatanism and which feeble-mindedness is driven and disseminated through this Richard Boylan.

**Billy:**

Around 22 years have now passed since you and Quetzal told me privately that you had comprehensive cognitions in regard to terrestrial UFOs and the massacre of animals and alleged abductions which were disguised as the shoddy efforts of extraterrestrials. You said thereby that, in regard to this, involved in these machinations are governments, the military, as well as industrial businesses and powerful ones of finance, which constitute a special group, to which still smaller groups are also related. At that time you promised that you would officially explain more about that when the time is ripe for that. Can one now speak publicly about that?

**Ptaah:**

21. With the named group, it concerns a worldwide branching from governments, the military, industrial groups, secret services, paramilitary and powerful ones of finance, as you correctly said.

22. Those in the know and contributors are only certain elements of the same, who profit greatly, financially and power-politically, from their secret machinations, for which reason the entire powers of the government, military and industrial as well as finance are not involved in the situation and are also not informed in regard to this.

23. The group is not organized, as such, rather is only a loose collection, whereby their interests, however, have a common form, which, already since the 1920s, was designed to operate a continuous, ingenious, large-scale disinformation campaign regarding the question of extraterrestrial life.

24. The group, which is split into many small groups, has many kinds of technical possibilities at their disposal, which they employ for their evil and human-misleading purposes.

25. That started with technologies of electromagnetism to do with precision electronics and computer engineering, up to and including apparatuses through which brainwashing and the programming and altering of consciousness is evoked in humans.

26. They even have back-engineered beamships at their disposal, whereby, in certain contexts, even antigravity finds application.

27. It has also occurred many times that premeditated "abductions" of Earth humans by "extraterrestrials", and the massacre of animals, has been and is faked by this group.

28. That stands partly also in connection with those illusionary and schizophrenic visions and apparent experiences of those who believe that they have had, or have, these kinds of real experiences.

29. Also wrong information and falsified pictures of alleged extraterrestrial flying devices is strategically circulated worldwide, whereby according to our investigations, about 98% of all false pictures, films, videos and false information is directed at moving the Earth humans to

angst and terror of extraterrestrials and to engender hate and thoughts of revenge in the Earth humans.

30. Therefore, in this way, angst, terror and hate is stirred up against all life foreign to Earth.

31. Especially films for cinema and television serve this purpose, as also, however, do many books which are constructed on lies and untruths and are written partly by "experts" in psychology and psychiatry.

32. All this nonsense sells very well to the Earth humans because many on the search for the effective truth trust and believe this false information, and these films and pictures.

33. Angst, horror, terror, hate and revenge always sell well, while the truth appears too banal and therefore appears uninteresting as well as not worth knowing.

34. Only the fantastic and unreal find a place in the interests of Earth humans. 35. However, precisely that is the launching platform for the infamous machinations of the worldwide group, because, through disinformation and fear-mongering in regard to the malicious foreigners to Earth, the entire group, which reaches right around the world, derives horrendous advantages of a financial, governmental-power, military-power as well as an economic form.

36. The entire war, electronics and weapons industries, and so forth, thereby gain an enormous boost.

37. Yet, in the worldwide group, secret paramilitary units also exist as smaller groups which carry out the same kind of operations which, however, are mostly controlled by the worldwide group.

38. In particular, these small groups carry out premeditated abductions which are credited ostensibly to the extraterrestrials, as well as, however, also simulated appearances of alleged extraterrestrial flying craft, which are then collectively declared to be extraterrestrial UFO appearances and are often observed, photographed and filmed by many people.

39. Thereby the illusion of an ostensible extraterrestrial abduction or observation of extraterrestrial flying devices is evoked.

40. What is further to say about that is that, in this worldwide group, with all the small groups who partly also work autonomously, there exists a proper "UFO trade" and a subculture in regard to animal massacres and abductions and so forth.

41. The entire thing is secretly financed through governments, the military, industrial groups and financially powerful ones who are interested in angst, terror and hate being stirred-up to their highest forms in regard to the alleged evil extraterrestrial foreigners, because they can thereby gain gigantic financial profit and advantage.

42. It is on this basis that, in every regard, from this group, only stories, cinema and television films and observations of UFOs will be accepted and profitably exploited, which are based on everything negative and – as is becoming proverbial with the Earth humans – on the malicious and aggressive nature of the extraterrestrials.

43. Only that which evokes angst, fear and terror as well as engenders hate and revenge is accepted by the group and exploited worldwide in order to obtain enormous profit with it.

44. Conversely, in addition to that, everything which is good and positive is vehemently slandered and is designated as a swindle, lie and deception, as is the case with you and us, since, in keeping with the interests of the group, we are not permitted to exist, and you are not permitted to be in contact with us, rather you must be a liar and a fraud.

45. So, from the group and their small groups, the Earth humans will be served up deliberately false and fear-influencing stories in regard to extraterrestrial UFOs and foreigners to Earth and their alleged horrifying machinations like, for example, painful examination contacts and animal massacres along with falsified encounters with alleged extraterrestrials.

46. Along with profit, the whole matter also serves deeply-based psychological propaganda in order to insult forms of life who are foreign to Earth and to brand them as malicious beings and to create angst, hate, revenge and hysteria because great financial means will be thereby freed up which serve research for the production of innovative and futuristic weapons of all kinds.

47. Therefore, in these Earth humans, in regard to the extraterrestrial, an enemy will be psychologically, deliberately created which does not exist and which will, in a manner, be made into a malicious being such that the Earth humans, in their angst, will be driven to freeing up horrendous sums in order to therewith manufacture weapons against the alleged malicious invaders.

48. Also, with these acts, various groups play off against each other, which, however, is part of a well-thought-out plan which is carried out and implemented by secret services, psycho-terrorists, espionage groups and treacherous disinformation agents and which is underpinned by false information regarding UFOs and alleged extraterrestrials.

49. Additionally belonging to this plan is the invention of an imaginary extraterrestrial enemy, as well as a danger emerging from this – an enemy and a danger which, naturally, will have to be fought.

50. The infamy is thereby that, first of all, everything is made ridiculous because the concerned "abductees", "examinees", "chance contactees" and UFO-observers can provide no evidence for their experiences which would withstand a real examination.

51. Then comes the second fact, which exists in the fact that angst, terror, hate and feelings of revenge is produced in the Earth humans whereby then the weapons industry can be built up and indeed especially in regard to futuristic weapons, of which the normal Earth humans have no idea, and of which they do not ever dare to dream.

52. The entirety is thereby a well-thought-out psychological network on which the progress of the entire weapons industry and the power of the military, of the federal leadership, the finance sharks and the industry businesses as well as the secret services can be built up ever further.

53. To this end angst, terror, hysteria, hate and revenge is sown in regard to all foreigners from outer space.

54. So the Earth humans become duped and financially exploited by the responsible ones of this dangerous group and their small groups and are deliberately driven to abhor and to hate the extraterrestrial foreigners.

55. Corresponding cinema and television films serve as especially suitable means for that.

56. The foreigner-angst, respectively, alien-angst, which is thereby produced surpasses all normal angst and the responsible ones of the group know that precisely, for which reason they can also thereby calculate that all necessary finances flow to them, which they require for their weapon research, their weapon manufacture, their leading of wars, and desires for power, as well as for unrealistic cinema and TV films which demonize the Earth-strangers.

57. The creation of an supposed threat from extraterrestrials as well as the alien-angst is, for them, a profitable matter which is operated under the shabby cloak of a federal, respectively, country security and of world peace.

58. For the entire machinations of the group, the meanest machinations are quite good enough which, as said, were already operating since the 1920s and to that also belong highly developed electronic weapons systems, futuristic flying discs, Earth humans who are hypnotically and surgically converted, as well as converted in their consciousness, to robots\*, whereby some have an appearance like the being which is called the "Little Grey".

59. On one hand there is the dim-witted paradox that the extraterrestrial flying devices are denied and the strangers to Earth are made ridiculous or made out to be monsters by means of psychological propaganda, while, on the other hand, a financial exploitation of the peoples results through the inciting of angst, terror, hate and revenge and indeed thereby in that a simulation results in regard to a supposed threat from extraterrestrials.

60. A paradox without compare, to which the question must be put, how far are the Earth humans imbued with reason and understanding that they do not recognise this paradox.

61. The entire pre-arranged game of the group and their small groups, as already said elsewhere, also includes faked encounters with alleged extraterrestrials, whereby these are truly nothing other than normal Earth humans or those who have been transformed into "aliens".

62. In order then to affirm the improvised "encounters with those foreign to Earth" psychologists and other experts are pulled in into whom the wildest stories are hammered for so long until they believe the entire swindle and nonsense and employ "verifiable" and "genuine" analyses which are recorded and published in books and documentation as well as in cinema and TV films.

63. And since, as a rule, the supposed extraterrestrials are described as horrible villains, just according to the plan of the group and their small groups, the picture of the extraterrestrial threat is powerfully incited.

64. Thereby, not only is the slandering in regard to the real strangers to Earth always more exaggerated, as also more and more finances flow into the cash box of those who stupidly and dimwittedly earn as a result of the entire tissue of lies and slander and thereby come by the means to reach their criminal goals.

65. A certain part of the group has also fallen to a Christian sectarianism and to the supposed "End Times" in such a way that hope is directed at a malicious invasion of extraterrestrials resulting on Earth, and thereby the prophesied Armageddon will become reality in which Jesus Christ celebrates his official return and God the father will exercise his judgment.

66. Their delusion is therefore bound with a biblical end of the world, which, as they believe, rests on the terrible badness of the Earth humans.

67. And in order to accelerate this divine judgement as well as the return of Christ they do everything in order to make the way free for that.

68. The monstrous power of the worldwide group and their small groups as well as the religious fanaticism, together with the cultic maintaining of the secret of the entire underhanded, degenerated and deceptive as well as criminal and felonious machinations, lead to malignant effects which could not be worse.

69. These are the facts which I have to name in regard to your question.

Yes, this is a skull which has been found and is about 1,000 years old – the exact age is not known to me – and which has been described by irrational and irresponsible authors of dubious books and writings as the skull of an extraterrestrial or as a hybrid product between extraterrestrial and Earth-humans.

112. However, what emerges from ancient writings concerning the Anunnaki and the planet Nibiru is based on mythological facts as well as on faith, misdirection and misconceptions.

113. The Anunnaki beings were a pure imagination of the Earth-humans, who imaginatively and believingly constructed the 'Anunnaki people of the planet Nibiru' from it, when the gigantic celestial structure appeared, which in reality was not an actual planet, but an unusually large comet, which has an actual orbital period around the SOL system of about 3,600 years.

114. The 'Anunnaki people of Nibiru' therefore only appeared mythologically in the imagination of ancient Earth-humans, but in reality it never existed, because the comet is not capable of supporting human life.

**Billy:**

... On the 17th of February 2005, Quetzal and I talked privately about the conspiracy books of various scribblers, such as Zacharia Sitchin, David Icke, Jan van Holey alias Jan van Helsing as well as Andreas von R tyi and others. ...

**Ptaah:**

5. All in all, these kinds of nonsensical writings are commercially oriented to make the ruble roll, as you say, so that the scribblers – if I want to use your expression – can fill their pockets with money.

6. The whole of all the conspiracy theories described in all the countless books are based on sheer nonsense, as are the writings in books containing supernaturalism and assertions about the alleged infiltration of earthly governments by extraterrestrials.

7. Conspiracy theories of all kinds, as well as supernatural, occult and esoteric nonsense, are in great demand among the believers in these drivel.

8. In fact, all the many books of this kind are based on silliness, senselessness, folly, as well as blooming and higher nonsense, as you always say so aptly.

**Billy:**

If you will allow me to interrupt, I have a few other terms for the whole thing, such as noble baloney, bullshit, hooley, stupidity and folly, torchlight, ridiculousness, simple-mindedness, gibberish, folly and folly, etc. I would also like to say that, with regard to all this nonsense, there are special bookstores which, for good money, bring the rubbish books among the people, from whom the roaring rubbish is eaten like hot cakes. With very many people on earth the unreal, untrue, fantastic, occult, esoteric, religious, sectarian, supposedly supernatural and supernatural is not only considered to be more than truth and reality, but effectively everything.

**Ptaah:**

9. These are all good terms I will remember.

10. And your explanation hits the truth.

11. Furthermore, these humans are sectarian and esoteric, as well as occult and supernatural, and move in their thoughts and feelings, as well as in their delusional beliefs, in illusory worlds and other unreal imaginings.

12. The entirety of this matter of faith and fantasies has developed into a delusion in them which already moves in schizophrenic forms, whereby they no longer perceive the truth and reality and consequently also can no longer recognise it.

13. And in this delusional form they infiltrate the humans with their absurdities which they imagine and also adopt them from other scribblers which you call 'abkupfern'. [copying?]

14. Thereby the readers of the entire nonsense are seduced to believably accept the lies, slanders, the swindle and the fantasies of these irresponsible scribblers as truth while they assess the reality and the real truth as unrealistic, unreal and as untruth.

15. Belief is just very much simpler than investigating the effective truth through one's own seeking and one's own cognitive work.

16. Furthermore the fantastic and illusory will sooner be accepted by the Earth-humans than even the truth and reality which appears banal compared to the fantastic and illusory.

17. Therefore it is so that standing on the firm ground of the facts, truth and reality is proscribed while the untruthful, fantastic, and illusory and all the swindling, lies, deceit and slander which is bound with it – which, since time immemorial, have always been booming business – effect the Earth-humans like sweet balm which stills the delight and demand for that which is fantastic and illusory.

18. So lying, swindle, falsehoods, deceit and slander are means through which the human allows himself to be very easily beguiled, because everything is only swallowed and does not have to truthfully be contemplated, while the search for the effective truth and its processing is bound with very much effort and cognitive work as well as with a sense for the recognition of reality.

19. However the irresponsible scribblers – who invent the crazy and unreal as well as unrealistic conspiracy theories, copy the entire nonsense from each other and throw everything to their believers as fodder, and therewith earn much money – know exactly that.

20. That is also the case with the books of the hacks named by you who, without conscience, spread their horrendous nonsense of their dim-witted conspiracy theories and thereby lead their faithful readers into error, convey to them a completely wrong picture of the world and hound them into angst and terror.

21. The books named by you by David Icke, as well as, however, also the books of Zacharias Sitchin, van Helsing and of Rëtyi belong just as much in the realm of the nonsense and feeble-mindedness of illusory and fantasy-rich conspiracy theories as also do other similar kinds of works which, if I may use your words, must be labelled as sheer idiocy and schizophrenic delusional imaginings.

22. Truthfully, from the complete contents there are no things at all to name which could be designated facts of truth and reality because basically it deals with nothing other than freely invented fantasies and illusions which are irresponsibly given a coating of truth in order to thereby take those Earth-humans into their power who believe the dim-witted nonsense and allow themselves to be taken prisoner by it.

23. From the entire exposition of all books of such a kind no letter may be considered as true because everything is only built on deception, lies, deceit, slander, fantasies and illusions which also applies to the supposed reptoid beings or reptilian humans.

24. Such kinds of beings are pure inventions of the scribblers because they thereby connect the evil and want to thereby transmit the impression of the evil and diabolical, whereby the Earth-humans are driven to angst and terror which naturally again has its effect on the numbers of sales of the books and brings in great profit.

25. Reptoid, respectively, reptilian beings, as these are described in the nonsensical books, exist even less in the entire universe than they do in other dimensions of this universe, so however, also not on the Earth – also not in forms of transmuted humans.

26. It also corresponds to a lie that such extraterrestrial beings, or other kinds, have lived on the Earth since time immemorial or since more recent times and are even active in the governments, because assertions which claim that it is true, indeed, correspond to the crazy fantasies, illusions, angsts or conscious lies and slandering of the book-scribblers.

27. Yet in every regard believers do not, as a rule, let themselves be impressed by the truth, rather they faithfully remain in the prison which they themselves delusionally imagine because that is simpler than having to grapple with the real truth.

28. The truth is just simply and somehow banal, as you tend to say, for which reason it only addresses humans who consciously use their reason and understanding, while the others, who depend on the fantastic and illusory as well as that which pertains to belief, are not willing to free themselves from the nonsensical and the unreal as well as from their not making use of reason and understanding.

... It is said on the Earth, especially among the Christians, that Jmmanuel, whom they call Jesus Christ, is so to speak, the actual master of the world and the Universe. He is supposed to be God incarnate, where this God is regarded as the Creation. What do you say about this?

**Ptaah:**

229. We know about these human delusions on your world.

230. Alone the idea of a Christ being and a Christ consciousness corresponds to a very evil and degenerate delusion of the Earth-humans, and a very ill-natured presumption, because if these things would have happened or would still happen in the future, which is absolutely impossible, because it truly is only a fantasy of delusional Earth-humans, then with absolute probability the race which would be given the task of disseminating a religion would not be the Earth-humans.

231. As since many millenia on many worlds in the Universe, the Earth-human stands in the entire Universe as a purely materialistically developed life-form, which solely represents a life-form so deeply addicted to materialism, that every consciousness-based evolution over millennia has been detrimental to this degree.

232. On many of our own as well as on other foreign worlds, it is known that the Earth-human condemns any reasonable consciousness-based evolution and develops himself/herself only in malicious materialism and diverse religious delusions, and so it would be a paradox of the first order if, from all possible choices, a race so manifoldly incompetent in all consciousness-based areas would be chosen for a task of universal significance.

233. But that the Earth-human despite this fact presents this allegation, represents on the one hand an immense arrogance, and on the other hand, it bears witness to his/her autocratic megalomania, which in both these forms cannot easily, or not at all, find an equal anywhere else in this or in another Universe. ...

240. Especially those religions and sects, who in their heretical book name the prophet Jmmanuel as Jesus Christ and worship him, are the strongest opponents of the real truth.

**Ptaah:**

606. Terms of linguistic designations and numerical values, however, are precisely very important for the calculation of very many things.

607. So also every letter of your language alphabets has a certain numerical value, according to which you can calculate everything.

608. If Earth-humans paid more attention to these things, they would recognise many dangerous false teachings.

609. In particular, you could calculate the things of your religions and recognise the false teachings from them.

610. Consider the information in the New Testament, where you find the prophecy under the name Revelation, chapter 13, verse 18, which describes the malicious suppression and fighting of the spiritual teachings by the values 666.

611. This number represents the value of a calculation of the number doctrine that you received from Asket back in 1956.

612. With regard to the number 666, we know very well that the earthly Christian religions associate it with a so-called Antichrist.

613. This, however, is a malicious falsification of the facts, for this number does not have the meaning of the destruction of Christianity, but the meaning of the destruction of the truth that was spread by Jmmanuel about 2,000 years ago.

614. So the number 666 refers to anti-truth and to the destruction of truth as well as to material and purely worldly things.

615. Christianity itself bears this number, arising from the designations God, Jesus and Christ.

616. These names, according to your values, contain in themselves deadly annihilation and destruction and complete eradication of truth and creative spiritual teaching.

617. Along with other earthly cultic religions, Christianity is at the forefront with the absolute numerical value of annihilation, destruction and extermination of truth with the number 666.

618. If you now trace the emergence of this religion, you will find that the Christ religion was brought into being in a year of the number 666, namely in the year 189 of your calendar.

619. This year gives a basic number with a tendency to destruction, annihilation and extinction, namely 18.

620. The triple value results in 666.

621. The birthday of the Christian religion was therefore already marked by destruction, annihilation and extermination of the truth.

622. If you continue to follow the dates, you will find that in every year with the triple value 666 the Christian religion planned or carried out a new bloody crime that cost the lives of countless and innocent human beings.

623. In many cases these crimes look like political machinations, but the truth is that the Christian religion in particular, in collaboration with other religions and with politics, is the causally main culprit.

624. Almost in regular succession, the Christian religion has thus struck every ten years since its foundation in 189.

625. For the truth-loving human being, the truth must finally break through and he must realise that Christianity is the bestial beast of destruction, annihilation and extermination of truth.

626. Christianity embodies the beast with the number 666 and it is already on the point of destroying the truth and wisdom of the spiritual teachings and the teaching of the Creation with such deadly Gewalt as has never been the case before.

627. Jmmanuel was already aware of the coming of this time of terror, and so he refused to be called God, Jesus or Christ, which was nevertheless officially done in 189.

628. Jmmanuel himself was aware of the doctrine of numbers and he also knew the future.

629. In sorrow he well knew that he was unable to change anything, and so his objection to his later designation remained only a conscious attempt on his part to change what was to come.

630. The designations God, Jesus and Christ alone contain dangerous values, for each of these designations embodies death, ruin and destruction.

631. In particular, however, all three contain the triple value 666, the number of the extinction of truth.

632. This, however, is to be concealed from Earth-humans, and falsifying and lying earthly number 'experts' want to see other values in the names of Christ and God.

633. But their teachings are lies and deceit and they only serve evil and the eradication of truth.

634. It should be known to you that Revelation also speaks of a servant of destruction and annihilation, of a human being who slavishly serves the very might of destruction, annihilation and the eradication of truth.

635. This human being also carries in his name value the number of the destruction, annihilation and extinction of truth.

636. His base number is 9 and his triple value is 666.

637. He has been living on Earth for many years and, in accordance with providence, also made his appearance in a year with the destruction number 9 and the triple value 666.

638. All his names as well as also the name of his organisation are marked by the destruction number 9 and by the extinction number of truth in the triple value 666.

**Billy:**

I have already been given these details by Asket once, but can they really be relied upon?

**Semjase:**

476. Sure, but it will not be that the human beings bearing the number 666 will be the actual destroyer, annihilator and exterminator of truth.

**Billy:**

That is clear to me, Ptaah has also said that in a somewhat paraphrased form. The human being bearing the number 666 is, so to speak, only the instigator and the slave of the actual work. The might with the number 666, on the other hand, is embodied in the Christian religion.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_039](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_039)

**Billy:**

... I have a question that has already occupied me for a long time, namely regarding a statement of the Christian bible. There is talk there of an anti-time or something like that. When, then, should this time come?

**Semjase:**

249. This is the prophesied anti-time or the time of the Antichrist, which is falsely laid out in the Christian Bible, in which the Earth-human will free himself/herself from the religious delusion and turn back to the truth.

250. This time is connected to the cosmic Age of Aquarius, and the anti-time has already begun with the passage of the first half into the second half of the transitional period, namely exactly at 1120 hours GMT on the 3rd of February, 1937.

**Billy:**

That would be, therefore, the time of catastrophic confusions, of the churches' and other religions' mass murders, and of the political and religious wars, of the degeneration of human beings and otherwise all evils of the last centuries, and the coming time of catastrophes, etc., which were prophesied by the old prophets and also by Jmmanuel?

**Semjase:**

251. Sure, it's just that they still have not found their completion because the most severe events are yet to come, and to be sure, sectarian murders and mass suicides as well as religious, murderous riots, neo-Nazi terror, and other terror through right-wing and left-wing radical elements and groups.

252. But in the future, natural disasters will also take the upper hand in a degenerate form, and indeed, not in the least by the fault of Earth humanity.

253. Revolutions and wars will also take the upper hand in menacing measures

**Billy:**

Then it can still become quite cheerful. Will the atomic blockheads still chuck their firecrackers on their heads?

**Semjase:**

254. That danger should be averted, at least for now, and according to the probability calculations, that should still be able to be excluded at least up into the third millennium.

255. The values are at 99.8 percent; therefore, only an erupting madness of a ruling power or the inattentiveness of human beings could trigger a nuclear war.

**Billy:**

Last time I dealt again with the Revelation of John and calculated the data another time, which I already did together with Asket in 1956. I always come across the same values when I calculate the number 666. It is said that the number 666 is that of a human; what do you think about that?

**Semjase:**

138. The number 666 probably applies to an Earth-human being, but at the same time also to an extraterrestrial and the work of both.

139. It should be noted, however, that the earthly human being, against his will, has reached the numerical value 666, namely the antilogos, lies and untruth.

140. This by a name of lies given to him against his will, given by fanatics, liars and deceivers, by religions, charlatans and might hungry ones.

141. So the value of the number 666 does not apply to the actual person and the thinking and doing of this man on the Earth who has long since passed away, but to the delusional figure which was made of him and which dominates the Earth as a religious cult figure.

142. This is the absolute evil and the unreal, the destroying and the destructive, namely the lie and the untruth, the antilogos.

**Billy:**

That is very well set out, but you could call it by its name.

**Semjase:**

143. The name has been known in kabbalistic circles for a long time, including that of the extraterrestrial and his work.

144. But for two thousand years the Kabbalists have been trying to falsify the numerical values of the letters because they do not want to acknowledge the truth.

145. The numerical value 666 applies to the German-language values of God, Church, Christ and Jesus.

146. Jesus is the false name for Jmmanuel, who already in his lifetime refused this name, because he knew the future and knew what would be made of him.

147. Jesus is the value of Antilogos, which however the Christian church falsified into the Antichrist, which is why the true teachings of Jmmanuel were falsified beyond recognition.

148. However, these things have been known to Kabbalists for around two thousand years, which is why they are constantly trying to falsify the figures, as I have already explained.

**Billy:**

Well, then the beast with the number 666. Can you explain that to me?

**Semjase:**

149. Sure, but only for you alone, because Earth humanity must not yet experience the interpretation.

150. What is generally already known to you refers to the fact that the name of the beast has been learned.

151. This name, WUV, however is only an abbreviation of a certain versatile diminutive value.

152. The beast is therefore to be regarded only symbolically, because in truth it concerns the most diverse world-wide organisations with a two and three-part designation, etc.

153. These organisations are embodied, among other things by politics, the church and its followers, who are individually called Christians.

154. Like God and Jesus, the appellations Christian and Church are also identified by the number 666, which together represent the symbolic beast WUV.

155. For you it is said that the word WUV also means,

World-environment-industrialization

World-environment-pollution

World-environment-rape

World-environment-infestation

World-environment-burning

World-environment-annihilation

World-environment-devastation ...

**Billy:**

I am going crazy, all this already exists partially, but the names do not exactly apply to everything yet.

**Semjase:**

156. Of course, some of these organisations have already become effective.

157. But their names will still change, after which other names will emerge from the word WUV.

*{Note: See Contact Reports 127 and 128 for details and further explanations about calculations of the numerical values of letters.}*

**Billy:**

... in this context an expression comes to my mind, which I have heard again and again in the end, namely 'Christ consciousness' and the like. What value should one add to this name?

**Semjase:**

126. Only an extremely negative one, because by naming the word Christ, the value of evil is released, that is, the value of negative degeneration.

127. The same applies to the term 'God-consciousness', as your thoughts release it.

128. You know that these names bear the degeneration value 666, as do the terms 'Christ principle' and 'God principle'.

**Billy:**

So you are not supposed to pronounce these terms at all?

**Semjase:**

129. That's right, because they always release forces of negative degeneration.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_057](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_057)

**Semjase:**

131. Christ is the German version of the ancient Greek term Christos.

132. This term is a direct reference to ancient ritual acts of mystical form.

133. This means that the term Christos was used for all cultic and unreal actions as the designation for the cultic act itself when ointments and oils were applied.

134. And when I speak of ointments and oils, then I do this only for the sake of better understanding, because in the old days, when these cultic and murderous acts still took place, no ointments and no oil were used for them, but small children and virgins were slaughtered bestially, their blood was collected in vessels, kept liquid or thickened and then the consecrations for the idols were smeared with it, whereby these consecrations were usually again human sacrifices.

135. It was not until later that human slaughter and human sacrifice were slowly expelled and blood was replaced by fragrant ointments and oils, while human sacrifice was replaced by animals, fruit and vegetables, etc., which has unfortunately been preserved to this day.

136. The cults have received no change to the progress of evolutionary form, but have remained in the traditional evil, so an anointing or oiling in the present time still possesses only a ritual worthlessness.

137. Therefore, even today the term Christos or Christ means the absolute negative and evil with the numerical value 666.

138. This was also the reason why Jmmanuel resisted the name 'the anointed' when he knew that it would be attributed to him.

139. It is similar with the naming of Jesus.

140. Therefore, when the Earth-human speaks of Jesus, of Christ, of Christian or Christ-consciousness, etc., then they act extremely negatively and conjure all negative forces into an ausartenden form. [ausarten = to get very badly out of control of the good human nature]

141. They should therefore never speak of a Christ-consciousness or in similar word formations if they want to address that which is equalised, because by naming and accepting these word formations they promote everything negative towards that which is Ausartenden.

142. Earth humanity must therefore be urged that all word formations in connection with the names Jesus or Christ, etc. be erased and renamed to the actual value if they find a true name in the value of that which is equalised.

143. So one may only speak of a Creation-consciousness and the like, but the knowledge in this regard should also be formed.

**Quetzal:**

435. There have been still other like-minded people at work in this regard before him, as there are now and will be in his time, and their machinations are also significant in terms of an impending Third World conflagration, but never to the extent of Ronald Reagan's, except later with the Bushes.

436. As you well know, they are of the seven anti-logos who will stand guilty for the impending world conflagration, and Ronald Reagan is indeed one of them.

437. However, the anti-logos who will possibly still let loose the conflagration will only reach his great might in the coming time, which will enable him to carry out this work of destruction.

**Billy:**

What is actually with the beast 666, which functions in a form of prophecy as an evil dictatorship, which should come from Belgium?

**Quetzal:**

74. With this old-customary prophesied beast, which will bear the number of evil and negativity, it concerns in the coming time the so-called "European Union," shortly called the EU, which will be a European-wide dictatorship that will be decided on and established with a treaty on the 1st of November, 1993, with a so-called "Maastricht Treaty." ...

78. Also the areas of the military and the judiciary, as well as road transport and agriculture, as well as the industrial economy should ultimately be determined by the powerful figures of the EU, which will have its residence of power in Brussels, Belgium.

79. But the whole thing will be democratic in no way but will assume dictatorial forms, where the powerful ones negotiate and make decisions among themselves, by what means many still remaining freedoms of the citizens and countries will be limited or will even disappear.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

... But it is also clear to me that sectarianism is the main factor in the prophecy of the number or beast 666, namely the main factor of the antilogy or even of the Antichrist, as the religious call this truth killing. In the 'Open Word' I already wrote years ago that for this occult and religious sectarianism the greatest blame must be laid on the religions and the pseudosciences of parapsychology and psi fanatics, who breed dizziness, incomprehension, lies and deception and charlatanism to a great extent, by paving the way for all swindlers, liars, deceivers, psychopaths, schizophrenics and deludists, by recognizing media of all kinds, spiritual healers, channelers, contactors of all shades, spirit and demon summoners, exorcists, the inspired and other sick or swindlers, liars and deceivers as real and paving the way for them. Unfortunately, there is more than enough evidence to show that through the guilt of parapsychology, which has become a malignant disease of modern times, occult and religious sectarianism has been promoted and will continue to be promoted until everything overflows and the prophecy is fulfilled that all those who seek and represent the truth will be persecuted and killed, just as it is written in the prophecy of the Talmud Jmmanuel.

**Ptaah:**

788. Unfortunately, this is the truth, and the increased worldwide appearance of the fraudulent contact liars announces the first contractions of the coming, which will result from the equally worldwide and frightening sectarianism which the sectarian houses have fundamentally cultivated in Protestant and Catholic churches.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_398](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_398)

**Billy {1958}:**

40) *And it will be that before the third millennium, in 1993, a European political and economic dictatorship will be created, known as 'Europe Union', which will bear the evil number 666, because it will ultimately put the citizens of all the Member States under total control by means of biometric data in identity cards and in the form of small data slices in the head or body in a 'biometric identification system', which will be monitored and controlled by a 'central database', which will ultimately make it possible to determine the whereabouts of each person to the nearest metre. First the USA and later the 'Europe Union' will introduce this modern human enslavement, after which other states will follow – first of all Switzerland – and through this process the personal and civil rights of the humans will be drastically curtailed, which will be fundamentally planned during the construction of the 'Europe Union', whereby the citizens will ultimately be completely incapacitated and only be governed by the authorities, without them having a say in any state matters and decisions.*

**Billy:**

We have indeed already spoken at various times about the American Moon-landing swindle. In this regard, I have now also spoken with an American who was visiting here. He was not in agreement with that which I told him regarding your explanation concerning this matter. It was his opinion that a swindle is completely impossible, because the aforementioned Moon-landing project had employed at least 100,000 humans, who most certainly had not kept silent, even if it were their duty to do so. At least a whole number of them would have talked or not held their tongues due to certain grounds. What is your opinion on that?

**Quetzal:**

1. As we have already explained several times, the Americans' Apollo-11 Moon-landing on the 20th of July 1969 did not take place, because everything was a great designed swindle, through which the entire world was fooled.
2. Also, it was not so that 100,000 or more people were involved in the fraud or simply informed about it, rather a total of precisely 37 persons who were involved in that.
3. This small number was responsible for nothing trickling through, and the criminal-fraud enterprise actually could be kept secret up until the present day and this would also be the case in the future, in spite of the fact that very many anomalies in regard to the photographs and videos will be discovered by critical persons and will continue to be discovered.
4. The lie will therefore continue to be sustained, and indeed in spite of the provable and clear evidence of the anomalies, which prove the falsification of the Moon-landing.
5. Further to say is, that the Moon-landing swindle is also connected to murder, and indeed in the respect that in spite of the duty of silence of those involved, a great number cannot be silent, respectively, could not be silent, which led, and will further lead, to arranged 'accidents' and 'illnesses' with fatal consequences, until the last involved person is no longer alive whose silence is not securely established.

6. Remaining alive are only those who are hypnotically bound with their Moon-landing lies, so they themselves believe that the Moon-landing actually was realised or at least that they have thereby cooperated.

**Billy:**

But then how is it with the Moon-rover and the landing devices and so forth, which were supposed to have been left behind on the Moon?

7. These are actually to be found on the Moon, whereby however these were left behind from a later Moon-landing on the Earth's satellite.

**Billy:**

Therefore, the Yanks were indeed on the Moon.

**Quetzal:**

8. Of course, but not at the alleged point in time of the 20th of July 1969.

9. In that time the mendaciously propagated and non-existent Moon-landing was a pure political manoeuvre of the Americans, ostensibly to trump the Soviet Union in the so-called space race, to practically anticipate this and thereby to be the winner and more powerful, which was supposed to serve as a deterrent military action in regard to the Soviet Union supposedly fearing the Americans.

**Billy:**

Hence the gigantic fraud of the alleged Moon-landing.

**Quetzal:**

10. That is of correctness.

**Billy:**

And, will the truth ever come to light?

**Quetzal:**

11. That would hardly be the case because the entire fraud is played in such a wise that the discovery of the truth has practically as good as no chance.

12. Also the provable contradictions of all kinds which can be allocated by the photographs and videos would bear no fruit for the acknowledgement of the truth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_214](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_214)

**Billy:**

... why do the alleged Moon landing participants maintain, in spite of the solid evidence to the contrary, that they had actually been on the Moon? One could make these ones talk by truth serums, nevertheless, and could uncover the Moon landing lie that fools the world.

**Quetzal:**

192. That would hardly be possible because all the alleged participants were placed under heavy drugs and hypnosis without their knowledge, after which they were then subjected to a post-hypnotic brainwashing, and in consequence of this, all artificial memories of non-realised experiences and adventures and, thus, of the faked Moon landing, were dictated to them, which they then adopted into their waking consciousness, whereby they became believers of their alleged experiences and adventures.

193. The drug-induced and hypnotic blockade, through which nothing should be betrayed, is so strong that it can be penetrated by no means, and such attempts could sooner have a deadly consequence than that the truth could be squeezed out.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_231](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_231)

**Billy:**

... I have another question concerning the faked moon landing with Apollo 11, on the 20th of July 1969. Allegedly the American Neil Alden Armstrong landed on the moon together with E. E. Aldrin, whereby Armstrong is said to have set his feet on the moon floor first. The lunar ferry was said to be the 'Eagle' and the landing site the 'Sea of Calm'. A good name, because there

was no landing at that time. Maybe later some real manned or unmanned moon landings took place, which were unofficial, whereby perhaps also the moon vehicle was abandoned, how also other and footprints were made – who knows? The program ended with Apollo 17. At the alleged landing on the 20th of July 1969, Michael Collins was the helmsman of the command capsule. We have already talked about this story several times, and you, Semjase, as well as you and Ptaah, have explained that practically everyone involved in this deception was hypnotized by experts and the whole moon landing with all its trimmings was made out to them by a deep hypnosis. Nevertheless, it was not said to have worked extensively for all of them, and those who did not, were then carried out of life by 'accident' or 'illness'. Now the question has arisen, whether Armstrong, Aldrin and Collins also got the moon landing experience hammered into them by hypnosis and whether the three of them really had no idea about it?

**Quetzal:**

52. In fact, that's what it was.

53. The three were subjected to such a deep hypnosis that no doubts or inconsistencies appeared in them, so their hypnotic inspiration was perfect.

**Billy:**

Thank you. I thought to myself, because the three men were firmly convinced of their alleged moon landing. But – the hypnotists, did they really keep their mouths shut?

**Quetzal:**

54. That they remained silent for all times was taken care of, because all four were killed by 'accidents'.

**Billy:**

Aha – had to be well, because they were not hypnotized, I think.

**Quetzal:**

55. That is of correctness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

... but also the lying, deceitful, dizzying and charlatanic violence of the Americans, who in 1969 fooled, lied and deceived the whole world when they launched the theatre with the alleged moon landing of Neil Amstrong and his companions, fades away, by hermetically sealing off a fictitious moon landing somewhere in a desert on a suitable site and in a prepared hall months before and recording it on video tapes, whereby the later alleged moon drivers played along with this deception. Then when the would-be astronauts thundered the Earth outside with their rocket and circled it many times in the space capsule, the videotapes with the faked moon landing were sent by satellite to Cape Kennedy, where all employees stared just as spellbound at the screens as billions of people all over the world, who were cheated and deceived just like the employees in Cape Kennedy and all Americans. And this worldwide deception was only about ironing out the image of the Americans lost in Vietman and also about putting the Soviet Union at a disadvantage, so that they would not appear as the first to enter the moon and lay claim to the moon. If I remember correctly, it was just 37 people who were involved in this worldwide deception, of which those responsible are still proud and claim that they had rendered America an immeasurably great service, which caused many misguided and criminal dispositions and which did not take the truth so seriously.

**Ptaah:**

789. That is correct.

790. But everything is presented in a different way.

**Billy:**

Neil Armstrong then dropped the big words when he set his foot in the sand of a desert, when he roughly said: "A small step for me, but a big step for mankind". He could walk really well, because his step was really only tiny, if you consider that he didn't leave America at all to put his

foot in the dust, which allegedly lay on the moon in July 1969. But the sun will bring the lie to light, because even if the 37 participants, in which Wernher von Braun is also said to have participated, are really silent, everything will not be concealed for all eternity. But one of the participants will speak one day, either for reasons of conscience, or as a drunkard or otherwise, but perhaps other circumstances will also lead to the uncovering of the truth, as you indicated at that time. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_357](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_357)

**Billy:**

... I am able to recall that earlier, once the talk was that NASA, subsequently, under certain circumstances, after the alleged first conjured up Moon race landing on the 20th of July 1969, carried out manned or unmanned Moon landings, whereby all objects and so forth were then set out on the Moon which were supposed to have been left behind by the alleged first landing on the Moon. The reason for that was supposed to have been, as I remember it, that it could later be "proven" that the first Moon landing, and also further ones, was actually supposed to have come about on the 20th of July 1969. You have further explained that the Moon landing lie will also be vehemently contested in the new millennium and everything will be undertaken to create "proof" and indeed again in the form that new fraudulent pictures are to be manufactured, in which allegedly, the first Moon landing's "left-behind" objects and so forth, will be able to be "sighted" on the Moon through a new telescope and will be broadcast worldwide through television as a new fraud. The whole thing can eventually actually come about through a new type of telescope, always with the prerequisite that real materials were set out on the Moon, yet it could also be that then everything is only a studio set-up, as with the alleged first Moon landing. For this, indeed in suitable areas, hundreds of craters were created by means of underground explosions of blasting agents, and, with construction equipment, heaved-up hills were created, which finally looked like a Moon landscape. These areas, alongside special film studios, were then indeed also used for the lavish so-called training of astronauts. The decisive machinations for the entire Moon landing swindle lead back fundamentally to Werner Freiherr von Braun and Walt Disney, who, together as good friends, already established everything earlier. Walt Disney, as movie special effects specialist, suited NASA perfectly. But, unfortunately, he died two and a half years before the execution of the swindle, on the 12th of December 1966, if I remember correctly. His ideas and those of Werner von Braun, who indeed died in 1977, I think that it was on 16th June, were then however still realised. Besides, there was still Werner von Braun's co-worker, with whom I was permitted to have a short conversation in Semjase's beamship, as she flew with me to America and she beamed the man into her ship. Naturally, he was completely perplexed and could initially not understand what had happened to him and he was suddenly in our ship. His name was Ernst Stuhlinger (Note from Billy of the 24th of September 2005: E Stuhlinger was Werner von Braun's right hand man and he said, among other things, "It was the lie of the millennium, a fraud of the millennium without equal, NASA's and the USA's best specialised deceit spectacle ever"), and he came from Germany like Werner von Braun. First he wanted to dispute the Moon swindle, but Semjase's irrefutable presence with her ship and her explanation led to him confessing to the incredible swindle. But he then therefore begged that we should not publish his name and the conversation we had with him for the time being, rather first then when he is dead. Today the man would have to be over 90 years old. If he is dead, I do not know – if he still lives, then I want to openly speak of the short conversation I had with him, and his name. Is it then possible that I can keep the notes that I have received from you?

**Quetzal:**

64. Naturally.

65. And indeed no further word must be spoken about all that which you have explained.

**Billy {1958}:**

14) *The Earth human resp. the Soviet Union will already next year, on the 13th of September 1959, an unmanned object with rocket propulsion will land hard on the moon; and on the 12th of April 1961, an Earth human being will ascend to the sky with a rocket to orbit the Earth in outer space, after which on the 3rd of April 1961, a rocket will be launched. After that, on the 3rd of February 1966, a space flight object will be set down on the Moon with a soft landing, after which in 1968 the outer space of the Earth will be left and later the first journey to the Moon will begin, whereby five (5) manned moon landings will take place by the USA until the year 1972, while a sixth moon landing – the alleged first one – on the 20th of July 1969 will be based only on a worldwide staged fraud for political reasons of armament with the Soviet Union.*

**Billy:**

... But tell me, Ptaah, do you know anything about the fact that NASA has been missing its moon landing video for a year now and is desperately looking for it?

**Ptaah:**

21. The story is familiar to me.

**Billy:**

And why have you not pointed this out to me, my friend?

**Ptaah:**

22. Because we didn't value it and we didn't care if it was true or not.

23. We know about the truth that the story about the first moon landing is a tremendous hoax, and that is enough for us, so we don't have to worry about it any further.

**Billy:**

It is that simple for you. But the people of Earth are already interested in what's behind it. Look here, I have an article from the 'Tages-Anzeiger' of Wednesday, the 16th of August. Here, you can read it ...

**Ptaah:**

24. Thank you. ... (Reads the article.)

25. ... There is much to be said for that:

28. And the alleged problem described here that the playback devices of yesteryear are not compatible with today's TV technology is more than just ridiculous, as is the claim that the old magnetic tapes can no longer be played because they are destroyed

29. The possibility that old magnetic tapes from 1969 are still intact and can still be played back and transferred to new carriers is still possible, but what is not allowed to happen is not allowed to happen, because the original recordings of the moon landing scam of 1969 clearly show the fraudulent practices of that time.

30. The many mistakes made by the filmmakers responsible for the lunar landing scam at that time must of course not reach the general public, so that the latter must be satisfied with defective, blurred and flickering copies from which the most significant fraudulent errors have already been removed before everything was broadcast worldwide by TV stations.

31. Nevertheless, enough errors remained, which were analysed and denounced by attentive observers and researchers.

**Billy:**

For my part, I find it very strange that 700 boxes of valuable material are said to have disappeared, especially in the USA, which is particularly fussy about such things and has security measures in place for every piece of dirt that not even a mouse can steal a piece of cheese. So I could imagine that NASA and various others – maybe even certain people from the government and the army – have only staged or invented the whole story about the lost moon landing video to avoid the years of pressure from the public, who have long been demanding open clarity and evidence. If NASA can no longer show an original video, then this organization and all its players can pull out of the affair and claim that due to the loss of the original moon landing video the authenticity of the first moon landing at that time can unfortunately no longer be proven. If, contrary to expectations, the aforementioned video should suddenly appear out of nowhere, then it can be assumed with absolute certainty that it is not the original, but an already manipulated version in which all cheating mistakes have perhaps already been ironed out. The best way for NASA and its followers would be that the allegedly disappeared material doesn't show up at all. And if this Swiss physicist Johannes Geiss is of the opinion that he witnessed an effective moon landing at the Houston control center, then he was deceived by those responsible just like all the others who were fooled by the fraudulent machinations at the control center, as well as the whole US-American people and the whole world – including the persons responsible for the whole production at that time and the hypnotized astronauts, who were 'implanted' their alleged moon landing posthypnotically and drugged by a special brainwashing and who were and still are of the opinion – should some of them still be alive – that their hypnotic experiences are real and true.

**Ptaah:**

32. But the outrageous lie and deception of the alleged moon landing at that time will continue to exist, because a large part of the people on earth cannot be taught the truth, especially not those who have academic titles and who call themselves scholars, journalists or people responsible for the deception.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_527](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_527)

**Billy:**

Since last Thursday, the 8th of September, newspapers with titles like 'In the footsteps of the US astronauts' have been publishing pictures showing an area of the Earth's moon. It was written that a fortnight ago, a NASA probe called LRO took pictures on the moon, showing the footprints of the astronauts, the tracks of the moon cars, the Challenger lunar module, etc., from the landing of Apollo 17 on the moon on the 14th of December 1972. See this picture in the 'Tages-Anzeiger'. Is it possible that these pictures and the story with the LRO probe are real? Even if the alleged first moon landing on the 20th of July 1969 was faked, NASA actually carried out several moon flights afterwards, Apollo 17 being the last one so far, it is said.

**Ptaah:**

64. Whether this picture here with the additional description corresponds to reality, I cannot decide.

65. It can be both a real picture and a fake, but I also do not want to determine that because it is not of interest to me and I do not want to deal with these things anymore.

**Billy:**

But the fact that after the fraud of the alleged moon landing on the 20th of July 1969 by NASA, five moon flights and also moon landings took place after all, that is true, or?

**Ptaah:**

66. Yes, with the space vehicles 12, 13, 14, 15, 16 and 17.

**Billy:**

But you now mention six, so something does not add up.

**Ptaah:**

67. You also notice everything, and so I cannot be silent any longer, also because there is a greater security for you today.

68. There were indeed six moon flights and six moon landings, but one moon landing was unofficial and was hidden from the world public by another fraud.

69. The company with the Apollo 13 spacecraft on the 11th of April 1970 was in fact another fraud, because the device was actually landed on the moon, in the area 'Mare Tranquillitatis', where Apollo 11 is said to have landed during the operation on the 20th of July 1969.

70. However, the stay after the landing on the lunar surface was so short that the necessary for the first deception could be done, and therefore the duration from the beginning to the end of the whole Apollo 13 operation was also ultimately limited to a few days.

71. The time of the return to Earth was also faked, according to which the total time of the action was not 143 hours respectively a few minutes less than 6 full days, as was claimed, but some time more.

72. In contrast to all other companies, where dozens of lunar orbits were made, there was an extremely small number in this action.

73. The time required was precisely calculated and was just sufficient to carry out the landing, set footprints and landing lanes, leave the necessary things behind and then make the return flight.

74. The whole thing was an extremely fast action to be able to claim that not a moon landing had taken place.

75. And this deceitful lie was also spread all over the world when the return to Earth had taken place successfully.

76. And this lie has survived until today.

77. So the whole undertaking lasted only a very short time, but this was possible because this Apollo mission failed to do much of what had to be done on other Apollo missions.

78. The fraudulent moon flight and moon landing operation of the 20th of July 1969 lasted longer, 195 hours and about 20 minutes respectively little more than eight days.

79. This time was taken up because, on the one hand, the alleged flight time to the Moon and back to Earth had to be taken into account, but also the fraudulent filming and on the other hand the faked landing of the alleged moon returnees took up much more time and also unforeseen difficulties had to be overcome which could not be foreseen.

80. In fact, the launch of a rocket had to take place openly in order to keep up appearances to the public, and on the other hand a fake landing of the 'astronauts' also had to be faked.

81. But as far as the alleged failure of a moon landing of Apollo 13 is concerned, the whole fraud was only arranged in order to leave the necessary footprints and things of the alleged landing of Apollo 11 at the landing site on the moon respectively in the 'Mare Tranquillitatis', which are to be found once in the new millennium, when new moon landings by the USA, Russia or China etc. will take place.

82. It can be said that, in foresight, this possibility was already being considered and acted upon, the mother of hope being that it could then be clearly proven that the alleged moon landing of Apollo 11 on the 20th of July 1969 was not a fraud but a fact.

83. This should also prove that claims are not true, that the USA had faked the Apollo 11 moon landing only to gain an advantage over the Soviet Union in the space programme and in terms of military and technical possibilities.

**Billy:**

Ingenious. But the whole of the Apollo 13 mission is as monstrous as the fraud of the alleged moon landing of the mission of the 20th of July 1969, because also with the fraud that Apollo 13 could not have landed on the moon due to serious damage, but did land nevertheless, the whole terrestrial mankind was and still is today being fooled. What I do not understand, however, is why you did not tell me about it, because I would certainly not have divulged anything about it.

**Ptaah:**

84. It was for your own safety, which was more important than information.

**Billy:**

What do you want me to say? I do not know how such information would have been related to my safety, but I accept what you say without further question.

**Ptaah:**

85. It is obvious that you are also not interested, and that is a good thing, because a corresponding explanation would again cause more opponents against you.

86. This will probably already happen through my explanation regarding the second big fraud of NASA and the USA, which also came about in cooperation with certain US government officials, as well as the one regarding the alleged moon landing of the 20th of July 1969.

87. The Apollo 13 scam, like Apollo 11, also involved drugs and hypnotic machinations which influenced all involved to forget and to accept false experiences.

88. Thus false memories were created among the participants, but also important memories were erased from their memory.

89. So, since then, the important persons have been living under these conditions and will also do so until the end of their lives, as long as they are still alive now. Consequently, a lifelong silence is also guaranteed in this respect, because the important memories of the moon landing and its activities were hypnotically erased.

90. Now you know that this also happened with the Apollo 13 crew, which consisted of Haise, Lovell and Swigert.

91. However, if there is a danger that persons involved might fall out of posthypnosis or that the drug effects would be ineffective against expectation and the persons concerned would talk, then they will fall prey to arranged fatal diseases or accidents or suicide.

**Billy:**

You told me this in the Apollo 11 scam, and so I know that it is also the case with the Apollo 13 scam. But what about all those hundreds or maybe even thousands of technicians and crews and observers who were in the control centre on the radio and on the screens etc. watching everything that was supposed to have happened?

**Ptaah:**

92. This was really the easiest exercise in deception, because all the participants, observers, technicians and other staff etc. were misled by fake radio messages and images of deception transferred to the monitors, and consequently they were all under the false assumption that everything was real and corresponded to reality and truth.

93. Thus, only those directly involved and a handful of radio, electronic, television and film technicians and the perpetrators of the frauds were involved in everything.

94. Apart from the initiators, all those directly involved underwent drug treatment and in-depth hypnosis, with the four persons who carried out the 'treatments' then falling victim to fatal accidents in a short period of time.

95. Only the actual perpetrators escaped unscathed, and some of them have also died in the last 40 years, so only a few of them are still alive today.

96. But they too, like those who have already died, will keep their secret, which is absolutely certain.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_529](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_529)

**Billy:**

Regarding the alleged moon landings, you said that the 'astronauts' involved in the fraud were manipulated by hypnosis and drugs in such a way that false experiences and memories could be implanted in them. In my opinion, this is brainwashing, or am I wrong?

**Ptaah:**

20. Your assumption is correct, because this is actually a process known as brainwashing.

21. The alleged astronauts, as well as other close collaborators, were not only used drugs and hypnosis, but also electromagnetism.

22. In particular, the magnetism, which acts on the brain and harasses it to a great extent, is the strongest moment by which existing memories can be erased and replaced by new, absorbed experiences and memories.

23. In this way, through drugs, hypnosis and magnetic forces, the participants in the fraud were brought to new and false images and memories by the appropriate professionals, while the remaining participants, as well as the cameramen, props and other staff, were erased and replaced by new memories in the same way.

24. Others simply died, which meant that the silence was maintained in this regard even when threatened to break.

25. These inhumane techniques were and are also used by the earthly secret services, and today forbidden 'research' is being carried out, particularly with electromagnetism, to erase the human being's memories and replace them with new ones.

26. But it is also a matter of using drugs, hypnosis and magnetism to turn the human beings into murder machines that kill on command, with a code word programmed into them.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_670](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_670)

**Sfath {1948}:**

102. Therewith a race to the moon will then take place between the USA and the Soviet Union, in which the USA will have success towards the end of 1969, as well as several times afterwards.

103. But, initially a great deception will take place preceding the whole thing with a fake moon-landing filmed on the Earth, which will be broadcast worldwide to show a victory and a lead over the Soviet Union.

104. The supposed astronauts will be hypnotically influenced in such a wise that they believe to have actually fulfilled the lunar mission, while many co-workers, contributing to the deception, will be set under drugs and hypnosis and will forget everything, so ultimately only three people really will have the knowledge of the deception and they will be silent.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_672](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_672)

**Ptaah:**

123. Apart from the alleged first moon landing of Apollo 11 in 1969, which was fraudulently staged on Earth as a 'real moon landing' and in the execution of which the participants participated under hypnosis and were deceived, all other moon flights and moon landings actually took place.

124. The first and fraudulent alleged lunar expedition, broadcast worldwide by television, took place for political reasons, namely to put Russia at a disadvantage in relation to the USA with regard to space technology and so-called space travel.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_688](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_688)

**Billy:**

Your effort would have been the chance for all of Earth's humanity to finally be able to win a real and lasting world peace. But this was not in the mind of the US powers and their supporters, so also not of the secret services and the military of every kind. Deception and lying as well as intrigues and crimes are also part of their profession, as is also the case with NASA, which to this day claims and therefore lies that the fictitious moon flight with Apollo 11 on the 20th of July

1969 took place, consequently the real flight with Apollo 12 took place, after which the next official landing on the moon took place on the 19th of November 1969. The alleged Apollo 11 rocket, you explained at the time, was indeed shot up, but without a crew, after which the landing capsule was jettisoned again and returned to Earth, while the 'astronauts' remained on the ground and experienced the alleged lunar adventure under hypnosis or post-hypnotic influence. However, with a later moon flight – it was probably with Apollo 13 on the 11th of April 1970 – a manned moon landing actually took place, during which the tracks were then set that were supposedly made by the Apollo 11 moon landing. This created a second lie, because officially it was and still is claimed that on the way to the moon the landing had to be cancelled due to an explosion on board the Apollo spacecraft and therefore only a half moon orbit with subsequent return to Earth was carried out. The crew – so you told me – had also been posthypnotically 'treated' with a false 'memory' after their return to Earth, following which they were made to believe and set a false 'memory' that they had just made one orbit of the moon.

**Ptaah:**

53. That is correct, but in this respect it should not be necessary to talk about it again.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_709](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_709)

**Billy:**

But I would be interested to know what happened to these originals. You yourselves also only made copies of my first original photos, so you still have the unaltered photos.

**Quetzal:**

5. The original slides, which were requisitioned from Schmid by the secret service agents, had already disappeared from the archives of the ... after 11 months and could no longer be found.

6. They had, as you like to say, disappeared without a trace, gone untraceable and have since been lost, as if blown away by the wind, whereby also our enquiries did not lead to their being found again.

**Billy:**

Which is also what happened to various film and photographic material of the supposedly first, but imaginary, moon landing of the USA moon mission.

**Ptaah:**

13. That is correct, but we do not want to talk about that now ...

**Billy {1947}:**

... By pushing this technology, the Soviet Union is not to be granted a second success after its feat of orbiting the Earth with a rocket, which is why everything will be done to outdo the Soviet Union, for which any means, no matter how nasty, will do. And this will lead in 22 years, in July 1969, to the fact that Earth human beings will be fooled by America into believing the most comprehensive fraud ever perpetrated on the world, namely by faking a fictitious moon landing and a stepping on the moon's surface by 'astronauts', which, however, will be denied by America for all time to come with all the means of art and the most modern technology. The reason for this deception will simply be to humiliate the Soviet Union and to make America appear as the world's best and most technically developed state, from which the Soviet Union is to hold back in fear, because America is much better equipped militarily, both offensively and defensively.

In this far-reaching deception, not only the present time will be taken into account, but also the future, as a result of which the space programme will be strictly and hectically continued, in order to then feign a breakdown of an announced moon landing during a further moon flight, of which there will be several in total. This breakdown is supposed to be such that due to technical failure the announced landing on the moon cannot be carried out, consequently the rocket will only circle around the moon and return to Earth without having achieved anything. This,

however, will correspond to another fraud, because in reality, through the technology that has been further developed since the first fraud, a landing on the moon will be made possible and carried out, with the exact landing tracks, footprints and driving tracks of a lunar vehicle then being set. And this will be done to create 'evidence' that America's supposedly 'first' moon landing took place when, with better remote viewing techniques still to come in time, the lunar surface can also be scanned from Earth with centimetre precision. This, as well as the fact that if the lunar flights still being carried out in the 1970s are terminated again and then resumed and continued in the 3rd millennium, it may be possible to see the tracks that have been laid. ...

... Everything will be exploited in the future by the greed of companies, corporations and private individuals, as machinations of the horrendous overpopulation, which is growing in numbers and will have about 10 billion in the year 2030 and with its needs, desires and the urge for luxury creates machinations that fulfil others and thus rake in vast amounts of money and – ruin the Earth. And once this has happened and all the earth's resources have been exhausted, then the moon will be resorted to for further exploitation, which will soon be earmarked as the next victim of exploitation. This because already in a few decades the earth's resources will begin to dwindle to such an extent that those who think a little further ahead will already be thinking about further exploitation, which will already arise in earnest in just 2 decades. This will happen when the really first moon landing will take place towards the end of November 1969 – the first will be faked, as has already been mentioned earlier – which will emerge as the actual origin of the fixed idea of extracting chemical elements from the moon, at least once on its reverse side. But this will only be the beginning, for the ideas will be further developed in this respect and will reach as far as the exploitation of asteroids, other moons and other planets. ...

**Billy:**

Many of the great Nazis fled to Argentina at the end of the Second World War, and they also took secret plans of flying discs with them. Then it happened, as happened at Area 51, that suddenly many different unknown flying objects were sighted over the country, called UFOs. In Argentina it was the German Nazi engineers and Nazi greats who had fled, and at Area 51 it

was the German Nazi engineers who had been captured by the USA and enlisted to build flying discs and rockets etc., for which these Nazis had their past simply erased and were granted American citizenship. The question: There are still various reports of UFOs in areas of Mexico and Argentina and elsewhere in South America, as well as in the USA, what is to be thought of? Do old Nazi engineers still work in Argentina, and are strange flying apparatus still being worked on in Area 51, which are then observed as 'UFOs'?

**Ptaah:**

42. For a number of years now we have not made any special efforts to deal with these things, because they are no longer of any importance to us, so we only deal with them sporadically.

43. Our findings, however, are that there is always something to be found in relation to so-called UFO observations.

44. It is true that with regard to such observations, which are made from time to time all over the world, today not as many unknown objects are observed as in the past from Area 51 and from Argentina etc., and also not with regard to our and our allies' flying apparatus, but they still appear sporadically.

45. The main phase of alien terrestrial missile development is over, for its main period was during the Second World War and then during the so-called 'Cold War'.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_511](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_511)

**Billy:**

... I also watched the TV programme myself, which was supposed to prove with old film footage of disc and bell-shaped and other futuristic flying apparatus and balloons of the USA, especially from Area 51, that there was no extraterrestrial but a secret futuristic American flying apparatus or balloon that crashed in Roswell. ...

**Ptaah:**

7. What I can say is that the black and white film sequences you mentioned really do correspond to original footage and show secret US flying apparatus that was further developed according to Nazi plans.

8. This also involved Nazi engineers who were acquitted of their Nazi past in the USA and became American citizens.

9. These, like the Nazi engineers who had fled to South America, also continued to work on the development of disc, bell and balloon-shaped flying apparatus which were airworthy and with which extensive test flights were carried out.

10. This could be kept secret until today, apart from the fact that the flying apparatuses were seen by many people from the population, who classified the whole thing as extraterrestrial flying apparatuses respectively as UFOs.

11. However, the further development of such secret flying apparatus has not been discontinued, neither in the United States nor in various places in South America, nor in other countries. Consequently, test flights are still being carried out with such apparatus today, not only over the production areas but also in the airspace around the planet.

12. And as it must be, these flying apparatuses are judged by observers around the world to be extraterrestrial UFOs, as has always been the case.

13. This is not least because the US secret services and the US Air Force, as well as those in charge of Area 51, have been secretly fuelling UFO mania among the population through all kinds of machinations in order to conceal the truth of the experimental flying apparatus.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_519](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_519)

**Billy:**

But what if unknown flying objects are observed?

**Ptaah:**

65. If they are Earth-foreigners flying apparatuses, then they can only be those of us Plejaren or of our federated ones.

66. Otherwise they are exclusively earthly unknown flying apparatuses, like secret aircraft of futuristic design etc., as they are constructed in secret aircraft construction factories, mainly in Area 51 in the USA, but also in South America, Russia, China and Canada.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_522](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_522)

**Ptaah:**

11. And as far as the debris from the crash of the extraterrestrial flying apparatus near Roswell is concerned, it is to be said that all accessible debris was collected by members of the US Air Force and brought to Patterson and then to Area 51.

12. Despite thorough examination of all the debris, the technicians were not able to make much use of it because only a few things were understood and could be put to little use.

13. Nevertheless, it is a fact that top-secret flying apparatus is being created and tested in Area 51, not only in the area of that base, but also in other areas and even worldwide.

14. But this is also true of other states that work on and test secret flying apparatus, which are then referred to by uninitiated populations as UFOs and even as extraterrestrial flying objects.

15. And it is precisely this fact that is used by all the secret bases where futuristic flying apparatuses are built, Area 51 in particular, to keep their secret products relating to all kinds of flying objects and aircraft from becoming public knowledge.

16. The secret services involved have been stirring up the UFO hype for many decades and are doing everything they can to make people observing such flying apparatus believe that they are extraterrestrial flying objects, which are then generally called UFOs.

17. This is also a reason for the paradox that, especially in the USA, those in charge of military and air force intelligence and other intelligence agencies involved in the case are denying that an extraterrestrial flying apparatus has crashed, as happened in Roswell.

18. Of course, this also vehemently denies the secret research and machinations that are being carried out in Area 51, as well as the constructions of secret flying apparatus made there.

19. And this did not only happen during the Cold War period, but it also applies equally to the present day.

20. Thus the belief of the population in the multiple existence of extraterrestrial UFOs continues to be fuelled.

21. The fact is, as we informed you decades ago in silence, that the USA knew how to get hold of Soviet MIG fighters, the technology of which the aircraft designers at Area 51 had acquired and made great use of, but also how they could make use of certain small items from the crashed Roswell flying object, which in reality was of very little importance.

22. What is happening today in Area 51 is as secret as it has always been, and what is being created there refers to a technology that is still so futuristic for the Earth's population today that when the flying apparatus becomes public knowledge, it will in turn be classified as extraterrestrial technology, although it is purely of Earth-humans' achievements.

Asket also told me that she had entrusted Wendelle Stevens with the date and location of an upcoming secret test flight concerning a secret new type of fighter aircraft called F 117A, which would take place in the month of June 1981 in an area called 'Groom Lake'. This tempted him, with their help, to enter the area and remain hidden, and then, when the test flight was carried

out, to take a large number of photographs at the risk of his life. If he had been noticed by the many guards who secured the whole area, then, as Asket said, he would have been shot immediately without a call. ...

Then another question: Were there early connections between Aristotle, Apollo, Zeus and Congregation and the ancient Lyrians and Vegans?

**Ptaah:**

89. No.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_324](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_324)

**Billy:**

Aristotle, Diogenes and Socrates, were there any contacts between them and aliens? I am referring especially to the Lyrians, Vegans and Plejaren.

**Quetzal:**

57. There is nothing in our records that would indicate any contact between any of the humans you mentioned.

**Billy:**

So that means there was no contact.

**Quetzal:**

58. That is of correctness.

**Billy:**

... Apart from the roaring nonsense, which many philosophers of all times have brought and some of them still bring today, it must be conceded to them that diverse teachings concerning ethics, ethos and morality were the focus of philosophical considerations and thus brought Earth-humans a teaching of the greatest and most special value. The ancient philosophers did not devise this valuable teaching themselves, so Aristotle did not either, but they took it over from a Plejaren itinerant teacher, from a wise man who on the one hand had to conceal his origin – like many others, because the origin of certain Earth-foreigners was not allowed to be recognised -, but on the other hand he had special knowledge and also mastered the art of argument, of extensive verbal explanations, of explaining and proving, and in this way he spread the traditional teachings of ethics and morality as they were originally worked out and taught by Nokodemion. In this respect, only a few can be mentioned, whereby Socrates, Plato, Thucydides, Pythagoras, Anaxagoras, Parmenides, Heraclitus and George of Leontinol should perhaps also be mentioned, although I do not know exactly which of these philosophers really dealt in depth with the teaching of ethos, ethics and morals, as was the case with Aristotle. ...

...

Then I want to go on and say that so ethics moved to the centre of philosophical thought, but basically the name ethics and the philosophical discipline that came out of it basically leads back to the ancient Plejaren itinerant teacher 'Fluidjaasan', as I know from the memory bank, though then the doctrine was openly taught and spread by the ancient Greek philosopher Aristotle. Thus he founded the scientific study of ethos on Earth, placing the habits, customs and mores at the forefront of the actions and behaviour of the human beings of Earth.

According to his teachings, which he had taken over from the wise wandering teacher Fluidjaasan, he came to the conclusion that human beings could and should be able to reflect rationally and theoretically, and that this also meant the practice of observing and perceiving real reality and its truth, in order to subsequently promote reflection and consideration and then to connect the whole thing with something specific. In doing so, his idea was founded in the action, behaviour and realisation of good, positive and valuable manners of the human being, namely as a single individual in relation to himself as well as individuals with each other as a family and as a group and people among themselves. And it was from this viewpoint that Aristotle founded ethics and with it a philosophical discipline, from which ultimately emerged the comprehensive field of the teaching of human action, conduct and activity. And this doctrine became, from the ground up, the object of philosophical means with regard to the guidance of a normative or authoritative and guiding judgement as well as the practical implementation and realisation of the knowledge thus gained with regard to the ethical, moral, humane and righteous behaviour to be applied by the human beings of Earth.

The Ark of the Covenant has evidently disappeared, can you in that context tell me, what happened to it?

**Ptaah:**

79. 650 B. C. the Ark of the Covenant was brought to the island on the Nile, Elephantine, where it was hidden in the Temple of Judah for about 250 years, before it was taken away again after the Egyptians conquered the island, and was once more hidden on an island called Kamekirkos i.e. Kirkos, and namely for about another 800 years.

80. Approx. 400 years A. D., that is after Jmmanuel's birth, the Ark of the Covenant was stored in a chapel in today's Axum in Ethiopia, which was during that time called Saba, where it has been guarded by special guards ever since.

81. Today's state of it is unknown to me.

**Billy:**

... I have other questions in store, such as a question about a certain Asthar Sheran. Do you know anything about him and his followers?

**Semjase:**

68. I know the name very well.

**Billy:**

Then talk, what's it all about?

**Semjase:**

69. I do not want to talk about that.

**Billy:**

For what reason? We have some writings from a group in Berlin who are dealing with this Asthar. What about you not wanting to talk?

**Semjase:**

70. I can explain the facts to you, but only for you.

71. Officially I am only allowed to make a few statements.

**Billy:**

Then at least give these.

**Semjase:**

72. I already said that we know the name very well.

73. But we also know of the writings you mentioned and more of various other things.

74. Despite all our efforts, which we have been doing for years, we were not able to connect with these life forms.

75. We could neither find them in the places mentioned nor ever locate them.

76. We searched countless systems of normal time and countless dimensions for them, but nowhere was there a clue from them.

77. Everything is very mysterious, and interestingly enough the traces from all systems of this and other times and from all dimensions lead back again and again to the Earth, especially to Germany.

78. There the traces bundle together and concentrate in a very specific place and on a very specific entity.

79. This is a centre of a very powerful secret organisation, which you certainly do not know and which calls itself the Thule- or Arus-Society.

80. In years of work we have not been able to clarify why all this is so, why we continue to research in this relationship.

81. However, it is absolutely clear that all impulses undoubtedly emanate from this centre.

82. The initiators of these impulses possess great knowledge and many powers.

83. They are also in possession of few primary telepathic powers and many kinds of knowledge about extraterrestrial technologies, events and about extraterrestrial intelligences, etc.

84. We have established with absolute certainty that they transmit this knowledge through primary telepathy via impulsives and thus influence many Earth-humans who are sensitive to it.

85. But we have also established with absolute certainty that in the originators of these impulses a goal prevails with the aim: Preservation and elevation of the white race on this Earth from the descendants of the Arus race.

86. Up to the present time we have not yet been able to clarify what the meaning of the whole should be and which actual powers are hidden in the originator.
87. Everything is very well shielded through powers that are very difficult to penetrate.
88. At any rate, one thing is certain:
89. The primary telepathically radiated impulses are captured by various groups of humans and recorded in writing.
90. These are sometimes very good transmissions and explanations that come astonishingly close to the truth or even state it in fact.
91. But the reason for this was so far inscrutable and unclear.
92. However, we have certain values about it, which I am not allowed to name officially, because they do not yet give an overall picture.
93. However, it is clear that everything is concentrated around the Thule-Arus-Bund, but where it is actually controlled from is still unclear.
94. Traces of this lead into a foreign galaxy, and it seems that behind the 'Astar Sheran'-group there is even more than what we currently know and that it is also quite evil.
95. Surprisingly, the writings mentioned contain an enormous amount of knowledge about valuable and good things and about facts that are quite unknown on the Earth.
96. Mixed in with these truths, however, are also very strange, unreal and untrue as well as quite negative and evil lies and things that seem like an evil foreign body in the block of good.
97. Thus, for example, gross falsehoods are interspersed, such as the naming of false contact persons who appear or have appeared on the scene in a fraudulent form.
98. These are also immediately noticeable as evil foreign bodies and do not make any sense in their naming.
99. It could not be clarified so far by us, why these falsehoods are interspersed and asserted as truth and what is the actual and quite obviously very malicious purpose of the whole.
100. On the whole, it is certain that the primary telepathic transmissions are very valuable and sometimes even truthful in relation to things that appear unusual to the earthly man, but to which the evil falsehoods manoeuvred in do not rhyme in any way.
101. The whole thing simply makes no sense, for the logic of the very many truths is interestingly overplayed again by an unusually great illogicalness and falsehood.
102. It is undoubted that the primary telepathic impulses of truth seekers were and are partly truthfully recorded in written form, because the persons doing this are or were very truthful.
103. But it is incomprehensible that the real truth is in short again destroyed and made questionable by untruth as well as by lies and falsehood.

**Billy:**

Is it possible that perhaps some alien people have their hands in the game? You spoke of the Thule Arus Society and of another galaxy or of the Arus allies. Arus was an alien after all.

**Semjase:**

104. I am not allowed to give any official information about that yet.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_036](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_036)

**Semjase:**

33. Adolf Hitler had succumbed to a delusion of power and was also maliciously abused by the Giza intelligences, with the old Thule Society playing a not inconsiderable part in this, which, however, cannot be transferred to the society of the same name of the new form.

**Billy:**

You already said that. You have already spoken about this society before, in connection with Ashtar Sheran, or whatever his name is. It is said that this Sheran also transmitted a novel-like book, as it was explained to me, in which it is said that his clan took the dear Moses on board a beamship about 3,500 years ago. The Ten Commandments were then given to him by these. In addition, this Sheran also claims that the events of FATIMA can be traced back to his clan. You

once gave some hints about these things, but you did not express yourself very clearly because you do not have exact certainty about these events. But you promised me you'd enlighten me if you could figure it out. I am now interested in whether the then Thule Society in Germany is somehow connected to this Sheran tribe and whether it has anything to do with the Giza intelligences.

**Semjase:**

34. Your questions brought up a series of explanations I was going to give you today anyway.

35. A few days ago, through painstaking research and surveillance, we were able to gain a clear understanding of the fact that Ashtar Sheran actually exists and that the only reason we could not recognise him was because he fraudulently wrapped himself in this name.

36. A part of his real name is ARUSEAK along with another sequence of names, and he is a cousin of the supreme Giza intelligence.

37. On their behalf he controlled the old German Thule society, in which he introduced two strong telepathic factors, but which also influenced many Thule society members and various outside groups on a telenotic basis, including those who received the pseudo-messages of Ashtar Sheran.

38. Sheran's machinations in this regard continue today and will continue in the future, but no longer in connection with the reorganised Thule Society.

**Billy:**

Now I understand all sorts of things, but you just mentioned a word I don't know. You said telenotical, what is that?

**Semjase:**

39. Telenotical simply means telenosis or telenothy.

**Billy:**

This is a Bohemian forest for me. I really do not know what that is. I have never heard that word before.

**Semjase:**

40. You know hypnosis, which is based on and built upon objective and acoustic influences.

41 In contrast to hypnosis, telenosis does not require any optical or acoustic influences, but only certain high-frequency oscillations, which are transmitted inaudibly to humans and otherwise undetectable by means of high-tech apparatus and devices, e.g. radio, telephone, radio, television and other communication and transmission apparatus and devices, although impulse telepathy also belongs to this.

...

**Billy:**

... Tell me what Moses and Fatima have in connection with Sheran. You did not give me any information about that.

**Semjase:**

106. In fact, i did not:

107. The events of Fatima actually trace back to these intelligences, as do many similar events.

108. All we knew so far was that the Giza intelligences were responsible for all these events and that everything was done by Ashtar Sheran or by his command.

109. This has only been known to us for a few days, since we were able to unveil the secret around him.

110. The case with Moses behaves is somewhat different than was explained, because the Ten Commandments, of which there were actually twelve, were not given to him in a spaceship, but actually in that place which is handed down to you in the Bible.

111. In this statement the truth was handed down to you as it really happened, at least as far as the place of the event is concerned.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_038](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_038)

**Quetzal:**

3. This time I will give you explanations that Semjase has spoken about with you in relation to the events surrounding Ashtar Sheran who in truth was named Aruseak and who carries further names yet.

...

15. Aruseak, alias Ashtar Sheran, and so forth, is, as far as the fulfilment of his apportioned mission is concerned, the leader of an assembly of intelligences consisting of thousands of individuals, who, until 15 years ago, stood under the direct command of the world-control seeking KAMAGOL.

16. Aruseak and Kamagol are, according to their blood association, cousins, as it is named by you.

17. But Kamagol is the leader and ruler over a splinter group of many thousands of descendants who, in earlier times were separated, which means that this group had been separated by those powers who, earlier, possessed the control over your Earth and whose highest leader was an JHWH.

18. As it has always been, however, power struggles and lust for power also ruled among them, as unfortunately is characteristic of the human life form in its course of evolution.

19. One of the most greedy for might at that time was ARUSSEM, who, with a group of many thousands broke away from the majority of the celestial sons who had already become peaceful, and went his own way with the mind to make the Earth and its life forms subordinate.

20. His way of obtaining his goal was that of lies and deceit, of misleading and false teaching in the form of cultic false teachings which he was able to very skillfully weave into the religious teachings.

21. Through emissaries, and Earth-humans who had succumbed to him, he mixed these teachings among the Earth-humans whereby he soon won many followers of his false teachings.

22. It was primarily the gypsies on the Nile and in the further vicinity of the Mediterranean Sea and the Red Sea, who fanatically hung on his false teachings and began to spread them.

23. But the Hebrews, as they were, later freed themselves from this rule, as Arussem had to cede control to his successor, who was then named JEHOVAH, and so forth, in the tongue of the Earth-humans.

24. Having grown in the number of their people, the Hebrews created their own might and elected themselves as chosen ones.

25. They assumed for themselves the right to be qualified for world-control and to be worthy as chosen people, although they were never a people, rather only a low human group of gypsies of all kinds of colors and races who had come together.

26. But since the events of that time, they unjustifiably presented themselves as the first-ones, as the pre-entitled to rule the Earth, faithful to the examples who wanted to bring the whole Earth into bondage.

27. Thereby they became renegades, as also were their models, who now from their side, had to seek new ways to realise their wishes for power.

28. They found these ways then also through Kamagol the First, who succeeded Jehovah, who had assumed the name of an JHWH.

29. Like no ruler before, Kamagol the First forced all terrestrial religions into the frame of blood-demanding cults which, unfortunately, were able to be maintained on the Earth up to the current time.

30. In spite of many efforts of the righteous celestial sons they were not able to prohibit his evil machinations, therefore he could grasp the cultic religions around himself more and more and control the world.

31. Mighty in many kinds of technical and consciousness-related resources and powers, Kamagol's assembly was able to force the Earth-humans into its power and completely lead them into a cultic religion confusion.

32. However, also Kamagol the First could not assert his position of power because, after he had created for himself a centre and a headquarters deep under the surface of the pyramids of Giza, he was overthrown and disempowered by his own son, KAMAGOL the Second.

33. In many things he was even more malicious than his father, which he also soon proved through the introduction of monstrous mass killings of the Earth-humans.

34. Very many bloody events on the Earth which were carried out through the cultic religions, in truth, concern the will and the influencing of Kamagol the Second.

35. He and his assembly have become known, in insider circles, as the GIZA INTELLIGENCES.

36. This is because they maintain their actual command centre there and guide all events from there.

37. Many kinds of efforts were undertaken to prepare an end for this command centre and the driving force of this malicious assembly, yet that has basically failed up until now, because they have secured everything so much that effective alterations could only be obtained with malicious illogical force, which is not allowed to us and all others who are oriented regarding these facts.

38. Kamagol the First now selected one of his cousins as the authority over a group of thousands of individuals which had a quite special mission to fulfil - or would have had.

39. This task was essentially based on the telenotic guiding of various groups of humans of Aryan lineage into certain paths, in particular in Germany, America, Argentina and Brazil, in order to provide unconscious assistance for Kamagol's plans.

40. During the first time period, Aruseak, therefore Ashtar Sheran and whatever his other names may yet be, followed these orders unconditionally, so thereby Kamagol allocated further great power.

41. But in the course of time he obtained many kinds of understanding and modified his behavior.

42. Until then, he acted only according to the orders of Kamagol, so he only modified his tactic unnoticeably and thereby influenced, firstly, his assembly, which he indeed required.

43. By and by he obtained their trust, and they acknowledged him as their actual leader.

44. So it was an easy game for him to, by and by, include the obtained understanding of the truth and also to act according to it, even with the knowledge of his assembly.

45. With their acquiescence they loosened themselves from the control of Kamagol and formed a new splinter group.

46. That happened in the Earth year 1933.

47. Since then Aruseak followed his mission, imposed on him by Kamagol, to a degree, and transmitted his messages to various Earth-humans using telepathic impulses.

48. Because, however, he is not yet completely conscious of the truth, in his messages arise contradictions to which however no attention may be given.

49. In various matters of the truth he is yet inexperienced, so he has to learn it first.

50. Nevertheless, however, his messages in the principal matters are extremely faithful to the truth and stimulate joy.

51. But, on the basis of security for his assembly and himself, in certain things he gives unclear and not correct, and therefore false, statements, which is however entirely excusable.

52. So, statements about his place of residence also do not correspond to correctness which, however, effects no severance with his obtained love of truth.

53. This is a security for him and his assembly so that they do not come into conflict with Kamagol's assembly.

54. In spite of all of our possibilities we have not succeeded in finding his whereabouts.

55. Apparently he and his assembly have received, through some sort of circumstances, very high and valuable knowledge of security measures which they make use of and that we are not able to investigate with all our possibilities.

56. But that is not of significance, because those kind of occurrences often happen if individual groups break off from a forceful control and seek the way of the truth.

57. So Aruseak, with his assembly, can hold up in a very greatly distant galaxy or even in another dimension, where they are absolutely secure from Kamagol's grasp.

58. However, they are able to do their mission in spite of that because their consciousness-based, and technical, possibilities make it possible to bridge all distances in space and time.

59. This is the state of these matters that I had to explain to you.

**Billy:**

Quetzal, that is of more value to me than any material fortune. Your explanation says therefore, that Aruseak has broken away from the Giza Intelligences and has made himself autonomous. That is monstrously favorable: it is only a shame that you did not already discover that earlier. The previous meager statements from Semjase have unfortunately created a somewhat worse picture.

**Quetzal:**

60. It is known to me, yet we did not want to leave you and the interested ones in uncertainty, that Aruseak belonged to the Giza Intelligences.

61. But we can just now transmit to you the truth known to us up until now, because we know it somewhat better.

62. Still to mention, at any rate, is that, in spite of everything a great factor of uncertainty exists in regard to the probity of Aruseak, alias, Ashtar Sheran, alias, alias, subsequently it cannot be said with certainty that an intrigue and falseness is not still indeed hidden, in the end, behind the present manner of behaviour.

63. Ashtar Sheran's change of attitude provides, namely, some puzzle.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_044](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_044)

**Billy:**

... But what about this Ashtar Sheran, is he still in the area?

**Semjase:**

88. He is very well, but his activity has finally ceased; however, he is not so close that one could still call it 'in the area'.

89. Moreover, we found out that he poses a certain danger, which we have not yet been able to determine.

**Billy:**

Also good. But what about the young journalist who wrote or simply reproduced all these Sheran reports? I was able to read these reports in the meantime because they were made available to me.

**Semjase:**

90. The man is not what he is described as.

91. He was never even outside the earthly atmosphere and even less did he experience the things he reported.

92. All his statements are pure fantasy.

**Billy:**

Then I do not understand that Ashtar Sheran should actually exist anyway, if this man invented everything.

**Semjase:**

93. That is also very easy to explain:

94. Ashtar Sheran had a real visionary influence on him when he was still in doubt and unfortunately ignored various things, such as the later total elimination when he completely renounced the Gizeh intelligences.

95. Thus the man, if you want to call the person that, came to mix certain still vague memories with his boundless imagination and to spread them as truth.

96. All these things only became known to me less than nine days ago, because the clarification of these things was a small part of my task that has kept me in suspense for so long.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_105](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_105)

**Quetzal:**

91. You and the whole task are still very vulnerable to other elements, earthly as well as extraterrestrial, the latter being related to the Bafaths, Astar Sheran, etc.

**Billy:**

I can imagine that, but these Sheran types, etc. are certainly not as mean and dangerous as the Giza twerps {*Gizeh Intelligences*}.

**Quetzal:**

92. Do not let yourself be deceived, because the dangers are sometimes even greater, because these elements do not have to take into account that their existence becomes known.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_145](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_145)

**Billy:**

... Anatol is a man who was used by a group of extraterrestrials as a contact person to pursue a very specific educational work on Earth. He stands, or rather, stood, in contact with humans of that group, who are under the leadership of a certain ASHTAR SHERAN. These Ashtar Sheran people previously worked together with the Giza Intelligences and were, therefore, expelled by the Pleiadians from the planet Earth and were deported. For the exact data on this, one would have to go to our earlier contact reports (see: Volume 1: 36th Contact on Monday, 20.10.1975, p. 460 and the following and 38th Contact on Thursday, 13.11.1975, p. 488 and the following and Volume 2, 44th Contact on Monday, 16.2.1976, p. 81 and the following) to find these because I know that these things were discussed between you and me officially. Over the last decades, however, Ashtar Sheran and his people have obviously changed to the positive and to the truthfully truth in such a form that they were allowed to remain active on the Earth practically, in a reparation process or in a reparation mission, whereby the Pleiadians have made several of their own older ships available to them. Thus, people of the Ashtar Sheran group already came to the Earth again a long time ago, recently searched for contact here, and worked or work for a certain truth mission, which consists, among other things, of confirming your existence and my mission. ...

**Ptaah:**

21. And as for the name Ashtar, I refer to all the information that we already delivered to you several years ago for the public, from which it clearly and unambiguously follows that Ashtar Sheran has never had and still does not have those contacts with Earth-humans that are ascribed to him by various liars and deceivers of the Earth.

22. As for the inglorious role that he had played, this is known to you very well, and moreover, his material existence expired, according to the terrestrial calendar in the year 1983, when he strove for things in the DAL Universe that did not fall within his competence.

23. Having fallen back into his former, wrong, and old conduct, he fled into the twin universe and attempted to seize power there over Asket's people, whereby his aircraft was destroyed and he lost his life.

24. So he, as well as his spirit-form, can in no way enter into contacts with Earth-humans, for on the one hand, his body was completely eliminated by the destruction, while his spirit-form has no possibility of returning from the twin universe to our universe or to break through the barriers, which are insurmountable to any spirit-form, of both buffering universes, in order to establish or maintain this kind of contact with the Earth-humans.

25. So all those lying and swindling Earth-humans, who maintain that they would have contact with Ashtar Sheran, are already condemned by this fact.

**Ptaah:**

98. A residual group of the now-dead Ashtar Sheran, who finally concluded his life in the DAL Universe, felt obliged to be active as avengers of their former lord and master.

99. And since they thought that they could avenge their dead master most impressively if they would nip the teaching of the truth on Earth in the bud, they placed malicious, negative impulses in several of your friends, which made them become disloyal and enslaved to swindlers, deceivers, and liars, as in the case of Yoshi Kozakura and a few others.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_257](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_257)

**Billy:**

There are also many lies about Ashtar Sheran. Again and again people come to us who still believe in the nonsense that he still transmits messages to Earth-humans and plans to save his followers on Earth. People simply don't want to accept the truth that this Athar Seran, as his real name was, who was misunderstood on Earth and transformed into Ashtar Sheran, was eliminated years ago in the DAL-universe during his criminal fighting, consequently his spirit-form and his whole block of consciousness are no longer in our DERN-universe.

**Ptaah:**

91. Lies, swindle, fraud and delusions of all kinds unfortunately very often have a very long life span.

92. Therefore, it is not surprising that even the most incredible Ashtar Sheran stories still circulate as strongly as in former times.

93. And it is not surprising that new delusional illnesses, liars, fraudsters, charlatans and swindlers appear again and again in this regard, because with such untruthful things a lot of money and other profits can be made on earth with believers who respond to them.

94. A fact that also applies to the so-called UFO-contacts resp. to the alleged contacts with extraterrestrials.

**Billy:**

Asthar Sheran, i.e. Aruseak or Atar Seran and whatever else this criminal called himself, was eliminated in the DAL Universe during a serious battle, as he was attacking a planet or something like that, as you've explained. Now, the question arose as to whether he is now incarnated again; do you know something about this?

**Ptaah:**

77. What you say is correct, but whether he is now reincarnated should be answered with a "no," for in the regions where he lost his life, no overpopulation problems prevail on the planet; therefore, it will still take a very long time before he will be arranged into a reincarnation.

78. To our knowledge, three hundred years will pass, when I make my statements in accordance with the earthly calendar.

**Billy:**

So other time relationships prevail there, whereby I have just alluded to the duration of a year.

**Ptaah:**

79. That planet – in whose outer space Ashtar Sheran lost his life and in whose otherworldly space, in accordance with the valid creative regularities, his spirit form as well as entire consciousness block fixed themselves – has an orbital period around the central star that corresponds to 486 days, according to the earthly standard.

80. Moreover, a day has 27 hours and a little more than 36 minutes, measured by an earthly hour.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_330](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_330)

**Billy:**

... n the Czech Republic a certain Ivo Benda works around, who – as I have been told – works around on the internet and in books with my photos and writings as well as with all my material in general and also claims that he is the reincarnation of Ashtar Sheran and is in contact with you. But now I know that all these claims are based on charlatany, because first of all you have no contact with any other human being on Earth apart from me, and secondly Ashtar Sheran's spirit-form cannot be reincarnated in an Earth human, because this guy died a few years ago in the DAL-universe and consequently his spirit form cannot return to our DERN-universe in terms of rebirth.

**Ptaah:**

33. The facts of all things are as you say.

34. And I would like to state quite clearly that I am not in any way in contact with this man and that all his claims in this regard are untrue.

35. You know that you are our only contact person on Earth in every respect, both telepathically and physically or in any other respect.

36. The man's claims regarding his alleged rebirth as Ashtar Sheran can only be classified as untrue.

37. There is probably nothing more to be explained in this matter, except that we are well acquainted with the man's wiles, as you very much trivialize his machinations.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_563](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_563)

**Ptaah:**

82. A certain Wilbert B. Smith was probably a contactee, but unfortunately one of the negative kind.

83. His contact was only a one-time and absolutely meaningless contact and furthermore only a hypnotic direct contact with the group of the 'Ashtar Sheran', whereby the whole thing was, as already mentioned, effectively of an insignificant nature.

84. As hypnotic direct contacts we call those where the hypnosis is not performed independently by apparatuses, but directly by the human being, but where the hypnotic transmission of energy thanks to hypnosis over long distances is also performed by strong transmitting apparatuses.

85. So Smith, like many other contact persons, was in contact under hypnosis with post-hypnotic aspect, and he did not act consciously and not of his own free will, as it was common practice in the 'Ashtar Sheran' group to keep the contact persons absolutely under control.

86. And this was the case with all the numerous contacts who were abused by the 'Ashtar Sheran' group.

87. Such contacts with Earth-humans were very often the case through the 'Ashtar Sheran' group, whereby this group simply impulsively influenced Earth-humans to make them willing tools for their dark machinations on Earth.

88. These influencers were in great numbers, but none of the human beings ever had any idea what the actual reality of the contacts was and how they took place.

89. In fact, they never had any real physical contact, but always only hypnotic impulsive contact, with real visions also being part of the whole, so that many of those contacts, who were abusively manipulated by the 'Ashtar Sheran' group, were convinced that they had real contact with extraterrestrials.

90. So they were not aware that they had no real encounters with the aliens in this sense, and consequently they also had not flown in their flying apparatus, because in fact they were only pretended to have had real hypnotic visions.

91. Through this hypnotic real vision illusion the contactees were misled in such a way that they actually believed that they had real contacts with extraterrestrials and had flown with their flying apparatus.

92. So they were no longer able to distinguish reality from the hypnotic illusion, and lived or still live in the implanted delusion that their contacts were real.

93. A further fact was that these contactees were hypnotically and suggestively given false data about the origin of the 'Ashtar Sheran' group, thus practically all these contactees were reminded of different places of origin.

94. But all these facts were unknown to us at the time when we gave you the list of these contactees, because at that time we only analyzed the memories of the people concerned.

95. These were, however, so profoundly hypnotically and suggestively manipulated that we were deceived by them and therefore did not recognize the memory manipulation.

96. We only found out the real facts three weeks ago, with better technical possibilities, which we now have at our disposal and which we have now used for the first time.

97. In recent years, we have noticed things that seemed strange to us in various such contactees, which is why we used the new equipment and devices to re-analyze the memory impulses of all still living contact persons and were able to penetrate their hypnotic blockade.

...

100. It must be said, however, that the persons forced into contact in this way are left with no conscious knowledge of their own, but only the post-hypnotic memory, which shortly after the manipulation became so strong that it could not be reversed .

101. And this applies without exception to all those many Earth-humans whom we have named individually or in lists as contact persons and who without exception have been forcibly manipulated in a hypnotic-suggestive-revisionary way by the 'Ashtar Sheran' group.

102. In all cases, however, the impulses were such that the recipients of the impulses had false visions and thought that they had experienced contact, which is why they took notes, wrote books and also made public statements.

103. The reason for this was, on the one hand, that this was supposed to lead to a worldwide disinformation regarding the existence and origin of various extraterrestrials, while on the other hand it was also connected to a plan of the 'Ashtar Sheran' group, which consisted of becoming a ruling power on Earth and finding a new home there.

104. The plan was that this group would act as a kind of savior for the Earth's population, against various 'evil' alien invaders who were supposed to threaten Earth.

105. For this purpose a big spectacle with aerial battles and fights in earth orbit was planned to make everything seem real.

106. And this would finally have led to the 'Ashtar Sheran' group taking over the rule of Earth, as an extraterrestrial armada, so to speak.

107. So all this was aimed at with the hypnotic contacts to Earth-humans, and it was all to come about after official contacts with the Earth governments had been established.

108. This could actually have been achieved by influencing certain Earth-humans through impulses, which would also have included the rulers of all countries, who would have acted according to the impulses in such a way that the plans could have been realised.

109. Since these persons, of whom there were a greater number, all failed and for reasons as yet unknown to us did not fulfill the orders placed in them, the evil plan did not come to pass.

110. All the contactees, whom we also used to call by their names, were supposed to be the pathfinders for the realization of the plans of the 'Ashtar Sheran' group.

111. And since all these Earth-humans were hypnotically and suggestively manipulated by the aliens of the 'Ashtar Sheran' group, which we did not know at that time, we called them real contact persons.

112. That was probably wrong of us, because we let ourselves be misled, which led to false assumptions on your part and also on the part of Earth-humans, which resulted in the assumption that these contact persons with the 'Ashtar Sheran' group had real physical or telepathic contact with any aliens.

113. Of course this was not true, as we know today, but even then it seemed strange to us, because we did not know any other group apart from the three groups unknown to us.

114. So we assumed that these contact persons were connected to the three unknown people we did not know.

115. So this misunderstanding was due to us, which we regret very much.

116. And it should also be mentioned that this form of forced manipulative contacts had nothing to do with our impulse contacts, which we used to have with Earth-humans, but for them unconsciously and in such a way that they assumed that their progressive ideas were their own.

117. In particular, these impulse contacts from our side to scientists took place in order to promote the sciences of medicine and technology among Earth-humans, which has also been proven by the very rapid developments in the last decades through many inventions and innovations etc., as is actually the case.

118. Our contacts were also such that the recipients of our impulse transmissions had no knowledge of the whole of the unconscious telepathic information impulses.

119. The 'Ashtar Sheran' group, which finally ended in the DAL universe, as you know what was supposed to cause disaster on Earth, which would have happened if their manipulative machinations with the forcibly contacted Earth-humans had been successful.

...

**Billy:**

These are new findings again, which show many things in a new light.

**Ptaah:**

123. That is so, but we are also not immune from mistakes and misguidance, not even in the mentioned relationship by the 'Ashtar Sheran' group, which has been doing very bad things and has caused a lot of trouble regarding alleged physical and telepathic contacts with various extraterrestrials from allegedly different places of origin.

124. As we have now been able to find out, their victims were hypnotically and visionarily duped into alleged physical contacts, as well as into alleged messages of Christian religious form.

125. This, along with various other underhand machinations, which caused wrong assumptions and views in many Earth-humans, even among civil servants and military personnel etc.

126. Also, for the sake of confusion, sightings with various kinds of flying apparatus were actually organized around the world, as well as strange acts of animal mutilation etc., as well as by Earth-humans who were impulsively hypnotized by the 'Ashtar Sheran' group.

127. We only found out about this through Asket, because she told us that during the fighting in the DAL universe four prisoners were taken from the 'Ashtar Sheran' group before their armada was completely destroyed.

128. One of the four prisoners was the first representative of Ashtar Sheran and Armada commander.

129. Recently he, like the three other prisoners, finally agreed to break the silence and reveal the many evil machinations of the group, so that we could get to the bottom of it with their hypnosis contactees and find the truth.

130. These prisoners also gave the names of various such false contactees who had already died, including one Wilbert B. Smith, as well as others in various countries in Europe, Africa, Japan, America, Israel and South America, such as Brazil and Argentina etc., but also Australia and Russia etc.

...

**Billy:**

I can understand that, but now the question arises whether the whole thing with the prisoners and your investigations have perhaps also led to findings with regard to the three groups unknown to you, and if so, which ones?

**Ptaah:**

136. This was also clarified with the prisoners, and their statements make it absolutely clear that the 'Ashtar Sheran' group had no connection whatsoever with the three groups unknown to us.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_565](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_565)

**Billy:**

So many observations, things, and strange occurrences can be traced back not only to the former 'Ashtar Sheran' group, but also to these four groups?

**Ptaah:**

65. It was never mentioned, but only that many events and occurrences could be attributed to this 'Sheran group', from the hypnotic forced contacts to all kinds of unpleasant happenings and strange occurrences.

...

**Billy:**

... What interests me now: During the first time of our contacts your daughter Semjase talked a lot about the fact that various extraterrestrials come and go on Earth and that they would also have contacts with Earth-humans. How should this be understood now that you found out about the 'Ashtar-Sheran' group and were able to clarify the whole thing? Must Semjase's explanations now be connected with this?

**Ptaah:**

76. That is indeed the case, yes, in every single relation of the names she told you, which according to our latest investigations were connected with the 'Ashtar-Sheran' group.

77. These statements of my daughter are of course not connected with those telepathic impulse contacts which we had with Earth-humans without their knowledge, nor with those which, intentionally or unintentionally, were made by us with Earth-humans, such as the contact of my daughter Semjase with a German named Elsa Schröder in Persia near Zahedan and with Petra and Anatol.

78. Then the contact that took place in Bolivia, South America, with an extraterrestrial group from a space and time displaced area of Proxima Centauri between an Athar and Kohun and a man of German descent.

79. And there may also have been contacts of various kinds between Earth-humans and the four groups unknown to us, but we have no clear evidence of this, at least not to date.

80. And what my daughter explained at that time when she talked about contacts with extraterrestrials mostly referred to the activities of the 'Ashtar-Sheran' group, but under certain circumstances also incidents with the unknown groups could have been included, but we have not been able to clarify this until today.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_567](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_567)

**Billy:**

... Accordingly, from the beginning, you also could not penetrate into the deeper consciousness nor into the memory of those earthlings who you previously designated as contact people. So you did not find the actual truth, being that the human beings of the Earth, who you designated

as genuine contactees, were nothing more than those manipulated by the Ashtar Sheran group's hypnotic suggestion and real vision, and so forth, who had no conscious and genuine memories of alleged personal contacts and experiences with extraterrestrials, rather only suggested false memories. ...

**{Reader's} Question:**

*Once again the 'Ashtar Sheran' movement is also involved. The fact is that a good friend of mine lives absolutely by their rules and says that the Ashtar sect teaches that there are angels to guide you, that Earth is in ascension, and that those who really try to follow the Ashtar 'teachings' are also 'saved' – blablaba. These speeches are common in esotericism, but what does this really have to do with Ashtar Sheran? He is – who was called Aruseak – already deceased, right? I know that the Plejaren know little about this community, but perhaps there is news?*

**{Billy} Answer:**

*As far as Ashtar Sheran is concerned, it can be said in a nutshell that on the one hand it is known how the name of this extraterrestrial came into the earthly language area, where it has since been exploited esoterically and sectarian and misused by would-be media, which are supposedly powerful in channelling, for imagined 'messages'. The alleged 'messages' of all 'media', also the 'Kryon- and Ashtar Sheran messages', are without exception nothing else but personal delusional, schizophrenic or deliberately fraudulent machinations, because channelling, talking to the dead etc., is absolute nonsense. But to Ashtar Sheran, who actually existed, whereby he first had an important mission, but from which he had fallen away and become a criminal: He had gathered a large armada around him and caused all kinds of mischief and inconsistencies, as well as that he himself, as well as his followers in bondage to him, hypnotically and suggestively influenced Earth-humans and made them believe all kinds of nonsense. The name Ashtar Sheran was also suggestively 'implanted' in earthlings, who then – unaware of the truth of their suggestive-hypnotic influence – turned it into an esoteric-sectarian contact story and spread it, which has continued until today and has found a large number of followers and believers. And this is still the case, although Ashtar Sheran was truly a criminal and Athar Seran was what his real name was. On Earth, the name was misunderstood and changed to Ashtar Sheran, but he, along with his whole band, was eliminated in the DAL universe years ago in criminal battles, so his spirit-form is also no longer in our DERN universe.*

...

*The worshippers and advocates of the figure of Ashtar Sheran on Earth are, like the 'Kryon Community', a widespread sect spreading nonsense under the name 'Ashtar Command', whose members actually believe in an alien named Ashtar Sheran, who is said to be delivering 'valuable messages'. Contrary to the truth that Athar Seran or Aruseak or alias Ashtar Sheran is said to come from a people called the Santinians, he prosecuted a completely different people. The 'Ashtar Sheran' believers claim that he is supposed to have been working on Earth for a long time. The sect also represents the alleged interests of Ashtar Sheran, who is supposed to have been active on Earth for many decades. And this despite the fact that the Plejaren have been declaring for decades that he was eliminated in the DAL universe during hostilities when he wanted to conquer a planet with his armada. In Germany, there is a Santine representation in Berlin.*

*The 'Ashtar Command' goes back to the 'I Am' movement, which was founded by a certain Guy Ballard as a theosophical community. The 'I Am' movement or 'Saint Germain Foundation' originated in America. Its founders and leaders, the mining engineer Guy Ballard (1878–1939) and his wife Edna, transformed theosophy, which originated in India, into an 'American' theosophical doctrine of God's work. The leader of the Theosophists is said to have been contacted by so-called ascended 'masters'. The alleged contact between the 'Ashtar Sheran-*

*Command' and Ashtar Sheran is said to have taken place by means of 'channelling' (which corresponds to a pure schizophrenic imagination), in which a medium is supposed to receive a message. A well-known medium from this sect is called Tuella, which is said to come from the English-speaking world. The alleged 'messages' of this medium, which is very active, are not only available in the English-speaking world, but also in Switzerland and Germany, etc. The whole of these sectarian 'messages' is at the heart of the evacuation of humanity on Earth by over 17 million UFOs, which cannot be seen at the moment. The purpose of the evacuation is to bring the earthlings who believe in this nonsense to a higher vibrational level and thereby save them from the bitter end of time and humanity. ...*

...

*... According to the 'Ashtar Command', Earth-humans are to be taken to a paradise after their evacuation from Earth by the 17 million UFOs and from then on are to be rejuvenated both mentally and physically – as was the case with the 'Heaven's Gate' sect. In any case, the members of the Ashtar Sheran sect are lied to, deceived and misled. At present 144,000 light beings from the Santinians are said to live on Earth – farewell to the 144,000 'chosen' ones who are to be deposed and 'saved', as the Bible claims with similar nonsense. If the alleged evacuation with UFOs is compared to the biblical rapture, an analogous story emerges, except that the saviours mentioned in the Bible have nothing to do with UFOs and Ashtar Sheran. According to the 'Ashtar Command', thousands of Santinians are said to have incarnated on Earth, although not everyone is aware of this, so many of them will only later realise where they really came from. Although there is only the Earth in the whole solar system, which is inhabited by human beings and many other life-forms, Ashtar Command claims that the whole solar system is inhabited. This is scientifically already today a complete nonsense and nonsense, whereby the whole thing reminds of the charlatanism of Georg Adamski with his human beings from Venus, as well as of Jakob Lorber, who described the huge gas planets as the habitat of human beings etc. The 'Ashtar Command' also claims that the Earth must soon be transformed into a new plane of existence. That the whole solar system should be animated, as the 'Ashtar Command' claims, is an astronomical impossibility, as already every child capable of understanding and reason knows, but nevertheless the followers of Ashtar Sheran, who died long ago in the DAL universe, still maintain the idiotic nonsense of a SOL system that is animated throughout.*

*And what is more, the Santinians allegedly accuse the earthlings of playing fast and loose with the Earth and its environment. Ashtar Sheran himself is hailed as the Commander of Love, who is also supposed to be the Son of Man announced by Jesus Christ. Of course, how could it be any other way with a stinking religious sect, Jesus Christ and the archangel Michael are also supposed to be on you and you with the Santinians and to work together with them. Through this cooperation, the evacuation of the earthlings should also come about one day, which should also be ordered by God's personality. That the 'Ashtar Command' for the whole thing – probably to announce the evacuation – will use all the natural disasters and the evil worldly events to point out the future upheavals, is to be expected. Ashtar Command promises peace, freedom and 'spiritual' perfection for the future, based on the sect's philosophy that all human beings can recognise themselves as Santinians incarnate on Earth. This nonsense is especially dangerous for unstable human beings, because it is especially such unstable people, who, according to their faith, fall into such nonsense and become unthinkingly and abysmally in bondage to it. It is not only adults who are at risk, but also children who are confronted with all this bottomless and irresponsible nonsense and also fall into this and the delusion that there is a real meaning behind everything, if they come to the idea of being an extraterrestrial human being themselves, perhaps a Santine, so that they have to join like-minded people and show similar sectarian behaviour.*

**Billy:**

... Ashtar Sheran, if I speak of this one first, was a criminal, yes criminal, I would even like to say, who then lost his life in the DAL universe and whose correct name was Ashtashran, for which, however, I do not know the meaning. Ashtashran, like the Giza intelligences, also belonged to the old split-off old Pleiadian splinter group, which had already departed to our DERN universe more than 22 million years ago and was up to mischief in it. In particular, the Giza intelligences were in some respects malevolent elements, while Ashtashran was also evil in other ways, spreading an impulse-driven delusion of belief about his person among the earthlings.

... And the trick of the two groups, the Ashtashran alias Ashtar Sheran and the Giza intelligences, was that they were only in our presence when they caused mischief, whereas they were resident in another space-time plane and only came into our presence temporarily ... And as far as Ashtashran alias Ashtar Sheran is concerned, as far as I know he was never in our presence anyway, but worked on his confused believers on Earth from another space-time plane.

**Semjase:**

92. First of all, I would like to point out to you that since time immemorial innumerable human beings have always claimed that they experienced such 'wanderings' or 'journeys' or to have carried them out by their own release of power or use of power.

93. However, it is recommended to you to treat such assertions with the very utmost caution, because among 1,000,000,000 such assertions only 2 or 3 are found that stand up to all examinations and that must be referred to as genuine, in which however everything behaves differently than what comes forth from the assertions.

94. A very large, yes indeed the largest percentage of such assertions are based thus on malicious deception and on just as malicious conscious lies.

95. Another smaller percentage is based on unconscious lies, as you have already correctly recognised yourself.

96. Such lies are based on fanaticism, delusion or self-deception, etc., because by the 'self-persuasion' of the person in question, he or she would make an astral journey, or that he or she has made one, he or she suggests this to himself or herself for such a long time, until it becomes a fixed idea and an illusion.

97. As a result, the sense for reality is lost and the person in question actually believes that astral traveling is performed.

98. If he/she then asserts this, then he/she lies unconsciously.

99. As I have already explained once, however, this is also the case in other fields of fringe and spiritual sciences, especially with so-called mediums.

100. But astral travel is not possible in truth, that is, it is not reality in the conventionally claimed sense.

101. Also here a great many different factors are to be taken into account, because hallucinations can arise through self-suggestion.

102. Depending on the imagination of the human being in question, illusions of other worlds can be pulled up, which in reality are effectively only fantasies and have nothing in common with reality.

103. Very popular objects of this kind are other worlds and planets.

104. On this self-suggestion basis also the past and the future can be pulled up in illusions, which, however, in truth, are only figments of the imagination.

105. Very often the process of spiritual-intuitive vision, which can be triggered unconsciously in every human being, is also referred to as astral traveling.

106. Also image-visions are represented as astral wanderings, and many more other things.

107. The process is also very well known, that a human being projects his/her image [illusion], in a consciousness-based manner to any place and then claims that he/she has carried out an aforementioned wandering.

108. In fact, at the place in question his/her image can also be seen, yet, however, not in astral form.

109. It appears more like a mirage, transparent, but still recognisable.

110. Such images [illusions] can also be brought in from the past and projected into the present or future, which are even photographically recordable.

111. This process is actually very easy, once the way is recognised.

So what about the statements of certain human beings who explained that they flew with UFOs to other planets in our system and saw and spoke to human beings there? And what about those who allegedly want to have made astral migrations to such planets?

**Semjase:**

132. It's all nonsense and charlatanry.

133. Especially lately I have studied many of the books and writings you have given me regarding such reports.

134. It partly mentions planets which would be absolutely too inhospitable for any life and which would not offer any life possibilities to any life forms.

135. In these books worlds of your system are described as inhabited, which in truth have developed only very minimal single-celled life and only in millions of years become capable of carrying higher forms of life – if at all.

136. The above-mentioned visits in beam ships or in the form of astral wanderings are therefore nothing more than charlatanry or very bad self-deceptions that arise from fantastic dreams, delusions or misconceptions.

Whereby the so-called supernatural of course does not exist in any way, because everything and everything is always naturally explainable and also naturally given. The supernatural exists only in the ignorance and the incomprehension of man, because he has no knowledge about all those things which he cannot understand and cannot explain himself. Truthfully everything so-called supernatural is absolutely natural and thus also classified according to the corresponding laws of spirit or matter, which are able to give an explanation for everything and everyone, whereby something supernatural becomes a fact of non-existence. Everything that can be grasped and perceived, everything that can be seen and heard and everything that can be felt, recognized, experienced and experienced, etc., is always real, real and natural in every case, regardless of whether it takes place on a spiritual or material level or on a medium level between spirit and matter, which is so often called the level of the supernatural or the supernatural by parapsychologists and esoterics who do not understand it.

### **Semjase:**

120. At our fifth contact I finished the history of humankind at the time when 50,000 years ago according to earthly calendar our homeworlds found freedom and peace.

121. Before that time, 70,000 human beings fled under the leadership of the scientist Pelegon.

122. With spaceships, which they had seized, they fled through the space out of another configuration of space and time into the one of the Milky Way of the DERN universe and settled on the Earth.

123. Under Pelegon's leadership, there were 200 sub-leaders; scientists who were each responsible for a specific field of knowledge.

124. Pelegon was unanimously recognised and respected by them and all others as king of essence of wisdom (JHWH/God).

125. In the course of the millennia they built large cities and inhabited all continents of the Earth.

126. Unfortunately, this only went well for barely 10,000 years before lust for might regained the upper hand and a deadly war raged over the world.

127. Everything without residue was destroyed, and only a few thousand human beings were able to survive, while others fled again into the outer space and into the old space-time configuration and settled on distant worlds.

128. For the next 7,000 years the Earth was no longer flown to, during which time those who stayed behind became completely wild and degenerated.

129. After that the descendants of those who had settled on distant worlds returned.

130. Again they were led by an JHWH.

131. Under such a kind of JHWH command, the distant descendants later built Atlantis and Mu.

132. Two huge cities on two different continents.

133. For thousands of years, they lived in complete friendship and in peace, until some scientists again succumbed to the greed for might and wanted to seize the rule.

134. However, having become tired of the constant wars, the peoples rose against them, hence they seized spacecrafts and fled into the outer space; according to earthly calendar about 15,000 years ago.

135. For two millennia they and their descendants lived in a neighbouring solar system.

136. Two millennia during which they had become very evil and were only able to uphold a certain regulation under the strictest discipline.

137. Through mutations and researches they achieved a very long life span, which amounted to more than three thousand years.

138. Obsessed with imperiousness, they left their world about 13,500 Earth-years ago and came back to the Earth.

139. Their supreme leader was the scientist ARUS, who was also called "The Barbarian."

140. As already JHWH Pelegon nearly 190,000 years ago, he also had 200 leaders or subleaders, who were each responsible for a specific field of knowledge.

141. They settled in two parts in the far north and in today's America (Florida), whereby they constantly forged ahead to Atlantis and Mu, in order to invade them with war.

142. And only a few millennia after their renewed requisitioning of the Earth, they succeeded in completely destroying Mu and Atlantis.

143. Few survivors went into servitude, while great scientists were able to flee and returned to the original homeworlds in the Pleiades.

144. But thousands of years before that point in time, the new intruders spread across the Earth, and JHWH ARUS ruled with a firm and bloody hand.

191. Atlantis was divided into two kingdoms.

192. The Great-Atlantis was located between the divided continents of America/South America and Europe/Africa, while the Small-Atlantis was located in the Santorini region.

193. Great-Atlantis was destroyed and sank into the sea through war feuds with the inhabitants of Mu, which lay in the Chinese Gobi desert.

194. But Mu was also destroyed and ceased to exist, leaving only the underground city of Agharta.

195. Small-Atlantis was destroyed about 6,000 years later, indirectly by the gigantic Destroyer, the giant comet, which brought Venus into the SOL system 3,500 years ago.

196. The enormous vibrations of the Destroyer racing by, and the following Venus, caused enormous damage on Earth.

197. It trembled, burst in many places, and huge volcanoes erupted.

198. One of them was the existing Santorini.

199. It exploded and tore various islands down into the sea within a wide radius, while the sea began to bubble and an approximately 2,000 metre high tidal wave was generated, which rolled over today's Crete to Egypt and Syria.

200. Crete was called Minoa at that time and its inhabitants were Atlantean descendants.

201. Many of them were still able to flee to the Hellenic mainland and thus save themselves.

202. Minoa remained an island, but most of the islands of Little-Atlantis around Santorini sank.

**Semjase:**

11. As I already explained at an earlier point in time, Atlantis and Mu destroyed one another.

12. However, this was a peculiar case and I have to begin to recount from a very early time.

13. About 150,000 Earth-years ago, after a very long time of wars and of uprisings, our home planets finally found peace and freedom.

14. Many millennia after the creation of calmness, peace and freedom however, a scientist called PELEGON made himself the leader of a group consisting of about 70,000 human beings, and with their help he appropriated numerous large space ships and fled.

15. As a great scientist it was an easy thing for him to force the 70,000 strong group under his control and to bring them to the Earth in a frantic escape through space and time.

16. On board of his stolen space ships were close to two hundred very good scientists of the most varied fields of knowledge.

17. From them, and also from the whole group, Pelegon was unanimously accepted as god, thus as the king of wisdom and leader.

18. During the following millennia their descendants lived on the Earth and built up a high culture.

19. They built many and large cities and inhabited all continents of the Earth.

20. Their flourishing lasted close to 10,000 years.

21. During this time all went well and everything found a very high level of development.

22. However, before the 10,000 years were completed, dissatisfaction erupted again through the lust for might of some that were greedy for might, which led to deadly wars that made the entire Earth tremble with wild war cries.

23. An Earth world war took place to the extent as has never happened before and has not been brought to Earth since.

24. Everything, but really completely everything that the ones who had come from space had built up, was destroyed and annihilated and only a few thousand human beings of these extraterrestrials survived the tremendous catastrophe.
25. These, however, fled with good and far-reaching space ships out into space and settled on foreign worlds.
26. Only a very small remnant remained on the destroyed Earth and degenerated completely, whereby they lived completely separately from the small group of Earth-born humans of that time.
27. When after around 7,000 years the distant descendants of the ones that fled came back to Earth, they therefore found only extremely wild and degenerated individuals of their forefathers, who lived, as said before, far away from the Earth-humans.
28. The return of the descendants of the former fugitives happened again under the leadership of a god, under whose rule Mu as well as Greater Atlantis and Lesser Atlantis were built.
29. At that time Greater Atlantis and Mu were the two most gigantic cities which had ever been built on the Earth, and for the sake of peace they were built on two different continents.
30. Again a high culture was built up and everything began to blossom.
31. During a few millennia complete unity and peace prevailed, before some scientists, in their greed for might, ausarteten [got very badly out of control of the good human] nature again, and with all means available to them, tried to seize dominion.
32. The peoples however, with the distant memory of the wars of their forefathers, rose up against the might-craving scientists, so the scientists had to flee.
33. Through some allies that were well disposed towards them, they were able to appropriate several spaceships and fled into outer space.
34. Calculated in Earth years this was a little more than 150,000 years ago.
35. During the following tens of thousands of years, these evil-minded refugees lived in a different space and time configuration to our Pleiades, in a neighbouring solar system, fathered many descendants and developed a high technology, which offered them tremendous possibilities.
36. This technology, however, they furthered only in hatred and revenge, because they thereby wanted to bring the Earth under their Gewalt.
37. Through their government, the hatred and pathological craving for revenge of the descendants, was constantly stirred up and driven so far that, in their own ranks, a certain order could be maintained only with very great effort and dreadful punishments.
38. Thus a people of malicious and bestial nature came into being.
39. It was also their hatred through which the average life expectancy of these hate-filled human beings was driven up by means of research, gene manipulation and through mutations, and so forth, so that in the end it amounted to several thousands of years.
40. Each individual human being of this people was taught in the art of war and in the most outrageous intrigues.
41. After two thousand years these hateful people had progressed so far that an attack on the Earth could be considered.
42. Thus they got on their way, climbed on board of their large space ships and came to the Earth.
43. This was around 103,000 Earth years ago.
44. Their leader was the jschwjsch Arus (JHWH), the barbarian; and scientist of an extremely bestial disposition and of coercive might.
45. For his help he had appointed many scientists of most varied disciplines as deputies and sub-leaders, 200 in number.
46. Suddenly and predatorily they pounced on the Earth and stole new land for themselves, thus they were then able to colonise the north of America.

47. It is the present day Florida, which came to rest in the present day south only due to a shift of the Earth.

48. From there they won a great might over the Earth for themselves, whereby they continuously fought Atlantis and Mu.

49. Constantly they pushed forward to Greater Atlantis and Mu, in order to bring these cities into their possession through acts of war.

50. Thus for many further millennia, world-wide wars blazed, before evil elements of the hate-filled human beings were able to infiltrate into the ruling elite of Atlantis and Mu, who secretly stirred up hatred and Gewalt, until Greater Atlantis and Mu were completely destroyed through the intrigues, whereby few survivors went into servitude, while great scientists were able to flee with their space ships and returned to the former home-worlds of our seven-stars, being our Pleiades, which were settled by the earliest forefathers when they left their original home worlds in another space-time configuration in the Vega-Lyra-region.

51. However, the form in which Greater Atlantis and Mu were destroyed was of such intrigues and full of horror that, in the history of the human beings of the Earth, it will probably never be paralleled:

52. The intriguers stirred up malicious machinations between the Atlantians and the citizens of Mu, which led to mutual actions of war.

53. Between both arose malicious hatred and the will to destroy.

54. Mu, which was in the Gobi desert, feuded with Greater Atlantis, which was built in the great island kingdom between present day Africa and America, before it sank in the Atlantic due to the greatest earthly war-catastrophe of all past and probably also future times, leaving behind only a few small islands, which today you call the Azores.

55. At their time, the war powers of Mu and Atlantis were of horrendous might and size and equipped with the highest technological achievements.

56. So, Greater Atlantis alone had at its disposal an army of 4.83 million (4,830,000) men, which was equipped with small-combat-beamships.

57. Furthermore, the government of Atlantis commanded a giant fleet of 123,000 units of single-person-destroyers, miniature beam ships for close Earth combat.

58. In addition there existed another 16,431 eliminator units, miniature beam ships, which, through the effects of heat, were able to totally eliminate all material within fractions of a second.

59. Finally they were equipped also with 24,230 overkill-beamers, each of which required 10 people to operate and were installed in midrange-beamships.

60. To this tremendous might Mu was inferior, which however did not make it less dangerous for the Greater Atlantians, because the Mu scientists had likewise developed very dangerous weapons, which in many ways were even more dangerous and more destructive than everything of the Atlantians altogether.

61. The scientists of Mu had in fact discovered powers, which made it possible for them to convert entire small planets into all-destroying space bombs, by pulling them out of their orbit of millions of years and with extreme precision steering them onto a carefully determined target of another planet and letting them crash down with devastating force and explode above the target, and it was exactly this frightful weapon they used when Greater Atlantis commenced the full-scale attack against Mu.

62. The best and the most suitable scientists of Mu were charged with finding a suitable planetoid which could be used as a deadly and annihilating missile against Atlantis.

63. Thus they flew with their ships out into space and found in the asteroid belt, outside of the Mars orbit, an object suitable for their purpose.

64. It was a planetoid of several kilometres diameter, however we are not able to analyse its exact size anymore.

65. By means of atomic and electro-energetic energies it was thrown out of its orbit and brought onto course towards Earth.

66. After that the planetoid's own rotation was slowed down and brought to a standstill, whereupon on the side turned away from the Earth, a drive unit of gigantic size was installed for the purpose of a tremendous acceleration of the small planet, which was supposed to be directed to its destination with breakneck speed.

67. Only less than half a day before the full-scale attack of Atlantis against Mu, the deadly space bomb was completed, a death-messenger of human insanity and of tremendous consequence.

68. When Atlantis undertook the attack, the producers of the death missile were informed within a few seconds, by means of hyperwave-impulses, about the oncoming events and were charged with allowing the death missile to take off.

69. A few seconds after receiving the command, on the side of the planetoid facing away from the Earth, a thousand suns appeared to race into the dark space and with gigantic force the monster started moving.

70. Very quickly the speed of the messenger of death increased, steered by scientists controlling the monster, who were sitting on the planetoid completing their task and thereby were doomed to die.

71. In the meantime on the Earth the Atlantians eliminated the city of Mu and levelled it.

72. Whoever had not fled into the satellite cities thousands of metres deep underground or into space, perished in the totally eliminating rays of the Atlantians and nothing bore witness anymore to their former existence.

73. The victorious Atlantians however returned to their gigantic island kingdom and celebrated their victory achieved over Mu in a true delirium of joy.

74. However, their joy did not last long because they had barely begun their festivities when messages came thick and fast in regard to the danger rushing towards them through space.

75. Only a few high government officials and scientists were still able to clear out and flee with their spaceships into space before the catastrophe was unleashed over Atlantis and made it sink into the sea.

76. The ones left behind and doomed to die saw the disaster racing towards them, high in the sky and far in the northwest above the sea and the far continent.

77. As if out of nothing a dark celestial body suddenly appeared, which advanced at frantic speed with its far side blasting off blinding light.

78. The colossus came rushing in quite low and in a few seconds turned into a giant.

79. First only visible like a small shooting star, in a few seconds it turned to a gigantic size with a fiery tail.

80. Fascinated and transfixed, dilated pupils from fright, the human beings stared ominously towards the approaching monster, which so completely silently sped towards them, then however suddenly gave out an unbearable howling sound, as it plunged into and rubbed against the first levels of the atmosphere of the Earth inducing its resistance.

81. Two seconds later the planetoid began to glow like a supernova and created a heat of more than 340,000 degrees.

82. In a split second vast areas of country burnt to smouldering ash, when the enormous heat fell down from the speeding giant.

83. Then the space bomb suddenly exploded at less than 172 kilometres altitude and transformed into many thousands of small and larger meteorites, which, like small atomic bombs, were catapulted to Earth and with devastating impact destroyed everything that got in the way and which was in the areas of impact and shock-waves.

84. Through the tremendous explosion the whole Earth was shaken and the thunder of the explosion rolled around the entire globe.

85. The planet was shaken badly and many volcanos erupted out of it.

86. Two large parts of the exploding planetoid crashed like titanic fists into the Atlantic and pierced through the hard crust of the Earth on the bottom of the ocean.

87. It was as if the world was going under, because the power of impact of the debris was greater than many hydrogen bombs such as you insanely possess today.

88. Deep in the ocean the Earth's crust was torn apart and the way opened for the boiling hot and glowing magma of the inner Earth, which now viscously poured out.

89. The seawater began to bubble and boil, vaporising masses of water which shot up into the atmosphere, up to 35,000 metres high.

90. Through all of this happening, the wild ocean was thrown up into a gigantic tsunami wave, which surged forward with frantic speed and a height of 2,300 metres, pulled along everything and simply let entire countries sink into the water, or at least destroyed whatever was in its path.

91. The island empire of Atlantis however sank within a few minutes in the raging waters of the Atlantic, without even leaving one single surviving life form behind.

92. The capital city, which was built like a beam ship, was torn into several pieces and sank with the foundation.

93. This is how the event with Atlantis and Mu unfolded about 9,500 years before today's calendar.

**Billy:**

Fantastic. But from where do you have this knowledge?

**Semjase:**

94. It was handed down to us.

**Billy:**

Phenomenal – but you said just a moment ago, that these events belong to the past 9,500 years before our calendar, as you say. Is this date exact?

**Semjase:**

95. Certainly, up to two years exactly.

96. Calculated back it is exactly 9,498 years before the start of the current calendar.

97. If you go from the year 2,000 then it is exactly 11,498 years. ...

**Billy:**

Here I have received a magazine article from one of our group members. In that a man named Otto Muck, a German physicist, has calculated that Atlantis must have been destroyed at exactly 19:00 hrs on the 6th of June of the year 8498 BC, and indeed precisely as you have just told it, only that he thinks that it was a purely cosmic catastrophe.

**Semjase:**

99. That does not surprise me.

**Billy:**

So, and why not? This man has after all calculated everything very precisely, up to the year exactly, only that he erred by one thousand.

**Semjase:**

100. Sure, that is a miscalculation, because he relied on information, which is incorrect by years.

101. Additionally he assumes that through the Mu-Atlantis-events Noah's Flood was triggered, which is not true.

**Billy:**

That is known to me. However I really thought that you would be surprised about the calculation and explanation, which in my opinion is very remarkable.

**Semjase:**

102. Why should I?

103. The explanations of this Earth human Muck are very well known to us, also the fact that he, apart from the calculation of the year, is very close to the truth in certain things.

104. But he must indeed know this, because only through one of his earlier personalities were the legends about Atlantis recorded in writing for posterity for the first time 2,322 years ago.

**Billy:**

You are driving me crazy – you actually think that one of the earlier personalities of this Muck was the former Plato?

**Semjase:**

105. I do not think so, we know it very exactly.

106. Here just draw a comparison with these two pictures.

107. Here is a bust of Plato and here is the picture of Otto Muck.

108. Does anything stand out for you?

**Billy:**

Hm – man, girl, that fits, both of them are almost the same faces. Consequently Otto Muck must still today show a relationship with his former existences.

**Semjase:**

109. Certainly, since then it has been inherited down through one family lineage.

**Billy:**

That is really fantastic; if that man knew it.

**Semjase:**

110. Unfortunately he is not very responsive to such things. ...

**Billy:**

All right, then. But may you now answer a question concerning these minor planets or planetoids, namely what is the 'Adonis group' about? Mr. Muck writes that the space projectile was a body of the 'Adonis Group', which I cannot imagine.

**Semjase:**

112. It is very easy to explain:

113. The Adonis group includes all those celestial or space bodies which are called planetoids.

**Billy:**

Oh, then an Adonis group member simply means planetoid? How complicated people can be.

**Semjase:**

114. That is unfortunately so. ...

176. For many years now we have been keeping an eye on Otto Muck, who also has been inspired by us for certain things.

177. First he was supposed to go public informatively on a large scale with the results of his research, in order to prepare the human beings of the Earth for the full truth about the events surrounding Atlantis and Mu at that time.

178. This he has done, on one hand through a book, and on the other hand also through the newspaper article that you have shown me.

179. Thereby the ground is prepared to reveal the complete truth.

**Semjase:**

29. Atlantis was destroyed by Mu scientists, as I explained to you recently.

30. This was 9498 years ago B.C., as you yourself have just correctly noticed.

31. This was the first major catastrophe of the last 10,000 Earth years BC.

**Semjase:**

89. But, while on all three homeworlds the vicious battles of annihilation raged, a large group of dissident scientists came together under the leadership of a certain Pelegon, who already had the status of an Ischwish.

**Ptaah:**

1. This was the titan 'Pelegon the Imperious', who was a power leader of the Hamud dynasty, which ruled over all the Plejaren peoples of all the Plejaren planets until before the creation of peace some 52,000 years ago.
90. Under his leadership, 70,000 human beings were gathered, including many scientists who seized various spaceships and fled the Plejara planets.
91. According to the coordinates of old records, the refugees entered this space-time structure and the SOL system, and thus once again arrived on Earth, where the Titans once again settled.
92. According to earthly time calculation this was about 190,000 years ago.
  2. The unpeaceful warlike times triggered by 'Pelegon the Commanding' and continued by all his successors for about 39,000 years, led to peace and quiet returning only about 150,000 years ago, which, however, did not last long.
  3. Millennia later, about 6,000 years after the establishment of peace, tranquillity and freedom, a scientist and distant descendant of 'Pelegon the Imperious' named 'Pelegon the Militant' set out again, in imitation, to become the leader of a 70,000-strong fighting unit that was in his thrall.
  4. (These fighting units were a fighting force of 70,000 men, which had been in existence since time immemorial, were permanently mobile for security operations and combat actions, and were each under the command of a leader of the Hamud dynasty appointed for the purpose).
  5. 'Pelegon the Commanding' was a great-great-great-great-ancestor of 'Pelegon the Militant', who some 40,000 years later, i.e. some 150,000 years ago, equally brought a 70,000-man fighting unit under his command and fled to the DERN universe.
  6. This happened while his son 'Pelegon the Martial' was seizing power on the home planets at the same time.
  7. 'Pelegon the Martial' was a scientist and surrounded by many followers and also leader of another 70,000-man Hamud Dynasty fighting force with which he plunged the worlds into warfare again, as this was then continued by all his numerous successors.
  8. These periods of strife then lasted for more than 100,000 years.
  9. When 'Pelegon the Militant', the father of 'Pelegon the Martial', seized several large ships with the help of his battle unit and fled, the dimension gate had already existed for about 30 million years, which he used to penetrate various inhabited solar or planetary systems in the DERN universe with his battle unit and finally also reached Earth.
  10. There, however, in the course of time, feuds and conquests broke out among some of the fighters, as well as acts of war were carried out, as a result of which it was finally decided by some of the prudent ones that the fighters should no longer be allowed to remain on the planet.
  11. So, after the death of 'Pelegon the Martial', who was killed in battle, there was a general forced departure from Earth of the troublesome and quarrelsome outcasts, whereby everything that indicated their former existence had to be destroyed.

12. The outcasts, however, fled to distant systems where they resettled, while those who remained on Earth fell under the command and Hamud leadership of 'Pelegon the Patriarchal'.

93. On the home planets the vicious war was fought to the bitter end and the scientists were put in their place.

...

102. Those who fled to the Earth knew nothing of the end of the wars for the time being.

17. These refugees were Titans and the most distant descendants of the 70,000 refugees of 'Pelegon the Imperious', who brought them from the Plejaren planets to the DERN universe and the SOL system to Earth more than 190,000 years ago.

103. In the joy of their newly won freedom, they gladly submitted to the tight regime of Pelegon, who had chosen two hundred scientists as sub-leaders and deployed them according to their fields of knowledge.

18. 'Pelegon the Patriarchal' was the first successor leader to carry on the legacy of 'Pelegon the Commanding', who was then followed by various other Hamud leaders.

104. Under their leadership emerged large cities with other inhabited areas and a very high culture developed on all the continents of the Earth, which had resulted from continental shifts over about three hundred million years

105. For about 10,000 years harmony and peace reigned, but then again an Jschiwisch called Jesus came out, who murdered Pelegon's successor and seized power over all the, by then, united different folks and races.

106. Twenty years later however, the folk rose up against Jesus, and a terrible and worldwide war broke out again over the Earth by those who had travelled farther.

107. Many hundreds of thousands fled with large and small ships into free space, set down and settled in another space-time structure in Beta-Centaurus, which you know in your space-time structure as the Barnard star.

19. This was not in the DERN universe space-time structure, but in the one where the Plejaren planets also exist.

108. A few million humans remained on the Earth, where everything that had been built by the extraterrestrial humans had been completely destroyed and totally eliminated.

109. Those left behind, deprived of all technical and other cultural possibilities by the complete total destruction, gradually fell into a wicked lethargy, atrophied and became wild beings in a nasty barbarism.

20. All knowledge of their original origins and highly developed technology was lost, and their former high development of consciousness atrophied almost completely, with the result that in the course of time the two and a half million feral Titans largely exterminated themselves and became cannibals.

110. For 700 years the Earth was simply avoided, before the descendants of the fugitives set out again to populate the beautiful blue world again.

21. These new arrivals, or the distant descendants of those who had left the Earth earlier, were on the one hand not Titans, but human beings of smaller dimensions, but they too were not exactly of a peaceful nature, but nevertheless no longer as warlike as their ancestors.

111. This was 133,000 Earth years ago, according to your current chronology.

112. The returnees were led by an Jschiwisch with the name Atlant, married to an Jschiwisch named Karyatide.

113. In the latest episode, under the leadership of Atlant, the continent of Atlantis, which had been headed for again and again, and used for millennia, was expanded and made habitable, while under the command of his wife Karyatide, Lesser Atlantis came into existence, as at the same time her cousin Muras built the gigantic city of Mu, which, like Atlantis, also found its origin in very early times.

114. The reason for the construction of these cities so far apart was, that the humans had become cleverer through all the wars, and hoped for peace as a result of the great distance between the cities, if everyone stayed in their domains.

115. So it went well for many long years – a whole 1,800 years, to be precise.

116. Then, however, again some scientists exalted themselves, whipped up by lust for might, and tried to snatch up control for themselves.

22. After the death of Atlant, his wife Karyatide and Muras, various other leaders took over.

117. This time however, they had not reckoned on the people's memory of war, which had been passed down over the ages.

23. The lore was only maintained by those who returned, but not by those who remained on Earth, who were deprived of all achievements and values by a complete destruction of all technical, cultural and other things, whereby they finally gradually withered away and became savage beings who fell into barbarism and eventually died out.

118. So before the scientists could strike, the folk rose up against them.

119. Through an accomplice, the scientists obtained possession of spaceships and fled into the space-time-shifted regions of Beta-Centauri.

120. This was 115,000 Earth years ago.

121. After 2,000 years, during which the malicious refugees again created a high technological standard and produced many descendants, they returned filled with hate to the Earth, after they had increased their hate immeasurably against the extraterrestrial inhabitants of the Earth, and were only able to preserve order within their own ranks with terrible punishments.

122. Spurred on through their inhuman hate, they, through research and the knowledge obtained from it, drove up their life expectancy to more than a thousand years.

123. Their single wish was, however, to gain control over the Earth, for which reason every individual was taught wicked intrigues and was instructed in the craft of war.

124. After 2,000 years, this hate-drenched people was so far along that it could venture an attack on the Earth, therefore it manned its ships and came newly to the Earth, and indeed under the leadership of the Jschwisch Arus, the barbarian.

125. This happened 113,000 years ago.

126. Arus was extremely bestial and barbarous in his disposition, and his power was feared.

127. Like Pelegon, already thousands of years before, Arus also had 200 high-level scientists with him, who he made sub-leaders.

128. In a lightning action they fell upon the Earth, robbing, murdering, and taking possession of the land.

129. Primarily, they conquered the distant land in the northern regions, where the climate was moderate and very good.

130. These were those regions, which are traditionally known to you as Hyperborea, and which were far in the north, before an upset of the Earth shifted its axis, so that the then regions exist today where you name Florida.

131. Coming from the north, Arus's son, Arus the Second, set out and fell upon those lands which today you call India, Pakistan and Persia, and so forth, whereby they struck the earliest forefathers of the Sumerians, who, peace loving, fled and set down far in the south; folk of dark coloured skin, but by your terms, not Negroid, but like Europeans and of tall growth, risen from a

race of former Sirian refugees, who had likewise settled on the Earth 133,000 years ago, as did the refugees from the Plejaren-System.

132. Named after Arus the Second, the India of today was at that time called Arien, which, however, split off from Hyperborea after a few centuries, after 210 years, to be exact, and joined with the inhabitants of Mu and Agharta, while from Hyperborea, Arus the First constantly troubled Mu and Greater Atlantis by wicked war activities, in order to become their ruler.

133. During around half a millennia, or said very precisely, during 502 years, those war machinations continued, until Arus the First, who in the meanwhile had become old and weak, succeeded in infiltrating wicked elements of his hater humans into the leading controlling ranks of Atlantis and Mu, who secretly stirred up violence and hate for so long, as also did their descendants over several centuries, until, through boundless intrigues, Mu and Atlantis were able to be completely destroyed some centuries later, while the only few survivors were beaten into servitude.

134. However, great scientists, in knowledge of the coming things and conscious of their powerlessness, set off in spaceships and fled towards the early home worlds in the Plejaren systems, where they were affably received.

24. Only small peoples remained on Earth, whose ancestors had long since mixed with early Earth-humans who had emerged from Earth's development and created their own cultures.

135. I indeed do not need to speak yet again about the destruction of Atlantis and Mu because you will find that as a separate chronicle in the explanations given to you.

Destruction of the continent of Atlantis as a result of a war feud with MU, whereby MU scientists directed a minor planet (Adoonis = the ugly, as opposed to Aadonis = the beautiful) from the asteroid belt and steered it towards the Earth and onto Atlantis, causing it to sink into the sea and triggering a flood.

**Billy:**

... So thus the next question, namely about Atlantis. If I remember correctly, Semjase once said that there had not been only two Atlantises, the Great Atlantis and the Small Atlantis. Do you know about this?

**Quetzal:**

126. Yes.

127. There were four different Atlantises, so the New Atlantis beyond the Pillars of Hercules, between the Azores and Spain.

128. Then there was the Small Atlantis that existed in the Mediterranean Sea in the area of Santorini, and then Old Atlantis is to be mentioned, on which later, after its downfall, Troy was built, while Great Atlantis had its existence in the Atlantic.

129. The Atlanteans of Great Atlantis were the rulers over all four Atlantises and their peoples, for they all belonged to the same origin.

130. Thus, a central government was given, but the administration of the various Atlantises took place through authorized representatives, who were called the Litent.

**Billy:**

On television they have once again made a programme about the conspiracy theories around the Bermuda Triangle. There is a theory, which we talked about before, that Atlantis existed in that area, which is absolute nonsense, as I know from you, because Atlantis was located

elsewhere in the east. But now it is even claimed that in the Bermuda Triangle, in the supposedly sunken Atlantis, there is a giant crystal that emits very strong vibrations, which would cause ships to sink there and also aeroplanes to crash if they were hit by the crystal vibrations. The reason why there is nothing to be found could be due to time tunnels through which everything disappears. But you once told me that only a few sunken ships and crashed aeroplanes have been found in the Bermuda Triangle, because of the currents there, which simply wash away ships and aeroplanes or their debris when they sink and get caught in the currents.

**Ptaah:**

17. What you say is correct, and of course the story of the great crystal is based on a completely absurd conspiracy theory.

### **Aurora, Texas UFO incident**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_258](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_258)

**Billy:**

... Recently a journalist named Luisa Francia told me that on the 17th of April 1897 in or near one of the USA Auroras a UFO respectively a spaceship crashed and exploded. Do you have any records and do you know anything about it?

**Ptaah:**

14. I know the story, because you asked Florena for a pertinent clarification, which we also carried out and whose result was negative.

15. No, it can be said with complete certainty, that on the date mentioned neither in Aurora nor anywhere else on Earth an interplanetary aircraft crashed, neither one of us nor any of our federation members or any other foreigner outside the Earth known or unknown to us.

16. And before you ask, because the question is already on your tongue:

17. No, for the entire time of the 19th century we could not find any evidence of a crash of a foreign aircraft in the area of Aurora or its surroundings.

...

**Billy:**

... I had noticed in the matter of the alleged UFO crash in Aurora on April 17, 1897, that you were talking about a UFO in the area of an Aurora. Does this mean that you have made clarifications in every area where there is a place called Aurora? As I took the trouble to find the different Auroras in the USA, I came across ten of them, which I wrote down here. There is a place called Aurora in North Carolina/USA, in Colorado/USA, Illinois/USA, Indiana/USA, Kansas/USA, Minnesota/USA, Missouri/USA, Nebraska/USA, New York/USA and Utah/USA. I also found an Aurora in the Pacific Ocean/Pt. Macquarie and one each in Angola, Brazil, Ontario/Canada, South Africa and Mindanao/Philippines.

**Ptaah:**

78. That's right.

79. We actually considered all areas in and around the American towns of Aurora and clarified everything that was necessary.

80. And in order to prevent any misunderstandings or omissions, we have also done everything to create clarifications in all areas of the remaining worldwide places called Aurora.

81. We have even been considering areas where in earlier times places called Aurora existed, such as American Texas, etc.

82. When we were unable to find anything in any of these areas, we controlled the entire earth during the 19th century, but this did not lead to any result in terms of a crash of a non-Earth aircraft.

**Billy:**

And how certain is this result?

**Ptaah:**

83. Absolutely.

**Billy:**

So then the information I have received from various sources is nothing but fantasy. In all, I was told about this alleged UFO crash that on the 17th of April 1897, in or near a place called Aurora in the USA, a large aircraft exploded and crashed in a huge fireball, after which a piece of metal was allegedly found in the judge's garden of Aurora.

**Ptaah:**

84. Of course this is nonsense, because such an aircraft neither exploded in the air nor crashed.

85. But what could be related to this is the fact that we found out on the date mentioned by you in Aurora in America that disappeared from the map today, a meteor shot past and exploded high above the place, from which 'strange' pieces of metal were also thrown off.

### **Bermuda Triangle**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_033](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_033)

**Billy:**

... I am interested in something about which you may be able to give me some information: The pyramid guys kidnap folks when that fits into their interests. A few days ago I read something about such abductions, according to which especially in the Bermuda Triangle, folk are supposed to be being abducted by extraterrestrials in large numbers. This is said to have been the case for many years, and a certain Mr. U. v. Bernus from Gut Wüstefeld, 6441 Atzelrode in Deutschland even explains in an article by the number 13 of the "Neuen Zeitalter" (New Age) from 23rd March 1975, that the extraterrestrials working there are practically spawns of Satan. Contrary to this, a few weeks earlier I received an article about these events in the Bermuda Triangle from a group member. In this article, the events in that place where folk and even entire ships constantly disappear are attributed to a certain piracy of the high seas. Are you now informed about these things, and if so, how does the matter behave?

**Semjase:**

68. I am aware of these occurrences, but they are not in the least mysterious.

69. Tracing back these events to alien powers is truly nothing but nonsense.

70. Sure, there are certain things in the Bermuda Triangle that are related to extraterrestrial intelligences, but not in the asserted way.

71. The thesis that Satan-like forces and forms of life are at play, actually only arises from religious fanatics who seek in all inexplicable events, Satanic powers, in order to make a secret or an event explainable to themselves.

72. Firstly, Satan is only an imaginary product of your Christian religion, and secondly, this imaginary figure embodies neither darkness nor blackness, as is claimed, but light and the power of the radiation of truth.

73. The events in Bermuda and the Bermuda Triangle are traced back to completely natural things.

74. First and foremost, this place is a very suitable place for deep-sea piracy, as you call it, and such piracy events take place there again and again.

75. On the other hand, this area is naturally very endangered by gases rising from the seabed, so that many ships sailing in this area suffer breakdowns and often sink into the sea with the whole crew and passengers, to never be found again.

76. But certain circles use these Bermuda Triangle events in a religious sense and to their own advantage, and clothe them in satanic powers.

77. For about two decades these events, which so far remain inexplicable for the terrestrial human beings, were additionally exploited in other forms by certain religiously dependent and unclearly working groups of Ufologists, who attributed the events to extraterrestrials.

78. For them, these events were a found meal to feed credulous individuals with untrue and dishonest statements by inventing fantastically dark, satanic extraterrestrial powers, which are supposed to be responsible for the events in the Bermuda Triangle. ...

86. The events in the Bermuda Triangle thus correspond to a purely speculative form, if they are associated with extraterrestrial intelligences.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_034](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_034)

**Billy:**

OK; I have got now another question: Although we had last time already talked about it, however some questions have arisen thereof from our discussion, namely from the Bermuda triangle. After the discussion it seems to me that you have once again explained only half of the facts and concealed the most important part. I have learned that over there not only ships disappear, but also aircrafts.

**Semjase:**

109. In the past I had once explained to you, that there are three different locations on the Earth, where fully natural dimension-gates arise periodically.

110. These gates signify a nature-based danger, cosmically caused and originating from time-flows.

111. This natural danger is the originator of many happenings, which affect the normal-time of Earth, but just at those places where they appear.

112. But on that I will provide you with an explanation later on.

113. First I want to clarify some other facts:

114. The events concerning the Bermuda-triangle are known worldwide, which is also to their benefit analysed by certain dark figures.

115. Those are seafaring men of Earth, which is also exploited by certain dark elements for their benefit, from simple piracy up to mass-murder.

116. They viciously board small cargo and passenger ships, seize the freight and the valuables and then murder the crew and passengers.

117. This is a kind of event that happens over there from time to time.

118. Another form of occurrence in the Bermuda-triangle stems from a process natural to Earth, about which I had also already spoken with you during the last contact.

119. This area is naturally endangered, due to the dangerous rising up of seabed-gases, which cause many ships navigating this location to suffer shipwreck over there and often submerge with all of their crew and passengers into the sea, never to be found again.

120. I had really already explained that to you.

121. The reason of those events is also that at this location the entire seabed is in constant motion and relentlessly lifting and lowering itself.

122. In that way huge underwater mountains and plateaus are often within a few hours pressed upwards and changing the surface and subsurface of the sea.

123. Very often those changes are detected much too late by the skippers and their crews, and thus they and their ships collide at full speed with the upward pressed masses.

124. This had already been the case in early times, while a continent had still been located there above sea level.

125. It had been a large continent, inhabited by a highly advanced race.

126. By a tremendous disaster, for which the residents had not been totally innocent, this continent sunk into the sea and was destroyed.

127. Last but not least the dangerous movements of the Earth and a cosmic event also played a role in this occurrence.

128. The dimension-gate also played a very important role.

129. The events inside the Bermuda-triangle are likewise not mysterious, as is the case with the other two locations.

130. Everything is explainable and the events are really not associated with extraterrestrial intelligences, who are allegedly over there, occupying themselves with kidnapping and satanic machinations.

131. Certainly, there exist two small stations deep in the sea in the Bermuda-triangle, which are also inhabited for three years by extraterrestrial intelligences from our federation.

132. However, those are actually very distant descendants of the former inhabitants of the continent.

133. But they are of absolutely peaceful nature and do not endanger any earthly life forms.

134. Their spaceflight-capable flying devices are also able to navigate in water and can dive to great depths.

135. That is necessary, because their stations are located deep in the sea.

136. Very often they can also be observed in those areas, while they surface from the water and vanish in the atmosphere.

137. However, they have factually nothing to do with the events of the Bermuda-triangle, which is unfortunately claimed regarding them.

138. These claims are actually only based on religious machinations of certain ufology groups, which, following their dishonest manner of working and based on religions, must have two kinds of powers, good and evil, in their teachings or irrational teachings, in order to appear as trustworthy from the perspective of their followers and believers.

139. But now I want to explain the dimension-gate to you:

140. As already said, it is a cosmic phenomenon.

141. Such a dimension-gate represents a natural-cosmic phenomenon, a barrier between your normal-time and a dimension unknown to you.

142. In the given case, this other dimension has a parallel world to Earth, which is, however, subject to greater fluctuations in landscape at some points.

143. The dimension-barrier or the dimension-gate is caused by a cosmic elimination-transformation-radiation, which wavers and occurs periodically.

144. Its point of origin are various giant suns in a galaxy unknown to you within a universe of other dimensions, which are sending out their radiations and are meeting in the other space-time-structure in 7.2 light-years' distance beyond the Earth.

145. Over there they begin to flow into one another and to bundle up.

146. The Earth is the exact endpoint in the space-time-structure of the DERN-universe, where this radiation is hitting highly concentratedly and producing the effect of a dimension-barrier.

147. As the Earth moves, like all structures in the universe, this radiation – divided into a three-arm – only hits the planet at three locations, when the Earth is moving exactly in the focus of the wandering radiation, causing the two dimensions to be able to touch each other via the radiation.

148. The radiation itself produces the effect of an elimination of the normal-time, in a manner of evoking a transformation.

149. That means that the structure of the earthly normal-time is at the radiation-flashpoints transformed into the timeless, through which the normal-time is eliminated.

150. This transformation layer is still located far outside of the actual centre, which is already located in the other dimension.

151. It is a similar process as the one known to you with cyclones.

152. In the actual centre of the storm there is calm, while the vortex contains the actual storm.

153. The outer rings and whirls are the transition layer from storm-less to the storm.

154. It is similar with the dimension gate.
155. The outer layers represent the transformation layer from the earthly normal-time to the other dimension.
156. The vortex's radiation contains the actual transition in it, while the centre constitutes already the other dimension, a different universe resp. a different dimension within a different time-layer.
157. Look, if you want to depict it, you can do it so, as I am drawing it here in the sand. (*Semjase uses a piece of wood for creating a drawing on the floor.*)
158. When later on recreating this drawing on paper, you will be able to easily recognise the facts from it and they will also be understandable to all others. ...
167. You see in my drawing that the principle of the storm follows and acts according to a precise harmony with the cosmic construction.
168. This is the same event that emerges during the formation of a galaxy.
169. The laws in macrocosm and microcosm are exactly the same and differ only in their order of magnitude.
170. When you now start with the same drawing and imagine to see the dimensions-barrier in it, you are again getting the same principle.
171. Relatively seen, the processes remain exactly the same, with the only difference of their forces equalling fundamentally different types.
172. Concerning the dimension-gate the forces are purely cosmic energies, radiations of a very special kind.
173. The effect of the vortex or the spiral does anyhow remain the same, even if the appearance is different.
174. The transition belt, the storm belt and the centre are here also present, just in a different form than for a galaxy or for a storm of nature's elements on a planet or a star resp. on a sun.
175. The transition zone or the transition layer is to be compared with a transition time between two world eras.
176. The old and traditional normal-time is still available, but it is already allowing a view into the other time level, into the other dimension and other world.
177. So when a flying object enters this zone, with life forms sitting in it, well then they are still in the normal-time, but are already looking into the other time layer, into the other world.
178. Because during their flight they looking forwards, they see a world totally foreign to them and a foreign landscape, as long as they had never been there before.
179. By the powers of the vortex, life forms – as long as they are not familiar with these happenings and are not possessing the required devices and apparatuses – lose control over their flying devices and are driven that way into the actual passage-whirl, into the actual dimension-gate.
180. Over there they are then already solely seeing the other world in the other dimension, while their normal-time is already behind them.
181. Then they are driven into the centre of the spiral whirl and are therefore in the other time layer, thus in another world resp. in a dimension totally foreign to them.
182. Should they lack the required apparatuses and other devices, they become prisoners of the foreign dimension for all times, and a return into their normal-time won't be there anymore for them.
183. In and of itself this happens rather frequently in the Bermuda-triangle, and earthly aircrafts are repeatedly disappearing over there, unable to ever return again.
184. Many of these events in particular are related to the use of earthly aircrafts for hunting the beam ships of the life forms that are living there in underwater stations.
185. The aircrafts are unexpectedly getting into the radiation of the dimensions-barrier that suddenly gets active, and are carried off course into the other time-layer, from where no return is possible for them.

186. As I said already, these happenings, however, are evaluated in a religious manner and dressed up in totally false facts by very unreal and religiously confused practitioners of ufology (Earth-humans).

187. It still remains to explain that not only flying machines are getting into these transformation-spirals, but also ships and individual life forms, because the radiation field and the power of the elimination-transformation of the whirls sometimes reaches to the surface of the sea.

**Billy:**

The whole context is thus effectively not mysterious. But you had in the past mentioned that humans are also kidnapped by aliens in the Bermuda-triangle.

**Semjase:**

188. Sure, but it is as rare as it is on all the rest of the Earth.

189. For those abductions mainly the Giza-Intelligences are predominant, together with time travellers and other elements of the universe.

190. However, these incidents are truly very rare and count for less than 0.02% of all abduction cases on the Earth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_038](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_038)

**Billy:**

... Now, however, I have one last question, namely concerning the Bermuda Triangle, and here especially because of the world in the other dimension. Can you describe this world to me?

**Semjase:**

217. There are several worlds and several dimensions, and if I had to describe them, it would go much too far.

218. One of these worlds, however, is a parallel world to yours and has only minor differences.

219. A second one, however, is very remarkable because three almost similar planets are in a line behind each other.

220. So if you were to go through the dimensional gate, you would again come to an Earth or world, but in another dimension and thus in another time level.

221. But the time lies very far back from your present time, namely in that time, when the Earth, still inhabited by flying dinosaurs, was quite wild and fissured.

222. You could not breathe the atmosphere there and would have to wear a space suit or other protective suit.

**Billy:**

So this means that the dimensional gate fluctuates in its intensity and thus opens gates to different dimensions or spheres?

**Semjase:**

223. Sure, you expressed that very precisely.

**Billy:**

Well, but now again to this triple world: If I would now go through the dimensional gate, then according to your explanation I would again be on a world or Earth, but millions of years back in the flying dinosaur era, is that right?

**Semjase:**

224. Certainly.

**Billy:**

Well, then I am actually again or still on a world similar to Earth, even if many millions of years in the past. If I now come into this world of the past, then according to your statements I would still have to see the other worlds from that world, right?

**Semjase:**

225. Sure, and you would even see the other two planets very close, because they are only a few hundred thousand kilometres apart.

226. So once you would see the horizon of that primeval world on which you would just stand, as a second world you would see the middle world, which is still wrapped in a radiant steam coat, and as a third world you would see it roughly like the Earth as it exists here in the present time.

**Billy:**

But that doesn't make sense.

**Semjase:**

227. It also took us a very long time to solve this strange mystery.

228. In all parallel universes, there are also dimensional radiations that create the gate in the Bermuda Triangle.

229. However 3,500 years ago, when Venus shook the Earth, the dimensional harmony was disturbed and two planets, the primordial planet and the gaseous planet, were dragged into the dimension of the completed planet, after which the dimensional gate returned to normal.

230. Therefore, in that dimension these three different planets exist in that solar system.

231. So you could almost say that the same worlds there exist three times in three different stages of development, which of course is illogical.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_053](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_053)

**Billy:**

... But now I have a question from R. Schulheiss in Biel. He asks for a place which must be somewhere in Africa and over which no airplanes could fly. Also it is not possible to take photos from above, because only white spots would appear on the pictures. What is this all about?

**Semjase:**

157. I really don't know anything about that.

158. The closest one I know is in Madagascar, which is a dimensional gate.

**Billy:**

You mean the same effect as in the Bermuda Triangle and the Japanese Sea?

**Semjase:**

159. Certainly.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_081](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_081)

**Semjase:**

17. The issues surrounding the Bermuda Triangle and the centres of Madagascar and the Japanese Devil's Sea have changed fundamentally.

18. As you know, your entire solar system travels like a gigantic spaceship through interstellar space, approaching more and more the constellation of Hercules, which will be reached in about two millennia.

19. Due to this migration of the entire SOL system, the axis point of the radiation of those large celestial bodies which caused the dimensional gates in the Bermuda Triangle, in Madagascar and in the Japanese Devil's Sea has slowly shifted more and more.

20. For about 18 years now, radiation has become weaker and more time-differentiated, so that it has often been completely suspended for days on end.

21. In the last two years, the radiation decreased even more and was completely neutralised several times lasting months.

22. The last offshoots of the radiation bands which are measured in many light-years, that were only fragmentary at their outermost ranges, last touched the Earth about 1 ½ months ago, on the 10th of July {1977}.

23. Since then the Earth is out of the range of the radiation and no dimension barrier or dimension gate still exists at any other place on the planet.

24. These phenomena are absolutely abolished and, according to our calculations, should never occur again because the whole SOL-system orbits the constellation of Hercules and there are no stars at closer or further distances that would produce this kind of radiation.

25. All occurrences in the Bermuda Triangle, near Madagascar and in the Japanese Devil's Sea have been classified since the 10th of July 1977 in purely earthly natural occurrences, whereby the natural occurrences are to be named as the most important forces, in particular the geomagnetic and underwater gas surges which occur very strongly at the places mentioned, whereby compass devices and many other navigation devices, etc. fail or show false indications, as this is the case with you at the Center several times.

**Billy:**

Do Madagascar, the Bermuda Triangle and the Japanese Devil's Sea also lie at facet intersections like our Center?

**Semjase:**

26. Certainly.

**Billy:**

And is there then a connection with the radiation from space and with the facet intersections, that was found there, or there of all places?

**Semjase:**

27. No, it was a pure whim of the cosmic game.

**Billy:**

Oh so. – Then the two or three percent where unexplainable events took place at these points are really just cancelled? It was only two or three percent that refer to the cosmic and thus to the inexplicableness of all events in these places, was it not?

**Semjase:**

28. Sure, because about 98% of all events at these three places were mainly caused by Earth magnetic waves and Earth magnetic storms as well as by climatic rapid changes, storms, aberrations, mutiny, crimes and insurance fraud as well as on a large scale by enormous undersea gas eruptions, etc.

**Billy:**

... Do you know anything about the fact that in the depths of the sea in the Bermuda Triangle a huge pyramid is supposed to lie sunken? The baseline should be 333 metres and the height should be about 223 meters

**Quetzal:**

52. Something like this is not known to me.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_150](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_150)

**Billy:**

... But I still have a question that was brought to me and that I would like you to answer, although I have already received the answer from Semjase. But maybe you can explain it again: Once again, it concerns the Bermuda Triangle, and this time, it is about the missing ships and aircraft, which are adjudged a mysterious and supernatural disappearance, such as, for example, with the bomb and torpedo aircraft that vanished in 1945 without a trace, and of those, Semjase said that these had hopelessly got lost in the fog and then crashed, on the one hand from lack of fuel, and on the other hand from reasons of navigational error.

**Quetzal:**

558. That is of correctness.

**Billy:**

You know that the most fantastic and craziest stories about the Bermuda Triangle are circulating on the Earth and that many imaginatively gifted writers earn enormous amounts of money with a

plethora of books and that they still stupefy the human beings with these. Thus, extraterrestrials are blamed for all inexplicable Bermuda incidents, along with unexplainable supernatural or unearthly phenomena, all of which, of course, is outspoken nonsense because usually, the largest part of all incidents can be explained in a natural wise.

**Quetzal:**

559. The Earth-humans allow themselves to be mesmerised only too gladly by fantastic lies and frauds because the given reality appears too commonplace to them in their dumb deluded belief in the supernatural.

560. But concerning the incidents in the Bermuda Triangle I would like to tell you the following, which, however, must remain a secret for the time being:

561. From around the month of April or May 1991, the fantasy stories surrounding the Bermuda Triangle incidents will take a turn in the direction that they can gradually be refuted.

562. At that time, treasure hunters will find the first missing planes that crashed and sank into the sea from 1940 onwards.

563. This, however, will only be the beginning of sporadic clarifications of seemingly mysterious occurrences in the Bermuda Triangle.

564. Much will be cleared up and it will lose the nimbus of the mysterious, but which does not mean that staunch misguided ones, fanatics, mystics, fantasists and know-it-alls will continue to cling to the stupidity of those delusionary explanations that speak of supernatural, unearthly or extraterrestrial forces that are supposed to be connected with the Bermuda Triangle events.

565. Such human beings will continue to exist.

566. And as I think, this is unfortunately not to be changed.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_229](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_229)

**Billy:**

Then I still have another question regarding CFCs. Concerning this, you once told me that certain gases, which are stored under the bottom of the sea and which rise up, cause even greater damage to the ozone layer than CFCs. Now, I no longer know what gas this was and out of what it arises.

**Quetzal:**

54. It concerns methane gas, which is stored as methane hydrate under the sea.

**Billy:**

At that time, you said that often enormous clouds of gas bubbles of this methane gas detach from the seabed, like, for example, in large masses in the Bermuda Triangle. These gas bubbles then rise to the sea's surface, where they form huge whirlpools, through which ships sink into the sea when they run into them, as the ships, due to the numerous gas bubbles in the water, are no longer carried by the water. If the gas clouds then ascend over the sea and fly into airplanes, then the methane gas becomes ignited by the engines or nozzles, whereby tremendous explosions arise and tear the airplanes into the smallest pieces. Is this right as such?

**Quetzal:**

55. That is of correctness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_250](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_250)

**Billy:**

... Again and again new stories about the Bermuda Triangle arise, where there was a dimensional gate until the end of the seventies. Since then, however, according to your statements, this has disappeared. Nevertheless one hears again and again unbelievable stories of events, which are supposed to take place there. What is it?

**Ptaah:**

165. With a few very few exceptions, about which I do not want to give any further details, because only a nonsensical and unworldly speculation would arise from them, if they became known, they are completely natural occurrences:

166. Under the seabed there are huge earth chambers with gas hydrates, either in purely gaseous form or frozen as ice.

167. This is usually methane gas.

168. If submarine landslides or seabed movements take place, which are quite frequent in themselves, without seaquakes, earthquakes, volcanic eruptions, etc., then the gas hydrate depots of the seabed can be uncovered by creating cracks in the seabed, releasing the highly pressurized gases or causing the ice masses to gasify tremendously quickly and shoot at a rapid pace to the sea surface, causing it to foam and bubble over large areas.

169. The bubbling waters are interspersed with gases and lose their load-bearing capacity, whereby e.g. ships, which get into the bubbling waters, sink without rescue, capsize and often explode into thousands of pieces are torn, if the highly explosive earth methane gases penetrate into the ships and ignite exploding at some tiny sparks, as e.g. at electrical installations etc. etc.

170. Such gas explosions usually have a more powerful effect than bomb explosions, whereby the ships are torn into tiny pieces and can no longer be found.

171. The enormous gas masses escaping from the seabed also escape naturally into the atmosphere and dilute the air enormously, whereby also this loses the carrying capacity.

172. This of course means that when planes get into such areas, they are robbed of their air bearing capacity, causing them to crash.

173. The air simply becomes too thin for the heavy aircraft, so it no longer has any load-bearing capacity.

174. These missiles, too, are usually torn to pieces by enormous explosions when the gases ignite on the aircraft engines or other propulsion units, or on electrical systems, by tiny sparks.

175. It also happens that engines and other propulsion equipment as well as radio systems and compass systems etc. suddenly malfunction or fail just like highly sensitive electronic systems of all kinds.

176. A fact that comes from the fact that the sea water brought to boil by the rapidly rising gases produces negatively charged ions, which form a field of negative-electrical energy over the sea surface and high into the atmosphere, with a special and strong magnetic field, in which all technical devices and apparatuses etc. are disturbed and faulty or even fail, if these come into the negative energy range.

177. On the other hand, engines can suddenly stop in the gas-choked, thin air due to a lack of oxygen, which can cause aircraft to crash and be torn apart by impact with the sea.

178. Engines can also suddenly overheat due to lack of oxygen etc.

179. There are many ways in which ships and aircraft can disappear into the Bermuda Triangle without ever being found again and without supernatural forces, etc. being involved.

180. By and large, there are always natural causes that lead to such events, which is why man should seek solutions for his secrets less in the supernatural than in reality.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_385](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_385)

**Billy:**

... Back in the seventies and eighties of the last century, Quetzal, Semjase, you and I talked on various occasions about what was happening in the Bermuda Triangle and in the Japanese Devil's Sea. You explained to me at that time that in both places there are frozen methane gases under the seabed, which are released and pushed to the surface of the sea as a result of seabed shifts, especially by seaquakes. If ships get into these gas clouds, which make the water unstable, they sink immediately and disappear with man and mouse into the depths of the sea. The same happens to airplanes that crash when the methane gas clouds rise high above the sea, causing the air to lose its carrying capacity. Both ships and airplanes crash and sink in

such a matter of seconds that humans usually cannot even send out a distress call and cannot even save themselves. Furthermore, the Bermuda Triangle and the Japanese Devil's Sea are also made unsafe by piracy, whereby the captured ships are sunk and the crews murdered. The two places are also popular for insurance fraud, especially with ships that are sunk, as well as for the fact that humans are supposed to disappear without a trace, and then continue their lives with a new identity somewhere else. Again, as you have explained, insurance fraud occurs when large life insurance policies are taken out. This is what you have explained to me when I leave the dimensional gate, which according to your information has long since disappeared. Since those conversations, it has been completely forgotten that you promised me that you would mention other factors that lead to the disappearance of ships and planes in the Bermuda Triangle and the Japanese Devil's Sea. If you could make up for that now, dear friend?

**Ptaah:**

35. It is true that the seabed of the Bermuda Triangle and the Japanese Devil's Sea contains bound methane, which, when released as methane gas bubbles, moves quickly to the sea surface and into the air, causing the density of the water to change in a flash and it loses its carrying capacity, causing missiles and ships, when they get into the gas bubbles, to sink into the sea without a trace within seconds.

36. In addition to the above-mentioned facts, electromagnetic factors of the Earth play a major role in the crashes of aircraft and the sinking of ships.

37. In the areas mentioned above, very strong electromagnetic oscillations occur very frequently, which extend high into the atmosphere and cause dangerous compass disturbances, causing the control apparatus or navigation instruments of the ships and aircraft to break down in their function and show completely wrong values.

38. As a result, the pilots of the aircraft and ships lose their orientation and head for the wrong positions, which very often leads to the crash of the aircraft or the sinking of the ships.

39. The electromagnetic oscillations of the Earth continue to produce luminous phenomena which are seen as light objects, and these very often also occur in the form of seaquake lights, and in the same way as earthquake lights.

40. The electromagnetic forces in the Bermuda Triangle and in the Japanese Devil's Sea are extraordinarily strong and cause even hard metal to break or hurl even large missiles through the air or large ships through the water, tearing them apart and sinking into the sea without leaving a trace.

41. Also luminous gas clouds, which rise from the bottom of the sea to the surface and into the air, as it happens also in moorland areas with regard to the so-called will-o'-the-wisps, but also ball lightning, are frequent phenomena, which occur at the mentioned places.

42. Experts call these light phenomena UFOs, which happens especially by people who are of esoteric and religious faith, whereby they regard the appearing phenomena as of extraterrestrial origin, which is of course nonsense, because real extraterrestrial flying machines, which are piloted by life-forms, correspond to an absolute rarity.

43. Another important factor that leads to the sinking of ships in the Bermuda Triangle and in the Japanese Devil's Sea is that in these two areas, different ocean currents create so-called monster waves, to which the ships fall victim.

44. Such monster waves are not rare and reach heights of 30 to 45 metres, endangering even the largest and largest ships.

45. Many unexplained shipwrecks on all the world's oceans of the Earth – from ancient times until today – have been attributed to such monster waves, and this will continue to happen in the future.

46. This also means that such piled up water masses do not only appear in the Bermuda Triangle and in the Japanese Devil's Sea, but on all the seas of the Earth.

**Billy:**

... At the 385th official contact conversation on the 21st of April 2005, we talked about the monster waves that appear on the world's oceans and cause ships to sink. ...

**Ptaah:**

31. Such monster waves or killer waves respectively rogue waves, as they are also called by sailors, do not only appear on the oceans, but also on big lakes.

32. They are equally dangerous for shipping on the seas and on the big lakes, because they cause even very large ships, such as ocean liners, but also large oil platforms to capsize, smash them by the force of the water masses or simply break them in two.

33. However, this is not uncommon, as might be assumed, because in fact such giant waves occur practically daily, even if they are not observed and do not cause any visible damage.

34. Such wave formations are usually piled up by small waves that quickly join together and become a single large structure, especially when counter-currents or counter-waves are involved.

35. Such giant waves are also created by large storms and counter-currents, as well as by seaquakes, and also by the fact that large waves break at islands and their outer sides pass them on both sides, only to reassemble on the other side of the island with enormous strength and become a monster wave.

36. These not seldom reach 20 to 30 or more rarely even 40 and 45 metres high.

37. Here and there it also happens that two such gigantic waves follow each other at a greater distance.

38. It is also a fact that many more ships disappear without a trace on the oceans and large lakes, together with their crews, than are made public.

39. This also applies to the Bermuda Triangle and the Japanese Devil's Sea, where, in addition to the fact that methane gas clouds rising from the sea floor cause ships and airplanes to be torn apart, monster waves also occur very frequently, through which ships are smashed, torn in two or simply capsized and torn to the bottom. ...

42. Worldwide there are usually between 95 and 105 ships of all sizes, from the smallest to the largest, that disappear without a trace every year.

**Billy:**

... Then something else concerning methane respectively methane hydrate, which we have already talked about privately, but about which I think that some words should also be said in an official contact report. Like your father Sfath and Quetzal, you also explained to me that in the bottom of all seas of the world there are enormous amounts of bound methane gas respectively methane hydrate, much more than all petroleum, natural gas and all coal together. Some of this methane gas is constantly 'freeing' itself from the water and rising through the water, which also influences the climate. When large quantities of methane are released and rise above the surface of the water, ships can lose their hold in the water and sink forever in half a second. Airplanes can also crash and disappear into the sea when large clouds of methane gas rise, such as in the Bermuda Triangle and in the Japanese Devil's Sea, where ships and planes disappear again and again. ...

**Billy:**

Three days ago I was rummaging through old notes and found a note about so-called 'electromagnetic nebulae'. Your daughter Semjase once made some remarks, which I remember her saying that such strange nebulae are strange clouds and are very dangerous in relation to aeroplanes and ships etc. Unfortunately she did not say more.

**Ptaah:**

18. Electromagnetic nebulae are cloud formations which consist of electromagnetically charged layers and also have different layer forms.

19. In certain areas of the Earth they can occur more frequently and can also float at higher altitudes as well as above the oceans.

20. This can put aircraft and ships in great danger, by causing them to lose their way, because the electromagnetic radiation of the fog clouds interferes with the functioning of their navigational equipment to such an extent that completely incorrect position and altitude information appears.

21. Aeroplanes can fly in circles until their fuel is used up, which then leads to a crash, while ships and boats can run aground or be smashed against rocks.

**Billy:**

And where do such electromagnetic nebulae occur?

**Ptaah:**

22. The possibility of the appearance of such formations is everywhere, but increasingly over the southern Atlantic Ocean and in the Pacific.

23. Such phenomena occur very rarely in mountains and even more rarely in the lowlands.

24. Many aircraft which disappeared during their flight have crashed into the oceans as a result of incorrect navigation instructions given by their equipment when they entered into the electromagnetic fog.

25. Many ships and boats have also sunk so untraceably when they are smashed against cliffs etc.

**Billy:**

Then, for example, such events could also have occurred in the Bermuda Triangle and in the Japanese Devil's Sea etc., along with the clouds of methane gas rising up from the sea bed and dissolving out of the methane hydrate, causing ships and aircraft to sink and disappear lifelessly into the deep clefts of the sea bed. This is in addition to what happened with the mega-waves, which have torn larger and larger ships into the depths of the oceans since time immemorial. On all the waters of the Earth, about 104 large and larger ships and boats disappear every year, that is two a week.

**Ptaah:**

26. That is indeed so, yes.

**Billy:**

So in the Bermuda Triangle and in the Japanese Devil's Sea, these electromagnetic nebulae must also be considered.

**Ptaah:**

27. That is so, but there are other factors, such as insurance fraud and piracy, and also other facts that lead to the disappearance of aircraft and ships.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_535](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_535)

**Billy:**

On television they have once again made a programme about the conspiracy theories around the Bermuda Triangle. There is a theory, which we talked about before, that Atlantis existed in that area, which is absolute nonsense, as I know from you, because Atlantis was located elsewhere in the east. But now it is even claimed that in the Bermuda Triangle, in the supposedly sunken Atlantis, there is a giant crystal that emits very strong vibrations, which would cause ships to sink there and also aeroplanes to crash if they were hit by the crystal vibrations. The reason why there is nothing to be found could be due to time tunnels through which everything disappears. But you once told me that only a few sunken ships and crashed aeroplanes have been found in the Bermuda Triangle, because of the currents there, which simply wash away ships and aeroplanes or their debris when they sink and get caught in the currents.

**Ptaah:**

17. What you say is correct, and of course the story of the great crystal is based on a completely absurd conspiracy theory.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_581](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_581)

**Billy:**

... There was the legendary 'Flight 19' of the American Air Force on 5 December 1945, which is still haunting the minds of the human beings, because five fighter-bombers or something and a seaplane disappeared in the Bermuda Triangle. Even Sfath, your father, spoke vaguely about this in 1949, mentioning that the five fighter planes in the Bermuda Triangle had been caught in electromagnetic vortices, which caused the onboard instruments to go crazy and fail. This was absolutely certain, he said, because he had had his own experience in this area and had been hurled with his pear-shaped beamships through an electromagnetic eddy canal from Bermuda to Florida and Georgia and into the area of the so-called Okeefinokee swamp within a few minutes, far more than 1,000 kilometres. So he suspected that the same thing could have happened to the pilots, that they had just been caught in an electromagnetic vortex tunnel, which caused them to get lost with their machines and to fly over the mainland through the electromagnetic vortex, without them noticing and also without being able to determine where they were. And as Sfath said, if I remember correctly, the five machines could have crashed, according to his calculations, into the vast Okeefinokee Swamp, which covers almost 1,800 square kilometres, and been swallowed up by it never to be seen again. The swamp belongs to the US states of Georgia and Florida. Maybe you know more about it?

**Ptaah:**

45. My father told me about it, but he explained it with reservations, because what he said was only an assumption, based on his own experience.

46. He did not clarify the matter himself, nor did any of us, because it was not in our interest to do exact research to clarify the whole thing.

**Billy:**

That what Sfath said was only a supposition is something I know and I also said that. But what I wonder about the electromagnetic vortex tunnels is why do they occur especially in the Bermuda Triangle?

**Ptaah:**

47. We have clarified the whole question of the formation of such long electromagnetic vortices in our own interest, so I can say that they are based on an interaction of solar, cosmic and very strong geomagnetic factors occurring in the Bermuda Triangle.

48. So very strong electromagnetic forces from the Earth's interior are at work there, as they also occur, for example, in the Japanese Devil's Sea.

49. These geomagnetic factors, in interaction with the electromagnetic energies of the sun and other stars from the SOL range, create the phenomena of electromagnetic vortices, which act like wormholes, but which have so far only been assumed by terrestrial scientists to be theoretical.

50. Since electromagnetic vortex tunnels, as you call them, actually build up again and again and therefore act like the theoretical wormholes, it follows that planes and ships etc. that enter them are transported over hundreds and thousands of kilometres within a very short time – often only a few minutes – and the result is that the wormholes are not only the result of the electromagnetic vortexes but also of the electromagnetic vortexes themselves.

51. This is also the reason why, as in the Bermuda Triangle, no or only very rarely crashed aircraft or sunken small or large ships can be found, precisely because these crash or sink into the sea hundreds or thousands of kilometres further away when they emerge from the electromagnetic eddies.

52. It should also be pointed out that, on the other hand, in the Bermuda Triangle there is also a very strong northerly current in the sea which drives crashed planes or sunken ships hundreds of kilometres northwards, so that planes cannot be found at the sites of crashes or sunken ships cannot be found at the sites of their sinking.

53. The Bermuda Triangle also has an increased incidence of monster waves which cause ships to be torn down and swept away by the north current.

**Billy:**

This is something I know about ocean currents and monster waves, because your father also talked about it in the 1940s. But look here, I copied something from the Internet about Flight 19, if you're interested, because I wanted to ask you about it? ...

**Ptaah:**

56. That, Eduard, dear friend, what is written here is not known to me.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_670](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_670)

**Sfath {1948}:**

85. Due to the pole wandering, ongoing for a very long time, there is, in the Bermuda Triangle, an area north of the Caribbean – which lies between the Island of Bermuda, a British overseas territory in the Atlantic, and the coast of Florida – which, in the first beginnings, begins to enlarge, whereby it will expand in the coming times and far into the third millennium.

86. The same happens with the counterpart, the Dragon's Triangle in the Devils Ocean, in an area in the Pacific, approximately 100 km south of Tokyo/Japan off the Miyake Island.

87. The Dragon Triangle and the Bermuda triangle are known as places where ships and aircraft disappear under mysterious circumstances.

88. The peculiarity of the two triangles is that, on the one hand, both are at the same degree of latitude and are almost at opposite points, but where so-called 'ghost ships' turn up in both regions.

89. In the world's oceans, the monster waves, Three Sisters and White Walls will increase in the future due to a climate collapse that has already begun and is rapidly advancing, and also due to the pole wandering that has also been ongoing for several centuries, which will also relate to the Kaventsmann phenomenon.

90. The monster waves, that is to say, the mega-waves, which have frequently appeared since oceans have existed, can become more than 30 metres high and even pull large ocean vessels irretrievably into the depths.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_728](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_728)

**Billy:**

We have already talked several times about the Bermuda Triangle, where I was also with your father Sfath and he explained various things to me, so also with regard to the methane gases on the seabed, which dissolve, rush upwards and dilute the water and the air in such a way that even large ships disappear into the sea and also aeroplanes suddenly crash. Ships and planes are then also driven very far away by the currents and can no longer be found, or only with difficulty. But ships are also sunk by huge monster waves, as I saw one that Sfath measured at almost 42 metres high. In addition, magnetic storms also occur from time to time in that huge area from the earth's interior, as Sfath explained, which are particularly fatal to aircraft. That's one thing, because there are other phenomena that occur in the Bermuda region, as well as in other places, such as the Japanese Devil's Sea, i.e. the Dragon's Triangle, an area in the Pacific that is about 100 km south of Tokyo near Miyake Island. What happens there and in the Bermuda Triangle also happens in other places in the Atlantic and the Pacific, but also in the Indian Ocean and other places where ships disappear without a trace, which at present is said to be about two ships a week, as some statistics show. However, it is not always natural events that drag ships into the depths of the seas; it is also not uncommon for insurance fraud or other

criminal activities to be involved. But I am also aware, as Sfath has already told me, that in the various strange places where ships and aircraft sometimes actually disappear in strange ways, the processes are entirely of natural origin – with a single exception, but I should keep my mouth shut about that, just as I do about the other phenomena that cause ships and aircraft to disappear without a trace. Your father Sfath made me see some phenomenal things in this respect, in addition to tremendously gigantic mega-waves and methane gas explosions that blew up very high explosion fountains over the surface of the water. But now I ask myself, because the following internet excerpt was sent to me, whether I should also remain silent in this day and age about what other phenomena, unknown to earthly scientists, still exist, which in the Bermuda Triangle and other places, as in general above and in the seas, the Atlantic, Pacific and Indian Oceans, etc., are the doom of ships and aeroplanes. They are the doom of ships and aeroplanes and cause them to disappear. What do you think about that?

**Ptaah:**

9. I suppose there is no objection to saying something about what knowledge my father has imparted to you, this also with regard to the phenomena which you have mentioned and which are still unknown to Earth-humans, but which I myself have also been able to observe, because I too am interested in the occurrences which appear so mysterious to Earth-humans, but which are absolutely natural.

**Billy:**

Good, then I can say something, even though antagonists, know-it-alls, complainers, scientists, researchers and other negators of various kinds are again running amok against me and my presentation. So I will say that I have seen many phenomena in your father Sfath's pear ship that are actually not visible to the naked eye, but can only be made visible electronically on screens. This was the case, for example, far out at the edge of our solar system, but also on SOL planets and their moons, but also on and around the Earth, when Sfath let me see the solar winds etc. Well, what I want to say now, however, is that in the Bermuda Triangle and also elsewhere in areas of the world's oceans, gigantic shock underwater storms and shock overwater storms are taking place which cannot be detected without highly sensitive electronic equipment and can only be made visible on monitors equipped for this purpose. One of these phenomena, which I will simply call underwater shock storms, is that gigantic shock waves race through the depths of the oceans at hundreds of kilometres per hour and act like gigantic hammer blows on everything that comes within their range. If ships are hit by them, no matter how small, large or powerful, the shock wave forces acting on them cause demolitions and sink the ships in seconds or minutes, while they are also carried away by the tremendously gigantic shock wave forces, to then disappear somewhere in the sea never to be seen again. These shock waves, Sfath explained, are caused by 2 different phenomena, either by magnetic storms taking place on the inside and deep inside the planet, which act outwards and thus into the oceans and also into the atmosphere. And on the other hand, this can also explain the fact that shock wave storms also occur above the oceans, which race through the atmosphere at speeds of hundreds of kilometres per hour, can reach heights of many kilometres and therefore also simply tear apart aeroplanes, hurl them away and bring them down, never to be found again. But this is not all, for further shock waves are caused by seaquakes, earthquakes and the irresponsible actions of mankind, in that the Earth is shaken to its very core by bombs dropped in wars and other violent explosions, which cause shock waves in the oceans and fresh waters. Likewise, the same thing happens with all tremendous blasts, such as those in mining, earth resource extraction, tunnelling and other irresponsible planet-shaking and mischief-making machinations of earthlings who have no idea whatsoever of the planetary effects of their violent actions. All geological scientists have only a big mouth and make themselves important in public with stupid banal slogans and bogus explanations, but they really know nothing about everything that is really happening on the planet. They also have no idea whatsoever of the all-destructive, monstrous and criminally and irresponsibly caused damage and destruction to the

planet to satisfy the needs of the Earthling overpopulation. And these monstrous Earthling machinations continue unabated and destroy the planet Earth more and more, because overpopulation continues to be rampant in its growth, as well as the entire economic commerce connected with it and geared to unlimited profit, which, in order to procure the ever more exuberant needs of the rampant overpopulation, is doing everything in its power to slowly but surely destroy all possibilities of life and existence on Earth completely. In addition to all this, human beings are becoming more and more callous and indifferent towards each other in relation to the increase of the overpopulation mass, more and more hostile, unrelated, malignant and degenerating, as well as more and more indecent, psychologically unstable and sickly and incapable of life.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_791](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_791)

**Billy:**

... there was also talk of the earthly magnetic field, which is not constant and wanders, and consequently manifests itself in the most diverse phenomena, such as compasses going haywire – as for example in the Bermuda Triangle or in the Japanese Devil's Sea, etc. ...

## **Big Bang**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_134](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_134)

**Billy:**

... do you know what really happened in the Big Bang? I mean about whether or not all building blocks already existed in the tiny energy flea from which the original explosion of the Universe, i.e. the Creation, arose? Or is it possible that all elements formed only after the Big Bang? How many elements, i.e. basic building blocks, were concentrated and where? ...

**Ptaah:**

...

175. There are 280 raw materials, or basic elements, and these were already contained in the tiny original core from which the big bang developed.

176. The elements did not form only after the explosion but were already existent before in the tiny core which we call Energy-Fetchen.

177. To repeat:

178. As you understand absolutely correctly, the basic building blocks of original material consisting of 280 elements, which were the basis for all later matter and today's Universe, were included in the Energy-Fetchen, which was the original core of all that exists in today's Universe and all its dimensions.

179. Of course, all of the fine material elements were also equally included in the original core, i.e. the Energy-Fetchen.

180. The original generation of the Universe resulted from an idea of the original Creation which created the original core, just a flea-sized product full of energy that was created out of a consciousness form by itself and that accumulated its energy and evolved in strength.

181. In the balance of the accumulation of energy and strength, there originated all 280 basic elements and, with these, the Energy-Fetchen, in which an immense pressure and a temperature of millions of degrees developed, causing the original explosion of the Universe – the Big Bang, as this process is called by you.

**Semjase:**

10. The Universe is divided into seven units, i.e. rings or belts that, entirely together, form the whole Universe, and all of these rings are rotating against each other and have different diameters and an ovoid shape.

11. These seven rings, which we call belts, are the following:

12. 1) Central Core,
- 2) Ur-Core Belt,
- 3) Ur-Space Belt,
- 4) Solid-state Matter Universe Belt,
- 5) Transformation Belt,
- 6) Creation Belt, and
- 7) Displacement Belt,

And we also call the Creation Belt the Creation Matter Belt or the Expansion Belt, and the Displacement Belt, the last and extreme, embodies, according to your sense, a bumper belt.

*{Note: a diagram accompanying this explanation can be seen [here](#).}*

...

23. In the interior centre of the Universe is the real Ur-Core, which grows with each fall-back of the Creation, so of the whole Universe, doubling itself in size.

24. Thus, the Ur-Core will be twice as large with the next fall-back as it is today.

25. From this Ur-Core, referring to the energy field resting in the Ur-Space Belt, which is the fallen-back Creation, new energies form for the renewed expansion to the next universe, whereby at the end of the slumber time, a new Big Bang takes place and a new expansion creates a new universe, generally all things of a much more refined form, which means that all coarse-material will not be so stable any more as in this Universe.

26. The Ur-Space Belt itself is that part of the Universe from which the expansion of the Creation occurs, in which the Creation energy also slumbers and, on the other hand, after every fall-back, develops itself and takes up new fundamental forces from the Ur-Core, just to expand again through a renewed Big Bang.

27. Of course, the dimension of the Ur-Space Belt also grows from fall-back to fall-back because through every expansion of the Universe and through the associated unchangeable effects and the extreme expansion that again follows contraction, the mass of the entire Creation grows, always doubling itself in size.

28. So thus, it becomes evident from this that in the becoming and passing of the Universe, a cycle of Big Bang expansion – contraction – Big Bang expansion, etc. is arranged.

**Billy:**

... Our astronomical scientists continue to stubbornly claim that our universe is only just 8 to 15 billion (8,000,000,000 to 15,000,000,000) years old. They have no idea that the visible universe is only one of seven universe belts. They have no idea whatsoever about our material universe belt in which we exist materially, while on the inside and outside of our visible material universe belt there are six other and more subtle belts. Also our scientists have no idea that the total universe is a double-spiral and egg-shaped Creation, etc. The total universe with an age of about 46 trillion years, calculated from the big bang until today, is expanding until the time of 155.5 trillion (155,500,000,000,000) years, only to collapse again through a contraction. During its expansion, the matter belt, or our visible universe, is constantly renewed by a seemingly endless process of change and thus always remains young. The oldest matter that you have found is almost 40 billion (40,000,000,000) years old, while we here on Earth have not yet come into possession of any such matter and therefore our scientists are also living in erroneous assumptions. Now, after my long speech, my question is when, after the creation of the matter belt or our visible material universe, the first celestial bodies were formed. In my opinion, this process should have happened very quickly.

**Quetzal:**

78. This is unknown to us, and besides, your question cannot be answered in this wise either.

79. You have to assume that the last great process of change and renewal of the material universe, i.e. our visible material universe, took place approximately 17 billion (17,000,000,000) years ago.

80. In the process, new stars formed again in the inner of the outer areas of the material universe belt – not in the outermost of the direct transformation area – at a distance of about 14 billion (14,000,000,000) light-years from the SOL-system, which began to radiate and shine after about 187 million years of the last great transformation process.

81. And these stars will also be discovered by terrestrial astronomical scientists in the coming decades.

82. Only they will unfortunately – as so often before – draw the wrong conclusions from them again.

**Billy:**

And how do these celestial bodies in the transformation belt come into being, if I may ask?

**Quetzal:**

83. That does not fall under secrecy.

84. The new matter that is created during the renewal or change condenses under the powerful universal force of gravity and forms the celestial bodies by compressing the mass, which then condense and develop their own heat-powerful life.

**Billy:**

Easy to say, but surely a process that takes many millions of years. But that brings me to my next question: Is it possible to determine the mass of matter in our visible material universe if you completely exclude the other six belts?

**Quetzal:**

85. It would be unscientific and arrogant to try to do this, because the entire expanse of our universe is so vast and involved in constant change that it is impossible to calculate exactly.

...

**Billy:**

We know, after all, that the total universe does not expand forever, but only expands until the time of 155.5 trillion years, and then succumbs to contraction. During the expansion process of the entire universe, the visible material universe also becomes larger and larger, if I look at the whole thing correctly. And since this must be the case, there must also be different

temperatures in our universe, because I assume that heat and cold must be generated by the constant change movement. Am I correct in my assumption?

**Quetzal:**

91. That is of correctness.

92. Although the temperature fluctuations are universe-wide and very minimal, they occur mainly in those parts of our material universe where the uninterrupted change through the outer, immaterial belts takes place.

93. This is what we call the transitionless open change zone.

**Billy:**

This transformation zone does produce a rushing sound, as Ptaah taught me on the Great Journey. I was also allowed to hear it through the technical devices in the giant spacecraft. It was simply gigantic. Ptaah explained to me that the earthlings call this phenomenon cosmic background radiation and assume that the big bang took place there in that zone and that the universe also ended there.

**Quetzal:**

94. Which does not correspond to correctness, as you know.

**Billy:**

Of course, because that is where the actual total universe begins with its other six immeasurable belts. Ptaah also said that the differences in temperature are actually very small and therefore only subject to tiny fluctuations caused by differences in density in all regions of our material universe.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

... When creation was created by the Big Bang, it must have been that the explosion speed was much higher than just 147 times the speed of light. In my opinion, the first velocity, the center-explosion-expansion-speed, if I may call it that, must have been the speed of creation and 107000 times the speed of light. Otherwise it would not have been possible that the enormous vastness of the universe could have come into being. That's right, isn't it?

**Ptaah:**

177. Of course.

**Billy:**

Of course – – – really can't be any different. But how long did this speed last; in my opinion it must have been just one second or even just one nano moment, because if I consider that creation is able to cross the whole universe with one thought due to its 107000-fold speed of light practically in a nano moment or even in no-decompression time, if I may call it that, then my assumption should actually apply. It should be noted, however, that the explosion started from a center and spread ovoidly, so that the nano moment for 107,000 times the speed of light only applies to the radius, while in reality the double expansion must be measured from the center, because during the nano moment the universe spread ovoidly to all sides, so a nano moment to all sides in an ovoid frame.

...

**Billy:**

... I am glad that I was right in my considerations, which unfortunately cannot be said of Earthly astronomers who still claim that the universe is only 18–20 billion (18,000,000,000 to 20,000,000,000) years old and that they have advanced to the ends of the universe with their research. All of them have no idea that the universe is divided into seven belts and that they are so far-reaching that they can never explore them with their primitive means. So they also do not know that they can only make their observations and do their researches in the belt of matter, which of course has certain limits and to which it is very possible to reach, but not yet for the

terrestrial human being, because nevertheless these limits are still far too far away for them to be grasped and greened from Earth by apparatus or instrument etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_250](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_250)

**Ptaah:**

42. The astronomy science of the terrestrial humans is only given in the beginnings and therefore still extremely unsatisfactory.

43. Consequently, scientists also lack the basic knowledge of the structure of the universe, and thus also the knowledge that the universe consists of seven different belts, which have a total age of just over 46 trillion years – calculated since the Big Bang.

44. So astronomy scientists also lack the knowledge that the material universe, the material belt, is only one of seven belts that make up the universe as a whole.

45. Also missing is all knowledge about the fact that the material belt, the material universe, is classified as a continuous becoming and decay and thus nothing is of infinite permanence.

46. All universal objects and forms of life of the material belt, the material universe, become and disappear in permanent succession and become a recurrence and reoccurrence, entirely according to the universal causality and thus according to the law of cause and effect, which classifies all existences of every form of the coarse and fine material as well as everything of the superfine material of the spiritual and its energies.

47. Thus is also the material belt, the material universe, classified to a steady becoming and passing away, whereby no aging occurs, but a steady youthfulness remains until the time when the contraction occurs, thus the contraction of the universe again.

48. This ensures that the entire universe, and thus also the material universe, is kept young, evolutionary and creative from the moment of the first moment of expansion to the moment of contraction in constant succession and thus does not deteriorate due to ageing.

49. Thus the universe will probably become older in years and time, but there will be no ageing process in the sense that something will become outdated and thus unstable and unevolved.

50. Exactly the opposite is the case, because through the causal becoming and passing away the old is transformed into the passing and the new.

51. However, only the state forms change, whereby no annihilation or destruction takes place, but only a transformation from which something new results from the old.

52. Thus the material universe will be kept young in permanent succession in its entire extension, which is much larger than Earthly astronomers have been able to fathom until today.

53. Unfortunately, however, they will indulge in very long still wrong ideas, suppositions and assumptions in this relationship, as they also still assume wrong conditions in this respect for a long time.

54. They are also very self-opinionated, and they are subject to a narrow-mindedness that has something to do with megalomania and autocracy.

**Billy:**

The constant process of renewal is also the reason why, as a rule, only young matter can be found that is between 4 and 6 billion (4,000,000,000 and 6,000,000,000) years old, at least as it is here on the Earth, while you said that you have pieces of matter that are almost 40 billion years old. ...

...

**Billy:**

... You have taught me that the expansion of the universe has continued since the Big Bang, and continues until contraction sets in. While in the outermost universe belt, in the so-called ram belt, the expansion speed actually remains constant, it continuously decreases in the material belt or material universe in a certain half-life period, as is also the case with the speed of light. Just as the entire seven-belt universe expands, so too do all galaxies expand in themselves, while at the same time they are also assigned to an escape velocity through which the galaxies

push outward, namely to the outer edge of the material belt or material universe. At the same time, they are classified as an incessant process of becoming and decaying, whereby they can only exist for a certain number of billions of years before they are transformed back into gases from which new galaxies, stars and planets etc. emerge. The existence of a galaxy is between 12 and 40 billion (40,000,000,000) years, depending on what kind of galaxy or other entity it is and what cosmic events occur around it. At the edge of the material universe towards the inner belt, i.e. towards the core belt, energies arise from the inner belt area which penetrate outwards into the material belt and thus into the material universe, in which everything then becomes compressed and becomes new coarse matter. This oldest originated original energy or original matter is to be calculated with an age of approximately 46 trillion (46,000,000,000,000) years. Exactly this time, as the universe is old. But since this ancient matter is classified in a constant change of becoming and passing away, it transforms again and again back into the pure form of energy, out of which it then becomes condensed again and becomes coarse matter. Thus it results that no coarse matter can be found in the material universe that is older than about 40 billion (40,000,000,000) years. And so it also happens that the First-Ur-Energy of a galaxy, a star, a nebula or a planet etc. is hundreds of millions or even billions of years older than the material structures themselves, as e.g. at earth it's the case, first-Ur-Energy came up already some 646 billion (646,000,000,000) years ago, while Earth by itself was condensed some 46 billion years ago by still liquid materia of half-gas-like kind, while real solid planet was existing only 4–6 billion (4,000,000,000 to 6,000,000,000) years ago. First-Ur-Energy, from which earth originated, is younger than First-Ur-Energy resp. First-Ur-Matterie of our Milky Way, because first-Ur-Energy, from which Earth originated, drove through space with high flight-speed and was then captured by our galaxy, hundreds of billions of years after, when this First-Ur-Energy from inner belt entered our material universe. And when our astronomy scientists search for the Big Bang, they can never find it, of course, because on the outer side of the material universe they only come across the next belt, which does not contain any matter of a coarse-material form and into which they are unable to penetrate with all their instruments, as is the case on the inner side of the material universe, where they can only penetrate to the inner belt. Scientists will not be able to penetrate up to the actual universe-core resp. Creation-core at all, if they will not be able to recognize its radiation and oscillation etc.. What they can recognize and grasp in this respect are only the oscillations and radiations of the outer and inner material-universe-belt and thus the two universe-belts, which enclose the material-universe outside and inside. It has to be said that the black holes also explode again when they are compressed enough, from which new galaxies, nebulae, stars and planets arise. These black holes are gigantically large in relation to the original 'Big Bang' mass, because in the Big Bang the total mass of the explosion site was not larger than a flea, as explained by Genesis *{Note: This may be referring to a book by that title published by FIGU.}*, while a black hole in compressed form can have entire planetary or solar dimensions. It is also interesting to mention that in the free world space so-called electromagnetic space currents predominate, as you have explained to me, so there are enormous magnetic fields, as well as a factor according to which one can divide the world space into a north and a south gradient, so to speak. This also results in the fact that the galaxies etc. rotate both in the right and in the left direction, i.e. clockwise or counterclockwise. And once again I have to say that people from Earth etc. are never able to penetrate to the edge or into the core of the universe, even with their best telescopes and other devices and apparatuses, but always only straight to the inner or outer borders of the material belt or the material universe, where the inner and outer belt form insurmountable barriers for distant observations of all kinds.

**Ptaah:**

110. There is no mistake in your explanations.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_503](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_503)

**Billy:**

One more question: Ever since I was a boy, I have come across the fact that some scientists and draftsmen depict the Big Bang in such a way that the big explosion only extends to one side, i.e. funnel-shaped. Even as a small boy I talked about this with your father Sfath and told him that it could not correspond to reality, because I noticed something different when I was blown up, when I was allowed to work with my father at that time and had my first blasting experiences, when we blew up tree stumps and crushed them in this way. My father was an expert in this and very responsible, because he was also a miner in the military during the Second World War on the Swiss-German border. So he knew the job of blasting inside out, and since I was already interested in this craft at that time, I consulted with him whether I could learn from him. And since I was already a student of blasting techniques at the age of six, my father allowed me to work and learn with him and also to experiment with black powder, for example, by hanging small explosive packages on strings from beanstalks rammed into the ground at an angle and making them explode. I found out that the explosion was not funnel-shaped, but circular and spherical, which is what I told your father, and I also told him that the universe respectively the creation of universal consciousness at the big bang must have been created in the same way by a circular explosion, which he confirmed to me. ...

...

... My question should actually be whether you are aware of anything other than the fact that explosions have an all-round effect? This is also the case when there is a celebration on one side of an explosion. Such a solidity prevents the explosion from spreading all around and from having an outward effect only where everything is free.

**Ptaah:**

60. It is not known to us other than what you also know in this respect.

61. So if, for example, the Big Bang is represented funnel-shaped, as you say and as this journal drawing shows here, then this is fundamentally wrong, because the Big Bang has spread, as it is not possible otherwise, at the one hand circularly and at the other hand in almost spherical form respectively as an egg-shaped structure.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_521](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_521)

**Billy:**

Some researchers suspect that there really are many universes and that a so-called big bang has taken place in each one of them, which is in line with the facts. But scientists are not yet ready to know that new universes will continue to be created endlessly. They also suspect that the individual universes, which they compare with bubbles respectively with soap bubbles, deviate from our DERN-universe with regard to the laws of nature, so that there must be universes without stars. Of course they are right, except that in the fine- and ultra-fine energetic universes there are no laws of nature, but according to your explanation there are only fine- and ultra-fine energetic laws, so that in such universes there can be no matter-belts and no galaxies, suns, planets, meteors and comets etc. But it is well known that there is still a great deal that our scientists do not know, which is why they have to keep revising. Today they do not even know that our DERN-universe, like every other universe, also consists of seven different egg-shaped respectively oval belts and that in our universe the fourth belt alone represents the material part of the universe. They also do not know that all galaxies move in such a way that they move towards a certain point in the material universe, where a constant change takes place and where matter renews itself, so the matter belt experiences a complete renewal in the course of 49 billion (49,000,000,000) years.

**Ptaah:**

26. The research of earthly scientists is still based on pure assumptions and not on actual knowledge.

**Billy:**

I know that, but I still find it narrow-minded. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_528](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_528)

**Billy:**

... But one more question about the seventh belt of the universe, which we call the ram belt. As I know from Nokodemion's memory bank, this ramming does not mean the actual force by which other universes are pushed aside. If I have understood correctly, the pile-driving belt correctly embodies a shock wave which hits the shock waves of other universes and thus causes a smooth movement of them. This in turn causes a mass movement in the entire stock of all 1,049 forms of universes, in that all the universes that exist for us human beings in infinite numbers are constantly moving. Further I understand that only after the ram belt respectively the shock wave the full force of the sixth belt follows, which is then the actual shock wave and which causes the displacement of the other universes, whereby these diverge further apart, so that there is enough space for every new and for every other already existing universe. The fifth energetic-positive and the third energetic-negative belt, I have understood, are so-called energy-conversion belts, as Nokodemion calls them, which together with their negative and positive energies nourish the fourth belt between them. In this fourth belt all 280 elements existing in the universe are formed by the interaction of the two belts. Out of these elements develop the gaseous forms, electrons, neutrons, neutrinos, protons, photons, nucleons, radiations, nebulae, molecules as well as all kinds of atoms and sub-atoms of all kinds, such as quarks and what they are all called, which develop up to the seven-fold level below the actual atom respectively what is called 'indivisible', from which in one form or another solid forms of matter and biological life etc. ultimately result. The core of the universe, which is considered to be the first belt, is the actual source of creation, from which the Universal Spirit Energy develops into highly concentrated form, resulting in the explosion we call the Big Bang. The second belt is the one that forms the corona of the explosion, where the expansion energy unfolds its full force and at the same time develops an increase in volume, causing the outer region of the universe to expand at 147 times the speed of light. In the third belt, negatively charged spirit-energetic basic substances are created, while in the fifth belt, positively charged spirit-energetic basic substances are created equally, which penetrate into the fourth belt located between the third and fifth belt. And as I have understood in this context, the basic spiritual-energetic substances from the third and fifth belts together penetrate directly into the fourth belt for 155.5 trillion (155,500,000,000,000) years, in which the interaction of the negative and positive energies also begins and progresses. The positive and negative spiritual-energetic impulses which united in the fourth belt, which was still empty at the beginning, triggered the developmental process in relation to the emergence of the most diverse forms of matter and the manifold biological life-forms etc., thus forming the material universe with all its reality and the planes and forms etc. existing in it. After 155.5 trillion (155,500,000,000,000) years of expansion of the universe, its contraction then occurs, with which also the basic supply of the fourth belt respectively the material universe through the negative third and the positive fifth belt ceases. After the 155.5 trillion years of contraction, the waking period of the creation of Universal Consciousness is over after a total time of 311 trillion and 40 billion (40,000,000,000) years, with which the material universe also ceases to exist. The following time after the slumbering period of creation Universal Consciousness respectively after the resting phase of the contracted universe lasts 7 x 311 trillion (311,000,000,000,000) and 40 billion (40,000,000,000) years, during which completely new energies arise. These are compressed unimaginably enormously, after which they are released again after 2 quadrillion, 177 trillion and 280 billion years (2,177,280,000,000,000) by a new enormous explosion, respectively by a big bang, whereby a new universe is created. This is then, however, only of a purely energetic nature and no longer has a material belt, a material belt or a material universe respectively.

**Ptaah:**

21. This is also known to us for quite some time, because we also found corresponding records from my father Sfath, which he left us, but which only recently became accessible to us.

22. Apparently my father had found a way to find these data.

*{Note: This Contact Report contains a lengthy summary of the origin, composition, and evolution of "the universe", of which only small segments related to "the Big Bang" are reproduced here.}*

**Billy:**

At the big bang resp. at the emergence resp. at the becoming of creation resp. creation universal consciousness, the creation structure emerged as 7 basic levels, namely in the form of 7 expanding spirit-energy belts, whereby the 4th belt manifested materially through the interaction of the 3rd and 5th belt, consequently therefore the material belt emerged, in which flakes, nebulae and finally galaxies, suns, planets and life etc. were formed.

...

Creation can be thought of as an example of an egg-like spiritual energy shell, which floats in the boundless and timeless super-ultra-infinity-infinity-immeasurability-infinite-spaciousness of the absolute nothingness along with countless other creations of the same or, according to the state of evolution, differently higher kind. This creation structure thus contains within itself 7 different spirit energy belts/levels or 7 different dimensions or space-time structures (simile: balloons), which all arose simultaneously at the Big Bang, but are absolutely independent of each other.

...

After the becoming of the compression of the spirit-energy swinging waves in the 'nothing-vacuum' and the duration of time that arose with it, a further compression took place during 3 time nanos, namely up to the ever very first and at the same time very last 'nothing-vacuum big bang', which led to the very first and last self-exciting creation and existence of the 'BEING-Absolutum', which created the 6 further Absolutum-forms ...

...

All Absolutum-Creations resp. Absolutum-universes resp. Absolutum-forms resp. Absolutum-planes were created only once by the permanent-SEIN/BEING-ur-energy and permanent-SEIN/BEING-ur-power of the Ur-Ur-Ur-Ur-Ur-BEING-Absolutum, while this itself emerged in a self-exciting way from the 'nothing-vacuum' by the very first Big Bang. ...

**Billy:**

Well, over time, scientists also talk nonsense or fantasise nonsense, so also with regard to astronomy, because the entire astronomy science has no idea whatsoever about how and what the universe actually is. So they also do not know that everything visible from the Earth, all the stars etc., corresponds to only one seventh of the space-time structure universe, just as this space-time structure universe only makes up one seventh of the entire space of creation, which has a life span – starting from the so-called Big Bang to the end of the final contraction – of 311 trillion Earth years. Nor do they have any idea of how the real universal and creation-related laws behave, as also in relation to the emergence and behaviour of the dimensions and all the trimmings with regard to the creative, and that everything is completely different from what is assumed or claimed. And that the Creation is delusionally referred to as God and God the Father – as Allah, Theós, Parameshvar, Shiva, Chodā, Shén or Kami, etc. – corresponds to nothing but a pathologically insane conceit that is endlessly far from any truth.

... Very many of our 'scientists' – airheads, I farewell to say, to which also various normal people belong – do not understand that the Earth in the humanly incomprehensible 'infinity' of our Creation, which is only a 7th part of all universes of Creation, is not alone inseminated and carries life, and partly also more highly intelligent life than exists on our planet. And that our Creation consists of 7 universes, each with a matter belt, has not yet been grasped by all those schoolboys who want to know so much about the universe, whose effective number is 7, which in turn are arranged in dimensions of the past and the future. They do know that the matter belt with all its galaxies etc. is expanding more and more, but in truth they do not even know that the origin of Creation with its 7 universes was tiny smaller than an atom when it exploded through the so-called Big Bang, but they only assume resp. suspect it, but do not know how this tiny thing came into being, from which Creation with its 7 universes emerged through the Big Bang. Let alone that they have any idea that what they call the Universe is nothing else than the 7th part of the Creation, but not the product of an imaginary God or God-Creator etc. In truth, they do not even have an idea of the development of the whole, consequently the origin out of the nihilo, out of which all the beginning of all existence found its becoming, is a book with 7 seals to them, which they will not be able to open for a very long time. ...

141. Your researchers and scientists have already found many in-between mutations between humans and ape beings, but usually only as skeletons or partial skeletons.
142. These in-between mutations, part human, part ape being, are known to the human beings under names such as Africanus, Peking Man, and Neanderthal and so on.
143. Four different species of them have survived over all past millennia, and their descendants still live today, although no longer in large hordes, but only isolated or in very small groups.
144. They are so wild and shy that human beings will hardly ever see them.
145. The human beings have coined special names for them:
146. Yeti and so forth.

My next question: Yeti, Big Foot, and Sasquatch, these are three beings of which there is talk over and over again. For quite some time, there has particularly been talk again about the Sasquatch-being in Florida's swamps in the Everglades. Again and again, people appear in public, who claim that they would have observed such prehistoric human beings. Can one believe these statements?

**Ptaah:**

223. Some statements are actually true, others are based on deceit, and still others are based on making oneself important or on simple fibbing.
224. Nevertheless, there is no doubt that these beings still actually exist.

... As your father, Sfath, explained to me in my youth, the first small forms of life that developed from the primeval slime, from which humans also emerged on Earth, lived more than 250 million years ago and also at the time when the first dinosaurs existed. These small life-forms were about 10-12 centimetres in size, about the size of a mouse, but they changed and grew a few centimetres larger. Their lifetime was just one year, but with time their age increased, the bigger they became. The transformation over millions of years led to different life-forms, but only to mammals, and finally to many species of primates and to forms from which humans emerged and from which also the different apes and those creatures that have not been found yet, like the YETI, which is called 'Mahali-Dama' by the locals and 'Mande Barung' elsewhere. Also 'Big Foot' and 'Sasquatch' etc. belong to it. Now, to cut a long story short: What is the name of the little animal that is the origin of all mammals, primates and humans? ...

**Ptaah:**

67. Our name of the small creature is 'Berani', but the little animal is now also known to earthly palaeontologists through findings of fossilized bones, and they call it 'Adelo Basilius' (Adelobasileus cromptoni).

... With your help, I was indeed able to twice see a Yeti in the Himalayan region, which were around 3 metres tall and were most distant descendants of tall great apes, whose most distant ancestors largely died out 60-75 million years ago as a result of the effects of the Toba Super Volcano eruption in Sumatra, I was told. I do no longer know the designation for these giant apes, which you however can certainly tell me again; but what interests me is whether the legendary Bigfoot in America, the Sasquatch in Canada and the similar creatures spotted in the south of the USA are also most distant descendants of the giant great apes?

**Ptaah:**

273. This is indeed the case, because both in northern India, Pakistan, Tibet and in the north and south of the USA small populations of the hominid Gigantopithecus giganteus, as they are called in earthly paleontology, survived.

274. During the time between 7 and 9 million years ago, natural disasters occurred, through which once again a decimation of these human-like ape creatures took place, just as it however also did about 100,000 years ago.

275. Then, a mere 75,000 years ago, the supervolcano Toba erupted in Sumatra and created a worldwide climate catastrophe and radical climate change, through which over the course of more than 10 years many species of life forms died out.

276. The genus Gigantopithecus giganteus was decimated too, yet smaller populations of the actual giant apes survived in various places, as did however also some few subspecies.

277. And from these few populations, some extremely small and very isolated groups have persisted to the present day, which live in the areas you mentioned.

278. To these human-like and upright ape creatures, which still exist today in really only the very smallest isolated groups, belong the so-called Yeti, Bigfoot and Sasquatch.

**Billy:**

Thank you, then this is also for once clearly told. And as I have been able to see such creatures twice with your help, I can also say that these extraordinarily hairy creatures look really human being- and ape-like and have nothing to do with big bears, as the Austrian mountaineer Reinhold Messner claims loudmouthedly to the contrary.

**Ptaah:**

113. ... Bernadette should be anxious to illustrate your name 'Billy' with a picture of 'Billy the Kid', which you received in Tehran in Persia through Judy Reed from Los Angeles.

114. That's because there was no stopping you and you wanted to know what life story was really about 'Billy the Kid', consequently at your request you were able to go back in time with my father to 'Billy the Kid' and meet him when my father told you that one day in the future you would be compared to him and thus be given the name 'Billy' which would then become known worldwide as a result of your mission.

**Billy:**

In principle, I have no objection to including the image of 'Billy the Kid' in my biography, if it is explained that he was not the killer he was made out to be, because he was a completely different human being than he was falsely made out to be after his murder by the killer sheriff Patrick Floyd Jarvis Garrett and by enemies and fans and know-it-alls etc. and the whole thing was then also hyped up as a legend. He may have shot a human being in self-defence, who then died of the injury, but he was not a killer, he was a young man who acted only in self-defence and unintentionally shot a man armed with a knife, who wanted to stab him, in the stomach in a scuffle, But you yourself know the story of Billy the Kid, so I think it is better if you tell it yourself as your father Sfath described it, because he recorded everything very precisely in his annals, as you once said. Also important would be the gravestone, on the alleged grave of 'Billy the Kid', by which his fans are misled.

**Ptaah:**

115. I would like to do that, because I think that your objection is justified, but I only want to explain what is necessary, because the whole life story of 'Billy the Kid' would lead too far, which is supposed to be largely known through exact traditions, but does not correspond to the truth and therefore does not need to be shown in detail by me.

116. Nevertheless, my elaboration will take some time, whereby I will also weave in repetitions, because in order to clarify everything even to a certain extent, some explanations are required.

117. I will also not present what is to be explained in a logical manner according to the chronological sequence of events, as these correspond to my father's records, but simply as they occur to me in the course of the discussion.

118. Contrary to the myths and legends surrounding William Henry McCarty, 'Billy the Kid' as his real name was, I must declare that the stories that were already circulating widely during his lifetime were, on the whole, pure lies and thus, already from the ground up, fundamentally false chronological falsifications and malicious slander, which were invented and contrived out of pure malice against 'Billy the Kid' and which innocently degraded him to the status of a murderous criminal or elevated him to the status of a hero even during his lifetime.

119. When the so-called 'Wild West' was settled by immigrants, it was an era of evil violence, complacency and greed for land and wealth, for which not only criminal acts were part of the agenda, but also serious crimes up to and including murder.

120. And such actions and deeds emanated from simple human beings immigrating from Europe and other countries, who settled in the 'Wild West' and in villages and towns as citizens and, of course, also fathered offspring.

121. Simple farmers as well as cattle breeders, so-called ranchers, with large herds of cattle also practised violence in order to gain land, money and wealth, whereby murder and manslaughter and cattle wars were also not uncommon, as well as corruption, criminality and crime in administrations in all states, villages and towns, from which the simple and industrious populations had to suffer.

122. And the fact that human beings developed into criminals and offenders out of these conditions was an inevitable consequence, as was also the emergence of injustice and vindictiveness, theft, bank robbery, prostitution, slavery as well as murder and manslaughter, etc., from which rewards were also offered for the capture of wanted criminals, in the form of bounties and with the indication 'dead or alive'.

123. This attracted many conscienceless and money-hungry people who delighted in killing human beings, such as self-appointed 'lawmen', sheriffs and bounty hunters, or those hired by ranchers, village and town councils, to hunt down delinquents far and wide, bring them to justice or simply shoot them in cold blood without delay.

124. And that many of these hired or officially elected 'lawmen' were nothing other than cold-blooded and passionate killers is also known from the generally well and truthfully documented stories of many gunslingers from the 'Wild West', such as Wild Bill Hickok, John Wesley Hardin and Wyatt Earp, etc.

125. Their stories, according to my father's Sfath, are based on very precise clarifications of correctness, as they were also recorded chronologically.

126. This, however, is completely contrary to the lies, myths and slanderous legends surrounding 'Billy the Kid', who, as precise clarifications by my father have shown, was slanderously declared to be a killer and criminal due to his youth and membership of murder and cattle rustling gangs.

127. His bad reputation was further enhanced by the fact that he always defended himself against unjustly inflicted accusations and injustices by offensive words and speeches, which was greatly resented by all his enemies and used to make him all the more a lawbreaker and hounded by dubious lawmen, sheriffs and unscrupulous, cold-blooded bounty hunters, among whom was also Pat Garret, by lies and slander.

128. And that Patrick Floyd Jarvis Garret had known and hated the young 'Billy the Kid' for a long time and disliked him from the ground up on the one hand, but also because the boy was friends with Juanita Gutierrez, whom Garret later married, no one knew, because to the contrary Garret spread the rumour that he was good friends with the young William McCarthy.

129. So Pat Garret was looking for a way to kill the boy in a legal-legal manner, even before he was appointed sheriff in Lincoln County, New Mexico, and he indulged in bounty hunting.

130. At a later date, Patrick Floyd Jarvis Garret then went to Washington to seek reappointment to his appointed office.

131. The then US President Theodore Roosevelt then appointed him to the post of Collector of Customs in El Paso, but contrary to all the lies as spread at the time by Garret himself and also later by others and ever since, Garret and Roosevelt were not friends in any way and were not even close acquaintances.

132. Just as Pat Garret spread this lie about his alleged friendship with Roosevelt, he did the same with regard to the killer stories which he attributed to 'Billy the Kid' and in doing so, as sheriff, also personally falsified various offices etc. in their documents and written statements etc., or had his lying and slanderous truth-distorting distortions carried out by dishonest officials etc. who were paid by him or bribed with money.

133. In the meantime, when he was doing his dastardly, conniving and murderous business elsewhere than around 'Billy the Kid', he made a name for himself when he became a buffalo hunter, also murdering a hunting competitor named Joe Briscoe.

134. In Fort Sumner, New Mexico, Garret then married a young woman named Juanita Gutierrez, who was only a year older than 'Billy the Kid', with whom she maintained good friendship, but which greatly displeased her intensely jealous and suspicious husband, causing hostility and hatred to surge up in him.

135. This woman, however, then died in childbirth, her death, however, having been insidiously brought about by Garret, who, shortly before the birth, had given her an apple-pulp of small deadly apples of a manchineel tree.

136. The reason for this was, on the one hand, his jealousy and her friendship with 'Billy the Kid', and, on the other hand, because in her 8th month of pregnancy she heard several times during his sleep the speeches he made in his dreams, and thereby betrayed himself to her concerning his secret of his murderousness and his intrigues and lying and slanderous machinations against 'Billy the Kid'.

137. And when she confronted her husband Pat Garret and threatened to report her knowledge to the courts, she sealed her own fate, for he immediately decided for his own safety to kill her at the first opportunity.

138. William Henry McCarthy, however, was the subject of all sorts of atrocious stories of thievery and murder early in his young life, and Pat Garret was constantly trying to further these and also put him in situations where he was shot and killed.

139. In this, Garret not infrequently participated in a hidden and clandestine way in the background, practising his deadly craft, and then blaming the murders he committed on the boy, as you are wont to say when someone does something which he then denies and claims that another person did it.

140. Patrick Garret took a wicked pleasure in sadistically torturing the boy morally and psychologically and acting this out in a dastardly, vile, mean, vile and hurtful manner and then murdering him when the opportunity arose.

141. In this way, the act of self-defence that 'Billy the Kid' was forced to commit in Arizona became, over time, an alleged series of murders with 21 victims shot by the boy.

142. Unfortunately, Patrick Floyd Jarvis Garrett managed to keep up his criminal face of killing, scheming, lying and slandering until one day, after many years, an old friend who knew the real truth regarding 'Billy the Kid' and the infamous machinations of Pat Garret decided to take revenge for his murdered friend.

143. Subsequently, unable to carry out the revenge due to his age, he hired a paid hitman to shoot Garrett and keep quiet about the reason for the killing.

144. So I will now only state the true facts as they are listed in my father's annals and describe everything in relation to 'Billy the Kid' and his acts of murder as they really were and largely took place in a completely different way to how they were recorded chronologically and also falsified in legends.

145. I will also begin my interpretation with the gravestone and the false grave:

146. The gravestone at Fort Sumner in New Mexico, which secures a grave behind heavy iron bars, has nothing to do with 'Billy the Kid', because his last earthly resting place can no longer be determined or located, because his bones were washed away from the cemetery at Fort Sumner in 1904 when the Pecos River flooded.

147. Moreover, the soldiers' bones buried in the cemetery were also moved when the military base there was abandoned, although the bones of 'Billy the Kid' had already been moved from the grave at that time, as my father Sfath had already clarified without any doubt.

148. It cannot be said, however, whether these bones were found again at all, for nothing was known about this and nothing could be clarified, for as a result of the mixing of the collected bones they could no longer be identified and assigned to any persons.

149. Inevitably, they were mixed with many other bones and reburied after the nearby Pecos River had released some of them after the flooding and reburial had also taken place.

150. When the gravestone for 'Billy the Kid' was erected in the 1930s, chosen by a commission, and a decision was made between 4 different possible burial sites, the choice fell on a fifth site, the one where the gravesite was built.

151. The inscription on the gravestone is of legendary origin, as are many other things, but especially the story of 'Billy the Kid', which is nothing more than an effectively fictitious and untruthful legend or myth, which has circulated up to the present day and portrays 'Billy the Kid' as a multiple murderer, which in truth he was not, as is clearly refuted by my father's records, because in the past he witnessed every single fatal act by 'Billy the Kid' at the respective time of the events on the spot as a direct observer.

152. Billy the Kid's mother was Catherine McCarty, who lived first in Coffeyville, Kansas and then in Pueblo, Colorado.

153. Because she suffered from consumption and tuberculosis, she moved to a milder climate, namely to Silver City in New Mexico, where she died after a short time on 16 September 1874 as a result of her incurable disease.

154. William Henry McCarthy, aka 'Billy the Kid', had an older brother named Joseph, consequently he was born the 2nd son of Irish Protestant immigrants on 24 December in 1862, little more than 3 years later than has been deliberately conspiratorially claimed since his death.

155. In truth, the correct date of birth was maliciously and purposefully falsified to 23 September 1859 on the one hand and 23 November 1859 on the other by underhand machinations of Sheriff Patrick Floyd Garrett.

156. His reason for doing so was so that he, Garret, could claim that he had not shot a minor regarding 'Billy the Kid', but a grown man who had been a multiple killer.

157. But when he murdered him on 14 July 1881, the boy was not 21, but only 18½ years old.

158. But it was not only Sheriff Pat Garrett who falsified chronological records and spread lies and slander about 'Billy the Kid', because even after his murder, people continued to lie and slander.

159. And the lying and slandering as well as the creation of myths and legends even reached a climax when two men came forward and mendaciously claimed that 'Billy the Kid' had in fact – because he and Sheriff Patrick Floyd Garrett had allegedly been best friends – not been murdered by Garret, but had been spared by him and brought to safety.

160. Both men claimed that they were in fact 'Billy the Kid' who had been spared by Pat Garret, but who had really and actually been murdered with 2 shots from the killer sheriff's gun, as my father Sfath had witnessed observantly and had also afterwards undoubtedly established the death of 'Billy the Kid'.

163. ... (note Billy: revenant = usually a spirit resurrected from death, or restless, wandering spirit of a deceased person) ...

168. ... with regard to the 2 revenants mentioned in relation to 'Billy the Kid', their names are still to be mentioned, such as a certain Ollie Partridge William Roberts, also called 'Brushy Billy', who died in Hico, Texas, on 27 December 1950, as well as a certain John Miller, who ultimately died in Prescott, Arizona, on 7 November 1937, and was buried in Pioneer Home Cemetery.

169. So in the course of time these 2 persons claimed that they were in fact 'Billy the Kid' and had not been shot by Sheriff Patrick Floyd Garrett because he had been their best friend and had therefore let them go, so that instead of burying them or their body he had buried that of a strange young man and collected the bounty.

170. What is further listed in my father's annals refers to the fact that 'Billy the Kid' later gave himself other names, such as 'William Henry Bonney', although he rarely called himself 'William Antrim', after his stepfather William Henry Antrim, whom his mother married because her husband had been killed in the Civil War.

171. 'Billy the Kid', my father recorded in his notes, was not a stone-cold murderer but a very sympathetic young man who was often abused by his stepfather William Henry Antrim, viciously beaten up, constantly reviled and also treated unfairly as a victim by other elements who resented him.

172. My father Sfath, in his annals, judged him to be a very helpful young man, who was also attracted to those fellows who were good to him, which he paid with sincere attachment and affection and sincere thanks.

173. He was also willing to work, industrious, honest, and thanked his employers for the kindness they showed him.

174. He valued sincere friendship highly, consequently he also always went out of his way for his friends and never left them unnoticed when they were in need of his help.

175. In reality, he was neither malicious nor vengeful and also did not kill 21 human beings, as was always claimed during his lifetime and also after his murder, whereby this legend lie has survived until today.

176. In truth, he killed only one man, but he did not murder him, but shot him in the stomach in self-defence, thereby protecting his own life, as my father was able to clarify without any doubt.

177. In this case he was not only threatened but compellingly faced with the choice of losing his life while still a young man or fighting back to avoid being killed himself because the adversary was jaded and calloused to stab 'Billy the Kid'.

178. Billy was an adolescent young man who on the one hand was very eager to learn and inquisitive, consequently he learned a lot where he could, which is why he was also fluent in Spanish and knew how to read and write, unlike most of his age and background.

179. Thus, despite his young years, he was an educated young man, which was also evidenced by letters from him to Texas Governor Lew Wallace, with whom he was negotiating a pardon.

180. The governor's secretary also said that Billy the Kid's writing was so expressive, eloquent, educated and eloquent, and also beautiful, that it was worth dreaming about.

181. He also told a friend that this boy could have become something great if, on the one hand, he had been able to remain in his mother's care and had not been exposed in his youth to a violent, crude and criminal world and, above all, if he had not been innocently persecuted, hunted by criminal sheriffs and murdered by Pat Garret, whom he knew with certainty to be nothing other than a passionate killer.

182. On the other hand, it was never in the mind of 'Billy the Kid' to want to cope with his life as a lawbreaker, just as he did not seek his own advantages as such, which is why he merely defended himself against injustice and sought to do justice in his own way.

183. And because he was attacked several times and others were willing to kill him, it unfortunately happened that he had to defend his life and defend it in self-defence in a deadly way.

184. This, however, was exactly the opposite of what all those who represented the law or were otherwise on its side, but who in truth were themselves more inclined to crime and criminality than to honesty and correct citizenship, were striving for.

185. And it was these who criminalised 'Billy the Kid' and discriminated against him as a criminal and killer and ensured that he was pursued and hunted by lawmen who were often in truth nothing more than bounty hunters or bounty killers and made a lot of money with their bloody trade.

186. This, while others admired 'Billy the Kid', exalted him and tried to make him into something better than he really was on the one hand, and on the other hand did not want to be, through exaggerated praise, undeserved emphasis and undue importance – giving him undue value.

187. With regard to all the many murders attributed to him, it was the case that these were imputed to him on the basis of his repeated escapes from the law, which, however, were really only based on pure suspicions and could, of course, never be proven against him.

188. He was also subsequently convicted in absentia as a murderer on 17 August 1877.

189. With regard to his involvement in criminal gangs etc., he was never one of those gang members who murdered, for he always refrained from doing so and only acted as if he were shooting at human beings, although in truth he only shot into the air without exception in such actions, as my father Sfath was able to ascertain for himself with absolute clarity when he observed every single case at the respective places of the events and checked everything.

190. The fact is that in the autumn of 1871, at Fort Grant in Arizona, in the George Adkins Saloon, where he called himself Henry Antrim, he severely wounded with a revolver shot a local blacksmith named Frank 'Windy' Cahill, who had immigrated from Galway, Ireland, because he was involved in a brawl with him and the latter wanted to stab him.

191. This was the first man 'Billy the Kid' shot down when he was still a minor – which was also officially confirmed – and it was also the last and only man to be killed by him.

192. In this incident, numerous persons also testified that he had acted in self-defence and that he had only defended his life, while other 'eyewitnesses' who were not well-disposed towards him accused him of murder against all truth and lied that the Hufschmid had been unarmed and had been shot down without resistance.

193. However, when my father Sfath, in retrospect or in the past, personally observed the incident, he realised the truth in that the blacksmith was very much armed and was about to plunge a large knife into the stomach of 'Billy the Kid', also shouting that he was going to kill him.

194. To this my father wrote that when the blacksmith was about to bring his raised and knife-armed fist down on the boy lying on the ground – whom he had already knocked to the ground and who was lying defenceless on the ground – he shouted: "Now, you dog, I'll stab you" (Note Billy: = Now, you dog, I'll stab you).

195. This, of course, struck fear into the boy and caused him, as if in a trance of self-preservation, to reach for his revolver, which he carried in his waistband, and shoot the man in the stomach.

196. The knife thrust by the man against him would indeed have been fatal and therefore not only life-threatening, as my father was able to judge after a precise clarification, as his records also clearly show, as well, that the 'eyewitnesses', who were friends of the blacksmith, concealed this dangerous knife attack of the blacksmith and also removed the knife, in order to then accuse 'Billy the Kid' of murder with lies and false statements, who could not do anything against the brawny man and against whose knife thrust he would have had no chance of survival.

197. Cahill, the farrier, was a brawny man of about 180 centimetres in height and weighed over 100 kilos, while 'Billy the Kid' was only about 160 centimetres tall and weighed no more than about 65 kilos, and who, moreover, had been attacked and insulted by the farrier several times before the brawl because he did not like Billy.

198. On this momentous day, however, Cahill knocked Billy the Kid to the ground and called him a pimp and the son of a whore and a slut because he was dressed not like a native or a cowboy but like a city slicker.

199. The vicious name-calling set the boy on fire, so he also called the blacksmith names and called him 'dog son', who then attacked Billy, kicked and punched him violently, resulting in a fight, which led to the dangerous knife attack by Cahill, which resulted in the latter being severely shot in the stomach, which later proved fatal for him in hospital.

200. However, before Cahill died in hospital, he vehemently denied that he had viciously and shamefully insulted, attacked and attempted to murder with a knife 'Billy the Kid' who, after being shot, was able to crawl out from under the heavy-set blacksmith who had fallen on top of him, quickly rise and flee from the saloon and from the mob who were chasing him.

201. Despite the lies of the 'eyewitnesses', however, he did not have to explain himself and answer to a court of law, and that was because he never returned to the state of Arizona.

202. Billy the Kid' also absconded several times when he was arrested and imprisoned, hrs he also changed his name to William H. Bonney, hrs he was also called a killer and a criminal, hrs he was constantly pursued by law enforcement officers, such as sheriffs, hrs he was hunted down like a wild animal.

203. This was also the case with Sheriff Pat Garret, who on the one hand was never a friend of Billy the Kid, and on the other hand was a money-hungry bounty hunter and passionate killer, as was common in the so-called 'Wild West' of the time, which meant that many so-called lawmen and official sheriffs were effective killers whose joy and purpose in life was to mercilessly and consciencelessly murder human beings.

204. This corresponded to a degeneracy that has remained with many lawmen, sheriffs and police officers in various states of the USA to this day, just as bounty hunting is still commonplace in the USA today, albeit in a modified form.

205. Pat Garrett and 'Billy the Kid' were not cut from the same cloth, as you sometimes say on certain occasions, because it is correct to say, according to my father's notes, that they both knew each other, but this acquaintance through Garret consisted of a dislike for the young William Henry McCarty alias 'Billy the Kid', so that there was no friendship, but a state of dislike and hatred, which, however, emanated unilaterally from Garret, which put an extremely heavy strain on Billy.

206. Garret was constantly following 'Billy the Kid', sneaking up behind him and repeatedly causing bad situations in order to harm him and drive him into conflicts.

207. This also happened after Pat Garrett became Lincoln County Sheriff in 1880 and he hunted him down mercilessly, after which the boy fled to Mexico but soon returned, after which Patrick Floyd Garrett arrested him once again, this time with witnesses present, so he could not just shoot him without fighting back.

208. On the 13th of April 1881, 'Billy the Kid' was then sentenced to death by the Lincoln District Court, with Garret contributing lies and slander.

209. The death sentence, however, was not enough for Pat Garret, so he deviously freed the condemned man in prison and let him escape, so that he could hunt him down again and finally kill him himself in his hatred.

210. The arranged escape, however, did not succeed in the way he wanted, because unexpectedly two sheriffs confronted him and 'Billy the Kid', who also took up the chase, but were then shot by Pat Garret, because they had recognised him and also wanted to hand him over to justice as an escape helper or, if necessary, kill him.

211. Of course, it could not be otherwise than that Garret blamed the two murders on 'Billy the Kid' who, as an escapee from prison, was of course unarmed.

212. And also this time the escape of William Henry McCarthy led to Mexico, where he was murdered by Garrett on July 15, 1881 with two shots in the back, which he boasted about afterwards and declared publicly that he had shot him without warning, namely when 'Billy the Kid' left his bedroom unarmed and half-dressed to get something to drink.

213. The lust for murder and the joy of murder early in Pat Garret's life also resulted in the fact that he not only shot Billy the Kid without warning, but also two other men before him, whom he had supposedly mistaken for Billy and collected a bounty on, but buried them himself, but the truth was that he killed the men – just to pursue the joy of his passion for murder and to collect the reward.

214. Then when he viciously shot 'Billy the Kid' in cold blood, the truth was basically that Billy had been denied a fair, honest trial in every single case all those times before, but was convicted of being a murderer and a rustler, etc., despite his proclaimed innocence through him.

215. And that this was so was known to many righteous people, consequently his death was also received with sadness and anger, precisely by those many people who knew him and his true nature and actions really well and also knew that the sheriff Pat Garret was a vicious, cold-blooded and money-hungry bounty hunter and passionate serial killer resp. a killer.

216. So it also turned out that he was notorious in this respect and he was also treated like a leper by the righteous population.

217. Effectively 'Billy the Kid' was an industrious young, honest and decent man, consequently he also worked for cattle ranchers, such as one named John Chisum, another named Lawrence G. Murphy and later for an English rancher whose name was John Tunstall, but who was then murdered, in what was called the Lincoln County Cattle War, aided and abetted by the corrupt official of the City of Lincoln.

218. When it came to avenging Tunstall's death, 'Billy the Kid' also took part as a follower, though – as usual – he refrained from being an avenger and killing himself.

219. The avenging murderers were two men, with whom 'Billy the Kid' also stayed on and went with them to Steel Springs, New Mexico, where the two murderers were shot in his presence on 9 March 1878.

220. He was only involved as a follower without any personal involvement – as in all other cases in which he was slanderously accused of involvement in murders – and this was also the case when the corrupt sheriff William Brady and his deputy and assistant George Hindman were shot in Lincoln on 1 April 1878 after they had been lured into an ambush.

221. Also when a man named Buckshot Roberts was killed in a shootout at Blazer's Mill on 4 April, 'Billy the Kid' was present, but as always before, he was as uninvolved in the man's death as he was in the deaths of other human beings in the decisive battle of the Lincoln County War from 15 to 19 July 1878. As always, he had only fired blindly into the air to keep up the pretence of also killing, in order to maintain comradeship with the gang members and to be seen as an equal.

222. In return, however, the reward of certain public figures was that he became more and more known as a conscienceless gunman and killer and was thus hounded all over the country by killer-happy and money-hungry lawmen, sheriffs and bounty hunters, also by the killer Patrick Floyd Jarvis Garrett, who was eventually elected sheriff and specifically set upon 'Billy the Kid', whom he ultimately murdered in an insidious manner.

223. Pat Garret himself was also later murdered, on 28 February 1908 near Las Cruces, New Mexico, by a hired killer named Jesse Wayne Brazel.

*{Note: Jesse Wayne Brazel's nephew, William Ware "Mac" Brazel, was the man upon whose ranch the Roswell UFO Crash occurred in 1947.}*

224. Finally, it is important to note that 'Billy the Kid' was a young man who was often abused and argued with by his stepfather, which led him to learn to play cards in saloons at an early age, where he also had to defend himself against a blacksmith who tried to stab him.

225. The legend that he was twelve years old at the time and stabbed the man is only true insofar as the man had previously insulted his mother, whom the boy adored, as a whore and slut.

226. On the one hand, he was already 15 years old at the time, on 17 August 1877, and on the other hand, he had not stabbed the blacksmith, but shot him in the stomach in self-defence, after which he died in a hospital.

227. Billy the Kid' was actually constantly on the run until his violent death, but not so involved in shootings that he would have had to kill.

228. He also saved settler families from Indians, joined gangs without ever killing any other human beings, also stole cattle because he was not paid his due wages for the work he had done and was therefore innocently sentenced to death.

229. The last time he escaped from prison, with the help of his nemesis Sheriff Pat Garrett, the latter finally used the opportunity to shoot him in an underhanded manner.

230. How the whole thing happened was described in detail by the murderer himself in a book, because he wrote that 'Billy the Kid' stepped out of the room of his Mexican mistress Celsa Gutiérrez to go over to the house of his friend Pete Maxwell to get something there.

231. As he did so, he had dimly spotted 2 figures on the veranda and asked in Spanish, which he knew well, "Quién es? Quién es?" (Note = Who is there?).

232. But there was only his assassin waiting and lurking, who struck him down with 2 shots, killing him.

233. After all the very accurate clarifications made by my father Sfath, not many bodies went to the account of 'Billy the Kid', but only the blacksmith Frank 'Windy' Cahill, whom he effectively shot in self-defence, this was clearly clarified by my father.

234. However, tall tales and tall legends speak of 21 human beings whom he is said to have killed, while others assume 9, but 4 others are said to be genuine and given, 2 of which are said to have been acts of self-defence, but none of this corresponds to the truth, because in the life of 'Billy the Kid', according to my father's extremely precise clarifications, only one human being was killed by him, namely the blacksmith.

235. It is therefore clear that all the stories that have been told since the death of William Henry McCarthy and have become legend are in fact untrue, lies, fictions and fantasy, the only thing that is certain being that the young man, 'Billy the Kid', was already made into a legend during his lifetime, and then even more so after his death.

236. What has been said corresponds to what I have read in my father's Sfath Annals, in which he has meticulously described what he observed, experienced, learned and recorded and handed down with his written notes through his investigations and clarifications in the past on the spot of what happened to 'Billy the Kid'.

237. And what is also to be mentioned is the content of a letter from a gang member and friend of 'Billy the Kid', which he wrote to Pat Garret and also sent to the city and court officials as well as to various publications, but which was never heeded and not publicly published in order to promote the concealment of the truth and the profit-making legend.

238. Jesse Evans, a former gang member, had his letter typeset and printed in a small workshop in 1884 and also distributed to people on the streets in various places, but to no avail, because as a friend of 'Billy the Kid' and a member of a gang, Jesse Evans' statements were not accepted.

239. My father was able to get hold of one of these letters and has kept it, which I have had translated for you and now want to read to you:

Pat Garret, you are the murderer of Billy the Kid...

The undeniable fact is that you, Sheriff Pat Garret, are the real criminal behind the story of William Henry McCarty, alias 'Billy the Kid', because you, as a killer and bounty hunter, murdered him out of jealousy and hatred. I say this to you, Garret, I Jesse Evans, for I have been an eyewitness on several occasions when you, Garret, have murdered and attributed these acts of murder to 'Billy the Kid'.

Pat Garret, I accuse you of claiming that 'Billy the Kid' murdered 21 human beings, even stabbing his first victim at the age of twelve, which, like all your lies, is untrue. You know very well that Billy shot the man in self-defence, the blacksmith called Frank 'Windy' Cahill, when he tried to kill him with a knife, after which he later died, and Billy was already 15 years old at the time. As a friend of Billy's, I always knew that he was not a murderer, even if he did join our gang and shoot wildly, but never at human beings, only aimlessly into the air. The lies that Billy killed and murdered are all your fault, Garret, because you, Pat Garrett, are the one who spread them in the first place and then again and again for years, as well as all the other monstrous untruths that were spread everywhere by you, Garret, until many believed your lies and an evil legend was created. And you, Garret, did this only out of ardent jealousy and malicious hatred, because Billy had a friendship with your lover, Juanita Gutierrez, two years younger than you, whom you, Pat Garret, wanted as your wife and impregnated her, after which you also married her in 1877. But after only a few months she died in strange circumstances in the 'miscarriage' of her child. After that, Garret, you married her sister, Apolinaria Gutierrez, who was a year younger, and with whom you also began an intimate relationship early on.

Garret, you were the ringleader of the worst of the lies and falsehoods that you not only spread about 'Billy the Kid', but also many others who are still in bondage to you or are acquaintances or friends of yours, as well as those who are acquaintances and friends of those you murdered and then claimed, and then claimed that they were killed by Billy, including the corrupt Sheriff William Brady and his equally corrupt Deputy George Hindman, as well as several other people who murdered, who you then ambushed and shot, and also blamed those acts on Billy, which he never had anything to do with. And because of all your lies, Garret, Billy became the subject of an unparalleled tall tale and legend. Then, Garret, when you were appointed sheriff of Lincoln County, even though you were a killer and a bounty hunter, you spread the lie far and wide that Billy the Kid was your best friend, but that as a 'lawman' you had no right to take that friendship into account and therefore had to bring the 'lawbreaker' to justice. This, in order to conceal the fact that you were bottomlessly jealous of him, hated him viciously and therefore wanted to murder him. Therefore you, Garret, discredited him more and more as an outlaw and murderer and did everything to be able to shoot him in self-defence one day. Then, when you were appointed sheriff and set upon Billy, your aspirations were fulfilled, for you were now able to kill him legally. And knowing that Billy was not yet an adult, but still a boy, you claimed that he was older and already an adult.

Since the unrest and lawlessness in Lincoln County were great and the population decided to put an end to this goings-on, you, Garrett, were finally elected sheriff on January 1, 1880, despite your bad reputation as a bounty hunter, or precisely because of it, and assigned to hunt down and kill 'Billy the Kid'.

By then, several other 'lawmen' of your ilk had attempted this, who were also, like yourself, Garret, 'lawmen' only by virtue of the sheriff's badge, but in reality were killers and bounty hunters who murdered far and wide. So you, Garrett, hunted Billy until you finally, when he was completely unarmed and drunk asleep, murdered him with two shots on 14 July 1881, which I can testify to because I witnessed it myself, but had to flee because you had your personal killer dogs, devoted to you, posted all around and you were also after me and wanted to kill me as well.

But since the killing of a boy who has not yet grown up does not conform to our laws of the land but is tantamount to outright murder, you, Garrett, began with a glorification of your nefarious deed to Billy. You did not want to be seen as a conscienceless, vile, reprehensible and unscrupulous murderer of your alleged 'friend', which is why you, Garret, spread the lie that Billy was armed. But with that and many other lies, you, Garret, caused even worse stories about Billy to be circulated and ultimately 21 murders to be blamed on him, for which you, Garret, were never held accountable, which is why I will take revenge on you for your murder of Billy. And if I cannot do it myself, then sooner or later I will find and pay someone to judge you, you murderer of my friend Billy, and bring justice. But apart from that, the fact is that you still claim and lie today that you shot your supposed best friend in self-defence because he was a multiple horrible murderer and as a 'lawman' you were compelled to kill him because he pointed his gun at you, Garret, and supposedly wanted to shoot you. But Billy would never have done that, because he was not a murderer. Thus, with this vile lie, you, Garret, believed that his murder would not look like a ruthless and cold-blooded act, which it was, as I observed for myself. You, Garret, years before the murder of my friend Billy, whose name was William Henry McCarty, spread outrageous false accusations against him, accusing him of multiple murders, which he was never guilty of, but which you, Garret, actually committed yourself. This led to further legends about the number of alleged murders around him, which you, Garret, have raised to a total of 21, and Billy is therefore supposed to have killed so many human beings, which he never did. But how malicious and brazen you are, Garrett, and how you spread these and other lies and untruths about Billy and imputed wicked monstrosities to him and thereby destroyed his young life, is also shown by the lies that have been spread and written about him since his murder by you. Also that Billy was born on 23 November 1859 is nothing but a lie, for

he was born on 24 December 1862, as his mother once told me in person. The 23rd of November 1859, however, was only chosen by you, Garret, because Billy would then already have been 21 years old at the time of his murder and otherwise it would have become known that you had shot an 18-year-old and that you, Garret, had known this.

Again I say that Billy, to whom you, Garret, yourself gave the name 'Billy the Kid' early on, was not a murderer, but nevertheless he died by your assassin's bullet because you, Garret, had wanted to kill him for years out of hatred and jealousy and were looking for a way to be able to do so with impunity. But that you, Garret, betrayed yourself and convicted yourself of lying, namely that you knew that Billy was still a boy when you, Garret, called him 'Billy the Kid', is something that the stupid people have unfortunately not understood. And it must also be clarified that I was also present as a witness in the saloon when Billy defended himself in self-defence and shot the blacksmith named Frank Cahill, who then died.

Billy had to defend himself and shoot him in self-defence because otherwise he would have been killed himself. And I can testify to that because I was also present in the saloon and saw everything when it happened. And all the murders that have been blamed on Billy during his life by you, Garret, who, contrary to him, are a conscienceless and depraved killer and bounty hunter, he never committed a murder. And though I am an outlaw, Billy was not even when he ran with our gangs. He was a good human being and my only real friend, which is why I'm going to kill you, Garret, as his killer one day like this, or shoot you, Garret, down, or if necessary, if I cannot do it, have you, Garret, killed like you did Billy. And I will do that, even though I may have to wait years to find the opportunity. That, Garret, I swear to you, I, Jesse Evans, who will kill you or have you killed by others.

**Billy:**

This is really all sorts of things, and Sfath never told me about this, but it is all very instructive, and it contradicts all the myths and legends and reveals a completely different human being 'Billy the Kid' and also a completely different story than has been told and written for some 150 years. On the one hand, your father Sfath told me all kinds of things that he himself had experienced in the past, just as 'Billy the Kid' made a few things clear to me during my journey through his past, because even as a boy I was interested in who he really was, precisely because Sfath told me that I would once be compared to Billy and then be named after him in Persia, which is what actually happened. But perhaps I should say something about the story of 'Billy the Kid', what really happened in those days in the so-called 'Wild West' with regard to gunslingers and gunfights, and in a completely different way than has always been misrepresented in Western films and gives a completely false picture. That will also take some time to do, if you are not in a hurry, Ptaah?

**Ptaah:**

240. That is not the case, and on the other hand, I will be happy to listen and probably learn a few things in the process, because I myself have had little exposure to the 'wild' days and events in the American West.

241. However, I would now like to suggest to Bernadette that she include in your biography the circumstances of how your surname 'Billy' came about, as well as a page-perfect overall image of 'Billy the Kid', which was created in 1879 as a ferrotype, which was a common direct-positive process in the 19th century to produce a photograph, the only one that could be made by a photographer at the time, and which is still distributed page-perfect today.

242. I would also like to have a portrait of him when he was 15 years old and you were able to meet him together with my father Sfath in the past, which was taken 2 years earlier in the spring of 1877 but was not distributed.

243. I will let you find this largely unknown picture of him, after which you only have to copy it and give it to Bernadette.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

### **Semjase:**

443. Now pay attention far out there.

444. That is a black hole in the universe.

445. A black hole in the universe is very dangerous.

446. Such a black hole is a gigantic gravitational pull of immense proportions in empty space.

447. The formation of such a 'hole' in empty space is very easy to explain:

448. Somewhere, for example, there is a sun which suddenly collapses due to violent internal processes.

449. All external and also system-wide mass falls inwards, into the centre, where it is compressed with unimaginable Gewalt.

450. The result is that the mass of matter becomes so dense that a single thimbleful of this material suddenly weighs many thousands of tons.

451. Even an elephant would not be able to carry a single tiny speck of dust.

452. The space of the collapsed masses can no longer be filled by the already empty space, so a vacuum within a vacuum is created.

453. The mass that is concentrated in itself, however, pulls everything into itself that enters the area of attraction of the 'hole' or strays into it.

454. As a result, the mass continues to grow and become larger.

455. Such a 'hole' can also be created artificially.

456. This was also the case in this destroyed system.

457. But before the process had reached its climax, the first worlds already fell into the 'hole' that was becoming.

458. Thus only the first were destroyed in their structure and form, while those following the first were able to retain their outer form.

459. Thus the process of 'hole-formation' was stopped short of its climax, and only the gigantic and powerful attraction of the whole mass was able to pull the remaining planets and stars into itself.

### **Billy:**

... Ptaah made a remark to me that there are not only black holes in space, which pull all matter and all light, etc. into themselves, but that there is also the opposite, that which pushes and hurls away everything that comes within its range by tremendous force. Can you tell me what you call this phenomenon and whether it appears frequently or only sporadically in the vast regions of space?

### **Quetzal:**

15. With what Ptaah explained to you and with what you have addressed, it is all correct.

16. It concerns a closed space-arch, which is similar to a sphere, and it develops tremendous repulsive forces in itself, which act outwardly from the arch and which reject and repel everything that lies within its range by unimaginable force.

17. The repulsive force-swinging waves reach out very far into free space, often over billions of kilometres away, whereby their power is reduced.

18. This means that the repulsive force of the space-arch becomes correspondingly stronger.

19. The ratio can be estimated with a black hole because the same laws apply to such, but only in reverse form.

### **Billy:**

So you call the whole thing space-arch.

**Quetzal:**

20. That is of correctness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_218](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_218)

**Billy:**

... Now, once again a question that relates to the 'black hole' phenomenon. Our astronomical science still is not clear as to whether black holes actually exist.

**Quetzal:**

...

65. In every galaxy, a black hole exists at its centre.

*{Note: The above sentence is corrected in Contact Report 555:80 to read:*

*In every galaxy there is a black hole in its centre, also in the Milky Way.}*

66. But there are still 'black holes' that have their existence in free space, which are stationary, so to speak, while others wander through free space, as this is also the case with regard to 'black clouds', i.e. dark clouds of matter, which are simply called dark clouds by the earthly scientists of astronomy.

67. The so-called 'black holes' actually have nothing to do with a hole, for in truth, these concern very coarse-material formations of matter of enormous sizes, which originally result from giant collapsed suns, as well as partially from collapsed galaxies.

68. Such events likewise occur over and over again, at the present time and also in the future, somewhere in the far reaches of the universal matter belt, which is erroneously regarded and designated as the actual and entire Universe by the earthly scientists of astronomy; although, this consists of six other belts, so therefore, there are seven.

69. But back to black holes:

70. These developed, i.e. resulted, from the collapsing of suns of immense sizes as well as from the collapsing of galaxies, in which a black hole was already present, however.

71. Through a collapsing, the entire mass of the collapsing sun or galaxy is so tremendously strongly pressed together, i.e. compressed, that a small quantity of only 1 cubic centimeter of matter weighs several tons.

72. And so, this compressed matter, of course, also generates a powerful gravitational field, by which tremendous masses of matter are attracted and drawn into the 'black hole', i.e. into the compression-body, by what means this slowly but steadily grows and becomes larger.

73. This growing, of course, also means that the gravitational field continues to become stronger and further-reaching.

74. In your galaxy, which you call the Milky Way, the gravitational field extends far beyond 100,000 light-years in diameter.

75. From this, it can also be recognised that a galaxy first emerges from an existing 'black hole'.

76. Through its gravitational field, it draws, i.e. tears, very far-off nebulae, gases, dust particles, suns, and planets, as well as meteors, comets, and asteroids, etc. into its spell, and then, everything within many light-years of distance begins to rotate around this 'black hole', from which a galaxy is ultimately formed, whose entire mass rotates at tremendous speed – in a bar-shaped, spiral-shaped, or any other form – around the centre, even around the 'black hole'.

77. During this process, it naturally happens that through the compressed core, i.e. through the 'black hole', the torn-in matter gradually makes the core more and more powerful, and ultimately, it swallows the entire galaxy, which will also happen some day with the Milky Way.

78. Such a process, however, takes hundreds of millions of years and often even billions of years.

79. That is, my friend, what I may explain.

**Billy:**

That is more than I expected. But you can tell me what happens later, then, with a 'black hole'. Somehow, it will, indeed, convert back into something, right?

**Quetzal:**

80. That is of correctness.

81. Once a critical mass of a 'black hole' is reached, it starts to heat up in a resulting internal atomic fire to such an extent that from this, an enormous solar structure develops, which then separates as an enormous flow of matter and explodes, from which new structures, gases, and nebulae, etc. develop again, which ultimately enter into the gravitational field of a 'black hole' again, from which a new galaxy then develops.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_221](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_221)

**Quetzal:**

3. The Sun also determines a part of the natural weather and climate happenings of the Earth, and also not in the least the purely cosmic influences as well as those of the galactic central sun and the so-called central black hole of the galaxy, which is named Milky Way by the Earth-humans.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_223](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_223)

**Billy:**

... I would like to come to speak again on the black hole of our Milky Way, of which we spoke – if I remember correctly – on the 30th of May, 1987. By its attractive force, we do not simply fly with our SOL system uncontrollably out into space but rather are somehow still held within the Milky Way. There are, indeed, black holes in every galaxy, as you explained, which Semjase and Ptaah already said, but in addition to these, there are still the 'black wanderers', as you call those kinds of black holes that drift through the cosmos. Ptaah also said that in this regard, there would be two types, precisely the black holes that drift wildly through the Universe and then the others that are galaxy-bound and, thus, draw a certain course in or through a galaxy and its surroundings. And all black holes have an attractive force that depends on size and that reaches up to hundreds or even millions of light-years away. And here, I would now like to ask if also with or in our galaxy, such a 'wandering black hole' exists, a 'galaxy-wandering black hole', so to speak, if I may name this thing in such a way?

**Quetzal:**

14. That is a good designation, which I will include in my vocabulary.

15. Yes, there actually is such a 'black wanderer' or 'wandering black hole' in the realm of your galaxy.

16. Nevertheless, it is a smaller structure than what the actual central black hole of the Milky Way is.

17. But still, it is very remarkable and draws an extensive course through the galaxy, and to be sure, at around 6,400 light-years of distance from the actual center of the Milky Way.

18. In addition to this 'black wanderer', there are still some other wandering black holes in the nearer and further surroundings of the galaxy, one of which, from time to time, also exerts a determining influence on the planet Venus of the SOL system.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_224](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_224)

**Billy:**

... Semjase once said that there are sometimes very powerful convulsions in the Universe that are released by black holes. What explanation lies behind this?

**Quetzal:**

36. It concerns space-time convulsions, which we also call space-time quakes.

37. These occur when two black holes collide and merge with one another.

**Billy:**

You mean that when two black holes collide and merge with one another, then structural quakes will result in the levels of space and time or even structural convulsions, if I understand that correctly?

**Quetzal:**

38. That is of correctness.

**Billy:**

On my Great Journey, I was with Ptaah and Semjase in a galaxy about 10 million light-years away from the Earth, which was named to me as Centaurus A. In addition, if I remember correctly, this should be the next active galaxy from the SOL system. In its center is a tremendously massive black hole, about which I have, unfortunately, forgotten what Ptaah explained, in terms of the solar masses that exist in this structure, whereby solar masses are calculated in accordance with our SOL. Do you know anything about this?

**Quetzal:**

39. That falls into my knowledge.

40. The center of the GALAXY Centaurus A, as it will be designated in earthly astronomy, actually consists of a super-massive black hole, which has a size or attractive force of 1.35 billion (1,350,000,000) solar masses.

**Billy:**

Then the following: Ptaah explained a few things to me about the so-called dumbbell sun systems, dumbbell galaxies, dumbbell planetary systems, and dumbbell black holes – cosmic structures, etc. that are so close together that they mutually exchange energies and allow their forces to work against each other. During Ptaah's explanations, I forgot to ask if these structures arise in each case together or individually and then simply approach each other over time, in order then, sooner or later, to collide into one another or rush into each other and merge or even fuse, as you say.

**Quetzal:**

41. Both possibilities exist.

**Billy:**

Good. Ptaah said that every black hole is constituted in accordance with a galaxy, which probably means that a black hole is given in accordance with the size of the galaxy. Thus, a small galaxy would have a smaller black hole, and a larger galaxy would have a larger one.

**Quetzal:**

42. That is of correctness.

43. The mightier a galaxy is, the more massive and more extensive is the black hole.

44. Black holes – even the non-galactic ones – do not arise from scratch, however, because they only grow and develop together with the surrounding matter, so in one case, together with the galaxy, and in the other case, when rogue solar structures collapse and then move through the cosmos as wandering black holes, if I may so explain it.

**Billy:**

You may, of course. The center of the black hole of our Milky Way, also according to Ptaah's explanation, is located about 35,000 light-years away from the SOL system in the constellation of Sagittarius, while we are located with our solar system far outside in the so-called Orion spiral arm. Nevertheless, we are not entirely outside of this because until the very outside, even to the last gases of our galaxy, there is still a whole series of light-years, which must be calculated at around 20,000, but this is not known to our astronomical scientists. Overall, our Milky Way is, at the greatest distance, about 110,000 light-years in diameter, while our scientists, however, only speak of about 60,000 light-years. But now to this: to my knowledge, the Earth rushes at a speed of 28.8 kilometres per second around the Sun; however, the innermost stars in our Milky Way, which orbit at a far distance around the black hole, must accordingly have a higher speed, right? The Earth is, indeed, a small planet and revolves around our relatively small sun at a great distance of about 150 million kilometres.

**Quetzal:**

45. Your remarks are of correctness.

46. And to your question, I would like to say the following:

47. The innermost stars of your galaxy, the Milky Way, are orbiting the black hole at very high speed, which steadily increases, the closer the stars approach the black hole.

48. The inner suns and gases, etc., which are inclined toward the black hole, travel at far more than 1,000 kilometres per second, and these, when they enter the innermost region, still double and triple their speed.

**Billy:**

And the black hole of our Milky Way is approximately how many solar masses? And is the center sort of loose or compact and, thus, massive?

**Quetzal:**

49. It is a compact and, thus, massive center, which has an attractive force of around 3.41 million suns.

**Billy:**

And, will each sun one day become a black hole?

**Quetzal:**

50. Normally, every massive star turns into a black hole at the end of its existence.

51. Normally; for there are still other possibilities, like that a star or a sun explodes in such a manner that a complete radiation, a gasification, or a fragmentation takes place, whereby all matter is ejected into space.

52. But this fact will still remain hidden from the scientists of the Earth for a long time.

**Billy:**

It is also likely that the magnetic bands of the black holes, in accordance with their enormosity, rush out up to several million light-years into space, as even with certain black holes' suction arms that fish several light-years through space and tear matter into themselves, and indeed, even loose surface material of planets, as this happened with Venus via the spiral arm of the wandering black hole that moved through M87? And how does it stand, actually, with the black hole that rushes through the region at about six to seven thousand light-years away from our SOL System, or more precisely, outside of this in the outer spiral area? This is, indeed, a wanderer that arose from an enormous collapsed sun. Did this wanderer arise in our galaxy or outside of it? This probably has nothing to do with the other black hole that cruises around within the Milky Way, about 6,000 light-years away from the black hole of the center of the galaxy.

**Quetzal:**

53. Before these insights become won, a very long time should still pass.

54. The black hole that moves as a wanderer through space, far beyond your SOL system at about 6,000 light-years of distance, does actually come from a large star formation of your galaxy and, thus, is not a foreign object from a foreign galaxy.

**Billy:**

Still another question: Can the tremendous speeds actually be measured from our Earth, which are generated by black holes in the innermost, inner, and outer rotations? Is or will this be possible for the earthly astrophysical scientists?

**Quetzal:**

55. Certainly.

56. Especially in the coming time, they will gain great experiences with this and will win very many new insights.

**Billy:**

... If I remember correctly, you told me some time ago that there are different so-called black holes, and these would vary from small to enormous. I talked with a visitor about the black hole of our galaxy and was then asked how big the actual core of the black hole of our galaxy, i.e. our Milky Way, is. This one specifically asked about the actual core and not about the total extent or total size. So I gave the answer, which I had recalled in accordance with your explanation, that the diameter amounts to 17 light hours. One told me that this probably had to be a mistake because black holes, if these should actually exist, would have to be much bigger and would comprise light-years. But the black hole of our galaxy, as you said, comprises only 17 light hours in the core, while only the outer and radiating area is to be measured in light-years.

**Quetzal:**

22. Your answer was of correctness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_230](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_230)

**Billy:**

Then a question regarding the black holes: On my Great Journey Ptaah made me watch a huge and fantastic structure. It was about two black holes orbiting each other with tremendous speed. The whole thing looked like two water strudels, each of which while self-rotating also rotated with each other and already merged into each other. I explained to Ptaah that it would certainly be understandable if I named the structure twin-black holes that eat each other up. He commented that this hit the nail on the head. Later he took me to an area where I could observe another phenomenon of a similar kind, except that the structure looked like a triangle because it consisted of three black holes. Both phenomena, according to Ptaah, would be rare, but given. The question on that is whether the earthly astronomy scientists already know such structures? But how does a black hole actually develop unless there is first an explosion of a sun and only then everything collapses, which of course also occurs? Sfath also told me that even an outer space nebula might turn into a black hole.

**Quetzal:**

750. To your first question:

751. No, that is not the case, and it will probably take until the third millennium before they will discover such objects.

752. The normal formation of a black hole occurs when a sun turns around itself faster and faster until it collapses due to its own gravity.

753. In the process, it drags all the matter of its environment into it and thereby increases its gravitational pull to such an extent that even the photons, that is, the light, disappear into the mass.

754. Likewise, this happens when nebulae are compressed by an increasing rotation in such a way that they form a mass with a gravitational force.

**Billy:**

Then everything has an effect like a huge vacuum cleaner that swallows everything that lands in its area of attraction.

**Quetzal:**

755. That is a good comparison.

...

**Billy:**

... On my Great Journey, Ptaah explained to me that some 500 million years ago, in or near our Sol-system, a tremendous gamma-ray burst occurred, killing and extinguishing at least two-thirds of all life forms on Earth in the air, on land and in the water. In three to five seconds, such a flash is supposed to generate and radiate as much energy as our sun would develop in around 5 thousand million years. My question now on this is whether you can explain to me what triggers such gamma bursts that are supposed to be rare in and of themselves? ...

...

**Quetzal:**

802. And with regard to the formation of the gamma-ray bursts, it has to be explained that they are caused by gigantic discharges when black holes explode.

**Billy:**

At the same time, there are of course also wandering black holes, such as the one that drifted around 500,000 years ago to the Sol-system and then apparently exploded. It must have been like that, if I interpret your words well. Already Sfath spoke of wandering black holes, but also Ptaah. ...

**Quetzal:**

...

804. And what you said in the context of the gamma-ray burst is correct; at that time, it emerged from a wandering black hole.

805. If a black hole in the center of a galaxy detonates due to a huge discharge, the whole galaxy usually also explodes in a gigantic gamma-ray burst.

**Billy:**

... we have often talked about black holes. Someone asked me about them again. To my knowledge and in accordance with your explanations, it is the case that black holes draw in all kinds of matter that are attainable for them, along with tremendous amounts of information. Nevertheless, all the matter and information can't be completely imprisoned in a black hole but will be partially ejected again, from which new stars, etc. then develop. And if I remember correctly, black holes eventually explode again, from which then – through the tremendous forces, energies, and masses of matter – new galaxies originate. You also said, when I asked about it once, that other dimensions couldn't be penetrated and time traveling couldn't be carried out through black holes. Is this right as such?

**Ptaah:**

301. Yes, your explanation is correct.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_241](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_241)

**Billy:**

... Concerning your statements about the planet racing behind the Sun at high speed. I ...

**Ptaah:**

21. Your question refers to the planet that is not visible from Earth because it travels around the Sun at such high speed that it always remains hidden behind the Sun?

22. What do you want to know about it?

**Billy:**

There is a lack of clarity about the enormous speed. It is usually the case that the further a planet is from the Sun, the slower it orbits around the Sun. Why is that not the case with this planet? Why is it much faster than usual, and what is its name?

**Ptaah:**

23. This planet, in terms of its enormous speed, is indeed a phenomenon whose secret we were able to fathom only a little over 76 years ago.

24. Once again we had to realise that the wandering planet 'Destroyer' had also brought its dangerous forces into play on this planet.

25. The planet KATHEIN, as it is called in our records, hidden behind the Sun, was touched by the SOL-system at the tenth to last passage of the Destroyer through the SOL-system and torn into its gravitational force field, but then broke out of the force field again and maintained its almost normal orbit around the Sun, but at an enormously increased speed, while the destroyer continued its pre-drawn orbit and broke into the solar system, causing destruction or changes in many places.

26. Since then, the planet Kathein itself has been orbiting the Sun in the form and at abnormally high speed mentioned above, but slowly moving away from the Solar System and entering the attraction area of a wandering spiral arm of a black hole that will sweep the planet with it later this year.

27. It is the same spiral arm that also took the sand and dust accumulations of the planet Venus.

...

**Billy:**

And the spiral arm of the black hole, will it be even more effective in our solar system?

**Ptaah:**

31. No, because if there are not unpredictable changes, then the spiral arm collapses with the torn path of the planet Kathein and again becomes one with the hollow funnel of the dark hole or even the black hole, as the Earth-humans call these structures.

32. Each black hole is usually a funnel-shaped structure of rotating form, which has wandering spiral arms, which often extend very far into free space and even have distances in light-years calculated.

33. In rare cases, we ourselves have measured such matter-rippers, as we call these spiral arms of the black holes, in lengths of up to 8.7 light-years.

...

**Billy:**

Well, then it would be interesting and perhaps even important to know where the black hole is or how far away it is from our SOL-system. They once gave me approximate information about it, but I do not know if it really applies. From an exact specification it would then be possible to calculate the length of the spiral arm that has afflicted Venus and that will take the planet Kathein with it.

**Ptaah:**

185. This black hole is located in the direction of the structure that you call M 87 and that is about 5.4 light-years away from the planet Kathein.

**Billy:**

And the spiral arm, it should be a bit longer, because it corresponds to an arc, right?

**Ptaah:**

186. Your assumption is correct, but the length of the spiral arm is only about one light year longer than the distance to the black hole.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_250](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_250)

**Billy:**

... It has to be said that the black holes also explode again when they are compressed enough, from which new galaxies, nebulae, stars and planets arise. These black holes are gigantically large in relation to the original 'Big Bang' mass, because in the Big Bang the total mass of the explosion site was not larger than a flea, as explained by Genesis, while a black hole in compressed form can have entire planetary or solar dimensions. ...

**Billy:**

There comes a time when, with the weakening of the Sun's nuclear fusions, enormous changes will take place in the SOL system. Not only will the entire gravitational field be out of control and change, but large scale climate change will also be the order of the day. This is spurring scientists on to peak performance, because they want to counteract the negative effects of the sun, which, in contrast to erroneous scientific assumptions, appear much earlier over many millennia than previously assumed. Only now it is recognized correctly that the sun is a dying star and thus the setting of the SOL system is already determined, even if the sun will continue

to exist still approximately 4.1 billion (4,100,000,000) years, however then already as dead star, which is swallowed then after this time by a black hole and is destroyed. So the scientists begin to perform at their best – and find the miscalculations underlying the pi number. By correcting and now correctly calculating the pi number, the scientists and the incredibly sophisticated technology will be able to harness unimaginable energies for Earth, by making it possible for them to derive energies from black holes in the wide area of the Milky Way and make them usable for Earth. At this time, however, scientists will still not be able to reach the centre of our galaxy to tap into the black hole there. However, this will not be necessary for the time being, because the surrounding objects for energy generation are completely sufficient to serve Earth. This new energy production as well as the kind of the energy itself, make it possible from now on for the terrestrial human being to develop new space travel forms, in whose consequence and extension also that travel and transport factor becomes reality, which in the year 1995 and all time before as well as still long time into the future is called fantasy and impossible i.e. the time-travel. This invention, in turn, enables man to travel into the past and the future, as well as into the vastness of the universe, which was previously impossible. In this consequence it naturally cannot be missing that new human life forms are discovered, extraterrestrials, from which Earth-humans will learn very much and unimagined and which are around uncommonly much more intelligent than the humans of Earth themselves. ...

**Billy:**

And the universe adjacent to our DERN-universe, what form is that – could that already be fathomed? A channel had to be created through it, which is probably called a wormhole here. In any case, it must be something that falls within this framework.

**Florena:**

25. The adjacent universe, which we have not yet named, as well as the one where Ptaah is not located, is a higher universe, a central universe, which we cannot travel to.

26. Since it is dimensioned differently in its evolution than our DERN-universe and its dimensions, we are only able to create an energy tunnel through it in order to reach the other side of the universe where Ptaah is located.

27. So what you call channel, we call energy tunnel.

**Billy:**

Ptaah is over there with his giant room – and it must take enormous masses of energy to create this tunnel and maintain it – and how do you create this energy?

**Florena:**

28. That is correct.

29. Ptaah is in the alien universe with his wide-bodied flying machine.

30. The energy for the creation of the energy tunnel and its maintenance we get from a 'black hole', as you call it.

31. Other sources would be far too small in every way to generate the necessary energy.

**Billy:**

Could you make a comparison?

**Florena:**

32. I am not familiar with this field, but I know that the energies needed per second include several times the mass of energy, as you call it, that a sun like the one in your system releases in one second.

**Billy:**

As a layman in physics, I am afraid this is a closed book. But it gives me the notion that an enormous mass of energy is needed, which we on Earth are probably not yet capable of producing by any means, right?

**Florena:**

33. That is absolutely correct.

34. Such enormous energies cannot be created by pure technical means, as they are available to terrestrial human beings or even to us.

35. In fact, gigantic cosmic objects are required for this purpose, which must also be inexhaustible in their energy supply, as is only the case with a 'black hole'.

**Billy:**

Can any kind of 'black hole' be used for this purpose, i.e. a stationary or a moving one?

**Florena:**

36. In principle the energies can be used by everyone, but for the specific purpose of the energy tunnel only the energies of a stationary 'black hole' can be used.

37. In the case of our energy tunnel, however, we do not use a simple 'black hole' to generate energy, but a twin structure, by which I mean two similar 'black holes' that are close to each other and allow their energies to flow into each other.

**Billy:**

Interesting; I have never heard of that. How far apart are such 'twin black holes' from each other that they can still interact with their energies and still not 'eat' each other and therefore not merge, if I may put it that way?

**Florena:**

38. Your description is good, as is your assumption that a certain distance between the objects is necessary, which results from their power.

39. To be calculated are the distances in a larger number of light-years.

40. The gravitational forces of the 'black holes' alone extend over hundreds, thousands or even millions of light-years, depending on their size.

41. The type of black hole is also important.

**Billy:**

There are different kinds of black holes, and they have different kinds of effects, as Quetzal once explained to me.

**Florena:**

42. That is correct.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_471](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_471)

**Billy:**

Can black holes also form in dwarf galaxies, or is this only true for large galaxies?

**Ptaah:**

209. They can also occur in small galaxies and dwarf galaxies, as well as in free space, where black holes have been formed since the formation of the matter belt.

**Billy:**

Then black holes are not necessarily dependent on galaxies to form?

**Ptaah:**

210. No, because black holes can also form in free space due to very specific circumstances.

**Billy:**

And what are these circumstances?

**Ptaah:**

211. I am not allowed to talk openly about that, because I have to leave the research of these things to earthly scientists.

212. For them, it must be enough to know that black holes also originate in free world-dream.

**Billy:**

And so this is only possible in the matter belt, which our scientists mistakenly see as the universe, because they don't know that the matter belt is only one of seven belts, while the other six contain no coarse matter.

**Ptaah:**

213. Your assumption is true that black holes can only form in the matter belt, because only in the matter belt are the necessary conditions for their formation.

214. In the other matter-less universe belts the formation of black holes is not possible.

**Billy:**

Aha, then the case is clear; therefore, certain physical factors are necessary for this, such as vibrations or radiations, dark matter and fine matter, which compress and thus become so dense that they become an enormously heavy mass and develop a tremendous gravity and thus an attraction of gigantic strength.

**Ptaah:**

215. I am not allowed to give any information about that.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_537](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_537)

**Ptaah:**

31. Gamma ray flashes have an extremely destructive effect when they hit planets.

32. If, for example, the Earth were struck with the full energy of a gigantic flash of gamma radiation, the origin of which would be far less than 10 million light-years away, then the Earth's atmosphere as well as all electrical and electronic equipment would be completely destroyed and all life would be wiped out.

33. The phenomena of such high-energy flashes, as you call them, have various causes; for example, gamma-ray bursts are caused by a nuclear collapse of massive suns, but also by the fusion of two neutron stars, or by the fusion of a neutron star with a black hole in an extragalactic star system.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_576](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_576)

**Billy:**

... Then I would like to ask you about the giant black holes that exist in the universe, how do these giants come about, because I cannot imagine that they become so gigantic simply by swallowing up their own galaxy.

**Ptaah:**

88. That is also not the case.

89. As you know, the galaxies, many of which contain black holes, wander in the vastness of the universe, with many of them coming closer together over millions and billions of years, such as the Milky Way galaxy and the Andromeda galaxy.

90. Both galaxies have large black holes, which actually do not correspond to holes, but are enormously massive black formations around which an infinite number of shining stars circle, slowly being torn into the enormous black mass.

91. As galaxies approach each other, they orbit each other and are torn apart, and in the end the black holes also attract each other and merge, creating enormous giants of black holes.

92. However, these can also continue to take up matter when they collide with other galaxies, making them larger and larger.

**Billy:**

In our Milky Way centre, how big is the black hole?

**Ptaah:**

93. The black hole is about ten times larger than the Sun in the SOL system, and its mass is also millions of times larger than the Sun.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_586](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_586)

**Billy:**

So far I understand what you are saying, but I would be interested to know how it works and other connections, as well as whether 'dark matter' also exists in the 'black holes', which seems logical to me, although I also know, because you told me, that there are small and large 'black

holes' in the whole space of the universe, apart from the central 'black holes' at the centre of the galaxies.

**Ptaah:**

110. I am not allowed to explain further about 'dark matter', but with regard to 'black holes', I can say once again that they exist in almost incalculable numbers throughout the universe, and also in free space.

111. So there are large ones that comprise or contain millions of times the masses of the sun, while others are small and almost puny, as you once said, because they do not cover even one cubic metre.

112. And, of course, 'black holes' also contain 'dark matter'.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_592](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_592)

**Billy:**

... Black holes are, after all, supermassive formations of matter; they are both so-called galactic central suns, as you call black holes as the centre of galaxies, but also drift through galaxies and even through free space. These formations are both small and large, or even gigantic, as I know from your explanations, but also from your father Sfath, as well as from Asket, Quetzal and Semjase, your daughter, because we have spoken about them on various occasions, officially or in private. Such black holes can have a weight several times or even millions of times heavier than our sun, which is said to have a quintillion of nine hundred and eighty-nine quadrillion tons, as our scientists say. What interests me today is what actually happens or can happen when two or three black holes collide, which is possible, for example, when such formations collide in a galaxy or drift through free space. I am also interested in what can happen when two galaxies, and therefore also two black holes, collide, as will happen when the Milky Way and the Andromeda galaxy collide, which will happen in about 3.7 billion years, as you say. A smaller galaxy, M 33 as you once called it, is also supposed to be dragged into this collision. But what I am interested in is what happens when two galaxies with black holes, or so-called floating black holes, collide.

**Ptaah:**

...

77. As far as black holes are concerned, which spin on their own as they drift through a galaxy or through space, it is quite possible that two, or very rarely even three, of such formations approach each other, collide and merge.

78. This always produces enormous masses of energy, through which gravitational oscillations are created, which move through the galaxies and through world space at the speed of light.

79. If such events occur in galaxies, the gravitational waves may be able to cause a lot of trouble.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_643](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_643)

**Billy:**

What I've wanted to ask you for a long time refers to what your father Sfath explained to me, that earthquakes and volcanic eruptions influence the gravitational waves of Earth or change them in a certain way, whereby the gravitational vibrations can be measured and registered. Such and other gravitational oscillations, Sfath explained, would arise on the one hand on all active planets, but also when planets or two or even three black holes, but also suns or galaxies collide. He also explained that such events produce very strong gravitational oscillations which propagate at very high speed throughout the universe. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_645](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_645)

**Billy:**

... Back in 1947 your father spoke of 'dark giant formations' and 'dark giant formations', which I must understand as 'black holes' today.

**Ptaah:**

8. That's right, of course.

**Billy:**

As far as I know, 'black hole' is a term that attracted the attention of Earth's people about 50 years ago. Anyway, I may remember that I first heard or read this term around 1970.

**Ptaah:**

39. This is indeed the case, because in 1967 a man named John Archibald Wheeler made this term 'black hole' publicly known, but it is not due to his idea as its origin.

40. It must also be said that since then in astronomy research for 'black holes' many expressions have been coined and circulated, although the term 'black hole' appeared in modern times for the first time in 1964 in a report by science journalist Ann Ewing, in relation to a symposium of the American Association for the Advancement of Science on the various final stages of stars.

41. The author cited a Hong-Yee Chiu as the organizer, as did an Alastair Cameron, Charles Misner, Volker Weidemann and John Beverly Oke, who appeared as speakers, but the actual originator of the term 'black hole' was not openly mentioned, hence the name of the inventor of the term is unclear.

42. The phenomenon of 'black holes' has been known since 1783, but as 'dark stars', by a British naturalist named John Michell, who speculated on such 'dark stars' and assumed that their gravitation must be so powerful that they were able to trap the light.

43. He assumed that in the outer space of 'dark stars' sufficiently compact mass or energy accumulations form around their space area, into which matter as well as visible light are only torn, but cannot get out again.

**Billy:**

Your father Sfath said – I remember that, and you read that to me – that as a rule around 'black holes' there is radiant light, namely from suns and planets etc. which are attracted and begin to shine brightly up. So be it with our galactic central sun.

**Ptaah:**

44. That's right.

45. And light that gets close to a 'black hole' or other massive object is deflected and bundled, making it much brighter than before.

46. A 'black hole' itself looks like a lens.

47. And it has to be said that apart from the actual 'black holes', which are visible through their activity in the form of the radiating outer image, there are also visible stars or suns, which circle around an invisible 'black hole', which repeatedly tears away matter from the star and sucks it into the 'black hole'.

48. This causes the solar structure to heat up – also because it is approaching the 'black hole' more and more – and emits X-rays.

49. Eventually, it is devoured by the black hole.

**Billy:**

I am aware of this, and I also know that our astronomy scientists call the resulting radiation the 'death cry of matter'.

**Ptaah:**

50. I'm familiar with that.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_660](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_660)

**Ptaah:**

198. The process of the formation of comets and planets in the DERN-universe is not finished, because it goes on unstoppable, therefore also in the present and until far future again and again new comets and planets, but also suns are formed.

199. In this, the entire cosmic processes play an important role in every respect, so ...

**Billy:**

Excuse me, also the black holes?

**Ptaah:**

200. Those are included in it, naturally.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_820](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_820)

**Billy:**

Then something else: With Sfath, far from Earth, I was able to observe once when a gamma-ray burst occurred very far away in the material belt. Sfath explained to me that something similar to the creation of the universe from the nihilo, i.e. the 'absolute nothing', was happening. Here, however, it was the case that matter accumulated to form an enormously powerful energy complex that 'swallowed up' countless suns and planets etc. and thus became ever more energetic and gigantic. The whole thing becomes a giant structure that stores more and more energy in itself, precisely by 'swallowing' suns and planets etc., until it is so overloaded that it explodes, which then produces a gamma flash. This lightning, however, was in its form nothing other than newly forming matter, from which new celestial bodies resp. suns and also planets etc. were created in the course of billions of years. These giant formations, he said at the time, would in future be called 'black holes' if they were discovered by 'stargazers'.

**Billy:**

But speaking of black entities: With Sfath I learned that these are superheavy super-rich energy-matter formations, which today are simply called black holes, although they are just the opposite, namely superheavy giant formations with a mass of millions of captured stars and planets, asteroids and comets, etc.

These black structures will usually form new galaxies in the distant future, as Sfath explained.

These gigantic formations, which are called black holes today.

Sfath let me see – it was probably 15,000 or 17,000 or so light-years from Earth – Omega-Centauri, where such a thing is and in whose area countless star formations are rapidly orbiting it.

He explained that a new galaxy would form from this in the distant future, as also happened with the Milky Way, which he also let me see with its black giant formation.

This, he said at the time, would one day merge with the Andromeda galaxy, because they would meet, in about 3.2 billion years, if I remember correctly.

**Billy:**

... Then I have here a GEO article from issue no. 4, from April 2005, which you should read. It is about the early astronomer Johannes Kepler and the former imperial court astronomer Tycho Brahe. If you still have time for it?

...

**Ptaah:**

23. I have finished reading, having only read the most important part.
24. What is written there regarding the murder of Tycho Brahe is actually true.
25. I am familiar with the events surrounding this man and Johannes Kepler, for these are also recorded in our annals with regard to scientific knowledge and the progress of the Earth-humans, as well as the fact that J. Kepler was a man to whom a human life meant nothing if he could make a profit from it.
26. According to your meaning, he was unscrupulous and egotistical, which is why, in order to appear great before the world, he sought a way to put himself in the light.
27. Dangerously ambitious and unscrupulous, he devised a plan to become a great astronomer.
28. The disgracefulness was based on the fact that he had Tycho Brahe poisoned by envious and hostile helpers and accomplices, whom he paid well, for a period of ten days, during which he was given two milk meals with a lethal dose of mercury, both of which he consumed without hesitation and unsuspectingly.
29. The second dose of mercury then brought him death half a day after the milk meal.
30. Shortly afterwards Johannes Kepler took possession of all Brahe's notes and calculations, which he had compiled in a large series of folios, in the observation books mentioned in the reading.

**Buddha / Siddhattha Gotama / Siddhartha Gautama**

**Billy:**

... Siddhattha Gotama, 'Buddha' is always represented as very obese, but to my knowledge, he was not so corpulent at all. Do you have some knowledge concerning this?

**Quetzal:**

18. Siddhattha Gotama was a man of normal stature, with a height of 170 centimetres and a weight of 67 kilograms.
19. All statues or visual representations concerning his figure and entire body are based on distortions, as this is also the case with regard to various interests of his teachings, which were not only misunderstood by his students, etc. but which consequently became misinterpreted and widespread.
20. This also applies to legends woven around him, which were invented by his followers to make more of him than he really was, namely a simple yet educated person, but who was not very informed of and not well-educated in the real spiritual interests and in the spiritual-creational laws and their relationships and their workings and who even misunderstood many of the facts of the teaching and also wrongly taught these as a result.

**Billy:**

... if nowadays a true Buddhism may be spoken of at all, because, even with this, very many things were distorted and indeed even in regard to the teaching of Gotama Buddha, consequently the real teaching was only taught, understood and lived by the prophet himself. True Buddhism knows neither force nor power, nor despotism or forms of un-freedom, of discord or of disharmony; yet what is taught and lived today – also with all other religions and sects – has nothing more, or not much more, to do with the actual teachings of the prophet Buddha because these were thoroughly distorted.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_654](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_654)

**Billy:**

*My expressions that in Earth religions Buddhism, Christianity and Islam only certain few parts are acceptable and correct refer only to values such as those given according to the ancient 'teaching of truth, teaching of the spirit, teaching of life' respectively 'doctrine of the mind' respectively 'teaching of the prophets of the primordial prophet Nokodemion'. In this respect, however, only few values are contained in the Buddhist, Christian and Islamic religious teachings, whereby these in no way trace back to these religions themselves, but to Nokodemion's teachings or 'Spiritual teachings'.*

**Ptaah:**

16. The Spiritual teaching has brought two old Lyrian, distant descendants from the 'emigration power' that came to Earth 13,500 years ago as 'emigrants' 2,891 Earth years ago to the eastern part of Earth, respectively to a larger group of Earth-humans who lived in a mountainous region of the country today called Burma respectively Myanmar (Note Billy: formerly Bama/Burma/Myanma).

17. This group, which comprised 309 female and male Earth-humans, formed a small order with an educational institution, which secretly lasted until the beginning of the 20th century.

18. This group was able to survive into the modern age through constant descendants, but various members migrated from the community, mainly to the areas of northern India at that time.

19. From 1814, however, the group began to slowly die out as a result of increasing deaths, and by 1850 the group had grown to 32 people of different ages.

20. So it has to be said repeatedly that nearly 2,900 years ago a small secret order with a small educational institution was founded in the former area of today's Burma, where the 'spiritual doctrine' was taught, whereby this order existed until 1917 nearly 2900 years.

21. From 1856 my father Sfath maintained contact with the senior leader of the order for about 50 years, whom he often visited and whom he also taught in Satipatthāna meditation.

22. The small order at that time still comprised four persons, of whom the leader of the order died in 1907, followed by the remaining three persons of the order, who were also very old, and thus the secret order came to an end.

23. The then instructed earthlings of the mentioned group, which initially comprised 309 persons, spread the teachings brought to them among their peers on the one hand, but on the other hand also by some leaving their homeland and going the way to the then Nepal respectively North India, where they also spread the learned, but with only little success.

24. Nevertheless, the 'spiritual doctrine' has also spread there partly among a group of interested people and has been preserved for about 530 years, whereby the followers of the doctrine called themselves 'Bodhi' for the sake of the doctrine and the change to the 'enlightened and awakened' human being, which means 'enlightened and awakened'.

25. The teaching was received and then also learned by Siddhattha Gotama resp. Siddhartha Gautama, but was not understood by him and transformed at his own discretion into a completely strange and unrealistic, false teaching, whereby he integrated various good values of the spiritual teaching into his fantasy teaching.

26. So it is to be understood that the values of the 'spiritual doctrine', which are partly listed in the Buddhism religion, do not refer to the well-known Buddhism, which was founded about six centuries before Jmmanuel (Chr.) by Siddhartha Gautama and spread worldwide as a teaching tradition and religion.

27. This teaching tradition and religion, however, are not much better than any other religion with its heresies and fantasies, because they are far from any reality and truth.

**Billy:**

So it is clear that what I have written about the good and positive in Buddhism does not mean the confused teaching of Siddhartha Gautama and not the well-known Buddhism itself, which has between 350 and 500 million followers worldwide and which is especially widespread in China, Bhutan, Japan, Cambodia, Laos, Mongolia, Myanmar, Sri Lanka, Korea, Thailand, Tibet and Vietnam. My remarks and explanations basically refer to 'Buddhism' (Enlightened, Awakened), which was taught to a larger group of people in the north of early Burma as 'the doctrine of truth, the doctrine of the spirit, the doctrine of life' or 'the teaching of the spirit' or 'the teaching of the prophets', and which is no longer widely taught today because there are no longer any followers of Buddhism.

**Ptaah:**

28. This corresponds to what has been given since 1917.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_754](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_754)

**Ptaah:**

152. I am particularly interested in what is important about Buddhism, of which my father wrote that it had been falsified in the same way as the teachings of the preachers, from which Christianity, Islam and Judaism have emerged through tremendous falsifications. ...

**Billy:**

... Buddhism as a present-day teaching emerged from the original teachings of Siddhartha Gautama, which he spread as 'The Teaching' or 'The Dharma', although his original teachings were of a different kind than those presented by present-day Buddhism. The original teaching was absolutely opposed to Hinduism, Islam, Christianity and Judaism, etc., just as it does not correspond to any theistic religion or theistic sect, and is therefore in no way oriented towards the centralisation of the worship of an omnipotent God. ...

In its original form the teaching was neither a faith, a religion nor a philosophy, let alone a sect, for in truth the primal teaching was a valuable guide which offered many human beings reliable ways of finding themselves, of controlling themselves in all conceivable things and of making true independent human beings of themselves, who could also help themselves, free themselves from evil situations in life and build themselves up. It was a primordial teaching that showed reliable ways by which willing human beings, if they followed the teaching, found inner and outer peace and did everything to free themselves from all outer misery through their own efforts and to become true human beings. So the teaching of Siddhartha Gautama at that time was also about – as today with the 'Teaching of Spirit' or 'Teaching of Truth, Teaching of Creation-energy, Teaching of Life', what the Pleiadian Cladena-Aikarina at the age of 11 called the 'Silent Revolution of Truth' – promoting and maturing a development of consciousness in human beings, so that they could build up and use their own true abilities and help themselves. This was the basis of the teachings of Siddhartha Gautama, called 'Buddha' by the people, whose life story, teachings and his work etc. were already completely falsified during his lifetime by antagonists, know-it-alls, misinterpretations and sect founders, in order to be falsified even further after his death, whereby splinterings from the original teaching also took place, which can be called Buddhist sects, because the basic teachings of Siddhartha Gautama have been changed and distorted to the point of hatred against fellow human beings and those of other faiths, resulting in persecution, expulsion, murder, manslaughter, massacre, destruction and war. ...

The real life and work of Siddhartha Gautama was effectively quite different from what is known today through completely false and slanderous 'traditions'. He led a life in which meditation played a very important role for him, through which he always gained peace and harmony, but many things were different from what has allegedly been handed down, because he explained and told many things in an absolutely different way than the falsified 'traditions' still present before and since his death. ...

Asked about certain alleged 'true traditions' that circulated in the 20th century, which were read to him, Siddhartha Gautama declared that much of it did not correspond to the truth, such as that for him from birth neither his life, wisdom and specialness had been prophesied, nor his family had held a royal position. His family was not royal, but merely a small noble family and his father a minor regent of the Shakya region. His own family consisted of his wife Yasodhara, a lowly noblewoman, his son Rahula, as well as four daughters named Hasita, Abhaya, Jnana and Gaurima, all of whom he loved and respected, although girls and women in his time were considered inferior and were treated as poor and worthless commodities. This, he said, corresponded to an abomination beyond compare and contradicted the entire sweeping beliefs of Hinduism which prevailed everywhere, which he could not get over, for he considered both human sexes equally valuable, though he rather respected the female a little more because she was the life-giving and life-sustaining one, without whom no life could be born and exist. Well, the fact is that the four daughters of Siddhartha Gautama were not and are not mentioned in any of the traditions. Siddhartha explained that they were not mentioned by the writers of the 'traditions' who wrote about him and his life, because young girls and women in his time were disregarded and not appreciated, but often abducted and held captive in 'veshavasa' (brothels) and sooner or later murdered. But as it was then in Nepal and in India, so it is also today, as I myself have witnessed in India and Nepal over a long period of time.

Siddhartha often left his family for days or weeks at a time and for 28 years wandered the countryside as an Asket, teaching the human beings, teaching them his method of meditation and how to find and understand the meaning of life, and also that no God would help them because there was no God, so that they would only have to help themselves and free themselves from all illnesses, suffering, strokes of fate and from all evil and misfortune. He had not been an ascetic for such a long time, had not left his family as has been falsely 'handed down', and according to his explanation he also did not use the teachings of other sages and experienced human beings, but only his own insights, experiences and personal experience, which he clearly and unambiguously expressed. This, as he also clearly stated that he only practised his own meditation and went his own way with regard to everything and anything and sought the truth of all things himself, evaluated it and gained in-depth knowledge and a far-reaching understanding of all things from it. He alone found and recognised the connections of all the necessary things of life and made himself a knower and a sage. This made him inwardly free of desires and the desire to be more than his fellow human beings. Therefore, it was also not convenient and embarrassed him when he was always met with great veneration and devotion by human beings from different social classes and when he was called a human being with great enlightenment. He often had to defend himself against this, as he sheepishly explained, but all his defensiveness never worked and he could not get rid of his reputation as 'Buddha', which was embarrassing to him and he would be grateful if he could get rid of this reputation. Furthermore, he had to constantly resist creating a large community to expand his teachings as a basis, because that was not in his mind. He certainly had a few faithful of both sexes who were constantly around him and who would look after many followers of his teaching, but he did not want to do anything further in this direction, but rather keep the whole thing as an open learning community, because otherwise a movement of believers (note: faith organisation or religion) would arise from it, which, however, did not correspond to his sense. (Note: Unfortunately, this could not be prevented, as was the case with Jmmanuel and Mohammed).

So Siddhartha did not found a religious community, as is being mendaciously claimed, because he gave his speeches openly and without a religious organisation to individual human beings or small groups, consequently he was able to win over people of different social classes in this way, from which something like a school of doctrinal tradition developed, which for many became a 'doctrine of life', as also results from the FIGU with the 'doctrine of truth, doctrine of Creation-energy, doctrine of life'. However, the whole thing aroused envy, enemies as well as evil adversaries already during his lifetime, who called him a liar and a fraud, falsified the

teaching, cursed Siddharta and used him as a conspiracy theory to make his teaching impossible. This, while advocates and know-it-alls also glorified his whole work and his personality during his lifetime and even more so after his death, or falsified his original teachings according to their own judgement and understanding, as the last example proves, or rather the falsified work of interpretation of lies, which today is spread worldwide beyond Siddharta and all truth facts and is foisted as a work of lies and slander on all Buddhists as the real original teachings of Buddha or Dharma.

In the course of time, the original teachings of Siddharta Gautama (note: Buddha) were completely changed and no longer correspond to the original teachings, because they were very strongly mixed with other religious and sectarian false teachings, customs and rites, etc., especially with those that were native to China, Tibet and Japan as religions and are still largely so today.

As far as the teachings of Siddharta are concerned, I must mention that they correspond to a way of life that has various principles, one of which clearly states that non-violence or ahimsa should prevail among all human beings. This non-violence was also originally prevalent in Hinduism and Jainism and was also included by Siddharta in his teachings. And he did this, as he explained – which was completely correct, and which is also fundamentally represented and taught by our FIGU with the 'Teaching of Truth, Teaching of Creation-energy, Teaching of Life' – because he saw how the human beings and all living beings were mistreated wickedly and violently by the rulers and the people against the rules of Hinduism and Jainism, and consequently also human beings were killed by all kinds of incidents. And this also happened with regard to many other living beings who were killed senselessly and only for pleasure, etc. And this was the reason for him to list in his teachings an ethical or between good and evil distinguishing action and behaviour, which was indispensable and to be followed in order to be a just and true human being. And in this important rule to be observed and also to be fulfilled by human beings – as Siddharta expressly emphasised, which I still remember well – it was also included that a very special attention and mindfulness was to be paid to all value attitudes in order to give satisfaction to the perception of responsibility, integrity as well as sustainability with regard to the necessary respect. This is the only way to ensure justice, transparency and the cooperative coexistence of human beings and, in particular, the bearing of joint responsibility for general group-related and public and social concerns and needs, etc. The whole thing is to be done in full. The whole thing is fully and inevitably important, because only through this can the functioning of all ecosystems, the planet, nature and all its living beings of all genera and species of fauna and flora be guaranteed. Only ethical action makes the functioning of the whole of all living things possible, but it requires compassion, attention and mindfulness, good moral discipline as well as inclination, participation, consideration and familiarity, esteem and respect for human beings, as well as for everything that exists.

The teaching of non-violence or Ahimsa, as it was interpreted and taught by Siddharta Gautama in his original teaching – but as it is also taught by us in the FIGU through the 'Teaching of Truth, Teaching of Creation-energy, Teaching of Life' – is geared towards the fact that no infliction of suffering or coercion, as well as no pain and no violence at all should take place against any human beings, neither against humans nor animals, animals or other living beings. Violence in the form of suffering, coercion and pain should also not be inflicted on human beings through punishments such as torture, chastisement or death, nor in the natural world of fauna and flora, as in hunting, catching fish, animals, animals and birds, etc., nor through the destruction, annihilation and extermination of fauna and flora life forms. ...

The original teachings of Siddharta Gautama are not only essentially different from today's Buddhism, but also from the great religions of Christianity, Islam, Hinduism and Judaism, as well as from all other small and larger god sects worldwide. But also today's still acceptable Buddhism, which still corresponds somewhat to the original teachings of Siddharta and neither to a religious doctrine nor to a sectarian doctrine, can still be halfway accepted, because it does

not correspond in any way to a doctrine of God, a worldview doctrine, a philosophical doctrine or any similar brainless belief-based doctrinal buildings. Consequently, the absolutely true original teaching, from which Buddhism arose, is in its effective origin – just as Siddharta created and taught it – not a matter of faith or belief, but a 'teaching of the correct way of life', 'teaching of self-knowledge', 'teaching of experience' and 'teaching of self-development', with the aim of mental evolution and the use of understanding, reason and correct mastery of life in every respect.

(Note: Siddharta Gautama was born in Nepal in Lumbini in 563 B.C. as a Hindu whose biological mother was Maya [note: who is called Gyutrulma in Tibet, but also Mayadevi and Mahamaya elsewhere] and biological father was the regent Shuddhodana Gautama. Siddharta himself was married to Yasodhara and had a son with her, whom they named Rahula. Siddharta Gautama died at the age of 80 years anno 483 B.C. at Kushinagar in India).

As Siddharta himself said – when he was 63 years old – already as a 14-year-old boy he recognised through his observations a tremendous amount of misery, such as, among many other things, that very many human beings in all areas suffered from various diseases as well as from loneliness or from terrible strokes of fate, lived in the most bitter poverty and starved, which all could only cope with with difficulty. He further said that he had also observed how, in contrast to this, the healthy, well-fed and wealthy rich, contrary to all humanity, exploited the common people, kept many human beings as serfs, mistreated them and were completely indifferent to all happenings, health problems, epidemic problems, hunger and the general unworthiness of life. The rich and otherwise wealthy were said to be very spoiled human beings, afflicted with discontent, hatred, envy or greed, as well as with vices, addictions and pleasure-seeking, and many were also said to be completely afflicted with ruthlessness and lack of conscience towards the common people, indulging and doing only the very best for themselves and bringing and spreading absolutely nothing but mischief to their fellow human beings.

What Siddharta told about this was indeed true and continued for a long time before minor improvements occurred, but only as a result of parts of the population following his teachings, which he had worked out in seven years and began to spread at the age of 21, after he had picked himself up by his own strength and use of intellect and reason and learned a great deal. His newly created teachings led to better living conditions for many human beings who became his followers, as he said, while others, however, who did not make an effort to follow his teachings, became more and more rotten and lived a miserable existence in slums.

Siddharta explained that he had learned to teach and control himself by immersing himself deeply in meditative thought, through which he had found the path to himself, which, as a result of being called 'Buddha' by his followers, he then called his teaching the 'Buddhist path'. In this way and through his meditation, he had been able to find himself and his way, to free himself from all suffering, as well as to work out and create his teaching, through which he had also been able to expand the possibility of also being able to show human beings the way to a better life in the same way, so that they too could recognise themselves and their own power and ability and find their way out of their suffering and lead a normal life again. This, at any rate, was his speech, according to which he also lived and led a modest life, also approaching his fellow human beings with sincere devotion, pleasing them, treating everyone equally and doing them good, without in any way judging them in terms of their religion, faith, appearance, social status, morality or behaviour, etc., or despising them or treating them differently from anyone else in their dealings.

The work and conduct of Siddharta Gautama led him to further knowledge of many things, as a result of which, according to ancient belief and word, as I have already mentioned, he was called 'Buddha' or 'the Enlightened One' by the people.

Siddharta Gautama also told that he taught the human beings in depth regarding many things, passed on his insights and experiences without asking for anything in return, and taught them his teachings so that they could educate themselves personally-individually, help themselves

and free themselves from their suffering and lead a life worth living. Gratefully, however, he received from his followers voluntarily and without demand everything he needed for his livelihood, although he did not need this because he always had enough to live on from home. That was around 2,500 years ago, from which – because Siddharta was called 'Buddha' by the people, as I have just said – 'Buddhism' arose, to which he himself did not contribute anything willingly, but unsuccessfully resisted it, as he explained. But what Siddharta said and explained about the allegedly 'unadulterated' traditions up to the modern times of the 20th century corresponds to nothing but lies, deceit and slander compared to all the known and alleged facts about his teachings and his life today. The greater part of all alleged 'traditions' correspond in truth to unparalleled untruths, which, as Siddharta himself expressed, correspond to an 'unpardonable shamefulness', just as Jmmanuel (Chr.) and Mohammed expressed themselves in a similar way about all that has been fabricated from their teachings by lies, falsifications, fraud, malice, misunderstanding and fanaticism, etc., and has led to a delusional religion of God. Siddharta Gautama was completely shocked when he learned what would result from his original teaching in the future of the 20th century, but after he had learned the truth and also the day of his death, he decided during the last 17 years of his life to stand up for his teaching even more and even more vehemently, in order to possibly be able to prevent something even more detrimental. And as it is with the human beings of the Earth, so it was also with Siddharta, for he did not want to accept what was coming and held on to his opinion that he could still change some or even everything for the good and positive through his increased and more powerful commitment to spreading his teaching. This, although he said frankly, after he had experienced the facts of the future, that he himself had experienced in his life and knew that already during his lifetime falsifications of his teaching had circulated and faith groups had arisen that spread his true teaching in a completely false, changed form and even teaching evil. Therefore, he could also understand that if in the future so-called 'true' traditions were to apply to him and his teachings in the most evil way, they would no longer be more falsified than all the worst delusions. ...

The true doctrine taught by Siddharta Gautama, as already explained, was not a theistic religion, in contrast to the great god- and god-delusionist organisations Hinduism, Islam, Christianity and Judaism, and consequently it is also in no way oriented towards a centralisation of the worship of an all-powerful God. This alone distinguished Siddharta's original teachings – from which Buddhism emerged – from the great religions of Christianity, Islam, Hinduism and Judaism, as well as from all other small and larger religions and god sects worldwide. The falsified Buddha teachings that are still circulating today, which Siddharta did not teach in the way that has been falsely handed down today, correspond neither to a religious teaching nor to a sectarian teaching, nor to a philosophical teaching or to any similar belief-based doctrines. The true original teaching in its effective origin – as Siddharta created and taught it – was not a matter of faith, as must be clearly stated and emphasised again and again, but a 'teaching of the correct way of life', 'teaching of self-awareness' and 'teaching of self-discovery', with the aim of the personal development of the cognitive abilities for the use of intellect, reason as well as self-knowledge and correct mastery of life in every correct relationship to life. ...

The essence of Siddharta Gautama's primordial teaching is to be summarised as profound thought work related to meditation in mindfulness and attention regarding the qualities of inner peace, as well as to harmony, righteousness and to respect for life, love, righteousness, being human and wisdom.

However, what Siddharta did not consider in his method of meditation, and also what has not been taught or its further values mentioned in any Buddhist meditation teachings or elsewhere in other foreign teachings since then, is the mother of all meditations, which is the main factor of all learning, namely the actual meditation basic factor. ...

## **Johannes von Buttlar**

[https://de.wikipedia.org/wiki/Johannes\\_von\\_Buttler](https://de.wikipedia.org/wiki/Johannes_von_Buttler)

**Billy:**

... I was asked for my opinion regarding the person and value of the writings of John of Buttlar. Can you give me a comprehensive or exhaustive answer in this regard, if you know this name at all?

**Ptaah:**

278. Of course, I can both give you information and answer your question, and I know the name and personality of Johannes von Buttlar.

279. With regard to his personality, it must be said that it far exceeds that of Negativem Erich von Däniken, for in addition to megalomania, pseudo-scientificness and autocracy, he also displays arrogance and many other negative aspects.

280. The value of his books is even less than that of Erich von Däniken, because overall they do not even reach a truth content of 0.6 percent, if purely scientifically founded material is ignored, although I speak only of effective material of effective scientists, of which all pseudo-scientists are excluded, who call themselves scientists of ufology or parapsychology and such nonsense.

281. Johannes von Buttlar himself has written a total of 18 books to date, the value of which, however, must by and large be rated less than the well-known trash literature of crime, Western, adventure, future and romance novels.

282. Buttlar does not even deserve the title of pseudoscientist, as Däniken can still concede, because his claims, which are close to nonsense, are based either on the wildest fantasy or on the pseudoscientific results of others.

**Billy:**

This is how I imagined it to be. But how long will it be before he reveals all his stupidity in public? That will probably be a long time coming.

**Ptaah:**

283. You shouldn't be so sure about that, because as a believing advocate and fantasist of the crop circle figures as the work of extraterrestrials and as PSI forces of the Earth etc. he will already suffer a defeat in the month of September, but this will not stop him from his absurd and morbidly stupid and misleading actions of spreading his fantasy and unfortunately will not change much among the believers of all PSI fantasies, sectarianism, lies and deception around extraterrestrial life-forms, spirits and demons and sectarian machinations.

**Billy:**

Why of all things in September?

**Ptaah:**

284. The same thing will happen in England as in northern Germany.

285. The fraud and deception with the crop circles will be revealed.

... Are there alien bases under Caluert or Caluest/Texas and under the mountains near Salzburg and in Lake Constance?

**Semjase:**

62. None of the three places mentioned.

**Billy:**

But it is said that extraterrestrials have a base there, especially under the mountains?

**Semjase:**

63. That is not so, however.

64. All stations on the Earth are known to us, there is absolutely no doubt about that, so it is a certainty when I explain to you that there are no extraterrestrial bases, etc. underneath the mountain.

**Quetzal:**

295. There are many irresponsible freeloaders who make big deals and immense profits with the UFO believers because they are cheated and financially exploited by the liars, swindlers and swindlers as well as charlatans.

296. This is how many people appear who knowingly and fraudulently claim to be in direct or telepathic contact with extraterrestrials, believing that the innocent are in full swindle.

297. On the other hand, your truthful contacts with us are vehemently denied by know-it-alls and opponents, envyers, autocrats, image addicts, sectarians, etc., and you are portrayed as a liar and a fraud, despite all the irrefutable evidence you can produce; evidence that no alleged contact person can produce.

298. But all this will intensify in the time to come, with the UFO believers running after all the contact swindlers without hesitation, courting them and going astray.

299. Increasingly many will claim through lies and deceit that they are in personal or telepathic contact with Semjase, with Ptaah, with me, or with others of our races, as well as with higher spirit-forms of our planes, in personal or telepathic as well as channeling contact.

300. But everything will only be lies, deceit and dizziness, because no human being on the Earth apart from you will be able to come into any kind of contact with us, just as we will only be able to come into contact with you, for which you know the reasons.

301. Nevertheless, in the next few years a contactee psychosis will spread across the Earth, as well as a true extraterrestrial delusion and a kidnapping delusion by extraterrestrials will appear in relation to belief in all imaginable and unimaginable extraterrestrials.

302. Thereby, through the extraterrestrial fairy tale, will create a financial violent business that will far exceed the previous one and will be coupled with esotericism and parapsychology.

303. This will benefit the secret plans of the countries which are doing their mischief with the flying discs, which is why they are very diligent in their machinations, which they then ascribe to aliens through their information channels, e.g. certain machinations with crop circles, animal massacres and alleged abductions and harm etc. by alleged aliens, in which all sorts of pretences are made by hypnosis and even foreign bodies are implanted in the 'abducted' etc.

304. Thus all possible and impossible aliens are invented, so that the secret plans and machinations can be carried out unchallenged, whereby however also the fear of aliens is stirred up and driven up.

305. So it is a fact that since 1945, when the plans of the air disk technology fell into the hands of the Americans, Russians and English, with few exceptions the whole earthly mankind is lied to and deceived, and to it every means is right – also alleged activities of extraterrestrials.

306. And all those fools, irresponsible, criminals, deceivers, liars and swindlers etc. in matters of alleged contacts with extraterrestrials, spirits, dead and higher beings are co-responsible for the fact that the secret machinations can be promoted in relation to the flying discs, because with their lies and deceits they promote everything still.

**Billy:**

...In addition, however, cows and cattle are also said to have been outrageously massacred by the 'Little Greys', and namely also by the thousands and millions, whereby the beasts were allegedly also missing various organs and at the same time mysterious things are said to have occurred too.

...

**Ptaah:**

77. With regard to the allegedly massacred animals, it must be said that this is just as much unbelievable nonsense as the alleged pregnancies in American women caused by the 'Little Greys'.

78. The massacred animals are also purely earth human machinations for the purpose of scaremongering and misleading all those who are incompetent in the matter of UFO matters, spirits and extraterrestrials and simply believe all nonsense unthinkingly, if they are extraterrestrials and their flying machines or ghosts or religious 'appearances' and other imaginations etc..

79. In some cases, however, no terrestrial humans are involved in such events, but predators who tear and mutilate the cattle.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_249](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_249)

**Billy:**

But it is also constantly claimed that the 'evil extraterrestrials' also massacre animals, e.g. cattle.

**Ptaah:**

164. Also this assertion is based on slanderous assumptions of some lunatics as well as on quite conscious lies and deceptions.

165. If massacred animals are found, especially in the USA and South America, this can be traced back to completely natural causes, namely beating and tearing as well as the feeding of birds of prey or predators.

166. Various species of vermin also play an important role, including mutant species.

167. Even certain irresponsible people massacre animals for testing purposes or to stir up fear of aliens, etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_251](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_251)

**Ptaah:**

50. We were just talking about those who had played an important role up to that point, namely the three groups that we had discussed in one of our last conversations.

51. In addition to these, there are a few other groups of extraterrestrial origin that fly to Earth and can be observed here more often, but none of which is in contact with any Earth-humans, neither on a private nor on a military or governmental basis.

52. Some of them come to earth purely for excursions or expeditions, others have other interests, but none in the way that the hysterical Americans portray this with the impregnation of earth women by Earth alien intelligences or the impregnation of Earth alien women by men of Earth.

53. The nonsense about massacring animals etc. etc. can also be forgotten, for such things do not apply either.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_257](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_257)

*The nasty machinations of the government, military and secret service people in respect of the demonizing of extraterrestrials have increased ever more since 1938 – indeed slowly and successively, thus, however all the more incessantly and expansively, until in the eighties,*

*essentially, the greatest machination for the bedevilment of extraterrestrials began – through a shifty structure in the fashion of the secret service, as well as miscellaneous UFO and extraterrestrial enemies. Stories came about like the ghastly human and animal mutilations, the theft of human babies and the impregnating of terrestrial women through foreign visitors out of outer space. Horror stories were also disseminated about subterranean laboratories and the inhuman experiments taking place there. Were that still not enough, because the angst of the extraterrestrials wreaked even worse blooms, like, for example, it would be asserted that women impregnated by aliens would, after some months, have the baby growing in the womb snatched out to be allowed to finally grow further in a fluid-filled incubator, etc., in order to breed up a new humanity, etc. using these hybrid children. A further horror story was that the earth humans would be abducted, in order to take their genetic material that would be necessary for the extraterrestrials' further breeding of humans, who would serve as, so to say, nourishment providers, because the evil foreigners out of the depths of outer space supposedly nourish themselves on human blood. Similarly, it would also be asserted in respect to the animal mutilations in America, whereby the related far-fetched feeble-mindedness that namely beef blood demonstrates a genetic relationship with human blood, therefore the mutilated cattle would have their blood sucked out to store in the blood banks for crisis times – naturally through the evil extraterrestrials. Yet even that is not enough, because still many other assertions, slanderings and lies, and clearly to be recognised as feeble-minded, are put about, through which the humans are led into error and would be shifted into angst and terror, as has had manifold success, and certain mass hysteria has been released by a worldwide group of certain earth humans, which also leads to feelings of hate, etc.*

**Ptaah:**

30. Regarding the luminous objects that light up, seem to hang in the air, seem to divide into several objects, move away from each other, approach each other again and merge again, the following can be explained:

31. All the observers and witnesses of such sightings are deceived, because they are in no way extraterrestrial flying apparatuses or UFOs, as terrestrial people call the objects, which can be seen especially in many places in the USA and all over the world.

32. The secret machinations of the responsible authorities and offices in the US-America are responsible for these appearances of these light objects, but this is to remain secret, not only for the American, but for the whole world population.

39. To the secret machinations in this regard belong also still various others, which are to point out actions of extraterrestrials, like e.g. the alleged kidnappings of earth people as well as the massacring of cattle etc. by alleged extraterrestrial beings.

40. The fact that hypnosis is also used for allegedly affected people, as it was the case with the fraudulent moon landing in 1969, should be absolutely clear for every reasonable person.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_441](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_441)

**Billy:**

Around 22 years have now passed since you and Quetzal told me privately that you had comprehensive cognitions in regard to terrestrial UFOs and the massacre of animals and alleged abductions which were disguised as the shoddy efforts of extraterrestrials. You said thereby that, in regard to this, involved in these machinations are governments, the military, as well as industrial businesses and powerful ones of finance, which constitute a special group, to which still smaller groups are also related. At that time you promised that you would officially explain more about that when the time is ripe for that. Can one now speak publicly about that?

**Ptaah:**

21. With the named group, it concerns a worldwide branching from governments, the military, industrial groups, secret services, paramilitary and powerful ones of finance, as you correctly said.

22. Those in the know and contributors are only certain elements of the same, who profit greatly, financially and power-politically, from their secret machinations, for which reason the entire powers of the government, military and industrial as well as finance are not involved in the situation and are also not informed in regard to this.

23. The group is not organized, as such, rather is only a loose collection, whereby their interests, however, have a common form, which, already since the 1920s, was designed to operate a continuous, ingenious, large-scale disinformation campaign regarding the question of extraterrestrial life.

24. The group, which is split into many small groups, has many kinds of technical possibilities at their disposal, which they employ for their evil and human-misleading purposes.

25. That started with technologies of electromagnetism to do with precision electronics and computer engineering, up to and including apparatuses through which brainwashing and the programming and altering of consciousness is evoked in humans.

26. They even have back-engineered beamships at their disposal, whereby, in certain contexts, even antigravity finds application.

27. It has also occurred many times that premeditated "abductions" of Earth humans by "extraterrestrials", and the massacre of animals, has been and is faked by this group.

28. That stands partly also in connection with those illusionary and schizophrenic visions and apparent experiences of those who believe that they have had, or have, these kinds of real experiences.

29. Also wrong information and falsified pictures of alleged extraterrestrial flying devices is strategically circulated worldwide, whereby according to our investigations, about 98% of all false pictures, films, videos and false information is directed at moving the Earth humans to angst and terror of extraterrestrials and to engender hate and thoughts of revenge in the Earth humans.

30. Therefore, in this way, angst, terror and hate is stirred up against all life foreign to Earth.

31. Especially films for cinema and television serve this purpose, as also, however, do many books which are constructed on lies and untruths and are written partly by "experts" in psychology and psychiatry.

32. All this nonsense sells very well to the Earth humans because many on the search for the effective truth trust and believe this false information, and these films and pictures.

33. Angst, horror, terror, hate and revenge always sell well, while the truth appears too banal and therefore appears uninteresting as well as not worth knowing.

34. Only the fantastic and unreal find a place in the interests of Earth humans. 35. However, precisely that is the launching platform for the infamous machinations of the worldwide group, because, through disinformation and fear-mongering in regard to the malicious foreigners to Earth, the entire group, which reaches right around the world, derives horrendous advantages of a financial, governmental-power, military-power as well as an economic form.

36. The entire war, electronics and weapons industries, and so forth, thereby gain an enormous boost.

37. Yet, in the worldwide group, secret paramilitary units also exist as smaller groups which carry out the same kind of operations which, however, are mostly controlled by the worldwide group.

38. In particular, these small groups carry out premeditated abductions which are credited ostensibly to the extraterrestrials, as well as, however, also simulated appearances of alleged extraterrestrial flying craft, which are then collectively declared to be extraterrestrial UFO appearances and are often observed, photographed and filmed by many people.

39. Thereby the illusion of an ostensible extraterrestrial abduction or observation of extraterrestrial flying devices is evoked.

40. What is further to say about that is that, in this worldwide group, with all the small groups who partly also work autonomously, there exists a proper "UFO trade" and a subculture in regard to animal massacres and abductions and so forth.

41. The entire thing is secretly financed through governments, the military, industrial groups and financially powerful ones who are interested in angst, terror and hate being stirred-up to their highest forms in regard to the alleged evil extraterrestrial foreigners, because they can thereby gain gigantic financial profit and advantage.

42. It is on this basis that, in every regard, from this group, only stories, cinema and television films and observations of UFOs will be accepted and profitably exploited, which are based on everything negative and – as is becoming proverbial with the Earth humans – on the malicious and aggressive nature of the extraterrestrials.

43. Only that which evokes angst, fear and terror as well as engenders hate and revenge is accepted by the group and exploited worldwide in order to obtain enormous profit with it.

44. Conversely, in addition to that, everything which is good and positive is vehemently slandered and is designated as a swindle, lie and deception, as is the case with you and us, since, in keeping with the interests of the group, we are not permitted to exist, and you are not permitted to be in contact with us, rather you must be a liar and a fraud.

45. So, from the group and their small groups, the Earth humans will be served up deliberately false and fear-influencing stories in regard to extraterrestrial UFOs and foreigners to Earth and their alleged horrifying machinations like, for example, painful examination contacts and animal massacres along with falsified encounters with alleged extraterrestrials.

46. Along with profit, the whole matter also serves deeply-based psychological propaganda in order to insult forms of life who are foreign to Earth and to brand them as malicious beings and to create angst, hate, revenge and hysteria because great financial means will be thereby freed up which serve research for the production of innovative and futuristic weapons of all kinds.

47. Therefore, in these Earth humans, in regard to the extraterrestrial, an enemy will be psychologically, deliberately created which does not exist and which will, in a manner, be made into a malicious being such that the Earth humans, in their angst, will be driven to freeing up horrendous sums in order to therewith manufacture weapons against the alleged malicious invaders.

48. Also, with these acts, various groups play off against each other, which, however, is part of a well-thought-out plan which is carried out and implemented by secret services, psycho-terrorists, espionage groups and treacherous disinformation agents and which is underpinned by false information regarding UFOs and alleged extraterrestrials.

49. Additionally belonging to this plan is the invention of an imaginary extraterrestrial enemy, as well as a danger emerging from this – an enemy and a danger which, naturally, will have to be fought.

50. The infamy is thereby that, first of all, everything is made ridiculous because the concerned "abductees", "examinees", "chance contactees" and UFO-observers can provide no evidence for their experiences which would withstand a real examination.

51. Then comes the second fact, which exists in the fact that angst, terror, hate and feelings of revenge is produced in the Earth humans whereby then the weapons industry can be built up and indeed especially in regard to futuristic weapons, of which the normal Earth humans have no idea, and of which they do not ever dare to dream.

52. The entirety is thereby a well-thought-out psychological network on which the progress of the entire weapons industry and the power of the military, of the federal leadership, the finance sharks and the industry businesses as well as the secret services can be built up ever further.

53. To this end angst, terror, hysteria, hate and revenge is sown in regard to all foreigners from outer space.

54. So the Earth humans become duped and financially exploited by the responsible ones of this dangerous group and their small groups and are deliberately driven to abhor and to hate the extraterrestrial foreigners.

55. Corresponding cinema and television films serve as especially suitable means for that.

56. The foreigner-angst, respectively, alien-angst, which is thereby produced surpasses all normal angst and the responsible ones of the group know that precisely, for which reason they can also thereby calculate that all necessary finances flow to them, which they require for their weapon research, their weapon manufacture, their leading of wars, and desires for power, as well as for unrealistic cinema and TV films which demonize the Earth-strangers.

57. The creation of an supposed threat from extraterrestrials as well as the alien-angst is, for them, a profitable matter which is operated under the shabby cloak of a federal, respectively, country security and of world peace.

58. For the entire machinations of the group, the meanest machinations are quite good enough which, as said, were already operating since the 1920s and to that also belong highly developed electronic weapons systems, futuristic flying discs, Earth humans who are hypnotically and surgically converted, as well as converted in their consciousness, to robots\*, whereby some have an appearance like the being which is called the "Little Grey".

59. On one hand there is the dim-witted paradox that the extraterrestrial flying devices are denied and the strangers to Earth are made ridiculous or made out to be monsters by means of psychological propaganda, while, on the other hand, a financial exploitation of the peoples results through the inciting of angst, terror, hate and revenge and indeed thereby in that a simulation results in regard to a supposed threat from extraterrestrials.

60. A paradox without compare, to which the question must be put, how far are the Earth humans imbued with reason and understanding that they do not recognise this paradox.

61. The entire pre-arranged game of the group and their small groups, as already said elsewhere, also includes faked encounters with alleged extraterrestrials, whereby these are truly nothing other than normal Earth humans or those who have been transformed into "aliens".

62. In order then to affirm the improvised "encounters with those foreign to Earth" psychologists and other experts are pulled in into whom the wildest stories are hammered for so long until they believe the entire swindle and nonsense and employ "verifiable" and "genuine" analyses which are recorded and published in books and documentation as well as in cinema and TV films.

63. And since, as a rule, the supposed extraterrestrials are described as horrible villains, just according to the plan of the group and their small groups, the picture of the extraterrestrial threat is powerfully incited.

64. Thereby, not only is the slandering in regard to the real strangers to Earth always more exaggerated, as also more and more finances flow into the cash box of those who stupidly and dimwittedly earn as a result of the entire tissue of lies and slander and thereby come by the means to reach their criminal goals.

65. A certain part of the group has also fallen to a Christian sectarianism and to the supposed "End Times" in such a way that hope is directed at a malicious invasion of extraterrestrials resulting on Earth, and thereby the prophesied Armageddon will become reality in which Jesus Christ celebrates his official return and God the father will exercise his judgment.

66. Their delusion is therefore bound with a biblical end of the world, which, as they believe, rests on the terrible badness of the Earth humans.

67. And in order to accelerate this divine judgement as well as the return of Christ they do everything in order to make the way free for that.

68. The monstrous power of the worldwide group and their small groups as well as the religious fanaticism, together with the cultic maintaining of the secret of the entire underhanded, degenerated and deceptive as well as criminal and felonious machinations, lead to malignant effects which could not be worse.

69. These are the facts which I have to name in regard to your question.

#### **Quetzal:**

273. The cosmic electromagnetic life energy is the Creation-given energy and is, in fact, also the actual, existing energy of Creation, which is also called Ur-energy and which is also given in all life forms as well as in every spirit form of a conscious or instinct-conscious form.

274. This life energy, which we refer to in our language by the specific designation of Ching, is a constant flux from the Universe that – through the energy lines, i.e. energy channels, which we designate as Sananta and, thus, conductive channels – flows through the body of each life form, so also in humans.

275. The Chinese designations for these forms represent their own formulations from the Chinese language and, therefore, have nothing in common with our ancient traditional terms that still trace back to Henok's language.

276. The life energy of an electromagnetic and cosmic nature, which we also call "active energy," flows similar to flowing waters, but through a form of certain energy channels, through the entire body of every single life form, and indeed, no matter what genus and species.

277. These energy channels, i.e. Sananta or conductive channels, pervade the entire body of every life form, so humans as well as animals, fish, insects, birds and plants, and even microbes, bacilli, and viruses, which means that actually every life form possesses them. ...

294. The cosmic electromagnetic life energy flows in a person in certain channels that are given for this, which we, as already explained, refer to as Sananta.

295. On the Sanantas are the acupuncture centers or acupuncture points, through which the cosmic electromagnetic life energy arrives at the body's surface, but the acupuncture nodes have nothing to do with the so-called chakras, which only correspond to an illusory form.

#### **Semjase:**

208. On the whole, however, there are few human beings who can enter into connection with the deceased, as you say.

209. Although you have large spiritualistic circles on the Earth, these are often nothing more than deception.

210. Many mediums are only quite good actors and indulge the desires of their acting drives.

211. A fact that, unfortunately, can only be proven by Earth-humans with great difficulty.

212. But on the other hand, there are also those mediums who imagine tremendous things and then imitate these in a trance state in all perfection, whereby a deception takes place again.

213. In this process their power of imagination often extends so far that they can tell factual things of other human beings from the past or the future and can even imitate their voices in all perfection.

214. But also not to be forgotten are those mediums who are exploited by some beings of other dimensions just for fun or maliciously.

215. There are actually only very few real mediums, and they are mostly almost unheard of.  
216. But those who are real mediums are silent about it and do not make a fuss about it.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_023](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_023)

**Billy:**

Aha, but how is it now with very high spirit beings who get in touch with the human beings of Earth?

**Semjase:**

141. I have already given you information about this once, because many human beings on the Earth claim completely wrongly that they are addressed inspiratively etc. by high spirit forms.

142. However, their claims are based only on self-deception or deliberate lies.

143. They know inspiration only from hearsay, but they do not know the symptoms in any way.

...

147. But further I also already explained to you that no spiritually higher forms of life have come into contact with earthly human beings in the course of the last 2000 years and so also have not transmitted any things of any form to them.

148. Since 2000 years you are the first earthly-human form, which has been and still is inspired by a high spiritual form.

149. The circumstances and form of the inspiration phenomenon are known to you, so you can always judge when it is an inspiration and when it is not.

150. Some human beings are to be praised for having written good words for the citizens of the Earth, even if they have succumbed to self-deceptions.

151. But in their sense to draw the attention of the human beings of Earth to the way of the Creation and to change their whole attitude through this, their works are good insofar as they do not fall into religious paths and false teachings.

152. So although these human beings have succumbed and always will succumb to self-delusions in terms of inspirational inspiration, they have the value of bringing many of them partially acceptable works.

153. In honesty, however, they should nevertheless declare that these works originate from their own thought processes and have no inspirational backgrounds.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Ptaah:**

810. That therefore any Earth human claims are in every respect only evil deception and lies when it is said that Earth-humans are in communicative contact etc. with high spiritual planes goes without saying.

811. Earth-humans, with their present state of material consciousness, are only able to make contact with beings of the same number of vibrations in this form, and under certain circumstances to bring about communication.

812. This means that an Earth human being can therefore only come into contact with beings who correspond approximately to the same evolutionary state of the Earth human being.

813. This means a safeguarding by the creative laws, which thereby guarantee that a life-form never acquires more knowledge than may be assigned to it in terms of evolution, so this is also the case with Earth-humans.

814. If the fraudulent statements of earthly mediums, who allegedly want to have contacts with the beyond, and the fraudulent statements of those who are allegedly in contact with high spirit-forms were true, then a catastrophe would have destroyed the Earth with explosive Gewalt long ago and annihilated all earthly humanity.

815. Through such contacts Earth-humans would have risen quite suddenly and unprepared to undreamt-of heights in every respect and destroyed everything.

816. Through the high spiritual planes Earth-humans would have been imparted such great secrets of the most varied powers and such a high knowledge, which the whole of Earth-humans would never have been able to master.

817. By safeguarding the creative laws that a life-form can only ever establish contact and possibly communicate with life-forms with the same atomic number of their own swinging waves, such occurrences are prevented.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_039](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_039)

**Billy:**

But other human beings can, nevertheless, also receive ongoing transmissions, without being exhausted by it.

**Ptaah:**

25. You know very well that this is not the case and that the majority of the so-called mediums truly have no contacts at all with such life forms or even other-dimensioned life forms and that some of them are just subject to a self-deception or are quite consciously and deceitfully led to believe such contacts.

26. There are only very few real contacts with higher levels, and valuable transmissions are even rarer.

27. But Earth-humans, who could have actual contacts in this form with other life forms and higher spirit levels, would not just be able to pursue communication according to their liking and indefinitely because their powers would be very strongly diminished by these contacts, so these would have to be renewed for every new contact, which would often take many weeks or even several months.

28. They would never be able to bear such power-achievements, as they are demanded of you, for they would surely die in complete exhaustion.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_076](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_076)

**Menara:**

60. And there are still too many misleading and delusional forms of thought imprinted in the individual, without being willing to neutralise them in order to accept the truth alone; for delusional belief and misleading falsehoods tempt the seekers and researchers to take unreal and false paths.

61. Even in some there is still too much thought and the will to be more than others.

62. This partly because they erroneously assume that they are higher in knowledge than others, which in truth is wrong and corresponds to self-deception, but also because they believe themselves imaginatively or by the lying false statements of mediums to have been allegedly great or otherwise important personalities in earlier lives.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_081](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_081)

**Billy:**

Too bad. Now for the parapsychologists, esotericists and other delusionists, phantasts and idiots another world is ruined again, but if not everything deceives me very much, then these jerks will soon find a suitable replacement, only perhaps a thousand times more stupid, more primitive and crazier than what was so far.

**Ptaah:**

61. This will be the case, for the stupidity of the earthly man still knows no bounds, and especially not of the newest and probably so far most stupid religion that ever dominated the earthly humans namely the parapsychology of sectarian and delusional form. ...

**Billy:**

That sounds damn strange from you, Ptaah. It almost seems to me as if you are very depressed and therefore speak angrily.

**Ptaah:**

64. That is the case, but it is not surprising when I find out again and again that the human being on Earth apparently tries, by all means, to keep the truth quiet and to step into the mud with insane means like spiritualism and the whole sentence of the sectarian idiocy of religious parapsychology, the cult religions and cruel lies of all kinds, the worst of all being to claim that contacts with us or other intelligences and spirit forms living outside of the Earth, who supposedly belong to us, would be maintained, although of all such lying claims hardly one is true, because all are truly only lies.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_222](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_222)

**Billy:**

... The long and short of it: to my knowledge, the “hearing of voices” concerns a form of schizophrenia, through which those who are afflicted by it hear a voice or multiple voices in their heads or something.

**Quetzal:**

5. That is also of correctness.

6. With the “hearing of voices,” it concerns a form of schizophrenia, through which acoustic hallucinations are produced in the form of a voice or even several human voices, animal sounds, or thing-related tones, which are heard by the people afflicted by this form of schizophrenia in their consciousnesses because it has fallen to a schizophrenic disorder.

7. Those who are afflicted by this form of schizophrenia suppose to be listeners of conversations or to perceive any other sounds, noises, tones, or even music in an allegedly real form.

8. In severe cases of this type of schizophrenia, even alleged dialogues occur between the hallucinatory voices and schizophrenic people, which also often leads to the fact that those afflicted by this disease of consciousness respond to alleged commands of the hallucinatory voices and carry out and commit actions and deeds that aren't comprehensible for normally healthy people.

9. Thus, homicides of this kind appear not infrequently in a simple or serial form because the murder or killing of humans and animals or the destruction of pictures and articles, etc. are ordered by the alleged hallucinatory communication of the putative hallucinatory voices.

10. An occurrence, through which confused, sick, deranged, and illogical as well as reason-poor thinking is caused with this form of schizophrenia in certain respects.

11. A condition that doesn't have to be permanently present but which can also only appear sporadically.

12. Those afflicted by this may even be people of good education, because the schizophrenia exhibits a split consciousness, which is determined not by the intelligence but by hallucinations and, thus, by an impairment of consciousness or by a pathological change in the state of consciousness.

13. In harmless cases, the form of schizophrenia of the “hearing of voices” appears with the so-called “dead-speakers,” “ghost-speakers,” “otherworld-speakers” and “extraterrestrial-speakers,” who – from time to time, through inner voices, even through the hearing of voices – supposedly accept that they would hear voices of the dead, ghosts, demons, otherworldly ones, and extraterrestrials and would even communicate with these.

14. On Earth, you call such people mediums, necromancers, and channelers, etc., but who, as explained, truly only have inner voices and believe that they would receive commands or messages from these and even communicate with them.

15. Another form of this illness of consciousness also causes putative “telepathic voices” through unrealistic forms of thought and beliefs, by what means those afflicted by this illness believe that they would stand in telepathic connection with any beings of a worldly, otherworldly, or other-dimensioned or extraterrestrial form.

16. Those afflicted by these forms of delusion believe that their delusions are real.

17. Moreover, on the outside, they appear completely normal to their fellow human beings, who judge the false assertions of the schizophrenics as given and, thus, classify those who are sick in consciousness as completely normal, which, as a rule, is also typical of the professionals, such as psychologists and psychiatrists, who can also be deceived just like the laymen.

**Quetzal:**

299. Increasingly many will claim through lies and deceit that they are in personal or telepathic contact with Semjase, with Ptaah, with me, or with others of our races, as well as with higher spirit-forms of our planes, in personal or telepathic as well as channeling contact.

300. But everything will only be lies, deceit and dizziness, because no human being on Earth apart from you will be able to come into any kind of contact with us, just as we will only be able to come into contact with you, for which you know the reasons.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_233](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_233)

**Ptaah:**

25. So all those lying and swindling Earth-humans, who maintain that they would have contact with Ashtar Sheran, are already punished by this fact.

26. These swindlers, liars, and deceivers still continue on, however, because in the mentioned deceitful writings, it is even maintained that Jmmanuel, also known as Jesus Christ, would personally transmit messages to the liars, swindlers, and deceivers, particularly to the lying person DHARMA and such.

27. But this also only corresponds to an incredibly insolent lie, as well as a swindle and deception beyond compare.

28. No one knows better than we do, that this mendacious, fraudulent assertion has no truth content at all.

29. Jmmanuel, who has mendaciously been given the name Jesus Christ, and you also know this very well, transmits no messages of any telepathic or otherwise similar form to the Earth-humans.

30. On the one hand, his is reborn at the present time in Europe as another personality – which you, like we, know very well – because we know his person, and on the other hand, he does not concern himself with transmitting messages and the like, or even the Talmud Jmmanuel, to delusional believers or deceivers, swindlers, and liars in telepathic form, etc.

31. What is still offered further by these swindlers, liars, and deceivers is actually never to be surpassed, regarding the disgraceful impertinence and disrespect toward all spiritual levels and particularly toward the levels Petale and Arahath Athersata, since these filthy liars – I simply lack other and stronger words for them – and deceivers, swindlers, and truth-offending ones do not shy away from mendaciously drawing upon these levels of purity, with the dirty and maliciously deceptive and fraudulent assertion that even these would stand in contact with the liars and deceivers.

32. A lie and deception beyond compare, for the sole fact that the spirit-form levels never take up contact with material levels, in order to communicate with these, punishes such a fraudulent assertion.

36. However, I do not explain this for your knowledge because you know these facts better than I do, but I only mention them for all those lunatics who are of the false assumption that a material life form could simply come into contact with any spirit-form, as this is maintained by all those who have succumbed to delusional faith or who simply lie deliberately, cheat and deceive, or who are simply ill in a schizophrenic form and call themselves mediums, who can allegedly talk and communicate with the deceased, spirit-forms, demons, and us extraterrestrials, through

trance states and channeling and similar nonsense, in order allegedly to receive messages of major importance.

37. Yet all these assertions and machinations are nothing more than deliberate swindles, lies and deceptions, schizophrenic illnesses, self-deceptions, or delusional faith and the like.

38. In truth, such possibilities for such connections only exist in very small amounts and only in a spiritually, very highly evolved framework, and thus, only with very few humans.

39. On the Earth, however, all those people who are equipped with such abilities are not of terrestrial origin; rather, they migrated from foreign worlds at earlier times.

40. The liars, swindlers and deceivers, however, the lunatics, the delusional believers, the self-deceivers and schizophrenics, who designate and call themselves mediums and channelers or the like, and this is clarified down to the last detail, are all clearly of terrestrial origin.

41. They are all earth-created and earth-born and have no connection at all to life-forms of extraterrestrial origin.

43. But just this fact misleads them to want to appear in front of and shine before their fellow human beings, as this is usual with the earth-born people, for they often suffer from inferiority complexes and from cravings for validity.

44. The few people on the Earth, however, who can actually maintain contacts with spirit levels or with higher, extraterrestrial human life-forms, are, on the one hand, clearly accompanied by higher evolutionary stages and, moreover, are of origins that are not to be found on the Earth.

45. But the number of these people moves within a very small framework, so out of a billion people, there can only be found 1.03 of those who belong to this higher evolutionary stage and who are capable of such contacts. ...

**Billy:**

... I have already known for some time that the American pack of liars, mediums, and channelers and all other lunatics, schizophrenics, selfish ones, self-deceivers and deceivers who are out for profit and swindlers are nothing other than the first and last dog-cunts of the Universe, in terms of contacts with extraterrestrials and spirit levels, who know neither good character traits nor decency, respect and morality, let alone reverence before the Creation and before the truth. Some time ago, I was told that a male liar or a female liar in America claims to have direct contact with Jmmanuel, namely with that person, in whom the former spirit of Jmmanuel is alive and reborn at the present time, who is alleged to have transmitted the Talmud Jmmanuel in the English language. This is probably the biggest and dirtiest, the meanest and greasiest lie, which an Earth-human could probably only contrive in an insane and schizophrenically sick mind. But I still think that I do not have to get upset because every swindler, liar, and deceiver will be held accountable sooner or later and will have to scrape clean his self-brewed soup of lies, and with certainty in this life, which is as certain as the fact that the Sun only appears during the day.

**Ptaah:**

172. But furthermore, a few things are still to be mentioned in relation to the faith of the Earth-humans who devote themselves with great pleasure to the religions and their representatives, as well as to the alleged spiritual healers, sectarians, and alleged mystics, as well as to alleged channelers, mediums, and contactees, etc. and who become enslaved to and dependent upon such.

...

175. The Earth-human should not rely too much on the so-called mystics, mediums, channelers, healers, contactees, and religions, etc. and should not get involved with these because everything is built on weak legs and usually on very unreal things that, with each occasion, can collapse in on themselves like a house of cards.

176. Therefore, the earth-human should, in good measure, rely solely on his reason and on his intellect and also on his logic.

177. But this also means that the person of the Earth should, in good measure, rely on the real sciences of physics and astronomy, on medicine, and on the other given sciences of forms related to reality and should turn themselves to these, even though the scientists of these areas still commit many mistakes and even though much ignorance and many errors and negations still appear with them.

178. Nevertheless, they are real scientists who occupy themselves with the effective truth of the matter and with its laws and commands and who adhere in such a way to the given facts, which unfortunately cannot be said of the so-called esoteric scientists and their followers and believers, for typically, with few exceptions, they are all just pseudo-scientists who rarely step into the public.

179. This pseudoscience is often only pursued by earthlings who are utterly insignificant and who suffer from feelings of inferiority and similar damages, like also the alleged mediums, channelers, and contactees, etc., who only pursue all of this in order to be able to step into the limelight of certain groups or the large public.

180. And pseudoscience ultimately refers to everything that falls within the scope of what is designated as Psi, channeling, mediums, ghosts and demons, religion, contactees and esotericism, for these things do not exist in reality.

I simply want to point out that so many lunatics on Earth still claim and the longer the more that they have contact with humans or spirit-forms etc. of the Pleiades, eg the liar BF then the South American or Mexican C. and the Mexican professor anyway, then also the actress M., with whom we had quite bad experiences, but also GG, who wants to maintain contact with a Pleiades commander Hatoon, then PM, or as they are called and many, many others, such as RB and the super-channel GC, etc. etc. and so on.

**Ptaah:**

767. They all fall under the names of liars, swindlers and fraudsters.

...

**Billy:**

In the 'Open Word' I already wrote years ago that for this occult and religious sectarianism the greatest blame must be laid on the religions and the pseudosciences of parapsychology and psi fanatics, who breed dizziness, incomprehension, lies and deception and charlatanism to a great extent, by paving the way for all swindlers, liars, deceivers, psychopaths, schizophrenics and deludists, by recognizing media of all kinds, spiritual healers, channelers, contactors of all shades, spirit and demon summoners, exorcists, the inspired and other sick or swindlers, liars and deceivers as real and paving the way for them. Unfortunately, there is more than enough evidence to show that through the guilt of parapsychology, which has become a malignant disease of modern times, occult and religious sectarianism has been promoted and will continue to be promoted until everything overflows and the prophecy is fulfilled that all those who seek and represent the truth will be persecuted and killed, just as it is written in the prophecy of the Talmud Jmmanuel.

**Ptaah:**

788. Unfortunately, this is the truth, and the increased worldwide appearance of the fraudulent contact liars announces the first contractions of the coming, which will result from the equally worldwide and frightening sectarianism which the sectarian houses have fundamentally cultivated in Protestant and Catholic churches.

Whereby the so-called supernatural of course does not exist in any way, because everything and everything is always naturally explainable and also naturally given. The supernatural exists only in the ignorance and the incomprehension of man, because he has no knowledge about all those things which he cannot understand and cannot explain himself. Truthfully everything so-called supernatural is absolutely natural and thus also classified according to the corresponding laws of spirit or matter, which are able to give an explanation for everything and everyone, whereby something supernatural becomes a fact of non-existence. Everything that can be grasped and perceived, everything that can be seen and heard and everything that can be felt, recognized, experienced and experienced, etc., is always real, real and natural in every case, regardless of whether it takes place on a spiritual or material level or on a medium level between spirit and matter, which is so often called the level of the supernatural or the supernatural by parapsychologists and esoterics who do not understand it.

58. From our side there is also no contact with Earth-humans, neither physically nor telepathically, except with you, whereby it is to be said that Earth-humans are not yet at all capable of telepathy.

## **Chemtrails**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_445](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_445)

### **Billy:**

Years ago, we privately talked about the so-called 'chemtrails', contrails from airplanes, which are used by conspiracy theorists to drive humans who believe in them crazy and terrified by writing idiotic books and making horrendous money. ...

*It has to be said that 'chemtrails' is a new and completely idiotic conspiracy theory that has been circulating for about seven years now, which is based on the fact that contrails or sublimation trails caused by chemical means are supposed to poison the atmosphere and life on earth. The inventors and supporters of the 'chemtrail' conspiracy theory claim that the condensed aircraft exhaust fumes would contain other chemical additives, and that the added chemicals would serve very specific purposes. All the nonsense of the conspiracy theory is mainly based on the following: Chemtrails' are said to be superior to 'classic' contrails in both durability and surface area. So they are not supposed to be normal contrails, but they are supposed to be modified by toxic chemicals, which is why they would spread so wide and be long-lasting. It is said that before 1995 or even earlier, no such phenomenon had been observed, and that consequently no images from earlier times exist that would show such 'new' contrails. Contrary to the normal contrails of aircraft exhaust gases, the 'chemtrails' are not supposed to consist of ice crystals, but of different chemical substances, which would cause conspicuously exactly parallel and chessboard-like patterns in the atmosphere, which allegedly do not occur with normal contrails and thus with normal air traffic. The conspiracists' claims are that substances are sprayed over large areas in order to influence climate improvement. To this end, the planes are to spray and spread mainly aluminium and barium compounds, which will help to reduce the sun's radiation, thereby neutralising the greenhouse effect on earth caused by the CFCs and greenhouse gases. ...*

*... the conspiracy theorists claim that the aims of the alleged 'chemtrail' measures are based on 'spraying' the earth's population. The purpose of this 'spraying' is, on the one hand, to carry out medical experiments with genetically modified bacteria, but also that the whole thing is based on worldwide birth control in such a way that women and men are to be made infertile by the spraying of the chemicals. Another conspiracy thesis is that the 'spraying' of the population via the airplanes affects the brain and consciousness of the earth's population in such a way that it is subject to total mind control by governments, authorities, secret societies and secret services, as well as by the Jews etc., and can be controlled and manipulated at will. ...*

*If the alleged originators of the 'chemtrails' are examined under the magnifying glass, then the range is very broad. At the beginning of the conspiracy theory, which goes back to the 20th century, the USA was considered the criminal creator of chemtrails. Shortly afterwards, the UNO was also considered extremely suspicious, after which the circle of alleged 'chemtrail'*

perpetrators expanded more and more. Today even the classic opponents of conspiracy theories are suspected to be guilty, and of course the FIGU is one of them, because anyone who raves against the conspiracy theorists and their conspiracy nonsense is automatically guilty and involved in the alleged conspiracy. Among the allegedly evil 'conspirators' are also the Freemasons and the Illuminati, as well as the aforementioned alleged Jewish world conspiracy, etc., who are being talked into a lot of nonsense by all the conspiracy theorists, who make a lot of money with their nonsense, which they write down in books, and who frighten their readers. In relation to the 'chemtrail' conspiracy theory, the main criticism is based on the fact that the composition of a condensation trail cannot be determined from the ground. For this reason alone, the allegedly altered composition of the contrails is highly speculative. The truth of the composition and shape etc. of the contrails as they appear today is based solely on the fact that the greenhouse effect is causing changes that were not there before. So it is not maliciously or by calculation chemicals added to aircraft exhaust gases that determine the form and speed of propagation and the durability of the contrails, but the changed atmospheric conditions in terms of temperature, humidity and wind speed. For the rational and combinative person with some knowledge of physics, it can be seen that aircraft exhaust particles act as nuclei of crystallization at high humidity and bind further water vapour to spread very far when the wind currents are right.

According to the Plejaren, neither aluminium nor barium can be found in the condensation trails of airplanes, known as 'chemtrails', nor in aircraft fuels. And if the conspiracy theorists' assertions were true, then the sun's radiation on Earth would have decreased in recent years as a result of the alleged 'chemtrails' and would not have increased significantly, as has been proven. So this is another way of proving the conspiracy nonsense, because a successful application of the greenhouse effect purifying chemical additives in aircraft fuels etc. would have had to have had a compensatory effect over all these years. The fact is, however, that the so-called albedo values or the reflection back into space decrease, which means that the greenhouse effect does not decrease, but continues to increase.

The conspiracy theory regarding the 'chemtrails' is not only extremely dubious, but absolutely feeble-minded, but the book-writing conspiracy theorists are financially sound, because the unneeded buy the nonsense books and let themselves be frightened by the nonsense they advertise, which in turn causes them to buy more books. But this truth, as it is proclaimed here, and as many other reasonable negative statements have also been made, leads to the fact that all this nonsense and nonsense is all the more reason for the unsophisticated faithful to regard it as proof that the respective secret services, organizations, secret societies and governments etc. are actually behind conspiracies and would actually carry them out. So only a few really reasonable humans take the effective truth as fact, namely that the whole nonsense is only based on conspiracy theories, while the uninitiated and those who are addicted to conspiracy theories feel all the more confirmed in their belief in conspiracy. Believing stupidity and stupidity are the breeding ground and the characteristic of all conspiracy theories; and stupidity and stupidity know no bounds.

And what needs to be said further in regard to the alleged 'chemtrails' is that the memory of the adult and average human being on earth is quite weak, because how else could it be that such unstable contrails as the alleged 'chemtrails' are claimed to exist? did not exist before, when no chemicals had been added to aviation fuels to compensate for the greenhouse effect, to take over the control of the Earth's human mind or to poison mankind, to make it infertile or even to eradicate at least 2/3 of it.

Anyone who is a little bit involved in physics and meteorology knows that contrails are a kind of artificial cirrus cloud that has always existed since airplanes have been flying around in the Earth's atmosphere. But this goes back so far that no one can remember when the first aircraft contrails appeared. But it is clear that at that time there was no alleged organized climate change with regard to the 'chemtrails' as they were invented by the money-hungry, human-

*dumbing and crazy conspiracy theorists. The fact is that vapour trails that remain in the sky are, according to meteorology, clear signs that a weather change is imminent. Thus, even contrails that spread out like a fan, a chessboard, a strip, etc., have nothing to do with alleged 'chemtrails', but only with atmospheric factors such as temperature, local wind speed, humidity, etc. Thus, all alleged 'chemtrail' phenomena can be explained as meteorological phenomena, but also as misinterpretations of good and accurate technical information, which are stylised by conspiracy theorists as fear and frightening ghosts. There is no denying that such conspiracy theories, as in the case of the alleged 'chemtrails', are fuelled by scientific proposals to stop the greenhouse effect and global warming.*

*Condensation trails, and therefore the alleged 'chemtrails', can only be observed locally all over the world, especially at airports and in aircraft holding patterns, where they are of course extremely concentrated, and more and more so because air traffic is constantly increasing. Logically, therefore, the contrails or alleged 'chemtrails' of aircraft are not as widespread throughout the world as the conspiracy theorists claim, but are confined to the airspace above airports and adjacent areas and to the flight paths of aircraft. This fact, however, is not taken into account, because there is no money to be made from it, but only by a stupid conspiracy theory. It should be clear to any sensible person that esotericism and the like must of course be involved, because in these circles, the conspiracy theatre about the alleged 'photon ring' and the comet 'Hale Bopp' took place in a similar context at the turn of the millennium, and a whole series of humans were driven to suicide by this conspiracy nonsense.*

*Of the profit-greedy conspiracy theorists, who spread their horrendous nonsense and nonsense, their actions are irresponsible and criminal, because with their boundless nonsense they drive intellectually weak or otherwise inexperienced or believing humans into fear and terror, chase them through a thousand hells and possibly even to suicide. And that a horrendous business is made with it is part of the daily routine, which is why silly book descriptions are not uncommon, through which conspiracy theories are spread, as is shown in the following pattern:*

*"Patterns in the sky – evidence of a global threat? – Sometimes things are not what they seem. And then behind an impressive cloud formation is a possible – not a natural phenomenon, but a chemical bomb.*

*"For several months now, many humans have been experiencing an oppressive feeling when they look at the sky. This is due to mysterious contrails that do not dissolve after a few minutes but become wider, can be seen for hours or even cover the sky with a grey veil. These 'chemtrails' (derived from 'contrail') are, according to some experts, visible traces of secret experiments to stop or reverse man-made climate change.*

*"Are the chemicals used in these experiments really harmless? Is human 'collateral damage' even relevant in such a gigantic experiment? Is there possibly much more to come – more insidious machinations behind this conspiracy in the sky?*

*"The first book on the subject answers some of these questions – and many new ones arise. For not all good things come from above."*

*Well, conspiracy theories are well thought-out and targeted manipulations, from which humans start to suffer and fall into fear and terror. Conspiracy theories also manipulate public opinion, which makes the book-writing conspiracy theorists a lot of money. But the humans who let themselves be influenced by the whole thing, do not feel well anymore, become insecure and get even more attached to all the nonsense of the book-writers etc., in order to become conspiracy paranoiacs themselves, like the conspiracy theorists, which often leads to schizophrenic delusions and therefore things and phenomena are seen and experienced that are not real and do not stand up to any reality check.*

**Ptaah:**

92. Condensation trails are visible long white streaks, especially those formed in the wake of aircraft by water vapour and other exhaust gases, which form particularly behind high-flying jet aircraft when the humidity in the aircraft exhaust gases condenses.

93. These long 'strip clouds' or vapour trails have nothing to do with the conspiracy theory of 'chemtrails', also known as 'chemical trails', 'poison strips' or 'poison clouds', which are supposed to correspond to the deliberate release of chemicals into the atmosphere.

94. According to the nonsensical conspiracy theory, airplanes are supposed to spray chemicals on behalf of states in order to change the weather and climate, poison people or otherwise influence world affairs, which, however, corresponds to nothing but complete nonsense.

### **Billy:**

Do you know the name of the mother of Queen Cleopatra VII of Egypt, 'the Great'? To my knowledge, the real name of Cleopatra's mother is still a mystery.

### **Ptaah:**

67. Her name was 'Phtia', and she came from a Macedonian family.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_521](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_521)

### **Billy:**

... In FIGU Special Bulletin No. 10 of February 1997 I wrote the following:

#### ***Discovery of Cleopatra's Palace***

*Alexandria (Egypt) in September 1996: Divers made a sensational find in the harbour basin of Alexandria. They discovered the remains of the 2000-year-old palace of the legendary Egyptian Queen Cleopatra. Everything is said to be lavish, incredibly luxurious and colourful in relation to the treasures found at a depth of seven metres. Numerous obelisks, columns, statues, amphorae and remains of walls have also been discovered.*

*Cleopatra's palace was without doubt also the refuge and sanctuary of her husband Marc Antony. Alexandria was founded in 331 BC and went down in history because of the love affairs between Cleopatra and the Roman generals Marc Antony and Julius Caesar. The Egyptian lived a life of luxury in Rome for two years before Julius Caesar was murdered in 44 BC. Marc Antonius fell for the charms of Cleopatra three years after Caesar's death. In the year 31 BC Cleopatra killed herself with snake poison, when Marc Antonius lost the battle of Actium against Octavian. After a strong earthquake and a subsequent huge tidal wave, the royal palaces sank into the Mediterranean Sea.*

Before I wrote that Cleopatra killed herself with snake poison, I asked you if this was really so. But now an American, a profiler named Pat Brown, is coming to claim that this was not the case and that Plutarch had 'passed on' everything wrong. What can you say to this?

### **Ptaah:**

27. Cleopatra the Great was the seventh Egyptian queen of that name and ascended the throne at the age of 18 in 51 B. Jmmanuel (Note Billy: alias Christ).

28. Cleopatra's father and mother were siblings, so if she was an incest child, she quickly became aware of the power.

29. When she came to the throne, she knew how to use her power to the full, also towards her brother Ptolemaios VIII, with whom she reigned together, but who soon expelled her, but died already 47 years B. Jmmanuel, and this by force, as our records show.

30. After the expulsion Cleopatra turned to the Roman Caesar for help, who returned her rule after heavy fighting after the Alexandrian War.

31. From 46–44 B. C. Cleopatra she lived in Rome, had with Emperor Caesar a son named Caesarion, who was born in 47 B. C.
32. After Caesar's assassination Cleopatra returned to Egypt, where she elevated her son to co-regent.
33. When a civil war broke out in 43/42, she remained wisely neutral and renounced her exercise of power for the time being.
34. Then she won in 41 B. C. Cleopatra the Roman Antonius for herself, with whom she entered into a marriage and remained united with him until her death.
35. Antonius encouraged her desire for power, also in relation to giving the dynasty and Egypt new power and new splendour.
36. When Octavianus, later to become Emperor Augustus, appeared in Rome, Cleopatra was declared an enemy of Rome, because there were clauses in Antony's will, which Octavianus published, that favoured Cleopatra's children.
37. This led to Rome declaring war on Cleopatra.
38. Thus the battle that was waged against Antonius was officially considered a battle against Cleopatra.
39. When in 31 B. C. Cleopatra the battle of Actium was lost, Antonius and Cleopatra fled to Egypt and killed themselves in 30 B. C.
40. Cleopatra killed herself with snake poison, which she poured into a deep wound on her arm, which she had a servant inflict on her, and with other poison, which she ingested by drinking a prepared cup of poison, which was also mixed and served to her by a servant.
41. In truth, she could not cope with defeat in her obsession with power, so she judged herself, as many power-obsessed people have done since ancient times, when they suffered defeats and lost their power.

**Billy:**

A cowardly escape from responsibility, as was also the case with Hitler and others. But tell me, do you know anything about why she threw herself at the men, like Caesar and Anthony – was it really just to help them, to get back their power and to be able to exercise it?

**Ptaah:**

42. Cleopatra was not only obsessed with power, she was also an unscrupulous paramour, for Caesar and Anthony were only her main lovers, who were her means to an end.

**Ptaah:**

5. All in all, these kinds of nonsensical writings are commercially oriented to make the ruble roll, as you say, so that the scribblers – if I want to use your expression – can fill their pockets with money.
6. The whole of all the conspiracy theories described in all the countless books are based on sheer nonsense, as are the writings in books containing supernaturalism and assertions about the alleged infiltration of earthly governments by extraterrestrials.
7. Conspiracy theories of all kinds, as well as supernatural, occult and esoteric nonsense, are in great demand among the believers in these drivel.
8. In fact, all the many books of this kind are based on silliness, senselessness, folly, as well as blooming and higher nonsense, as you always say so aptly.

**Billy:**

If you will allow me to interrupt, I have a few other terms for the whole thing, such as noble baloney, bullshit, hooley, stupidity and folly, torchlight, ridiculousness, simple-mindedness, gibberish, folly and folly, etc. I would also like to say that, with regard to all this nonsense, there are special bookstores which, for good money, bring the rubbish books among the people, from whom the roaring rubbish is eaten like hot cakes. With very many people on earth the unreal, untrue, fantastic, occult, esoteric, religious, sectarian, supposedly supernatural and supernatural is not only considered to be more than truth and reality, but effectively everything.

**Ptaah:**

9. These are all good terms I will remember.

10. And your explanation hits the truth.

11. Furthermore, these humans are sectarian and esoteric, as well as occult and supernatural, and move in their thoughts and feelings, as well as in their delusional beliefs, in illusory worlds and other unreal imaginings.

12. The entirety of this matter of faith and fantasies has developed into a delusion in them which already moves in schizophrenic forms, whereby they no longer perceive the truth and reality and consequently also can no longer recognise it.

13. And in this delusional form they infiltrate the humans with their absurdities which they imagine and also adopt them from other scribblers which you call 'abkupfern'. [copying?]

14. Thereby the readers of the entire nonsense are seduced to believably accept the lies, slanders, the swindle and the fantasies of these irresponsible scribblers as truth while they assess the reality and the real truth as unrealistic, unreal and as untruth.

15. Belief is just very much simpler than investigating the effective truth through one's own seeking and one's own cognitive work.

16. Furthermore the fantastic and illusory will sooner be accepted by the Earth-humans than even the truth and reality which appears banal compared to the fantastic and illusory.

17. Therefore it is so that standing on the firm ground of the facts, truth and reality is proscribed while the untruthful, fantastic, and illusory and all the swindling, lies, deceit and slander which is bound with it – which, since time immemorial, have always been booming business – effect the Earth-humans like sweet balm which stills the delight and demand for that which is fantastic and illusory.

18. So lying, swindle, falsehoods, deceit and slander are means through which the human allows himself to be very easily beguiled, because everything is only swallowed and does not have to truthfully be contemplated, while the search for the effective truth and its processing is bound with very much effort and cognitive work as well as with a sense for the recognition of reality.

19. However the irresponsible scribblers – who invent the crazy and unreal as well as unrealistic conspiracy theories, copy the entire nonsense from each other and throw everything to their believers as fodder, and therewith earn much money – know exactly that.

20. That is also the case with the books of the hacks named by you who, without conscience, spread their horrendous nonsense of their dim-witted conspiracy theories and thereby lead their faithful readers into error, convey to them a completely wrong picture of the world and hound them into angst and terror.

...

22. Truthfully, from the complete contents there are no things at all to name which could be designated facts of truth and reality because basically it deals with nothing other than freely invented fantasies and illusions which are irresponsibly given a coating of truth in order to thereby take those Earth-humans into their power who believe the dim-witted nonsense and allow themselves to be taken prisoner by it.

23. From the entire exposition of all books of such a kind no letter may be considered as true because everything is only built on deception, lies, deceit, slander, fantasies and illusions ...

...

27. Yet in every regard believers do not, as a rule, let themselves be impressed by the truth, rather they faithfully remain in the prison which they themselves delusionally imagine because that is simpler than having to grapple with the real truth.

28. The truth is just simply and somehow banal, as you tend to say, for which reason it only addresses humans who consciously use their reason and understanding, while the others, who depend on the fantastic and illusory as well as that which pertains to belief, are not willing to free themselves from the nonsensical and the unreal as well as from their not making use of reason and understanding.

**Ptaah:**

50. But now I want to lead the list you copied from 'Wikipedia', starting with the oldest – to the newest – officially known conspiracy theory listed there.

51. Those that effectively correspond only to illusionary theories, I will simply call **FALSE**, while one thing, however, is to be called **TRUE** and to be explained, which corresponds to the circumstances.

52. The following therefore applies to the conspiracy theories listed:

#### **List of Conspiracy Theories**

(from 'Wikipedia' [https://de.wikipedia.org/wiki/Liste\\_of\\_conspiracy\\_theories](https://de.wikipedia.org/wiki/Liste_of_conspiracy_theories))

This list lists conspiracy theories of the last centuries. It contains confirmed and refuted, but also still unclear theories that deal with religious, political, cultural or everyday cultural motivated conspiracies. It makes no claim to completeness.

#### **12th Century**

1. **Ritual murder legend:** In 1144 it was first claimed that Jews had kidnapped a Christian child in order to murder him in a secret ritual on Passover.

53. **FALSE**

#### **14th Century**

1. **Well poisoning:** Especially during the great plague epidemics in the 14th century, social fringe groups, mostly Jews, were accused of having caused the epidemic by poisoning public wells in order to destroy Christianity.

54. **FALSE**

#### **15th Century**

1. **Theology of Witches:** The popular belief that natural catastrophes and diseases were in reality caused by damage wizards (witches) was taken up by theologians in the 15th century and developed into the idea of a secret witch sect in union with the devil, which resulted in centuries of persecution of alleged witches.

55. **FALSE**

#### **16th Century**

1. **Exeter conspiracy:** King Henry VIII was supposed to be murdered to reverse the Reformation.

56. **FALSE**

### 17th Century

1. **Papist conspiracy:** Catholics allegedly wanted to murder King Charles II.

57. **FALSE**

### 17th/18th Century

1. **Man with the iron mask:** Person from the environment of King Louis XIV:

58. **TRUE**

59. The mysterious prisoner was the twin brother of the 'Sun King', Louis XIV, who was born secretly in 1643 and died in 1703.

### 19th Century

1. **Dark Countess:** The mysterious inhabitants of Eishausen Castle are said to have been the daughter of the executed French king Louis XVI.

60. **FALSE**

2. **Flat Earth Society thesis:** The thesis of the Flat Earth Society still propagates today that Earth is a disk.

61. **FALSE**

3. **Kaspar Hauser rumour:** The foundling Kaspar Hauser was the hereditary prince of the Grand Duchy of Baden, born in 1812.

62. **FALSE**

4. **World Jewry:** Jews allegedly want to seize world domination.

63. **FALSE**

5. **Bahai conspiracy:** As Zionists or spies, Bahai want to destroy either the state of Iran or the entire Islam.

64. **FALSE**

6. **Conspiracy theories regarding Jack the Ripper:** The search for the real identity of Jack the Ripper left room for speculations, for instance that he would be a secret child of Queen Victoria.

65. **FALSE**

66. **Jack the Ripper was a man by the name of Thomas Neill Cream, a trained physician who after committing several murders was arrested, charged, sentenced to death and hanged in 1892.**

67. **During the same time period as him, a second man performed his mischief in the same**

**manner, who originated from the royal house of Queen Victoria, but who was never caught, because he ended his murdering again.**

7. Taxil fraud: Alleged eyewitnesses reported satanic rites of Freemasons.

68. **FALSE**

8. **Know-Nothing-Party-Rumours:** Catholic immigration had served the Pope to undermine the values of the United States so that a papal army could land in America and found a new Vatican in Cincinnati.

69. **FALSE**

### **20th Century**

1. **Agent Theory:** Adolf Hitler's actions had been guided by the economy.

70. **FALSE**

2. **AIDS denial:** Allegedly there is no causal connection between HI viruses and the immunodeficiency disease AIDS.

71. **FALSE**

3. **AIDS from the US laboratory:** HIV is said to have been developed by the USA and to have been exposed or escaped.

72. **FALSE**

73. **AIDS goes back to the monkey species Green monkeys, which were abused by irresponsible and abnormal people through sodomistic actions, whereby the transmission of the immunodeficiency epidemic to terrestrial humans was made possible.**

74. **The epidemic existed with the green monkeys however already 11,000 years ago on Earth, whereby the epidemic was transferred in later millenniums to the chimpanzee subspecies 'Pan troglodytes troglodytes' (Note: Central African chimpanzee).**

4. **Amero:** The governments of Canada, the United States and Mexico are allegedly planning a North American monetary union.

75. **FALSE**

5. **Area 51:** The institution deals with or communicates with extraterrestrial life-forms.

76. **FALSE**

6. **Medical conspiracy:** Doctors of the Soviet Union allegedly planned attacks on high-ranking representatives of their country; see also Rootless Cosmopolitan.

77. **FALSE**

7. **Assassination attempt on Martin Luther King:** The assassination attempt on Martin Luther King had been carried out or planned by the US government.

78. **FALSE**

8. **Gang of Nijvel conspiracy:** The attacks carried out by the Gang of Nijvel were a pre-emptive strike against communism in Western Europe.

79. **FALSE**

9. **Barschel affair:** Former Prime Minister Uwe Barschel was found dead after having conducted an unusually tough election campaign against his competitor.

80. **TRUE**

81. **Uwe Barschel was murdered for political and dubious reasons, but for security reasons details of ... may not be given.**

10. **Bilderberg Conference:** The participants of the Bilderberg Conference are allegedly planning a world dictatorship or are masterminds of events steeped in history, such as the Iraq War.

82. **FALSE**

83. **The Bilderberg Conferences are not aimed at a world dictatorship, but at economic, political, military and secret service planning and machinations that are absolutely informal and are described as private and kept as secret as possible.**

84. **The meetings bring together influential people from business, the military, politics, the media, universities, the high nobility, secret services and Christian churches.**

85. **The conferences exchange ideas on current political, economic and social issues, and take decisions on political, military, secret service, economic and Christian-religious forms of leadership, etc., some of which are detrimental to the populations of the countries concerned, but also to the populations and the economy of the countries concerned.**

86. **The conference was launched in May 1954 at the invitation of Prince Bernhard of the Netherlands.**

87. **At that time the conference was held in his own hotel 'de Bilderberg' in Oosterbeek in the Netherlands, after which the name Bilderberg was adopted for these conferences.**

88. **The original and first reason for the first meeting was based on the fear that Western Europe and North America would work far too little together, as was urgently needed.**

89. **At least this was the opinion at that time, which has apparently been preserved until today, and secret decisions have been thought up and taken again and again, which among other things are directed against Russia.**

90. **And since everything is secret, the 'Bilderbergers' are of course also entwined with various conspiracy theories.**

11. **Chemtrails:** Vapour trails are said to contain chemicals that affect the population.

91. **FALSE**

92. **Condensation trails are visible long white streaks, especially those formed in the wake of aircraft by water vapour and other exhaust gases, which form particularly behind high-flying jet aircraft when the humidity in the aircraft exhaust gases condenses.**

93. **These long 'strip clouds' or vapour trails have nothing to do with the conspiracy theory of 'chemtrails', also known as 'chemical trails', 'poison strips' or 'poison clouds', which are supposed to correspond to the deliberate release of chemicals into the atmosphere.**

94. **According to the nonsensical conspiracy theory, airplanes are supposed to spray chemicals on behalf of states in order to change the weather and climate, poison people or otherwise influence world affairs, which, however, corresponds to nothing but complete nonsense.**

12. **Chronology criticism:** Certain sections of historiography or chronology had been erroneously or deliberately falsified.

95. **FALSE**

13. **Chronovisor:** The Vatican is or was allegedly in possession of a time machine.

96. **FALSE**

14. **Dagger shooting legend:** The defeat of the German military in the First World War was caused by opposition civilians.

97. **FALSE**

15. **Estonia conspiracy:** The sinking of the Estonia was the result of an assassination.

98. **FALSE**

16. **Rumour from Orléans:** In the French city of Orléans 28 young women were allegedly kidnapped and forced into prostitution.

99. **FALSE**

17. **Greater Israel conspiracy:** According to doctrine, Israel plans to extend Jewish sovereignty to the entire area between the Mediterranean and the Jordan River.

100. **FALSE**

18. **GSG-9-use in Bad Kleinen:** The GSG-9 mission in Bad Kleinen, in which the RAF terrorist Wolfgang Grams was killed, gave rise to numerous conspiracy theories.

101. **FALSE**

102. **All conspiracy theories in this regard have no truth at all.**

19. **HAARP conspiracy:** The US-American research program HAARP is said to have been used for thought manipulation or artificially inducing natural disasters.

103. **FALSE**

104. **But TRUE is:**

105. **HAARP can cause many harmful effects on living beings through vibrations, cause electromagnetic and weather-related disturbances, bring military benefits in various forms, as well as cause negative atmospheric influences, but in absolutely no way mind manipulation.**

106. **With HAARP, the sky is bombarded with energy rays through the large antenna system; these are hurled back by the ionosphere as electric waves of extremely low frequency (ELF), whereby these waves can then be transformed into an insidious weapon, which is, however, officially denied.**

20. **Denial of the Holocaust:** The Holocaust of the National Socialists never existed.

107. **FALSE**

21. **Itavia Flight 870 conspiracy:** The plane was shot down by French or US aircraft, all occupants died. The unknown attackers allegedly assumed that the plane was a Muammar al-Gaddafi aircraft.

108. **FALSE**

22. **Jamantau Theory:** The Russian mountain Jamantau is said to house a gigantic underground complex that is used for military purposes.

109. **FALSE**

23. **Assassination attempt on John F. Kennedy:** The assassination attempt is not the work of a single perpetrator, but of a conspiracy, as whose masterminds the Mafia, the CIA or Fidel Castro are postulated depending upon.

110. **TRUE**

111. **Harvey Oswald, who was under the influence of several groups, was not the direct assassin but only one of three other men who were controlled by an interest group involving the CIA, the FBI, the Mafia, a pro-Cuban group, oil barons and the military-industrial complex.**

24. **Alternative theories to Korean Airlines flight 007:** An aircraft accidentally shot down by the Soviet Union was officially classified as threatening. Theories say that Soviet air security should be tested. Other conjectures suggest that survivors of the accident are imprisoned.

112. **FALSE**

25. **Leningrad affair:** Supporters of the Leningrad party organization of the CPSU should allegedly be involved in criminal machinations.

113. **FALSE**

26. **Invented Middle Ages:** Larger periods of medieval history were invented.

114. **FALSE**

27. **Death of John Paul I:** John Paul I was poisoned because he probably wanted to uncover internal machinations of the Vatican.

115. **TRUE**

116 **John Paul I died by poison, which stopped the heart from working, giving the impression of a heart failure.**

117. **He was murdered because he shocked the noble rule of the Vatican and his behaviour and way of life in the Vatican provoked an impulse.**

28. **Lusitania conspiracy:** The sinking of the ship by a German submarine is said to have been deliberately brought about in order to stir up displeasure against Germany among the US population.

118. **FALSE**

29. **Majestic 12 Committee:** The US Secret Committee deals with the activities of UFOs and extraterrestrials.

119. **FALSE**

30. **Men in Black:** Secret US government officials dressed in black ensure that mysterious sightings do not give rise to witness testimony.

120. **FALSE**

121. **'Men in Black' have nothing to do with US government officials, because that is pure fantasy, as opposed to the 'Black Men' who belonged to a group intent on destroying the FIGU mission, up to and including assassinations.**

31. **Conspiracy theories on the moon landing:** The moon landings between 1969 and 1972 by NASA allegedly never took place and were only faked.

122. **FALSE**

123. **Apart from the alleged first moon landing of Apollo 11 in 1969, which was fraudulently staged on Earth as a 'real moon landing' and in the execution of which the participants**

participated under hypnosis and were deceived, all other moon flights and moon landings actually took place.

124. **The first and fraudulent alleged lunar expedition, broadcast worldwide by television, took place for political reasons, namely to put Russia at a disadvantage in relation to the USA with regard to space technology and so-called space travel.**

32. **Death of Marilyn Monroe:** Marilyn Monroe is said to have been killed by a US secret service because she had an affair with John F. Kennedy.

125. **FALSE**

126. **Marilyn Monroe was murdered by the Monroe psychiatrist and therapist Dr Ralph Greenson with an injection of chloral hydrate into the anus on the night from the 4th to the 5th August 1962 on behalf of the two brothers John Fitzgerald and Robert Kennedy, which is why no puncture wound was found anywhere on the body.**

33. **Montauk Project:** In the Montauk Project, the US military tried to steer or influence the thoughts of civilians between 1970 and 1990.

127. **FALSE**

34. **Afterlife of Elvis Presley:** Elvis Presley did not die in 1977, but lived on under exclusion of the public.

128. **FALSE**

35. **New world order:** Secret societies allegedly try to seize world domination.

129. **FALSE**

130. **In modern times from 1844 there was no known or unknown organization, apart from the USA and Hitler, which tried to seize world domination.**

131. **Even today, there is no state and no secret or known organization, apart from the USA, that claims world domination.**

36. **Oklahoma Connection:** The bomb attack on the Murrah Federal Building in Oklahoma City was supported by Islamists.

132. **FALSE**

37. **Paul is dead:** Paul McCartney of The Beatles died in 1966 and was then replaced by a doppelganger.

133. **FALSE**

38. **Attack on Pearl Harbour:** The US government or the US military allegedly knew of the

imminent attack on Pearl Harbor, but did nothing to be able to cite a reason for the war in public.

134. **FALSE**

39. **Philadelphia experiment:** A US military experiment allegedly led to the disappearance of a warship and its teleportation to another location.

135. **FALSE**

136. **There has never been such an experiment in the USA or anywhere else on Earth.**

137. **A book writer named Berlitz wrote a fantastic story only according to the fraudulent claims of a man named Kal Allen.**

40. **Protocols of the Wise Men of Zion:** The protocols pretend to be secret documents of Jewish world conspirators.

138. **FALSE**

41. **Coup against the Mossadegh government:** The coup against the Iranian government of Mossadegh was long considered a conspiracy theory until it was admitted by the US government in 2013 (Operation Ajax).

139. **TRUE**

42. **Reichsflugscheibe:** The Third Reich had been in possession of a futuristic aircraft.

140. **TRUE**

141. **The NAZI empire developed disc flying apparatuses, which were about 2,000 kilometres per hour fast and reached over 12,500 metres altitude.**

142. **However, these flying discs were single-wing aircraft, which were of a completely different type than normal wing aircraft.**

43. **Reich Citizens' Movement:** The German Reich continues to exist legally to this day, while the Federal Republic of Germany is illegal. A provisional Reich government exercised jurisdiction over the German Reich within the borders of 1937.

143. **FALSE**

44. **Reptiloids:** Reptiloids are human-like intelligent beings derived from reptiles or reptilian-like extraterrestrials. They had infiltrated the Earth and were part of a secret pyramid-like organizational structure.

144. **FALSE**

45. **Roswell incident:** A UFO crashed in Roswell, New Mexico.

145. **TRUE**

146. **This crash actually took place, but for reasons of state security the whole thing was declared a state secret, all facts, reports, records and factual reports were put under lock and key and were largely lost over the decades.**

46. **Black Volga:** Between 1960 and 1980, inmates of a black Volga car are said to have kidnapped and tortured children after they were asked the time.

147. **FALSE**

47. **Controversy over the seal of the United States:** The seal refers to the Illuminati Order.

148. **FALSE**

48. **Conspiracy to Murder Robert F. Kennedy:** The murder of US Senator Robert F. Kennedy shows some inconsistencies regarding the alleged perpetrator Sirhan Sirhan.

149. **TRUE**

150. **There are indeed some inconsistencies concerning the person of Sirhan Sirhan as a result of negligent investigations, but it is undoubtedly established that he was the real perpetrator.**

49. **Support for the Bolsheviks by the economy of the German Empire:** The Sisson documents allegedly prove that the German Empire supported Russian revolutionaries financially.

151. **TRUE**

### **Billy:**

... not a single person in America or elsewhere on Earth has had contact with Pleiadians until now nor will they have any in the near or distant future. This also shows that I, BILLY, am the only human being on Earth who has ever had any contact with the Pleiadians or will have had any contact. All those who claim the contrary, however, or claim that other people on Earth or they themselves are having physical or spiritual contacts with Pleiadians. no matter how, are simply always very conscious, contemptible, dirty, characterless and indecent, depraved, impertinent and morally degenerate, disgusting, miserable and despicable liars, cheats and deceivers beyond compare. Amongst those who stand out are especially Americans or those of American decent (however, people from other countries, e.g., Germany, Spain, Italy, South America and France, and so forth, fall into the same category of depravity, even though they are not quite as blatant as Americans). Names such as Fred Bell, Roberta Brooks, Siracusa, Rael, Andreas Schneider, Jahnke, Groenke, Griscom, Penny McLean and many others, are daily

routine items. So are the names of those liars who deceitfully claim having contact with or receiving messages from Ashtar Sheran.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Sfath%27s\\_Explanation](https://www.futureofmankind.co.uk/Billy_Meier/Sfath%27s_Explanation)

**Sfath {1945}:**

140. Also it will unfortunately be that many will shamefully abuse the names of your contact people of extraterrestrial origin, as well as the designations of the pure-spirit levels, and they will claim that you do not have the meetings with us, from the Plejaren systems, rather they do, or that they had these meetings – which you and my successors will later name contacts and contact conversations – at the same time as you did.

141. Once the point in time comes when these lying and slanderous events occur, when your material is thus stolen and many swindlers report worldwide concerning supposed meetings with me and my successors, and they appear with wrong and deceitful messages and even claim the impossibility that they are in telepathic connection with me or my successors, then these false contact persons, as you will then call them, will already thereby be recognisable as they assert that their physical or telepathic meetings and connections exist with beings from the Pleiades system of this space-time configuration, whereby, indeed, these are supposed to be my successors and I.

142. But we do not belong to this space-time configuration, nor, therefore, to this Pleiades system, which is still very young in its existence and is little more than 60,000,000 years old, and is absolutely uninhabited and uninhabitable in every respect, when one disregards thermo-bacterial life, which will disappear again in some tens of millions of years without higher life of some kind ever being able to exist there. Consequently, spiritual beings will also never exist on these Pleiades stars.

143. And in order to expose the future swindlers, my successors and you will not name our origins according to our own linguistic term, “Plejaren”, rather by the terrestrial human being term, “Pleiades”; accordingly, the swindlers will use this name, whereby they will expose their own fraud and lies as well as slander.

144. When this happens in greater measure, then you, just as much as my successors, will reveal the truth and rectify everything.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Asket%27s\\_Explanations\\_-\\_Part\\_1](https://www.futureofmankind.co.uk/Billy_Meier/Asket%27s_Explanations_-_Part_1)

**Asket:**

205. The list will be very long of those Earth-humans who, already in the shortest period of time, will appear publicly to fraudulently and maliciously bring their fellow humans under their power by saying that they are in contact with beings of extraterrestrial origin.

206. There will be many among them who will do this as a result of delusion or for religious and profit-driven reasons, while others will be partially steered by the malevolent life-forms in the pyramid.

...

229. UFOLOGY, already mentioned, which actually is supposed to serve in the spreading of truth, will likewise be pressed in the direction of sectarianism and will gain worldwide significance in this regard.

230. Like the religions themselves, ufology will become a religious means of power for the malicious extraterrestrial intelligences and, however, also a field of activity of deceitful and delusionally sick, alleged contact persons.

231. And in the year 1975 it will first be so far along, that the study community, DUIST {*Deutsche UFO-Studiengemeinschaft*} - which will be widely known up to that time, and which concerns itself with matters regarding extraterrestrial space vehicles and with extraterrestrial life-forms, and for the first time in October 1956 will produce a newspaper {*UFO Nachrichten*} - can be given the first pointer to their unreal direction.

232. Through this study-community, on the European continent in the country you call Germany, various persons will be known up to that time who allegedly have contacts with extraterrestrial life-forms.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Asket%27s\\_Explanations\\_-\\_Part\\_2](https://www.futureofmankind.co.uk/Billy_Meier/Asket%27s_Explanations_-_Part_2)

**Asket:**

99. But it is devious and false if, later, from the year 1975, it is asserted that you or we would insult ALL contactees, and so forth, by calling them swindlers.

99. But it is devious and false if, later, from the year 1975, it is asserted that you or we would insult ALL contactees, and so forth, by calling them swindlers.

100. That is truly not so, because there are actually very many contact people on the Earth, even if most of them only make visual contact or do not know about their contacts, which are in the form of impulses, or because of that they unconsciously wrap themselves in silence.

101. If we therefore speak of there being only few actual contact people on the Earth, then we speak of those to whom we transmit unconscious impulses, and who were truly sought out for a mission even if this mission is only unconscious and it is of moderate value.

102. Swindlers have, however, already mixed themselves among these few, which will also occur in the future.

103. By the year 1975, therefore, at least seven (7) Earth-humans, becoming known worldwide, will appear who will fraudulently present themselves as contact persons; and such liars and swindlers will increase in large numbers.

104. Many of them will be exposed as swindlers only very many years later.

105. At the present time 2,700,000,000 humans live on the Earth, of whom many have observed our beamships or other beamships belonging to our federation or belonging to those who are strangers to us.

106. But there are only four Earth-humans from this mass who had, or have, contact with extraterrestrial life-forms, whereby I speak of telepathic-impulse contacts.

107. But, up until now, only very few of them came out into the public to announce their knowledge.

108. Their mass will increase only in the much later time of the coming new millennium, whereby, however, swindlers will also creep in again. –

109. You know that the number of those who have actual contact with extraterrestrials is very small.

110. There are really only some very few, indeed only those four persons, out of a mass of around 3,000,000,000 inhabitants of Earth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_002](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_002)

**Billy:**

What about so-called UFO contactees claiming that their friends from the stars would only communicate telepathically between themselves?

**Semjase:**

28. Certainly there are such creatures, who only communicate telepathically.

29. However, their communication was telepathic from the very beginning, or else they quite simply let their spoken language wither away.

30. To our knowledge, however, Earth's space has never been approached by beings whose means of communication were purely telepathic.

31. On the other hand, it has to be noted that these so-called UFO contactees, who claim such things, have certainly never been in contact with human or other beings from outer space.

32. They are simply deceivers and charlatans.

**Billy:**

I have thought about the notion that the vast majority of these so-called UFO contactees are supposed to be nothing but deceivers and charlatans. On what fact is this your claim based?

**Semjase:**

33. On pure facts that can be proven at any time:

34. All the wannabe contactees allude to our being on a mission for God and the Christian religion – a malicious lie that is devoid of any truth.

**Billy:**

What about the other contactees?

**Semjase:**

35. Despite the many deceivers and charlatans, there are many who have really had or still have contact with us.

36. But countless of them have never had more than just visual contact with us.

37. Thus contactees who only saw our beamships from a distance and were also often able to photograph them.

38. But only very few had personal contact with us, and that is still the case even today.

39. Most of them, however, wrap themselves in silence because they fear their fellow human beings.

40. Already often, beings from foreign races have come to your Earth and have undertaken their expeditions here.

41. They collected various things that could be of service to their investigations.

42. And it will also happen again and again that such beings will come here and pursue their studies.

43. They come from the most diverse worlds and systems.

44. They are often still new in the field of travel in outer space and, therefore, carry out expeditions to expand their knowledge and cognisance.

45. Thereby it can happen that they unintentionally come into contact with the Earth-humans, only to in such a case never come back again.

46. They do not crave power and the like, as they are glad that they finally have serenity and order in their own worlds.

47. With them, it can also happen that every now and then they take some Earth-humans, bring them into their beamships, and examine them very closely with their apparatuses and determine their anatomy most exactly.

48. However, they let these human beings go again without exception, as they do not want to harm them.

49. They are often more humane beings than the Earth-human.

50. But unfortunately, rather barbaric beings also travel outer space and come to Earth every now and then.

51. Many among them are power-hungry and evil.

52. With them, it can happen that they kidnap and abduct Earth-humans (also other planetary human beings of other systems) and bring them to their home planets.

53. There, these poor creatures then lead lives as exhibition and experiment objects.

54. The Earth-human and all other inhabitants of other worlds must beware of these creatures, for in their maliciousness, they often use the worst form of Gewalt.

55. Feelings and other human traits and impulsations are often foreign to them, so a life means nothing of value to them.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Ptaah:**

71. We have indeed had contact with other Earth-humans, but these were very few, and the contacts with them were just in the form of unconscious impulses ...

...

**Asket:**

150. Besides us, there are still several other extraterrestrial intelligences moving in the terrestrial space, who, however, stand in a much lower stage of evolution than our own, and who are developed ahead of the Earth-humans by only a few centuries, and by only around 1243 years of further development at most.

151. These life-forms are therefore able to come into contact with the average and somewhat more intelligent Earth-humans and to communicate with them, which however happens only very rarely, if ever.

152. Since these intelligences have not yet gone very far ahead of the Earth-humanity in terms of development, they very often conduct themselves as rulers and can even let themselves be mislead and influenced by the Earth religions, which is why many higher developed life-forms in the Universe must intervene in a regulatory manner, to prevent severe consequences.

153. Because where religions are widespread, always after a very short time chaos, enslavement, exploitation and consciousness enslavement rule, whereby all consciousness-based progress comes into question.

154. Some Earth-humans have taken possession of parts of contact report transcripts, describing real, much earlier contacts with such extraterrestrial intelligences, and created new, imaginative stories, and formed religions and sects from them.

155. Thus they stepped, or would have stepped, into the public and mendaciously claimed, or would have claimed, that they had or would have had contacts with extraterrestrial life-forms.

156. Other Earth-humans allegedly or in reality, received various inspiration-type messages from such low levels, resp. from meagerly developed in consciousness terrestrial or extraterrestrial humans, adulterated these, or produced them unconsciously, or consciously and untruthfully.

157. This also resulted in malicious fantasies that purely spiritual life-forms would have gotten into contact with Earth-humans and would still be doing so.

158. But this truly is not so, because purely spiritual forms only establish contact with life-forms which are very highly developed in spirit and in consciousness, as only these are able to receive their vibrations and can bring about the necessary understanding.

159. So, if other claims are made by Earth-humans, then these do not correspond to the truth, but rather to consciously or unconsciously deceitful fantasies.

160. The fact is that very highly developed life-forms, or even pure spirit-forms, were since always never able to establish contact with Earth-humans, unless they met an extraordinarily high spiritual and consciousness-related state, which led likewise to an extraordinarily high level, as it was the case with several true prophets.

...

**Ptaah:**

403. In truth, there are probably also malignant intelligences from outer space that haunt your Earth or stray there, but there are not so many of them that they would be of great significance.

404. Most observations of 'flying discs' with human predations are of terrestrial origin.

405. Earth-humans should be aware of this when they encounter any 'flying discs' whose occupants are well aware of the fact that very many human beings believe these objects to be of extraterrestrial origin.

406. This knowledge is also very often exploited by them by imagining some gullible Earth-humans as extraterrestrial intelligences.

407. Aware of their religious power, they also do not shy away from pretending to be angels and God's messengers and appearing as 'saviours' of Earth-humans, whereby they then proclaim the deceived gullible to be contactors and assign them mysterious missions which are supposedly for the benefit of Earth-humans, but which in reality only serve their own profit and the benefit of their own country's espionage.

408. The most popular places of origin these malevolent deceptive elements and occupants of earthly 'flying discs' name are Venus, Mars, Jupiter, Saturn and Uranus.

409. But also the nearest neighbouring systems of your solar system have to serve for this, as well as the Pleiades in the coming time, when you will have become world-famous through your contacts with us.

410. In the process, my daughter Semjase and my person will also be falsely accused of being contact beings with Earth-humans who are fraudulent in this respect, as well as alleged Pleiades beings who do not exist.

...

**Billy:**

... In connection with this Earth-Venus-like planet, however, I now have a question: invisible and spiritual life-forms are supposed to live on such worlds, for example, also on our Venus and on Jupiter, Saturn, Uranus and Mars etc. In addition to these, there are also so-called space people or space beings, or whatever they are called. All these forms, however, are said to be in contact with Earth-humans, etc., here and there or even frequently. They are also said to call themselves guardians, universe guardians, angels of God, etc., etc., and to be, so to speak, the guardians of divine laws and universal order. I am now not clear whether these statements are only assertions or correspond to actual facts. To be honest, I can see neither sense nor logic in it. I think that this even contradicts all creative laws and the laws of nature. Somehow I have the feeling that such claims are unreal and spring from delusional overloaded sick brains. I am not quite sure about this though, it is really just a hunch and a feeling inside me that gives me this view. I just can't get my head around it, not even through people keep trying to explain to me that my assumption isn't correct and that these space people or space beings are supposed to really exist. There are even supposed to be forms of guardians that exist in empty space, and so on. What should I really make of this? I cannot accept the whole thing.

**Ptaah:**

...

506. The space beings you mention do not exist in any form and they are only the degenerate fantasy product of your impossible parapsychology in the first place.

...

511. Beings of the forms they mention are absolutely non-existent.

512. They have never existed, nor will they ever exist.

513. They are the pure fantasy product of overstimulated, misguided or sick brains, but on the other hand they are also implanted fantasy products of the Giza intelligences addicted to world domination.

514. The truth about the most diverse forms of beings rests in completely different values than are claimed by your parapsychology, by Adamski and various other Earth-humans.

515. But these entities have not a single iota in common with the aforementioned fantasy-space beings.

516. The truth is that invisible and unrecognisable forms of beings live in the most diverse spheres and dimensions.

517. These are spheres and dimensions that are superimposed on or subordinate to your normal time and that form independent spheres and space-time planes.

518. In and of themselves these spheres and dimensions, and likewise the life-forms or being-forms that animate them, are of as material a nature as the Earth human being, his world and his time-plane.

519. The swinging waves of the time planes concerned are, however, structurally fundamentally displaced, whereby these other spheres, dimensions and forms of life or beings remain invisible and unrecognisable to the Earth human being.

520. The vibrational spheres far inferior to Earth-humans are just as invisible and unrecognisable to them as the spheres far superior to them.

521. If this were not so, the most diverse spheres, dimensions and life-forms would flow into each other and cause universal chaos.

...

524. Now these OTHERS, the being-forms or life-forms from other spheres and dimensions, which are just as material in their time-plane as Earth-humans are in their space-time structure, also have their worries and problems, and they too are classified in the cosmic course of evolution.

525. In nowise are they interested in making contact with the time-plane, which is yours and means the normal time-plane for you.

526. On the other hand, also in various other spheres and dimensions, only very few life-forms are capable of opening time barriers and penetrating other spheres, just as this is not the case on Earth.

527. In other spheres and dimensions, then, the beings or life-forms are just as material as they are on Earth, except that they are invisible and unrecognisable to you through the vibrational shifts.

...

**Ptaah:**

795. The High Council that lives on this planet is made up of semi-spiritual semi-material life-forms.

796. So these are human life-forms of quite enormous knowledge and wisdom, who are in the stage of transition to the first pure spirit-form, the level of Arahata Athersata.

797. This means that they have already progressed so far in their evolution that they have got rid of the pure material body and are already half spiritual and therefore also only half material.

798. They are also the only life-forms that can still be called half-human and are able to make contact with the first high pure spirit-forms, which is absolutely impossible for pure material life-forms.

799. Not even we ourselves are able to make contact with these or even higher pure spirit-forms, consequently this can be done even less by Earth-humans.

800. So also our High Council had to contact the Arahata Athersata plane at our request in order to initiate its transmissions to you.

801. Hence you see that an Earth human being can never communicate with high spirit-forms in a purely spiritual or consciousness sense, let alone that an Earth human being could communicate with them or even with high spirit-planes.

...

810. That therefore any Earth human claims are in every respect only evil deception and lies when it is said that Earth-humans are in communicative contact etc. with high spiritual planes goes without saying.

811. Earth-humans, with their present state of material consciousness, are only able to make contact with beings of the same number of vibrations in this form, and under certain circumstances to bring about communication.

812. This means that an Earth human being can therefore only come into contact with beings who correspond approximately to the same evolutionary state of the Earth human being.

813. This means a safeguarding by the creative laws, which thereby guarantee that a life-form never acquires more knowledge than may be assigned to it in terms of evolution, so this is also the case with Earth-humans.

814. If the fraudulent statements of earthly mediums, who allegedly want to have contacts with the beyond, and the fraudulent statements of those who are allegedly in contact with high spirit-forms were true, then a catastrophe would have destroyed the Earth with explosive Gewalt long ago and annihilated all earthly humanity.

815. Through such contacts Earth-humans would have risen quite suddenly and unprepared to undreamt-of heights in every respect and destroyed everything.

816. Through the high spiritual planes Earth-humans would have been imparted such great secrets of the most varied powers and such a high knowledge, which the whole of Earth-humans would never have been able to master.

817. By safeguarding the creative laws that a life-form can only ever establish contact and possibly communicate with life-forms with the same atomic number of their own swinging waves, such occurrences are prevented.

...

**Ptaah:**

884. If, however, Earth-humans again bring contact reports of alleged extraterrestrials in religious form, then they are guilty of lying, and they lead back to their own delusions and unreal machinations as well as to the world-dominion-addicted, malignant intelligences or to earthly religious machinations and delusions in this respect of some misguided Earth-humans.

...

891. Therefore it will also be that we will not ever reveal ourselves to other human beings in the time to come as we do to you.

892. Even with other contacts on Earth it is the case that they still behave with interest during two or three and in any case always only impulse telepathic contacts, but that after that the routine of normality and indifference already sets in with them and consequently they only pass on their contact reports in a disinterested and distorted manner, if they do this at all, which unfortunately is not the rule.

893. Unfortunately, this is the case with 99.08% of all contacts.

894. For these reasons they are also only very weakly impulse-telepathically entrusted with unimportant tasks, and no valuable knowledge is imparted to them on a larger scale.

895. In particular, they are not informed about actual values of the spiritual teaching, technology and about the existing cultures of extraterrestrial intelligences, or they are informed so ambiguously that doubts and falsehoods must arise from this.

896. At present there are only two human beings on the Earth who have been informed to a greater extent by extraterrestrials.

897. Relatively speaking, this is a great deal when the consciousness-based value of Earth-humans is considered.

898. In certain circles on Earth it is claimed that the number is much greater, but this is not true.

899. This is also the case with the alleged flights in beamships or spaceships to which Earth-humans claim to have been taken.

900. It is true that in earlier times this was often the case, even at the beginning of the 19th century.

901. But with the beginning of the Aquarian Age, in the Earth year 1844, these flights were reduced to a minimum percentage.

902. This for reasons already mentioned.

903. Excluded from this, however, are those incidents where Earth-humans were stolen and abducted.

904. In this century, however, which you call the 20th century, such journeys into space with Earth-humans have been approximately prevented by all extraterrestrial intelligences working in Earth missions.

905. Up to the present day, only three Earth-humans were found who could be trusted with such flights and who, moreover, had no relationship with us.

906. One person lived in Africa and two others in America.

907. Two of these contact persons became known concerning these events, while the third person, however, remained silent and did not fulfil his task out of fear.

908. All contact persons on Earth, except you, have only a tiny part of the great task to fulfil, and their knowledge is only directed towards this small part.

909. They were all also chosen for these tasks only in their older years and were therefore not educated and not raised to a high level of knowledge.

...

**Billy:**

... But now, if you will permit me, I would like to ask you again a few things concerning the contactees: first, how many contactees are there on the Earth today; secondly, are you really oriented with regard to all of these, so you must know them or at least know about them?

**Ptaah:**

972. The exact number of real contactees on Earth at the present time is 17,422.

973. These are spread over all your states or countries, as you also call it.

974. Of this number, however, only a vanishingly small percentage are contact people who go public with their knowledge, as I have already mentioned.

975. Very many of them only work on certain things according to our telepathic impulse instructions, in order to fulfil partial tasks, but in all the different cases these persons have contact with us, and that without being oriented about the fact that they have contact with us or that we exist and that we do not belong to Earth.

976. Among all these contacts, however, there are none who are housed in any positions of governments, just as there are no life-forms of ourselves in earthly governments.

977. Of all 17,422 contact persons (Note Billy: The number continues to increase.) only a few hundred Earth-humans are officially known to be active in public life.

978. Their task is to gradually spread the truth of our existence, which they still do in the old-fashioned manner.

979. This means that the fact of our existence and the truth for them is imperceptibly finely interwoven in religious phrases impulse-telepathically delivered to them, which they then accordingly also spread in this form.

980. Since most of these contact persons are still very strongly dependent on religion, it is also the only way for them to recognise the truth.

...

985. If, therefore, I explained to you that only three life-forms of terrestrial origin have been flown out into space by beamships in this century, this corresponds to absolute reality, for it is precisely for such occurrences that the best precautions have been taken on all sides in order to be able to control them with the utmost precision.

986. It is therefore absolutely impossible that an Earth life-form, an Earth human being, should be allowed to experience a flight into space through us without our being oriented about it.

987. And when I speak of us, I am thinking not only of our own race, but of all extraterrestrial life-forms that move in earthly space.

988. They are indeed different and some of them even have a quite low level of development.

989. Admittedly, we are not in direct contact with all of them, because certain factors do not allow us to do so.

990. But we have contact with several of them and partly work together.

991. However, they are mostly all known to us, but so are their technical and consciousness-based possibilities.

992. This allows us to include them with extreme precision in our controls, so that with absolute certainty nothing of their doing can escape us.

993. We are always precisely oriented about every undertaking, and it is impossible that our devices and apparatus would not register something.

994. Of course, from time to time there are strangers with whom we do not come into contact and whose origin we also cannot clarify.

995. However, these are rare cases.

**Billy:**

That is an obvious answer. But what is it now about the Giza-Heinis also taking human beings for flights?

**Ptaah:**

996. I see, you are thinking of the world domination addicts.

997. Well, in earthly terms, these life-forms are enemies of Earth-humans, but on the other hand they are also enemies of us, whereby by us I again mean all intelligences of extraterrestrial origin.

998. So they have nothing in common with us in terms of our tasks.

999. Therefore, when I spoke earlier of only three Earth-humans being taken on flights into outer space in this century, I was really speaking only of us, not of these malignant life-forms.

1000. In order to achieve their devious aim, they have made contact with various Earth-humans and have also taken them on very short flights into space, but only outside the Earth's atmosphere, and such occurrences are many more with them than with us.

1001. For our part, we are anxious only to take Earth-humans out into free space who, according to their evolution of consciousness and spirit, are capable of evaluating these flights.

1002. The malignant life-forms, however, transport Earth-humans who are absolutely incapable of consciousness into the near Earth space in order to make them willing and to deceive them in order to be able to exploit them for their plans of world domination.

1003. In addition to these evil life-forms, there are also extraterrestrials who abduct Earth-humans from time to time, which Semjase has also told you about.

1004. However, these cases are relatively so rare that they are hardly worth mentioning, although the abductees usually never return to the Earth.

1005. But here again there are exceptions that are extremely rare and hardly worth mentioning.

1006. Most of the time, the abductors are time and space aberrations who only arrive to the Earth through their ignorance, through technical damage or through irrationality.

1007. On the other hand, however, there are also some inhumane races to whom Earth, when they discover it, means a welcome expedition planet where they rob life-forms of various kinds, but this is just as rare that it should not really be mentioned.

...

**Billy:**

... I have already seen various weapons in Semjase's beamships, but also in Asket's ship when she was on Earth. Sfath also had weapons on board, and your space giant is also equipped with a wide variety of weapons. Now how does this rhyme with various claims that extraterrestrial intelligences would not have any weapons or at least would not use them? I know from various UFO reports today that it is always claimed that peace is produced by peace, etc.

**Ptaah:**

1018. These are just crazy claims of fraudulent do-gooders who unquestioningly feign contacts with extraterrestrials in order to promote their fanciful wishes, which are extremely unrealistic.

...

**Billy:**

... But now I would like to come back to the UFO contacts, that is, to those people whom you call swindlers and fraudsters. What I am interested in is this: under what circumstances do you call these persons guilty of swindling and fraud?

**Ptaah:**

1059. If it is indeed the case that their statements and reports are not true.

1060. This is the case if these Earth-humans are not in contact with any extraterrestrial life-forms and only fabricate their statements and 'evidence' themselves through their imagination and skill, as was the case with Karl Michalek and George Adamski, for example.

**Billy:**

So that means that these people are deliberately creating and spreading lies for some reason?

**Ptaah:**

1061. It is so.

**Billy:**

Good, that is clear. But what about those who, by some means or other, simply bring themselves into such contacts, perhaps by being attached to a false parapsychology and too much attached to a false mysticism?

**Ptaah:**

1062. These life-forms are guilty of unconscious self-deception.

1063. They are misguided and caught up in mystical-occult matters and thus produce within themselves self-willed manifestations of telepathy-like forms or even suggestively conjured projection images, which can then under certain circumstances also be seen by outsiders.

1064. Through these self-generated appearances they become of the opinion that these are real, although in reality they are only mirages and illusory voices, which appear as a manic form through the intensive wishing for them.

1065. Through the false teachings, however, the persons concerned are no longer able to analyse these manifestations and thus consider them to be real.

1066. In this manner they succumb to an unconscious self-deception, which, however, should not be held against them.

1067. According to their belief, they act correctly and dutifully, for they believe themselves bound by the propagation of their thus self-generated manifestations of imagined truth.

1068. And thus they believe to serve the life-forms with regard to their evolution.

1069. Consciously guilty, then, are not these persons themselves, but the false teachings and those life-forms which have taught them.

1070. Therefore such persons cannot and must not be accused of fraud and deceit in a conscious form, for this may only be done where falsehoods and lies are consciously created.

1071. Those misled by false doctrines and false teachings are guilty only of unconscious self-deception and act in good faith – even if that is alien to reality.

...

**Ptaah:**

1083. 17,422 contact persons live in all countries of the Earth at present.

1084. This number only concerns Earth-humans who are in contact with intelligences from the whole universe, who in nowise have the slightest to do with those intelligences who want to usurp Earth dominion.

1085. So these 17,422 are true contactees (note Billy: this number of contactees is constantly increasing), but none of them have any knowledge of being impulse-telepathically contacted by intelligences of human form from Earth-foreign worlds.

1086. In addition to these contactees, there are 723 Earth-humans who are under the control of the Giza intelligences.

1087. But these we must not stamp as real contactees, for they are misguided and serve the evil plans of the world-domination addicts.

1088. But several of these have already come out to the world public decades ago and spread reports and photos which have been made to appear to them by these evil intelligences.

1089. Some of these misguided people and those exploited for evil purposes have very well-known names, especially in ufological circles.

1090. Fortunately, there are not many of these contactees who have come to public attention so far.

1091. There are only 27 of them in the total number who have been pushed into the public limelight as misguided ones by the world-domination-addicted intelligentsia.

1092. In the future, however, there will be many more, many of whom will dare to lie and deceive themselves into claiming that they are also connected with my daughter Semjase as well as with me and with others of us, as well as with fictitious persons from our ranks.

1093. Fortunately, real swindlers and frauds are few at present, but there will be very many more in the decades to come who lie and are fraudulently false contactees in this respect, i.e. such Earth-humans who, for selfish or world-improving reasons, etc., create lies, swindles and frauds, have created or will create lies, fraud and deceit to serve their own or other's egoism, delusion and profit, like Michalek and Adamski.

1094. The number of these I can give you at present is 36, though so far only their 7 have come out in the open with their lies, swindles and frauds on a large scale.

1095. These, however, have unfortunately appeared in those very circles where our existence and the truth are to be spread publicly in a very decisive way.

1096. I expressly say should, because through the interference and appearance of the deceivers, instead of the truth, unfortunately, new false teachings are spread, which find their degeneration in sectarian and religious machinations.

**Billy:**

That's more information than I expected. Can you at least give me one or two contacts who are real contactors and whose information can really be relied upon?

**Ptaah:**

1097. I already explained to you that theirs are 17,422, but in unconscious form.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_033](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_033)

**Semjase:**

5. The object which appeared yesterday and the day before yesterday was the same that you had already photographed on the evening of the 20th of April.

6. This however was not a beamship, as you assumed, but a small spaceship.

7. It also did not belong to us, but to other and rather unfriendly intelligences.

...

11. These intelligences are striving to bring the planet Earth and its humanity under their sovereignty.

12. For this they make use of very unfair means, and do not even shy away from human abductions.

13. They are one of those groups which operate with the earthly religions, and which successfully profit from it, as unenlightened Earth-humans get into connection with them and become religiously influenced.

14. Misled by these intrigues, the deceived contact persons then work unconsciously for the evil purposes of these troublemakers, and step by step they slowly bring them closer toward their goal.

15. Namely the goal, means the domination of the Earth and of the Earth-humans, which these intelligences have already been working towards for thousands of years.

16. Unfortunately, the deceived ones often come out of their silence, and spread the religion-induced misguidances that these ill-intentioned liars have given to them.

17. And they achieve great success through this, as you already well enough know, because the Earth-human is exceptionally strongly trapped in unreal religious paths.

**Billy:**

That is known to me, but what does this have to do with these "birds"? To which group do they belong? Are they perhaps members of the 'pyramid moles'?

**Semjase:**

18. If you mean the Giza intelligences, then I confirm it.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_038](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_038)

**Semjase:**

83. All these contact persons are only Earth-humans who, in this century, have truly been or are still in some form, not always physical, of connection with extraterrestrial intelligences.

84. Some of them are already departed from the Earth.
85. There were others who were forcibly contacted.
86. This list contains only the most important contact persons, because in reality there are more who are unofficially known.
87. And when I speak of unofficial, then I think as little as my father of the earthly world public, but of small unofficial circles, which spread certain truths, but which do not mention that among them are persons, who have some kind of contact with extraterrestrials.
88. The persons, whom I will now name, are Earth-humans who, however, are not of great importance concerning the spiritual teaching, but who partly appear in public on Earth.
- ... {see *Contactees (Specific)*}
114. In addition to these forcibly contacted Earth-humans there are 31 more, but they are of no great importance.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_039](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_039)

**Billy:**

Good, I have been occupied with some of the things that you transmitted to me with the last contact. Essentially, it concerns the contactees. You named 21 of these for me. For another three, you said that for certain reasons, you were not allowed to speak of them yet, so therefore

...

**Semjase:**

122. ... because first, several facts still have to be clarified.

**Billy:**

Nice and good, but it still does not make sense to me that only these 21 or 24 should be the only ones who actually had or have contact with extraterrestrials.

**Semjase:**

123. I explained to you, nevertheless, that I only named for you those who are not of very great importance.

124. Besides these, however, there are still some other Earth-humans who had and still have contact with extraterrestrials.

125. However, their significance is even less important, whereby I address their mediocrity of tasks.

126. But with this, you must not take it that no significance at all may be ascribed to them, for that truly is not so.

127. They also form a part of the whole, but only in a much smaller form than the ones mentioned to you by name.

128. In addition, there are even scientists, authors, and filmmakers who must be designated as contactees, for they are influenced by us and others through telepathic impulses, in order to be serviceable toward progress and enlightenment.

**Billy:**

Aha, so that means that among the few, true, officially known contactees, there are still at least some who must be designated as real contact persons.

**Semjase:**

129. Sure, there are even very many of these according to your concepts, but they are not of very great importance, such as those named by me in particular, through whom certain things had to be done and be invented or who served or should have served for the enlightenment in regards to the existence of extraterrestrial human life, but which, unfortunately, was not and is not always the case.

**Billy:**

That is finally a bit clearer. Thus, your words mean that we may not interpret your remarks about few contact persons in such a way that only the 21 or 24 named by you are genuine.

**Semjase:**

130. Sure, there are even several other but not officially known contact persons or, more exactly said, a few thousand, but their significance is very low.

131. Of somewhat greater significance are only 24 of those, and to be sure, you are not yet named, however, for you have an extremely great task and responsibility through self-determination, and you are also the only one who has physical and fully conscious contact with us.

...

137. Earthly contact persons of not very great importance are those 21 whom I named for you in particular.

138. In addition, however, there are three other important human beings, whose names I am not allowed to announce to you yet.

139. Besides these, you are to be named as the most important factor of all, for you have to fulfil the mission of the delivery of the spiritual teaching, which is why you were already prepared since your earliest childhood for your prophethood.

140. In addition, there are still somewhat more than 17,000 Earth-humans who, completely unconsciously, stand in impulse-telepathic connection with extraterrestrial intelligences.

141. Of these, there are a few thousand who are known in smaller or larger circles and groups for the fact that they maintain – out of suppositions, but they are not certain of these – to stand or to have stood in contact with extraterrestrial life forms.

142. These, however, are not known to the world public but only in private circles.

143. Besides these, there are still thousands of other human beings to be mentioned, who have become known to the world public for the fact that they have come into visual contact, through observations of aircraft of extraterrestrial life forms, and can still partly continue such contacts because they are attentive sky observers.

144. Many thousands of these, who have not been named in particular, live in the countries of Germany, Austria, Poland, Russia, China, Australia, New Zealand, America, South America, Spain, France, Italy, and Switzerland, etc.

145. In addition, such visual contact persons are to be found in all other countries of the world, and indeed, without any exception.

146. Of these thousands of visual contactees who are not well-known to the public, however, there are only 173 who have achieved a somewhat greater significance in relation to becoming publicised.

147. This excludes, however, all those who stand in fellowship with the Giza Intelligences.

148. We do not count these among the real contactees.

...

155. Since your discussion with my father, the number of contact persons has increased by a few.

156. At that time, there were 17,422 Earth-humans, while today, the number to be mentioned is 17,718.

...

162. The number of observers or visual contactees should already be approaching the first billion mark.

...

165. 17,718 Earth-humans currently stand in impulse-telepathic connection with extraterrestrial life forms of the most diverse kinds – but they are completely unaware of this.

166. 392 Earth-humans had involuntary or purely accidental, one-time contact with extraterrestrial life forms since the year 9 B.C.

167. These contacts are of no importance, for they were not connected with any tasks.

168. Only very few exceptions, 31 of these, are or were of slight importance in the public life.

169. 173 of the 17,718 contact persons have a half-important significance in the fulfilment of certain tasks in reference to the clarification with respect to their sightings.

170. A small number of these 173 Earth-humans were and are known to the world public as visual contactees.

171. 24 of the 17,718 contact persons had a greater significance in the fulfilment of certain tasks.

172. Of these 24, however, only very few were known as contact persons, and all of them have already passed from your world.

173. 1 of the 17,718 contact persons is of sole, utmost importance in the fulfilment of a prophethood.

174. 723 Earth-humans are contact persons of the Giza-Intelligences.

175. These, however, are not counted among the real contact persons.

176. 27 of these 723 Giza contact persons have come to the public worldwide.

177. At present, 36 Earth-humans fraudulently call themselves UFO contact persons, even though they never had contacts to record.

178. 7 of these 36 fraudulent Earth-humans have become known worldwide as very important "contact persons" by their fraudulent reports.

179. 29 of these 36 fraudulent Earth-humans have likewise become known worldwide by their fraudulent reports, but with much less significance than the first seven.

180. This is the most exact information that I can give you at the moment and that corresponds to the present conditions.

**Billy:**

With that, I am very satisfied, for this information is now really very clear. In a similar context, however, I would now be interested to know how it is with the otherworld-contactees and recipients of messages from the highest levels. You once said earlier that the real ones of these were also only very few.

**Semjase:**

181. Sure, that is so.

182. But at the same time, I only spoke of really high levels and the highest intelligences.

183. No earthly contact persons are to be found, who maintain contact with higher or lower or parallel otherworldly beings.

184. The number of these people, however, who could actually enter into connection with human beings of other dimensions, is only to be reckoned as 16 of these all over the world, but these do not use their capabilities.

...

**Billy:**

How large, then, is the number of those Earth-humans who want to enter into connection with "lower spirit forms" and "otherworldly ones," etc. and who try this, even though this is impossible?

**Semjase:**

186. It is impossible for us to investigate that, but on the other hand, it also is not of importance to us.

187. Only important to us are those who could enter into connection with other-dimensioned human forms.

**Billy:**

But still, can you mention an approximate number?

**Semjase:**

188. That is not possible for me, but nevertheless, there are many millions.

189. However, these imagined connections are completely worthless and without any meaning.

190. Only those 16 mentioned are of value, along with the 268 connections in the Earth-humans' WE-collective-subconsciousness-level.

191. These data, however, are rather inconsistent because they rise or fall almost daily.

192. This occurs through deaths and new appearances.

193. Concerning the 16, it was still the case a few months ago that there were only very few of these, who could be counted on one hand.

194. But it is not just the deaths that make these numbers waver because a very great influence is also exerted on them by fluctuating radiations and movements of consciousness.

**Billy:**

What am I to understand by the WE-subconsciousness-level?

**Semjase:**

195. It concerns subconsciousness-connections to the WE-form of the Earth-humans and, therewith, to same-dimensioned life forms in this world's area, who stand in nowise higher in their evolution than the connection-seeking Earth-humans themselves; thus, they cannot convey or obtain any translated or higher knowledge (= collective subconsciousness).

**Billy:**

Thus, they are not higher life forms that have an enormously high consciousness-knowledge or spiritual knowledge?

**Semjase:**

196. You have grasped it very well.

197. These forms are ones that are in nowise advanced from the average Earth-human by many years into the future, for in this case, the WE-collective Form is, indeed, based on the WE-subconsciousness form of the existing Earth humanity.

**Billy:**

So accordingly, it is all still valuable in a certain sense?

**Semjase:**

198. Sure, but on the other hand, the millions of pointless attempts to connect to otherworldly forms are nonsensical and completely useless and sometimes even dangerous, for such pursuers still belong to very low levels of consciousness and cognition, and are still of very low intelligence.

**Billy:**

If I understand correctly, is this special WE-subconsciousness-level also responsible for the fact that erroneous religious teachings become represented?

**Semjase:**

199. You think correctly.

200. But often, which must also be said, these connections are only imagined or even deliberately deceptive and nonexistent.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_043](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_043)

**Billy:**

We could not find the names of all the contacts or alleged contacts.

**Semjase:**

6. Sure, that would not be possible for you either.

7. But that is not what I had in mind when I made my statement, but rather names whose bearers are not very well known to the public, but who fall within the scope of the fraudsters and whose names are identical to very well-known contact persons.

...

**Semjase:**

9. You have already received a list of important contacts – except for three names, which I must continue to keep secret from the public.

10. You can now use your lists to mark all those who are of less importance, although I must explain that there are hundreds more of them than your records contain.

**Billy:**

Why don't we just do it so that I give you the names here or you read them and tell me, plus or minus or unknown (minus sign = no contacts).

**Semjase:**

12. So I will begin then, leaving out all those who are only known as authors of books or writings.

... *{see Contactees (Specific)}*

**Billy:**

... But how is it that you have so many names that you call unknown to you?

**Semjase:**

51. Your question is probably justified:

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_051](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_051)

**Semjase:**

154. We have many contacts with human beings of the Earth, but all of them are only impulse-telepathic in nature.

155. We only maintain personal contact with you.

156. All other contact persons have only small sub-tasks, without knowing the entire connection or even suspecting that we contact them impulse-telepathically, so only you alone are orientated about all things.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_128](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_128)

**Billy:**

... It seems as crazy as the matter as the thing with H. G., whom I have also told you about, who said to say hello from you because he was supposed to have got in touch with you.

**Semjase:**

177. You know that this cannot correspond to the truth, for neither I nor anyone else of our people would ever take up any conscious contacts with Earth-humans in the earthly realm, neither now nor in the future.

178. On the Earth, there exists only a single conscious contact for a human being of Earth, namely the physical one with you, while in Germany, three impulse contacts exist with human beings who have no knowledge whatsoever about these contacts and whose names you also know.

179. It will also remain so, which means that these contacts would not be renewed even if the contact persons should die.

180. Under all circumstances, if an imminent need should necessitate that one day in the earthly realm, a contact with another human being of Earth would be decided upon, then this could exclusively only be the case with a core group member of your group, who would also have to have his/her permanent residence in the Centre, however.

181. After you, this could only be one person, who will already live in the Centre soon, namely

\_\_\_\_\_.

182. After the passing away of this group member, for the next generation, only \_\_\_\_\_ would come into question, and after the passing away of this group member, \_\_\_\_\_, who will not be born until after the year 2130, however.

183. But you may not mention these names.

**Billy:**

Well, I will hold myself to that. But how does it stand now in all other countries of the Earth; do any contacts from you Plejaren even exist there with human beings of Earth, who likewise know nothing of the fact that you have impulse contacts with them?

**Semjase:**

184. Sure, but you know that, and in the meantime, these have increased to 24,638.

185. But none of these contacts are received or made in such a manner that the terrestrial contact persons would know about these existing contacts.

186. All of them are now purely impulse-telepathic, so thus, none of these human beings of Earth know anything about them.

187. Moreover, these are all human beings of the Earth who cooperate in the overall development of the terrestrial sciences within a large framework, and none of these contact persons stand under the occupational designation of a doctor's title or engineer's title.

**Billy:**

Does that mean, then, that the Plejaren would never enter into contact with a human being of Earth anymore, such that the contact person would know this?

**Semjase:**

188. Certainly, my words mean exactly that.

189. You are the only one since the year 1942 and will also always remain the only one since then, if in the distant future, an imminent need does not arise such that someone from your expanded group is appointed for such a contact, but at the same time, only those whom I mentioned to you could then be taken into consideration.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_136](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_136)

**Semjase:**

196. The time has now come, in which all things increase negatively and the prophecies literally begin to fulfil themselves.

197. The culprits, in particular, have been called to account and have been eliminated, but only until they arrange greater havoc.

198. There are also those who will not be spared from their destruction, who have slandered extraterrestrials and, through their lies that they have created about us, live in material glory.

199. All those who have accumulated greedy profits from our existence and created false cult-religious sects, associations, and organisations built on lies, saying that they would stand in contact with us or other extraterrestrial life forms and that we would advocate the cult religions, will have an evil end and die by their own believers or at least be ostracised by them.

200. In particular, those frauds are called to account by their believers, who steal your material and try to evaluate this in their favour.

201. There have already been many who have done this, and there will still be many more in the future, but it will be the case that their shameful actions will bring them harm sooner or later.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_141](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_141)

**Semjase:**

62. However, blinded and misguided by the crazy religions and cults, the Earth human being searches for the truth in directions that are still connected to crazy religions.

63. This entails that unstable people turn to those mysterious things which are well-known on the one hand but, on the other hand, still represent an unsolvable and incomprehensible

phenomenon to the human being, in this case, the ships of extraterrestrial intelligences, which the Earth human being simply calls UFOs.

64. However, for the unstable groups of Earth-humans, everything represents an unsolvable, incomprehensible, and extraterrestrial phenomenon that must have a supernatural origin, and this supernatural, in this case, is to be equated with a divine origin in a cult-religious and crazy-religious sense.

65. Many of the false UFO contacts or other UFO witness, if we still want to use the term UFO for the sake of understanding, act in their own deceitful forms for purely sectarian reasons that are still motivated by fear or by delusional, morbid notions of world improvement, or they act in such a manner out of purely personal psychological abuses.

66. So they are, as a rule, morbid or sectarian, starry-eyed idealists with delusional ideas, or they are people who are mentally ill and who never find enough recognition for themselves according to their own judgment, which is why they see themselves as disadvantaged people who are excluded from the joys and honours of life or think that these are too shortly held.

67. Then, through deceitful and swindler-like machinations in the matter of UFOs, they believe that they can get recognition for themselves because they are particularly named in the public or simply in larger circles, by which they can satisfy their hunger for recognition.

68. In addition to these swindlers and fraudsters, however, there are also those who pursue charlatanism for fun, together with those who want to make everything seem ridiculous and impossible through false actions, assertions, and photographs, and not infrequently, political or sectarian backgrounds play a crucial role in this.

69. Then, however, those swindlers and fraudsters are still to be mentioned who invent lies out of pure greed for profit, in order to get rich through swindling and deception in the matter of UFOs.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_142](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_142)

**Billy:**

... But now, another question: how many of all solar systems have planets that are actually inhabited by humans, which are visible from the Earth and which are known to us? If one believed all alleged contact reports of Earth-humans with extraterrestrials, practically all solar systems would be inhabited.

**Semjase:**

17. Sure, your words correspond to the truth.

18. Truly, there are only very few solar systems inhabited by human life-forms that are known to the Earth-humans, and on the other hand, a lot of suns have no planetary systems.

19. To these facts, there is still to add that many of the space-traveling races that come to the Earth are not resident in the time plane known to the Earth-humans.

...

**Billy:**

... All too quickly, it would be said that I contest and deny the experiences, observations, and contacts of others out of selfishness and for reasons of making myself out to be great. And unfortunately, this is exactly what I would have to do with approximately 98% of all cases because at least this round percentage falls under lying, deception, charlatanry, and forgery, etc.

**Billy:**

... First of all, can you give me information concerning to what extent the other two Plejaren groups in America and in Asia maintain contacts with Earth-humans?

**Quetzal:**

31. None since the last spring, which lasts until the middle of 1982.

**Billy:**

Aha, then they all went away too?

**Quetzal:**

32. That is of correctness.

**Billy:**

And – when they were still there, how was it?

**Quetzal:**

33. Their contacts with Earth-humans were, without exception, in the form that none of the contacts had any knowledge that they stood in contact with our members.

34. Physical or visual-visionary contacts were strictly avoided and also none of this kind took place.

35. Not one of the contacts had any knowledge or suspicion that they stood under our contacts, either in America nor in Asia.

36. Only here in Europe do we maintain a physical contact with you as well as those telepathic contacts, which you are informed about.

...

**Quetzal:**

511. ... we do try to be helpful to Earth-humans by making the coming horrors and events visible to many sensitives through visions, and we also include you in these visions.

512. Unfortunately, however, all these sensitives and Earth-humans who have been processed by us with the corresponding vision impulses have in some wise always become slaves to false religions, so that they are unable to recognise anything and attribute our visions, which have been made visible to them, to any deities or cosmic world leaders, etc., although such figures and powers truly exist only in the religiously misguided senses of Earth-humans.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_218](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_218)

**Billy:**

... over and over again, crazy ones appear, claiming that they have had contacts with you or else with some extraterrestrials and that they would have been promised that the extraterrestrials would bring salvation to the Earth and to the Earth-humans. As a rule, these crazy ones who make such assertions are some sect-bosses or delusional believers and lunatics of other natures, who lie their heads off and promise their believers and followers that the extraterrestrials will come with spaceships and save all of those or at least a part of those, who believe in the hypocritical horror stories of the bringing of salvation through extraterrestrials, and will take them to a nicer, more peaceful, and better planet in safety. The crazy ones who invent and maintain such stories – partly due to pure addiction to profit, delusional faith, confusion, or madness – try to convey to their followers who are enslaved to them and to their believers that the extraterrestrials would allegedly take their own responsibility from them and send them rescue.

**Quetzal:**

46. That is well-known to us.

47. All evil means are right to these liars, swindlers, and deceivers, in order to bind those who are enslaved to them and their believers to themselves.

48. But the truth is that neither we nor any other Earth-foreigners exercise the role of the bringers of salvation.

49. Neither we nor others bring teachings of salvation to the Earth and, thus, to the Earth-humans, for any teaching of salvation is of a religious and sectarian nature and only serves to make those who believe therein dependent and enslaved, in order to subjugate them, to exploit them, and also to cause them to remain faithful to the relevant religion or sect.

50. In addition, each teaching of salvation is designed to drive the believers and those who are enslaved into irrational teachings and into the mistaken belief that all their offences, wrong life-

styles, and injustices, as well as the harming of fellow human beings, can receive lenient treatment and can easily be forgotten, and thus, they would be forgiven by the bringers of salvation.

51. It is in the tricked believers and the enslaved that the responsibility for anything and everything would lie in a predetermination or present determination with the extraterrestrials or just with God the Creator, who should allegedly exist and who should determine and direct everything.

52. Thus, the religious believers, sect-believers, delusional believers, and others are forcefully kept – by unfair, misguided elements, etc., through lies, swindle, and deception – from bearing and perceiving their own responsibility for anything and everything that always arises in life.

53. The belief in salvation-bringing extraterrestrials, in any salvation-bringing teaching, or in a salvation-bringing God, who should also still be just, as well as full of love, understanding, and willingness to help, corresponds to the imagination of profit-minded human beings who, originally, had deliberately designed their created irrational teaching in order to gather believers and enslaved ones around themselves, whom they could exploit in every respect, in order to be able to lead lives of joy and glory through them.

54. And since ancient times, there have always been enough fools, who let others think for them instead of giving themselves the trouble of thinking, of reasoning, and of the pursuit of truth and the recognition of actuality and, thus, reality, for it was always easier for them to shift the responsibility for anything and everything onto others or onto extraterrestrials or simply onto a God-Creator, i.e. a Creator God, in order, then, to take the path of least resistance and the path of least effort, as well as the path of laziness.

55. And there are still such human beings on the Earth today, unfortunately still in large quantities.

56. But if the Earth-human really wants to experience a salvation, then he/she must bring this to themselves, in that they laboriously acquire it themselves.

57. But this means that they must turn to the truth and reality and must perceive their own responsibility in every respect and must bear it and fulfil it.

58. In this meaning, it is given to be recognised that neither extraterrestrials nor a God-Creator, neither a teaching of salvation, a religion or sect, nor any lunatic, spinner, delusional believer, 'godly one', 'enlightened one', guru, master, or exalted one by his own grace, etc. brings any salvation; rather, only every single person can acquire this for themselves, in reference to their own personality, their conduct and their life-style, their behaviour, their love, their inner and outer peace, their balance and harmony, their knowledge, their wisdom and evolution, and their entire progress in consciousness-related and material form.

...

89. Sectarrians are liars, swindlers, and cheats, who are only out to rally believers and enslaved ones around themselves, in order to exploit these and to be able to position themselves in the light and in the forefront, as self-appointed eminences and divinities of their own graces or as representatives of a God or any allegedly high and lofty as well as all-knowing and powerful extraterrestrial, etc.

#### **Quetzal:**

81. Moreover, these {*Sirian*} renegades and 'Black Men', as we also call them, and these have nothing to do with the so-called 'Men in Black' who are of earthly origin and, thus, who are secret-service driven Earth-humans, who strive to induce real visions and hallucinations through apparatus-driven, suggestive impulses in Earth-humans who are susceptible to these.

82. Their repertoire ranges from fake sightings and observations as well as alleged abductions up to simulated contacts and sexual intercourse with extraterrestrials, from which alleged

pregnancies occur that, if they already appear, are caused quite normally with an earthly partner or by artificial manipulation of a medical nature or one's own nature.

**Quetzal:**

295. There are many irresponsible freeloaders who make big deals and immense profits with the UFO believers because they are cheated and financially exploited by the liars, swindlers and swindlers as well as charlatans.

296. This is how many people appear who knowingly and fraudulently claim to be in direct or telepathic contact with extraterrestrials, believing that the innocent are in full swindle.

297. On the other hand, your truthful contacts with us are vehemently denied by know-it-alls and opponents, envyers, autocrats, image addicts, sectarians, etc., and you are portrayed as a liar and a fraud, despite all the irrefutable evidence you can produce; evidence that no alleged contact person can produce.

298. But all this will intensify in the time to come, with the UFO believers running after all the contact swindlers without hesitation, courting them and going astray.

299. Increasingly many will claim through lies and deceit that they are in personal or telepathic contact with Semjase, with Ptaah, with me, or with others of our races, as well as with higher spirit-forms of our planes, in personal or telepathic as well as channeling contact.

300. But everything will only be lies, deceit and dizziness, because no human being on the Earth apart from you will be able to come into any kind of contact with us, just as we will only be able to come into contact with you, for which you know the reasons.

301. Nevertheless, in the next few years a contactee psychosis will spread across the Earth, as well as a true extraterrestrial delusion and a kidnapping delusion by extraterrestrials will appear in relation to belief in all imaginable and unimaginable extraterrestrials.

302. Thereby, through the extraterrestrial fairy tale, will create a financial violent business that will far exceed the previous one and will be coupled with esotericism and parapsychology.

303. This will benefit the secret plans of the countries which are doing their mischief with the flying discs, which is why they are very diligent in their machinations, which they then ascribe to aliens through their information channels, e.g. certain machinations with crop circles, animal massacres and alleged abductions and harm etc. by alleged aliens, in which all sorts of pretences are made by hypnosis and even foreign bodies are implanted in the 'abducted' etc.

304. Thus all possible and impossible aliens are invented, so that the secret plans and machinations can be carried out unchallenged, whereby however also the fear of aliens is stirred up and driven up.

305. So it is a fact that since 1945, when the plans of the air disk technology fell into the hands of the Americans, Russians and English, with few exceptions the whole earthly mankind is lied to and deceived, and to it every means is right – also alleged activities of extraterrestrials.

306. And all those fools, irresponsible, criminals, deceivers, liars and swindlers etc. in matters of alleged contacts with extraterrestrials, spirits, dead and higher beings are co-responsible for the fact that the secret machinations can be promoted in relation to the flying discs, because with their lies and deceits they promote everything still.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_232](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_232)

**Ptaah:**

38. And above all, no knowledge or wisdom or anything else can emanate from America that would come from extraterrestrial humans or from intelligences of an immaterial kind.

39. This also puts the lie to all those Americans, as well as to all other lying persons all over the world and around the globe, who claim to have physical, spiritual, telepathic, visionary or any other form of contact with us.

40. Such assertions, which are directed at any contact with us, are only malicious, profit-seeking, sick or simply delusional tissue of lies, dizziness and deception, because the only person on planet earth, who actually maintains physical as well as telepathic and also other contacts with us Pleiades, is you alone.

41. The remaining three, who had been designated for this, and whom you knew, have unfortunately been separated from life by an unforeseen accident.

*(Note from Ptaah and Billy of 17.6.2004: The third person died in an accident before he could appear and take over his task.)*

42. Also the malicious and profit-greedy assertions that my daughter Semjase is in contact with various Earth-humans or even with humans from other worlds who are supposed to live on Earth, which, however, is an unbelievable lie, which also only corresponds to an infamous lie of power- and profit-seeking earthlings, such as F. B. and R. B., among many others.

43. Semjase has never been in contact with any other human being on Earth besides you, except for a somewhat confusing and unforeseen encounter near Zahedan in the Persian desert, where she had met by carelessness a woman from Germany named Else Schröder, which happened many years ago and lasted only a short time, from which no actual contact resulted.

44. It must also be made clear that no humans or spirit-forms or other forces of our allies of our federation maintain any contacts with terrestrial humans, neither accidentally nor unconsciously or consciously, thus neither in physical or telepathic nor in any other form.

45. This also does not apply to any humans or spirit-forms that are resident in our immediate areas of life and do not belong to our Federation or our races.

46. Other assertions of Earth-humans, no matter from where around the world, correspond only to conscious or unconscious lies, swindles and deceits or simply lying profiteering by liars, swindlers, deceivers, delusional patients, profit-seekers, The pompous or deliberate falsification of the truth by fanaticism, hatred, or religious sects or governments, which pursue world domination plans, as is the case with certain earthly organizations, which strive for world domination.

...

49. You are and remain the only person on this earth planet who can maintain contact with us in any form and manner, while the three of you were only capable of impulsive contact, with a few telepathic abilities.

50. So it will also be that if you leave this material world, no further contacts with people on earth will take place until you appear again in another personality.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_233](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_233)

**Ptaah:**

10. In any event, we, and in particular myself, lack the words to describe these mendacious and deceitful machinations of all those many Americans, who flood the whole world with their mendacious and deceitful assertions and writings, in which insolent and dirty webs of lies appear, with fraudulent assertions of unimaginable deceit, that they – even these swindlers, liars, and deceivers – would have contacts with us or with some spirit-forms.

11. But we and the entire Federation, and I already stated this clearly and plainly during my visit on the 17th of November, we have and maintain no contacts with Americans, nor will we ever have such contacts.

12. In the foreseeable future, we also have no reason to change our opinion concerning America or to concern ourselves with the possibility of contacts with members of that country.

13. But this also applies to all other countries of the Earth and to all other people of this planet.

14. You are and will continue to be the only exception in this respect, and with good reason.

...

36. However, I do not explain this for your knowledge because you know these facts better than I do, but I only mention them for all those lunatics who are of the false assumption that a material life form could simply come into contact with any spirit-form, as this is maintained by all those who have succumbed to delusional faith or who simply lie deliberately, cheat and deceive, or who are simply ill in a schizophrenic form and call themselves mediums, who can allegedly talk and communicate with the deceased, spirit-forms, demons, and us extraterrestrials, through trance states and channeling and similar nonsense, in order allegedly to receive messages of major importance.

37. Yet all these assertions and machinations are nothing more than deliberate swindles, lies and deceptions, schizophrenic illnesses, self-deceptions, or delusional faith and the like.

38. In truth, such possibilities for such connections only exist in very small amounts and only in a spiritually, very highly evolved framework, and thus, only with very few humans.

39. On the Earth, however, all those people who are equipped with such abilities are not of terrestrial origin; rather, they migrated from foreign worlds at earlier times.

40. The liars, swindlers and deceivers, however, the lunatics, the delusional believers, the self-deceivers and schizophrenics, who designate and call themselves mediums and channelers or the like, and this is clarified down to the last detail, are all clearly of terrestrial origin.

41. They are all earth-created and earth-born and have no connection at all to life-forms of extraterrestrial origin.

42. Still, they all exhibit a very deep level of knowledge and an equally deep evolutionary state.

43. But just this fact misleads them to want to appear in front of and shine before their fellow human beings, as this is usual with the earth-born people, for they often suffer from inferiority complexes and from cravings for validity.

44. The few people on the Earth, however, who can actually maintain contacts with spirit levels or with higher, extraterrestrial human life-forms, are, on the one hand, clearly accompanied by higher evolutionary stages and, moreover, are of origins that are not to be found on the Earth.

45. But the number of these people moves within a very small framework, so out of a billion people, there can only be found 1.03 of those who belong to this higher evolutionary stage and who are capable of such contacts.

46. Those who belong to this, however, wrap themselves in silence and do not reveal their secret, except that they have a task and mission of great importance to fulfil, as this is the case with you, you who has no other option but who is instructed to disclose to the people of the Earth your vast knowledge, which even surpasses mine in many ways, but also to disclose the fact of your contacts with us and with the levels Arahata, Athersata and Petale, etc.

...

**Billy:**

You speak to me out of the deepest sense, but with what I have to expect from America, I have already counted on this for a long time. I have already known for some time that the American pack of liars, mediums, and channelers and all other lunatics, schizophrenics, selfish ones, self-deceivers and deceivers who are out for profit and swindlers are nothing other than the first and last dog-cunts of the Universe, in terms of contacts with extraterrestrials and spirit levels, who know neither good character traits nor decency, respect and morality, let alone reverence before the Creation and before the truth. Some time ago, I was told that a male liar or a female liar in America claims to have direct contact with Jmmanuel, namely with that person, in whom the former spirit of Jmmanuel is alive and reborn at the present time, who is alleged to have transmitted the Talmud Jmmanuel in the English language. This is probably the biggest and dirtiest, the meanest and greasiest lie, which an Earth-human could probably only contrive in an insane and schizophrenically sick mind. But I still think that I do not have to get upset because every swindler, liar, and deceiver will be held accountable sooner or later and will have to scrape clean his self-brewed soup of lies, and with certainty in this life, which is as certain as the fact that the Sun only appears during the day.

...

**Billy:**

... But this refers not only to people who are Americans but also to citizens of other countries, out of which swindlers, liars, deceivers, and the like emerge, in terms of alleged contacts with you or with other life-forms from other planets or alleged connections and alleged contacts with higher spirit levels and so forth, whereby especially Germany, Italy, Spain, Mexico, France, and South American countries stand out, besides America. But by the fact that I and we ourselves must take a stand against all of these liars and deceivers, schizophrenics and lunatics and other insane people using harsh words, we waste a lot of strength and initiative, which we could use for better things, and above all, for the spreading of the teaching of the truth and for the fulfilment of the mission. Nevertheless, we must try to reach all those people who truly strive for and search for the effective and actual truth, but who are misled by all the liars and deceivers, etc. and who, therefore, often follow the wrong paths, namely because instead of the truth, webs of lies, as well as filthy and vulgar lies and distortions of the truth, are served to them as tasty morsels by the lunatics, delusional sick people, charlatans, liars and deceivers, by the schizophrenics, megalomaniacs, and the validity addicts, and by the crazy and unbelievable scum, by what means those who are sincerely endeavoring are misled and sometimes even driven to insanity, not to mention that they must still pay exorbitant sums for the mendacious and fraudulent machinations of the greedy liars and deceivers, etc. and that they are exploited to the bitter end.

...

**Ptaah:**

94. All of those – who can truly say that they have contacts with other life-forms of a different kind but, in truth, only via impulses – are silent about this and don't appear in public in order to publicize this fact, for their task isn't rooted in such activity but rather in fulfilling their mission for humanity in silence and in different kinds of beneficial forms.

95. But their impulse-contacts, as I already explained, are in low numbers, so only 1.03 in one (1) billion humans.

96. Among these, however, there are actually none to be found who claim all over the world that they would have contacts with any extraterrestrial, otherworldly, or higher life-forms.

97. Out of all of those who truly have contacts in this manner, there are only two who, at the present time, consciously fulfil tasks that take place in the public domain, if I disregard you, who has a separate, special and, moreover, the most important task and who is also obligated to a very important and the most important mission of all, which you have to fulfil.

98. Among all those who spread their webs of lies about alleged contacts with extraterrestrials or higher powers and life-forms of other kinds and so on, there is not to be found one of those two people, whom I just mentioned as actual contactees, neither is there anyone to be found among them who must be counted among the remaining contact persons of a true form.

99. First and foremost, these true contacts mostly take place through impulses and in unconscious forms for the people concerned, whereby the actual contact persons have no conscious knowledge of the fact that they receive any impulses from us or from other life-forms of extraterrestrial origin or even such impulses and messages from higher levels and, thus, from high spirit-forms.

100. Therefore, the true contact persons have no conscious knowledge of this truth, so they can only guess if this ever happens.

101. This is the rule, apart from which there are only very few exceptions, such as those two whom I have mentioned and obviously you, who can't be classified into any of the categories mentioned and who has a special form to show in all things that can't be measured using the given and normal standards, due to your unusual origin and your age-old mission obligation, through which you alone are predestined to bear this burdensome mission and also actually to lead it and to fulfil it.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_234](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_234)

**ARAHAT ATHERSATA:**

1. So we, ARAHAT ATHERSATA, give you the word to announce to you in a short demonstration that all sorts of dishonest acts of earthborn people on planet Earth are of no truth whatsoever, which claim in untruthfulness and falsification of truth as well as in malicious falsehood that Earth-humans would be in contact with us or with the level PETALE.
2. Equally, untruth and falsehood apply everywhere where assertions are equally made and represented that human beings on earth are in contact with human life forms from worlds other than Earth.
3. Similarly, this applies to assertions of those who boast of untruth with alleged contacts to spirit forms of any kind in this world or beyond, or to alien worlds of gross or subtle form and nature.

...

**Billy:**

... Certainly, many evil things and machinations come from all other countries of the world, but America is really the ultimate in these things. It is lonely peak, also in relation to lies, deceit and deceit and in evil machinations of the dirtiest kind, to suppress the truth, as is especially the case in relation to me and my contacts with you. This not to mention the incredible lies of all those many Americans who fraudulently claim that they have any contact with you or with other extraterrestrial people or spirit forms etc.. The impertinence of all these filthy creatures knows no bounds and they are probably the largest and slimiest dog fleets on this side and beyond our universe. I want to record this in this conversation once again thoroughly and clearly. As I said before, there are also in many other countries such liars, swindlers and deceivers, for example in Germany, Spain, Italy and France in particular, but almost all from these countries are not able in any way to hold a candle to the Americans who are liars in these matters, with a few exceptions. Those who suffer are those Americans who are open and honest and who honestly try to be human, to find the truth and to live according to the creative-natural laws and commandments.

...

... Nonetheless, it is a great need for me, at some other time, to have all the penetrating and slimy contact lies, swindlers and deceivers, as well as the liars, swindlers and deceivers, etc., who claim to be extraterrestrials themselves, etc., to name what they are truthful, namely nothing but the first and the last flocks of dogs in the whole universe, which do not contain even the slightest spark of decency, let alone that they have any respect whatsoever for the truth or even for the love and greatness of creation, for how else would it be that they would shamelessly dare to make a fool out of the truth and claim with a blackening lie that they have contacts to other material forms of life than to the terrestrial human being on planet Earth and to subtle forms of life of a nature beyond or extraterrestrial or purely spiritual. And all this, even though it must be clear to every reasonable man that all the liars, swindlers and deceivers and man on earth are in no way evolutionary enough or capable of even making such contacts, let alone maintaining them.

...

... If I only think of what happens in much fewer cases in other and non-American countries, that my writings are stolen, copied, translated wrongly or partially translated wrongly and distributed for expensive money, what is also done with all my photos etc., then all this tells me quite clearly that all those criminal creatures, which fall under the mentioned, do not deserve the name man yet. Which also applies to all those who dare to call themselves lying contact persons of yourselves, of PETALE or ARAHAT ATHERSATA, of higher spiritual forms, of the High Council or of the afterlife or of any other kind of life forms, which are not purely material, earth-human in nature. And that they are all liars, swindlers and deceivers, all the alleged

contacters, media, channelers and other lunatics, PETALE and ARAHAT ATHERSATA and indirectly also the High Council have now fully confirmed this.

**Ptaah:**

40. This is so, but the High Council confirms this fact of its unanimity with PETALE and ARAHAT ATHERSATA as well as with us not only indirectly, because I have the duty to exercise the duty to inform you of him that he also has no contact whatsoever with any human forms of life on earth or on earth, because this is absolutely impossible due to the low level of evolution of all people living on earth, if your person is excluded, but you do not make use of this possibility of connection and in all reverence leave it to me to maintain this possibility of contact, although it would be more appropriate for you and you would also have had the possibility to do so from time immemorial.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_235](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_235)

**Billy:**

... But during our last conversations you often enough talked about the fact that countless human beings falsely claim that they have connections of any kind to other than earthly life-forms.

**Ptaah:**

58. That is right.

59. In Japan in particular this fact applies, because there is not a single person there who has any connections or even real contact with extraterrestrial life-forms, let alone that there is a person there who has connections or contacts to higher spiritual forms or levels.

60. The absolute nonsense of arrogance is, of course, the claim in Japan that a Japanese woman even has a connection of communicative form to the Creation itself.

61. This assertion is not only tremendously arrogant, but even outrageous against the truth and the immeasurable greatness of the Creation itself.

...

**Billy:**

Well, then a question: You said, as Arahata Athersata and Petale also explained, that on the Earth at the present time it is only I who has contact with extraterrestrial life forms, higher spirit forms and high spirit levels. How long, that is my question, how long should this state last?

**Ptaah:**

64. My speech was not that you are the only one, but that only you, as the only person to have such contacts in official form, while five (5) other persons have true contacts, which are in no kind and wise the same and also not the same obligation as with you.

65. I also explained that these five other persons are in no wise to be found among those who falsely claim that they have contacts with extraterrestrial life forms or with higher spiritual forms and levels.

**Billy:**

Right, that is how you explained things. But now tell me how long the mentioned state will last?

**Ptaah:**

66. In the context of how contacts must be understood in communicative form and in relation to messages, teachings and instructions, etc., everything, even for the further and most distant future, is limited only to the data I have already given you in our last conversations, i.e. to the number of 1.03 persons per billion (1,000,000,000) human beings.

67. These 1.03 persons, however, each have only contacts in unconscious form, because they are only recipients of impulses without knowing that they receive impulses of instruction and advice from higher levels.

68. Further contacts, however, this is clearly established by the viewers of time, will not take place with us at least in the next 761 Earth years, apart from, that here and there encounters with extraterrestrial life forms take place and also sightings of extraterrestrial flying objects can

be made, which however all together does not fall within the framework of contacts concerning spiritual messages and spiritual teaching and similar instructions.

69. For the time of the next 761 years you will therefore be the only and last contact person in this respect with us.

**Billy:**

I do not quite understand that, for you said that the condition would only be present.

**Ptaah:**

70. That is right, but I am speaking in the context of our concept of time.

71. For the understanding of the human being on the Earth I must probably explain that the time of presence that I have mentioned includes the earthly term future, so that it must be explained that in the coming time of the future of the next 761 Earth years no further contacts with human beings on the Earth will take place with us extraterrestrial or with higher spiritual forms of life or even high spiritual levels in the sense of how such contacts are understood in relation to the evolution of the spirit in an instructional way.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_236](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_236)

**Ptaah:**

75. You have very many enemies on the Earth, all around the globe, in Europe and in America, as well as in Asia and Africa – and in Africa, particularly South Africa is to be mentioned – and in Asian Japan.

76. In all these continents and countries, there are many swindlers, liars, and deceivers, who fear you, due to their swindler-like and deceitful and fraudulent existence, which is why these degenerates want to hate you and murder you with the power of their thoughts.

77. All of them, these swindlers, liars, and deceivers, who maintain that they would have contacts with us or with other life-forms from the far reaches of space or with spirit-forms, etc., are all urgent on removing you from life and killing you by their bad and negative thoughts.

78. Unfortunately, even “friends” of yours lend their assistance in this because they succumb to the swindlers, liars, and deceivers, giving them the faith and the hands and all the means to harm you.

79. They probably do all these things unconsciously because they, just your “friends,” are blinded by the liars and deceivers and swindlers and are no longer able to recognize the truth that on the Earth, you alone have the task of spreading the true teaching of the Creation, the spirit, and the laws and commandments relating to this.

80. And because of the liars, swindlers, and deceivers, who designate themselves as mediums, contactees, channelers, healers, or as some other fraudulent name, the people can no longer recognize that you are, solely and exclusively, the only one – for all peoples of the Earth and, thus, for all human races – who can spread the teaching of the Creation and the spirit and who is incumbent upon this most difficult of all difficult tasks and who fulfills this in modesty.

...

107. Not just in Japan, my friend, because now that political matters in the countries of the Eastern Bloc have taken a turn for the better, western information now also reaches there, with regard to interplanetary flying objects and all sorts of fantasy stories relating to these.

108. Of course, it is inevitable that also in these countries, there are many misdirected ones, swindlers, liars, and deceivers, as well as self-deceivers, who invent and spread untruthful stories about alleged contacts with life-forms from planets that are foreign to the Earth.

109. The beginning of such despicable activities already began a long time ago and already produces bitter and bad fruits all over the world.

110. In particular, the deniers of extraterrestrial life as well as the sectarian UFO groups all over the world are the most grateful buyers of such new fairy tales from the countries of the Eastern Bloc that were previously closed to the West.

111. Of course, all deniers and all sectarian advocates of extraterrestrial life try to take advantage of this and try to create a new field of power for themselves, in which they can spread their lies and crazy notions and can force people under their spell.

112. Thus, both sides are trying to spread and represent this in such a way, whereby they erroneously believe that it concerns a viable ideology.

...

172. But furthermore, a few things are still to be mentioned in relation to the faith of the Earth-humans who devote themselves with great pleasure to the religions and their representatives, as well as to the alleged spiritual healers, sectarians, and alleged mystics, as well as to alleged channelers, mediums, and contactees, etc. and who become enslaved to and dependent upon such.

173. Of these, the following is to be said:

174. Even though the scientists of the Earth are still far from being gods, as they often believed themselves to be, they still stand in such a high position on the Earth that they accomplish a lot of things, and they have acquired a rather enormous amount of insights in all conceivably possible fields of knowledge.

175. The Earth-human should not rely too much on the so-called mystics, mediums, channelers, healers, contactees, and religions, etc. and should not get involved with these because everything is built on weak legs and usually on very unreal things that, with each occasion, can collapse in on themselves like a house of cards.

176. Therefore, the Earth-human should, in good measure, rely solely on his reason and on his intellect and also on his logic.

177. But this also means that the person of the Earth should, in good measure, rely on the real sciences of physics and astronomy, on medicine, and on the other given sciences of forms related to reality and should turn themselves to these, even though the scientists of these areas still commit many mistakes and even though much ignorance and many errors and negations still appear with them.

178. Nevertheless, they are real scientists who occupy themselves with the effective truth of the matter and with its laws and commandments and who adhere in such a way to the given facts, which unfortunately cannot be said of the so-called esoteric scientists and their followers and believers, for typically, with few exceptions, they are all just pseudo-scientists who rarely step into the public.

179. This pseudoscience is often only pursued by earthlings who are utterly insignificant and who suffer from feelings of inferiority and similar damages, like also the alleged mediums, channelers, and contactees, etc., who only pursue all of this in order to be able to step into the limelight of certain groups or the large public.

180. And pseudoscience ultimately refers to everything that falls within the scope of what is designated as Psi, channeling, mediums, ghosts and demons, religion, contactees and esotericism, for these things do not exist in reality.

...

226. All assertions that [Yoshi Kozakura](#) and many other human beings make, in reference to alleged contacts with us or with other life-forms than those on Earth, are based on nothing more than incredibly unscrupulous lies and on deceitful, swindler-like machinations.

227. You alone are an exception to the truth of this.

228. This also refers to messages from beings that are foreign to the Earth, which are transmitted to the human beings of the Earth.

229. Also in relation to this, you are the only prophetic power and the only power at all, who is currently living on the Earth and who is capable of fulfilling this task.

230. This was already explained by the high spirit levels, Arahat Athersata and Petale, who have absolute control and knowledge of all these issues and possibilities on the Earth and throughout the whole Universe.

231. Thus, Yoshi Kozakura also does not have any capabilities for any contacts that would be other than material contacts and contacts with the Earth-humans.

232. Also, there are currently no other human beings on the Earth who would have such capabilities, besides those who are known to you.

233. Therefore, Yoshi Kozakura also has no persons around herself or in her circle of friends, who would be medium-talented in such a wise that they could have contacts with any beings and life-forms that would be of a different nature than just those that are of a purely terrestrial and material origin.

234. At present, such capabilities are available to no one on the Earth or even in an understood development, except with those whom you know and honour as genuine.

235. Apart from the few initiates, you are actually the only life-form who currently has such capabilities.

...

237. And after you and the few others, some centuries will pass on this planet before the next person on Earth will have come so far that he/she can step into contact with life-forms that are other than material and terrestrial.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

... I have one more question about things I have been asked over and over again, like the 'little greys' in America. As crazy Americans claim and stir up an immense propaganda for it, the American government should maintain contacts to these 'little greys' and even allow them to carry out inhuman experiments on terrestrial humans, in addition to gruesome animal experiments, etc. There should even be an exchange program between these 'little greys' and the Americans and the Americans should profit from the technology of the little jerks, from which I have not yet discovered an iota. Also an alleged former secret agent of the CIA with the pseudonym 'FALCON' should play a certain role, as well as the constellation RETICULI or what that should be called.

**Ptaah:**

246. I have told you several times before that this whole puffed-up story and all the trimmings are nothing more than a crazy and deceptive fantasy of power-hungry elements that make many kinds of profit out of it, even including government agencies and intelligence services.

247. It is similar or distant or even the same with countless other similar or similar stories and assertions concerning alleged contacts with people or other beings from worlds outside the Earth, whereby I would like to point out another time that at the present time you are the only person on Earth who has actual contact with extraterrestrial life-forms, both in telepathic and in physical form.

248. All other claims made by any human being on Earth in this regard are either pure invention, hallucinogenic, insane, delusional, conscious or pathologically fraudulent, fanatically religious or otherwise unreal.

**Billy:**

You have explained this so often, but the lunatics and the sceptics on Earth simply do not allow themselves to be taught. But what about, for example, the machinations of the South American groups, who own the appropriate aircraft and like to pretend to be 'extraterrestrials'?

**Ptaah:**

249. That's a story in itself, because these power-hungry lunatics haven't stopped their activities by a tiny bit yet.

250. On the other hand, it has to be said that it appears again and again, but very rarely, that human life-forms land on Earth and are seen and observed unintentionally or by carelessness of terrestrial inhabitants.

251. This, however, usually has no further consequences than that both sides become terrified and the visitors set off again as quickly as possible without making contact.

...

289. Also in the field of the alleged contacts with extraterrestrials and in reference to all kinds of machinations of channelers and summoners and the like more, discoveries of swindles and deception will take place, because the time of relevant realizations comes closer and closer, of which already the first contractions are noticeable.

**Billy:**

Then slowly and finally the time comes when the swindlers and cheaters as well as the liars, slanderers and pseudo-scientists slowly lose their power and are recognized.

**Ptaah:**

290. Unfortunately, this won't be that fast, but the beginning has already begun, even if the way to the final goal is still long.

291. The innumerable liars, swindlers and deceivers and the pseudo-scientists in matters of ufology, alleged contacts, channeling etc. and the believers of these gloomy and slanderous and misleading machinations, however, are all recognized and branded, no matter whether it is about the falsehoods of the alleged 'FALCON' of the American secret service or about other lying stories and machinations of 'LITTLE GRAYS' and other nonsense.

...

**Billy:**

I just wanted your confirmation once more that this is really what I said. Consequently, neither material humans nor any spirit-forms or other life-forms on the Pleiades known to terrestrial humans can maintain any contacts of a psychological, spiritual, physical, conscious, sentimental or emotional or telepathic nature with humans on Earth.

**Ptaah:**

765. That is correct, because if no life-forms exist on stars or planets, neither in material nor subtle nor even pure spiritual way, then no contact can be maintained with such non-existent non-existences.

766. So I don't quite understand your question.

**Billy:**

I simply want to point out that so many lunatics on Earth still claim and the longer the more that they have contact with humans or spirit-forms etc. of the Pleiades, e.g. the liar B. F. then the South American or Mexican C. and the Mexican professor anyway, then also the actress M., with whom we had quite bad experiences, but also G. G., who wants to maintain contact with a Pleiades commander Hatoon, then P. M., or as they are called and many, many others, such as R. B. and the super-channel G. C., etc. etc. and so on.

**Ptaah:**

767. They all fall under the names of liars, swindlers and fraudsters.

...

**Billy:**

... Is it possible that humans on Earth are so far evolutionary that they could break through the split-second space-time barrier between our and your space-time structure consciously, telepathically or spirit telepathically in order to maintain contact with humans or spirit-forms etc. from your space-time structure?

**Ptaah:**

768. That applies with absolute certainty only in one case, and that is with you.

769. Otherwise no human or material life-form lives on Earth that would be capable of such contacts through the space-time barrier.

770. Almost three millennia will pass before the first humans on Earth will be able to do this.

771. You are the only true exception, but there are reasons for this that go back billions of years into the past and cannot be understood by all the contact liars and other swindlers and deceivers.

**Billy:**

A clear answer. Then the next question: Do you know if any of your people constantly, periodically or sporadically change from your space-time structure into our space-time structure to do any work or to maintain contact with people from Earth, whereby I don't mean you and all those who have to do with me or in relation to the mission, but whose number to know would be extremely interesting?

**Ptaah:**

772. I can fully answer your question:

773. In this or in your space-time-structure there are at the moment 16 persons each in a fixed cycle, who are on Earth as mission-related and missionary representatives and who are exchanged in a fixed cycle.

774. Of these 16 people, not a single one maintains any contacts of any kind with people on Earth or with people who live on Earth and who came to Earth from other planets at earliest times.

775. In addition to these, I am the only one left with my entourage of 122,406 other people, who, however, apart from me without exception would not maintain any kind of contact whatsoever with Earth-humans, neither in a short-term nor in a long-term form.

(Note Ptaah from 16.9.2004: The 122,406 persons in Ptaah's entourage are the crew of his gigantic room.)

776. For my part, I maintain the only contact on Earth with your person.

777. Until the year 1986 there were 718 persons of our homeworlds and of our federation in three different stations in total on Earth, but also among them not a single member maintained any contacts to any people on Earth – except to you.

778. Otherwise no people from our space-time structure come into your space and into your time, consequently never any contacts of any kind could be maintained by such persons.

**Billy:**

Then you have the absolute control over it, if any people from your space-time structure would come into our time and into our space, as you would have then also an absolute control over it, if such people of you or of your federation would have contacts to people on Earth.

**Ptaah:**

779. This is the state of affairs and the truth.

780. The only person on Earth who is in contact with us in truthful form is you alone.

781. No one and no person on Earth except yourself has any contact with us or any of our allies, whether physical, telepathic or otherwise.

782. He who claims otherwise lies and deceives obviously and unrestrainedly.

783. Everything will become more and more evil in this respect, because already the first course has been set for lying contact assertions also in the European area.

784. The few in Europe who have claimed so far that they are in contact with me or with my daughter or with other people from our worlds, as the liars in America and South America also claim, will not be the only ones in the future, because already groups and individuals are preparing to commit big lies and scams also in the European area in the sense that they will claim that they are in contact with me or with my daughter or with other people of our peoples.

...

**Billy:**

... We spoke earlier about the contact liars, whereby you only mentioned yourself and Semjase as well as other persons from the Pleiades. I suppose that it's not just a case of lying, that you Pleiades are supposed to be in contact with each other. In my opinion it should behave in such a way that alleged contacts with alleged people or forces etc. of other stars also appear, right?

**Ptaah:**

791. Of course this will be so.

792. Strangely enough, however, all contact liars and sick as well as delusional believers have been concentrating more and more on us, who come from the Pleiades, for several years now.

793. But that it is impossible for all people on Earth except you, first of all, to enter into any physical or telepathic or any other kind of contact with us or, secondly, to penetrate our space-time structure in any way, is unknown to all contact liars and sick people as well as delusionists and also absolutely incomprehensible, because they are trapped and caught in delusional heresies of esoteric-occult parapsychological machinations.

...

**Billy:**

... I am also interested in other things, such as the fact that although you do not maintain any contacts with earthlings or other people of any origin on Earth, you send out one-sided impulses to certain people on Earth who are caught and evaluated. We also call these impulse connections contacts somehow, but this is a wrong term because all those people on Earth – usually scientists – do not have the slightest idea or knowledge that your impulses will point them to certain things and insights. The questions: What do you call these impulse connections and how many such impulse connections are there on Earth?

**Ptaah:**

806. These impulse connections, as you call them, are actually not to be classified under contacts, because contacts can only be called as such if both parties of a one-sided or mutual communication are fully aware of this.

807. If, however, it is only a one-sided impulse connection, then the person receiving the impulse has no idea that something is transmitted to him, as is the case in every single case with the people on Earth to whom we send impulses and whose number is currently moving at 31,104, so that you realize that there are many more of them than when you last inquired about them.

808. But now to answer your question completely:

809. We call these impulse-connections simply impulse-attachment, because we truthfully only add impulses to that which is present in every human being in every thought-, idea- and impulse-good of personal form.

810. In each individual case, our impulses to this end are coordinated in such a way that the recipient never recognizes the foreign influence, so that such a person could never speak or recognize that he receives or receives any impulses from outside himself.

**Billy:**

That would answer my question, but another question remains unanswered: Why do the many people on Earth who claim to have contact with you Pleiades, I mean, why do these crazy people claim to have contact with you Pleiades?

**Ptaah:**

811. We have been following this question a long time ago and found the reason in the fact that light attracts moths, as people say on Earth.

**Billy:**

Ah, that's what I thought. It couldn't have been any other way.

...

**Billy:**

Well, then please explain what that is exactly like with those people who have to be regarded as such with real contacts to other levels or beings etc. of non-tirdic origin. Of one million alleged contact persons etc., there should only be about 200 who have real contacts. As I have understood the matter, which unfortunately was not equally understood by others, the opinion is that per one million people who claim to have any contacts or other connections to higher levels and higher spiritual forms, to extraterrestrials, to spiritual leaders, which is horrendous nonsense

anyway, etc., per one million such assertions just 200 can apply all around. But as far as I know, there are just five people on Earth who might say that they have contacts or any kind of connections that are outside the usual and normal. These, however, remain silent and in no way enter among the people, neither in the small nor in the large. As far as I know, there are about 11,000 people around the world who claim to have contacts or other connections in the aforementioned form, which also corresponds in percentage to the five people who have actual contacts. In my opinion, however, this is probably a calculation that has only been calculated as a percentage from these 11,000 contact claims, so that I cannot help but doubt the result with regard to around 200 people per million claims. As I know the conscious state of evolution of all human beings on Earth, so that of the pure Earth-born, as well as that of the immigrants from space, the fact arises for me that on Earth at the present time not 20 people are able to maintain actual contact connections of the mentioned form, if I disregard those about 30,000 who receive impulses not recognizable for them. So it can never be true that 200 people per million claimants would be capable of such contact connections. In my opinion, your calculations in this regard can only be that you have calculated a possibility that would result from one million contact claimants, calculated according to the five real contact claimants from the mass of about 11,000 contact claimants.

**Ptaah:**

877. Your thoughts correspond to the correctness and so also your considerations

...

**Billy:**

... Of course it will now be the case when our conversation becomes known that on the one hand all envy, know-it-alls, critics and would-be contactees, liars, swindlers, deceivers, sick people, lunatics and charlatans etc. will question everything and that on the other hand megalomaniacs and incorrigible liars and deceivers etc. will claim that they of all people would belong to the five persons who are considered to be actual contactees and other liaisons.

**Ptaah:**

880. Both will certainly be the case, although it must be said about the five true contact persons that they will never and under no circumstances ever mention their abilities and contacts in a single word.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_241](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_241)

**Ptaah:**

218. Those responsible in all countries ignored your messages and laughed at you and us because they did not allow your words or our existence to be real and effective.

219. This not least also because on Earth many kinds of swindlers, liars, deceivers and madmen, sectarians, fantasists, hallucinators and many other poor misfits do their mischief concerning alleged contacts to us, to other and other alleged extraterrestrials and 'higher powers' and similar madmen who appeared and still appear, who with their lies and fantasies etc. who sell the stupid for even stupider and shock the thinking with all their nonsense and put them in front of their heads.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_244](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_244)

**Billy:**

... On the other hand, we've known for years that America is home to the worst swindlers, liars, cheaters and charlatans in terms of UFOs and contacts, and that no one anywhere in the world can even touch them with cold water in this regard. This has already begun with G. A. *{probably George Adamski}* and has survived to this day. The fact, however, that those in America who can be accused of real experiences with extraterrestrial intelligences must suffer as a result as well, even if in reality these are only half a handful, does not bother these liars, deceivers and charlatans etc., who add everything in order to denigrate the Americans in general. Of course

only the liars, deceivers and charlatans etc. can do anything for this disparagement, and these are the deceivers and liars and charlatans etc. who must also be called such. Unfortunately, swindlers, liars, deceivers, charlatans and sectarians, etc., are especially marked in America and in large numbers, and probably in no other country on Earth do they appear in such masses and with such impudence and impudence as they do in America, regardless of whether they are R. B. {*probably Roberta Brooks*}, F. B. {*probably Fred Bell*}, G. A. {*probably George Adamski*}, G. G. {*probably George Green*}, medicine man {*probably John Twobirds Arbuckle*}, or whether they are in the hands of the people of the United States. John Two Bird {*John Twobirds Arbuckle*}, H. M. {*probably Howard Menger*}, R. W. {*probably Randolph Winters*} or whatever. They are all the ones who demonize everything and bring the Americans into disrepute, which ultimately also affects all those who are decent and honest and can't help being denigrated. ...

...

**Ptaah:**

92. For a long time, in certain circles the truth has been penetrating more and more that you are actually in contact with us and that you are truly the only person on earth at present who is connected with intelligences of extraterrestrial origin in both physical and telepathic form.

93. For this reason, on the one hand, attempts are made to disrupt or ridicule our contacts and connections by all possible means full of intrigues, while on the other hand, lunatics, the sick, those who are addicted to renown, and many others try to posture themselves in public in order to be regarded as something they imagine.

94. These liars, cheaters and swindlers, however, do not consider that we would never get involved with them, which is why their stupid and lying assertions have no truthful foundation.

95. We could never find ourselves ready to enter into physical or telepathic or any other kind of contact with earthlings, because on the one hand we would endanger our own lives because our mental vibrations cannot harmonize with those of earthlings, and on the other hand because the machinations of all the lies, the swindle, the deception, the charlatanism, the sectarianism and all other degenerations of the earth's people alone offer no possibility of connection between them and us.

96. All the degenerations of human beings on Earth sufficiently prove that they are incapable of any contact with us, not to mention the impossibility of harmonizing the various mental vibrations.

97. This means that the Earth-humans must find their way, even those who cannot understand and do not know the secret of why you are the only person on planet Earth who can maintain contacts with us and with other forms of extraterrestrial life.

98. Especially all the charlatans, liars, sectarians, deceivers and all other trash cannot cope with this, which is why they are envious and denigrate you in every possible way.

99. This also applies to those who call themselves megalomaniacal ufological or esoteric experts, but who in reality have no idea what is really going on.

**Billy:**

You mean the esoterics and ufologists as well as crop circle specialists, etc.

**Ptaah:**

100. Of course, I'm talking about them.

**Billy:**

Special comedians, these guys. Just like those Americans who do nonsense with their '[Little Greys](#)'. Say, doesn't that put an end to these weirdos, comedians, phantoms, liars, cheats, swindlers and sectarians as well as charlatans, schizophrenics and all the unfair rabble? Is it really to be the case that they can continue to do their mischief and drive people astray and into delusion, misery and misery?

**Ptaah:**

101. Unfortunately, there is no end in sight in this regard; on the contrary, everything that is related to it will increase even more, with everything becoming more and more in a vicious religious-sectarian delusion.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

All these years we have talked very often about sightings of extraterrestrial aircraft and about those people who claim to have contact with extraterrestrial life-forms and even with extraterrestrial humans, the rule being that many sightings only correspond to imaginations or deceptions, while alleged contacts with aliens are only bragging, lying, dizziness, charlatanism and fraud, with a few exceptions where terrestrial humans were practically forcibly contacted by extraterrestrial beings, most of the time making those contacted helpless, after which they were subjected to tests and investigations. In one issue of a magazine, various reports are listed in which Germans claim: "We also met the aliens". I had this issue of Magazine 2000 picked up for you so that you could see it. Was that possible for you?

**Ptaah:**

33. Certainly.

34. The magazine was handed over to me as well as the video film about the TV show of Rainer Holbe.

35. I must explain that both the allegations in this magazine and the allegations in Holbe's show are free inventions, some of which have the touch of charlatany and some of which have the touch of lies, deception and fraud.

36. Not one of the allegations about UFO encounters or UFO contacts, as you call it, is true, neither in this magazine 2000 nor in Rainer Holbe's program.

**Billy:**

That was to be expected, because on a private basis, fraud, lies, charlatany and fraud have been practiced in these matters for a long time, which, according to your statements, should increase in the future. Unfortunately, this also discredits and ridicules the real UFO observations, if we want to stick to this name. But there are other UFO observations, namely those that fall within the scope of official and military secrets. This also involves various events of the past and present, about which a great deal has been written, claimed, talked about and kept secret in the private sphere of so-called UFO research. Stories about crashes and salvages of UFOs also appear, e.g. the case of New Mexico towards the end of the 1940s, etc. But also names like 'Falcon' and 'Condor' etc. play an important role, whereby it should concern CIA members etc., who should pass on UFO information to the public under these pseudonyms, of course without letting their face become recognizable. Also the so-called 'Little Greys' play a very important role, which allegedly in the USA about three million people are said to have insisted, impregnated and maltreated with operation scars and painting etc.

**Ptaah:**

37. Which, of course, is sheer nonsense and has no reality at all.

38. We are well aware of the hysteria of such delusions in America.

39. This is already spreading to Europe, with a particularly fertile soil to be found especially in Germany.

40. On the other hand the delusion and the hysteria are still consciously stirred up from different places, whereby also this 'Falcon' appears, whose false information is taken by all stupid believers gladly as cash coin.

...

**Billy:**

... Then a question about [the Hills](#) in the USA, which had been abducted by life forms of extraterrestrial origin, namely by human beings from the area of the stars Zeta Reticuli, 37 light-years away. I believe that you told me at the time that this was correct.

**Ptaah:**

47. Yes. –

48. This forced contact is also the origin of the nonsensical stories and hysteria about the 'Little Greys', which have nothing to do with the truth in any way.

49. The fear and hysteria and the imaginative stories about the 'Little Greys' correspond to a well-managed false propaganda to put certain things in a false light on the one hand and to conceal certain events and machinations on the other.

**Billy:**

What is certain is that there are inhabited planets in the area of Zeta Reticuli, planets inhabited by humans. Does this apply to both Zeta Reticuli 1 and Zeta Reticuli 2?

**Ptaah:**

50. This is true, but we do not maintain any contacts with the local inhabitants, who are not even aware of our existence, which we have been observing for several millennia.

51. However, our interests do not lie in establishing contact with the ways of life of those areas, since they do not yet possess certain forms of development that would be necessary for establishing contact.

**Billy:**

Probably in reference to your directives?

**Ptaah:**

52. That's right.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_249](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_249)

**Billy:**

My first question once again refers to UFO sightings and so-called abductions by aliens: Can you tell me the number of alien races that are currently flying in and out of the earth or doing their studies here or working here in any other way?

**Ptaah:**

14. For many years they have always been the same and in their number only three.

15. Our behaviour towards them is that we observe them and we do not interfere in their actions, doings and actions, even if they have no knowledge of our existence.

**Billy:**

And, do these three alien races have contacts to Earth-humans or have they maintained contacts to Earth-humans of a simple kind or to military people etc.?

**Ptaah:**

16. Already in a previous conversation I have stated that I am not allowed to give any official information regarding any concerns if the questions refer to official or military concerns in connection with possibilities of contacts with non-terrestrial, human intelligences.

**Billy:**

Well, then what about ordinary people on earth?

**Ptaah:**

17. There are no contacts existing between the three groups or alien races, except for investigation contacts in which terrestrial humans, plants and animals are or were actually contacted for test and investigation purposes, which does not mean, however, that the mass hysteria and mass psychosis of all those are actually based on such experiences, which claim that they have been kidnapped and investigated or even impregnated by alien beings.

18. Truthfully, there are always only isolated cases here and there all over the world, which are extremely rare, but which cannot be regarded as contacts in the sense of an actual contact in the context of our case.

19. From our entire side there is also only in your case such a contact and no others, not even in telepathic form.

20. Contacts that we maintain with Earth-humans are purely impulse-telepathic, so the persons contacted in this way have no knowledge of it and assume that everything created by them is their very own work.

21. Truthfully, however, much of the information for the creations and products etc. comes from us, brought into the human beings through the impulse telepathy contacts, which in any case are always unconscious for the recipient, so that he has no idea that the information etc. is being impulse-telepathically planted into him.

**Billy:**

When Earth-humans are lifted into extraterrestrial flying apparatuses and examined by extraterrestrial human intelligences for examination purposes, you do not call these processes actual contacts, but rather investigation contacts. Together with Hans, I have coined the term 'examination contact' in this context. Could this term be used?

**Ptaah:**

22. This terminology is actually very good.

23. Examination contact.

24. This term also removes the sting from untruth that terrestrial humans would be kidnapped by alien beings.

25. The truth is that the Earth-foreigners, the exterhumanoids, see nothing wrong and above all no abduction in their examination contacts, but only a humane means to an end, in order to carry out incidental studies from which new knowledge etc. is gained.

...

**Billy:**

... But now back again to the alleged abductions of earthlings by extraterrestrials: Especially in America and South America and recently also in Germany such assertions occur again and again, whereby various attempts have been made to prove the 'truth' of the statements by hypnosis. If the assertions were correct, then already more than 3.5 million Earth-humans would have been examination-contacted and many women, particularly Americans and South Americans, would have been impregnated. It is even absurdly claimed that children have already been born from such impregnations, half earthly half extraterrestrial – called hybrids.

**Ptaah:**

154. Everything corresponds to unbelievable nonsense.

...

**Billy:**

Three alien races have been on Earth for several years, you said. Do they also have stations here, if they are constantly present?

**Ptaah:**

168. Only one of the three groups is still stationed on Earth for some time, while the other two groups appear only sporadically or periodically.

**Billy:**

And new aliens, how often do they come into contact with the earth?

**Ptaah:**

169. That is quite different.

170. In earlier times it happened only twice that during a period of 100 years more than two groups of non-Earthly intelligences flew into the earthly space.

171. Usually, such occurrences are only sporadic, as often as many hundreds or thousands of years pass before another alien race reaches Earth.

172. Sometimes several thousand years pass before such an event takes place again.

**Billy:**

All the nonsense that is told and spread about UFOs and extraterrestrials on earth has spread like a festering ulcer, whereby also the actual UFO sightings and observations are denigrated and referred to the realm of fantasy and delusions of the senses.

**Ptaah:**

173. That is indeed so.

**Billy:**

The three groups that fly in and out of the earthly space besides you once had real contacts to earth people?

**Ptaah:**

174. No

**Billy:**

But did they have any examination contacts?

**Ptaah:**

175. That only applies to their two groups.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_251](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_251)

**Ptaah:**

13. To justify you I may speak officially today about it and give the facts of the fact that we have analysed and evaluated in a special way the film and photomontages as well as the film trick shots of all false and fraudulent, alleged contact persons or UFO observers and found out that their faked film and photo material found approval with the terrestrial people, completely particularly with so-called UFO specialists, who call themselves ufologists etc., to which also well-known scientists belong.

14. The ridiculousness of the forgeries and the believers in them is striking, but they were extremely effective.

...

**Billy:**

... The Earth-humans, the genetically manipulated, were however also disobedient to the Lyrian and Pleiadian gods, even if some of these gods wanted to force earthlings under their yoke and their rule with all force, like e.g. the Giza intelligences and Ashtar Sheran and cohorts. The former well-meaning people were also divided into two groups, one, which swore revenge and became of a different meaning, and the other, which remained well-meaning towards Earth-humans and which also wants to return some day. But only these 'gods' know what this will result in the future for one or the other group. If they really come back one day, then nothing good is to be expected from those who have changed from the well-meaning to the maliciously-minded, but who, despite their change to evil, could not return to their original home in the Sirius regions, because there, through their betrayal, they became ostracized, who must since then also beware of letting the former producer rulers know the place of their existence, because they too fell into their vengeance spell. Despite their departure from Earth and from the SOL system, these former good spirits who are addicted to vengeance still have certain contacts with Earth and occasionally come here, maliciously influencing earthlings with false messages and visions etc., as was also done by the dark elements of the ancient Lyrians.

...

... And exactly this is the case, because the prerequisite is that, if everything happens according to the truth, the human being on earth first rectifies the damage or the degeneracy of his genetic manipulation and becomes completely different and natural sense, thinking and acting, before he gains open contact to alien races and peoples and thus to extraterrestrials. This means, however, that a whole series of years must pass before this prerequisite is fulfilled. Until then, however, all kinds of events and changes etc. will occur on Earth and in the human being of this planet, which on the one hand are simply evolutionarily necessary and on the other hand unavoidable due to the thinking and acting of the life form Earth-man, from which many things will inevitably result, which are often very dangerous as well as inhibiting evolution, but on the other hand also promoting evolution and therefore absolutely unavoidable. So if you look at everything this way, then official contacts with extraterrestrials are not really recommendable at

the moment, because the terrestrial human being would not yet be able to cope with them in the right form, both from the religious-sectarian as well as the secular-sectarian and military side, and also from the economic and political side. So it would be completely out of place for the present and for the future if official contacts with extraterrestrials were to take place. This is currently only possible in an individual form or in certain small groups, whereby in this direction also secret contacts in military and official form are excluded. This however leads the longer the more to the fact that contact swindlers and observation swindlers appear, who present already with computers perfectly falsified alleged film and photo proof material, to which then likewise faith is given like also all the swindlers, cheats, charlatans and delusional illnesses etc., who in matters of aliens, God, Jesus Christ, Mary and Joseph, Moses and with various saints and masters etc. are able to cast a spell over many stupid believers, because man, in search of the truth, is simply too easily and gullibly led around by lies and deception.

Well, before it is so far that contacts with extraterrestrials will take place in official form, when everything goes the way of its correctness, then this will only be when earthly man is mature enough for it, and exactly that will take some time, during which a great deal will happen, also in the respect that only certain proofs will be found that on the one hand earthly man originally does not come from this world, and on the other hand that he does not exist alone in the universe and therefore also not alone in this galaxy, the Milky Way. ...

...

**Ptaah:**

50. We were just talking about those who had played an important role up to that point, namely the three groups that we had discussed in one of our last conversations.

51. In addition to these, there are a few other groups of extraterrestrial origin that fly to Earth and can be observed here more often, but none of which is in contact with any Earth-humans, neither on a private nor on a military or governmental basis.

52. Some of them come to earth purely for excursions or expeditions, others have other interests, but none in the way that the hysterical Americans portray this with the impregnation of earth women by Earth alien intelligences or the impregnation of Earth alien women by men of Earth.

53. The nonsense about massacring animals etc. etc. can also be forgotten, for such things do not apply either.

...

**Ptaah:**

113. Now that we are withdrawing from Earth, I would like to come back to the fact that neither we Plejaren nor any of our Federation's allies maintain contacts with any humans on Earth, neither in physical nor telepathic form.

114. Such contacts have also never existed, if we disregard those five persons whose identity you know, however, and who, on the other hand, died years ago and who never came to the public with their knowledge.

115. What is to be called from our side, however, are the impulse contacts, which we maintained with scientists etc. of Earth and which we also continue by means of suitable apparatuses, of which however none of the persons concerned knows and will never know anything.

116. These impulse contacts are solely evolutionary and trend-setting, which means that research is carried out and inventions made as well as insights gained and literary works created in a trend-setting form, i.e. science fiction works that are often also processed into films.

117. In physical and telepathic form you are thus the only person on Earth who is in contact with us and has ever been in contact, if we disregard those whom you knew and who died.

**Billy:**

And how about other extraterrestrial intelligences now: Do any of them have contacts with Earth-humans today? I mean private individuals and the like who have nothing to do with governments and the military, which you are not allowed to talk about.

**Ptaah:**

118. This question can clearly be answered with no, because neither those three groups who are permanently or very frequently on earth maintain any contacts with people of private or religious form on earth, which can be said with absolute certainty and factuality, nor those several extraterrestrial visitors who come to Earth for excursions or expeditions or for any other reasons.

119. The exam-contacts are excluded thereby, because there is no talk of it, because these are not based on a mutual contacting.

**Billy:**

So there are no contacts between private Earth-humans and extraterrestrials. And as you said, there are also no religious contacts between Earth-humans and extraterrestrials ...

...

**Billy:**

You mean the fact that the time is approaching when official contacts with extraterrestrials will take place?

**Ptaah:**

...

144. In the time to come, even farther away, a lot will happen and change with regard to alien aircraft and their crews, but also with regard to earthly, mysterious and strange-looking flying machines.

145. Also contacts with extraterrestrials are to be expected, which will be however of a completely different nature than all previous lying, swindling and deceitful would-be contactees have presented them with all their religious-sectarian nonsense etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_256](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_256)

**Ptaah:**

10. Many allow themselves to be misled by these slanderers, negators, know-it-alls and intriguers and thereby offer attacking help to those who, out of hatred or envy, out of anxiety, religious-sectarian deluded belief, know-it-all attitude, addiction to criticism, image-care, craving for recognition, imperiousness, inferiority complexes, megalomania, arrogance or renunciation, etc. deny our existence and try to undermine and destroy you, as well as your mission, like e.g. your wife with immense lies and calumnies.

11. In many cases, the material profit also plays a decisive role in it, which is particularly important for those, for whom money means everything and for which no intrigue and defamation, as well as no lie or fraud is too low for them.

12. And this kind of human beings can, sadly, be found on the Earth in abundance, whereby many of them are also not afraid to slander us ourselves in the way that we would be in contact with them and that we would supposedly convey to messages and teachings to them, as it is claimed particularly mendaciously by persons of American origin, whereby this evil has however also already spread to Switzerland and Japan as well as to Germany, Poland and the CIS countries, to Austria, Italy, Israel, Spain, France, the Scandinavian countries, the Czech Republic and to several other countries.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_257](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_257)

**Billy:**

Besides you Pleiades and the members of your Federation, there are also other alien beings visiting our world, whose aircraft can be observed here and there.

**Ptaah:**

84. That is correct, but not our concern, because we do not maintain any contacts to these very rare aliens, just as we do not maintain any contacts to Earth-humans.

85. In physical as well as telepathic form you are the only person on earth who has been cultivating contacts with us for years, as we have often explained.

86. Earlier contacts with people on earth are excluded, however, as you know, because such contacts actually existed at times.

87. However, these were terminated very early.

88. So the situation today is that all those who claim to be in telepathic, physical or any other way contact with any spirit beings or physically existing people of our race are liars, deceivers, charlatans or delusional patients.

89. For many years now you have been the only human on Earth, who can say about yourself with a clear conscience and truthfulness that you are in physical, spiritual telepathic and emotional contact with us.

...

93. And it is not surprising that new delusional illnesses, liars, fraudsters, charlatans and swindlers appear again and again in this regard, because with such untruthful things a lot of money and other profits can be made on earth with believers who respond to them.

94. A fact that also applies to the so-called UFO-contacts resp. to the alleged contacts with extraterrestrials.

...

**Billy:**

*... Regarding the contacts with extraterrestrials, the circumstances are partly the same as with the UFO observations, in the form that a fantasy is called forth, because actually any contact with extraterrestrials occurs only in the most exceedingly rare cases, and as a rule also only in an unintended form. Intentional extraterrestrial contact with Earth-humans would normally be taken up only most rarely, whereby the so-called examination contacts predominate, whereby the Earth-humans would be "abducted" for examinations, respectively, analyses, and hauled into spaceships. However, those examination contacts have nothing to do with the mass hysteria of the alleged abductions, through which they would inflict pain or steal sperm or the fruit of the wombs from "abductees", to breed a new species of human, etc. Many times these mass hysterias rest upon certain phobias under which the allegedly abducted ones suffer, as well as sleep-paralysis visions and Real Vision, etc, that convey an impression to the beset humans that they have or have had an actual experience. But there are still all of those who assert that they maintain physical or telepathic contact with extraterrestrials, mostly connected with religio-sectarian delusional teachings and assertions that withstand no reason. But in this matter it is exactly these religious delusional teachings and assertions from which very many humans feel addressed and which these "contactees" believe, who in truth are either profit-obsessed deceivers, flipped-out sectarian fanatics or simple charlatans, who, altogether however, lead their believers around by the nose. Thereby not to be forgotten at any rate are the chronically delusional who suffer from some form of schizophrenia or simply imagination. ...*

...

... Unfortunately, we have so many crackpots here on the Earth, and unfortunately even more misguided ones who believe all the nonsense of these crackpots. Furthermore, there are still many conscious liars, cheaters, swindlers and charlatans who take advantage of the New Age madness of the believers and make horrendous profits out of it.

**Ptaah:**

119. Unfortunately, that is the truth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_261](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_261)

**Ptaah:**

22. As we have explained several times before, you are also the only person on Earth who is in contact with us and with our spirit levels, which means that not only this Adrain-Arkon is lying and cheating about alleged contacts with us, but also all others who dare to claim to be in contact with us via channeling or telepathy or even physically.

23. Apart from you, no other form of life on Earth has contact with us Pleiadians/Plejaren or with beings of our spiritual levels.

**Billy:**

Apart from the fact that the Pleiades, which we see here from the earth, are not identical with your Pleiades, and on the other hand the Pleiades known to us in our universe are only 62 million years old and therefore still hellishly hot and too young to carry life or even to have gathered planets around themselves, on which ultimately life would be possible.

**Ptaah:**

24. This is a fact that is not taken into account by all alleged earthly contact persons, because they do not know the relevant facts.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_264](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_264)

**Billy:**

But do you know to what extent other extraterrestrials maintain contact with Earth-humans, I mean with normal citizens and so on?

**Ptaah:**

51. Mostly, once in a while, from time to time unwanted contacts with Earth-humans arise, or then very rarely examination contacts are carried out, which are about examinations and tests etc.

52. But I have explained this to you before.

53. We do not know of any continuous contacts between extraterrestrials and Earth-humans, but they could still exist under certain circumstances, which however, is unlikely.

54. Unfortunately, there was also a forced contact, whereby an Earth-foreigner was practically imprisoned at a certain place by earthlings, on the one hand for examination and on the other hand because of his foreign and highly developed technology etc.

*(NB. Ptaah, 3.3.2005: The captured Earth-foreigner already died some years ago.)*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_275](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_275)

**Billy:**

... Then I'd like to talk about something that is old beer and we have talked about a lot. I think, however, that it will still be necessary to deal with these issues again. The thing is: Recently I had a video played to me in which various people from the American and South American regions as well as from other parts of the world claim that they are in contact with Pleiadian groups or individuals or even 'spiritual beings'. But you have repeatedly assured me that such assertions do not correspond to the truth. Now another time the question: Do any other groups other than yours or any other persons other than yours have or have had contacts to Earth-humans? Do any other plejadic-plejarian commands exist or still exist on Earth, other than your command? Several people from America and South America contacted Wendelle Stevens – some of them years ago – who claimed and claim that they had had or still have contact with Pleiades from the Alkyone system, whereby the different Pleiadian contact groups had no knowledge of each other and therefore did not know that other groups were in contact with terrestrial humans.

**Ptaah:**

30. Overall this corresponds only to lies, fantasies, dizziness and fraud, because all Pleiadian-Plejaren groups, and thus also all individuals, have always been – and still are today – under my command, because I am the Jschwish responsible for this solar system, but also the one responsible for the entire Pleiadian-Plejaren systems, so consequently nothing can be done with

regard to contacts with terrestrial humans without me having knowledge of it and issuing an order for it.

31. We have already explained to you several times that of us Plejadians/Plejaren only my command is authoritative for the Earth and that apart from the members of my command no other Pleiadian-Plejaren forces have contact with any human beings of the Earth, neither physical nor telepathic.

32. Some earlier contacts with terrestrial humans are therefore in no way identical with any claims of alleged contacts of terrestrial persons with any Pleiadian-Plejaren groups, individuals or so-called 'spirit beings', which belong to a delusion and misbelief in this respect anyway and are a product of fantasy.

33. The few Earth-humans with whom we were physically or telepathically in contact were known to you through our explanations, and these were in no way connected with the alleged claims of contact with any of our powers made and still appearing by many selfish and lying as well as swindling Earth-humans.

34. And as you know, those earthly persons with whom we had physical or telepathic contacts and who were known to you, sometimes even personally, have not been alive for quite some time.

35. So it can be said that you are actually the only person on Earth who is in physical and telepathic contact with and from the Pleiadian/Plejaren.

36. But anyone who claims otherwise, precisely in the sense that he or she is in any kind of contact with us or with other groups or individuals etc. of the Pleiadian/Plejaren, is at least guilty of lying.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_294](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_294)

**Ptaah:**

32. But this also applies to other lying allegations by several people that tell misleading stories about being in contact with aliens.

**Billy:**

There is America especially big with such liars, but also Germany and Japan with different other countries. Even in papal Italy this is the case several times and also here in Switzerland. Recently also in the Czech Republic, where a woman claims to be in contact with you.

**Ptaah:**

33. This lie is also known to me, as all similar lies that emanate from Japan, Australia, Germany, Italy and America, etc., are.

34. In fact, there is no person on earth other than you who is in personal, physical or telepathic contact with us, as we have already explained several times.

35. But anyone who claims otherwise is guilty of lies, deceit, deceit or charlatanism.

36. There is no spiritual or material level in our Plejaren or Pleiadian federation from which a being or a collective is in any kind of contact with any human being on Earth.

37. You are and remain the only human being on Earth in this relationship.

38. The pure teleimpulse contacts cannot be considered, because they are not consciously perceived by any being, but only subconsciously, in a way that they never enter consciousness as conscious values.

**Billy:**

Yes, you have explained that many times before, but still there are always some idiots who do not understand your message and claim that they have contact with you or other Pleiades or Plejaren, either in physical or telepathic form.

**Ptaah:**

39. This corresponds to correctness, but the whole thing only came about with it after the contact conversations between us and you were spread around the world, after which we

Pleiadians/Plejaren were then used and are used as a model for the lying, deceitful and swindling earthly elements by the conscienceless and irresponsible who, addicted to images and greedy for money, try to puff up their non-existent character and personality values and lead their believers astray.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_295](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_295)

**Billy:**

... What do you actually think of all the alleged contact people who claim to have contact with extraterrestrials?

**Florena:**

37. You know that I don't think much of the machinations of such Earth-humans in this respect.

38. This opinion also applies to Ptaah and all the others of us.

39. If it were really the case that such alleged contacts took place, then they would certainly be connected with a line of the doctrine of the spirit that has existed since time immemorial and always continues.

40. This teaching, however, as you yourself know best, is extremely extensive and practically endless and is rooted in the existence of creation and its laws and commandments.

41. And this teaching is not to be explained in the form in which the alleged female and male contact persons of earthly origin explain it by writing down alleged messages and transmissions of alleged extraterrestrials and publishing them in books.

42. Truthfully they should know, present and interpret the profound teaching of the spirit in many details.

43. But they are not in a position to do this, which is why the alleged contacters steal material that appeals to them all around and then decorate it with their own trains of thought in order to then declare it as alleged messages, messages and teachings of some extraterrestrials.

44. Especially your published material, which has been illegally translated into other languages worldwide, is a very popular object for these counterfeiters and swindlers of both sexes.

45. And if one gets to the bottom of the machinations, books and writings as well as the alleged teachings of these elements, then one very quickly recognizes whose actual origin their teachings, messages and messages etc. are classified.

46. The rule also proves that these alleged contact persons bring teachings, messages and messages of allegedly extraterrestrial origin, which are either strictly sectarian, religious or simply shaped in such a way that they originate recognizably from an earthly man who has the thought form of a do-gooder.

47. There can be no question of the doctrine of the spirit, which is free of coercion, anxiety, dogmatism, karma and punishment, etc., in these false doctrines, messages and notions, nor of these would-be contact persons being able to explain the concerns of the doctrine of the spirit.

48. This really requires a human being who has been familiar and knowledgeable in these matters since time immemorial and beyond many of his personalities.

49. For this reason, it would never be enough to maintain contact with extraterrestrials if the necessary knowledge, experience, experience and wisdom were lacking, which, however, is absent from all these alleged contact persons.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_307](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_307)

**Sfath {1945}:**

*140. It will also unfortunately be the case that many will shamefully misuse the names of your encounter persons of extraterrestrial origin as well as the names of the pure spirit levels and claim that it is not you who would have the encounters with us from the Plejaren systems, but them, or that they would have these encounters at the same time with you, which you and my successors will later call contacts and contact conversations.*

*Is it then the time that these lying and slanderous events are true, when your material is*

141. *stolen and many swindlers worldwide come forward regarding alleged encounters with me and my followers and these appear with false and fraudulent messages and even claim the impossibility for themselves? that they are in telepathic connection with me or my followers, then these false contact persons, as you will then call them, will already be recognizable by claiming that their physical or telepathic encounters and connections exist with entities of the plejad system of this space-time arrangement, with which, however, I and my followers are to be this.*
- But we do not belong to this space-time-structure and thus also not to this Pleiadesystem,*
142. *which is still very young in its existence and has little more than 60 million years, is absolutely uninhabited and uninhabitable in every respect, if we disregard thermobacterial life, which will pass away again in a few decades millions of years, without higher life of any form ever being able to arise there, consequently spiritual beings will never exist on these Pleiades.*
143. *And in order to expose the future deceivers, my successors and you will not name our origin after our own linguistic term Pleiades, but after the earthly human term Pleiades, according to which the deceivers will then use this term, thereby exposing themselves to deceit and lies as well as slander.*
144. *If this then happens in a greater measure, then you, as well as my followers, will reveal the truth and correct everything.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_357](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_357)

**Quetzal:**

51. That is actually not the case, because everything corresponds to an untruth, because a contact between USA President Dwight David Eisenhower and any kind of being of extraterrestrial origin never took place.
52. These stupid fantasy stories have already circulated for a considerable time in circles which see extraterrestrial flying devices and beings as being behind everything and everyone, and which moreover are very gullible and criminally uncritical.
53. Such stories, which are invented from beginning to end and make reality ridiculous, unfortunately circulate very much in the so-called UFO-circles, in which all nonsense is taken as ready cash, if I may speak with your words.
54. An unbelievable number of deceivers, swindlers as well as liars assert that they are in telepathic, personal, or perceptible or some other kind of contact with extraterrestrial intelligences, whereby, however, as a rule, everything is only pure invention, corresponding to profit-making, a delusion or effective schizophrenia.
55. Quite especially in regard to us Plejaren, respectively Pleiadians, as we called ourselves in the terrestrial German language at the beginning of our contacts, very many lies, swindles, deceptions and frauds are put into operation on the Earth, and indeed through male as well as female Earth-humans.
56. Actually, however, with the exception of yourself, from all our peoples of our great federation, which encompasses a measure of distance of 48,000,000 light-years, no personal, telepathic, perceptual or other contact at all with Earth-humans exists in the form that they could be perceived, whether consciously, subconsciously or unconsciously.
57. In our entire federation, impulse contacts only exist coming from we Plejaren, in the form of help with the evolution of Earth-humans, who, however, have not the slightest notion of them, and they exclusively pertain to people who are active in developmental research.
58. Firstly, all those who assert that they would be in any kind of connection, respectively, would maintain contact, with us or with any kind of being, do not belong to that, and secondly they would also be incapable of maintaining any kind of contact with us because all prerequisites for that are lacking in them.

59. And thirdly is to say, that all who claim to be in any kind of form of contact or other connection with us, are either pathologically delusional, pathologically imaginative or schizophrenic, if they have not quite knowingly fallen to lying, fraud, deception and swindling.

60. We have already often explained that to you, thus, also, that you are the only one who possesses the necessary prerequisites to maintain various forms of contact with us.

61. Among all humans on the Earth, you are the only one who, for quite certain reasons, is capable of that.

62. They are capabilities which all other Earth-humans lack and will still not have been able to achieve in even a thousand years.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_367](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_367)

**Billy:**

... Alien visitors – if I disregard you – are so rare that they are to be looked for like a needle in a haystack. That was different when you still had fixed stations on our world, but that is long gone now, and therefore alien aircraft can only be observed very rarely. But the fact that Earth-humans continue to claim that they have any contact with extraterrestrials or spirit forms etc., whether physical, telepathic or channelling etc., that is simply senseless swindling, delusion, schizophrenia, charlatany or even lies and deceit, because for several decades there has been no such contact whatsoever, if I disregard our permanent contact. At least this is how I have been oriented by you. But exactly this fact is denied by all kinds of believers or know-it-alls and by so-called 'experts', because everything that is lies, nonsense, deceit, fraud and charlatany is accepted by scientists, believers, know-it-alls and so-called 'experts' as real and effective reality, believed and declared in this form as truth, not only with regard to UFOs, but also with regard to telepathy, telekinesis, levitation and teleportation. But in contrast to this, all that is real and effective reality and truth and reasonable, normal and conclusive for logical thinkers, is slandered and denied as lies, deception, charlatany and swindling, and those few who have accepted telepathy, telekinesis, levitation and teleportation etc. are denied as truth, are really mastered and can be counted on one hand, are humiliated, ridiculed and trampled into the ground by sceptics, ignorant critics, know-it-alls of all kinds as well as by slander and lies. But now the real question: What can you explain about all this?

**Ptaah:**

65. Eduard, dear friend, you approach me with a question and with things and answer them yourself in detail.

...

68. What you have said corresponds to reality.

69. And in addition to that, we and our allies of our Federation have been the only strangers to the Earth for a long time, who come to this planet and maintain contact with a person of this world, and that is you alone.

70. But that has its own special reason, as you yourself know very well.

71. But it is precisely this fact that has led to you and us being slandered and attacked and insulted by lies since the beginning of our contacts.

72. The pathologically inclined troublemakers, slanderers and other malicious people in this respect are, however, so lacking in intelligence that they cannot think far enough to recognize the real reality and truth.

73. They are not able to recognize that the alleged messages of alleged extraterrestrials given by alleged contact persons are so stupid and banal that they originate from nothing but a completely illogical and usually religious-sectarian fantasy.

74. In fact, we know nothing of these alleged contact persons and their messages from alleged extraterrestrials etc. that corresponds to truth and logic.

75. It must also be said that if contacts had ever actually existed in such a way that important messages or a teaching had been transmitted, these would then have continued until the end of the lives of the contact persons concerned and not simply been broken off.

76. Such an action would be completely illogical, because if some beings set out from the vastness of the universe to a planet to bring messages and a teaching, then this is not just a trivial religious-sectarian nonsense or the like, which is then also ended after a short time.

77. If it really is true that contacts between Earth-humans and earth strangers come about with regard to messages and a teaching, then such contacts are not simply broken off again unless there are compelling reasons for breaking them off.

78. Other individual contacts, which are unexpectedly brought about simply by chance, are based only on brief encounters, which, however, are of no significance and are not connected with any mission.

79. Real contacts between terrestrial people and terrestrial strangers, as is the case with us, lead to a lifelong connection and to a lifelong and immense work.

80. And that in our case you alone are our only contact person on earth has its own special reason, as you yourself know very well.

81. You are in fact in every respect the only person on Earth whom we can meet physically and with whom we can maintain telepathic contact without any mental damage.

82. This also means that it is impossible for us to make contact with other Earth-humans, so we cannot make any other connections – except through you as a mediator.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_382](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_382)

**Ptaah:**

26. It has also been the case for many years now that our worldwide efforts of clarification and surveillance in this regard have not produced any positive results and therefore no contacts between terrestrial human beings and extraterrestrials have been recorded.

27. These clarifications are without any doubt, because our monitoring in this regard is absolutely faultless, because our apparatuses and devices register all foreign to Earth mental vibrations of acute activities, but also of telepathic nature, therefore nothing can escape us in this respect.

28. If communications between Earth foreigners and Earth-humans had taken place in the last major period of time, then this would have been recorded by our automatic recording devices and would have become known to us.

29. This in addition to the fact that we have always made individual clarifications with regard to all persons who claimed and still claim to have had or still have contact with extraterrestrials in any way.

30. But the results concerning such contacts are consistently negative to this day, and that is absolutely clear.

31. It is no different with extraterrestrial flying objects, because also with regard to these we have built up a global surveillance network a few months ago, so that no objects can enter or leave the airspace without being registered by us.

32. Until recently this was different, because we had not yet installed the necessary equipment, consequently some foreign objects escaped our attention in recent years, but this has nothing to do with the registration of foreign mental vibrations, which we have been controlling worldwide for more than 82 years, therefore we are also informed about when and where contacts between Earth-humans and Earth foreigners have actually taken place.

33. During this time their number – you excepted – applies to only eight such contacts, but of all those who claim that they have or have had such contacts, only one is who openly admitted the truth and came forward – the American Daniel Fry.

34. All others remained silent to the public about their contacts.

35. And what else is to be said about extraterrestrial flying objects:

36. They have entered Earth's airspace very sparsely since 1984.

37. What has been observed since then of unknown flying objects were usually – with very few exceptions – secret military or official flying objects of terrestrial origin.

**Billy:**

The pictures were simply stolen from me, as many others around the world do. In the USA, film companies have stolen my pictures and used them in films, as well as the name of your home planet Erra. All around the world the same thing happens through other film producers, newspapers and magazines, advertising companies and so on. Also liars, swindlers and cheats concerning alleged contacts with you or any invented extraterrestrials steal my photo material, the texts of our contact reports as well as the writings and books like the sparrowhawks, in order to present everything as their own material. None of the thieves have a guilty conscience about this, because the only thing that is important for them is that they spread their tall tales about their alleged contacts and thus create a satisfaction for their feelings of inferiority, create a false image for themselves and profit from the whole thing.

**Ptaah:**

9. Yes, unfortunately this is true.

10. But it must be said that all those people who act in this way are abnormal and ill in their thinking as well as in their feelings and in their actions.

11. Some of them are deliberate deceivers, while others suffer from forms of schizophrenia, thus succumbing to delusions that make them believe that everything is real with regard to their claims that they have personal, telepathic or alleged channelling contact with extraterrestrials, spirits, demons, with Jesus Christ, with God or Satan, with spiritual beings or with the dead, etc. and that the stolen material is their own property.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_400](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_400)

**Billy:**

Lie stories, as they have been and continue to be spread all over the world regarding alleged alien contacts and alleged alien abductions.

**Ptaah:**

21. Which, unfortunately, many humans of the Earth consider to be reality and truth without hesitation.

**Billy:**

While denouncing effective reality and truth as lies and deceit.

**Ptaah:**

22. That is unfortunately the reality, which is why you are slandered and insulted, because they banish the truth about your contacts with us into the realm of deceit and lies, while they elevate all swindlers, liars and cheats of both sexes and let them lead you astray.

**Billy:**

This cannot be changed, because, as the saying goes, the world wants to be cheated and lied to. The truth therefore counts for nothing, but only lies, deceit, charlatanry and forgery. But let us leave that alone, because talking about it is useless. Every human must reach the truth himself through his own reason and through his own intellect.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_423](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_423)

**Billy:**

... Then it would be interesting to know how it behaves with flights of extraterrestrials into the terrestrial airspace, if you and your federated are excluded. Has something new come up? As you once explained to me, you have been doing some special research on this subject over the last few years.

**Ptaah:**

...

62. With regard to new entries of strangers to the Earth, nothing has come up for a very long time.

63. Thorough studies and clarifications on our part have shown that since 1947 no foreigners have flown into the airspace of the Earth unknown to us.

64. What happened in 1947 in Roswell in the USA, as the investigations have clearly shown, was a special case, which was the result of an unpleasant coincidence.

65. A case which is vehemently denied by the US military and the government.

66. Clear investigations which we have conducted over the last three years have revealed that only we and our Federation allies were operating in Earth's airspace, along with a few others, all of whom, however, eventually became known to us and all of whom, with one exception, have joined our Federation.

67. With only six exceptions, none of all these strangers to Earth have made any other contact with Earth-humans, neither with us nor with strangers, and neither with our Federation allies nor with us.

68. The six exceptions – apart from your person – are known to you, and these earthlings have all died in the meantime.

69. It still has to be explained that because very many Earth-humans are so capable of lying that they themselves accept everything as truth what they invent in lies or create in imaginations, we were deceived by many who claimed that they had or had any contact with foreigners to the Earth.

70. But as a result of the fact that we received permission to penetrate more deeply into the personalities etc. of these Earth-humans, we unfortunately had to recognize that practically in all of them – with the exceptions known to you – there was a web of lies, through which the persons concerned themselves regarded their lies or imaginations as truth.

71. The possibility of our three-year investigations has proven that in fact neither physical nor telepathic or any other contact – except those known to you through us – has taken place or is taking place during the last decades.

72. So what we used to assume regarding contacts between earthmen and earth strangers has been proved to be a lie or an illusion during our studies and clarification work, but which we have only been able to fathom recently, because our directives have been changed in the form that we are allowed to penetrate and clarify strictly personal consciousness and memory matters of earthmen for certain purposes and necessities.

...

**Billy:**

... But what's interesting to hear from you now is that for the last three years you have finally found out the truth about alien aircraft and alleged contacts. Nevertheless, one question remains open, namely that various people have described abductions, contacts and observations etc. under hypnosis. Also the so-called Channelling is still current with various lunatics and cheats.

**Ptaah:**

80. We have already talked about this earlier.

81. These are imaginations and visions as well as effective delusions, wishful thinking and earth electromagnetic influences on the brain etc.

82. What is concerning channelling, there is to say that on the one hand it is absolute nonsense and on the other hand it is delusion, but you know that.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_424](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_424)

**Ptaah:**

33. In respect to Kenneth Arnold we have found out through our three-year investigations that he did not observe any extraterrestrial flying objects but secret US test flights of one-winged aircraft.

34. This is also true for various other cases of that time, which, however, was not only limited to the USA but also took place in other countries that tested futuristic aircraft, which still happens today.

35. Some others, such as Dan Fry and Schmidt etc., were by the Giza intelligences through means of teleprojection put into pseudo-realities with visionary experiences, which they deemed to be reality.

36. Many others, however, were and still are only liars and deceivers with alleged contacts that never took place or are not taking place.

37. What has to be said in respect to the married couple Hill, and all other persons who were allegedly abducted or even medically harmed, or who supposedly had implants implanted, and who under hypnosis exposed these occurrences is, that these occurrences have never happened, and are nothing but illusions, imagination, delusions and deliberate lies, as well as also schizophrenic illusionary products and disturbances of consciousness brought forth through the interference of electromagnetic fields of the Earth, through which unrealities, unreal happenings as well as unreal memories and unreal experiences are caused, but also unreal pain, fear and unreal perceptions and so forth.

38. The disrupted electromagnetic fields of the Earth have been the cause of the untrue memories of the Hills.

39. All these factors will become or could be knowingly or unknowingly manipulated, which means that the hypnotised describe their unreal happenings and unrealities etc. as reality, or that liars and deceivers are able to maintain their deliberate lies and deceit under hypnosis.

40. Hypnosis, namely, is in no means capable of finding out the truth in such or other cases.

41. All of the things which we previously assumed to be true through such circumstances, such as contacts between Earth-humans and Earth foreigners, as well as abductions by Earth foreigners, have proved to be false up to the early times of the last and penultimate centuries through the possibility of our newest technology with regard to the clarification of such occurrences.

42. As we did not master this extremely valuable technology in former times, we unfortunately have been led astray in regard to all these matters.

43. Because of this, and also of the lies and deception of many of Earth's human beings in regard to the aforementioned, we have unfortunately let ourselves be deceived in respect to alleged contacts between human beings of Earth and beings foreign to Earth but also in regard to alleged abductions and examination contacts etc.

44. Real contacts were made only through impulse contacts through a telepathic transmission device with which we usually contacted various and higher educated human beings of Earth to provide information, however, these people did not know that we were contacting them in this manner, neither did the many scientists – for example Einstein and other notable human beings of Earth – who we provided information in the same way, which have led to progress in technology and medicine etc.

45. Then there were the teachers in India who taught you; they had in part physical and in part conscious telepathic contacts with us, whereas at first my father Sfath and thereafter Asket were the important persons for these contacts.

46. In the last century, only one unintentional contact took place in South America whereby the space travellers came from another space-time structure from the region of Alpha Centauri.

47. The contacts between us and human beings of Earth are all known to you, and it must be added that all these contact persons have all died and kept silent about their contacts if they were at all conscious of them, which was only so in rare cases.

48. Usually we only kept up impulse telepathic contacts, and the persons on the receiving end did not have any knowledge of it.

49. And what must also be said is that today one-sided contacts like that are not carried out anymore.

50. All investigations that we could carry out in the past three years were only made possible by our newest technology, which we had received from a people befriended with Asket.

51. Only through this new technology from the technologically highly developed Sonaer was it possible for us to investigate in the most exact and detailed manner many years into the past, and to find the truth in all those things that we accepted as truth for about one hundred years although they were wrong and did not represent the truth.

52. Through the possibility, still incomprehensible for us, that human beings of Earth are able to bathe in lies and presumptions, which do not represent the truth, we have, as already mentioned, let ourselves be deceived and led astray.

53. The possibility to say something different than it is in truth, is the reason why we considered the alleged contact stories of various human beings of Earth to be the truth, and designated people as contact persons who in reality had not been such.

...

**Billy:**

... So, you have spent the last three years investigating contacts in regard to beings foreign to Earth and found that no contacts have taken place between beings foreign to Earth and human beings of Earth – except in the few cases that are known to me and pertain to you Plejaren and your federation. Is your knowledge now complete?

...

**Ptaah:**

68. Contacts with Earthlings do not take place, and apart from the contact with you, no other contacts exist.

...

**Billy:**

... Everything, therefore, is nonsense and idle talk, as to the claims made by many people that they have been having contacts with extraterrestrials and would continue in such, and had and would have the opportunity to fly with them in spaceships or claim that the possibility of channelling or telepathic contacts, and so on was given.

**Ptaah:**

70. This is absolutely true. –

71. Channelling is pure nonsense, and everyone claiming to be capable of telepathy is not capable of it.

72. In fact, it is really as you say, for in one instance only, a true contact between a human being foreign to Earth and a human being of Earth is given, and that is between you and us.

73. But these events, which otherwise occurred between human beings foreign to Earth and Earth's human beings and are known to you, however, do not apply to any persons who are still alive, and maintain to have had contacts with human beings foreign to Earth, or would still have these contacts.

74. Yet my words are not intended for all those who were having impulse-contacts through us during the last and second last century, but it has to be mentioned, however, that they had no conscious knowledge of these impulse-contacts.

75. The few exceptions in recent times like [Anatol](#) and [Petra](#) and so on, as well as the unique occurrence in Brazil regarding the Alpha Centauri-contact and the one in connection with Elsa Schroeder and my daughter Semjase in Zahedan/Persia and so on, are not mentioned and moreover are known to you.

**Billy:**

This I know. But this very conversation now taking place between you and me will call many opponents to the fore, accusing us – especially me – of lying, because it could not be that only the contacts between you and me would be in accordance with the facts and truth, whereas everything else is lies, deception, imagination and illusion as well as delusion and so on. The world of UFO-believers, and UFO-fanatics and those believing in extraterrestrials will scream and howl; and especially the self-appointed specialists and experts in matters of UFOs and extraterrestrials will also come forth, and scream falsehood and deceit in the same way as UFO opponents and other self-appointed experts and specialists in this line of thought who have always maintained that as a whole everything was only deception and fraud, delusion or chimera and so on. However, it will also be the UFO-esoterics and the like-minded UFO-sectarians who climb on the same accusatory bandwagon as well as all those stuck in fantasies who believe that extraterrestrials live among human beings and would be present at any meetings and assemblies of UFO believers etc. This is also case with the nonsense of seances where the departed are supposed to be present, or could be called to join. Completely crazy ones even claim that extraterrestrials participate in Earth governments and would direct and control the destiny of Earth and its humankind.

**Ptaah:**

76. That it will be so is certain, because truth is not only disenchanting, however, also frightening, and it shatters the illusions, hopes, desires, imaginations and delusions and so on of many believers in UFOs.

77. However, those believing in UFOs, and many others wish to be cheated and led into delusion and do not acknowledge the truth, just as those believing in religions and sectarians.

78. They neither wish to see nor recognize nor acknowledge the truth, because they are caught by their belief and their illusions, which they are holding high above all truth and reality.

79. As a rule, to free themselves of this belief is impossible, because it is equal to a hereditary disease, which needs a very long time to be healed, and can only be overcome by reason and understanding.

80. Likewise it is with opponents, because their reason and understanding is breaking down as well, however, in a different manner than that according to the believers in regard to imagined extraterrestrials and their spaceships, as well as so-called contacts and abductions and so on. However, also opponents fall into a belief, as well as those who know everything better and those who negate, and this likewise does not let them recognize and acknowledge the truth.

81. They are just as sick in believing as all the other believers.

**Billy:**

... And as to contacts through extraterrestrials with Earth-humans, then all but one case lead back to your federation, and all of the contact persons have died and none of the ones that have for years been saying that they were having contacts with you or with other extraterrestrials belong to them, and that they also call you Pleiadians, because at the beginning we said as a precaution that you called yourselves Pleiadians to then later uncover the lies of such persons. Then, when the lies had multiplied, and the world was full of such claims of persons who said they were having contacts with you, we came out into the open and revealed from where you really come from, and how you call yourselves in fact Plejaren and not Pleiadians. All the liars have in this way exposed themselves, even though they are still trying to save face by weaving more lies. ...

**Ptaah:**

83. And what has to be said and can only be said again and again and has often been said, regarding contacts between Earth-humans and foreigners to Earth, is that you are the only person in the whole world who is capable of having contacts with us Plejaren and those belonging to our federation.

84. And also in this respect, no other contacts of any kind are taking place between other beings foreign to Earth and Earth's human beings, because no other beings foreign to Earth exist, apart from us, who are operating in this way in Earth's space.

85. And no more in conjunction with us has to be said regarding the tissue of lies of the alleged contact persons because the facts tell the whole story.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_439](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_439)

**Billy:**

... So you have said that in the earthly airspace with regard to extraterrestrial flying objects only those of you Plejaren as well as those of your federated and of the unidentified strangers can be observed. Is the state still the same, that you still could not identify the strangers and that they still can be observed in the airspace of the Earth?

...

**Ptaah:**

31. The alien flying objects can often be observed worldwide by terrestrial human beings, because they quite obviously do not have any shielding technology against sight, as is the case with us.

32. What we have also clarified, however, is the fact that these strangers possess the most varied forms of flying objects, but also that they have no contact whatsoever with Earth-humans and have never come into direct or indirect contact with such people, and consequently there can be no reports of the experiences of any Earth-humans.

...

35. Looking back into the past, we can see that these aliens have been appearing in the air for several centuries.

...

42. Also it is only since one week that we have known through further investigations in the past that these foreigners have been present on Earth for a very long time and that they appear again and again in such a way that they can be observed by Earth-humans.

43. But as I already explained, there is no proof that they would have come into direct or indirect contact with Earth-humans, because for such contacts we did not find any evidence with any Earth-humans.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_441](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_441)

**Billy:**

Around 22 years have now passed since you and Quetzal told me privately that you had comprehensive cognitions in regard to terrestrial UFOs and the massacre of animals and alleged abductions which were disguised as the shoddy efforts of extraterrestrials. You said thereby that, in regard to this, involved in these machinations are governments, the military, as well as industrial businesses and powerful ones of finance, which constitute a special group, to which still smaller groups are also related. At that time you promised that you would officially explain more about that when the time is ripe for that. Can one now speak publicly about that?

**Ptaah:**

21. With the named group, it concerns a worldwide branching from governments, the military, industrial groups, secret services, paramilitary and powerful ones of finance, as you correctly said.

22. Those in the know and contributors are only certain elements of the same, who profit greatly, financially and power-politically, from their secret machinations, for which reason the entire powers of the government, military and industrial as well as finance are not involved in the situation and are also not informed in regard to this.

23. The group is not organized, as such, rather is only a loose collection, whereby their interests, however, have a common form, which, already since the 1920s, was designed to

operate a continuous, ingenious, large-scale disinformation campaign regarding the question of extraterrestrial life.

24. The group, which is split into many small groups, has many kinds of technical possibilities at their disposal, which they employ for their evil and human-misleading purposes.

25. That started with technologies of electromagnetism to do with precision electronics and computer engineering, up to and including apparatuses through which brainwashing and the programming and altering of consciousness is evoked in humans.

26. They even have back-engineered beamships at their disposal, whereby, in certain contexts, even antigravity finds application.

27. It has also occurred many times that premeditated "abductions" of Earth humans by "extraterrestrials", and the massacre of animals, has been and is faked by this group.

28. That stands partly also in connection with those illusionary and schizophrenic visions and apparent experiences of those who believe that they have had, or have, these kinds of real experiences.

29. Also wrong information and falsified pictures of alleged extraterrestrial flying devices is strategically circulated worldwide, whereby according to our investigations, about 98% of all false pictures, films, videos and false information is directed at moving the Earth humans to angst and terror of extraterrestrials and to engender hate and thoughts of revenge in the Earth humans.

30. Therefore, in this way, angst, terror and hate is stirred up against all life foreign to Earth.

31. Especially films for cinema and television serve this purpose, as also, however, do many books which are constructed on lies and untruths and are written partly by "experts" in psychology and psychiatry.

32. All this nonsense sells very well to the Earth humans because many on the search for the effective truth trust and believe this false information, and these films and pictures.

33. Angst, horror, terror, hate and revenge always sell well, while the truth appears too banal and therefore appears uninteresting as well as not worth knowing.

34. Only the fantastic and unreal find a place in the interests of Earth humans. 35. However, precisely that is the launching platform for the infamous machinations of the worldwide group, because, through disinformation and fear-mongering in regard to the malicious foreigners to Earth, the entire group, which reaches right around the world, derives horrendous advantages of a financial, governmental-power, military-power as well as an economic form.

36. The entire war, electronics and weapons industries, and so forth, thereby gain an enormous boost.

37. Yet, in the worldwide group, secret paramilitary units also exist as smaller groups which carry out the same kind of operations which, however, are mostly controlled by the worldwide group.

38. In particular, these small groups carry out premeditated abductions which are credited ostensibly to the extraterrestrials, as well as, however, also simulated appearances of alleged extraterrestrial flying craft, which are then collectively declared to be extraterrestrial UFO appearances and are often observed, photographed and filmed by many people.

39. Thereby the illusion of an ostensible extraterrestrial abduction or observation of extraterrestrial flying devices is evoked.

40. What is further to say about that is that, in this worldwide group, with all the small groups who partly also work autonomously, there exists a proper "UFO trade" and a subculture in regard to animal massacres and abductions and so forth.

41. The entire thing is secretly financed through governments, the military, industrial groups and financially powerful ones who are interested in angst, terror and hate being stirred-up to their highest forms in regard to the alleged evil extraterrestrial foreigners, because they can thereby gain gigantic financial profit and advantage.

42. It is on this basis that, in every regard, from this group, only stories, cinema and television films and observations of UFOs will be accepted and profitably exploited, which are based on everything negative and – as is becoming proverbial with the Earth humans – on the malicious and aggressive nature of the extraterrestrials.

43. Only that which evokes angst, fear and terror as well as engenders hate and revenge is accepted by the group and exploited worldwide in order to obtain enormous profit with it.

44. Conversely, in addition to that, everything which is good and positive is vehemently slandered and is designated as a swindle, lie and deception, as is the case with you and us, since, in keeping with the interests of the group, we are not permitted to exist, and you are not permitted to be in contact with us, rather you must be a liar and a fraud.

45. So, from the group and their small groups, the Earth humans will be served up deliberately false and fear-influencing stories in regard to extraterrestrial UFOs and foreigners to Earth and their alleged horrifying machinations like, for example, painful examination contacts and animal massacres along with falsified encounters with alleged extraterrestrials.

46. Along with profit, the whole matter also serves deeply-based psychological propaganda in order to insult forms of life who are foreign to Earth and to brand them as malicious beings and to create angst, hate, revenge and hysteria because great financial means will be thereby freed up which serve research for the production of innovative and futuristic weapons of all kinds.

47. Therefore, in these Earth humans, in regard to the extraterrestrial, an enemy will be psychologically, deliberately created which does not exist and which will, in a manner, be made into a malicious being such that the Earth humans, in their angst, will be driven to freeing up horrendous sums in order to therewith manufacture weapons against the alleged malicious invaders.

48. Also, with these acts, various groups play off against each other, which, however, is part of a well-thought-out plan which is carried out and implemented by secret services, psycho-terrorists, espionage groups and treacherous disinformation agents and which is underpinned by false information regarding UFOs and alleged extraterrestrials.

49. Additionally belonging to this plan is the invention of an imaginary extraterrestrial enemy, as well as a danger emerging from this – an enemy and a danger which, naturally, will have to be fought.

50. The infamy is thereby that, first of all, everything is made ridiculous because the concerned "abductees", "examinees", "chance contactees" and UFO-observers can provide no evidence for their experiences which would withstand a real examination.

51. Then comes the second fact, which exists in the fact that angst, terror, hate and feelings of revenge is produced in the Earth humans whereby then the weapons industry can be built up and indeed especially in regard to futuristic weapons, of which the normal Earth humans have no idea, and of which they do not ever dare to dream.

52. The entirety is thereby a well-thought-out psychological network on which the progress of the entire weapons industry and the power of the military, of the federal leadership, the finance sharks and the industry businesses as well as the secret services can be built up ever further.

53. To this end angst, terror, hysteria, hate and revenge is sown in regard to all foreigners from outer space.

54. So the Earth humans become duped and financially exploited by the responsible ones of this dangerous group and their small groups and are deliberately driven to abhor and to hate the extraterrestrial foreigners.

55. Corresponding cinema and television films serve as especially suitable means for that.

56. The foreigner-angst, respectively, alien-angst, which is thereby produced surpasses all normal angst and the responsible ones of the group know that precisely, for which reason they can also thereby calculate that all necessary finances flow to them, which they require for their weapon research, their weapon manufacture, their leading of wars, and desires for power, as well as for unrealistic cinema and TV films which demonize the Earth-strangers.

57. The creation of an supposed threat from extraterrestrials as well as the alien-angst is, for them, a profitable matter which is operated under the shabby cloak of a federal, respectively, country security and of world peace.

58. For the entire machinations of the group, the meanest machinations are quite good enough which, as said, were already operating since the 1920s and to that also belong highly developed electronic weapons systems, futuristic flying discs, Earth humans who are hypnotically and surgically converted, as well as converted in their consciousness, to robots\*, whereby some have an appearance like the being which is called the "Little Grey".

59. On one hand there is the dim-witted paradox that the extraterrestrial flying devices are denied and the strangers to Earth are made ridiculous or made out to be monsters by means of psychological propaganda, while, on the other hand, a financial exploitation of the peoples results through the inciting of angst, terror, hate and revenge and indeed thereby in that a simulation results in regard to a supposed threat from extraterrestrials.

60. A paradox without compare, to which the question must be put, how far are the Earth humans imbued with reason and understanding that they do not recognise this paradox.

61. The entire pre-arranged game of the group and their small groups, as already said elsewhere, also includes faked encounters with alleged extraterrestrials, whereby these are truly nothing other than normal Earth humans or those who have been transformed into "aliens".

62. In order then to affirm the improvised "encounters with those foreign to Earth" psychologists and other experts are pulled in into whom the wildest stories are hammered for so long until they believe the entire swindle and nonsense and employ "verifiable" and "genuine" analyses which are recorded and published in books and documentation as well as in cinema and TV films.

63. And since, as a rule, the supposed extraterrestrials are described as horrible villains, just according to the plan of the group and their small groups, the picture of the extraterrestrial threat is powerfully incited.

64. Thereby, not only is the slandering in regard to the real strangers to Earth always more exaggerated, as also more and more finances flow into the cash box of those who stupidly and dimwittedly earn as a result of the entire tissue of lies and slander and thereby come by the means to reach their criminal goals.

65. A certain part of the group has also fallen to a Christian sectarianism and to the supposed "End Times" in such a way that hope is directed at a malicious invasion of extraterrestrials resulting on Earth, and thereby the prophesied Armageddon will become reality in which Jesus Christ celebrates his official return and God the father will exercise his judgment.

66. Their delusion is therefore bound with a biblical end of the world, which, as they believe, rests on the terrible badness of the Earth humans.

67. And in order to accelerate this divine judgement as well as the return of Christ they do everything in order to make the way free for that.

68. The monstrous power of the worldwide group and their small groups as well as the religious fanaticism, together with the cultic maintaining of the secret of the entire underhanded, degenerated and deceptive as well as criminal and felonious machinations, lead to malignant effects which could not be worse.

69. These are the facts which I have to name in regard to your question.

Realization of the Plejaren (English forum question/kitchen conversation)

20th December 2006

#### **Question**

*It was stated that the Plejaren only recently realized that terrestrial human beings do not always react or act in the same way as and what they think.*

#### **Answer**

*They knew that from the beginning. The only thing they did not know was the extent to which the humans of the Earth are capable of lying. They only recognized the true extent after they had prepared extensive analyses and created profound clarifications in the years 2003 to 2006 with regard to the ability to lie of the Earth-humans. They also discovered that – with very few exceptions known to the FIGU – all claims of all those humans on Earth were and are based on untruths and therefore on lies, who allegedly had or still have contacts with extraterrestrials, or who simply had any encounters with extraterrestrials. Their deceptions referred to this, as well as to a few other cases concerning purely private interests of a few persons, who tried to harm FIGU by lying.*

*The possibility that the directives of the Plejaren were relaxed made it possible to uncover all the lie paths of those earthlings who claimed that they were in contact or had been in contact with extraterrestrials or had had any encounters. The deceptions thus only referred to these mentioned factors, but not to other things, so it cannot be said that the Plejaren were also mistaken in other things and matters. This is really not true, because all statements and explanations of the Plejaren were always based on truth, except for the statements of the alleged contacts and encounters of earthlings with extraterrestrials, which also includes alleged abductions and massacres of animals simulated by a certain group of earthlings. The evil deceptions caused by lies, swindles and fraud and the resulting false statements through no fault of their own were immediately revised and corrected by the plejaren after they had been able to fathom the effective truth by relaxing their directives. Thus, they cannot be accused of spreading false information.*

**Ptaah:**

20. With absolute certainty, it is also to be said that the foreigners do not maintain any contacts with the Earth-humans because our worldwide, all-encompassing detection devices, with which we can also detect the presence of our foreign unknowns, would identify such contacts.

...

**Billy:**

... This means that the person always wants to be cleverer and more knowledgeable than what the effective truth and reality are. This is also true with respect to alleged contacts of earthlings with you or other extraterrestrials. Still, time and time again, fairy tales lurk around that other earthlings, besides me, would stand in contact with you Plejaren. Actually, people of both genders step on the carpet again and again, lying about the fact that they would stand with you, with Semjase, with Quetzal, or with other Plejaren or members of your Federation in telepathic, channelled, or personal, physical contact. Very stupid elements lie about the fact that even other Plejaren, other than you and your whole crew, etc., would have contacts with people of the Earth; nevertheless, this cannot be controlled by you. According to that which is real, however, such claims are nothing more than polished nonsense and shameful lies.

**Ptaah:**

38. That is actually so.

39. We have full control over all our contacts with other civilizations, peoples, and worlds; therefore, it is absolutely known to me, as an Jschwisch of Erra and of our two other worlds, what and where, i.e. with whom, contacts are maintained outside of our worlds.

40. This also applies to our confederates, who maintain no contacts with any Earth person, except with you.

41. But anyone on Earth who claims to stand in any sort of contact with any people from us Plejaren or from our confederates is a deliberate liar or a delusional sick person, for as it has already often been said, you are the only person on Earth, who truly maintains contacts with us.

42. Once again, I want to explain clearly and plainly the following:

43. First of all, we Plejaren and our confederates live in other space-time configurations, into which no normal telepathic impulses of Earth-humans or other inhabitants from this, your space-time configuration, can penetrate.

44. A penetration into our space-time configuration from yours is only possible through spirit telepathy, but no Earth-human is capable of this except you.

45. What the Earth-human slowly begins to develop solely refers to the first steps of consciousness-telepathy, but he is still effectively in the smallest children's shoes, as you call it when something is just at the very beginning of development.

46. That is one thing, while the other relates to the fact that we do not maintain, neither at present nor in the future, any telepathic or personal, physical contacts with Earth-humans, except with you.

...

49. That Earth-foreigners resp. extraterrestrials, however, would simply include any Earth-humans in contacts without any special reason would be completely contrary to the normal procedure with regard to establishing contact with a foreign humanity.

50. This absurdity also applies to all alleged contacts between Earth-humans and any extraterrestrials, where messages of a more or less religious and sectarian character are included, which corresponds to an unnaturalness, i.e. to a paradox, and all the lies clearly and plainly lead to absurdity.

51. Those few, with whom we directly maintained telepathic impulse-contacts and who should have been helpful to you in your mission, have all died, and no others have been requisitioned for the task.

52. And when the last spark of your present life has gone out, it will mean the end of our contacts on Earth, for when your time has come, we will withdraw ourselves finally from this world.

...

54. Thus, if lying elements should still appear during your lifetime and thereafter and claim that they stand in contact with us Plejaren, etc., then this would correspond to a matchless lie.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_457](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_457)

**Ptaah:**

25. The last event of the kind that my daughter has explained with regard to contacts of examination and real abductions of terrestrial human beings by Earth foreigners was more than 370 years ago.

26. And as far as the few personal contacts between Earth-humans and us are concerned, these Earth-humans have not been among the living for a long time.

...

54. And when you are no longer, then this rule will apply definitively anyway, whereby we will then also withdraw from the earth and never come back here again to get in contact with a person of this world again, because when you leave, then our mission with regard to the earth and its humanity will also be finished.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_511](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_511)

**Billy:**

... And it is also clear to me that there is not extraterrestrial-human life at every corner of space and that extraterrestrial human beings are not to be found in every corner of the universe, as the human beings on Earth are led to believe by science fiction films. There are indeed billions of solar systems in which there are also planets, but those that carry human life, which is also highly developed and capable of space travel, are very rare in our DERN universe. That is why, as you once said, your Federation is spread out over hundreds of millions of light-years in your space-time structure, because the human beings are scattered in the vast expanse of space

and it is not densely populated with humans. Often there are dozens, hundreds or even thousands of light-years between human inhabited worlds, and also only a few of the human beings on these inhabited planets are capable of space technology. The same applies to our space-time structure, and consequently also to the fact that there are not masses of human beings on the planets, but only a few of them in the vastness of our own or any other galaxy. For this reason alone, it is crazy to claim that aliens from this or that constellation would come to Earth from this or that constellation, simply to make some nonsensical religious and sectarian speeches and conversations and to give divine advice etc. This apart from the absurdity of the fact that there is no evidence of such alleged contacts between aliens and the human beings of Earth, neither material nor photos and films.

**Ptaah:**

...

40. In this respect, our contacts are the only exception, even if the good film and photographic evidence and materials of know-it-alls, troublemakers and malicious adversaries are not recognised and are called fakes and also the contacts are called lies and fraud.

41. Of all the many alleged contacts worldwide there is not any real evidence.

42. And if we leave aside the few real ones, which you know of and which died many years ago, then all that remains of the claims of alleged contacts and messages with and from strangers to the earth are fakes, lies and deception, as you would say.

43. And if I may continue with your apt words, I want to say that for all the claims about contacts and messages with Earth-foreigners, all that is left is a few hair-raisingly stupidly conceived 'Contact Conversations' with alleged messages and channelling nonsense remain, that is it then.

44. These alleged contactees probably believe that the Earth-foreign intelligences are so stupid that they only come to Earth for banal chit-chat or for feeble-minded messages in the form of religious-sectarian 'divine' teachings, as well as for spreading free sexual love etc.

45. If the claims of the alleged contact persons were true, then firstly, such contacts would be very long-term and would provide good evidence, as is the case with our contacts with various materials, witnesses, photographs and film footage, as well as brief encounters between ourselves and persons not involved in our personal contacts.

46. And furthermore, such contacts would also be connected with a lifelong and valuable teaching activity, because only for fun or the opportunity to give some brief information and then to go their way again, certainly no strangers to Earth would come to Earth and seek contact with Earth-humans.

47. Real contacts between Earth-humans and strangers to the Earth can of course be purely fated and can only be of short duration resp. be unique, as has actually happened in various cases, but then there is not a religious sectarian 'message' connected with it, if at all a shorter or longer communication can come about due to the possibility of communication, since the strangers to the Earth are not familiar with the languages of the Earth.

48. A knowledge of languages would only be possible if the foreigners who come to the Earth by coincidence were to learn the earthly languages, as is the case with us, who, as a result of a certain mission, we and our ancestors deal with the earthly languages and also learn and speak them thoroughly.

49. So it is a nonsensical assertion that Earth-foreigners come to Earth and simply speak earthly languages.

50. This is indeed only possible as in our case, which we have been dealing with earthly languages for thousands of years.

51. Thus it is only possible for foreigners to speak earthly languages if they learn them first, or by using extensively functioning language converters respectively translators, which however require a high level of technical skill and understanding of the languages in order to be able to produce them at all.

52. And it is to be further said that certainly strangers to Earth are not simply coming to Earth to express themselves in a religious-sectarian way or to talk in a friendly way with individual Earth-humans who are inferior to them in every respect.

53. When Earth-foreigners come to the Earth, there are certain coincidences behind them, and there is also no direct interest in making contact with Earth-humans.

54. These strangers are then careful not to be observed by Earth-humans and also not to get in contact with them, so they try to keep their coming secret.

55. But if the strangers were interested in getting in contact with Earth-humans, they would appear openly and get in touch with the rulers, because then political factors would be of importance.

56. In the latter case, it is the same as in the contacts between you and us, where we have no political or military interests and therefore do not want to get in touch with earthly governments and military.

57. But we are also not interested in maintaining contact with any Earth-humans, to have banal chats with them or to talk about religious sectarian nonsense.

58. Our task and our coming to Earth is based on a very old mission, which is based solely on assisting the prophets of the Nokodemion line, so that they can fulfil their difficult task and teach the Earth-humans in the 'doctrine of the prophets'.

59. For this purpose, however, no public contacts with governments, the military, and also not with the population of the earth itself are necessary, but only direct cooperation with the respective true prophets.

60. A public appearance would be very counterproductive, for if such an appearance were to take place, we would be seen and worshipped as gods by delusional believers, while governments, the military and scientists would be eager to get hold of our technical achievements.

61. But this would not only put ourselves and our homeworlds and humanities in danger, but also worlds and humanities that do not belong to us, not to mention the fact that an enormous chaos of warlike power would be created on Earth, because everything would be evaluated in terms of warfare.

62. This is because the Earth-humans in their barbarism are still far from being able to use high technology, which is ours, in a peaceful and humane way.

63. So we are not allowed to confront the Earth-humans in an open manner, but only secretly and with you alone, to whom you, as the last prophet of the Nokodemion lineage, are fulfilling your duty.

64. You alone do not mean any danger to us, for you are a like-minded person and one who is like-minded in our mission, who, as a result of your great knowledge and wisdom concerning the laws and commandments of creation and the knowledge of the spirit, is deprived of all that which creates war, strife, humility, dishonesty, subjection, greed, addiction to power, domination and disharmony, as well as unfreedom, revenge, hatred and lack of love, etc., respectively.

65. Unfortunately, we cannot say this about another Earth-humans in the context of what you have, which is not surprising, since no one else is classified as a prophet.

...

**Billy:**

Do you know anything about whether any aliens still know the coordinates of the SOL system or even Earth, apart from those who already came here?

**Ptaah:**

69. We don't know, but I also have to say that all extraterrestrials who came to Earth were more or less well versed in space technology, which cannot be taken for granted.

70. The majority of unearthly human races are still not capable of space travel.

71. And others who have mastered space travel are only able to move within their own solar systems and cannot leave them.

72. Interstellar space travel is extremely rare, as is the possibility of moving through dimensional gates into another space-time continuum, as we do and can also create such gates.

73. And it must also be said that those who came to Earth from other space-time continuums could not deliberately create and fix the necessary dimensional gates, because in fact they were only able to move into this dimension of the DERN universe through momentary natural cracks in their space-time continuum.

74. Others, on the other hand, who came from the DERN dimension, only came to Earth because they could create and use space-time gates, which is also a rarity.

...

78. Space-time gates do not concern so-called wormholes, but rather, similar to a momentary natural crack in the space-time continuum, a crack in the space-time continuum caused by tremendous explosions or technical manipulations.

79. This creates an effect that changes the universal wave structure of the universal space, which is similar to the effect of two rooms being separated from each other by a curtain of radiation or heat, which can easily be passed through from one side to the other respectively from one room to the other.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_519](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_519)

**Ptaah:**

46. With one exception, all Earth-foreigners who came to Earth in the last 300 years are now part of our Federation, and interestingly, all of them have proven that their early ancestors were, as I explained, connected with earlier peoples of the Nokodemion line, from whom they have received records of the coordinates of the systems mentioned.

47. They used this data to get to the Lyra and Centaurus systems and to the SOL system.

48. If they hadn't had these coordinates from the ancient records, they would also never have come to Earth.

49. So they only came here to your homeworld Earth by certain coincidences.

...

**Billy:**

So then everything was predetermined. When was that? And, did these strangers also make contact with the human beings on Earth?

**Ptaah:**

51. The whole thing leads back to the time 389,000 years ago.

52. Even then everything was determined and directed in such a way that everything is fulfilled in modern times and especially in the modern age.

53. But this concerning the contact with Earth-humans was not the rule, but it happened only in individual cases, and this also only by unexpected coincidences.

54. With complete certainty it is to be said, however, that these were extremely sparse, and the Earth-humans involved in them kept silent about them because they did not dare to talk about them.

55. And of the few Earth-humans who in modern times unintentionally fell into direct physical contact, none is alive today.

56. So among Earth-humans there are only a few of those who were contacted by us in impulsive telepathy, but who have no knowledge of it – four to be precise.

**Billy:**

And what about all those who in all the countries of the world have been talking about themselves or still claim that they have been or are still in contact with some extraterrestrials and are receiving messages from them?

**Ptaah:**

57. These are without exception nonsensical, untruthful assertions.

58. From our side there is also no contact with Earth-humans, neither physically nor telepathically, except with you, whereby it is to be said that Earth-humans are not yet at all capable of telepathy.

59. And as far as assertions are concerned, which refer to the so-called channelling, these are to be called absolute nonsense, because channelling is based on pure esoteric fantasy.

60. A fate contact in Zahedan concerning my daughter Semjase with a woman from Germany was of no importance and is just as well known to you as the former contacts with Anatol and Petra, who unfortunately lost their lives in their accident and could not work for your mission.

61. And further it is to be said that apart from us Plejaren and our Federation no other Earth-foreigners are on Earth or even penetrated or entered the Earth's airspace, therefore no Earth-humans can have contact with any Earth-foreigners.

62. And all those Earth-foreigners who came to Earth by the coincidence of the coordinates of the ancient Nokodemion peoples belong to our Federation today, and they too do not maintain contact with Earth-humans.

63. The only contacts that have ever existed and continue to exist relate to us Plejaren, our Federation and you.

**Billy:**

So that in relation to the last 300 years?

**Ptaah:**

64. That is correct, because it is for that time that we have been making our inquiries.

**Billy:**

But what if unknown flying objects are observed?

**Ptaah:**

65. If they are Earth-foreigners flying apparatuses, then they can only be those of us Plejaren or of our federated ones.

66. Otherwise they are exclusively earthly unknown flying apparatuses, like secret aircraft of futuristic design etc., as they are constructed in secret aircraft construction factories, mainly in Area 51 in the USA, but also in South America, Russia, China and Canada.

**Billy:**

Is this really all clear and real?

**Ptaah:**

67. Absolutely.

**Billy:**

This once again triggers angry cries and howls among the UFO believers, the ufologists and the alleged contactees, which in turn makes me a snail again.

**Ptaah:**

68. This will be so, because the deceivers, liars, swindlers and charlatans regarding alleged contacts with Earth-foreigners as well as the UFO believers in general and especially those who boast of being experts in ufology, do not want to understand that apart from us, the Plejaren and our federated ones, no other Earth-foreigners come to Earth, and also that those who came here in former times found their way to Earth only by means of old coordinate records which led back to connections with old Nokodemion peoples.

69. Only such Earth-foreigners and future Earth-followers have come to Earth, but never any others from foreign galaxies and solar systems that did not have the coordinates handed down.

70. So others did not reach Earth, as alleged contactors lie and claim.

**Billy:**

This apart from the Skrills and the bioorganic flying objects and the future of Earth from other dimensions, as you say. If all the many claims about contacts between the human beings of Earth and extraterrestrials were true, then Earth would be teeming with extraterrestrials.

**Ptaah:**

71. That is correct.

72. This fact, however, will not change the fact that countless UFO believers remain addicted to all those liars, swindlers, cheats and charlatans who fraudulently and mendaciously claim to have maintained or had contact with us or with other Earth-foreigners.

73. There is only one exception that concerns you, and that is also only because certain provisions and justifications are given for it and are connected with a great and earth-encompassing mission.

74. It would also be ridiculous to even assume that Earth-foreigners would come to Earth just to say hello to some Earth-humans or to bring stupid and dubious messages based on pure religious belief.

75. If Earth-foreigners come here and make contact with Earth-humans, then this only happens if a global mission is connected with it, as is the case in our case.

76. Such a mission, however, requires very specific conditions which must be taken into account and which determine that many years of hard work have to be done, whereby an individual person is contacted, so that there is no public appearance of the Earth-foreigners.

77. So it is not enough to write just one, two or three little books about alleged contacts with Earth-foreigners and in relation to dubious messages, but if there is a true contact, then it means a lifelong very arduous and hard work for the earthly contact person, as it is in your case.

78. To do such work in relation to the mission connected with it, and also to fulfil it, requires much more than an Earth human being is usually able to accomplish.

79. The work can only be fulfilled by certain existing abilities of consciousness as well as energies and forces which have to be created and ignited again and again.

80. Nobody knows this better than you, who are assigned to such a task and have been fulfilling it unwaveringly for about 70 years now.

81. If it otherwise turns out that Earth-foreigners are officially coming to Earth, it is in the context of appearing open and contacting the governments of Earth or an individual government of a state.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_530](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_530)

**Billy:**

... But there are also other things that do not want to be understood, such as your directives do not allow you to interfere in the affairs of other humanities from other planets. There are also new questions, why only I can be in contact with you, even though the matter has been explained many times before. Could you perhaps say something about this again, please!

**Ptaah:**

23. Our directives are very strictly ordered and they forbid us to interfere in any affairs of foreign humanities of other worlds.

24. We are also not allowed to have any contact with foreign humanities if they are not developed to a certain high degree of consciousness and are already of such a peaceful nature that open contact with them is no longer a danger to us or to other foreign humanities.

25. However, such contact is subject to very strict rules and conditions which must be observed under all circumstances and therefore must not be disregarded.

26. Earth-humans are not yet mature enough in this respect, at least as far as contacts with us, the Plejaren and our federated peoples, are concerned.

27. It could be possible, however, that in the future, Earth-foreigners could make contact with Earth-humans, but these contacts would then be developed to the same degree of consciousness as Earth-humans, which could then have the consequence that many and great unpleasantness could also result.

28. It is impossible for us to make such contact, either secretly or openly, with regard to making contact with earthly governments etc. or with the human beings of Earth in general.

29. And when contacts have been made by chance, they have been for a very short time, involuntarily and also only once.

30. What is allowed by our directives, however, is an unconscious contact for other human beings, whereby, however, without exception, only persons such as scientists, researchers and inventors are contacted by appropriate telepathic apparatuses, which they are not aware of in any way.

31. In this form, they are provided with information that is useful for progress and development, which they regard as their own ideas etc. and then use and implement them progressively for further or new developments.

32. This is also what we have done with Earth-humans, and this has resulted in a rapid and rapid new technical and medical development.

33. But we were only allowed to do this within this framework, and also only because a certain development of consciousness had taken place, which allowed us to intervene respectively to make contact.

34. But we are not allowed to do anything else according to our directives, because the Earth-humans are still too backward in terms of a comprehensive and sufficient peacefulness and a system that puts all people on an equal footing, gives all the same rights and is aimed at cultivating existence according to the primordial laws of nature.

35. Earth-humans still lack to a very great extent all the values you keep mentioning, such as love and compassion, the sense of justice and equality and equivalence, and also the sense of real peace and freedom.

36. There is also not a general harmony which is essential for the human beings to meet each other in honour and dignity.

37. And if the question arises about establishing and maintaining contact with you, then the whole thing does not belong in the framework I have mentioned, because it is connected with a very old mission, in which we are also involved, just like our ancestors have been since time immemorial.

38. And it is this mission alone which, through our directives, allows us to maintain telepathic and personal contact with you, which is also only possible because your consciousness movements harmonise with ours and are not dangerous for us, which leads back to the origin of your spirit-form, through which your consciousness forces are also determined.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_531](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_531)

**Billy:**

Then let me ask you again about the fact that you said some time ago that you Plejaren and your Federation are the only aliens who have contact on Earth, and only with me. You also said that there are not other aliens flying in and out of Earth. But somehow I can't get along with that, because you have also mentioned on several occasions that there are three groups of strangers on Earth besides you, who came or are coming, but who are unknown to you and with whom you cannot or do not want to come into contact. At least that is what you told me several times in private conversations. Your daughter Semjase and Quetzal have also explained the same thing. These things were not recorded in the contact reports, because they were private conversations, but I think that this is why we should talk about it again. Like I said, I just can't handle this thing.

**Ptaah:**

77. I deliberately did not talk about it and I don't want to talk about it now either.

78. But it seems that it should be talked about now, because you speak about it openly.

79. The reason I kept silent about what you mentioned was that many Earth-humans and so-called UFO researchers are increasingly making allegations about sightings and alleged contacts with extraterrestrials.

80. In the last few years the hysteria in this regard has been greatly reduced, even if certain unfair journals etc. with regard to reports of diffuse sightings of unidentified flying objects and alleged contacts with extraterrestrials still cast a spell over their bona fide readership.

81. The UFO and UFO contact hysteria should not be evoked again, which is why I did not speak of those strangers who have probably been in earthly space and unknown to us for a long time and with whom we also have no connections.

82. But when I think about it now, I find that the whole thing is perhaps advisable to be mentioned in the above-mentioned respect, because apparently you too have misunderstood my statement as well as that of my daughter and of Quetzal.

83. It is indeed the case that no new Earth-foreigners known to us have come and are coming to Earth other than those who have been operating here for a long time or those who have joined or belonged to our Federation.

84. Only in this respect my speech was intended and should have been understood in this way.

85. Apparently, however, I was not precise enough in my statement, which led to a lack of understanding or misunderstanding.

86. What I explained was meant, then, if I am to repeat what I said and make it clearer that in recent times no new Earth-foreigners have come or are coming to Earth.

87. Thus, only those foreigners who have been approaching the Earth for a long time and who are not under our control are and remain.

88. Excluded from my statement, therefore, were those Earth-foreigners unknown to us with whom we do not or do not wish to come into contact.

89. And as these fly in and out of earthly space, they are therefore not newcomers, but rather those who have been coming to the earth again and again for a very long time, and who also stay in this space for a long time.

90. These three foreign groups are therefore not included in my statements, nor are the future earthlings, who form a further group and with whom we also have no connections.

**Billy:**

I thought that something was not clear enough, because after all you have explained about this over the last two years, I, like many other human beings, have assumed that only you Plejaren and your federated ones are active in earthly space and fly in and out. The fact that the aliens unknown to you and the future aliens were not mentioned, however, led to a huge misunderstanding in the sense that you Plejaren and your Federated are absolutely the only aliens who circulate in earthly space.

**Ptaah:**

91. This misunderstanding is very regrettable and it was not my intention to cause it.

**Billy:**

Then it is also possible that sometimes not only your flying objects can be observed, but also those of the Earth-foreigners unknown to you and of the future ones? You, for your part, do not let yourselves be observed as often as it used to be the case, so therefore, unless they are the secret terrestrial test objects of military form, sometimes they must be those unknown to you and the future ones who are seen.

**Ptaah:**

92. That is correct, but if they are already Earth-foreigners or the future ones, then they are not those who appear again, but only those unknown to us, as I will state again.

**Billy:**

So they are not newcomers from the depths of space, flying in and out of Earth, but only those of whom you have spoken in each case, but who were not mentioned in your last explanations. Consequently, it follows that while it is correct that you and your Federation are the only ones known to you as Earth-foreigners, and as such visit Earth. But since those unknown to you and those to come are not known to you as Earth-foreigners, you have only spoken of those extraterrestrials that you know – thus of you Plejaren and your federated ones. This misunderstanding is stupid, because this is again material for the know-it-alls, critics and adversaries, who are too stupid to understand that just by incomplete statements and explanations so misunderstandings can appear. Perhaps it is also our mistake if we discuss

some things only privately without writing up reports about them. It is also not uncommon for misunderstandings to arise from the fact that some of your statements and explanations are not complete. But look here, you said this at the 424th contact on the 17th of June 2006:

*83. And with regard to contacts between Earth-humans and strangers to the Earth, it can only be said again and again, as has been done many times before, that you are the only human being on Earth who is capable of maintaining contact with us Plejaren and our Federated Contacts.*

*84. With regard to other Earth-foreigners there are also no contacts in any form between such and Earth-humans, for apart from us there are no other Earth-foreigners who would be active in Earthly space.*

*85. And what you say about the tissue of lies of alleged contact persons in connection with us, the facts speak their own language.*

From this, according to your present explanation in sentence 83, it is clear that I am the only human being on Earth who has contact with you Plejaren and with your Federated Contact, but not another earthling. With sentence 84 I understand, and probably every reasonable human being as well, that there are no other extraterrestrial beings active on Earth respectively in the earthly space in any mission-related form and therefore no permanent contact with earthlings exists or is maintained with such. And under sentence 85 is to be understood the same as already stated in sentence 83. But the whole thing does not say anything about the fact that through those strangers to the earth who are unknown to you and through the future ones, short touches and so -called examination contacts might have taken place.

**Ptaah:**

93. That is clear and correct.

94. And what is to be said regarding contacts of fate and examination contacts is that some of the strangers unknown to us may indeed have touched the earth, but we neither have any control over this nor have we been able to observe such contacts ourselves.

95. If, in the course of time, we have spoken of possible touches respectively short contacts, then these have been related to those that have unintentionally or intentionally taken place with us Plejaren or with our federated.

96. However, we do not know and are not interested in what happened to those unknown to us and those to come.

**Billy:**

... But how does it stand with your investigations regarding contacts between Earth-humans and these foreigners moving in the terrestrial air space of whose existence you know?

**Ptaah:**

44. As we have seen through extremely accurate investigations, no touches, i.e. no contacts took place up until the present moment between these Earth-foreigners unknown to us and any earth-humans.

**Billy:**

It is simply maddening that misunderstandings creep in again and again because you do not speak in detailed enough plain language if you are not specifically asked for it.

**Ptaah:**

45. This corresponds to a mutuality, because you always answer only to direct questions, without giving further details thereof.

46. And so, as you keep to in this regard, we adhere to this as well.

47. This form of questions and answers is indeed also correct in principle, because thereby one does not go adrift into hardly important details.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_563](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_563)

**Ptaah:**

82. A certain Wilbert B. Smith was probably a contactee, but unfortunately one of the negative kind.

83. His contact was only a one-time and absolutely meaningless contact and furthermore only a hypnotic direct contact with the group of the 'Ashtar Sheran', whereby the whole thing was, as already mentioned, effectively of an insignificant nature.

84. As hypnotic direct contacts we call those where the hypnosis is not performed independently by apparatuses, but directly by the human being, but where the hypnotic transmission of energy thanks to hypnosis over long distances is also performed by strong transmitting apparatuses.

85. So Smith, like many other contact persons, was in contact under hypnosis with post-hypnotic aspect, and he did not act consciously and not of his own free will, as it was common practice in the 'Ashtar Sheran' group to keep the contact persons absolutely under control.

86. And this was the case with all the numerous contacts who were abused by the 'Ashtar Sheran' group.

87. Such contacts with Earth-humans were very often the case through the 'Ashtar Sheran' group, whereby this group simply impulsively influenced Earth-humans to make them willing tools for their dark machinations on Earth.

88. These influencers were in great numbers, but none of the human beings ever had any idea what the actual reality of the contacts was and how they took place.

89. In fact, they never had any real physical contact, but always only hypnotic impulsive contact, with real visions also being part of the whole, so that many of those contacts, who were abusively manipulated by the 'Ashtar Sheran' group, were convinced that they had real contact with extraterrestrials.

90. So they were not aware that they had no real encounters with the aliens in this sense, and consequently they also had not flown in their flying apparatus, because in fact they were only pretended to have had real hypnotic visions.

91. Through this hypnotic real vision illusion the contactees were misled in such a way that they actually believed that they had real contacts with extraterrestrials and had flown with their flying apparatus.

92. So they were no longer able to distinguish reality from the hypnotic illusion, and lived or still live in the implanted delusion that their contacts were real.

93. A further fact was that these contactees were hypnotically and suggestively given false data about the origin of the 'Ashtar Sheran' group, thus practically all these contactees were reminded of different places of origin.

94. But all these facts were unknown to us at the time when we gave you the list of these contactees, because at that time we only analyzed the memories of the people concerned.

95. These were, however, so profoundly hypnotically and suggestively manipulated that we were deceived by them and therefore did not recognize the memory manipulation.

96. We only found out the real facts three weeks ago, with better technical possibilities, which we now have at our disposal and which we have now used for the first time.

97. In recent years, we have noticed things that seemed strange to us in various such contactees, which is why we used the new equipment and devices to re-analyze the memory impulses of all still living contact persons and were able to penetrate their hypnotic blockade.

...

100. It must be said, however, that the persons forced into contact in this way are left with no conscious knowledge of their own, but only the post-hypnotic memory, which shortly after the manipulation became so strong that it could not be reversed .

101. And this applies without exception to all those many Earth-humans whom we have named individually or in lists as contact persons and who without exception have been forcibly manipulated in a hypnotic-suggestive-revisionary way by the 'Ashtar Sheran' group.

102. In all cases, however, the impulses were such that the recipients of the impulses had false visions and thought that they had experienced contact, which is why they took notes, wrote books and also made public statements.

103. The reason for this was, on the one hand, that this was supposed to lead to a worldwide disinformation regarding the existence and origin of various extraterrestrials, while on the other hand it was also connected to a plan of the 'Ashtar Sheran' group, which consisted of becoming a ruling power on Earth and finding a new home there.

104. The plan was that this group would act as a kind of savior for the Earth's population, against various 'evil' alien invaders who were supposed to threaten Earth.

105. For this purpose a big spectacle with aerial battles and fights in earth orbit was planned to make everything seem real.

106. And this would finally have led to the 'Ashtar Sheran' group taking over the rule of Earth, as an extraterrestrial armada, so to speak.

107. So all this was aimed at with the hypnotic contacts to Earth-humans, and it was all to come about after official contacts with the Earth governments had been established.

108. This could actually have been achieved by influencing certain Earth-humans through impulses, which would also have included the rulers of all countries, who would have acted according to the impulses in such a way that the plans could have been realised.

109. Since these persons, of whom there were a greater number, all failed and for reasons as yet unknown to us did not fulfill the orders placed in them, the evil plan did not come to pass.

110. All the contactees, whom we also used to call by their names, were supposed to be the pathfinders for the realization of the plans of the 'Ashtar Sheran' group.

111. And since all these Earth-humans were hypnotically and suggestively manipulated by the aliens of the 'Ashtar Sheran' group, which we did not know at that time, we called them real contact persons.

112. That was probably wrong of us, because we let ourselves be misled, which led to false assumptions on your part and also on the part of Earth-humans, which resulted in the assumption that these contact persons with the 'Ashtar Sheran' group had real physical or telepathic contact with any aliens.

113. Of course this was not true, as we know today, but even then it seemed strange to us, because we did not know any other group apart from the three groups unknown to us.

114. So we assumed that these contact persons were connected to the three unknown people we did not know.

115. So this misunderstanding was due to us, which we regret very much.

116. And it should also be mentioned that this form of forced manipulative contacts had nothing to do with our impulse contacts, which we used to have with Earth-humans, but for them unconsciously and in such a way that they assumed that their progressive ideas were their own.

117. In particular, these impulse contacts from our side to scientists took place in order to promote the sciences of medicine and technology among Earth-humans, which has also been proven by the very rapid developments in the last decades through many inventions and innovations etc ., as is actually the case.

118. Our contacts were also such that the recipients of our impulse transmissions had no knowledge of the whole of the unconscious telepathic information impulses.

119. The 'Ashtar Sheran' group, which finally ended in the DAL universe, as you know what was supposed to cause disaster on Earth, which would have happened if their manipulative machinations with the forcibly contacted Earth-humans had been successful.

120. As for the name 'Alan', which was used by Wilbert B. Smith, it was also a fantastic invention, as were all his utterances.

121. With regard to the name 'Alan', it did not mean that he was a liar, but that the meaning of the name meant 'the liar'.

...

**Billy:**

These are new findings again, which show many things in a new light.

**Ptaah:**

123. That is so, but we are also not immune from mistakes and misguidance, not even in the mentioned relationship by the 'Ashtar Sheran' group, which has been doing very bad things and has caused a lot of trouble regarding alleged physical and telepathic contacts with various extraterrestrials from allegedly different places of origin.

124. As we have now been able to find out, their victims were hypnotically and visionarily duped into alleged physical contacts, as well as into alleged messages of Christian religious form.

125. This, along with various other underhand machinations, which caused wrong assumptions and views in many Earth-humans, even among civil servants and military personnel etc.

126. Also, for the sake of confusion, sightings with various kinds of flying apparatus were actually organized around the world, as well as strange acts of animal mutilation etc., as well as by Earth-humans who were impulsively hypnotized by the 'Ashtar Sheran' group.

127. We only found out about this through Asket, because she told us that during the fighting in the DAL universe four prisoners were taken from the 'Ashtar Sheran' group before their armada was completely destroyed.

128. One of the four prisoners was the first representative of Ashtar Sheran and Armada commander.

129. Recently he, like the three other prisoners, finally agreed to break the silence and reveal the many evil machinations of the group, so that we could get to the bottom of it with their hypnosis contactees and find the truth.

130. These prisoners also gave the names of various such false contactees who had already died, including one Wilbert B. Smith, as well as others in various countries in Europe, Africa, Japan, America, Israel and South America, such as Brazil and Argentina etc., but also Australia and Russia etc.

...

**Billy:**

I can understand that, but now the question arises whether the whole thing with the prisoners and your investigations have perhaps also led to findings with regard to the three groups unknown to you, and if so, which ones?

**Ptaah:**

136. This was also clarified with the prisoners, and their statements make it absolutely clear that the 'Ashtar Sheran' group had no connection whatsoever with the three groups unknown to us.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_565](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_565)

**Ptaah:**

22. On the other hand many decades ago many things had already seemed very strange to us regarding the many Earth-humans who appeared and declared that they would have contact with extraterrestrial beings and also had to spread their messages, whereby they also named strange places of origin or solar systems and planets of the extraterrestrials, of which we knew and also know today that no human beings or human-like life-forms exist there.

23. Consequently we assumed that these statements of the extraterrestrials to their contact persons must have been deliberate deceptions, but we were not able to fathom them.

24. We also assumed that the whole machinations were due to the three groups unknown to us.

25. We then let the whole thing stop and made the mistake of calling all the contact persons known to us through superficial clarifications of memories as real, as you then also made public through the contact conversations.

26. Nevertheless, many strange inconsistencies did not leave us in peace, so we tried to find out more from the contact persons, but we were not allowed to penetrate their consciousness or even their personality analytically, because our directives did not allow us to do so.

27. Consequently, we had to be content to accept the memories released by the contact persons as true.

28. We were not satisfied with this, however, because the strange things that occurred were always disturbing.

29. So we tried to change our directives in order to be allowed to fathom the absolutely personal nature of the contact persons and to penetrate their consciousness and personality in order to gain clarity.

30. But a change of the directives was very long and took years, because the absolutely personal nature of the human beings could not be violated.

31. After many years it was finally decided that in the specific case of clarifying the actual facts concerning earthly contact persons, an absolute exception was made, but this was allowed absolutely only for all those contact persons, as we called them to you or who were otherwise known to us.

...

37. And it has to be said that our new apparatus and equipment is one which also serves to clarify many other things in many other areas, and which can therefore also be used in other ways than those which are based on the actual facts of the contactees in relation to the 'Ashtar Sheran' group.

38. So these innovations have also enabled us to see that the groups unknown to us are not three, but four of them.

39. All four groups are quite active worldwide, and have been for a very long time, so they can also often be observed by Earth-humans.

...

**Billy:**

But what about the fact that so many extraterrestrials are supposed to walk around on Earth and be in the governments and participate, as always claimed by certain people? I cannot really imagine that. If all this is to be accepted as the truth, which has been claimed for decades by alleged contacts, former intelligence officers, government officials, and UFO researchers or other alleged experts in the field, then Earth would have to be teeming with extraterrestrials and all governments would have to be controlled by them. Whether those who claim to be former intelligence officers, governmental UFO researchers and officially declared UFO enlighteners really belonged or still belong to an intelligence agency, an official UFO reconnaissance organisation etc., I would like to question.

**Ptaah:**

60. These doubts are also justified, and it is also not really the case that the Earth and its governments are permeated by extraterrestrials, because so far we have not been able to make such statements.

...

**Billy:**

So many observations, things, and strange occurrences can be traced back not only to the former 'Ashtar Sheran' group, but also to these four groups?

**Ptaah:**

65. It was never mentioned, but only that many events and occurrences could be attributed to this 'Sheran group', from the hypnotic forced contacts to all kinds of unpleasant happenings and strange occurrences.

...

**Billy:**

But again and again there are earthly deceivers, charlatans and swindlers at work around the world who take false photographs of alleged UFOs and claim to have contact with extraterrestrials, physically, telepathically or through channelling.

**Ptaah:**

69. This action is nonsensical and known to us.

**Billy:**

Either these people are egotistical, schizophrenic or otherwise out of their minds. But how can it be different with such people than that they are somehow not sane. ...

If the whole thing is considered, then these cheats, charlatans and swindlers in the matter of UFOs are quite pathetic sausages/weiners, who are actually to be pitied.

...

**Billy:**

... During the first time of our contacts your daughter Semjase talked a lot about the fact that various extraterrestrials come and go on Earth and that they would also have contacts with Earth-humans. How should this be understood now that you found out about the 'Ashtar-Sheran' group and were able to clarify the whole thing? Must Semjase's explanations now be connected with this?

**Ptaah:**

76. That is indeed the case, yes, in every single relation of the names she told you, which according to our latest investigations were connected with the 'Ashtar-Sheran' group.

77. These statements of my daughter are of course not connected with those telepathic impulse contacts which we had with Earth-humans without their knowledge, nor with those which, intentionally or unintentionally, were made by us with Earth-humans, such as the contact of my daughter Semjase with a German named Elsa Schröder in Persia near Zahedan and with Petra and Anatol.

78. Then the contact that took place in Bolivia, South America, with an extraterrestrial group from a space and time displaced area of Proxima Centauri between an Athar and Kohun and a man of German descent.

79. And there may also have been contacts of various kinds between Earth-humans and the four groups unknown to us, but we have no clear evidence of this, at least not to date.

80. And what my daughter explained at that time when she talked about contacts with extraterrestrials mostly referred to the activities of the 'Ashtar-Sheran' group, but under certain circumstances also incidents with the unknown groups could have been included, but we have not been able to clarify this until today.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_567](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_567)

**Billy:**

... According to your directives, you Plejaren were permitted to penetrate only to a certain level in a human being's consciousness, without being allowed to deeply research that which is purely private and personal. Thereby I speak in relation to those human beings of the Earth who you have put under the magnifying glass because they stated and spread it about that they had had contacts, and so forth, with some sort of extraterrestrials, or even with you Plejaren. But, in regard to the above, you were indeed only permitted to carry out superficial investigations, because you had this regulated quite clearly through your directives, to which you are always obliged in every case, and which, in the mentioned regard, you were also not permitted to break. Accordingly, from the beginning, you also could not penetrate into the deeper consciousness nor into the memory of those earthlings who you previously designated as contact people. So you did not find the actual truth, being that the human beings of the Earth, who you designated as genuine contactees, were nothing more than those manipulated by the Ashtar Sheran group's hypnotic suggestion and real vision, and so forth, who had no conscious and genuine memories of alleged personal contacts and experiences with extraterrestrials, rather only suggested false memories. But since you always had doubts about all the statements and claims of these human beings, for decades you sought the "High Council's" permission to change your directives precisely in such a way as to be permitted to penetrate deeper into the consciousness and memory of those human beings of the Earth who claimed to

be extraterrestrial contact persons, and so forth, in order to be able to fathom the actual truth. And then finally, when this permission was actually granted and the directives had been modified and expanded in this sense, you were permitted, and you could act accordingly and finally fathom the reality and bring the effective truth to light. However, so far, you also do not know that which actually was or still is the case in regard to the events relating to this, or other events, in relation to the four groups which are still unknown to you today, whereby you also do not want to clarify that because it is not in your interest. With regard to your interests and activities in association with the Earth and its humanity, you are also in no form interested in interfering in any terrestrial affairs. Your areas of observations and interest on the Earth are mainly scientifically related to the planet's ongoing geological processes, such as the observation of volcanic activity, plate tectonics, earthquakes, the oceans and other waters, the glaciers and the Arctic and Antarctica, the Earth's climate and the changing of fauna and flora. You are further interested in the development of the terrestrial sciences, economics, politics, medicine and technology, the history of humankind, factors of human health, the meteorological trend and the military clashes, and so forth. Thereby, your directives clearly and precisely forbid you, in any form, any kind of interference in any terrestrial concerns. Constituting an absolute exception in this regard, were the suggestive development impulses which you transmitted to the terrestrial researchers, scientists and engineers, and so forth, in the 19th and 20th centuries and also even during the first decade of the new century – that is to say, the 3rd Millennium – for the general development and for their progress, in order to render assistance to development and progress in every regard. But in order for you to be able to do that, it required a special clause in your directives which allows such suggestive/impulse-based assistance when a planetary humanity has reached a certain general stage of development. ...

...

**Billy:**

... But now I should like to mention something concerning your suggestive/impulse help. Through this help which you were allowed to provide in this regard to the terrestrial scientists, inventors, and researchers and developers, and so forth, on Earth and therefore with the terrestrial humanity, everything in all areas has actually indeed led to an incredibly fast rate of development and to a tremendous progress not seen for millennia. This would indeed not have been possible without your work, because normally this progressive development, as has taken place in tremendously rapid succession in the last 170 years, would have appeared only in the course of the 3rd Millennium. And these impulses, transmitted through apparatuses for suggestion, took place without the persons concerned being able to consciously perceive them. On the contrary, they assumed that their ideas, developments and inventions, and so forth, were always based on their very own cognitions and ideas. Unfortunately, however, also very negative effects, things and events have occurred as a result of the impulses for development and progress transmitted by you, such as with regard to the negative use of the atomic power and the weapons technology and the electronics and chemistry, and so forth. Unfortunately, these Ausartungen\* have come about through the irrationality of Earthlings who – as usual – always repurpose everything, and apply everything as Ausartungen for the exercise of power and purposes of destruction.

**Ptaah:**

22. Everything that you have said is right; and unfortunately it is actually the case that the Earth-humans always tend to use everything for might, for harassment and for destruction, and so forth.

23. Although, in every single case, we also sent all those – who received developmental and progress-conditional suggestive impulses from us – impulses which were aligned with a peaceful use of all new developments, but those in government and those in military power, and other powerful forces, worked against that.

24. And unfortunately, the scientists, inventors and researchers and developers allowed themselves to be beguiled by them and consequently, out of much of that which we put in place, for the benefit of Earth humanity, through unconscious, suggestive impulses for development and for progress, in those capable of research, science and development, ultimately only very much which brought death and destruction was created.

25. And this occurred with the entirety of technology of all kinds – the physics, the chemistry, the medicine and all other sciences.

26. In fact, without our suggestive/impulse-based assistance for development and progress, the cognitions obtained in the last 170 years by the Earth-humans, and developments made by them in all fields, would only have come about in the first centuries of the 3rd Millennium.

27. Unfortunately, however, all researchers, scientists and developers, who were included in our suggestive impulses, were either corrupt, profit-greedy, naive or so weak in consciousness-of-self that they bowed to the demands of the mighty.

28. However, it also must be said that various individuals were put under duress by the rulers, powerful ones and criminal elements, while others simply feared for their lives and, therefore, did the will of those of the government and military, and so forth.

**Billy:**

History indeed shows all the evil things and things of Ausartung which have resulted from that. And the enormously rapid development in all forms of the technology, the physics, the chemistry and medicine as well as in all other sciences in the last 170 years falls really crassly from the bounds of all the Earth human speed of development and progress of the last 5,000 years. Even those of the lowest intelligence must appreciate that the degree of the normal development in all fields falls completely out of the limit and that the whole thing was really only possible through your development and progress help during the last 170 years from 1844 to today. Without this help, today in all areas, we Earthlings would still certainly be in a period of laborious beginnings, which knew no electronics, no atomic power nor good medicine, no far-reaching school education and no other values associated with that, and of a high degree as is the case today.

**Ptaah:**

29. This is indeed so, as you say.

**Billy:**

But how does it stand today with the whole matter of the suggestive impulses to the earthlings?

**Ptaah:**

30. We no longer carry that out on a large scale, rather only in a very limited form, indeed also only in a form to prevent certain very negative Ausartungen which stand threateningly in the future.

31. Through that which the Earth-humans have achieved up to the present time, everything has developed in such a way that, with all the obtained knowledge and capability, they can now stride ahead very quickly ever further in all areas of development.

32. Consequently, they require no further help from our side in this regard, but only impulses in order to prevent even worse things than those which already happened.

**Billy:**

And if you provide such impulses to prevent worse things, then does that corresponds to your directives?

**Ptaah:**

33. This is indeed the case, yes.

34. Thereby, however, we also only put impulses in place which must be processed and put into action by the Earth human being himself/herself, consequently, we therefore, in no way, directly interfere in the matter.

**Billy:**

Which perhaps can be seen in this form: as if I, for example, impart advice to someone, which he/she can then follow or disregard according to his/her own will.

**Ptaah:**

35. That is a good example.

36. Our impulses, which we send to the Earth-humans, so that they do not succumb to further Ausartung in that which they do as a result of the acquired knowledge and skills, is no more than a form of good advice, which can be considered and obeyed or disregarded by every Earth human being at his/her own discretion and will.

*Readers' Letter and Questions*

**Billy:**

*... But to Ashtar Sheran, who actually existed, whereby he first had an important mission, but from which he had fallen away and become a criminal: He had gathered a large armada around him and caused all kinds of mischief and inconsistencies, as well as that he himself, as well as his followers in bondage to him, hypnotically and suggestively influenced Earth-humans and made them believe all kinds of nonsense. The name Ashtar Sheran was also suggestively 'implanted' in earthlings, who then – unaware of the truth of their suggestive-hypnotic influence – turned it into an esoteric-sectarian contact story and spread it, which has continued until today and has found a large number of followers and believers. And this is still the case, although Ashtar Sheran was truly a criminal and Athar Seran was what his real name was. On Earth, the name was misunderstood and changed to Ashtar Sheran, but he, along with his whole band, was eliminated in the DAL universe years ago in criminal battles, so his spirit-form is also no longer in our DERN universe.*

**Billy:**

*Impulse information has not been transmitted from the Plejaren to Earth-humans for a long time. Such impulses, which were transmitted in a completely unconscious way for the recipients and began to have an effect in them, served the sole purpose of transmitting information in all important scientific fields, e.g. to promote progress in medicine and technology etc. Thus the recipients never consciously perceived the impulsive information transmitted to them, and also did not become aware that the Plejaren had impulsively given them certain directions and had shown them many possibilities for development and rapid progress in relation to thousands of developments. The Plejaren were not allowed to give more than this impulsive information unconscious to the recipients because, according to their directives, they were not allowed to interfere further in the developmental concerns of the earthly sciences etc. – above all, they were not allowed to do so openly and recognisably. And as far as impulses for yourself or impulsive help for the human beings who are in need of help, which should come from the Plejaren, there are also the directives in between, which do not allow such help.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_589](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_589)

**Billy:**

Recently, various television programmes have been reporting on earlier UFO observations and also on various strange UFO encounters. To my knowledge, at least as you told me earlier, all these observations and encounters are not connected with you Plejaren in one single case.

**Ptaah:**

82. We on Earth have never been involved in such observations and encounters since ancient times.

83. However, we are well aware that incidents concerning observations and encounters have taken place in connection with Earth-humans and unknown flying objects or UFOs, as the common name is.

84. But we only know this since we have had the opportunity to do so in the last one and a half decades through the technology of the Sonaer.

85. Before that we were unfortunately deceived in many ways by many imaginative and imaginative Earth-humans through lies and deception as well as charlatanism and also fun.  
86. Only with the technology of the Sonaer we were able to clarify that many Earth-humans, who reported alleged observations and encounters or even alleged contacts with Earth-foreigners, only told lies and charlatanism, as well as fraud with fake pictures and films.  
87. Others, on the other hand, invented alleged experiences and even inflicted strange little injuries on their bodies, which they described as marks and signs etc. added to them by Earth-foreigners.  
88. Many of these people were addicted to the desire for renown, as is also the case today, along with religious and sectarian motives and financial-profit motives.  
89. But when Earth-humans have observed flying objects or UFOs unknown to them and encounters with such flying apparatus have taken place, and are still taking place around the world, then these refer today and in the future only to the four foreign groups and in no way to us, the Plejaren or our federated ones.

**Sfath {1944}:**

148. But from 1950 onwards, many deceivers will also dare to identify themselves as supposedly chosen by God in order to exploit their believers financially and sexually and to make them their slaves.  
149. Other irresponsible people all over the Earth will also take advantage of the fact that observations of unexplained flying objects become known, in order to claim that they are flying apparatuses from other worlds, which are then called UFOs, and with whose beings they have had personal contact or have important connections.  
150. Some among these irresponsible ones will claim, against the truth, that they are God-sent and would receive divine messages to save Earth's humanity or to lift it into the Kingdom of God.  
151. From these claims and lies will emerge fraudulent so-called UFO sects, whose founders will gather around them fellow believers who will lie to them, deceive them, exploit them financially or even abuse them in many ways, especially women and children in a sexual way, as has also been the case since time immemorial with religious sects and especially also with so-called clergy of the Catholic Church and with institutional educators, and will continue to be so.

**Sfath {1945}:**

68. You will also learn more, as now I have to explain to you, that my homeland in the other spaciousness belongs to a structure of stars (note Ptaah: star cluster), which is called by us 'Plejaren', although you must conceal this name when you already begin your task in the next few years and begin to spread your first literary task works (note Ptaah: written missionary works).  
69. And it will be very important that you keep silent about my origin as well as about the origin of my flying apparatus.  
70. Your silence will be of great importance, for if you become known in the world by name and by association with me and all my successors, there will be much deceit, fraud and slander by malicious men, charlatans and self-seekers, who on the one hand will make themselves known lyingly as associates with me, my successors, or on the other hand also with some fantastic origin from other worlds (note Ptaah: extraterrestrials), which will be cunningly invented by them.  
71. This is the reason why, during the next decades, you must not call our name 'Plejaren', but in your speeches and written publications you must only call the name 'Pleiades', which refers to

the structure of stars in this celestial space (note Ptaah: universe), in which the Earth also revolves around the Sun.

72. These are still young and inanimate star formations, which on Earth are also called Atlantides, Atlantiades, Pleiades, 7 Sisters and Gluckhenne (note Ptaah: M45) and which are part of the galactic system of this celestial space, which the inhabitants of Earth call the Milky Way.

73. If you will speak and write of 'Pleiades' instead of 'Plejaren', then liars, deceivers and slanderers will expose themselves, because their claims to be in contact with beings from the 'Pleiades' or with other beings from other alien worlds will become untenable, although they will first be carelessly called so-called 'true contactees' by your adversaries.

74. But those who will lie that they are in direct or indirect contact with us Plejaren will then be convicted of the lie by you, when my followers instruct you to name our true origin in due time, namely the star-formations of the 'Plejaren', according to which we also call ourselves 'Plejaren'.

75. And our spaciousness exists far beyond the 'Pleiades' of this present celestial spatiality.

...

80. This will lead, as early as 1952, in the United States of America, through malice, charlatany and selfishness, to the first cunning lies, frauds and slanders being spread throughout the world concerning alleged connections of earthlings with beings and flying apparatus from Venus and other alien worlds.

...

**Ptaah:**

41. ... we are also not allowed to openly interfere in the affairs of earthly powers, etc.

42. We are only permitted to send impulse vibrations to certain Earth-humans for developmental reasons, in order on the one hand to stimulate Earth-humans to direct their thoughts, feelings and behaviour in a rational and rational manner towards renouncing hatred, violence, discord and all reprehensibility, and to create peace, freedom, cordiality, empathy, kindness and all good, and to protect every life.

43. On the other hand, there are also impulse vibrations associated with this, which relate to medicine and techniques to promote it.

44. With regard to techniques, however, it is unfortunately the case that from our impulsive assistance not only the intended useful things come forth, but further developments are also worked out, as a result of which dangerous and deadly weapons and all kinds of other things for military purposes then come into being, which are used for war purposes, etc., just as these also fall into the hands of criminal and felonious elements who do harm and mischief with them.

**Billy:**

... But I would still be interested to know what you think of these people who always claim, lie and fantasise as busybodies and alleged UFO contactors and 'knowers' etc. that extraterrestrials, also so-called reptiloids etc., would participate in governments on Earth without being recognised, which Ptaah, Semjase and Quetzal as well as Asket denied?

**Florena:**

8. Concerning your question about lying or confused claims that alleged Earth-foreigners or extraterrestrials and reptiloids etc., as you say, are active in earthly governments, our assessment corresponds to the fact that all these persons in their consciousness reality are addicted to disorders of mind and reason, as well as to the need for self-portrayal, but they also have delusions and also show strong tendencies to lie.

9. Many are also pathologically out of touch with reality and therefore do not orient themselves to reality and truth, but to hallucinations, fantasies, illusions, self-deceptions, sensory illusions and mirages that are out of touch with reality.

10. Many simply allow themselves to be influenced and guided by lies and deceptions, and as a result of their own ignorance, weakness of intelligence and inability to cultivate their own clear thoughts and reflections, fall prey to a stupid faith, as is also the case with any belief in God.

**Ptaah:**

69. Earth-humans other than Petra and Anatol were and are not allowed according to our directives for direct contacts, nor indirect ones.

70. This, however, if we disregard the evolutionary development impulse contacts or impulse information, which we have been radiating extensively to the whole Earth since the 16th century and which were so directed towards the development and progress of all very important technical apparatus and devices – and continue to be programmed in this way – that they came directly into the consciousness of Earthly inventors, researchers and scientists.

**Billy:**

... So you are not located on the mentioned stars or on any alleged planets, such as the Pleiades, which at the beginning of our contacts we had at first deliberately falsely named as your home stars, in order to later be able to expose liars, deceivers and charlatans, who allegedly or falsely and thus untruthfully would have contacts with you Plejaren. And that this is exactly how it came to be, you knew this in advance through foresight, which is why we started the deceptive manoeuvre with the false place of origin 'Pleiades' and only named your real place of origin Erra with the Pleiaren stars in the ANKAR space-time structure, when in the course of the years various lying alleged contact persons, who claimed to be in contact with you, could be unmasked. ...

However, the fact that I had to name the Pleiades stars as your place of origin at the beginning of our contacts in 1975 according to your instructions was effectively the correct way, because only in this way could the fraudulent alleged Pleiades contactors of both sexes be convicted of lying. It is true that there are still a few lunatics and madmen who claim to be in contact with you, Ptaah, by channelling etc., like the confused Penny McLean etc., as well as the equally pathologically stupid Dr. Frey (a Canadian) who claims to be engaged to your daughter Semjase. I also have to mention the crazy guy from Belgium, I do not know his name at the moment, who reported me to the cantonal police in Zurich for allegedly stealing and kidnapping his extraterrestrial bride Asket. This man also went on a rampage in front of the restaurant in Schmidrüti and insulted me as the kidnapper of his bride. Asket found this amusing, but it was still unpleasant that the cantonal police then came to the Centre to compulsorily draw up a protocol.

...

**Billy:**

... We have often talked about the Earth-foreigners and the Earth-future, also in connection with their alleged contacts with Earthlings, to which you have explained that such contact connections between extraterrestrials and Earthlings do not exist, but would correspond to lies, frauds, phantasties and charlatanries. ...

...

I must certainly begin with the new statement by saying that you declared that all reports of abductions of human beings from Earth by extraterrestrials, as well as contacts with extraterrestrials, would be nothing other than lies, frauds or charlatanry, as a rule and with reservations, although I had to conceal the 'as a rule' and 'with reservations' and was therefore not allowed to mention this fact according to the confidentiality clause. ...

... Then I want to explain the matter of 'as a rule' and 'with reservation' differently, whereby I have to digress a little and also repeat a passage two or three times. So then the following: You stated that the reports concerning human beings on Earth who had been abducted by extraterrestrials, as well as contacts with extraterrestrials (here the insertion was 'as a rule' and 'with reservations'), corresponded to lies, fraud, boasting or sheer charlatany. So your statements were effectively only relative and as a rule only to be understood with reservations, which means that in this sense your statements and declarations were to be understood and understood only within certain limits and from certain points of view. Consequently, on the one hand, they were only true and to be understood from a certain point of view and were therefore limited in their validity and value, while on the other hand, through the 'as a rule' and 'with reservation', the possibility and fact of the existence of Earth-foreigners and Earth-future ones as well as abductions by them in relation to Earthlings remained just as open as also possible contacts. So your explanations, statements and declarations were formulated in such a way for the public and to be kept in writing by me and to be spread in the world, just without your mentioned additions 'as a rule' and 'under reserve', whereby the misunderstanding impression was awakened and it seemed as if you would completely deny all abductions concerning earthlings by extraterrestrials and any contacts with them. But this was not the case in reality, because you spoke of relatively and 'as a rule' and 'with reservations', which I had to conceal for certain reasons and must also do now according to your instructions. ...

... As far as the presence of the Earth-foreigners on Earth is concerned, however, it should certainly not be necessary to explain more about this, for my present open announcement and thus also open disclosure will certainly suffice and show that the missing phrase 'as a rule' and 'with reservation' in the reports of the talks at that time only served to conceal certain facts and facts in order to prevent disastrous, calamitous and momentous doom. ...

... I would also like to say that what I was not allowed to mention in the reports of the talks, the phrase 'as a rule' and 'with reservation', was simply an omission, which, however, cannot be interpreted as a lie or the like. Basically, the lack of the phrase only led to a misunderstanding among all the adversaries who tried to silence me with vicious insults and even with assassination attempts within the framework of the worldwide controversy directed against me, as I had also already explained. However, since I had to remain silent with regard to the phrase, I just did as you instructed me to do, which I myself believed and also believe today, that the good end 'justifies the means'. In order to explain your statements and explanations with the expression which I then concealed, the whole thing meant in detail that on the one hand the majority of the abduction and contact claims were really lies, frauds and swindles etc., while on the other hand a small part of the reports which became known concerning abductions by extraterrestrials were just as real and genuine, as you expressed this with 'as a rule' and 'with reservations', but about which I had to remain silent. As a result of the reasoning, which I am also not allowed to give now according to your objection, the abductions by extraterrestrials and the few trivial contacts had to be denied and their reality excluded and questioned by a misunderstanding. With this I have reached the decisive knot with my explanation, which I can now open and say and talk about everything that is permissible and explainable, by breaking my silence and disclosing it. With this I can say that the Earth-foreigners, who are generally simply called extraterrestrials or aliens by the Earthlings, have in fact been around for a long time. They stayed here and worked in many ways, as did their distant descendants, but they have also been active on Earth for centuries and millennia up to the present day, flying around and in and out of the Earth, and are observed again and again around the world by the Earthlings, whereby the American continent is of particular importance in this respect. Their early ancestors worked in many different ways on Earth, and also in various countries in Asia, North Africa and partly in Europe, but mainly in the early days in the North African country, which in later times was called 'Kemet' and then finally in later times Egypt, after which this name has been preserved until today. Your father Sfath taught me during a leap in time into the past to the land there, where

the Earth-foreigners ruled at that time, whom he called 'long-skulls' and whom I have seen myself, that they had been on Earth for thousands of years. Because, in contrast to the round skulls of the human beings of Earth, they had skulls that were long and thickly protruding towards the back, they stood out unmistakably from the human beings of Earth just as other Earth-foreigners did around the world, such as giants up to about 3 metres tall, half-small people with large and somewhat v-shaped heads and excessively large eyes. Various such long skulls have also been found in modern times by archaeologists, etc., although to this day people still puzzle over what secret is connected with these skulls, which were not from human beings of the Earth, but belonged to Earth aliens. ...

... This was also observed by the very early Plejaren, who have been coming and going on Earth for more than 26 million years, as you yourselves still do, but you never came into contact with the 'long-skulled', nor with the 'big-headed' and 'big-eyed', the 'normal-headed' or otherwise different Earth-foreigners. And you still keep it that way today ...

... Certain abductions of human beings from Earth for various purposes, and thus of course the corresponding contacts, which have taken place again and again since time immemorial, have always belonged to the behaviour of the old Earth-foreigners and Earth-future, as well as to the newer ones who fly in and out of Earth and back again. But the fact is – in spite of abductions, etc. – that none of these Earth-foreigners and Earth-foreigners have, up to the present time, conveyed any messages and the like to the Earthlings, precisely messages with regard to how they would have fallen, or would fall today, within the framework of the 'Teaching of Truth, Teaching of the Spirit, Teaching of Life' and thus within the sphere of the Nokodemion and my Mission. Likewise, like the Earth-foreigners, Earth-foreigners are at times to be observed in earthly space with their futuristic flying apparatuses, though the Earth-foreigners have just as nothing to do with them as you Plejaren have nothing to do with them, nor with the Earth-foreigners. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_711](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_711)

**Billy:**

... But now I would like to address something else which is repeatedly brought up by various people, namely, why you Plejaren have been holding back since time immemorial and have always maintained no direct, but only indirect and thus impulse-based contacts with Earthlings and will also not maintain any direct contacts today, nor will you in the future, as you have done since time immemorial with regard to the Earth-strangers and the Earth-future ones. ...

...

**Ptaah:**

70. It was also recognised, however, that in spite of all knowledge and efforts with regard to the conduct of life in the good, the correct, the human, and with regard to righteousness, as well as with regard to the observance of the natural positive creative laws, the human being always remains susceptible and can fall back again into old ungood, negative, evil and bad behaviour, if he does not make the necessary effort to control it in order to prevent it.

71. And it has been recognised that this can always happen again if the human beings are influenced from the outside in any verbal, physical or consciousness-, thought-, emotion- and psyche-burdening forms for long enough.

72. So in this respect all human beings of all Plejaren planets or their populations were subordinated to this natural-creative law of action in such a way that countermeasures had to be taken, which were recorded and followed in directives, and which consisted in the fact that no direct or otherwise harmful connections were to be sought and maintained with alien worlds and their populations, in order not to relapse into the old modes of behaviour through such contacts with alien peoples who were not like our ancestors.

73. We Plejaren of today are also human beings – like our ancestors 52,000 years ago and all our descendants since then – who must resist such external influences without being harmed,

for unfortunately we are still susceptible to negative external influences that would cause us to relapse into the old ways of behaviour if we were to fall long enough into areas of negative influence that were harmful to us and were hit by factors that had a negative effect on us.

...

92. And this realisation that such outside influences from fellow human beings have a suggestive effect and provoke and evoke relapses into old negative behaviour patterns and ultimately allow them to be broken through, led to directives being drawn up which warned against and forbade this, that henceforth no more off-planet contacts and connections were to be cultivated with peoples or individual life-forms whose life- and behavioural evolutionary level as well as their consciousness, thought, feeling, psyche, action and reason rationality was lower than the general average of the Plejaren population in this respect.

93. And these directives have been preserved throughout the ages up to the present day, and thus continue to be valid even into the most distant future.

...

102. And this corresponds to something that may seem incomprehensible to the majority of Earth-humans, as well as to the fact that, for these reasons, we cannot and must not get involved in any direct or other contacts and connections with other-thinking and other-living life forms or human beings such as Earth-humans.

103. This fact is therefore one of the most important reasons why we Plejaren hold back and, in accordance with our security and our directives created in this respect, are not allowed to enter into any direct or telepathic contact, or any form of technical communication, with persons and peoples of other worlds.

104. This is precisely when they are not like our Plejaren values in their forms of mentality and behaviour, as well as in their way of life and in their use of intellect, reason and intelligence, etc., but are degenerate and violent to the contrary, as well as criminally deficient in respect of righteousness and the observance of the natural creative laws, etc., as is very distinctly the case with Earth-humans, among whom only very few exceptions are to be found, who, if not extensively, yet at least in part, endeavour to learn a better, positive and natural-creative-correct way of life.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_715](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_715)

**Ptaah:**

108. And with regard to our directives, these also actually ensure that we are spared from relapses into old behaviours, actions, deeds and into a degenerated mentality.

109. In accordance with our senses and aspirations and our directives, we cannot and must not enter into any contact with Earth-humans and Earth-foreigners and also not make ourselves recognisable to them.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_724](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_724)

**{Billy}:**

*But as far as all the alleged contact persons with equally alleged extraterrestrials are concerned, as well as again alleged materials such as earth, precious metals, crystals, potatoes and flights into space or to other worlds, channelling with extraterrestrials and other nonsense, I know from Plejaren investigations and from my own experience with such persons who tell such nonsense that such lying and deceiving Earthlings of both sexes are running around on Earth almost en masse, spreading fantasy stories and deceiving their believers.*

*Who and how many of all those earthlings are conscious liars and deceivers or jokers, phantasists or imaginary contactors, delusional people or those who want to arouse public interest for themselves, make themselves important, hope for a partnership, try to get hold of a title or Nobel Prize or whatever, I do not know and do not want to judge, because that does not interest me at all. For me, only reality and truth are of profound significance and importance.*

*But what I may now declare with certainty is that every male or female earthling is a liar and a deceiver if he or she claims to be in contact and connection in personal or telepathic form, or through channelling or otherwise, with any persons of the Plejaren.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_766](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_766)

**Billy:**

... Earlier I started to ask something about the first and following journeys of the Plejaren, first 25 million years ago. As I know, contacts with earthlings were made again and again, but never on a large scale, but only with individual human beings, and usually only with captains of small groups or larger tribes, as well as with sages and clever inventors. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_779](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_779)

**Ptaah:**

... on the one hand I am not so concerned with the frauds of alleged contactees with extraterrestrials that I would know all the names of such persons. On the other hand, persons who have had real experiences with foreigners do not know who they were actually dealing with. Consequently, a person accuses himself of lying if he claims that he is in contact with extraterrestrials, because such contacts are not known to us, if only because we do not concern ourselves with them. If we have knowledge of this, then it is only based on coincidences, but these are rare because we do not explicitly deal with such things, which are usually based on lies and deception. My statement, that is, what corresponds to my personal observations and experiences, are such that I could not affirmatively answer alleged contacts of Earth human beings with extraterrestrial life-forms, which is what you are asking about. Besides, we are really only concerned specifically and exclusively with what arises around you and your person. As far as other matters concerning alleged Earth human beings' connections or contacts with alleged extraterrestrials are concerned, that is not in our interest, consequently we also do not concern ourselves with it. This was done by us at an earlier time, when the interest on Earth among human beings was practically a 'time of extraterrestrial flying objects', the so-called UFOs. In response to your questions, we endeavoured to do this and found that the case did indeed occur with certain Earth human beings that they were abducted and examined by foreigners, and so on. But we could not establish that actual contacts took place, such as ours with you. On the other hand, we know very well that it corresponds to the correctness of observations of foreign flying objects, as well as that there are very good photographs and film recordings and other recordings of foreign flying objects that have been made by Earth human beings and are still being made today, which are genuine – even with the 'modern' speaking devices called mobile phones. Military evidence of such photos has also been produced, but this is usually kept quiet about and this fact is denied, which is very ridiculous, because the fact still exists and can be proven.

But what the real background of the whole thing is to the foreigners, that is their business and none of our business, consequently we do not concern ourselves with it and also do not make ourselves recognisable to them, which our technology allows in such a way that our existence remains completely unrecognisable to them. We really do not want to have anything to do with these foreigners, although we have explored exactly what and who they are. You are also aware of that.

**Asket {1953}:**

205. The list will be very long of those Earth-humans who, already in the shortest period of time, will appear publicly to fraudulently and maliciously bring their fellow humans under their power by saying that they are in contact with beings of extraterrestrial origin.

206. There will be many among them who will do this as a result of delusion or for religious and profit-driven reasons, while others will be partially steered by the malevolent life-forms in the pyramid *{Gizeh Intelligences}*.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Asket%27s\\_Explanations\\_-\\_Part\\_2](https://www.futureofmankind.co.uk/Billy_Meier/Asket%27s_Explanations_-_Part_2)

**Asket {1953}:**

92. Something important is still to be explained to you: namely, that the most varied swindlers in UFO matters will spread worldwide and that you should never, of your own initiative, accuse them of fraud.

93. Always refer to us in regard to the naming of the swindlers because these statements stem from us and not from you.

94. In spite of that it will, however, be that you will be made responsible for the naming of the swindlers and it will be said of you that you would accuse all contactees, and so forth, of lying.

...

97. If I and others speak of swindlers then we therefore do this in a responsible way because we know the truth and many events of the future and thus also have recognised, and invariably will recognise, the swindlers.

98. And there will, unfortunately, be many of them - conscious as well as unconscious.

99. But it is devious and false if, later, from the year 1975, it is asserted that you or we would insult ALL contactees, and so forth, by calling them swindlers.

100. That is truly not so, because there are actually very many contact people on the Earth, even if most of them only make visual contact or do not know about their contacts, which are in the form of impulses, or because of that they unconsciously wrap themselves in silence.

*{Note: The below list of "Contactees" is primarily based on persons named in the Contact Reports. There are some additional names listed, which are persons who claim to be in contact with "Pleiadians" and other such imaginary beings. An attempt to name all such persons would be painstakingly time-consuming as well as pointless since there unfortunately seems to be a steady appearance of new persons making such claims (along with their services and/or merchandise for sale).*

*Important Note regarding some of the "Contactees" listed below:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_563](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_563)

**Ptaah:**

82. A certain Wilbert B. Smith was probably a contactee, but unfortunately one of the negative kind.

83. His contact was only a one-time and absolutely meaningless contact and furthermore only a hypnotic direct contact with the group of the 'Ashtar Sheran', whereby the whole thing was, as already mentioned, effectively of an insignificant nature.

84. As hypnotic direct contacts we call those where the hypnosis is not performed independently by apparatuses, but directly by the human being, but where the hypnotic transmission of energy thanks to hypnosis over long distances is also performed by strong transmitting apparatuses.

85. So Smith, like many other contact persons, was in contact under hypnosis with post-hypnotic aspect, and he did not act consciously and not of his own free will, as it was common practice in the 'Ashtar Sheran' group to keep the contact persons absolutely under control.

86. And this was the case with all the numerous contacts who were abused by the 'Ashtar Sheran' group.

87. Such contacts with Earth-humans were very often the case through the 'Ashtar Sheran' group, whereby this group simply impulsively influenced Earth-humans to make them willing tools for their dark machinations on Earth.

88. These influencers were in great numbers, but none of the human beings ever had any idea what the actual reality of the contacts was and how they took place.

89. In fact, they never had any real physical contact, but always only hypnotic impulsive contact, with real visions also being part of the whole, so that many of those contacts, who were abusively manipulated by the 'Ashtar Sheran' group, were convinced that they had real contact with extraterrestrials.

90. So they were not aware that they had no real encounters with the aliens in this sense, and consequently they also had not flown in their flying apparatus, because in fact they were only pretended to have had real hypnotic visions.

91. Through this hypnotic real vision illusion the contactees were misled in such a way that they actually believed that they had real contacts with extraterrestrials and had flown with their flying apparatus.

92. So they were no longer able to distinguish reality from the hypnotic illusion, and lived or still live in the implanted delusion that their contacts were real.

93. A further fact was that these contactees were hypnotically and suggestively given false data about the origin of the 'Ashtar Sheran' group, thus practically all these contactees were reminded of different places of origin.

94. But all these facts were unknown to us at the time when we gave you the list of these contactees, because at that time we only analyzed the memories of the people concerned.

*{Note: a reference to a list given during Contact 43.}*

95. These were, however, so profoundly hypnotically and suggestively manipulated that we were deceived by them and therefore did not recognize the memory manipulation.

96. We only found out the real facts three weeks ago, with better technical possibilities, which we now have at our disposal and which we have now used for the first time.

97. In recent years, we have noticed things that seemed strange to us in various such contactees, which is why we used the new equipment and devices to re-analyze the memory impulses of all still living contact persons and were able to penetrate their hypnotic blockade.

...

100. It must be said, however, that the persons forced into contact in this way are left with no conscious knowledge of their own, but only the post-hypnotic memory, which shortly after the manipulation became so strong that it could not be reversed .

101. And this applies without exception to all those many Earth-humans whom we have named individually or in lists as contact persons and who without exception have been forcibly manipulated in a hypnotic-suggestive-revisionary way by the 'Ashtar Sheran' group.

102. In all cases, however, the impulses were such that the recipients of the impulses had false visions and thought that they had experienced contact, which is why they took notes, wrote books and also made public statements. ...

**Billy:**

So many observations, things, and strange occurrences can be traced back not only to the former 'Ashtar Sheran' group, but also to these four groups?

**Ptaah:**

65. It was never mentioned, but only that many events and occurrences could be attributed to this 'Sheran group', from the hypnotic forced contacts to all kinds of unpleasant happenings and strange occurrences.

...

**Billy:**

... What interests me now: During the first time of our contacts your daughter Semjase talked a lot about the fact that various extraterrestrials come and go on Earth and that they would also have contacts with Earth-humans. How should this be understood now that you found out about the 'Ashtar-Sheran' group and were able to clarify the whole thing? Must Semjase's explanations now be connected with this?

**Ptaah:**

76. That is indeed the case, yes, in every single relation of the names she told you, which according to our latest investigations were connected with the 'Ashtar-Sheran' group.

77. These statements of my daughter are of course not connected with those telepathic impulse contacts which we had with Earth-humans without their knowledge, nor with those which, intentionally or unintentionally, were made by us with Earth-humans, such as the contact of my daughter Semjase with a German named Elsa Schröder in Persia near Zahedan and with Petra and Anatol.

78. Then the contact that took place in Bolivia, South America, with an extraterrestrial group from a space and time displaced area of Proxima Centauri between an Athar and Kohun and a man of German descent.

79. And there may also have been contacts of various kinds between Earth-humans and the four groups unknown to us, but we have no clear evidence of this, at least not to date.

80. And what my daughter explained at that time when she talked about contacts with extraterrestrials mostly referred to the activities of the 'Ashtar-Sheran' group, but under certain circumstances also incidents with the unknown groups could have been included, but we have not been able to clarify this until today.

*Important Note regarding some of the "Contactees" listed below:*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_567](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_567)

**Billy:**

... Accordingly, from the beginning, you also could not penetrate into the deeper consciousness nor into the memory of those earthlings who you previously designated as contact people. So you did not find the actual truth, being that the human beings of the Earth, who you designated as genuine contactees, were nothing more than those manipulated by the Ashtar Sheran group's hypnotic suggestion and real vision, and so forth, who had no conscious and genuine memories of alleged personal contacts and experiences with extraterrestrials, rather only suggested false memories. ...

#### **Asket:**

203. Indeed, he {*Reinhold O. Schmidt*} does not know that he has never been in this pyramid with the spaceship and the counterfeit utensils, or that it has all only been implanted in him as reality, through trickery, and that he has never flown in a spaceship any more than has another

Earth human, George Adamski, who presently deceitfully makes an effort in America to work himself up from hotdog vendor to being famous worldwide as the father of UFOLOGY, as the investigations into our spaceships will already soon be officially called.

204. Certainly, with him, the difference is that he carries out various deceitful manipulations quite consciously, as, for example, through the production of fake photos from spaceship models, and through the manipulation of humans with his extraordinarily high power of suggestion, through which, he, like the malicious beings in the pyramid of Giza, tricks humans with unreal and nonexistent things.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_002](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_002)

**Billy:**

... You have already spoken multiple times of deceivers and charlatans, who have gone public with their fantastic UFO contact stories and still continue to do so. Can you tell me some names?

...

**Semjase:**

61. But the greatest deceiver was the man who called himself Karl Michalek.

62. And the man who gained world fame under the name George Adamski in no way took second place to him.

63. Even his so-called fellow workers or friends belong in the same category.

64. This means those who, together with him, allegedly had contact with us.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_007](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_007)

**Semjase:**

100. It is, in fact, already enough that certain deceivers like George Adamski and K. Michalek and so on have driven many human beings into delusion and misery.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_017](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_017)

**Semjase:**

51. Sure, but now to other things that are very important; at the beginning of our contacts I talked in detail about various fraudsters in beam ships.

52. I spoke by name of George Adamski and his closest friends.

53. In this regard I have noticed some things in the last weeks that are very unpleasant; I know that at the beginning of our contacts you sent some material of photos and reports to certain addresses.

54. Since Adamski is exposed in those reports as the biggest cheater, some unpleasant things have resulted:

55. In the last few weeks various things have been done by various well-known parties to bring this cheater Adamski even more into the public eye as a hero and to present him as the actual father of the UFO contacts.

56. Basically, his closest friends, etc., are cited as witnesses who swore that they had seen and experienced various things with Adamski.

57. But these witnesses have unconsciously fallen into lying and claim things that do not correspond to the truth.

58. George Adamski influenced his friends and acquaintances so suggestively that they saw and experienced things that did not exist.

59. Only very, very few people knew that Adamski had good suggestive powers, which is why they feared him and kept it quiet.

60. But that he was a phenomenal suggestor was completely unknown, and of course he himself kept this secret in his favour.

61. By this extraordinarily high suggestive power he influenced his friends and acquaintances and led them to believe in the most fantastic things, which they then testified in lieu of an oath as 'truth'.

...

66. Beware of cheaters and charlatans like Adamski was.

67. There are many like him who are already working, and there will be many like him, and all of them will spare no means to make a profit.

68. They lift us up lyingly to perfection beings, which we really are but not because we are human beings like you, and we are as fallible as you human beings on Earth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_029](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_029)

**Semjase:**

129. But especially I would like to talk again about George Adamski, because he made the most tremendous assertions together with Karl Michalek, and because of the excessive number of trick photos, etc. he became more and more audacious and frivolous in the course of the years.

130. Since he saw and recognised that he found great approval in certain circles and that his photos, etc. were not subjected to too much scrutiny and therefore were able to deceive real experts, he dared to make even greater claims, namely that he had flown in extraterrestrial spaceships and had been photographed from ship to ship by extraterrestrial life forms.

131. In this regard, I refer specifically to the book 'Inside the Spaceships', which you kindly gave me earlier to study.

132. In this book, before page 161, there is a photograph of Adamski allegedly taken from a Venusian reconnaissance ship.

133. Here it is stated that in the picture Adamski is in the early morning hours of 25 April 1955 on board of a larger spaceship and is standing, together with an extraterrestrial human being, at a viewing hatch.

134. This picture alone is able to convey to every truth-loving and inquiring human being on Earth the fact that Adamski's statements correspond to a pure fantasy, because through the constantly increasing journeys on Earth and the arising carelessness he has made a spectacular mistake here, which convicts him of deception, if it is seriously taken into consideration that the size of the viewing hatch (into which Adamski had glued a picture of his head), converted to a scale true to reality, only amounts to just 15 cm.

135. This is a very accurate measure, extremely precise and correct.

136. If this measure is now remeasured into the total width of the ship, the length and width of which can be recalculated in the picture, this would result in a total width and total height of the ship of only 171 cm, and a total length of 897 cm, which would correspond to the measures of reality.

137. Adamski, however, had made models which did not exceed a maximum size of 30 cm, but were usually only a few centimetres in size, which he mounted on glass panes in front of the optics of his devices and then photographed.

138. In this way he obtained very deceptive photos, especially when he worked with telescopes and was able to use the moon as a background.

139. He was only able to take various photographs by lining up several panes of glass with pictures, drawings and self-illuminating dyes and then photographing the whole thing.

140. He had a friend, who had died in the meantime, make a very good model, made of metal.

141. He also attached this bell-shaped model to a very strong and pierced glass pane and used it for close-ups, etc., which were able to deceive even experts.

142. Adamski was able to cast a spell over worldwide circles through these erroneous machinations.

143. This was made all the easier for him by the corresponding orientation of his being [Wesen] towards his fellow humans.

144. To a great extent, however, his extraordinarily high ability of suggestion was decisive, enabling him to provoke hallucinations in well-known personalities in various forms.

145. For many years he was able to influence people with such realistic thinking according to his will and fantasies and to let them have the conviction that they were actually in contact with extraterrestrial intelligences.

146. In addition to Adamski, there are other charlatans and swindlers of the same kind at work, although their dimensions do not reach his.

147. However, several of them play a very important role and continue to promote untruth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Ptaah:**

501. You know a guy named George Adamski, right?

**Billy:**

You know him, you have told me about him several times. I also know him personally from before, when he was at the Volkshaus in Zurich in May 1959. I did not get the best impression of him then, although I had to talk to him with an interpreter because I did not speak English at that time. I noticed, however, that the man was dominated by a tremendous stubbornness and by a great egoism that seemed unusual to me, but which was supposed to be covered up by an almost perfectly acted kindness and charity. I found that the man had an extraordinary gift for persuasion and suggestion and always knew how to take over the conversation. It was clear that he had fallen for an ideal and was exploiting it in his own favour with a feigned help for the oppressed. So also fighting injustice seemed to me to be only acted by him and everything only to put himself in the centre. It seemed to me that in the first and last place for him only his own needs were always predominant, and that from the big toe up to the last tip of his hair. I had the impression at the time that in every respect he was only ever concerned with his own ego and his own well-being, which he directed into the highest channels through a tremendous power of imagination and suggestion. He also seemed to me to be dominated by the will to want to be first in every relationship and also to want to take the lead in every relationship.

**Ptaah:**

502. You have observed and analysed the man very carefully, which apparently no Earth human being has ever been able to do before.

503. Adamski indeed showed the qualities you mentioned, but he managed to cover them up almost perfectly and thereby deceived countless human beings.

504. He was born under the sign of Aries and degenerated in a very negative manner.

505. The reason, however, why I am again calling your attention to this man and to parapsychology is this:

506. The space beings you mention do not exist in any form and they are only the degenerate fantasy product of your impossible parapsychology in the first place.

507. In the second place in this fantasy degeneration functions the aforementioned Adamski.

508. He lived in a hopeless web of lies and was a fantasist with extraordinarily highly developed powers of suggestion.

509. Until a few years ago, your unreal parapsychology partly spoke of space beings of your mentioned form, Adamski took over this form for himself and imaginatively created a special form of being out of them, namely the Universe Guardians etc.

510. Neither parapsychology nor Adamski also get to the heart of the truth:

511. Beings of the forms they mention are absolutely non-existent.

512. They have never existed, nor will they ever exist.

513. They are the pure fantasy product of overstimulated, misguided or sick brains, but on the other hand they are also implanted fantasy products of the Giza intelligences addicted to world domination.

514. The truth about the most diverse forms of beings rests in completely different values than are claimed by your parapsychology, by Adamski and various other Earth-humans.

515. But these entities have not a single iota in common with the aforementioned fantasy-space beings.

...

**Billy:**

... But now I would like to come back to the UFO contacts, that is, to those people whom you call swindlers and fraudsters. What I am interested in is this: under what circumstances do you call these persons guilty of swindling and fraud?

**Ptaah:**

1059. If it is indeed the case that their statements and reports are not true.

1060. This is the case if these Earth-humans are not in contact with any extraterrestrial life-forms and only fabricate their statements and 'evidence' themselves through their imagination and skill, as was the case with Karl Michalek and George Adamski, for example.

**Billy:**

So that means that these people are deliberately creating and spreading lies for some reason?

**Ptaah:**

1061. It is so.

...

1093. Fortunately, real swindlers and frauds are few at present, but there will be very many more in the decades to come who lie and are fraudulently false contactees in this respect, i.e. such Earth-humans who, for selfish or world-improving reasons, etc., create lies, swindles and frauds, have created or will create lies, fraud and deceit to serve their own or other's egoism, delusion and profit, like Michalek and Adamski.

...

1145. In a short time reports will thus also appear in your world press concerning the frauds of George Adamski, who has already been mentioned to you by Asket as a swindler.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_039](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_039)

**Billy:**

... In particular, you did, indeed, tell me that Adamski was not a contactee ...

...

**Ptaah:**

35. Through various UFO reports, he *{Salvador Villanueva Medina}* has fallen to very strong fantasies and, moreover, has been very strongly influenced by Adamski.

...

**Billy:**

So accordingly, there should be no so-called supernatural beauty, etc.?

**Ptaah:**

50. These are pronounced fantasies of uneducated earth-human life-forms who want to make credible their fraudulent claims that they have made contact with extraterrestrials.

51. In the whole Universe, neither in this one nor in another, can the standard of beauty be exceeded, for it truly is limited.

52. If this limit is exceeded, however, then a degeneration already takes place, and the life-form in question must be described as ugly again, if I judge according to earthly concepts of beauty.

53. Hence, there can also be no supernatural beauty, as you have mentioned this.

54. Everything that is material is subject to certain limits that can never be exceeded.

55. Only the imagination is able to exceed these limits, but without ever being able to realise it.

**Billy:**

... Adamski and various others spoke of unearthly or supernatural beauty.

**Ptaah:**

56. Any rationally thinking Earth-human can recognise the untruthfulness of their claims because only the imagination can produce such images.

57. They are, however, nothing more than mirages, which exhibit momentary Fata Morgana manifestations and then fade away again for good in the very next split second.

**Semjase:**

14. (-) Narciso Genovese/Mexico: After Michalek and Adamski, he is the next and biggest deceiver. (*minus sign = no contacts*)

15. (+) Dr. Williamson/USA (author): He has certain reservations about Adamski, because he was badly fooled by this deceiver (he himself had no contacts) / visual contact.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_050](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_050)

**Billy:**

... Does an artificial tunnel system exist under Ecuador and is a large number of metal foils in the format 96 x 48 cm there, which are printed with unknown characters?

**Semjase:**

75. Underground tunnel systems from the past exist all over the world, including Ecuador.

...

80. There probably exist foils of the measurement you have referred to, but they were fraudulently made for unfair purposes by Earth-humans a number of years ago.

**Billy:**

This answer is clear; but what kind of characters are there on these man-made foils?

**Semjase:**

81. They were confusingly, but logically, made by a whole group of earthlings for fraudulent charlatan purposes.

82. But they are truthfully of complete insignificance.

83. Adamski also worked in the same form and also forged such characters for fraudulent purposes.

...

**Billy:**

... But now that we are already on Adamski: Has he ever seen a beamship before? It has to be like this. Because how else could he have known that these look very similar to the ones he copied in his cardboard and metal models?

**Semjase:**

85. He has never seen a beamship, which has been checked and verified by us very carefully.

86. His knowledge leads back to a conversation with a person who was able to describe these forms of flying machines in detail.

87. This person however remained silent about their observations to other people, which is why she never became known.

88. It was a woman.

89. Adamski made drawings according to her statements, after which he then copied his other drawings and models, etc. and photographed them fraudulently and spread them all over the world.

**Billy:**

Aha, then is it not the case that Adamski is simply called a cheater because of carelessness or incorrectness?

**Semjase:**

90. No, he was a vicious charlatan and cheater of the worst form.

**Billy:**

That is very clear again. So there is no excuse whatsoever for him and his actions.

**Semjase:**

91. No, he was deceitful in the deepest depths of his yearnings.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_057](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_057)

**Billy:**

... But now again a question concerning the dear George Adamski: Has he ever seen a spaceship or a beamship and are his photos all fakes?

**Semjase:**

100. Your question is again illogical, because I have already answered it several times.

**Billy:**

I know you said that he never saw a beamship or even a spaceship himself, not even a reconnaissance ship or a telemeter disc. According to your information he built various models, etc. in the size of approx. 30 cm, with which he then took his photos, based on the statements of a woman who once saw a beamship. But what about his pictures, are they all deceitful?

**Semjase:**

101. Sure, it is undoubtedly so.

**Billy:**

Well, you once told me that Adamski was concerned before his death about attesting, for posterity, that he was a charlatan. According to your information, he would have written this down and signed it personally. Have you now found out where this document is, and is it possible that I can get hold of it?

**Semjase:**

102. You have to be patient a little longer, because we still have only a few clues about the person who is keeping the document.

103. But it will certainly be accessible to you within a year.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_060](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_060)

**Horst {Fenner}:**

You just spoke of persons who call themselves contact persons but are not really such. Because I have once read several names that I have retained in my memory. One of them was called Adami, or something like that, another one Genovesa and yet another one Michalek. Could you tell me something about them?

**Kohun:**

... The names you mentioned are well known to us, but you mispronounced them: The first is called ADAMSKI, the second, Genovese, and the third, Michalek. These are not names of real contact persons, but of malicious swindlers. Neither one nor the other of them has ever had contact with us or any of the other space races.

To the best of our knowledge, they have also never even sighted one of our beamships.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_061](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_061)

**Semjase:**

108. George Adamski, the charlatan and cheater.

109. It is very unfortunate that Jacobi's wife is not convinced of the truth and blindly trusts in the deceitful machinations of this Adamski of yesteryear.

110. Unfortunately, like very many Earth-humans, she attaches much more importance to statements of Earth-humans who deceive large masses of people by lying, than to our statements, which are always preceded by a close verification.

111. If, then, in such matters as those of Adamski, witnesses who are extremely suggestively influenced and deceived by hallucinations appear, they lose any real overview and blindly trust the fraudulent statements and machinations of the charlatans and fraudsters.

112. With Mrs. Ilse von Jacobi this is all the more regrettable because she strives in truly honest and devoted form and in laborious work for all interests of all extraterrestrial intelligences, not only for the things of us.

113. She does an extensive and valuable job in every direction, but is badly deceived and cheated by various pseudo-contactees, unfortunately.

114. But this can only happen because she is caught too much by the nature of different people, as with Adamski, for example, and then the unconsciously misguided witnesses do the rest.

4. Further, on my holiday, Ilse von Jacobi also unreasonably reproaches me in a twisted and false manner, whereby she refers to the first book by Adamski as supposedly corresponding to the truth, but that the second one is wrong.

5. Her assertions go so far in her unreasonableness that she begins to assert things that have no truth at all.

...

8. The reasons for her action in this regard lie on the one hand in the recognition of Adamski's lies and deceits, whose first book also corresponds only to charlatanry and deceit, as does the second ...

16. Excuse the expression, my friend, but this Vorilhon is certainly the craziest swindler in matters of alleged contacts with extraterrestrial intelligences.

17. In his order of magnitude, he even surpasses Karl Michalek, Elizabeth Klarer, and George Adamski.

**Ptaah:**

734. She {Semjase} also explained to you then that it would soon be proven that all those swindlers, liars and cheaters who claim that Venus carries material human or spiritual life would soon be convicted of lying.

735. This proof will now be provided towards the end of this year by the probe you have named, which will also reveal the great fraud of the ore deceiver George Adamski, who is unfortunately called the father of ufology.

736. Unfortunately, the fact that the truth about Venus is revealed and that there are no forms of life, either material or spiritual, will not dissuade the fanatics, sectarians and believers from continuing to believe in the swindler Adamski and from defending his great fraud and his lies.

**Billy:**

On the other hand, we've known for years that America is home to the worst swindlers, liars, cheaters and charlatans in terms of UFOs and contacts, and that no one anywhere in the world can even touch them with cold water in this regard. This has already begun with G. A. and has survived to this day. The fact, however, that those in America who can be accused of real experiences with extraterrestrial intelligences must suffer as a result as well, even if in reality these are only half a handful, does not bother these liars, deceivers and charlatans etc., who add everything in order to denigrate the Americans in general. Of course only the liars, deceivers and charlatans etc. can do anything for this disparagement, and these are the deceivers and liars and charlatans etc. who must also be called such. Unfortunately, swindlers, liars, deceivers, charlatans and sectarians, etc., are especially marked in America and in large

numbers, and probably in no other country on Earth do they appear in such masses and with such impudence and impudence as they do in America, regardless of whether they are R. B., F. B., **G. A.**, G. G., medicine man, or whether they are in the hands of the people of the United States.

... n the 57th Contact of the 23rd of June 1976 Semjase told me that within a year she would bring me an original document from George Adamski in which he had admitted that his UFO concerns were only fraud and charlatany. Semjase actually brought me a document, but it was only a copy, which I also lost in a strange way. But I never received the original document.

**Ptaah:**

94. That is correct.

95. Adamski's document actually existed, but it was destroyed by the person who had it in custody because he/she did not want Adamski to be exposed posthumously as a fraud.

96. So our people who were responsible for getting the document could no longer get their hands on it, but had to be content with the photocopy given to you, which by the way was stolen from you by H. Jacob when you gave it to him for inspection and he gave you back an empty folded paper.

97. He did not keep the document himself, but passed it on to that source which we still could not fathom.

Then there is another question that refers to George Adamski. You once told me that he was not a professor at all, as he is still claimed to be.

**Ptaah:**

95. That is right.

**Ptaah:**

14. I answer in such a way that, as with Adamski and others, I have personally seen them filming and photographing flying apparatus models suspended from trees and between buildings by thin threads, which should have represented extraterrestrial flying apparatuses, and passing them off as real and publicising them worldwide.

...

**Billy:**

... It was in the late fifties or the beginning of the sixties when this charlatan Adamski gave a show in Zurich at the Volkshaus, Helvetia-Platz, with very strange 8mm films and weak, ridiculous-looking explanations. Interested in the show myself, I contacted Asket, who was present when I attended the Adamski lecture together with Paul Christen and three others, of whom I only know their first names, Kurt, Eddy and probably Erich. So I bought a ticket, saw his films and listened to his speech, which was translated into German by a translator. For my part, I had borrowed a translator from the extraterrestrial Asket, who was also present herself, although she remained invisible to all present due to the technology of her light deflection capability, which also deflects and redirects radar beams. Unfortunately, the translators did not do their duty correctly, which disturbed me as well as the audience, who became quite displeased. Unfortunately, I cannot remember many details, because it is more than 40 years ago, but I remember that long before the lecture, Asket explained to me that Adamski's claims were made from thin air and that his UFOs were nothing more than models. During the lecture, Asket and I agreed that I should have a conversation with George Adamski after the film and the

explanations were finished and confront him with the truth of the fact that all his films were made with models and that his whole story was just his imagination for the purpose of being famous and travelling the world etc. But since I did not know English at that time, I had to rely on Asket's translator, which then served me well. Around 23:30 hrs, when the audience had left, I approached Adamski and asked him for a very important personal interview, without the audience being present. He agreed to this – for 15 minutes, as he promised. However, it must be said that Asket's suggestive impulses were necessary. So we went into a small room – Asket, of course, going along unnoticed – where I confronted him and accused him of fraud and charlatanry, which he of course vehemently denied. So I resorted to the remedy that Asket had suggested to me, namely that I could prove to him that he could prove the whole of his claims only from his fingers, explaining to him that I myself had been in contact with extraterrestrials since my childhood and that an extraterrestrial was invisibly present in the room, and that he was not well disposed to his giddiness, he reacted angrily, became loud and hissed that my words were only nonsense, because there was nothing trivial. Then I asked him how he would behave if Asket, who had been invisible until then, suddenly appeared in the room. And again he hissed that there could not be such a thing. And that was exactly the moment when Asket switched off her light redirection device and appeared out of nowhere right in front of Adamski. Pale as chalk and frightened he opened his eyes and was unable to utter a word. It may have taken him two, three or even four minutes to get his bearings and he stutteringly asked Asket, dressed in a space suit, where she came from and who she was. Of course, she explained the whole context to him, but I cannot remember the details, which led Adamski to apologise to me and explain that I was right with my accusation against him. But he had brought everything up big and now he could not go back etc., because otherwise he would make himself impossible all over the world. I do not remember what he said, except that he said that he always felt very alone and that he had therefore sought the way through the alleged UFOs and contacts with equally alleged extraterrestrials. That in order to get in contact with people who should admire him, to which he also used his strong suggestive powers to cast a spell on people. Finally we were then more than half an hour in the room, when suddenly there was a knocking at the door, whereupon Asket switched on her cloaking device again in a flash and was absolutely invisible. Then a woman came in who wanted to pick Adamski up and asked if we were finally finished, which I answered with yes, after which I left wordlessly and never heard anything from Adamski personally again. Unfortunately, I cannot remember anything more, at least not the exact details of the conversation, neither from myself nor from Adamski or Asket.

*... the Plejaren never spoke and never speak the untruth. This in contrast to the liars and deceivers George Adamski and Karl Michalek and all the other swindlers, cheats, charlatans and liars who claim the same or similar things as Adamski and Michalek with regard to high life on Venus, no matter whether they lived yesterday, live today or only tomorrow and deceive and lie about it. I have seen Venus with my own eyes and I can say with a clear conscience that all this is true as I have described it, which is why no other life in any higher form is possible on the planet except heat- and acid-resistant life.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_568](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_568)

**Billy:**

*... Although there is only the Earth in the whole solar system, which is inhabited by human beings and many other life-forms, Ashtar Command claims that the whole solar system is inhabited. This is scientifically already today a complete nonsense and nonsense, whereby the whole thing reminds of the charlatanry of Georg Adamski with his human beings from Venus,*

as well as of Jakob Lorber, who described the huge gas planets as the habitat of human beings etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_724](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_724)

**Billy:**

*But what is to be said now concerning Adamski himself can be explained succinctly: Adamski was a swindler beyond compare, whom many followers, devoid of reason and intellect, believed unthinkingly and still do so today, because they are incapable of getting to the bottom of reality and truth themselves in their obedient faith.*

*The fact is: I know Adamski personally from before, when he was at the Volkshaus in Zurich in May 1959. I did not get the best impression of him then, although I had to talk to him with an interpreter because I was not yet proficient in English at that time. However, I found that the man was dominated by a tremendous obstinacy and by a great egoism that seemed unusual to me, but which was supposed to be covered up by an almost perfectly acted kindness and charity. I found that the man had an extraordinary gift for persuasion and suggestion and always knew how to draw the conversation to him. It was clear that he had fallen for an ideal and was exploiting it in his own favour with a feigned help for the oppressed. So also fighting injustice seemed to me to be only acted by him and everything only to put himself in the centre. It seemed to me that in the first and last place for him only his own needs were always predominant, and that from the big toe up to the last tip of his hair. I had the impression at the time that in every respect he was only ever concerned with his own ego and his own well-being, which he directed into the highest channels through a tremendous power of imagination and suggestion. He also seemed to me to be dominated by the will to be in first place in every relationship and also to want to take the lead in every relationship.*

*Furthermore, I can say today, which unfortunately for certain reasons I was not allowed to do publicly before, that Asket from the DAL universe, on behalf of the Plejaren Sfath, was my closest contact person from 1953 for a full 11 years, then afterwards also until 1975. Asket arranged that the two of us beamed into the room reserved for Adamski and suddenly stood before him. He collapsed in fright and could only just sit down on a chair. Asket talked to him and also translated everything I asked him and said that he was telling lies because he knew very well that his fantasy stories were nothing more than fantasy. Slowly, he regained his composure and admitted that he had lied and cheated, stating that his motive was that he had a great need to be known, as is also the case with actors. He thought that he could use Kenneth Arnold's story as a basis and expand on it in the way he did. Our meeting with him, however, did nothing to make him stop his lies and deception, because he continued in the same style, probably because he was too cowardly to publicly admit his rotten machinations.*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_727](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_727)

**Ptaah:**

31. This experience of {Kenneth} Arnold's was fraudulently exploited by George Adamski, who lived in America and came from Poland, by fraudulently claiming with lies that he was in contact with a woman from the planet Venus.

**Anatol {last name not given}**

*see also Petra-Meriam*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_145](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_145)

**Billy:**

... Since our last meeting, I have gotten to know all kinds of things that were rather unpleasant, despite the joy I also had on the other hand.

**Quetzal:**

5. You speak of Meriam and Anatol.

**Billy:**

Exactly. So far, we only ever talked about that, so to speak, to the exclusion of the general public because these concerns should not have become known at an earlier time. But now, this leads to the fact that the group members are not oriented over it.

**Quetzal:**

6. This was deliberately kept in such a manner, as you know.

7. But on the other hand, we have not even completely informed you about everything because we did not want to raise hopes in you that then might not come true.

**Billy:**

I know that now, too. Meriam has explained it to me. You were with some of your people in America with your group there. Together with them, you tried, through strong impulses, to win some Americans over to our cause, and you also tried for a long time to give Elsi suitable impulses, to which she should have complied, and she should have sought out those influenced by you.

...

Anatol is a man who was used by a group of extraterrestrials as a contact person to pursue a very specific educational work on Earth. He stands, or rather, stood, in contact with humans of that group, who are under the leadership of a certain ASHTAR SHERAN. These Ashtar Sheran people previously worked together with the Giza Intelligences and were, therefore, expelled by the Pleiadians from the planet Earth and were deported. For the exact data on this, one would have to go to our earlier contact reports (see: Volume 1: 36th Contact on Monday, 20.10.1975, p. 460 and the following and 38th Contact on Thursday, 13.11.1975, p. 488 and the following and Volume 2, 44th Contact on Monday, 16.2.1976, p. 81 and the following) to find these because I know that these things were discussed between you and me officially. Over the last decades, however, Ashtar Sheran and his people have obviously changed to the positive and to the truthfully truth in such a form that they were allowed to remain active on the Earth practically, in a reparation process or in a reparation mission, whereby the Pleiadians have made several of their own older ships available to them. Thus, people of the Ashtar Sheran group already came to the Earth again a long time ago, recently searched for contact here, and worked or work for a certain truth mission, which consists, among other things, of confirming your existence and my mission. Meriam, however, a young girl who is not quite 17 years old, is one of those telepathic contact persons of you Pleiadians, about whom you have told me on occasion. The girl knows Anatol personally and is also extremely powerfully established in spiritual telepathy and in various other forces, which she should use for the purpose of our whole mission. In the next to last week of May, she called me, and I could ascertain her tremendous strength of spiritual telepathy. Then, through her, I also found out the closer relationships of her and your teamwork and the unpleasant facts about Elsi in America. But she also spoke of Anatol, who, according to her information, began his public educational work at about the same time when she made contact with me.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_167](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_167)

**Billy:**

... The day before yesterday I asked you to clarify why Anatol and Meriam did no longer contact me, the way they promised to do. I was also still expecting all kinds of material from them.

**Quetzal:**

20. Concerning this, I must, unfortunately, give you a message that will not be pleasant for you.

21. My investigations were rather troublesome, but I found out that the mission linked to these two people was destroyed.

22. During the month of November of last year, the two decided that they would go to Italy in December – together – in order to visit common acquaintances there.

23. Then, on December 7th, 1981 they also carried out this decision, got on Anatol's road vehicle, and drove off.

**Billy:**

Once again, you make this damn long. Did the two of them cause an accident, and they are, therefore, now in the hospital?

**Quetzal:**

24. You are illogical.

**Billy:**

Then I just – oh yes, you said that their mission was destroyed, so it can only mean that the two of them did not survive the accident?

**Quetzal:**

25. It was an accident, yes.

**Billy:**

You, otherwise, are not squeamish – if you want to explain something to me. Why this now?

**Quetzal:**

26. You knew the two personally and included them in your love.

...

**Billy:**

... why, actually, did you first have to find out what happened with Meriam and Anatol?

...

**Quetzal:**

40. I can still inform you that the accident happened only a few hundred meters away from Anatol's residence and that the end came immediately.

41. Also, you should know that the two still wanted to visit you in December on the trip home from Italy.

**Billy:**

That is enough already, my friend. Yes, Anatol had promised that he would visit me before the end of the year. But I only ever saw him once, and Meriam – only three times.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_496](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_496)

**Billy:**

... The question refers to Petra-Meriam and Anatol, who were meant to help me to spread the teachings in the manner of a wandering heraldry in the German-speaking world. Certain people do not understand the whole thing and think that the two of them were prophets, which was not the case, because they were really only meant to be active as itinerant preachers in the German-speaking world with regard to teaching and mission.

**Ptaah:**

74. That is correct, because more was not their task.

75. Unfortunately, they were killed in an unforeseen car accident and were not able to fulfil this task.

76. It was also not intended that other persons should take their place, who could have taken over the task.

77. The fatal accident of the two was therefore not included in the provision, because this coincidence was not foreseen.

78. Therefore it follows that the teaching in the German-speaking countries by your and the core-group Initiative has to be spread much more laboriously and circumstantially than the whole thing was originally intended by the activities of Anatol and Petra-Meriam.

**Ptaah:**

77. These statements of my daughter are of course not connected with those telepathic impulse contacts which we had with Earth-humans without their knowledge, nor with those which, intentionally or unintentionally, were made by us with Earth-humans, such as the contact of my daughter Semjase with a German named Elsa Schröder in Persia near Zahedan and with Petra and Anatol.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_648](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_648)

**Ptaah:**

31. This was also the reason why all contacts with Earth-humans were of a purely technical-telepathic nature, including those with Petra and Anatol.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_704](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_704)

**Ptaah:**

67. The only exception was when Petra and Anatol were involved in a contact connection, who, according to your instructions, should have assisted you.

68. This connection ended, however, after Eva had brought you to the two of them in Hüningen in Alsace, where you were to discuss with them their work, which they were to have taken on, but which unfortunately did not happen, because some time after your meeting both of them fell victim to an unforeseen fatal car accident and the planned enterprise was thereby rendered invalid.

69. Earth-humans other than Petra and Anatol were and are not allowed according to our directives for direct contacts, nor indirect ones.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_748](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_748)

**Billy:**

... But perhaps you can explain a little why you do not make contact with Earthlings and why I had to be the mediator with Petra and Anatol. Something explained from your side is possibly more detailed than what I have said and explained in each case.

...

**Ptaah:**

94. Now, in response to your explanation, it is to be explained that the basic justification given for our directive is founded precisely in the explanations I have just given, which expresses the fact that we Plejaren would endanger ourselves in our peaceful, righteous and self-controlling behaviour in contacts with Earth-humans through their inherent degenerations.

95. This, then, should we violate our directives and come into contact with Earth-humans who are still altogether subject to the bias and degenerations of that which I have elaborated and explained.

96. The whole reason why we cling to our directives and prevent ourselves from entering into direct or other closer contact with Earth-humans is based on the fact that we Plejaren are not immune to the degenerations of all kinds which are peculiar to Earth-humans, but are just as susceptible to them as is also uncontrollably inherent in Earth-humans themselves. ...

#### **Billy:**

I actually see you besides you. You are excited and should calm down. You should keep it like me, just laughing at the outrageous lies that this two-bird medicine man brings along. It's really unbelievable what these Indians are lying about, and it's an outrage, but it's not worth getting upset about. On the other hand, we've known for years that America is home to the worst swindlers, liars, cheaters and charlatans in terms of UFOs and contacts, and that no one anywhere in the world can even touch them with cold water in this regard. This has already begun with G. A. and has survived to this day. The fact, however, that those in America who can be accused of real experiences with extraterrestrial intelligences must suffer as a result as well, even if in reality these are only half a handful, does not bother these liars, deceivers and charlatans etc., who add everything in order to denigrate the Americans in general. Of course only the liars, deceivers and charlatans etc. can do anything for this disparagement, and these are the deceivers and liars and charlatans etc. who must also be called such. Unfortunately, swindlers, liars, deceivers, charlatans and sectarians, etc., are especially marked in America and in large numbers, and probably in no other country on Earth do they appear in such masses and with such impudence and impudence as they do in America, regardless of whether they are R. B., F. B., G. A., G. G., medicine man, or whether they are in the hands of the people of the United States.

John Two Bird, H. M., R. W. or whatever. They are all the ones who demonize everything and bring the Americans into disrepute, which ultimately also affects all those who are decent and honest and can't help being denigrated. As you know, we haven't been speaking well of these lying, deceitful, swindling, sectarian and charlatan Americans for years, which is why we have once again coined a swearword for all those around the globe who are liars, cheats, swindlers, sectarians, profit sharks and charlatans etc.. We call them only 'Americans'.

...

#### **Billy:**

... But what do you say to the enormous lie of this medicine man John Two Bird?

**Ptaah:**

90. The light attracts the moths, says an ancient proverb.

91. But you can also say that truth attracts all riffraff. –

... The norms established by Nokodemion with regard to morals, ethics, ethos etc. became valid for every single life-form up to the great mass of all human life-forms, whereby the only prerequisite for their use and implementation was to possess a clear consciousness as well as understanding, reason and a functioning intellect in order to be able to make the norms of behaviour valid.

... Later, in the time of antiquity, the philosopher Aristotle, as well as others, came back to the ancient 'teaching of truth, teaching of the spirit, teaching of life' on the basis of a teaching by a Plejaren sage or itinerant teacher called 'Fluidjaasan', who concealed his origin. Connected with this was also the OM comprising 77 million canons, whereby he was also made aware by the sage of the canon containing the teaching of the conventions of behaviour as created by Nokodemion. From this, Aristotle created what became the moral-ethical-ethos doctrine, as it also became the Sophists, the representatives of a group of Greek philosophers and rhetors or orators who spread their teachings in the 5th to 4th centuries BC. ...

In the first place, I would be interested to know about Kenneth Arnold. Am I right that he was not a deceiver?

**Semjase:**

59. Certainly, this man was not a deceiver, for he had really seen our beamships.

60. Also many other pilots have encountered our or alien ships.

33. In respect to Kenneth Arnold we have found out through our three-year investigations that he did not observe any extraterrestrial flying objects but secret US test flights of one-winged aircraft.

34. This is also true for various other cases of that time, which, however, was not only limited to the USA but also took place in other countries that tested futuristic aircraft, which still happens today.

28. (unknown) Stefan Denaerde/Holland

**Billy:**

... But how is it that you have so many names that you call unknown to you?

**Semjase:**

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

**Billy:**

... Here, these are two photos that I have received from Wendelle Stevens. As you can see, it concerns two model heads. Can you tell me whether any human life-forms are known to you that look like these pictured heads?

...

**Semjase:**

47. No human life-form exists in the universal space within reach of us that bears even a slight resemblance to this imaginary product pictured here.

48. On the other hand, the person has already been known to us for a long time, who claims that she has contact with life-forms of the kind photographed here.

49. We became aware of this through a routine analysis of Mr. Stevens' interests as he tried to publish the book.

50. As a result, we concerned ourselves in detail and thoroughly with the person who wants to have alleged contacts with the life-forms of the kind photographed here.

51. Our detailed investigation proved that this person invents deceitful and swindler-like assertions and also disseminates these in this unpleasant manner.

52. This person does this, in part, completely deliberately, but another part is self-suggestive hallucinations.

53. The other unpleasant fact is that this person gathers self-conceived material and wants to distribute it among the Earth-humans with the false assertion that it comes from contact conversations and transmissions with the human life-forms depicted right here in this photograph, which, of course, in no wise corresponds to the truth because everything truly only corresponds to a fantasy production of the person concerned.

**Billy:**

Something similar, I thought to myself. But now, what is with the second picture? And – why do you, once again, mention no name?

**Semjase:**

54. That would only aggravate the whole machination in favour of the deceitful person concerned because only too quickly, humans can be beguiled on the Earth by such false assertions and be misled.

...

70. They belong to the group of those who seek recognition and who are, at the same time, blinded, starry-eyed idealists.

71. And in the madness of their activities, they are so rich in imagination that they know to perfect their deceitful machination so that they can work certain things of reality of everyday life into their deceptive machination of untruth.

This also shows that I, BILLY, am the only human being on Earth who has ever had any contact with the Pleiadians or will have had any contact. All those who claim the contrary, however, or claim that other people on Earth or they themselves are having physical or spiritual contacts with Pleiadians. no matter how, are simply always very conscious, contemptible, dirty, characterless and indecent, depraved, impertinent and morally degenerate, disgusting, miserable and despicable liars, cheats and deceivers beyond compare. Amongst those who stand out are especially Americans or those of American decent (however, people from other countries, e.g., Germany, Spain, Italy, South America and France, and so forth, fall into the same category of depravity, even though they are not quite as blatant as Americans). Names such as Fred Bell, Roberta Brooks, Siracusa, Rael, Andreas Schneider, Jahnke, Groenke, Griscom, Penny McLean and many others, are daily routine items.

13. Thus, Lee Elders still promotes it that persons such as B.C. can work nonsense and can make a profit for their own benefit, which brings more harm to our cause than benefit.

...

17. And as an order-giving person of this kind, I now order that Lee Elders immediately stops all absurd machinations of all kinds and starts to work in accordance with our instructions.

18. In addition, this comprises the following major points:

19. 1) The eliminating and repairing of all machinations, such as in the case of B.C. and Dr. F.B.

...

27. The first step relating to this has already been done in that we withdrew our liaison groups in the USA and in Asia because it is not right that visionaries and swindlers use us for profit purposes.

28. But this has already been done by B.C. and Dr. F.B., as well as by several others, which was uncovered as a result of your last conversation.

29. You mentioned that this Dr. F.B. and this B.C. claim that they have had contact with Semjase and Ptaah and with others of our European group, which in no wise corresponds to the truth, of course, because we have never gotten in contact with any Earth-humans in the USA or otherwise outside of Europe.

Also, the malicious and profit-greedy assertions that my daughter Semjase is in contact with various Earth-humans or even with humans from other worlds who are supposed to live on the Earth, which, however, is an unbelievable lie, which also only corresponds to an infamous lie of power- and profit-seeking earthlings, such as F. B. and R. B., among many others.

60. Notwithstanding this, if falsifications of the teaching, the writings, the truth, the materials, and the mission should still appear, then you should, immediately and without any mercy, order a stop to such activities and should reclaim all material, all writings and lessons, etc. and deprive those human beings again, who would make themselves guilty of the falsifications, etc.

61. Clearly and plainly, it has been said and explained that you would equally have to do this everywhere and all over the world, no matter how, when, and where such would arise.

62. Your duty was and still is to carry out this request and to stop everything immediately, if such arises.

63. Thus, you again have to take away all material and all writings, information, and lessons, etc. from all those who made themselves guilty and who still make themselves guilty of the offence against the mission and its rules and of the falsifications of the teaching and writings as well as explanations and interpretations, etc.

64. This has happened in a great and bad measure, and of course, again in a particularly degenerate form in America, whereby Randy Winters, Roberta Brooks, and Dr. F. B., along with the falsifying of the Talmud Jmmanuel and many others, are to be mentioned in the first place.

**Billy:**

That is easily said, that I should again take away all material and the teaching and writings from these forgers, schemers and thieves, sneaks, and whatever else they all are that is otherwise evil. They are altogether so maliciously evil, nasty, and dirty that they could not care less for

what is right, for respect, truth, and justice, and they all step into depravity with their feet. I have, indeed, demanded everything back from all of them, but just unsuccessfully.

Interesting but also enlightening, because it makes it clear that neither an F. B., a P. L., a G. G. or a R. As Quetzal once explained to me, you, who we have just named by name, do not exercise any impulse-contacts in any way, which are unconsciously taken up by Earth-men etc., because such impulse-contacts are made solely by apparatuses, because these are not subjected to any feelings and emotions etc., as is the case with humans.

**Billy:**

... Is there anything you know about a certain Jani King? Recently I received a fax saying that this woman from North Queensland in Australia has written at least two books about...

**Ptaah:**

44. ... alleged contacts with me, which of course is just as much a kind of irrational shady wheeling and dealing as the untenable claims of Penny McLean, Barbara Hand Clow, Barbara Marciniak and Amora Quan Yin and others, who engage in shady wheeling and dealing and claim to be in some way in contact with me or with other persons or some spiritual beings of our people.

45. In the same league also belong Fred Bell with his made-up contacts to my daughter Semjase as well as Adrain with his story of lies and the alleged contacts in Florida.

46. We have from our side never had such contacts with human beings on Earth – except those known to you, and only those to your person -, and there are also no such contacts at present, and in the future too no such contacts from any human beings on Earth will materialise with anyone of our peoples.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaren have become the focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

**Billy:**

... But since we are already talking about sects, I would like to hear your word about the nonsense that the sect henchmen spout, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contactees, who want to be in physical or telepathic connection with extraterrestrials or other dimensioned ones consistently claim that the extraterrestrial or other dimensioned ones are gods, saints, God's messengers or angels etc., but at least saviors who want to save the people of earth from destruction etc. These claims also exist in relation to you Pleiadians/Plejarans and in particular to you, when I think of the fraudulent claims of those who are said to be in contact with you or with other

Pleiadians/Plejarans. I'm thinking in particular of Jani King, Barbara Marciniak, Fred Bell and Penny McLean and their ilk. Of course, Carlos Diaz must not be forgotten either, nor must Siracusa and many others who deal with people other than you. ...

...  
**Ptaah:**

70. We Plejadians do not come to earth as gods, angels, saints or the like, and we also do not come to bring salvation, peace, freedom, love, knowledge, wisdom and progress to the earthly world and to earthly men, for all these values must be laboriously worked out by the man of the earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

75. And you too, as our messenger, are not omniscient and not salutary, for knowledge and salvation must be created by man on earth himself.

In the Czech Republic a certain Ivo Benda works around, who – as I have been told – works around on the internet and in books with my photos and writings as well as with all my material in general and also claims that he is the reincarnation of Ashtar Sheran and is in contact with you. But now I know that all these claims are based on charlatany, because first of all you have no contact with any other human being on Earth apart from me, and secondly Ashtar Sheran's spirit-form cannot be reincarnated in an Earth human, because this guy died a few years ago in

the DAL-universe and consequently his spirit form cannot return to our DERN-universe in terms of rebirth.

**Ptaah:**

33. The facts of all things are as you say.

34. And I would like to state quite clearly that I am not in any way in contact with this man and that all his claims in this regard are untrue.

35. You know that you are our only contact person on Earth in every respect, both telepathically and physically or in any other respect.

36. The man's claims regarding his alleged rebirth as Ashtar Sheran can only be classified as untrue.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_051](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_051)

**Billy:**

... My first question is about Mario Bertossi, whom you told me was a real contact person. Can you give me more detailed information about him regarding his contact, its value and the connections, etc.?

**Semjase:**

3. Sure, but these things are not very pleasant.

**Billy:**

Then why did you name him to me as a contact person?

**Semjase:**

4. Because he actually had a technical contact, but it was in the range of seconds.

**Billy:**

Then please give me more information.

**Semjase:**

5. This Mario Bertossi is a rather unpleasant person in terms of exploring and spreading the truth, which you will see from my explanations.

6. For years he has been concerned with matters of frontier and spiritual-science based ideas, of which in reality he has no knowledge at all.

7. His consciousness-based as well as his spiritual level is still so low that he has not yet been able to grasp even the most minimal basic knowledge of the spiritual teaching.

8. Unknowingly however, he unleashed completely uncontrollable powers onto himself, forcing a certain form of being to transmit a short message to him.

9. It was a message concerning a disease of the human being on the Earth.

10. However, Mario Bertossi completely misinterpreted this message, because his statements regarding the information he received were very flawed in their accuracy.

11. But since he does not have the ability of a clear consciousness understanding as well as no logic, it is not surprising that he was not able to interpret the message correctly, which is why his statements are completely worthless.

12. In addition, the data was transmitted to him in a technical impulse-telepathic form, thus he was not able to recognise that it was a technical impulse telepathic transmission form at all, neither were his employees.

13. His assumption was that his statements originated from his own ability to think, which he nevertheless deliberately misrepresented as telepathic transmissions of foreign intelligences.

14. But since the technical impulse-telepathic transmission had actually taken place through his coercion and a few of his statements are of importance, one must accept him as a real contact person.

15. Very regrettable for this person is the fact that, as a completely ignorant life-form, he was able to compel alien intelligences, which, however, do not belong to us, to a transmission.

16. Equally unfortunate is the fact that Mario Bertossi is very selfish and lacks any ability to think logically.

17. This is also the reason why he tries to drag all true contacts into the mud and trample on all truth, which you may have noticed.

18. He is a person who does not accept any logical speech or opinion of another person, because he is unable to grasp logic at all.

19. He believes he is greater than he really is.

20. The truth, however, is that he does not possess any valuable knowledge and only promotes pure fantasy creations of his own design.

21. In other words, this means that he is completely uneducated in spiritual matters and the teaching of the spirit itself, and truly does not have the slightest knowledge.

22. All his statements concerning alleged spiritual values and concerns are just as much fantasies of his own making as his alleged evidence, with which he tries to influence his environment at every opportunity and assumes that it will be intimidated by this stupidity.

23. If it were not for the fact that he was forced into a short contact, which he did not really recognise, I would simply call him a charlatan and cheater from my side.

24. Since the forced contact actually took place, however, I unfortunately cannot do this, because this contact fact remains, because he does not simply lie about it, but presumably names a few facts correctly, although he has no knowledge of the truth of the technical impulse-telepathic contact.

**Billy:**

You speak a very hard language for this man. But when I think about your words, I really have to agree with you, because we received similar impressions when we were with him on the 21st of April. My impression was that the man has no knowledge of spiritual values and concerns and that he only wants to show off in order to be a great man.

**Semjase:**

25. You have observed very closely.

26. It is also advisable to keep away from this person, because he works against the truth in every manner.

27. The man is a person, who is rightly called a know-it-all.

28. He holds no mentionable value for you or any other person.

29. It would therefore also be of value if you would convey this message to him.

30. It is also important that you spread the word about these things, because Mario Bertossi's dishonest machinations are likely to mislead a larger circle of persons again, even though people have already come close to the path of the truth.

...

**Billy:**

You are talking about him *{Hans Jacob}* being of low intelligence. What form should I understand by this?

**Semjase:**

43. The consciousness-based and rational-based, as is also the case with Mario Bertossi.

44. I hope, by the way, that you stick to my wish not to get involved with him anymore, because before you can do that again, he has to overcome hard teachings and change his forms of observation.

**Billy:**

You can rest assured that I have followed it and will continue to do so. I have a letter here from Mario Bertossi, which you should read.

**Semjase:**

45. If that is your wish ...

46. These lines are quite lowly intelligent and even primitive.

47. They correspond entirely to the lower conscious-based level of this person; still very low-standing and even underdeveloped.

48. You should not try to answer those lines.

49. It should be enough if you send him a copy of my statements about him without a personal response.

50. This would be unnecessary work for you, for this person is too taken up with himself and his charlatan and foolish imaginations to accept teaching words from you or any other person.

**Billy:**

Whatever you say. Do you not find that you are going very hard on him?

**Semjase:**

51. On the contrary, I should use an even harder language.

52. You are far too mediatory in these particular cases, which is why I have to take the floor.

53. It is all about much more than just uncontrollable fanaticism, megalomania and the fraudulent charlatany of some ignorant elements.

...

57. But the same goes for Mario Bertossi, who also believes himself to be called to higher things, but who is not even able to give advice of the slightest importance to those of your group, who will still come to you in some time completely ignorant in spiritual matters.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_053](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_053)

**Semjase:**

52. But under no circumstances should theirs [their understanding] be respected, for they are the false prophets of the new age who do not accept truth, accuse it of being a lie, and make lying assertions that they have attained their knowledge by mental transmissions from higher levels.

53. And these kind of prophets are unfortunately many, especially at the present time when they are making a bad impression, even wanting to force contacts from other levels and lyingly deceive their masses of followers, consciously trying to kill every truth by malicious lies and slander, as well as certain elements of the lowest form trying to undermine and destroy our task by accusing us of lies and falsehood.

54. They go so far as to falsely claim that they have received this through telepathic information from higher life forms as truth, although they themselves are not capable of any form of telepathy and do not possess the least knowledge of spiritual and consciousness-based concerns and their modes of action, such as the two forms [humans] Bertossi and Arends, which boast untrue telepathic abilities and a spiritual knowledge, but which truthfully only consciously use them for charlatany and deception.

**Billy:**

You are a very rough shot, Semjase. Actually, I didn't want to tell you anything about it, but now you have come to talk about it yourself. Mr. Arends has written a letter to me with many questions, including whether he has telepathic abilities for which I should ask you. Mr. Bertossi also wrote a letter to me, so dirty and primitive that I do not want to tell you the content. But also Mr. Arends accuses you of lying and so on.

*(On Ptaah's advice, the two letters are not published because their contents are so unpleasant, nasty and primitive that they should not be imposed on the readers. The same applies to later writings by Messrs Bertossi and Arends, who started a wild campaign against the Plejaren and Billy.)*

**Semjase:**

55. You should not get upset about it, because especially this Bertossi is a very unworthy worm and his spiritual knowledge is less than that of a child.

56. He is probably a halfway good professional, but he cannot call more abilities of his own.

57. But he has no more telepathic abilities than Arends, although he boasts such abilities as well.

58. But everything is just lies, fraud and self-deception.

59. We are also aware of his slander, which he directs against us in a rather primitive form, but we do not want to concern ourselves with such primitive matters.

60. These two men, who are close friends, are too unworthy, too dishonest and too truth-negating to be taught any better.

61. You should therefore not continue to seek and care about them.

62. Both are no more than two evil false prophets of the new age, megalomaniac and characterized by rare stupidity.

...

64. Both men are at a very low level of spiritual and consciousness-based development, which is only slightly higher than that of their old personalities in their previous lives.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_060](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_060)

**Kohun:**

... If you hear at a later time such names as Zilar, Menger, Miller and Nelson or Castillo, Siracusa, Schmitt, Bertossi, Renaud and Villanueva or Klarer later on, then you can be sure that these are definitely the names of frauds.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_062](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_062)

**Semjase:**

84. Earth-humans have a very hard time breaking away from their religious or semi-religious and other heresies.

85. With open eyes they run into their ruin and believe the swindlers and deceivers, like false prophets like Mario Bertossi and Hans Jacob, who help Bertossi and Reitz in the address delivery service.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_063](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_063)

**Billy:**

But the gentlemen Arends and Bertossi will be green and blue with anger.

...

... I just find it quite squalid that especially these two poor jerks have to drag you into the dirt and claim that you want to capture and subjugate the Earth.

**Semjase:**

53. This assertion must testify to the truly boundless stupidity and primitiveness of these two men, for if we had ever had such actions in our minds, we would have realized such plans long ago, when earthlings had no defensive weapons.

54. On the other hand, even today's still very primitive weapons would not frighten us, thus there would be no obstacles to overcome.

55. So why should we wait into the distant future if we wanted to conquer the Earth?

56. Only very ill and still quite stupidly primitive brains are therefore able to hatch such nonsense, but not a brain that is already subject to intellectually based rationality.

57. And those who believe such irrational, lying and dirty lies are not much better off either.

**Billy:**

That is hard, because people do not know that the two of them are lying through their teeth.

**Semjase:**

58. This is not quite as you say, because if those people would think rationally, then their way would lead to you, because they could convince themselves of the opposite of the lying Arends and Bertossi assertions on the basis of our contact reports.

... Moreover, a lot of nonsensical and criminal acts occur; one must just think of the suicide cults that snatch more and more people, bring them over to their side, and drive them into death. In addition, there's still the so-called esotericism that, raised in a religious and sectarian manner, drives those who've succumbed to a belief into pathological delusions. Also included therein is the Fiat Lux sect leader, Uriella, aka Erika Bertschinger (Note: not related to Jacobus Bertschinger), but she is just one of countless people who drive dilapidated enslaved ones into insanity and death. They accomplish this in a number of ways, but there is always something divine, supernatural, angelic, or something holy, etc. behind it that, more closely observed, is nothing but utter nonsense, and as a rule, also horrendous and shameless profiteering lies behind it. And in order to satisfy the greed for profit, it is only natural for these sect leaders that they pull a fast one on their believers, namely that it is for "holy," "divine," and "message-receiving purposes," and so on. Goods, property, and fortune are swindled away, or else

alleged cures are sold to the believing, stupid sheep for good money, which are entirely good for nothing and often only contain gruesome substances in water or alcohol, such as human or animal excrement and urine. Even shining water is often imposed on the believers for a lot of money, water that is simply stirred once to the left or to the right or that is "treated" with electromagnetic vibrations, etc. and is allegedly changed somehow. Such water is then usually advertised and traded as "agitated water," which is supposed to help against various diseases or illnesses, etc. or simply improve the functioning of the whole metabolism and so on and so forth. ...

76. The people I have marked as negative are not contact persons.

77. In any case, they never had contact with extraterrestrial intelligences that reached them from outside of the Earth, neither through free space nor through a dimensional gate, because these penetration possibilities are so hermetically controlled that it is completely impossible for even a tiny particle unit to be able to pass through without being registered by us or the other intelligences monitoring the Earth.

78. If, however, an intrusion into the earthly space takes place, then everything is very precisely monitored and registered.

79. And these controls and registrations do not give any evidence that the negative persons mentioned could be positive.

...

85. But I do not want to exclude the possibility of explaining to you that the persons I have described as negative may have been in connection with the intelligences of Giza or may still be in connection with them, because we do not exercise precise control over them.

#### **Billy:**

So this possibility remains open?

#### **Semjase:**

86. Sure, but the persons concerned would have been very badly misdirected.

87. The same goes for those who have been deceived by earthly intelligences, namely by those who have the stolen beam ships of the Germans at their disposal and pretend to be extraterrestrials to earthly men.

... Further, I still have before me a reply to a reader to add that I have received in English from Brazil. Helga translated the whole thing into German for me, thereafter Mariann and William corrected it and finished it off. It thereby deals with a matter in which it is asserted that there is only one extraterrestrial federation present on Earth named "Star Nations" and you people with your Plejaren Federation practically do not exist. Thereby naturally, I am attacked, whereby it is asserted that I have been maltreated through consciousness-influencing machinations by a clique, and your messages are also not real.

**Ptaah:**

26. That sounds very familiar to me.

27. Do you speak of a certain Richard Boylan with his insane "Star Kids Project"?

**Billy:**

Precisely. Obviously you know his machinations? You have never told me anything about that.

**Ptaah:**

28. This man, with his delusional imaginings and his crazy and insane machinations, is very well known to me because, through our three year clarifications, our attention has also been turned to him, along with many others who, in the same or similar ways, are damaged in their consciousness.

29. Therefore we know very precisely which nonsense he, in a delusional state, imagines and asserts in regard to alleged contact with extraterrestrials, that he has a connection with a "councillor" named "Asheoma" and with the administration of the so-called "Zeta" in the form of the "Star Nations", who are the only ones who maintain contact on the Earth.

30. The man, who one cannot quite judge as fully sane, supports himself, with his shady wheeling and dealing, on your contacts with us, consequently, he also rewrites the knowledge from the contact reports for himself and asserts that he receives the information from his alleged "Councillor Asheoma", who in truth only exists in his fantasy.

31. But there are still many others on the Earth like him.

**Billy:**

Aha, that is precisely what is touched upon in the email I have received. What is also interesting about that is – since I have disseminated to the world, via the Internet, your cognitions that there are no other extraterrestrials on Earth other than those who belong to your federation – this guy now suddenly comes and asserts on the Internet that there is only one extraterrestrial federation in regard to extraterrestrials on Earth, and indeed the "Star Nations".

**Ptaah:**

32. That is not astonishing, because I have already explained that he uses our contact reports, that you publish, and that he rewrites them and asserts that his scribble is reports and explanations which he receives from the Zetas.

**Billy:**

... not a single person in America or elsewhere on Earth has had contact with Pleiadians until now nor will they have any in the near or distant future. This also shows that I, BILLY, am the only human being on Earth who has ever had any contact with the Pleiadians or will have had any contact. All those who claim the contrary, however, or claim that other people on Earth or they themselves are having physical or spiritual contacts with Pleiadians. no matter how, are simply always very conscious, contemptible, dirty, characterless and indecent, depraved, impertinent and morally degenerate, disgusting, miserable and despicable liars, cheats and deceivers beyond compare. Amongst those who stand out are especially Americans or those of American decent (however, people from other countries, e.g., Germany, Spain, Italy, South America and France, and so forth, fall into the same category of depravity, even though they are not quite as blatant as Americans). Names such as Fred Bell, Roberta Brooks, Siracusa, Rael, Andreas Schneider, Jahnke, Groenke, Griscom, Penny McLean and many others, are daily routine items.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_193](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_193)

**Billy:**

... But what do you think now, with respect to Roberta Brooks?

**Quetzal:**

68. You know what problems we have in assessing the Earth-humans.

69. The rule is that we can only explore the superficial because we are not allowed to penetrate more deeply.

70. Thus, we only recognise the upper layers of thought, and what lies deeper than that remains foreign to us.

71. Thus, we can only recognise untruthfulness when it becomes obvious, before that, it remains unknown to us.

72. So we will not investigate secret thoughts, and what is served to us during the assessment of the Earth-humans very often corresponds to evil.

73. What I can recognise now in Roberta Brooks as superficial bodies of thought is of a good nature, so she does not seem to be of a bad type.

74. But what possibly hides under the surface thoughts, that I do not know.

75. For this reason, I had to learn that I have to be careful with regard to closer observations.

76. I cannot and may not, in any form, afford to make another mistake in this respect.

77. The surface thoughts of Roberta Brooks are good, and according to these, I must act and decide.

78. So accordingly, I must declare that it should be ventured to entrust her with certain tasks.

79. Indeed, she has already demonstrated very great confidence through her work with the finances for the text translations, so it is to be supposed that she will continue to move within this framework of confidence.

**Billy:**

... As I estimate things, the facts are as follows: possibly someone around Roberta Brooks, or she herself, invents slanderous accusations against Lee Elders, apparently through a web of lies. This is presumably done in order to dislodge him and to boot him out and to bring him and me as well as FIGU at one another. The reason for this can probably be found in the fact that Roberta or someone else can and wants to step into the place of Lee Elders. But as things look, everything points to Roberta, which I cannot prove, however. For this reason, I also would not like to maintain that it is she herself or that the allegations against Lee Elders might still be right.

B. and R. B., among many others.

*{Note: In the pamphlet Those Who Lie About Contacts, which references this segment in the Contact Reports, R. B. is clarified as being Roberta Brooks.}*

60. Notwithstanding this, if falsifications of the teaching, the writings, the truth, the materials, and the mission should still appear, then you should, immediately and without any mercy, order a stop to such activities and should reclaim all material, all writings and lessons, etc. and deprive those human beings again, who would make themselves guilty of the falsifications, etc.

61. Clearly and plainly, it has been said and explained that you would equally have to do this everywhere and all over the world, no matter how, when, and where such would arise.

62. Your duty was and still is to carry out this request and to stop everything immediately, if such arises.

63. Thus, you again have to take away all material and all writings, information, and lessons, etc. from all those who made themselves guilty and who still make themselves guilty of the offence against the mission and its rules and of the falsifications of the teaching and writings as well as explanations and interpretations, etc.

64. This has happened in a great and bad measure, and of course, again in a particularly degenerate form in America, whereby Randy Winters, Roberta Brooks, and Dr. F. B., along with the falsifying of the Talmud Jmmanuel and many others, are to be mentioned in the first place.

**Billy:**

That is easily said, that I should again take away all material and the teaching and writings from these forgers, schemers and thieves, sneaks, and whatever else they all are that is otherwise evil. They are altogether so maliciously evil, nasty, and dirty that they could not care less for what is right, for respect, truth, and justice, and they all step into depravity with their feet. I have, indeed, demanded everything back from all of them, but just unsuccessfully.

As Quetzal once explained to me, you, who we have just named by name, do not exercise any impulse-contacts in any way, which are unconsciously taken up by Earth-men etc., because such impulse-contacts are made solely by apparatuses, because these are not subjected to any feelings and emotions etc., as is the case with humans.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_407](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_407)

**Billy:**

Today Silvano drew my attention to the fact that on Swiss television SRG1 at 20:00 hrs to 21:00 hrs a programme was being broadcast which was about clairvoyance. I watched this program of course. It was about a woman in her thirties named A. C., who is supposed to be clairvoyant and to see dead humans, aliens, the aura of humans, etc. She is also in the habit of giving advice and treatment to other humans, and she also works in a hospital under the patronage of a doctor. But as I see it, the woman suffers from a meditative form of schizophrenia, as you once described this disease to me. I cannot remember the correct name you gave to this form of schizophrenia.

**Ptaah:**

6. I can give you the name, that is no problem, as well as what is behind the whole thing you watched on TV.

7. Since I, as a medical doctor and psychiatrist, also deal with the things you mentioned, and since I try to get hold of everything that arises in this field on earth, I have not been unaware of Mrs. A.C. and her actions for years.

8. But there are a large number of forms of this kind of illness – and that is what it is – among the humans on Earth.

9. And I have to say that your observation and judgement is correct with regard to the fact that the woman suffers from a very rare form of a persistently acute form of schizophrenia, which is unconsciously meditative-delusional due to childhood-related desire circumstances.

10. It is an acute and persistent paranoid-hallucinatory schizophrenia, which, due to an unconscious and likewise acute permanent and thus persistent alpha wave meditative state, causes delusional or paranoid and hallucinatory modes of experience and forms of experience, whereby only a very slight or no impairment of the formal world of thought appears, and the formation of feelings, the emotional world and the emotional responsiveness are fully preserved.

11. This is a permanent condition which is extremely difficult to diagnose and therefore difficult to recognize even by our specialists, psychiatrists and trained psychologists.

12. This is especially true because a person afflicted by this consciousness-related disease appears to be completely normal and does not have any recognizable brain-organic disease or abnormal behaviour, speech, conduct or movement etc.

13. As a rule, this form of consciousness-disease also brings with it the fact that those afflicted with it have an excessive sensitivity or sensitivity, whereby they are able to absorb and define all kinds of impulses with regard to thoughts, feelings and pain of their fellow men, which is also true for this woman.

14. On Earth, the psychological and psychiatric specialists are still completely ignorant of this clinical picture, which is why they classify people suffering from this kind of illness as completely normal and even admit that they are clairvoyant and psychic, etc., which is not the case.
15. It is not uncommon for humans who have fallen prey to the disease of paranoid hallucinatory schizophrenia in the form of alpha wave meditation to have extraordinary psychological abilities, through which they can stimulate suffering fellow humans to unconscious self-healing by suggestive influence.
16. Often fantastic as well as realistic images of the schizophrenia sufferers come into play, which they suggest to the sick and suffering people, who then accept them, take them for granted and work with them, whereby self-suggestion generates self-healing.
17. The process is similar to the one that is practiced and applied by the so-called spiritual healers.
18. In the condition of the woman you mentioned, the origin of her illness can be traced back to her childhood, namely to the fact that she felt extremely alone in childhood and intensely wished to have company around her.
19. In the course of time, this desire became a mania, from which the aforementioned form of paranoid hallucinatory schizophrenia soon developed into the alpha wave meditative form, which already broke out in puberty.
20. The disease developed in such a way that she perceived delusions in the form of apparent auras around people as well as energy points and energy fields on and in their bodies.
21. It also resulted in her visioning to see the supposedly deceased and communicating with them – as well as with imaginary other beings – which has been preserved until today.
22. Eventually, the disease spread to the point where she became delusional in believing that she could communicate with objects, animals, fruits and vegetables etc. and that these would give her valuable answers etc., which is due to the fact that in her schizophrenic state she also has voice hallucinations.
23. Her illness is therefore based on acoustic and optical hallucinations in addition to other things.
24. The whole thing has become more and more intense in her over the years and has developed to such an extent up to the present day that there is practically no possibility of a cure.
- ...
26. Yes, A. C. creates an alpha wave state within herself, usually unconsciously, which is why she does not – as well as those who work with her and test her – find the solution to the riddle and believe that she possesses psychic abilities.

**Billy:**

*The 'Kryon Community' is a widespread religious-esoteric delusional sect which claims to be connected through 'channelling' with higher beings who would give alleged messages of 'Kryon and 36 High Councils of Light' in the form of 48 steps to guide Earth-humans to awakening. The themes range from healing, manifestation, materialisation and telekinesis to the complete formation of the light body, allowing the physical body to travel into other dimensions. However, the fact that all this nonsense corresponds to purely Earth-humans-schizophrenic fantasies is of no concern to the delusional believers who cling to this nonsense and believe it.*

*There are flyers of the 'Kryon schools' with which they advertise. There are also 'schools of consciousness of the new age', which are said to be run by the sect and which are being set up in all major cities in Germany, Austria and Switzerland, where there are also various 'Kryon schools'. As you know, esotericism comes in many forms, some of which are more insane and crazy than others. They function around light beings, cosmic parents, angels and light UFOs etc. These 'schools' of course all have a 'certificate', which is issued by 'highly regarded personalities'. The whole thing is nothing more than an occult masquerade theatre, which does not belong to any serious institution, real club or organisation of integrity. In truth, there are also no certificates for this far-reaching sect and light figures etc. What is noticeable, if you get to the bottom of the sect, is the completely different pricing of the 'light-hour seminars', which are run at different 'schools' and thus sell the interested or believers for stupid and dumb. It is doubtful that the believers will see the light at these seminars when they look at their empty wallets, because anyone who is stupid enough to believe in a crazy esoteric-sectarian nonsense and also believes he can hear angels singing will only realise this nonsense when he has been completely exploited financially and is starving. Of course, it is allowed that the human beings who are weak in intelligence, as well as those who are highly developed in intelligence, are delusional believers who believe in the nonsense of a god and in the nonsense of angels, light figures, light crystals, in a 'high ascent' into light, in light-filled cosmic parents and other such nonsense. But it is very unfortunate that still in the third millennium, when enlightenment regarding reality and truth is finally offered, there are still countless human beings who do not have the power of their intellect and reason to perceive, recognize, understand and follow the effective reality and the only truth that emerges from it.*

*In a Kryon session the following results: The 'light being' who wants to lead earthly humanity into a new age speaks to its believers sitting in the meditation centre, keeping their eyes closed and their hands open on their thighs, as in meditation. The alleged message, which is reproduced on a CD and which the alleged 'angel' proclaims to them, is in any case always banal, unreasonably inadequate and, for reasonable human beings, absolutely stupidly childish. The 'angel' reveals himself in a very earthly female voice and lies: "I am Kryon of the magnetic service" and says that the Kryon followers should not doubt him, even if he does not speak directly to them, but still uses the strange voice of the 'medium'. Further, this 'angel' invites all those who have faith in him to breathe the light in very deep (probably to avoid starvation). Further he lets us hear from him: "We are now transmitting the golden-blue frequency", after which he demands that the followers of the sect repeat words in a language of light created by him: "Ananascha ..."*

*Kryon, it is claimed, is an alleged 'spirit being'. In reality, however, all this nonsense was invented by the US esoteric author Lee Carroll. He pretends to be the medium of this alleged 'spirit being' and therefore lies that the messages he writes, called 'transmissions', are received by this 'being' or 'angel' as channelling. If, however, these 'messages' are read or heard with a normal and healthy mind and clear reason, then it cannot be avoided that the author of the nonsensical 'message' must either be schizophrenic or drunk as a topsy-turvy in his respective actions. The basic point is that all this boundless nonsense is effectively just about finding stupid believers for the sect and keeping them in line through fear, anxiety and hope. And if the 'Kryon*

*Messages' or the pathological Lee Carroll nonsense, the author of which belongs in a padded cell, is closely examined, then everything in the Kryon sect is nothing more and nothing less than a contempt for humanity wrapped up in an exploitative light and pretended love. But this is apparently exactly the correct thing for sect believers, for whom every imaginable horrendous nonsense is just good enough to believe it, to champion it and to pay a lot of money for it, and to isolate themselves from reality and its truth as well as from real existence and life. Not only Kryon is currently very popular in the esoteric scene, but also the nonsense with the indigo children, which was also invented by Lee Carroll and spread worldwide. Carroll thus makes use of the egocentric fantasies of all those esoteric mothers who believe they have given birth to super children. These mothers do not shy away from abusing their children to satisfy their megalomania, which is based on the idea of having special, indigo children who would improve the world in the future and lead the earthlings on 'light-filled' paths and into a 'light future'. Through the Lee Carroll Kryon nonsense a dangerous psycho sect has been created worldwide, to which many Kryon-sectarians of male and female sex belong. There are many invented 'messages' or 'announcements' by Carroll, which are said to have come from the allegedly angelic 'energy being Kryon' and which clearly show the danger of this psycho-sect. The bottomless and psychopathic bullshit of the Kryon sect alone, that the gullible, naive, stupid, dumb and others of the mind and clear reason are not supposed to become superhumans with interdimensional abilities and energies for horrendous sums of money in a so-called light body process, breaks the ground for the barrel of reason. In the same way – if only enough is paid for it – the members of the sect should become independent of time and space, so to speak, and be able to cure even the most serious illnesses. In addition, idiotic pseudo-scientific arguments are used to try to convey a new world view to cult members, with the horrendous nonsense that even existing laws of nature could be undermined. And the hammer here is that many innocent human beings spend a lot of money on this disastrous nonsense and even get into heavy debts, just as it is also the case with the Scientology sect in particular, as well as with many other religious or sham-religious sects.*

### **Billy:**

Asket sent me to Dharmawara Mahathera, as Samdach Vira Bhante was called by his religious name. At that time, he was already one of the most respected Buddhist teachers of our century. For a long time, my venerable teacher taught me the original Buddhist teachings, which conform to the teachings of the mind. I also learned many other things from Dharmawara Mahathera while I was working as a vet in the ashram. At that time, his two grandchildren, Phobol Cheng and her brother, lived with him in the ashram where they were brought up and taught by him. Their parents had entrusted them to his care because of political unrest in Cambodia, where they knew they were in good hands and safe.

...

### **Michael Hesemann:**

... Dharmawara was one of the teachers of the Swiss UFO contactor 'Billy' Eduard A. Meier. As his granddaughter Phobol Cheng revealed publicly for the first time in February 1999 – at the UFO conference in Laughlin, MAGAZINE 2000 reported – she and her grandfather witnessed the numerous UFO sightings over Ashoka Monastery. During this time, her brother and she also saw Meier in conversation with extraterrestrials. As Phobol explained, Dharmawara also had encounters with strange, blue-skinned human beings who were rumoured to have come from the mysterious underground world of Agartha.

### **Billy:**

Do you know Phobol Cheng?

### **Ptaah:**

182. ??

183. No.

184. Who is that?

**Billy:**

In 1964 I was in India, in Mahrauli.

**Ptaah:**

185. Yes, you lived in the Buddhist Ashoka Ashram on the Gurgaon Road at that time, at the Swami Dharmawara.

186. Of course I know that and we talked about it only recently.

**Billy:**

Right. The monk now, Swami Dharmawara, is the grandfather of Phobol Cheng. Phobol Cheng is the little girl who was 10 years old at that time and also lived in the Ashoka Ashram with a brother who was two years younger. Of course we knew each other very well, but then we lost sight of each other when I was there again with my wife in 1967, only not to return there afterwards. Last year now, you will not believe it, a 40-year-old Cambodian woman suddenly appeared at the UFO fair in New York with Wendelle Stevens and explained to him that she knew me from Mahrauli/India and that she had also seen Asket when she visited me. She also explained that she often, like many others, saw Asket flying around with her beamship and so forth. Recently now this Phobol Cheng came here to visit, and it turned out that it was indeed the little girl from then – of course now 30 years older. Her grandfather, monk Dharmawara, is now 108 years old and lives, like Phobol Cheng and her brother, in America. Swami Dharmawara, so I know, is one of those Earth-humans who had contact with two mysterious humans, Phobol Cheng confirmed that to me again, who just appeared out of nowhere with him and disappeared again in the same way. So it was the same kind of disappearing and coming back as if you 'beamed' me into the ship or back to Earth. The appearance of these two mysterious men who visited the Swami was the same like his, therefore Asian. Can you explain something about it to me?

**Ptaah:**

187. Officially I can only confirm that this is true.

188. But these are not intelligences who were located beyond Earth, if that's what you think.

189. They were probably distant descendants of extraterrestrial humans, but they were earthbound, even if they mastered the ability of the craftless journey, which was handled by technical means.

190. The how, what, where and why etc. I unfortunately cannot and must not officially explain, which is why I can only explain this to you in confidence.

**Billy:**

I would really like to know, because I could not find out where they came from at that time. I never had the opportunity to talk to them, so I had to be content with observing them.

... Phobol Cheng, the niece of the ashram monk, Swami Dharmawara, was about ten years old at that time. A few years after my departure from Ashoka Ashram, she emigrated with her brother and her uncle, Dharmawara, to the USA, where Phobol played a role at the UN. Wendelle Stevens met her in New York, where she told him about Asket, her beam ship and me, what she had seen and experienced in the Ashram in Mahrauli. ...

#### **Billy:**

Carlos Diaz, an alleged contact person, what can we make of him?

#### **Ptaah:**

134. You ask an illogical question, because I already explained that no humans on Earth have any contact with extraterrestrial intelligences.

135. Therefore he's a deceiver.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_294](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_294)

#### **Billy:**

That should be enough. – Good, then I will be with Carlos Diaz from Tepoztlan in Mexico again. You once said that his story was not true, but a pure invention, which he presented so well in acting, that it would arouse credibility in the audience, whereby even real experts in the field of UFO research would fall for him.

#### **Ptaah:**

21. That's right.

22. The story presented by Carlos Diaz, that he had or still had contacts with extraterrestrials or with inmates of extraterrestrial missiles, so-called light ships, corresponds to a well-considered fiddling that is unique in the whole history of so-called UFOlogy.

23. Also different of his photos and video recordings do not correspond to reality, but are so perfectly made forgeries that even experts of UFO research fall for them, as well as film trick specialists and military UFO reconnaissance specialists, etc.

24. It cannot be denied, however, that he was also able to take a few real pictures of unknown flying objects, such as bio-organic missiles, which you know from your own experience and whose facts you are aware of.

25. Diaz often had the opportunity to do so, especially for such pictures, because especially in the near and far surroundings of Tepoztlan bio-organic as well as extraterrestrial missiles often appear, as well as terrestrial luminous gas objects.

26. This is in addition to secret military objects that are tested there in the environment, often at night time, where they can be perceived as noiseless luminous objects.

27. Such phenomena have also occurred several times - and occur again and again - when ufological elucidations have been carried out at Diaz etc., whereby the researchers have always been misled.

28. That Diaz then claimed in each case that they were extraterrestrial flying objects in connection with him should only be clear.

29. One day, when he heard about your story and about your film and photo shoots, the thought matured in him that he could achieve the same effect by fiddling around, especially because it was known all around that in the nearer and farther surroundings of Tepoztlan the most diverse luminous missiles and flying machines appeared, which were also seen by many witnesses.

30. So, in addition to the illuminated models, which he usually filmed and photographed at night, because on the day the vertigo would have been uncovered due to wires and cords etc., he also constructed the unbelievably mouse-like story that he had come into contact with the beings of the 'light ships'.

...

**Billy:**

... But since we are already talking about sects, I would like to hear your word about the nonsense that the sect henchmen spout, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contactees, who want to be in physical or telepathic connection with extraterrestrials or other dimensioned ones consistently claim that the extraterrestrial or other dimensioned ones are gods, saints, God's messengers or angels etc., but at least saviors who want to save the people of earth from destruction etc. These claims also exist in relation to you Pleiadians/Plejarans and in particular to you, when I think of the fraudulent claims of those who are said to be in contact with you or with other Pleiadians/Plejarans. I'm thinking in particular of Jani King, Barbara Marciniak, Fred Bell and Penny McLean and their ilk. Of course, Carlos Diaz must not be forgotten either, nor must Siracusa and many others who deal with people other than you. But Carlos Diaz also gave such hidden hints that his alleged contacts could lead back to you Pleiadians/Plejarans. – By the way, do you know the videos that were filmed about him?

**Ptaah:**

51. I even know them very well.

52. Partly they are very professional and partly very stupid in relation to the alleged evidence.

53. By this I mean the production of the original material by Diaz.

**Billy:**

You once said that he had equipped his light ships, the alleged UFOs resp. the alleged extraterrestrial aircrafts, which he hung up and photographed in the most different areas at thin wires, cords or at Fischersilk, evenly usually in the night, with electronics and thereby brought the light of the models remotely controlled to the glow or to the extinction. You said that he had used a small transmitter in his pocket, which his companions could not see when he had some with him. So he was able to deceive TV teams and UFO experts.

...

**Ptaah:**

70. We Plejadians do not come to earth as gods, angels, saints or the like, and we also do not come to bring salvation, peace, freedom, love, knowledge, wisdom and progress to the earthly world and to earthly men, for all these values must be laboriously worked out by the man of the earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

75. And you too, as our messenger, are not omniscient and not salutary, for knowledge and salvation must be created by man on earth himself.

**Ptaah:**

125. What I have not explained yet is the crop circle video, where white coloured objects appear, fly over a crop field and in the next moment wide pictograms appear in the grain.

126. This video, like others of the same or similar kind, are also fakes made on computers.

127. The same is true for the Mexico video, on which a large disc-shaped object can be seen, which, coming from the left, flies to the right with a slow oscillating movement and disappears behind a high-rise building.

128. The witnesses who have appeared and are still appearing, who claim to have seen the object, are influenced by the press and television, so their claims have no value whatsoever and all the testimonies given are based only on suggestive influences and imaginations, as is the case with the testimonies of Carlos Diaz in Tepoztlan in Mexico.

**Carlo Disch**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_063](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_063)

**Billy:**

... I recently met a seemingly nice person, a Carlo Disch from Ticino. He dedicates himself very strictly to our interests and seems to achieve a lot in it. What do you think he should do for us? He is currently unemployed and is now pondering whether he should go to Austria to apply for a job in Kuwait or whether he should only work for us. He also prepared a report for me according to which he is said to have had contact with a certain Eloa of Cassiopeia in 1960, as he also writes here in this report. At that time he was supposed to have been ordered to wait fifteen years, after which he would be called on to spread the truth for a certain task, an organisational one, namely if the truth was spread from a certain side. Now he has contacted me with the statement that he must fulfil his task with us, because through us the signal given at that time was given to him. What do you think of this and what should he do?

**Semjase:**

17. Very few Cassiopeia planets carry human life-forms and I know very few friends there.

18. An Eloa, however, is unknown to me on those worlds, but rather a similar name, namely Elhoa.

19. But perhaps it is a misunderstanding of Carlo Disch, in that he misheard the name.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_064](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_064)

**Semjase:**

84. Regarding his statement that he had had contact with an Elhoa at the beginning of the sixties {1962}, I was only able to find out that at that time there were actually two Cassiopeian ships with several crew members on the Earth for about 4 months, which had also made impulse telepathic contact with two Earth-humans.

85. However, all recordings were not transmitted on the home planet, but recorded in the storage devices of the ships for reasons inexplicable to us.

86. Unfortunately, however, our research has now revealed that one of the ships was destroyed during the return flight to the home star in 1962 with the entire crew, whereby all records were also destroyed.

87. The reasons of the destruction are shrouded in darkness and could not be clarified, because it took place in hyperspace, which was determined at that time by coordinate impulses.

88. The second ship started from the Earth about 7 years ago, because the crew was expeditionarily busy until then.

89. They had, however, no knowledge about the records of the destroyed ship, so also they could convey nothing of reference to this to the homeworld.
90. Unfortunately this ship did not reach home either, because some influences threw the ship into a foreign dimension when it wanted to break hyperspace.
91. This resulted in the fact that all control devices of the home base, which were coupling remotely with the devices of the ship, suddenly did not pick up any impulses any more when the breakthrough should have taken place, which indicates with compelling clarity that the ship was thrown into a foreign dimension.
92. What is known about the two ships is that the destroyed aircraft was commanded by a male leader named Elhoa, while the missing ship was under the command of a certain Anhar.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_065](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_065)

**Semjase:**

24. Meanwhile it was possible for me to take care of the concerns of Elhoa and Carlo Disch.
25. In connection with a station on Proxima Centauri it turned out that all Elhoa's records are stored there.
26. The records say that Elhoa was in brief contact with two earthlings.
27. A Carlo Disch, however, was not one of them.
28. Contrary to the things Carlo Disch mentioned to you, great doubts arose for me and my father regarding these statements, so we took a closer look at the man and found out that all his expressions, also in many other relationships, originated only from his own imaginative brain and that he had never seen a beamship or been in contact with an extraterrestrial intelligence.
29. Everything is a lie for the purpose of self-exaltation and his pronounced urge for recognition, which has already brought this man an unusual amount of evil.
30. Also his offer of work for your mission is based on unjust things, on the one hand also in his irrepressible urge for recognition, which seems like a pathological addiction to him, and on the other hand in his irrepressible desire to obtain enormous financial advantages with everything and everyone.
31. His dishonesty is so pronounced that he would lie to and deceive even the best friends if he had such friends.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_067](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_067)

**Semjase:**

2. Within a short time I was able to clarify that everything, but really everything, which Carlo Disch told you and your group, has no truth at all.
3. He neither knew about the existence of Elhoa nor was this name even known to him.
4. This is the reason why from the beginning he spoke of an Eloa, whose name he knew from ancient writings and from various religious organisations.
5. Consciously he did not write this name in its complete form, which goes back to the old name ELOHIM.
6. With the help of my father, I was able to clarify that Carlo Disch acted only for selfish purposes to invade your group, with the intention of being in the foreground and asserting himself.
7. So he acted out of rather low motives, without the slightest sense of honesty.
8. His actions are only self-directed in order to play strongly prominent roles in public.
9. Untruths are very convenient for him, and he applies them without any hesitation.
10. He is very self-centred and very egotistic.
11. Tell him that he should honestly strive for his knowledge in order to satisfy his evolution.

The same applies also to communications with SANANDA and a certain Commander Gyeorgos Ceres Hatonn. These, by the way, are two totally unknown, nonexistent names among material

as well as spiritual reaches in the entire planetary regions of the Pleiades and all the realms of the planets and galaxies and suns in the Federation's territory, which comprises expanses of many millions of light years; neither can these names be found in the regions of Lyra and Vega, among others, with the exception of some parts of Earth and in the brains of lunatics and liars, as well as cheats and deceivers...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_233](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_233)

**Ptaah:**

16. In a short time, you will receive mail from America, namely from George Green, who is known to you.

17. In his letter to you, you will find two writings that bear the titles 'SPACE GATE: THE VEIL REMOVED', by Gyeorgos Ceres Hatonn, as well as 'AND THEY CALLED HIS NAME IMMANUEL', by I AM SANANDA.

18. Both hypocritical works are just two out of a whole series of nine works of lies, in which it is mendaciously and deceitfully maintained that a certain Commander Gyeorgos Ceres Hatonn – whose sign is Commander in Chief, Earth Project Transition, Pleiades Sector Flight Command, Intergalactic Federation Fleet Ashtar Command: Earth Representative to the Cosmic Council on Earth Transition – has taken up contact with a person of the Earth, which refers, of course, once more to a person in America.

19. But concerning this, it is to be explained that this incredible and insolent lie holds no truth in itself because as I already explained on the 17th of November, we maintain no contacts with Americans, especially not with these, and also not with other human beings on the Earth, except for and with you.

20. Concerning the of the Pleiades nor to an allied people of the Federation nor anywhere else on any worlds or in any spirit levels of the far reaches of the Universe that are known to us, except on the Earth and in the brains of those swindlers, liars, and deceivers, who use these names for their lies and truth-offending fantasies.

21. And as for the name Ashtar, I refer to all the information that we already delivered to you several years ago for the public, from which it clearly and unambiguously follows that Ashtar Sheran has never had and still does not have those contacts with Earth-humans that are ascribed to him by various liars and deceivers of the Earth.

22. As for the inglorious role that he had played, this is known to you very well, and moreover, his material existence expired, according to the terrestrial calendar in the year 1983, when he strove for things in the DAL Universe that did not fall within his competence.

23. Having fallen back into his former, wrong, and old conduct, he fled into the twin universe and attempted to seize power there over Asket's people, whereby his aircraft was destroyed and he lost his life.

24. So he, as well as his spirit-form, can in no way enter into contacts with Earth-humans, for on the one hand, his body was completely eliminated by the destruction, while his spirit-form has no possibility of returning from the twin universe to our universe or to break through the barriers, which are insurmountable to any spirit-form, of both buffering universes, in order to establish or maintain this kind of contact with the Earth-humans.

25. So all those lying and swindling Earth-humans, who maintain that they would have contact with Ashtar Sheran, are already condemned by this fact.

26. These swindlers, liars, and deceivers still continue on, however, because in the mentioned deceitful writings, it is even maintained that Jmmanuel, also known as Jesus Christ, would personally transmit messages to the liars, swindlers, and deceivers, particularly to the lying person DHARMA and such.

27. But this also only corresponds to an incredibly insolent lie, as well as a swindle and deception beyond compare.

28. No one knows better than we do, that this mendacious, fraudulent assertion has no truth content at all.

29. Jmmanuel, who has mendaciously been given the name Jesus Christ, and you also know this very well, transmits no messages of any telepathic or otherwise similar form to the Earth-humans.  
30. On the one hand, he is reborn at the present time in Europe as another personality – which you, like we, know very well – because we know his person, and on the other hand, he does not concern himself with transmitting messages and the like, or even the Talmud Jmmanuel, to delusional believers or deceivers, swindlers, and liars in telepathic form, etc.  
31. What is still offered further by these swindlers, liars, and deceivers is actually never to be surpassed, regarding the disgraceful impertinence and disrespect toward all spiritual levels and particularly toward the levels Petale and Arahath Athersata, since these filthy liars – I simply lack other and stronger words for them – and deceivers, swindlers, and truth-offending ones do not shy away from mendaciously drawing upon these levels of purity, with the dirty and maliciously deceptive and fraudulent assertion that even these would stand in contact with the liars and deceivers.  
32. A lie and a deception beyond compare, for THE sole fact that the spirit-form levels never take up contact with material levels, in order to communicate with these, puts paid to the lies.

...

36. However, I do not explain this for your knowledge because you know these facts better than I do, but I only mention them for all those lunatics who are of the false assumption that a material life form could simply come into contact with any spirit-form, as this is maintained by all those who have succumbed to deluded belief or who simply lie deliberately, cheat and deceive, or who are simply ill in a schizophrenic form and call themselves mediums, who can allegedly talk and communicate with the deceased, spirit-forms, demons, and us extraterrestrials, through trance states and channelling and similar nonsense, in order to allegedly receive messages of major importance.  
37. Yet all these assertions and machinations are nothing more than deliberate swindles, lies and deceptions, schizophrenic illnesses, self-deceptions, or deluded beliefs and the like.  
38. In truth, such possibilities for such connections only exist in very small amounts and only in a spiritually, very highly evolved framework, and thus, only with very few humans.  
39. On the Earth, however, all those human beings who are equipped with such abilities are not of terrestrial origin; rather, they migrated from foreign worlds at earlier times.  
40. The liars, swindlers and deceivers, however, the lunatics, the deluded believers, the self-deceivers and schizophrenics, who designate and call themselves mediums and channelers or the like, and this is clarified down to the last detail, are all clearly of terrestrial origin.  
41. They are all earth-created and earth-born and have no connection at all to life-forms of extraterrestrial origin.

**Billy:**

... do you know a Commander Hatoon?

**Taljda:**

48. No, why do you ask?

**Billy:**

I know from Quetzal that among other things you have the profession of a name historian and know all the names that are known from earliest times. Also all existing names of today are included.

**Taljda:**

49. That corresponds to the truth, but the names are so many that I cannot keep them in my memory, which is why I stored them in a central computer that I can retrieve from here in a matter of seconds if you are interested.

**Billy:**

Gladly; check if the name Hatoon exists.

**Taljda:**

50. Gladly, wait a moment. – – –

51. Here, you see, this name does not exist, not even in a form of deviation.

**Billy:**

Can you check if a Commander Hatoon exists somewhere in the Federation or elsewhere in your area?

**Taljda:**

52. Of course I can, as fast as that, but it would be illogical, because there is no name like Hatoon anywhere.

**Billy:**

Please.

**Taljda:**

53. Good. — — —

54. You see, there is no Commander Hatoon in the entire Federation – not even anywhere else outside our Federation.

55. It would be simply illogical and I do not understand ...

**Billy:**

I just wanted to make sure. You know, a G. G. in America claims that he or someone else knows that he or someone else would have contact with a certain Commander Hatoon of the Pleiades or somewhere else, but also with Jesus Christ, who under the name Santana or under some other such crazy name is supposed to be crazy enough to maintain contact with an upper-mad earthling, to let him loose with half-slavish idiocies on the otherwise already mostly sectarian enslaved earth humanity.

**Taljda:**

56. Now I understand.

57. You speak of that monstrous deceitful machination in America, which is spread by the mentioned G. G.

I simply want to point out that so many lunatics on Earth still claim and the longer the more that they have contact with humans or spirit-forms etc. of the Pleiades, e.g. the liar B. F. then the South American or Mexican C. and the Mexican professor anyway, then also the actress M., with whom we had quite bad experiences, but also G. G., who wants to maintain contact with a Pleiades commander Hatoon, then P. M., or as they are called and many, many others, such as R. B. and the super-channel G. C., etc. etc. and so on.

**Ptaah:**

767. They all fall under the names of liars, swindlers and fraudsters.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

The mentioned liars, swindlers and cheaters as well as several unnamed ones unfortunately still work around with their lie stories. Also G. G. with his fantasy figure Hatoon etc., as I was told by telephone from US America.

**Ptaah:**

109. He is nothing more than an infamous liar and cheater who is fully aware of his lying and cheating.

110. The fantasy word Hatoon is probably just as much a pure invention of his own pathological prestige addiction as all the incredibly stupid scribbling he spreads.

111. The fantasy word Hatoon also does not exist as a name in our language nor in any other language of our Federation.

112. An inquiry by the High Council at the Arahat-Athersata level also revealed that the stupid word Hatoon only exists in the entire universe on earth or in the stories of lies and deceit of G. G., but nowhere else.

**Billy:**

... what happened again recently when a cult follower turned up at my house, a member of what is supposed to be a reincarnated Jesus Christ alias 'Christ Sanandaj' resp. 'Jesus Sananda Jmmanuel' spreading messages. She fanatically raked me over the Jesus Sananda Jmmanuel nonsense and wanted to get me on her cult side, which is why I think it may well be necessary for something to be done in the way you say. The woman brought me 2 more books entitled 'And they called him Jmmanuel' ('I am Sananda'), and 'Space – Gate' ('The Veil is removed') Nos. 2 and 3 from the PHOENIX JOURNAL. In one of the books it is mentioned that in Chapter 5 of a Phoenix Journal it is written by this Christ Sananda what an imaginary Plejaren commander named Gyeorgos Cweres Hatonn is supposed to say in the so-called Phoenix Journals, and I will read some of that to you here: ...

...

**Ptaah:**

165. This sect is known to me, but not their books and journals, etc., which is why I am unfamiliar with what has been read aloud, which I find extremely stupid and full of lies and deceit.

**Billy:**

For me it is absolutely clear that this 'Jesus-Sananda-Jmmanuel-Sect' resp. the originator of the whole thing has stolen my materials of the 'Teaching of Truth, Teaching of the Spirit, Teaching of Life' and transformed them according to his own sense and is now spreading everything under the direction of the present sect leadership ...

#### **Semjase:**

94. This series is well known to me, but the name of the author is not Perry Rhodan, but the main character of these writings is occupied with this name.

95. To my knowledge a certain Herr Scher or Scheer and another, whose name is unknown to me, writes this series of writings, which actually has extraterrestrial inspirative origin and corresponds to an already largely existing technology and other development on many world bodies, as they are received and written down by the authors inspiratively-impulsively.

#### **Florena:**

3. Actually I wanted to come earlier, but I thought it would be better if you would take a look at the work of Adrain-Winters first.

#### **Billy:**

Then you know that I got Randy Winter's video from a man in Florida?

#### **Florena:**

4. Of course.

...

7. And now that you have seen the deceitful work done, you will have noticed that Adrain is cheating people with deceptive photos.

8. His statements are also completely false, apart from the facts that he stole from your statements, etc.

9. Perhaps you have also realized that for the fraud photographs some models of our ships were copied and used for photographic purposes, with some changes being made to prove that the faked missiles were supposed to come from a group other than ours, although never other groups than ours were present on Earth.

10. Light models and drawings were also used for fraudulent purposes, as were films made from a moving vehicle to give the impression that a spaceship had been filmed in rapid flight.

11. Your photos of our aircraft were falsified and copied, as well as used to make models that were hung from thin threads and then photographed.

#### **Billy:**

And such jokes more. But what about the question I asked Ptaah: Do other people have their hands in the whole Adrain-Randy Winters-story of lies?

#### **Florena:**

12. There are at least several people who take part in his fraudulent game and shake hands with him in order to better design and disseminate his work of lies.

13. That's clear, and unfortunately the liar and deceiver finds supporters who, in their unobjectivity, regard his work of deception and deception as genuine.

**Billy:**

Unfortunately, this is always the case – even with F. B. and his friends, who claim that they are in physical or telepathic contact with some Pleiades and especially with Ptaah and his daughter Semjase.

**Florena:**

14. Which is no more true than the story of fraud and lies of the swindler Adrain.

**Billy:**

... Is there anything you know about a certain Jani King? Recently I received a fax saying that this women from North Queensland in Australia has written at least two books about...

**Ptaah:**

44. ... alleged contacts with me, which of course is just as much a kind of irrational shady wheeling and dealing as the untenable claims of Penny McLean, Barbara Hand Clow, Barbara Marciniak and Amora Quan Yin and others, who engage in shady wheeling and dealing and claim to be in some way in contact with me or with other persons or some spiritual beings of our people.

45. In the same league also belong F. B. with his made-up contacts to my daughter Semjase as well as Adrain with his story of lies and the alleged contacts in Florida.

46. We have from our side never had such contacts with human beings on Earth – except those known to you, and only those to your person -, and there are also no such contacts at present, and in the future too no such contacts from any human beings on Earth will materialise with anyone of our peoples.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaren have become the focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

**Billy:**

... the entire fraud and deception of Adrain alias Arkon, who is actually called Manny Escandon, was uncovered in the 'Magazin 2000' issue no. 11 of November 1997. ...

**Ptaah:**

18. It is extremely regrettable that the fraudulent and lying machinations and allegations of this Adrain-Arkon are met with such uncritical and unbelievably irresponsible acceptance, homage, approval and recognition, thereby denying, falsifying and suppressing the truth.

...

20. Nevertheless, it is very regrettable that gullible people let themselves be misled by such fraudsters, swindlers and liars and join such people without hesitation, contradiction or criticism and defend them in such a way that they insult those who call the real truth and accuse themselves of lying, as is the case here in these incredibly stupid letters to the editor of 'Magazin 2000'.

21. It would be very appropriate that both these Letter to the Editor persons and all other Adrain Arkon followers be brought a little closer to the real truth and that it be explained that this alleged Pleiadian saviour is nothing other than an infamous and profit-oriented deceiver and swindler, as well as a liar and charlatan, and moreover since time immemorial is purely earthborn, who has nothing to do with our Pleiadian-Plejaren races or their spiritual levels.

22. As we have explained several times before, you are also the only person on Earth who is in contact with us and with our spirit levels, which means that not only this Adrain-Arkon is lying and cheating about alleged contacts with us, but also all others who dare to claim to be in contact with us via channeling or telepathy or even physically.

23. Apart from you, no other form of life on Earth has contact with us Pleiadians/Plejaren or with beings of our spiritual levels.

**Billy:**

Apart from the fact that the Pleiades, which we see here from the earth, are not identical with your Pleiades, and on the other hand the Pleiades known to us in our universe are only 62 million years old and therefore still hellishly hot and too young to carry life or even to have gathered planets around themselves, on which ultimately life would be possible.

**Ptaah:**

24. This is a fact that is not taken into account by all alleged earthly contact persons, because they do not know the relevant facts.

8. But so we also spoke of all other liars and deceivers, who maintain that they would have contact with us.

9. But in no case does this correspond to the truth.

10. My daughter vehemently stands against all assertions and lies of B. F., as well as against all other liars who claim to stand in contact with her.

### [Lehre und Kunder der Wahrheit by Hans-Georg Lanzendorfer, pages 381-401](#)

This rediscovery and revival of the ancient Satipatthana meditation is due to a personal contact between Sfath and the Buddhist religious superior Mahatmya Mahaprajna who was ethnically a German named Theophil Finzel from Hamburg. The contact occurred for 48 years and ended in 1907 when he died. Sfath in fact gave this monk the first German translation that he did himself. In 1879 this head monk explained the Satipatthana mediation to the other monks. The knowledge of it also spread through India and Burma in an indirect way. In Burma, the teaching was thought to be from Buddha, and from this the Burmese School of Satipatthana was born.

#### **Billy:**

... Now Mr. Köhler wrote to me that older reports from France from 1959/60 reported that French contact persons had joined together in a secret order 'Friends to the Stars', after, in the years 1953/54 beings had appeared from the Pleiades in France and had taken the contact persons for around 10 years to the Pleiades 'on visit'. Mr Köhler writes that he contacted two of these people in December 1974, after which he was told that the contact persons had received 'secret and extremely important information' from the Pleiades, about which they would have to remain silent. Since 1966 the contact had ended and by the beginning of 1977 a comprehensive work consisting of three books and more than 200 documenting photographs was to be put on the market in France and Portugal. In another letter Mr. Köhler writes me, after I had asked him for the addresses of the contact persons, that he unfortunately does not know them, because he only knows the names of some persons who would help the 'Friends to the Stars', which seems to me to be a rather primitive name, by the way. Look here, these are the names: Georges Galichon, Paul Moroni, Gilbert Ferol (married couple) and Severine Sauvan. He writes about these names that he could only infer from their conversations that they all lived in a place near ALBRET in France. What is this all about?

#### **Semjase:**

148. It is a very dirty lie by these Frenchmen.

149. Their existence is completely unknown to us, and so far no life forms of our worlds have ever had contact in such forms in France.

150. Also no beings of our federation have ever had such contacts in France.

151. Obviously it is a fraudulent and lying work of some profit-seeking people who want to achieve financial advantages through fraudulent machinations.

152. Or it is a work of primitive deception for the purpose of ridiculing the truth.

153. Even the lie that these alleged contact persons had been visiting the Pleiades for 10 years corresponds to such primitive ignorance of the facts that the assertion itself is a lie.

That's more information than I expected. Can you at least give me one or two contacts who are real contactors and whose information can really be relied upon?

...

#### **Ptaah:**

1098. That is so, but if you want to know names, I will tell you their two:

1099. They are two men named Daniel Fry and Viktor Schauburger.

1100. The latter, however, is long gone from your world, and he did not report his contacts with extraterrestrial intelligences.

1101. His task was to do other things, which he carried out very consciously.

1102. The man named Daniel Fry lives in America.

1103. His profession is that of a technician and his contacts go back two and a half decades.

1104. The teaching given to him was in minimal religious form according to his state of conscious evolution.

1105. His knowledge of the Creation, however, was only in its infancy, so that the values of the Creation had to be explained to him by the name of GOD.

1106. This contact, however, is a valuable one among all, but unfortunately he will not be able to cope with the whole thing in a consciousness-passed manner, consequently he will become confused, as we unfortunately could only ascertain afterwards.

#### **Billy:**

I am very happy for this human being. Surely he must be very sympathetic, isn't he?

#### **Ptaah:**

1107. It is one of those human beings who are very even-tempered, likeable and lovable.

#### **Billy:**

What's this about: Quetzal once explained to me, as Semjase did, that Dan Fry, an American, actually had contact with aliens and took photos, but that he then destroyed these photos, after which somebody made forgeries and put them under his control, so that today there would be no real photos of alien flying objects that could be traced back to Dan Fry. The story about the origin of the extraterrestrials and their statements are also said to have been thoroughly falsified. Quetzal once explained this to me without this appearing in a contact report.

#### **Ptaah:**

28. This corresponds to the actual events.

**Ptaah:**

26. It has also been the case for many years now that our worldwide efforts of clarification and surveillance in this regard have not produced any positive results and therefore no contacts between terrestrial human beings and extraterrestrials have been recorded.

27. These clarifications are without any doubt, because our monitoring in this regard is absolutely faultless, because our apparatuses and devices register all foreign to Earth mental vibrations of acute activities, but also of telepathic nature, therefore nothing can escape us in this respect.

28. If communications between Earth foreigners and Earth-humans had taken place in the last major period of time, then this would have been recorded by our automatic recording devices and would have become known to us.

29. This in addition to the fact that we have always made individual clarifications with regard to all persons who claimed and still claim to have had or still have contact with extraterrestrials in any way.

30. But the results concerning such contacts are consistently negative to this day, and that is absolutely clear.

31. It is no different with extraterrestrial flying objects, because also with regard to these we have built up a global surveillance network a few months ago, so that no objects can enter or leave the airspace without being registered by us.

32. Until recently this was different, because we had not yet installed the necessary equipment, consequently some foreign objects escaped our attention in recent years, but this has nothing to do with the registration of foreign mental vibrations, which we have been controlling worldwide for more than 82 years, therefore we are also informed about when and where contacts between Earth-humans and Earth foreigners have actually taken place.

33. During this time their number – you excepted – applies to only eight such contacts, but of all those who claim that they have or have had such contacts, only one is who openly admitted the truth and came forward – the American Daniel Fry.

**Semjase:**

84. We follow a lot of events on the Earth, that's why we have also become aware of him.

85. He possesses certain mental powers, but which he himself is not able to control.

86. Each undertaking of him necessitates certain consciousness-based powers of his fellow human beings.

87. This means that he activates the powers of consciousness of many fellow human beings unconsciously, as he is unable to control this, and these human beings then, also unconsciously, assist him in his undertaking.

88. His own consciousness-based abilities would not be sufficient for an undertaking.

...

**Billy:**

So, without his dear fellow human beings he would be a nobody and would not be able to apply his minimally developed abilities? ...

... I also think that I know that UG is a deceiver in this matter because he claims that he was staying in a UFO. In my view, he first became aware of UFOs in America.

**Semjase:**

94. Here, too, you have deducted exactly the right combination, because he has never even come close to a beamship, nor has he ever entered one.

95. However, he already heard about UFOs in Israel and not only in America, as you assume.

96. But very many human beings already know that he is a beamship deceiver, and that's why his name is on many people's lips.

97. We can therefore name him here without hesitation:

98. UG

**Billy:**

Isn't that unfair?

**Semjase:**

76. The people I have marked as negative are not contact persons.

77. In any case, they never had contact with extraterrestrial intelligences that reached them from outside of the Earth, neither through free space nor through a dimensional gate, because these penetration possibilities are so hermetically controlled that it is completely impossible for even a tiny particle unit to be able to pass through without being registered by us or the other intelligences monitoring the Earth.

78. If, however, an intrusion into the earthly space takes place, then everything is very precisely monitored and registered.

79. And these controls and registrations do not give any evidence that the negative persons mentioned could be positive.

...

85. But I do not want to exclude the possibility of explaining to you that the persons I have described as negative may have been in connection with the intelligences of Giza or may still be in connection with them, because we do not exercise precise control over them.

**Billy:**

So this possibility remains open?

**Semjase:**

86. Sure, but the persons concerned would have been very badly misdirected.

87. The same goes for those who have been deceived by earthly intelligences, namely by those who have the stolen beam ships of the Germans at their disposal and pretend to be extraterrestrials to earthly men.

**Kohun:**

... The names you mentioned are well known to us, but you mispronounced them: The first is called ADAMSKI, the second, Genovese, and the third, Michalek. These are not names of real contact persons, but of malicious swindlers. Neither one nor the other of them has ever had contact with us or any of the other space races.

To the best of our knowledge, they have also never even sighted one of our beamships.

### **Billy:**

... But first I would like to hear what you have to say about the video recordings we watched together.

### **Ptaah:**

...

18. The statements and explanations of the man Gilliland do not correspond to the truth, but rather to fibs, if I may express this once with your words.

19. Either these are based on deliberate lies or on delusional experiences or other pathological imaginations, as are the unbelievable claims of the alleged burn marks on the chest.

20. But if such have actually occurred, then they have been caused by a stigmatization generated by delusion, which can only be traced back to pathological manic thoughts and feelings and, as a result, to a sick psyche.

21. Also the drawings and paintings that the man presented, which are supposed to represent extraterrestrial human beings, are just good enough for amusement.

22. I would like to call the human-like female being with the horns on her head a pussycat, because it reminds me strongly of such an animal, to which horns are senselessly attached.

23. And what to say about the strange pictures on which round transparent spheres can be seen is this:

24. I have noticed such photographs elsewhere, which is why I followed up on this matter.

25. I found out that these were fraudulently produced with different techniques, namely, on the one hand, that the photo lens was sprayed finely with transparent liquid, or on the other hand, that a flat, colourless glass pane or transparent paper was attached in front of the camera and this was then also sprayed with a colourless liquid.

26. As I found out, there are several other possibilities to create such fake images, but to list them would be going too far.

27. That the transparent balls and pellets are supposed to be non-terrestrial objects etc. is absolute nonsense, which makes such claims equal to fraud.

28. And what to say about the other photos:

29. These too are forgeries.

30. Regarding the luminous objects that light up, seem to hang in the air, seem to divide into several objects, move away from each other, approach each other again and merge again, the following can be explained:

31. All the observers and witnesses of such sightings are deceived, because they are in no way extraterrestrial flying apparatuses or UFOs, as terrestrial people call the objects, which can be seen especially in many places in the USA and all over the world.

32. The secret machinations of the responsible authorities and offices in the US-America are responsible for these appearances of these light objects, but this is to remain secret, not only for the American, but for the whole world population.

...

**Billy:**

So all the video recordings are completely worthless in terms of authenticity in terms of contact with aliens etc. and in terms of sightings of alien missiles.

**Ptaah:**

41. That's the meaning of my words.

118. Her assertions are of course absolute nonsense and correspond to mischievous machinations and even schizophrenic origin.

**Billy:**

That's exactly what the lady, Omneec Onec, calls herself. A madwoman who mumbles and smacks out her bona fide, stupid followers.

**Hans-Ruedi Glanzmann**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_081](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_081)

**Ptaah:**

11. As you correctly analysed, those contacts of Mr. Glanzmann that you recognised as contacts from the sphere closest to you and next higher to you, the Earth-human collective subconscious WE form, were truly given.

12. These contacts were made via Mr. Glanzmann himself for the purpose of taking over tasks and fulfilling the associated tasks, within the framework of a teaching of the truth that the material realm of life must be brought into connection with the spiritual.

13. So it would have been Mr. Glanzmann's task to dedicate himself instructively to the human beings of the Earth in such a manner that he would have conveyed studies to them on how to master the purely material sphere of influence and how to guide it correctly in daily life and in connection with the consciousness-based path of evolution.

14. But he was only obedient to this task in the first stage, after which he rebelled and let himself go into the realms of the purely material, disregarding his task and eager for purely material profit.

15. Also he did not stick to consulting with you in all things, as he was instructed to do by the WE-form, in order to be master of his task in just form.
16. Clearly and explicitly he was directed to you in order to obtain from you the standards for the fulfilment of his tasks and for his approach.
17. For this purpose, he was clearly and explicitly given the name of one of your former personalities, as it was known in earlier times, about 1,500 years ago, when your personality at that time instructively worked on both areas of evolution for the Earth-humans, which is not possible for you at the present time, however, because according to the given circumstances you can only be active in the spiritual and consciousness-based area in extreme concentration.
18. But now Mr. Glanzmann has consciously alienated himself from his assigned task and reassessed the matter in a sense of financial profit.
19. Thus the true contact with the other sphere was lost to him, which he became absolutely aware of.
20. Because of his actions in the wrong form he lost the contact to the reality of the real contact with the other sphere of the human WE-form, after which he did not even have the imagination of a still existing contact.
21. So now he does not live on in an imagination that the contact to the other sphere would still exist.
22. So he knows that this is not an interruption of coming back [resuming of contact], for the time of his present life, because if a life form fails and malfunctions in this manner only once, a renewed establishment of contact can understandably not take place again, because there would always be the danger of a new failure.
23. Through his desires, Mr. Glanzmann shaped his consciousness into a form of imagining that he was something higher and a person with a calling, through which he continued to bring down written things and statements in self-invented form, which are really only controlled by himself and by his consciousness as a form of desire, but which he mistakenly consciously claims to be genuine and in this respect also makes his believers believe.
24. But since he now lacks the necessary knowledge that would have been granted and transmitted to him if he had followed the task and fulfilled it, he deliberately falsifies your teaching and uses erroneous and false scriptures with illogical false doctrines, which he consciously evaluates materially and disseminates in a form similar to instructing, thus driving those who have become addicted to him into euphoric-meditative states that they, in the addiction, believe to be the truth although these are truthfully only hallucinations generated by self-suggestion, i.e. imaginations in mostly pictorial form.
25. It is precisely this form, however, that is extremely dangerous, for it is this form that leads to complete bondage in the realm of suggestively evoked hallucinations, which is very often provoked by false meditation teachers on the Earth, who usually call themselves enlightened beings, masters and gurus in this foolish and dangerous game of delusion.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_124](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_124)

**Semjase:**

28. The writings composed by H. G. are based on impulses penetrating into him, which undoubtedly and unambiguously originate from the subconscious forms of earthly humankind, and to be sure, from the subconscious forms of the living human beings of Earth of the current time.
29. These impulses lead H. G. to make deep thoughts about the issues known to you and to hold these in writing.
30. Often, however, he is not aware of these impulses, so he assumes that all thought impulses would arise from his self.
31. So thus, he is often of the idea that everything is his very own.

32. Truthfully, however, it is such that these subconscious impulses penetrate into him because he seeks authoritative contacts in other spheres, which will remain refused to him, however.

**Semjase:**

177. You know that this cannot correspond to the truth, for neither I nor anyone else of our people would ever take up any conscious contacts with Earth-humans in the earthly realm, neither now nor in the future.

178. On the Earth, there exists only a single conscious contact for a human being of Earth, namely the physical one with you, while in Germany, three impulse contacts exist with human beings who have no knowledge whatsoever about these contacts and whose names you also know.

*Teacher Karl Graf, with whom the little Eduard (Billy) visited during the first three school years, was not only one of Eddy's great friends, but he also stood on friendly terms with priest Rudolf Emanuel Zimmermann and with the well-known psychologist and psychiatrist, Professor Carl Gustav Jung. Karl Graf had been enlightened by the little Eduard in reference to his contacts with the extraterrestrial Sfath and, as proof, even once received the opportunity to be allowed to observe his aircraft, with Sfath's permission, in 'Erachfeld' in Bülach, when Eduard went to a contact. A contact with Sfath was excluded, but the experience was enough for the teacher to promote, from then on, the scholastic progress of the boy entrusted to him, also partly in his spare time on a private basis. ...*

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_690](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_690)

#### **Ptaah:**

94. But also your teacher Karl Graf was concerned about you, because my father {Sfath} had also included him in the small area of information, but only in an impulse-informative way, whereby he was informed about you and your later mission and in relation to my father Sfath, which is why he was also allowed to see and touch flying apparatus in my father's field when you were picked up for a flight.

95. However, personal contact between him and my father never took place, although your teacher had requested it.

96. Later, after he was able to see and touch the flying apparatus and you were back at school the next day, you had to answer his questions after school, explaining everything for his understanding.

97. As a result, he refrained from wanting to speak to my father in person, he no longer pressed for it and was content with everything you explained to him.

98. He also kept silent about everything throughout his life, so also about the incident at the barn in the Erachfeld, as well as about what information he had received.

...

**Billy:**

... my teacher Graf was impulse-informed. Although I was surprised at the time that he appeared at the Nüssli-Schopf in the Erachfeld and could or was allowed to see Sfath's beamships because your father had not shielded it, consequently it was visible to my teacher, I never asked why. And that he could or was allowed to touch the ship, I also did not notice at the time.

**Ptaah:**

109. You couldn't have noticed that either, because according to my father's records, the touching only took place when you were already in the flying apparatus.

110. And the reason your teacher came to the building was because he was urged there by my father through appropriate impulses.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_725](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_725)

**Ptaah:**

95. The records show that Father Zimmermann on the one hand concealed his contact with my father, Sfath, you and Professor Jung from his entire family, as was also the case with your two teachers Graf and Lehmann.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_727](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_727)

**Ptaah:**

20. I also understand the incident at the barn in the Erachfeld, when my father's {Sfath's} flying apparatus was allowed to be seen and touched by the teacher Graf, which corresponded to a purpose and whereby your teacher received a mental inspiration from my father.

21. This was directed towards teacher Graf confiding in his school colleague teacher Lehmann according to his experience and the urging 'whispered' into him by my father, and also explaining to him that you would repeat the 4th grade with him because teacher Frei would bully you, beat you and put you back another year in the school grade.

22. And as my father explained, he came to this solution because he realised through observation and looking into the future that teacher Lehmann was secretly preoccupied with astronomical findings and was thinking that human life could exist on Mars just as it did on Earth.

23. He was very preoccupied with it because he had heard about a very realistically staged science fiction radio play in America called 'The War of the Worlds', which had been invented by an Orson Welles.

24. This radio play, broadcast over the airwaves in America, aroused fear and panic among the population of the city of New York and also far and wide about an invasion from Mars.

25. Teacher Lehmann, however, did not believe that the Martian inhabitants could be malicious beings, just as he also did not take the radio play seriously, but he thought about the possibility, as I have already said, that human beings could actually live on Mars as they do on Earth.

26. The two teachers Graf and Lehmann then got together for a joint consultation and followed secret instructions that my father transmitted to them by inspiration, whereby teacher Graf encouraged you in the 3 school years that you spent with him from the 1st to the 3rd grade.

27. And since he was also a friend of Professor Jung, he also made an effort to put many of your questions concerning psychology to him, which he himself could not answer.

28. He also let him in on everything that was going on, so this man was also very well informed about you, but he held back and did not talk about it openly, but only with teacher Graf.

29. But when it happened – because you had gone from the Mathilde Escher Home, where your mother was with your severely physically handicapped sister Verena, that you had gone down to the Burghölzli Clinic in Zurich, because my father ordered you to do so, as he also did with Professor Carl Gustav Jung -, that your acquaintance came about, then the development began, that on the one hand your two teachers Graf and Lehmann, as well as also Pastor Zimmermann, were contacted in person by my father Sfath, informed and variously enlightened and instructed.

30. It also came about through Professor Jung that after his passing in 1961, towards the end of the 1970s, his niece Lou Zinsstag came to you, who dealt with the so-called UFO phenomenon that had arisen worldwide, which a man in America named Kenneth Arnold had raised as a result of observing flying objects unknown to him.

...

36. Your acquaintance, which my father Sfath arranged, was only a small part of what he did, for he also did a lot with your two teachers Karl Graf and Gustav Lehmann, which he also concealed from you.

37. He ordered both of them to the barn in the Erachfeld, and ordered them together into his flying apparatus, which you call the 'Pear' spaceship, in order to fly with them around the Earth and also around the Earth's moon during a flight lasting several hours and to inform them about your mission.

38. He further instructed both of them regarding the reality of creation as well as the falsity of religions, as he also informed them – as was the case with Pastor Zimmermann – that you would suffer terrible slander and be harassed by the school authorities etc. throughout your school years and also for some time afterwards as a result of slander.

39. My father also taught them how the falsity of religions and the faith of Earth-humans came about.

40. Through all the teachings, both teachers caused themselves, as was also the case with Reverend Zimmermann, to turn to the truth from then on and to be helpful to you in a secret way.

41. However, they had to commit themselves to conceal their experience, their received teachings and information as well as their task from the outside, and also that external forces such as ... would not be able to perceive anything that ...

42. So it was incumbent upon all of them, the two teachers, as well as Pastor Zimmermann, to remain silent, because on the one hand they would have forfeited their reputation and their livelihood by making an announcement, and on the other hand they would not have been able to provide the necessary help for you, but furthermore also with regard to ...

43. This is a brief account of the events that occurred in connection with Pastor Zimmermann, Professor Jung and your two teachers Karl Graf and Gustav Lehmann.

"We, the members of FIGU, vehemently distance ourselves on our own behalf, and in the name of the Pleiadians, from George Green's false and deceitful schemes. He has translated and published the Meier Talmud Jmmanuel in distorted format with untruthful interpretations, without ever having obtained permission from any of us. The members of FIGU, as well as the Pleiadians and entities from the Arahathatersata and Petale levels also distance themselves in every conceivable way from the lies regarding purported transmissions from higher spirit levels that were published by Phoenix Source Publishers Inc. Contact Delusions

**Billy:**

... As the only true contactee of the Pleiadians, I have been approached by no less than seventy-one individuals in writing, by phone and FAX over the past twenty years, who contend that they, too, were having contacts with the Pleiadians, namely with Semjase, Quetzal, Ptaah and some Pleiadian fantasy personages. Such claims are pure, unparalleled nonsense, for the Pleiadians/Plejarans have vehemently denied these assertions. Among these liars was **an American millionaire**, an American movie actress, certain doctors, engineers, a priest and many others. More than 30 of these 71 individuals claimed they were designated by Ptaah, Quetzal, Semjase, or somebody else, to pass on extremely important messages to me, as liaisons, so to speak, between my Pleiadian/Plejaran friends and myself. Eleven individuals downright lied and said they were in telepathic, indeed physical, contact not only with Ptaah, but

with the High Council, the Petale level and the Arahat Athersata level which, allegedly, also instructed them to give me extremely important messages, etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_195](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_195)

**Quetzal:**

3. I am also oriented over your conversations in the Centre and over the many telephone calls, so also over Mr. G. G., whom you would gladly like to see as the new contractual partner.

...

**Billy:**

... there are still a lot of mysteries, as well as with regard to G.G., who recently no longer appears to me to be so morally upright, as he presents himself. (22.1.2004 Billy's Note: The contacts with the American G.G. ultimately had to be broken off because he acted in the opposite sense of FIGU's mission and spread falsified writings.)

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_233](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_233)

**Ptaah:**

16. In a short time, you will receive mail from America, namely from George Green, who is known to you.

17. In his letter to you, you will find two writings that bear the titles 'SPACE GATE: THE VEIL REMOVED', by Gyeorgos Ceres Hatonn, as well as 'AND THEY CALLED HIS NAME IMMANUEL', by I AM SANANDA.

18. Both hypocritical works are just two out of a whole series of nine works of lies, in which it is mendaciously and deceitfully maintained that a certain Commander Gyeorgos Ceres Hatonn – whose sign is Commander in Chief, Earth Project Transition, Pleiades Sector Flight Command, Intergalactic Federation Fleet Ashtar Command: Earth Representative to the Cosmic Council on Earth Transition – has taken up contact with a person of the Earth, which refers, of course, once more to a person in America.

19. But concerning this, it is to be explained that this incredible and insolent lie holds no truth in itself because as I already explained on the 17th of November, we maintain no contacts with Americans, especially not with these, and also not with other human beings on the Earth, except for and with you.

20. Concerning the of the Pleiades nor to an allied people of the Federation nor anywhere else on any worlds or in any spirit levels of the far reaches of the Universe that are known to us, except on the Earth and in the brains of those swindlers, liars, and deceivers, who use these names for their lies and truth-offending fantasies.

21. And as for the name Ashtar, I refer to all the information that we already delivered to you several years ago for the public, from which it clearly and unambiguously follows that Ashtar Sheran has never had and still does not have those contacts with Earth-humans that are ascribed to him by various liars and deceivers of the Earth.

22. As for the inglorious role that he had played, this is known to you very well, and moreover, his material existence expired, according to the terrestrial calendar in the year 1983, when he strove for things in the DAL Universe that did not fall within his competence.

23. Having fallen back into his former, wrong, and old conduct, he fled into the twin universe and attempted to seize power there over Asket's people, whereby his aircraft was destroyed and he lost his life.

24. So he, as well as his spirit-form, can in no way enter into contacts with Earth-humans, for on the one hand, his body was completely eliminated by the destruction, while his spirit-form has no possibility of returning from the twin universe to our universe or to break through the barriers, which are insurmountable to any spirit-form, of both buffering universes, in order to establish or maintain this kind of contact with the Earth-humans.

25. So all those lying and swindling Earth-humans, who maintain that they would have contact with Ashtar Sheran, are already condemned by this fact.

26. These swindlers, liars, and deceivers still continue on, however, because in the mentioned deceitful writings, it is even maintained that Jmmanuel, also known as Jesus Christ, would personally transmit messages to the liars, swindlers, and deceivers, particularly to the lying person DHARMA and such.

27. But this also only corresponds to an incredibly insolent lie, as well as a swindle and deception beyond compare.

28. No one knows better than we do, that this mendacious, fraudulent assertion has no truth content at all.

29. Jmmanuel, who has mendaciously been given the name Jesus Christ, and you also know this very well, transmits no messages of any telepathic or otherwise similar form to the Earth-humans.

30. On the one hand, he is reborn at the present time in Europe as another personality – which you, like we, know very well – because we know his person, and on the other hand, he does not concern himself with transmitting messages and the like, or even the Talmud Jmmanuel, to delusional believers or deceivers, swindlers, and liars in telepathic form, etc.

31. What is still offered further by these swindlers, liars, and deceivers is actually never to be surpassed, regarding the disgraceful impertinence and disrespect toward all spiritual levels and particularly toward the levels Petale and Arahath Athersata, since these filthy liars – I simply lack other and stronger words for them – and deceivers, swindlers, and truth-offending ones do not shy away from mendaciously drawing upon these levels of purity, with the dirty and maliciously deceptive and fraudulent assertion that even these would stand in contact with the liars and deceivers.

32. A lie and a deception beyond compare, for THE sole fact that the spirit-form levels never take up contact with material levels, in order to communicate with these, puts paid to the lies.

...

36. However, I do not explain this for your knowledge because you know these facts better than I do, but I only mention them for all those lunatics who are of the false assumption that a material life form could simply come into contact with any spirit-form, as this is maintained by all those who have succumbed to deluded belief or who simply lie deliberately, cheat and deceive, or who are simply ill in a schizophrenic form and call themselves mediums, who can allegedly talk and communicate with the deceased, spirit-forms, demons, and us extraterrestrials, through trance states and channelling and similar nonsense, in order to allegedly receive messages of major importance.

37. Yet all these assertions and machinations are nothing more than deliberate swindles, lies and deceptions, schizophrenic illnesses, self-deceptions, or deluded beliefs and the like.

38. In truth, such possibilities for such connections only exist in very small amounts and only in a spiritually, very highly evolved framework, and thus, only with very few humans.

39. On the Earth, however, all those human beings who are equipped with such abilities are not of terrestrial origin; rather, they migrated from foreign worlds at earlier times.

40. The liars, swindlers and deceivers, however, the lunatics, the deluded believers, the self-deceivers and schizophrenics, who designate and call themselves mediums and channelers or the like, and this is clarified down to the last detail, are all clearly of terrestrial origin.

41. They are all earth-created and earth-born and have no connection at all to life-forms of extraterrestrial origin.

**Billy:**

... do you know a Commander Hatoon?

**Taljda:**

48. No, why do you ask?

**Billy:**

I know from Quetzal that among other things you have the profession of a name historian and know all the names that are known from earliest times. Also all existing names of today are included.

**Taljda:**

49. That corresponds to the truth, but the names are so many that I cannot keep them in my memory, which is why I stored them in a central computer that I can retrieve from here in a matter of seconds if you are interested.

**Billy:**

Gladly; check if the name Hatoon exists.

**Taljda:**

50. Gladly, wait a moment. — — —

51. Here, you see, this name does not exist, not even in a form of deviation.

**Billy:**

Can you check if a Commander Hatoon exists somewhere in the Federation or elsewhere in your area?

**Taljda:**

52. Of course I can, as fast as that, but it would be illogical, because there is no name like Hatoon anywhere.

**Billy:**

Please.

**Taljda:**

53. Good. — — —

54. You see, there is no Commander Hatoon in the entire Federation – not even anywhere else outside our Federation.

55. It would be simply illogical and I do not understand ...

**Billy:**

I just wanted to make sure. You know, a G. G. in America claims that he or someone else knows that he or someone else would have contact with a certain Commander Hatoon of the Pleiades or somewhere else, but also with Jesus Christ, who under the name Santana or under some other such crazy name is supposed to be crazy enough to maintain contact with an upper-mad earthling, to let him loose with half-slavish idiocies on the otherwise already mostly sectarian enslaved earth humanity.

**Taljda:**

56. Now I understand.

57. You speak of that monstrous deceitful machination in America, which is spread by the mentioned G. G.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

I simply want to point out that so many lunatics on Earth still claim and the longer the more that they have contact with humans or spirit-forms etc. of the Pleiades, e.g. the liar B. F. then the South American or Mexican C. and the Mexican professor anyway, then also the actress M., with whom we had quite bad experiences, but also G. G., who wants to maintain contact with a Pleiades commander Hatoon, then P. M., or as they are called and many, many others, such as R. B. and the super-channel G. C., etc. etc. and so on.

**Ptaah:**

767. They all fall under the names of liars, swindlers and fraudsters.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_244](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_244)

**Billy:**

... Unfortunately, swindlers, liars, deceivers, charlatans and sectarians, etc., are especially marked in America and in large numbers, and probably in no other country on Earth do they appear in such masses and with such impudence and impudence as they do in America , regardless of whether they are RB, FB, GA, **GG**, medicine man, or whether they are in the hands of the people of the United States.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

Interesting but also enlightening, because it makes it clear that neither an F. B., a P. L., a **G. G.** or a R. B. or any other terrestrial human being can have contact with one of the aforementioned, since you as well as Quetzal, Pleija and Semjase declare that you are not in contact with any terrestrial human being or in any other way connected with any of them, apart from me. As Quetzal once explained to me, you, who we have just named by name, do not exercise any impulse-contacts in any way, which are unconsciously taken up by Earth-men etc., because such impulse-contacts are made solely by apparatuses, because these are not subjected to any feelings and emotions etc., as is the case with humans.

**Ptaah:**

108. Yes – your words correspond in every detail to the circumstances.

**Billy:**

The mentioned liars, swindlers and cheaters as well as several unnamed ones unfortunately still work around with their lie stories. Also **G. G.** with his fantasy figure Hatoon etc., as I was told by telephone from US America.

**Ptaah:**

109. He is nothing more than an infamous liar and cheater who is fully aware of his lying and cheating.

110. The fantasy word Hatoon is probably just as much a pure invention of his own pathological prestige addiction as all the incredibly stupid scribbling he spreads.

111. The fantasy word Hatoon also does not exist as a name in our language nor in any other language of our Federation.

112. An inquiry by the High Council at the Arahath-Athersata level also revealed that the stupid word Hatoon only exists in the entire universe on earth or in the stories of lies and deceit of **G. G.**, but nowhere else.

... what happened again recently when a cult follower turned up at my house, a member of what is supposed to be a reincarnated Jesus Christ alias 'Christ Sanandaj' resp. 'Jesus Sananda Jmmanuel' spreading messages. She fanatically raked me over the Jesus Sananda Jmmanuel nonsense and wanted to get me on her cult side, which is why I think it may well be necessary for something to be done in the way you say. The woman brought me 2 more books entitled 'And they called him Jmmanuel' ('I am Sananda'), and 'Space – Gate' ('The Veil is removed') Nos. 2 and 3 from the PHOENIX JOURNAL. In one of the books it is mentioned that in Chapter 5 of a Phoenix Journal it is written by this Christ Sananda what an imaginary Plejaren commander named Gyeorgos Cweres Hatonn is supposed to say in the so-called Phoenix Journals, and I will read some of that to you here: ...

...

**Ptaah:**

165. This sect is known to me, but not their books and journals, etc., which is why I am unfamiliar with what has been read aloud, which I find extremely stupid and full of lies and deceit.

**Billy:**

For me it is absolutely clear that this 'Jesus-Sananda-Jmmanuel-Sect' resp. the originator of the whole thing has stolen my materials of the 'Teaching of Truth, Teaching of the Spirit, Teaching of Life' and transformed them according to his own sense and is now spreading everything under the direction of the present sect leadership ...

**Billy:**

... But how is it that you have so many names that you call unknown to you?

**Semjase:**

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

#### **Billy:**

... Here, these are two photos that I have received from Wendelle Stevens. As you can see, it concerns two model heads. Can you tell me whether any human life-forms are known to you that look like these pictured heads?

...

#### **Semjase:**

55. This model is also built on lies and deception, but this fraudulent picture belongs to a person who lives about 8,500 kilometres away from the one who professes to the green picture fraud.
56. Also this person, through whose initiative this whitish-brown model head has originated, has no contacts to exhibit with any other intelligences than the Earth-humans.

...

70. They belong to the group of those who seek recognition and who are, at the same time, blinded, starry-eyed idealists.

71. And in the madness of their activities, they are so rich in imagination that they know to perfect their deceitful machination so that they can work certain things of reality of everyday life into their deceptive machination of untruth.

72. Thus, one of the two deceptive persons even knows how to get names and all kinds of data of people anywhere on the Earth through investigations and acquaintances, etc., in order, then, to evaluate these things in the way that the deceitful person who has these data approaches gullible people with the assertion that he has been handed these data or that they were transmitted to him by extraterrestrials or otherworldly life forms, and this, of course, along with more lies and fanciful assertions.

73. Then, if these gullible ones investigate the information and find it confirmed, then they misguidedly believe in these assertions and suppose that the deceitful person really has contacts with extraterrestrial intelligences or otherworldly life forms, etc.

**Billy:**

Aha, there I can remember. Wendelle Stevens, indeed, came to me with such a story. There should be an American who wants to have contacts with otherworldly ones or extraterrestrials. Now, one of these life forms is supposed to have given this man information about a Swiss and his family; the Swiss should be named Kobler or something similar and should live somewhere in or around Zurich. The alleged American contactee now claims that this alleged otherworldly being or extraterrestrial life form told him that the Swiss is the brother of a wannabe contactee and that they should, in turn, find themselves in this world, etc.

...

And how did this wannabe contactee receive the information about the Swiss?

**Semjase:**

76. The Swiss is a very busy man and travels a lot and with pleasure.

77. He deals a lot with music and often travels to many countries, including America.

78. Thus, his name became known in certain circles, by which the alleged American contactee learned from a friend the name of the Swiss, including other important family data, etc.

79. Then, with a little investigation and effort, the alleged contactee got to know all interesting facts about the Swiss, after which he then began to spread his fairytale.

**Semjase:**

20. It was on the 19th of September 1961 in the mountains of New Hampshire in the USA during the night-time, when two Earth-humans named BETTY HILL and BARNEY HILL, a couple, encountered a spaceship of extraterrestrial origin.

21. By means of swinging waves paralyzers, the intelligences put their vehicle, an automobile, out of order and brought it to a standstill.

22. At the same time the two were put into deep hypnosis by telenotic powers.

23. As a result, their consciousness was paralysed, whereby the memory-conscious was exposed to a blockade.

24. However, I have already explained this to you earlier on.

25. The purpose of this procedure of the intelligences had no malicious forms whatsoever, because their aspirations lay only in the exploring of the Earth-human life-form.

26. So they seized the two Earth-humans for the period of 127 minutes, brought them into their spaceship and subjected them very precisely to their tests and analyses, whereby they also took various samples from the two, such as a few drops of blood, male semen, hair, saliva, fingernails and skin.

27. However, samples were also taken of shoes and clothes, but also of various other things that were of importance for the analysis by the intelligences.

28. Everything was registered by them very precisely and radio-photographically recorded.

**Billy:**

I am not familiar with that term; after all, what is radiophotography – I have never heard of it before.

**Semjase:**

29. This is an apparatus, similar to your 35 mm film cameras, by means of which results of physical-chemical analysis can be recorded and photographed in terms of radio swinging waves, whereby the swinging waves directly transform into a creation of symbols due to apparatus-related processes in the recording filter.

...

31. After the analysis of the two Earth-humans, they were brought back into their vehicle, which was freed from the paralysis radiation and released.

32. The deep hypnosis was dissolved in the two, and they continued to drive on without any recollection of the analysis time.

33. They had not the slightest memory of it.

34. Not until later years did they solve the mystery of this event when they were able to reveal their subconscious knowledge through hypnosis.

**Billy:**

I see, but why did you wait until these days before dealing with this matter?

**Semjase:**

35. A new incident, about which I am unfortunately not allowed to talk, has only now necessitated this.

36. Our examinations in the year 1961 revealed that there was nothing to fear from these space traveling intelligences.

37. They are humanoid in form and in fact only did research.

38. Their forms are absolutely human, though their body dimensions are somewhat different from ours.

39. Their size varies between 126 and 163 cm.

**Billy:**

That is interesting – however, now where do they actually come from? What kind of spaceships do they have and how do they cope with our atmosphere etc.?

**Semjase:**

40. They originate from the planetary and star system ZETA RETICULI, as I already explained to you.
41. This system is located at an average distance of 37 light-years from the Earth.
42. Their spacecrafts are similar to our beamships and are extremely well equipped and very suitable for space travel.
43. The atmosphere of their home world is very similar to the earthly atmosphere, so that they can breathe it without great difficulties.
44. However, they are provided with close-fitting filter suits, which offer them protection in a number of respects.
45. To the human beings of Earth I would say that they are similar to the suits given to the fantasy figures Batman and Superman in the comics, except that in this case the face and the whole head are completely wrapped in the suit, whereby the area around the eyes is secured by viewing and protective 'glasses' built into and integrated into the suit.
46. No doubt you are familiar with the fantasy films of French production about a criminal named **FANTOMAS**.
47. If you look at this fantasy figure and replace its eye area with dark protective lenses, you have a pretty good representation of the Zeta Reticuli intelligences in their suits.

...

**Billy:**

Good, but now I would still be interested to hear whether there is anything to fear from the aforementioned intelligences?

**Semjase:**

56. They are peaceful humanoids.

...

62. Of course, they differ from us only in their anatomy as well as in their size and skin color.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

... Then a question about the Hills in the USA, which had been abducted by life forms of extraterrestrial origin, namely by human beings from the area of the stars Zeta Reticuli, 37 light-years away. I believe that you told me at the time that this was correct.

**Ptaah:**

47. Yes. –

48. This forced contact is also the origin of the nonsensical stories and hysteria about the 'Little Greys', which have nothing to do with the truth in any way.

49. The fear and hysteria and the imaginative stories about the 'Little Greys' correspond to a well-managed false propaganda to put certain things in a false light on the one hand and to conceal certain events and machinations on the other.

**Billy:**

What is certain is that there are inhabited planets in the area of Zeta Reticuli, planets inhabited by humans. Does this apply to both Zeta Reticuli 1 and Zeta Reticuli 2?

**Ptaah:**

50. This is true, but we do not maintain any contacts with the local inhabitants, who are not even aware of our existence, which we have been observing for several millennia.

51. However, our interests do not lie in establishing contact with the ways of life of those areas, since they do not yet possess certain forms of development that would be necessary for establishing contact.

**Billy:**

Probably in reference to your directives?

**Ptaah:**

52. That's right.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_424](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_424)

**Ptaah:**

37. What has to be said in respect to the married couple Hill, and all other persons who were allegedly abducted or even medically harmed, or who supposedly had implants implanted, and who under hypnosis exposed these occurrences is, that these occurrences have never happened, and are nothing but illusions, imagination, delusions and deliberate lies, as well as also schizophrenic illusionary products and disturbances of consciousness brought forth through the interference of electromagnetic fields of the Earth, through which unrealities, unreal happenings as well as unreal memories and unreal experiences are caused, but also unreal pain, fear and unreal perceptions and so forth.

38. The disrupted electromagnetic fields of the Earth have been the cause of the untrue memories of the Hills.

39. All these factors will become or could be knowingly or unknowingly manipulated, which means that the hypnotised describe their unreal happenings and unrealities etc. as reality, or that liars and deceivers are able to maintain their deliberate lies and deceit under hypnosis.

40. Hypnosis, namely, is in no means capable of finding out the truth in such or other cases.

**Billy:**

... I got you the books of Jan Holey alias Jan van Helsing. The question now about whether you have studied them and what you think about them, and have you dealt more closely with a clarification concerning this man? He wrote to me once, when he was about 24 years old, claiming megalomaniacally that he had already learned several academic professions and also had contact with extraterrestrials. In Switzerland as well as in Germany, several of his books are banned, which in my opinion are extremely neo-Nazi and anti-Semitic, and whose contents are clearly mumbled together from similar writings and books. He has recently brought another book onto the market in which he now denies these facts and presents everything differently than it really is. At least that'

**Ptaah:**

41. With which you see them in the right light.

42. Our clarifications have confirmed your statements and assumptions.

43. His alleged research is based on assumptions, suspicions and false written works and books, as well as on a rather neo-Nazi anti-Semitic attitude.

44. He has a rather reprehensible attitude in this regard.

**Billy:**

These are clear words. – Well, I, for my part, have not been contacted by him since I had him reply that I do not want anything to do with him, not least because he hides behind the false name Jan van Helsing and cannot stand by his slanderous works and assertions with his real name.

**Ptaah:**

110. The people claim against better knowledge that they would have contacts to extraterrestrials.

111. But everything is just a fiddle, because there is not a single true word in the whole story that is told about them.

**Billy:**

In this respect Jan Holey alias Jan van Helsing also ghosts around, whereby also the 'company Aldebaran' is called.

**Ptaah:**

112. All I can say again is that everything is a primitive fiddle.

**Billy:**

... On the 17th of February 2005, Quetzal and I talked privately about the conspiracy books of various scribblers, such as Zacharia Sitchin, David Icke, Jan van Holey alias Jan van Helsing as well as Andreas von Rëtyi and others. ...

**Ptaah:**

5. All in all, these kinds of nonsensical writings are commercially oriented to make the ruble roll, as you say, so that the scribblers – if I want to use your expression – can fill their pockets with money.

6. The whole of all the conspiracy theories described in all the countless books are based on sheer nonsense, as are the writings in books containing supernaturalism and assertions about the alleged infiltration of earthly governments by extraterrestrials.

7. Conspiracy theories of all kinds, as well as supernatural, occult and esoteric nonsense, are in great demand among the believers in these drivels.

8. In fact, all the many books of this kind are based on silliness, senselessness, folly, as well as blooming and higher nonsense, as you always say so aptly.

**Billy:**

If you will allow me to interrupt, I have a few other terms for the whole thing, such as noble baloney, bullshit, hoey, stupidity and folly, torchlight, ridiculousness, simple-mindedness, gibberish, folly and folly, etc. I would also like to say that, with regard to all this nonsense, there are special bookstores which, for good money, bring the rubbish books among the people, from whom the roaring rubbish is eaten like hot cakes. With very many people on earth the unreal, untrue, fantastic, occult, esoteric, religious, sectarian, supposedly supernatural and supernatural is not only considered to be more than truth and reality, but effectively everything.

**Ptaah:**

9. These are all good terms I will remember.

10. And your explanation hits the truth.

11. Furthermore, these humans are sectarian and esoteric, as well as occult and supernatural, and move in their thoughts and feelings, as well as in their delusional beliefs, in illusory worlds and other unreal imaginings.

12. The entirety of this matter of faith and fantasies has developed into a delusion in them which already moves in schizophrenic forms, whereby they no longer perceive the truth and reality and consequently also can no longer recognise it.

13. And in this delusional form they infiltrate the humans with their absurdities which they imagine and also adopt them from other scribblers which you call 'abkupfern'. [copying?]
14. Thereby the readers of the entire nonsense are seduced to believably accept the lies, slanders, the swindle and the fantasies of these irresponsible scribblers as truth while they assess the reality and the real truth as unrealistic, unreal and as untruth.
15. Belief is just very much simpler than investigating the effective truth through one's own seeking and one's own cognitive work.
16. Furthermore the fantastic and illusory will sooner be accepted by the Earth-humans than even the truth and reality which appears banal compared to the fantastic and illusory.
17. Therefore it is so that standing on the firm ground of the facts, truth and reality is proscribed while the untruthful, fantastic, and illusory and all the swindling, lies, deceit and slander which is bound with it – which, since time immemorial, have always been booming business – effect the Earth-humans like sweet balm which stills the delight and demand for that which is fantastic and illusory.
18. So lying, swindle, falsehoods, deceit and slander are means through which the human allows himself to be very easily beguiled, because everything is only swallowed and does not have to truthfully be contemplated, while the search for the effective truth and its processing is bound with very much effort and cognitive work as well as with a sense for the recognition of reality.
19. However the irresponsible scribblers – who invent the crazy and unreal as well as unrealistic conspiracy theories, copy the entire nonsense from each other and throw everything to their believers as fodder, and therewith earn much money – know exactly that.
20. That is also the case with the books of the hacks named by you who, without conscience, spread their horrendous nonsense of their dim-witted conspiracy theories and thereby lead their faithful readers into error, convey to them a completely wrong picture of the world and hound them into angst and terror.
- ...
22. Truthfully, from the complete contents there are no things at all to name which could be designated facts of truth and reality because basically it deals with nothing other than freely invented fantasies and illusions which are irresponsibly given a coating of truth in order to thereby take those Earth-humans into their power who believe the dim-witted nonsense and allow themselves to be taken prisoner by it.
23. From the entire exposition of all books of such a kind no letter may be considered as true because everything is only built on deception, lies, deceit, slander, fantasies and illusions ...
- ...
27. Yet in every regard believers do not, as a rule, let themselves be impressed by the truth, rather they faithfully remain in the prison which they themselves delusionally imagine because that is simpler than having to grapple with the real truth.
28. The truth is just simply and somehow banal, as you tend to say, for which reason it only addresses humans who consciously use their reason and understanding, while the others, who depend on the fantastic and illusory as well as that which pertains to belief, are not willing to free themselves from the nonsensical and the unreal as well as from their not making use of reason and understanding.

**Billy:**

... But look here, I have a DVD that Michael Horn sent to Christian Frehner. We watched it together. Christian has reservations about the recordings, which also applies to me. Look here, the DVD is entitled 'Capturing the Light, 30,000 feet of proof' {see [Capturing the Light: The Dorothy Izatt Phenomenon](#)}. In my opinion, the woman who made these recordings is schizophrenic, because she claims to receive 'messages' from some beings. But the whole thing is probably based on voices she hears in her schizophrenia. Christian is of the same opinion. And the recordings of the lights she made are, in my opinion, not based on beamships or bio-organic flying objects and therefore not on rods either. Also it is not about earthquake lights or atmospheric phenomena etc., but in my opinion it is about staged photographs with light bodies, but also photographs of the moon etc. Then there are many more images that consist of various light paths, exactly as Dr. Jonas from Vienna made them before my eyes and claimed that they were 'ghost images' and the like. A man from Munich took the same pictures, he also had a doctorate. The pictures were taken by photographing standing light sources of different colours in the darkness, in such a way that the camera aperture was left open and the camera was moved slightly back and forth during the long shot. With Dr. Jonas, I also observed that he closed the camera aperture again, but only to open it again for further exposures with other light sources, thus creating double and triple exposures. And exactly such shots with exactly the same light strip figures can be seen on the DVD. Similar pictures with light strip figures are also created when lights in motion and vehicles with their headlights etc. are photographed during long exposures in the dark. Now I would like, if you have time, that you look at this DVD on my computer and then tell me what you think about it.

...

I see you have obviously seen enough of the DVD already, otherwise you would not be dealing with the magazine. What do you think about what the woman says and about the photos and films?

**Ptaah:**

18. The twenty minutes I spent on it, I can only judge in the sense that you have done it yourself.

19. The woman herself suffers from schizophrenic hallucinations or sensory delusions in relation to her hearing voices, which are not based on reality.

20. In addition, she succumbs to a need for recognition, which she tries to conceal by deliberately falsely stating the opposite.

21. The proof in this respect can be found in the fact that she has shown her 'evidence films' and 'evidence photos' around in order to attract attention.

22. If she were not in need of validation, she would not have done so, just as she would not have taken the photographs, which in fact look very much like lights being positioned, partly moved and filmed in the dark.

23. And those sequences which you call light strip figures are undoubtedly the same as those which were partly faked in your presence by Dr. Jonas from Vienna and the man from Munich.

24. I have very fond memories of these pictures, so I can define the pictures of the woman taken without a doubt as the same kind.

25. I find it regrettable that so called 'experts' got involved in the matter, which gives completely wrong impressions about the whole thing.

#### **Quetzal:**

22. That is also known to me, also that he *{Karl Graf}* was led to you by Sfath's telepathic impulses and that he spoke about you with his friend, Carl Gustav Jung, whom you later became acquainted with in Zurich, when you visited your handicapped sister (Verena) in the Matilda Escher Home, and you made yet another visit to the psychiatric hospital, Burghölzli, where C. G. Jung was visiting.

#### **Explanation**

*Teacher Karl Graf, with whom the little Eduard (Billy) visited during the first three school years, was not only one of Eddy's great friends, but he also stood on friendly terms with priest Rudolf Emanuel Zimmermann and with the well-known psychologist and psychiatrist, Professor Carl Gustav Jung. Karl Graf had been enlightened by the little Eduard in reference to his contacts with the extraterrestrial Sfath and, as proof, even once received the opportunity to be allowed to observe his aircraft, with Sfath's permission, in 'Erachfeld' in Bülach, when Eduard went to a contact. A contact with Sfath was excluded, but the experience was enough for the teacher to promote, from then on, the scholastic progress of the boy entrusted to him, also partly in his spare time on a private basis. At the same time, it could not fail, of course, that Karl Graf was faced with many questions from Eduard, which he also answered, faithful to his knowledge and understanding. If he could not do this, however, especially when it came to strictly psychological and life-related matters, then he contacted his friend, Professor Carl Gustav Jung, to whom he had reported of Eduard, as well as of his sighting experience regarding Sfath's aircraft. The professor saw no reason in Karl Graf's remarks not to accept them as truth, as he also found no reason in them not to take a stand and not to let Eduard's questions go unanswered. Interested in the boy, who asked such profound questions, he requested a photo from the teacher, in order to be able to make himself a mental picture of Eduard. Teacher Graf procured the photo and handed it over to the professor for examination, who made himself an exact mental image of little Eduard. He also told his little niece, Lou Zinsstag, of the young Eduard, which was the real impetus for the fact that she became interested in extraterrestrials and their aircraft and that she began to strive in the course of her life for all attainable photographic and written material and became a world-renowned UFO researcher, who did not let herself be easily deceived. ... Still as a young lad, Billy got to know Professor Carl Gustav Jung personally. At the same time, the personal acquaintance came about through a happy stroke of fate, whereby the following happened: Together with his mother, Billy, at that time still Eduard, visited his sister Verena in the Matilda Escher Home in Zurich, who had been severely physically disabled since her birth and who had been staying there. From there, he set out on his short trip down to the psychiatric hospital, 'Burghölzli', where he still wanted to pick up an acquaintance, who visited her sick father there. As Eduard was waiting for the acquaintance in front of the main entrance, a man unexpectedly came to him and asked if he was, indeed, Eduard, the former student of Karl Graf.*

*He had seen a picture of him that the teacher had shown to him, and as far as he could tell, not much had changed. He was Professor Jung, the friend of the teacher, the one who had always answered the difficult and unusual questions for him. This resulted in an intensive conversation between the two, which lasted for 46 minutes, and it was finished when the acquaintance, for whom Eduard had waited, stepped out of the main entrance. After the dismissal, Professor Jung and Eduard went their ways and never met again.*

**Sfath {1945}:**

51. You have been working on this for years, just as I teach you, which means that your manner of speaking and pronunciation, both spoken and written, is already above average today, which is why your teacher Karl Graf, together with the doctor and psychiatrist Carl Gustav Jung, often talks about your questions when they meet in Küsnacht or in Zurich, and explicitly only because of you.

**Eduard:**

Yes, I know, on one occasion I recently met Mr Jung at the Burghölzli Psychiatric Clinic in Zurich when he was visiting or picking up someone there. I met him not far from the Burghölzli when I was visiting my severely handicapped sister Verena in the Mathilde-Escher-Heim together with my mother, as you know.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_719](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_719)

**Billy:**

I also worked out Sfath's predictions at that time and wrote them as appeals, which were then corrected by my two teachers, Karl Graf and Gustav Lehmann, and together with Pastor Zimmermann were also translated into English and French and typed up. With the help of my teacher Gustav Lehmann, I was then able to reproduce everything with the school's reprinting machine and send it worldwide to hundreds of media, namely newspapers, magazines, radio stations and important organisations all over the world, for which both teachers and Pastor Zimmermann provided me with the necessary addresses, to which Professor Jung also contributed some. That everyone was fully on my side was arranged by your father Sfath with Pastor Zimmermann, who in turn agreed with my first teacher, Karl Graf, and then also with Gustav Lehmann, to help me. However, I was only told that my teacher Karl Graf was also in contact with Professor C. G. Jung and that he approved of all the activities and also contributed financially to everything when I had finished the sixth grade and had to go to teacher Fehr in the seventh grade. Pastor Zimmermann and my teachers Gustav Lehmann and Karl Graf supported me in every way, but I was not allowed to talk about it because silence had to be maintained. If the whole thing had become public knowledge at that time, there would have been a huge row in Bülach among the municipal authorities, the school authorities and the church authorities, and certainly also among the population, and all three would have been frowned upon and ostracised and removed from office. What would have happened to Professor Jung, moreover, would probably have been that he would have been labelled a madman. Everyone's help was extremely important, also with regard to the purchase of the envelopes and the postage, which all three of them and also Professor Jung paid for, because I myself had no money and could not have paid for the whole thing. Today, however, I think I am allowed to talk about it and openly say how and what everything was back then, because all those involved have long since passed away, as have their wives and direct descendants.

...

**Ptaah:**

88. This, while you already in the 1940s and 1950s, with the help of your comrades-in-arms – your two teachers, Pastor Zimmermann and Professor Jung – drew the attention of hundreds of media, radio stations, newspapers, magazines, authorities, governments and organisations

worldwide with your predictions to what is now happening worldwide and fulfilling your predictions.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_725](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_725)

**Ptaah:**

95. The records show that Father Zimmermann on the one hand concealed his contact with my father, Sfath, you and Professor Jung from his entire family, as was also the case with your two teachers Graf and Lehmann.

96. Without your knowledge and without the knowledge of his family, Pastor Zimmermann arranged a collaboration with Professor Jung, both of whom, together and with the help of teacher Graf, translated your prediction into English in 1949.

97. My father investigated and worked out the presidencies of the USA, namely their 10, by means of advance visits of the period from 1950 to 2000, for which purpose your prediction, completed by the three of them, i.e. Pastor Zimmermann, Professor Jung and Teacher Graf, into the English language, was closed and sealed in ten individual document packets.

...

119. Then I want to interrupt you – excuse me – and go back to the previous topic, namely the predictions that were made available to the presidents of the USA by my father.

120. These presidents were not the only ones, because your predictions were sent worldwide to all government offices of all states on Earth at that time.

121. And in this respect Professor Jung also acted of his own accord, for he was acquainted at that time with 6 Federal Councillors of Switzerland, and to them he also sent everything, and according to my father's records these were the following names: Karl Kobelt, Rodolphe Rubattel, Max Petitpierre, Ernst Nobs, Enrico Celio and Eduard von Steiger.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_727](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_727)

**Ptaah:**

20. I also understand the incident at the barn in the Erachfeld, when my father's {Sfath's} flying apparatus was allowed to be seen and touched by the teacher Graf, which corresponded to a purpose and whereby your teacher received a mental inspiration from my father.

21. This was directed towards teacher Graf confiding in his school colleague teacher Lehmann according to his experience and the urging 'whispered' into him by my father, and also explaining to him that you would repeat the 4th grade with him because teacher Frei would bully you, beat you and put you back another year in the school grade.

22. And as my father explained, he came to this solution because he realised through observation and looking into the future that teacher Lehmann was secretly preoccupied with astronomical findings and was thinking that human life could exist on Mars just as it did on Earth.

23. He was very preoccupied with it because he had heard about a very realistically staged science fiction radio play in America called 'The War of the Worlds', which had been invented by an Orson Welles.

24. This radio play, broadcast over the airwaves in America, aroused fear and panic among the population of the city of New York and also far and wide about an invasion from Mars.

25. Teacher Lehmann, however, did not believe that the Martian inhabitants could be malicious beings, just as he also did not take the radio play seriously, but he thought about the possibility, as I have already said, that human beings could actually live on Mars as they do on Earth.

26. The two teachers Graf and Lehmann then got together for a joint consultation and followed secret instructions that my father transmitted to them by inspiration, whereby teacher Graf encouraged you in the 3 school years that you spent with him from the 1st to the 3rd grade.

27. And since he was also a friend of Professor Jung, he also made an effort to put many of your questions concerning psychology to him, which he himself could not answer.

28. He also let him in on everything that was going on, so this man was also very well informed about you, but he held back and did not talk about it openly, but only with teacher Graf.

29. But when it happened – because you had gone from the Mathilde Escher Home, where your mother was with your severely physically handicapped sister Verena, that you had gone down to the Burghölzli Clinic in Zurich, because **my father {Sfath} ordered you to do so, as he also did with Professor Carl Gustav Jung** -, that your acquaintance came about, then the development began, that on the one hand your two teachers Graf and Lehmann, as well as also Pastor Zimmermann, were contacted in person by my father Sfath, informed and variously enlightened and instructed.

30. It also came about through Professor Jung that after his passing in 1961, towards the end of the 1970s, his niece Lou Zinsstag came to you, who dealt with the so-called UFO phenomenon that had arisen worldwide, which a man in America named Kenneth Arnold had raised as a result of observing flying objects unknown to him.

...

36. Your acquaintance, which my father Sfath arranged, was only a small part of what he did, for he also did a lot with your two teachers Karl Graf and Gustav Lehmann, which he also concealed from you.

37. He ordered both of them to the barn in the Erachfeld, and ordered them together into his flying apparatus, which you call the 'Pear' spaceship, in order to fly with them around the Earth and also around the Earth's moon during a flight lasting several hours and to inform them about your mission.

38. He further instructed both of them regarding the reality of creation as well as the falsity of religions, as he also informed them – as was the case with Pastor Zimmermann – that you would suffer terrible slander and be harassed by the school authorities etc. throughout your school years and also for some time afterwards as a result of slander.

39. My father also taught them how the falsity of religions and the faith of Earth-humans came about.

40. Through all the teachings, both teachers caused themselves, as was also the case with Reverend Zimmermann, to turn to the truth from then on and to be helpful to you in a secret way.

41. However, they had to commit themselves to conceal their experience, their received teachings and information as well as their task from the outside, and also that external forces such as ... would not be able to perceive anything that ...

42. So it was incumbent upon all of them, the two teachers, as well as Pastor Zimmermann, to remain silent, because on the one hand they would have forfeited their reputation and their livelihood by making an announcement, and on the other hand they would not have been able to provide the necessary help for you, but furthermore also with regard to ...

43. This is a brief account of the events that occurred in connection with Pastor Zimmermann, Professor Jung and your two teachers Karl Graf and Gustav Lehmann.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_733](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_733)

**Ptaah:**

41. But I may now speak about what I had already mentioned on the 30th of November, which my father had already announced to you in 1945 that the niece *{Lou Zinsstag}* of Professor Carl Gustav Jung, whom you met in July 1945, would come to see you in the 1980s and then immediately tell Wendelle Stevens about you and he would come to see you immediately.

**Billy:**

... Consequently, they are also unable to grasp the true origin and reason, precisely why the climate is changing dangerously and will henceforth bring immense destruction, extermination

and death, as I predicted from the 1940s and 1950s onwards. At that time I was able to send everything in German and English to all well-known public media, such as radio stations, newspaper and journal editors, as well as to all governments, thanks to the energetic translation and financial help of Pastor Zimmermann, Professor C.G. Jung and my teachers Karl Graf and Gustav Lehmann, but I never received any response, nor was anything ever published. Later, however, then in the 1950s, an editor or journalist of the 'Limmattaler Tagblatt' took one of my predictions, rewrote it and published it under a different name.

*{Note: see Contact Report 475.}*

**Billy:**

... Then I want to say something again about the Corona plague, about which I already wrote predictions in the 1940s and 1950s and sent them to newspapers, governments and various organisations worldwide, with the tremendous support of Pastor Zimmermann, Professor Carl Gustav Jung and my two teachers Graf and Lehmann.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_757](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_757)

**Ptaah:**

... You wrote this *{Corona epidemic}* as a prediction to the leaders of Switzerland as a 10-year-old boy in the 1940s, because even then you were well educated in written language, because my father and your teachers taught you exceptionally well. Even though they assisted you in formulating and writing your predictions and put your work into the correct version, you are still to be named as the author.

Your letter was written in several languages, with the help of your two teachers Graf and Lehmann, Pastor Zimmermann and Professor Jung, consequently everything was sent in this way worldwide to governments, journals, newspapers, various organisations and radio stations, as I was able to see from my father's *{Sfath's}* annals and search out the whole thing because you asked me about it.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_759](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_759)

**Ptaah:**

Because teacher Graf often talked to you about your mission and you often brought questions of a psychological nature to him, which he could not answer, he sought the acquaintance of the pastor's son Professor Carl Gustav Jung, which Pastor Zimmermann arranged for him by also contacting him and initiating him into the whole of your mission. He also committed himself to lifelong silence and stood by teacher Graf regarding your questions, which they discussed together, after which teacher Graf could then answer them for you after days or weeks.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_783](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_783)

**Billy:**

The ignorant – even if they call themselves scholars and scientists – with their big and 'all-knowing' mouths always know more than those who really know and who know from experience. Unfortunately, there is no cure for know-it-allism on Earth, and besides, those who are officially 'studied' and know everything 'better' are always right than the 'unstudied', who are not the scholars. I have known that since I was a boy, and I still remember how Father Zimmermann, teachers Graf, Lehmann and Professor Jung explained it to me when the five of us sat together and discussed the arrogance of the scientists and other scholars. All four of them said that I should not be bothered by it, but should just accept everything as it is, because arrogant people all over the world are just those who want to know everything better and would never let go of their opinion because they had learned it that way. It is as bad as a religious belief, because once people have become addicted to such a belief, it is very difficult for them to

get rid of it, because what has once become fixed in the human beings can break through again even after many decades.

511. ... we do try to be helpful to Earth-humans by making the coming horrors and events visible to many sensitives through visions, and we also include you in these visions.

512. Unfortunately, however, all these sensitives and Earth-humans who have been processed by us with the corresponding vision impulses have in some wise always become slaves to false religions, so that they are unable to recognise anything and attribute our visions, which have been made visible to them, to any deities or cosmic world leaders, etc., although such figures and powers truly exist only in the religiously misguided senses of Earth-humans.

513. Unfortunately, this is also the case with our contact person on the Earth, whom we chose a long time ago in order to visualise the above-mentioned events in particular, which were then to be made manifest through this person, which has already partly happened, but unfortunately also under the aspect that he sees us as cosmic world leaders, divine forces and as an element of punishment, etc., through his religious and therefore lead into the delusionally false attitude.

514. A fact which will again lead to further confusion.

515. Nevertheless, for the time being, we shall continue to impulse this contact with visionary seeing and also transmit to him a picture of your personality, whereby he shall become aware of the real truth.

516. For your part, this shall also be the sign to you that this contact person really receives his visions only through our impulses, if we let the man see the visions in which your person stands in the left southern part of the land of the continent that has come to doom and you call out to him that this part of the continent has become very hot and that henceforth more or less the climate of Mexico will prevail in this area, but the climate will become even hotter.

517. Unfortunately, it is to be feared, which has already happened several times, that he will not recognise the situation of what is happening as well as your person and important details, if he is not able to grasp the exact connections.

518. His thinking and comprehension, unfortunately, do not correspond to higher values than are generally present in Earth-humans, and in addition, there are also delusional belief-based tendencies, springing from religious heresies, which make him overlook or misinterpret many facts, so also the fact of the origin of his visions.

earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

I always thought it was Elisabeth Klarer, because this woman is called DUIST.

#### **Semjase:**

188. We are well aware of her assertions, we are also well acquainted with her character, but today we are not interested in her.

189. For more than a decade we have made efforts for her and monitored her and have found no evidence that she has been or still is connected to any alien life forms.

190. Also the consciousness analysers did not yield any clues, neither did the exploration of the subconscious.

191. The only data resulted in memory factors regarding various irrelevant sightings of their unknown flying ships.

192. Interestingly, however, she seems to have acquired the knowledge about the experiences of Josefina Burkmen, although she does not know this contact person, which is perfectly certain.

193. There is only the explanation that somehow and incomprehensibly she is able to penetrate into the subconscious of Mrs. Burkmen and acquire her experiences, which she then passes off as her own.

#### **Billy:**

So you have no final clarity about this woman Klarer.

**Semjase:**

194. No.

195. But she has not had any contact with extraterrestrials, and that's absolutely certain.

**Billy:**

Aha, but I heard only yesterday that Mrs. Klarer has a 17 year old son of an extraterrestrial man of truly supernatural beauty ...

**Semjase:**

196. ... who logically lives somewhere on a foreign planet.

**Billy:**

That's right, I've been told.

**Semjase:**

197. This is absurd.

198. We know very well that this is not the case

199. The woman is too little evolved in every conceivable sense to be chosen for such undertakings by any extraterrestrial intelligences – if such undertakings were to take place at all.

200. According to her consciousness-based form, the woman is very underdeveloped and lives in semi-religious cult slavery.

201. So such an assertion that she became a mother through an extraterrestrial intelligence comes from an evil falsehood and a confused, abnormal sexual fantasy.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_039](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_039)

**Billy:**

... In particular, you did, indeed, tell me that Adamski was not a contactee, as well as not Michalek or the South African, Elizabeth Klarer. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_060](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_060)

**Kohun:**

... If you hear at a later time such names as Zilar, Menger, Miller and Nelson or Castillo, Siracusa, Schmitt, Bertossi, Renaud and Villanueva or Klarer later on, then you can be sure that these are definitely the names of frauds.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_109](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_109)

**Ptaah:**

16. Excuse the expression, my friend, but this Vorilhon is certainly the craziest swindler in matters of alleged contacts with extraterrestrial intelligences.

17. In his order of magnitude, he even surpasses Karl Michalek, Elizabeth Klarer, and George Adamski.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_249](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_249)

**Billy:**

... But now back again to the alleged abductions of earthlings by extraterrestrials: Especially in America and South America and recently also in Germany such assertions occur again and again, whereby various attempts have been made to prove the 'truth' of the statements by hypnosis. If the assertions were correct, then already more than 3.5 million Earth-humans would have been examination-contacted and many women, particularly Americans and South Americans, would have been impregnated. It is even absurdly claimed that children have already been born from such impregnations, half earthly half extraterrestrial – called hybrids.

**Ptaah:**

154. Everything corresponds to unbelievable nonsense.

155. First, there have been very few incidents of examination contacts for years, and second, there have been no impregnations of Earth women by extraterrestrial intelligences.

156. The so-called hybrids, reported by unreasonable newspaper and journal makers, are nothing more than abortions and mutations of a purely terrestrial nature, which are due to genetic damage, etc., caused by the parents or by environmental influences of a highly harmful nature, which can be very diverse.

157. There is no doubt that at present there are no descendants on earth or anywhere else on earth who have been conceived by extraterrestrials with earth women or by meerkats with extraterrestrial women.

158. Other claims correspond to infamous lies and slander, no matter whether they come from Elisabeth Klarer or from some other lunatics who currently claim this.

16. (unknown) Hans Klotzbach/BRD: (Was called a swindler at a later date.)

**Billy:**

... But how is it that you have so many names that you call unknown to you?

**Semjase:**

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

**Billy:**

Good. Just about 11 hours ago I received a fax from Kopp-Verlag or from the publisher of the UFO courier Jochen Kopp, in which he asked me to give him and a Joachim Koch and Hans Kyborg an appointment on the 27th of June to answer their questions about slander by my wife, B. and Korff. Since I do not know these people and I am not willing to have to make unworthy efforts in the form of an account, I asked Michael for advice and received the answer that these two types, Koch and Kyborg, were crop circle manufacturers and claimed that they had contact to beings of the Orion star formation. Now the question whether you know anything about these two, Joachim Koch and Hans Kyborg?

**Ptaah:**

...

27. In the case of the aforementioned, however, we have knowledge of their machinations, which are all of an idiosyncratic character and therefore have nothing to do with truthful events in the form of contacts or messages.

28. These are therefore only stories, etc., which are made up by the two themselves.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_269](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_269)

**Billy:**

But I have one more question, which does not refer directly to the conversation and the two report pages, but to the two crop circle manufacturers, as you called the Germans Joachim Koch and Hans-Jürgen Kyborg. Do the two now actually receive answers to their falsified crop circles or crop circle pictograms and are they actually connected in this form with extraterrestrial intelligences or do they transmit answers to the two via real crop circle pictograms?

**Ptaah:**

41. No, neither one nor the other is the case.

42. The two have neither contacts to terrestrial nor extraterrestrial beings through crop circles, nor do they receive any answers to forged pictograms.

43. All their actions and speeches as well as their assertions and book writing correspond nothing else but to a self-invented fantasy, and in the way it is raised and handled, nothing else but a fiddling and charlatantry.

**Yoshi Kozakura**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_236](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_236)

**Ptaah:**

88. Also guilty for this is Yoshi Kozakura, who, in Japan, has succumbed to liars, swindlers, and deceivers and who has become disloyal to you and to the true teaching.

89. Moreover, guilty are all of those around him, whom Yoshi Kozakura deceives with alleged contacts with us and other alleged extraterrestrials and alleged higher spirit-forms.

...

98. A residual group of the now-dead Ashtar Sheran, who finally concluded his life in the DAL Universe, felt obliged to be active as avengers of their former lord and master.

99. And since they thought that they could avenge their dead master most impressively if they would nip the teaching of the truth on Earth in the bud, they placed malicious, negative impulses in several of your friends, which made them become disloyal and enslaved to swindlers, deceivers, and liars, as in the case of Yoshi Kozakura and a few others.

...

**Billy:**

... I find it somewhat depressing that Yoshi Kozakura is slowly but surely losing her sense of reality and wandering down some pretty nasty and delusional paths. She moves further and

further away from the truth, biased and blinded by the liars and deceivers who pretend that they would have important information from allegedly higher spirit-forms and allegedly from extraterrestrials for her. Apart from a few misdirected ones, most who are informed know that this just concerns lies and deception and a large-scale swindle. But why, exactly, Yoshi Kozakura falls for this is a mystery to me. But anyways, I wish her all the best and just hope that she will soon open her eyes and recognise the full truth through this, so that she can find her way back to this same truth again and rediscover the path of truth she has begun. But now, to my actual question: Yoshi Kozakura is badly influenced in swindler-like, mendacious, and deceitful forms, namely by several untruthful and deceitful degenerates. At least three of these are of some significance with regard to incredible, mendacious, and deceitful influence. As I was told from Japan, one of these persons of lies and deceit is a woman by the name of EMIKO. This liar and deceiver now maintains that she has contact with a life-form from the Pleiades, whose name is Alan or something similar. Can you now tell me what this name means, if it exists at all? Furthermore, I know very well that all allegations of this woman Emiko are nothing but sordid and monstrous lies as well as malicious fraud and just as malicious swindle.

**Ptaah:**

225. Your words correspond to the pure truth.

226. All assertions that Yoshi Kozakura and many other human beings make, in reference to alleged contacts with us or with other life-forms than those on Earth, are based on nothing more than incredibly unscrupulous lies and on deceitful, swindler-like machinations.

227. You alone are an exception to the truth of this.

228. This also refers to messages from beings that are foreign to the Earth, which are transmitted to the human beings of the Earth.

229. Also in relation to this, you are the only prophetic power and the only power at all, who is currently living on the Earth and who is capable of fulfilling this task.

230. This was already explained by the high spirit levels, Arahat Athersata and Petale, who have absolute control and knowledge of all these issues and possibilities on the Earth and throughout the whole Universe.

231. Thus, Yoshi Kozakura also does not have any capabilities for any contacts that would be other than material contacts and contacts with the Earth-humans.

232. Also, there are currently no other human beings on the Earth who would have such capabilities, besides those who are known to you.

233. Therefore, Yoshi Kozakura also has no persons around herself or in her circle of friends, who would be medium-talented in such a wise that they could have contacts with any beings and life-forms that would be of a different nature than just those that are of a purely terrestrial and material origin.

234. At present, such capabilities are available to no one on the Earth or even in an understood development, except with those whom you know and honour as genuine.

235. Apart from the few initiates, you are actually the only life-form who currently has such capabilities.

...

237. And after you and the few others, some centuries will pass on this planet before the next person on Earth will have come so far that he/she can step into contact with life-forms that are other than material and terrestrial.

238. Now, concerning the name ALAN, or even what this word should be, it is to be understood that this is only a deceitfully invented word formation, which holds no significance or meaning in itself.

239. This word form also cannot be found in our language or in any language known to us, and we know of and have stored more than 3.7 million languages in our entire field of knowledge and understanding.

240. You already informed me of this word formation, ALAN, during my last visit, so in the meantime, I could make sure that it exists in no language known to us.
241. Consequently, a group of specialists in Japan tried to get to the bottom of this, whereby it arose that the word formation ALAN is a pure, imprudent, and mendacious invention of fraudulent and cunningly dishonest Earth-humans, whose evolutionary states lie within the lower areas of the lowest earthly states.
242. The specific word formation, ALAN, which is used as a name for fraud and swindle, does not appear in the entire Universe that is known to us, but now, that does not necessarily mean that names of similar forms are not well-known to us.
243. So for example, the names Alaan, Aaland, Allan, Alann, Aljon, A'Lan and Nala exist in different languages known to us, with this last name representing the reverse form of the crazy word formation, ALAN.
244. The meanings of these names, however, are all very negative, which is why they only find use with humans who live in degeneracy and only exist with human beings whose development and compliance in matters of truth and true evolution are still on primitive levels.
245. Thus, the meanings of the names are also accordingly primitive, just as Alaan means 'the One who is Contrary to Truth'.
246. Aaland means 'the Twister of Truth'; Allan has the meaning of 'the Despiser of Truth', and Alann stands for the worthlessness of 'the Hater of Truth'.
247. The name Aljon has the meaning of 'the Destructive One', while A'Lan means 'the Deceiver'.
248. Nala, the name that would result from the reversal of ALAN, has the meaning of 'the Liar'.

Interesting but also enlightening, because it makes it clear that neither an F. B., a P. L., a G. G. or a R. As Quetzal once explained to me, you, who we have just named by name, do not exercise any impulse-contacts in any way, which are unconsciously taken up by Earth-men etc., because such impulse-contacts are made solely by apparatuses, because these are not subjected to any feelings and emotions etc., as is the case with humans.

**Billy:**

That is clear, but do you know a work by a certain Gloria Lee, and what is the reason for it? Unfortunately, I do not know it myself, but I can get it for you if you need it.

**Semjase:**

154. It's familiar to me from the other side.

155. But it is not a work, as you assume, but only a scripture.

156. But this has been spreading worldwide for some time now.

157. On a large scale it is a valuable scripture which you should also read and study – even if it is not able to convey new things to you in any way.

158. On the other hand, however, it presents things which are unreal and unreal in every form, especially those places which concern the divine spheres.

159. But as I said, Scripture is generally good and recommendable, at least for human beings who are still searching for the way of truth.

160. For more sophisticated forms, however, it is completely worthless, but only interesting.

161. The typeface is not based on any inspirational form, but represents the product of the author's own thinking.

162. It did not take place through an inspiring transmission, but arose from the thoughts of the writer.

163. In ignorance of spiritual truth and functions, however, the person was subject to self-deception and declared his writing inspirational.

164. Nevertheless, I would like to explain again that Scripture is valuable for human beings who are still searching, but only if they exclude certain things which are capable of producing unreal forms of thought and therefore also lead astray.

165. An understanding guidance in working through this scripture would therefore be appropriate.

**Billy:**

Thank you, Semjase. It was at length again. A group member has reproduced this work, or rather this writing, because they found it good. That is why I asked you for it. So that's how you think they're supposed to be spread without worrying?

**Semjase:**

166. Only under the reservation that an understanding guidance is helpful when working through, otherwise the scripture would lead like many others to unreal forms of thinking, although it can be regarded as a great exception.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_024](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_024)

**Billy:**

... It is about the fact that e.g. in Gloria Lee's writing Saturn beings are mentioned. In other writings, however, apart from Saturn beings, Uranus beings etc. are also mentioned. Now that you know these planets, can you explain to me whether there are really any forms of life there that live their existence?

**Semjase:**

78. I know all those writings you left me to study.

79. In these books, writings and works, however, I have only come across evil nonsense in this respect.

80. The forms of life etc. described in it do not correspond to any reality and no longer represent anything more than abnormal fantasy figures.

81. On the other hand there really are life forms there, but they are of completely different values than the man on earth imagines this to be.

82. With absolute clarity it can also be said that until the hour I give you this explanation, the beings of these planets have never been in contact with human beings of the Earth and cannot be, because they are of the lowest form, like viruses, bacteria and microbes, etc.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_028](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_028)

**Quetzal:**

3. First and foremost, this is the factor of the book or rather the writing by GLORIA LEE.

4. Semjase explained very clearly with regard to this writing that in its distribution an appropriate and purposeful guidance should be prepared and attached to the writing, because this is absolutely necessary for the clarification.

5. But as we now established during our investigations, Hans Jacob had already begun the spreading of this writing, without the addition of the aforementioned guidance.
6. This now throws an evil aspect on the truth and awakens false impressions and new heresies in many human beings.
7. Semjase explained in well understandable words that the writing is the pure product of the author and has no connection with any extraterrestrial life forms.
8. The writer, very imaginative and influenced by various factors, was subject to a self-deception which she unconsciously evoked herself as a result of excessive imagination.
9. The writing itself is so valuable that it is able to give human beings of average consciousness-based standing of your world a certain impression and possibilities in various relationships, although it only seems interesting for already enlightened and knowledgeable Earth-humans, but disappears in complete insignificance.
10. Gloria Lee, as the author of the script is called, has never been in contact with any life forms that surpassed her own norm.
11. The whole work is merely a product of her own thought processes and fantasies, which she has, in part, very skillfully combined in combinations and was consequently able to name future provisions, but which could not apply in different phases because she had assumed wrong premises.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_029](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_029)

**Semjase:**

149. From my side, I clearly explained to you that Gloria Lee's writing should only be spread under an appropriate guidance or explanation.
150. But this provision was contravened, which is very unhelpful for the whole thing, because in this writing things are mentioned which do not correspond to the facts.
151. For the unenlightened it is quite a good paper, but it represents a certain danger factor if the necessary explanations are not given.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Ptaah:**

1071. Those misled by false doctrines and false teachings are guilty only of unconscious self-deception and act in good faith – even if that is alien to reality.

**Billy:**

So this would have been the case with Gloria Lee as well?

**Ptaah:**

1072. She is a good example of such self-deception.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_034](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_034)

**Semjase:**

9. On the other hand, however, these details, as you have just mentioned them, correspond to a certain knowledge of the real events surrounding Gloria Lee.
10. I myself explained to you on several occasions that her work was self-inspired, and indeed in the belief that she had been inspired by a Jupiter being.
11. So this is an unconscious self-deception.
12. This was possible because Gloria Lee had been very misled by her environment and lived in an extremely religious and sectarian mystical world.
13. Mysticism of this kind is not good for finding the truth, at least not in the sense in which it is used by Earth-humans in connection with their unreal religions.
14. Gloria Lee, however, could not know this, for she was never taught the truth.
15. She was only able to recognise this when she left this world.

16. Through her experiences and many books she gathered a certain knowledge and made great combinations.
17. Through these she was able to construe many coming events, which she also wrote down in her work.
18. Many things are very aptly named in it and are also of importance, but they do not represent any transmissions from any Jupiter beings or other life forms.
19. They are solely the work of her own thoughts, which, however, she was able to direct along very good and even admirable lines.
20. Thus her work represents something valuable for searching human beings in the beginning of the search for truth, which becomes a guide in various aspects.

101. This was also the real reason why he *{Hans Frei}* maliciously and unjustifiably gave you such low marks and bad grades in school that you had to repeat the fourth grade with Gustav Lehmann, the teacher with whom you completed the next three years of school and who received groundbreaking impulses from my father *{Sfath}* to encourage you and also to be helpful to you for your first book on the teaching of meditation.

#### **Ptaah:**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_727](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_727)

#### **Ptaah:**

20. I also understand the incident at the barn in the Erachfeld, when my father's *{Sfath's}* flying apparatus was allowed to be seen and touched by the teacher Graf, which corresponded to a purpose and whereby your teacher received a mental inspiration from my father.

21. This was directed towards teacher Graf confiding in his school colleague teacher Lehmann according to his experience and the urging 'whispered' into him by my father, and also explaining to him that you would repeat the 4th grade with him because teacher Frei would bully you, beat you and put you back another year in the school grade.

22. And as my father explained, he came to this solution because he realised through observation and looking into the future that teacher Lehmann was secretly preoccupied with astronomical findings and was thinking that human life could exist on Mars just as it did on Earth.

23. He was very preoccupied with it because he had heard about a very realistically staged science fiction radio play in America called 'The War of the Worlds', which had been invented by an Orson Welles.

24. This radio play, broadcast over the airwaves in America, aroused fear and panic among the population of the city of New York and also far and wide about an invasion from Mars.

25. Teacher Lehmann, however, did not believe that the Martian inhabitants could be malicious beings, just as he also did not take the radio play seriously, but he thought about the possibility, as I have already said, that human beings could actually live on Mars as they do on Earth.

26. The two teachers Graf and Lehmann then got together for a joint consultation and followed secret instructions that my father transmitted to them by inspiration, whereby teacher Graf encouraged you in the 3 school years that you spent with him from the 1st to the 3rd grade.

27. And since he was also a friend of Professor Jung, he also made an effort to put many of your questions concerning psychology to him, which he himself could not answer.

28. He also let him in on everything that was going on, so this man was also very well informed about you, but he held back and did not talk about it openly, but only with teacher Graf.

29. But when it happened – because you had gone from the Mathilde Escher Home, where your mother was with your severely physically handicapped sister Verena, that you had gone down to the Burghölzli Clinic in Zurich, because my father ordered you to do so, as he also did with Professor Carl Gustav Jung -, that your acquaintance came about, then the development began, that on the one hand your two teachers Graf and Lehmann, as well as also Pastor Zimmermann, were contacted in person by my father Sfath, informed and variously enlightened and instructed.

30. It also came about through Professor Jung that after his passing in 1961, towards the end of the 1970s, his niece Lou Zinsstag came to you, who dealt with the so-called UFO phenomenon that had arisen worldwide, which a man in America named Kenneth Arnold had raised as a result of observing flying objects unknown to him.

...

36. Your acquaintance, which my father Sfath arranged, was only a small part of what he did, for he also did a lot with your two teachers Karl Graf and Gustav Lehmann, which he also concealed from you.

37. He ordered both of them to the barn in the Erachfeld, and ordered them together into his flying apparatus, which you call the 'Pear' spaceship, in order to fly with them around the Earth and also around the Earth's moon during a flight lasting several hours and to inform them about your mission.

38. He further instructed both of them regarding the reality of creation as well as the falsity of religions, as he also informed them – as was the case with Pastor Zimmermann – that you would suffer terrible slander and be harassed by the school authorities etc. throughout your school years and also for some time afterwards as a result of slander.

39. My father also taught them how the falsity of religions and the faith of Earth-humans came about.

40. Through all the teachings, both teachers caused themselves, as was also the case with Reverend Zimmermann, to turn to the truth from then on and to be helpful to you in a secret way.

41. However, they had to commit themselves to conceal their experience, their received teachings and information as well as their task from the outside, and also that external forces such as ... would not be able to perceive anything that ...

42. So it was incumbent upon all of them, the two teachers, as well as Pastor Zimmermann, to remain silent, because on the one hand they would have forfeited their reputation and their livelihood by making an announcement, and on the other hand they would not have been able to provide the necessary help for you, but furthermore also with regard to ...

43. This is a brief account of the events that occurred in connection with Pastor Zimmermann, Professor Jung and your two teachers Karl Graf and Gustav Lehmann.

Contact Delusions

#### **Billy:**

... As the only true contactee of the Pleiadians, I have been approached by no less than seventy-one individuals in writing, by phone and FAX over the past twenty years, who contend that they, too, were having contacts with the Pleiadians, namely with Semjase, Quetzal, Ptaah and some Pleiadian fantasy personages. Such claims are pure, unparalleled nonsense, for the Pleiadians/Plejarans have vehemently denied these assertions. Among these liars was an American millionaire, **an American movie actress**, certain doctors, engineers, a priest and many others. More than 30 of these 71 individuals claimed they were designated by Ptaah, Quetzal, Semjase, or somebody else, to pass on extremely important messages to me, as liaisons, so to speak, between my Pleiadian/Plejaran friends and myself. Eleven individuals downright lied and said they were in telepathic, indeed physical, contact not only with Ptaah, but with the High Council, the Petale level and the Arahath Athersata level which, allegedly, also instructed them to give me extremely important messages, etc.

#### **9<sup>th</sup> Question**

...

**{Billy:}**

... Shirley McLaine came to the center for a 5-day visit, from October 2-7, 1981. She had with her Solo, a dark skinned man, Lee Elders, and his wife. During this time she really plied me daily, for several hours, with questions concerning my mission, the Creative and spiritual teachings, universal philosophy, the spiritual and Creative laws and commandments, along with their mode of action and reaction, and so forth. She very neatly wrote down everything we discussed, including all my teachings, and recorded them on audiotape at the same time. She published her subsequent book, *Out on a Limb* apparently stimulated by my teachings and the long, weighty disclosures. However, she did not stick whatsoever to the information, truths, and teachings. Instead, she grossly changed and falsified the teachings and the truth until, ultimately, it had no resemblance to the Creative truth and spiritual teachings anymore. The teaching became pure fantasy, born from sources that are on a collision course with the truth. They are founded on complete ignorance of the truth because they stem from widely-spread sectarian false teachings. After having made many wild claims, it appears, Shirley McLaine had second thoughts and felt uneasy about them, but did not have the courage to tell the truth and to describe her experiences the way they really took place. With a great deal of imagination, she not only changed my name and the location of our conversations and teachings in her book to South America, but gave me a Spanish-sounding, false name. She blew the conversations and proffered teachings out of proportion until they became an untrue, unreal story. It seems she was driven by an urge for fame beyond death. She dreamed up alleged knowledge and information, teachings concerning the spirit lessons, rebirth, and former lives, which have no basis in the Creative-spiritual truth or any truth. I did not give her the slightest hint regarding any of her previous lives, personalities she might have been, or spirit form. Such claims are purely fictional.

Very unpleasant, as well as other things, e.g. in America, where again someone claims to be in contact with energy and light beings from the Pleiades. This time it is a woman whose name I have unfortunately forgotten again, but who is said to have written a book about alleged teachings from the Pleiadians, etc., which will also appear in German and will be a cult book in America.

**Ptaah:**

68. I know that.

69. It is about a certain B. M., who in her madness is also active as a trance medium, but who is truthfully nothing else than a cunning deceiver and fantasist, of the same kind as the American F. B.

70. She mumbles Earth-humans and herself with alleged contacts to an energy collective from the Pleiades star cluster.

71. Truthfully there exist only very young, blue and extremely hot stars, which do not carry any life in any form, neither in gross material nor semimaterial, nor in spiritual form.

72. All the assertions of this deceiver and fantasist correspond to her very own invention and fantasy and do not even have a tiny fibre of truth, except perhaps for a few things which she has acquired from writings in which, to a lesser or greater extent, our contact conversations between you and us have been reproduced – these writings, moreover, being mostly made without your permission, with material stolen from you.

73. And that on the Pleiades there is no life of any intelligent form or other kind, not even as an energy collective or similar earth-humanly invented nonsense, we have an explanation of this on the level of Arahath Athersata, which inquired about it in the highest spirit-form level of all existing high spirit-form levels PETALE and received the answer of it, which Arahath Athersata already knew before, namely that there are actually no intelligent forms of energy or even life forms of any kind on the Pleiades, as is not the case on Venus, Saturn and Jupiter as well as on Pluto, Neptune and Uranus, if microorganisms are excluded.

74. The Pleiades with their approximately 62 million years of life, according to earthly age determination, are still far too young to accommodate life.

75. Moreover, the Pleiades are of the kind that will never carry any life of energetic or material form, for their existence will only be short before they very quickly pass away again and dissolve again into interstellar energy, from which one day gases and new formations will emerge again.

45. In the same league also belong F. B. with his made-up contacts to my daughter Semjase as well as Adrain with his story of lies and the alleged contacts in Florida.

46. We have from our side never had such contacts with human beings on Earth – except those known to you, and only those to your person -, and there are also no such contacts at present, and in the future too no such contacts from any human beings on Earth will materialise with anyone of our peoples.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

**Billy:**

... But since we are already talking about sects, I would like to hear your word about the nonsense that the sect henchmen spout, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contactees, who want to be in physical or telepathic connection with extraterrestrials or other dimensioned ones consistently claim that the extraterrestrial or other dimensioned ones are gods, saints, God's messengers or angels etc., but at least saviors who want to save the people of earth from destruction etc. These claims also exist in relation to you Pleiadians/Plejarans and in particular to you, when I think of the fraudulent claims of those who are said to be in contact with you or with other Pleiadians/Plejarans. I'm thinking in particular of Jani King, Barbara Marciniak, Fred Bell and Penny McLean and their ilk. Of course, Carlos Diaz must not be forgotten either, nor must Siracusa and many others who deal with people other than you. ...

...

**Ptaah:**

70. We Plejadians do not come to earth as gods, angels, saints or the like, and we also do not come to bring salvation, peace, freedom, love, knowledge, wisdom and progress to the earthly world and to earthly men, for all these values must be laboriously worked out by the man of the earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

75. And you too, as our messenger, are not omniscient and not salutary, for knowledge and salvation must be created by man on earth himself.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaren have become the focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

35. (unknown) Dick Miller/USA: (Has been referred to as a deceiver.)

**Billy:**

... But how is it that you have so many names that you call unknown to you?

**Semjase:**

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

**Billy:**

Me? Why? – No. I got it from a gentleman in Germany to get a verdict from you. What do you think of it?

**Semjase:**

11. If that is as you say, then it is quite an evil machination to mislead the Earth-humans.

12. According to the results of our equipment and devices, which are absolutely safe for such matters, it is absolutely certain that the speaker, who falsely calls himself Haton, is without doubt an Earth-human.

13. The speaker has distorted his voice through aids and through slow speaking.

14. My friend Usamine (the watchful one), a specialist in linguistic phenomena, analysed the voice and, with the help of her apparatus, transformed it back into its normal form.

15. The result was guttural tones that are only peculiar to Earth-humans and cannot be adopted or imitated by other forms of life.

16. The vibration meters, oscillometers and vibration analysers also provided clear evidence that the speaker is an Earth-human.

17. With the help of Quetzal, we were even able to locate the vibration of this person – in America.

18. The content of what is spoken rests in malicious nonsense, which can have a dangerous negative influence on Earth-humans.

19. The speaker's assertion that he and his pseudo planet belonged to a federation of 5,000 planets seemed ridiculous to us, but additionally so, because there is much more nonsense.

5. The person is a certain Dick Miller.

6. This man was unknown to me until recently, but he is mentioned by you or your friends in one of the lists.

7. With certainty we can explain to you now however, that he is to be classified as a fraud.

18. Concerning the Monguzzi images, there is only so much to say, that they are based on forgeries.

19. First of all, the alleged figure beside the alleged beamship is just a doll; secondly, even the object itself is just a model.

20. At the time, the man just wanted to allow himself a joke, but he did not count on the reaction of those who fanatically concern themselves with such matters.

### **Guido Moosbrugger**

<http://ufoprophet.blogspot.com/2014/02/announcement-guido-moosebrugger-passed.html#axzz7XuBqQw72>

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_765](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_765)

### **Zafenatpaneach:**

... As early as 1980 Semjase told me that on the 27th of May 1979 you and Guido had contacted Wendelle Stevens in America or in an area far outside the city of Tucson - with whom you had already communicated frequently via a telephone system, but about which you both remained silent until the end of his life, as well as about the fact that Guido was involved in this incident, that he also knew Wendelle Stevens and was allowed to fly in Semjase's flying apparatus. Wendelle Stevens guided you that Sunday to another area called Death Valley, where you had already been with Sfath and can boast an experience that no other human being is likely to have so soon.

If I start again from the beginning. The reason for the whole thing was because you had told Guido a strange thing and he was interested in it, consequently he wanted to see the place and the traces of the phenomenon that happens in that desert area from time to time. When you informed Semjase of Guido's interest, which urged him to at least see and enter the place in question himself and also to meet Wendelle Stevens, Semjase agreed to fly him to Death Valley in America with you in their flying apparatus and also to include Wendelle Stevens, which is how it turned out.

Because I myself was also interested in this natural phenomenon, which I could never personally observe in its activity, I installed a small monitoring system high above the area in question, on the basis of which long-term recordings were made, according to which I was able to actually observe the recorded phenomenon after a long time. This phenomenon was unknown to us, and therefore very interesting for us. Our long-term recordings prove to us a phenomenon such as is not known to us anywhere, nor are there any records of it except those which must have been listed by Sfath, as you explained to Ptaah, but which he has not yet found in the Sfath annals.

### **Billy:**

Aha, but he will certainly find them, because Sfath always took everything very precisely, consequently I think he also noted this thing explicitly. It was also interesting for me, and I like to remember well when Sfath - it was in the 1940s, 1948 or 1949 or so - took me to Death Valley after a rainstorm because he wanted to show me 'wandering' boulders to let me witness a strange natural phenomenon. In addition, I remember that the rain was followed by freezing cold, which caused the desert floor to freeze on the surface, but then the ground became muddy and violent gale-force winds arose. Crazy as it seemed to me, the heavy boulders then started moving due to the violent winds and slid across the ground - driven only by the storm wind. When I sat down on one of the heavy boulders—some of which weighed several hundred kilos, as Sfath told me at the time - I effectively had to cling to it and hold on tightly, otherwise the storm wind would have simply swept me away. But since I was clinging to the boulder with all my strength and apparently, as Sfath said, my back was providing an additional wind-driving surface, the wind drove the boulder and me across the icy, muddy ground.

### **Zafenatpaneach:**

When I was told about the phenomenon in 1980, I doubted it, but I had no way of verifying it, which is why it gave me no peace after being told and I installed a monitoring system high above the area, which then monitored the whole thing for 4 years and produced registrations, the records of which confirmed all the statements and accounts.

**Billy:**

You see, my friend, there is nothing like verification, which is why everything must always be questioned and clarified in order to find out what is true or untrue, what is wrong or correct. But with that, I think the whole thing is clear.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_060](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_060)

**Billy:**

... Here I have received a magazine article from one of our group members. In that a man named Otto Muck, a German physicist, has calculated that Atlantis must have been destroyed at exactly 19:00 hrs on the 6th of June of the year 8498 BC, and indeed precisely as you have just told it, only that he thinks that it was a purely cosmic catastrophe.

...

**Semjase:**

103. The explanations of this Earth-human Muck are very well known to us, also the fact that he, apart from the calculation of the year, is very close to the truth in certain things.

104. But he must indeed know this, because only through one of his earlier personalities were the legends about Atlantis recorded in writing for posterity for the first time 2,322 years ago.

**Billy:**

You are driving me crazy – you actually think that one of the earlier personalities of this Muck was the former Plato?

**Semjase:**

105. I do not think so, we know it very exactly.

106. Here just draw a comparison with these two pictures.

107. Here is a bust of Plato and here is the picture of Otto Muck.

108. Does anything stand out for you?

**Billy:**

Hm – man, girl, that fits, both of them are almost the same faces. Consequently Otto Muck must still today show a relationship with his former existences.

**Semjase:**

109. Certainly, since then it has been inherited down through one family lineage.

**Billy:**

That is really fantastic; if that man knew it.

**Semjase:**

110. Unfortunately he is not very responsive to such things.

...

176. For many years now we have been keeping an eye on Otto Muck, who also has been inspired by us for certain things.

177. First he was supposed to go public informatively on a large scale with the results of his research, in order to prepare the human beings of the Earth for the full truth about the events surrounding Atlantis and Mu at that time.

178. This he has done, on one hand through a book, and on the other hand also through the newspaper article that you have shown me.

179. Thereby the ground is prepared to reveal the complete truth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_061](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_061)

**Billy:**

... But tell me, what did you mean when you explained that Otto Muck was not very responsive to certain concerns?

**Semjase:**

122. It is very simple:

123. Otto Muck is already divorced from this world and in the realm beyond, therefore he is no longer addressable, because he would have to be disturbed in his present form of existence, but this is not permitted and not possible, even if there were real profound reasons for it.

#### **Billy:**

... But let me ask you a question about a book published in 1997 with the title 'Co-evolution'. It was written by a New Zealander, a certain Alec Newald, who claims to have had contact with an alien named Zeena from a planet called Haven in 1989, and that he was also abducted by the friendly aliens. The book also claims that the process of natural development is wrongly called 'evolution', because this process should be called 'natural development of species'. In my opinion, even this nonsensical sham statement indicates that everything is just nonsense in relation to the alleged abduction and the alleged contact with an extraterrestrial. Yes, because the term 'evolution' is of correctness, respectively 'natural development' and 'slow, uninterruptedly progressing, natural development'. Accordingly, evolution is also to be understood as 'natural development of species' from lower to higher forms of living beings, whereby the human being also belongs to this category. The book 'Co-evolution' is also full of illogical, erroneous dialogues and statements that are childish and naïve. Besides this, it is clear that many things have been copied from our contact conversations as well as from my predictions, as I have published them again and again since the 1950s until today. There are also things mentioned that could come from the Fiat Lux sect, the Raël sect and other similar sects, that extraterrestrials would come in droves to Earth and would create order here. It is also possible that an exchange would be made with the Earthlings if they, the extraterrestrials, needed certain things from the Earth. But this alleged Zeena, for example, is supposed to have said the following, spoken according to the words of the book writer, as I wrote out here: "She indicated that the force would soon feel the weight of an invasion from above (this is a global evil force on Earth. Note Billy) and that battles would be fought on the sea, under water and also high up in the sky. Most people would learn very little about these events, apart from those who would be affected by the side effects of these battles. By this she meant that the Earth would experience storms of increasing intensity, and while these storms once raged only at the vortex points of our Earth (the Bermuda region in the western Atlantic and the western Pacific Ocean southeast of Japan), they would in the future occur all over the planet. She did not say who or what was behind these battles, nor what the reason was," etc. But there are many other things, also the 'beaming up', as I call it again and again. Don't you also think that this was cribbed from my predictions and fundamentally remodelled?

#### **Ptaah:**

...

44. What is to be said about all that is written in this book, which I myself also know and have read throughout, is not based on truth, but on pure fantasy.

45. But unfortunately it is the case that many Earth-humans have again fallen for this invented story and continue to fall for it, because untruths are more important to all those who want to see something supernatural and supernatural or simply something inexplicable and fantastic in everything.

*{Billy} To question 3): Channeling is absolute nonsense in every respect, therefore no Earth human can boast about it. Either an assertion of alleged channeling is a deliberate deception or charlatanism, while not infrequently there is a schizophrenic delusion that makes people claim and believe that they are capable of channelling. So if this Sheldon Nidle (unknown as the other*

**Billy:**

... Since our last meeting, I have gotten to know all kinds of things that were rather unpleasant, despite the joy I also had on the other hand.

**Quetzal:**

5. You speak of Meriam and Anatol.

**Billy:**

Exactly. So far, we only ever talked about that, so to speak, to the exclusion of the general public because these concerns should not have become known at an earlier time. But now, this leads to the fact that the group members are not oriented over it.

**Quetzal:**

6. This was deliberately kept in such a manner, as you know.

7. But on the other hand, we have not even completely informed you about everything because we did not want to raise hopes in you that then might not come true.

**Billy:**

I know that now, too. Meriam has explained it to me. You were with some of your people in America with your group there. Together with them, you tried, through strong impulses, to win some Americans over to our cause, and you also tried for a long time to give Elsi suitable impulses, to which she should have complied, and she should have sought out those influenced by you.

...

Anatol is a man who was used by a group of extraterrestrials as a contact person to pursue a very specific educational work on Earth. He stands, or rather, stood, in contact with humans of that group, who are under the leadership of a certain ASHTAR SHERAN. These Ashtar Sheran people previously worked together with the Giza Intelligences and were, therefore, expelled by the Pleiadians from the planet Earth and were deported. For the exact data on this, one would have to go to our earlier contact reports (see: Volume 1: 36th Contact on Monday, 20.10.1975, p. 460 and the following and 38th Contact on Thursday, 13.11.1975, p. 488 and the following and Volume 2, 44th Contact on Monday, 16.2.1976, p. 81 and the following) to find these because I know that these things were discussed between you and me officially. Over the last decades, however, Ashtar Sheran and his people have obviously changed to the positive and to the truthfully truth in such a form that they were allowed to remain active on the Earth practically, in a reparation process or in a reparation mission, whereby the Pleiadians have made several of their own older ships available to them. Thus, people of the Ashtar Sheran group already came to the Earth again a long time ago, recently searched for contact here, and worked or work for a certain truth mission, which consists, among other things, of confirming your existence and my mission. Meriam, however, a young girl who is not quite 17 years old, is one of those telepathic contact persons of you Pleiadians, about whom you have told me on occasion. The girl knows Anatol personally and is also extremely powerfully established in spiritual telepathy and in various other forces, which she should use for the purpose of our whole mission. In the next to last week of May, she called me, and I could ascertain her tremendous strength of spiritual telepathy. Then, through her, I also found out the closer relationships of her and your teamwork and the unpleasant facts about Elsi in America. But she also spoke of Anatol, who, according to her information, began his public educational work at about the same time when she made contact with me.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_167](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_167)

**Billy:**

... The day before yesterday I asked you to clarify why Anatol and Meriam did no longer contact me, the way they promised to do. I was also still expecting all kinds of material from them.

**Quetzal:**

20. Concerning this, I must, unfortunately, give you a message that will not be pleasant for you.

21. My investigations were rather troublesome, but I found out that the mission linked to these two people was destroyed.

22. During the month of November of last year, the two decided that they would go to Italy in December – together – in order to visit common acquaintances there.

23. Then, on December 7th, 1981 they also carried out this decision, got on Anatol's road vehicle, and drove off.

**Billy:**

Once again, you make this damn long. Did the two of them cause an accident, and they are, therefore, now in the hospital?

**Quetzal:**

24. You are illogical.

**Billy:**

Then I just – oh yes, you said that their mission was destroyed, so it can only mean that the two of them did not survive the accident?

**Quetzal:**

25. It was an accident, yes.

**Billy:**

You, otherwise, are not squeamish – if you want to explain something to me. Why this now?

**Quetzal:**

26. You knew the two personally and included them in your love.

...

**Billy:**

... why, actually, did you first have to find out what happened with Meriam and Anatol?

...

**Quetzal:**

40. I can still inform you that the accident happened only a few hundred meters away from Anatol's residence and that the end came immediately.

41. Also, you should know that the two still wanted to visit you in December on the trip home from Italy.

**Billy:**

That is enough already, my friend. Yes, Anatol had promised that he would visit me before the end of the year. But I only ever saw him once, and Meriam – only three times.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_496](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_496)

**Billy:**

... The question refers to Petra-Meriam and Anatol, who were meant to help me to spread the teachings in the manner of a wandering heraldry in the German-speaking world. Certain people do not understand the whole thing and think that the two of them were prophets, which was not the case, because they were really only meant to be active as itinerant preachers in the German-speaking world with regard to teaching and mission.

**Ptaah:**

74. That is correct, because more was not their task.

75. Unfortunately, they were killed in an unforeseen car accident and were not able to fulfil this task.

76. It was also not intended that other persons should take their place, who could have taken over the task.

77. The fatal accident of the two was therefore not included in the provision, because this coincidence was not foreseen.

78. Therefore it follows that the teaching in the German-speaking countries by your and the core-group Initiative has to be spread much more laboriously and circumstantially than the whole thing was originally intended by the activities of Anatol and Petra-Meriam.

77. These statements of my daughter are of course not connected with those telepathic impulse contacts which we had with Earth-humans without their knowledge, nor with those which, intentionally or unintentionally, were made by us with Earth-humans, such as the contact of my daughter Semjase with a German named Elsa Schröder in Persia near Zahedan and with Petra and Anatol.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_648](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_648)

**Ptaah:**

31. This was also the reason why all contacts with Earth-humans were of a purely technical-telepathic nature, including those with Petra and Anatol.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_704](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_704)

**Ptaah:**

67. The only exception was when Petra and Anatol were involved in a contact connection, who, according to your instructions, should have assisted you.

68. This connection ended, however, after Eva had brought you to the two of them in Hünigen in Alsace, where you were to discuss with them their work, which they were to have taken on, but which unfortunately did not happen, because some time after your meeting both of them fell victim to an unforeseen fatal car accident and the planned enterprise was thereby rendered invalid.

69. Earth-humans other than Petra and Anatol were and are not allowed according to our directives for direct contacts, nor indirect ones.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_748](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_748)

**Billy:**

... But perhaps you can explain a little why you do not make contact with Earthlings and why I had to be the mediator with Petra and Anatol. Something explained from your side is possibly more detailed than what I have said and explained in each case.

...

**Ptaah:**

94. Now, in response to your explanation, it is to be explained that the basic justification given for our directive is founded precisely in the explanations I have just given, which expresses the fact that we Plejaren would endanger ourselves in our peaceful, righteous and self-controlling behaviour in contacts with Earth-humans through their inherent degenerations.

95. This, then, should we violate our directives and come into contact with Earth-humans who are still altogether subject to the bias and degenerations of that which I have elaborated and explained.

96. The whole reason why we cling to our directives and prevent ourselves from entering into direct or other closer contact with Earth-humans is based on the fact that we Plejaren are not immune to the degenerations of all kinds which are peculiar to Earth-humans, but are just as susceptible to them as is also uncontrollably inherent in Earth-humans themselves. ...

### **Johannes Buchholz {letter}:**

*3. How do you feel about Sheldon Nidle saying he channels Sirians? And of Mike Quinsey, who supposedly channels Saint Germain and people from Venus and other planets and systems, and what about Franz Bardon, was he a weirdo?*

*{Billy} To question 3): Channeling is absolute nonsense in every respect, therefore no Earth human can boast about it. Either an assertion of alleged channeling is a deliberate deception or charlatanism, while not infrequently there is a schizophrenic delusion that makes people claim and believe that they are capable of channelling. So if this Sheldon Nidle (unknown as the other two) claims to channel with Sirians, or this Mike Quisey with Saint Germain or the aforementioned Franz Bardon, then there is a complete nonsense and nonsense behind it, because the esoterically invented channeling is based on pure fantasy, on delusion or on conscious deception.*

#### **Billy:**

You are right about that, because I just wanted to ask you if you have read any notes in the annals of Sfath that refer to the military man Ramey. The man who was in Roswell. You know.

#### **Ptaah:**

There is not much to say really, because you know what transpired at that time. There is also nothing written in my father's annals other than that the man Ramey told him and you that he had no option but to lie to the press. But to you, he had to admit that everything published by the army and the state leadership was nothing but bare lies and that what was photographed was nothing but extra metal foil. This had been described as the remains of a balloon, but this corresponded to a fraud. Real materials from the very flat and plate-shaped object that had crashed over Tikaboo Peak and been severely damaged were not present as individual pieces, but it was still on site as a whole object, as Ramey explained to my father Sfath and you at the time. It was also transported away as a whole by the military, including the still living bodies of the object's crew. So everything was immediately secretly seized, removed and taken to Homey Airport (note Billy: Area 51) in the Nellis Air Force Barrier Area. Nonetheless, the news

immediately got out to the press, following which the news of a crash by an extraterrestrial spaceship went around the world very quickly.

**Billy:**

Right, at that time I read in a newspaper myself that an extraterrestrial spaceship had crashed somewhere in the USA. I cannot remember which newspaper it was. I can still remember this military man Ramey, because he was scared as hell when Sfath and I suddenly materialised in front of him, about the same as Adamski when Asket and I suddenly stood in front of him, where he was giving his lying lecture in a big hall at Helvetiaplatz.

**Semjase:**

129. Horst Raps/Germany.

130. Real-vision contact.

...

144. A real vision describes a certain form of a guided vision.

...

147. These steerable visions are so massively realistic that the influenced life form becomes convinced that it has experienced the vision as reality.

...

161. Applied in this form, it is not a deception, for the process serves to expand the truth in the life form in question.

162. If Earth-humans are influenced in this manner, then this happens only for the reason that they are not capable of experiencing the visionary experiences given to them in reality.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_044](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_044)

**Billy:**

... My first question is for a contact person, Mr. Raps, who you said was really a contact person. We would now like to invite him to join us and do not know what to do. Is he valuable to us and really trustworthy?

**Semjase:**

67. Unfortunately, he has not been for a long time, which is why all his memories of his pseudo-experiences have been totally eliminated. 68. Since then, he has been concerned with bringing untrue things of himself into circulation.

**Billy:**

Oh dear, that is bad luck. But why is that?

**Semjase:**

69. Even before he went public, he did not fulfil his duties, so all his memories were taken away from him.

70. Only very vague and uncertain things were left behind in him, through which he since then, at his own discretion, claimed things that do not apply in any form.

**Billy:**

And what about his report?

**Semjase:**

71. You mean the one written by him and about him?

**Billy:**

Of course; do others exist?

**Semjase:**

72. There are certain other things, yes, but they do not correspond to the truth any more than the report mentioned.

**Billy:**

But then why did you call him our contact?

**Semjase:**

73. Because he actually had real-visionary contact at first and was therefore actually a contact person, who, however, no longer has a memory of it today.

**Semjase:**

52. It is based on the fact that these persons either have no contact with extraterrestrial intelligence or that they are not the real names.

53. On the other hand, it is also possible that they have had visual contact only recently, but we do not know anything about that yet.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

**Billy:**

But now something very special: Did you already hear that: 'Sigma Roma'?

**Semjase:**

159. – – – What is this question?

160. How did you get this knowledge, and what are you doing with it?

**Billy:**

You seem to be alarmed?

**Semjase:**

161. Are you surprised?

162. What is the purpose of this question and how do you know about this code, and what do you intend to do with it?

...

168. Then why do you break the code and speak it backwards?

...

170. More than that, my friend, because I know the Giza intelligences too well not to worry about you when you come to me with their code.

**Billy:**

You are not saying that these two words are a code of these Giza twerps?

**Semjase:**

171. What do you think I am worried about you for?

**Billy:**

Oh you blue Heinrich, I did not know that. I received this 'Sigma Roma' from Mr. Reiz. He explained to me that he had received this code through a telepathic contact from somewhere and that I should tell you about it.

**Semjase:**

172. Is that really the case?

**Billy:**

I am not lying to you.

**Semjase:**

173. I do not accept it, and I do not see anything like it, but the Giza intelligences have many possibilities.

174. Well, the words of the code are offset and I do not want to mention them in their correct composition, because they do not...

**Billy:**

...hold a certain seductive value. I already figured it out myself. Right?

**Semjase:**

175. You think very quickly, but I must ask you to be silent about it.

**Billy:**

Naturally.

**Semjase:**

176. It is the code of the intelligences of Giza through which they make themselves mutually recognisable.

177. This is important to them, for their various groups unlawfully call themselves descendants of various races and celestial systems to earthlings.

178. This is how they call themselves life-forms from Mars and Venus, but they also use our pro forma home worlds for fraudulent purposes.

179. It is therefore safe to assume that Mr. Reiz was connected to one of these intelligences and received the code from them because they assumed that we would represent one of their groups.

76. The people I have marked as negative are not contact persons.

77. In any case, they never had contact with extraterrestrial intelligences that reached them from outside of the Earth, neither through free space nor through a dimensional gate, because these penetration possibilities are so hermetically controlled that it is completely impossible for even a tiny particle unit to be able to pass through without being registered by us or the other intelligences monitoring the Earth.

78. If, however, an intrusion into the earthly space takes place, then everything is very precisely monitored and registered.

79. And these controls and registrations do not give any evidence that the negative persons mentioned could be positive.

...

85. But I do not want to exclude the possibility of explaining to you that the persons I have described as negative may have been in connection with the intelligences of Giza or may still be in connection with them, because we do not exercise precise control over them.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_034](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_034)

**Billy:**

Well, Semjase, then I would like to raise some other problems in this context: Do you know anyone by the name of Seph? Whether it is a man or a woman I unfortunately do not know.

**Semjase:**

32. A very strange name – but – no – it is unknown to me; why do you ask?

**Billy:**

That is just as strange, Semjase, as the thing with Gloria Lee. The same person claims in the same letter to Mr. Jacob that he was connected to an alien life form about ten years ago. Whether this was in purely telepathic form or in material form, I unfortunately do not know. Anyway, this person, if his/her statements are correct, must have experienced certain things via this life form, which obviously refer to us. At least Mr Jacob said so, because in the letter there is talk of you and of me, so to speak, and that in 1975 I should appear here in Switzerland as a contact person. So this is what he was told about by this extraterrestrial life form about ten years ago. What do you say to this now?

...

**Semjase:**

39. He is a man at the age of 41 with the name Alois Rickenbach.

40. Professionally, for health reasons, he pursues free work, which does not correspond to his abilities.

41. In former times he was professionally engaged with graphics and thereby adopted a peculiar manner, which he carries over to all things of his life.

42. He also became very involved in the spiritual sciences and thus discovered the traces of the truth, which he only found in his early days.

43. He is actually also active in primary telepathy, and in fact very realistically.

44. In this he can be regarded as a great exception, and nowise does he fall within the usual framework of false telepaths.

45. The analysers recorded that he must have actually spoken personally to Gloria Lee or to someone she knew.

46. It is also clear that she had often been in contact with a lot of people all over the world before her death.

47. But this was not a year ago, as you said, but at completely different times.

...

52. Here your time of ten years is not correct either, and the name is not correct either.

53. You pronounced it with a 'P', it is spoken with an 'F', so it irritated me too, and it seemed strange to me.

54. It is now 14 years since this man, who wrote the letter to Mr Jacob, was connected in a primary telepathic and personal manner with a life form called SEPH.

55. It was a life form from Alpha Centauri, who at that time expeditioned the Earth for 11 months.

56. In this context Seph and the man met unexpectedly and made friends, as you call it.

57. In the course of the 11 months Seph enlightened the man about different things and facts and also explained to him the coming of you and me, because Seph was well informed about this time-viewing.
58. But we do not know each other and have never seen or spoken to one another.
59. Seph also learned many things through the man and came to the conviction that the Earth-humans had to be told various facts.
60. Thus he instructed the man to make known certain facts concerning extraterrestrial life, etc. to his fellow humans.
61. And since Seph knew many events of the future, he also knew about your and my existence and explained it to him with the wish to spread this knowledge.
62. But the man was afraid of this step and explained to Seph that he was not up to the task.
63. Disappointed Seph withdrew and left the Earth again, and so the contact with the man came to an end.

**Ptaah:**

I can imagine that. It must have been the same for this Ruppelt who worked for the Blue Book, whom you 2 also visited and who had to admit that everything was geared towards denying the UFO question.

**Billy:**

Yes, I remember that man too. He also admitted that there was enough evidence, which then disappeared and proved that the 'saucer' crash had really taken place, and so on. This among other things.

#### **Ptaah:**

37. In 1948, at the age of eleven, you wrote a manuscript from the translation of Sfath in your fourth school class and under the guidance of Teacher Lehmann, which was so good that it was copied two hundred times by the Teacher on a transfer printing machine and sent to many people, including the monk Rahat Sanghanan, whom you later got to know through the help of Asket and who taught you many things.

38. His monk's name was Maha Chohan, which means 'Great Master'.

39. He was then also the one who made several copies of your work in the same year 1948 and delivered his equals, from which the first writings were already made.

40. 1954 Asket made you a new translation, from which you then revised and newly created your meditation scripture, which you then together with Asket submitted to the monk Rahat Sanghanan in the same year, when Asket brought you to him.

29. Regarding M. Sch. we also checked all things and came to the same result as Ptaah.

30. Her book, which I hereby bring back to you, is a work of her exaggerated imagination and confused thoughts.

31. It has no meaning whatsoever in the form that it contains messages of any extraterrestrial, dimensional or otherwise dimensioned intelligence.

32. The whole work is the sole product of the personality of this woman, who has unfortunately also fallen into confused thoughts, which she mistakenly interprets as thoughts and inspirations of others and mainly extraterrestrial or spiritual beings.

**Ptaah:**

1098. That is so, but if you want to know names, I will tell you their two:

1099. They are two men named Daniel Fry and Viktor Schauburger.

1100. The latter, however, is long gone from your world, and he did not report his contacts with extraterrestrial intelligences.

95. To my knowledge a certain Herr Scher or Scheer and another, whose name is unknown to me *{Walter Ernsting}*, writes this series of writings, which actually has extraterrestrial inspirative origin and corresponds to an already largely existing technology and other development on many world bodies, as they are received and written down by the authors inspiratively-impulsively.

**Asket:**

195. The meaning of the falsified Christ-utensils {see *Asket's Acquaintanceship end section*} lies in the intention that an Earth human, in a very short time, will be influenced in a hallucinatory way by these malicious life-forms {*Gizeh Intelligences*}, to such a degree that all that was seen by you can be transmitted to him as an entire experience.

196. This Earth human already stands under the influence of these malicious beings.

197. Often he is transferred into a trance state by them and then the images are transmitted to him.

198. He thereby perceives and feels everything exactly as if he hears, sees, feels and experiences it in reality, although he only lies and sleeps somewhere, and everything is impressed into him as a dream.

199. In the state of being awake, he will be just as much tricked as his friends and acquaintances by images of space ships which indeed can be projected so true to reality that anyone can catch them on film.

200. These appearances are, however, without exception, only nebulous and holographic pictures which are not able to exhibit actual contours.

201. The entire meaning lies therefore only in a malicious deception with the purposes that the concerned Earth human, who will be called (Reinhold) Schmidt, talks about himself - and spreads the images and experiences, and so forth, implanted in him by means of holographs and dream-state-hallucinations - in order to maintain the religion of Christianity.

202. Thereby such an Earth human will become an unconscious deceiver of himself and of all those who believe his explanations.

203. Indeed, he does not know that he has never been in this pyramid with the spaceship and the counterfeit utensils, or that it has all only been implanted in him as reality, through trickery, and that he has never flown in a spaceship ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_002](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_002)

**Billy:**

... You have already spoken multiple times of deceivers and charlatans, who have gone public with their fantastic UFO contact stories and still continue to do so. Can you tell me some names?

...

**Semjase:**

65. Other names are less well-known but still have a certain significance because they are deceivers: Harushi Tsukamoto, Jerrold Baker, R. O. Schmidt., C. A. Anderson, Angelucci, and many, many others.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_035](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_035)

**Billy:**

... But tell me: What about the Gizeh twerps? Asket once told me something about how they wanted to influence a person to make him believe that he had been in the pyramid and had seen the crucifixion utensils there. She told me that in 1956, but I have never heard of such an incident before. Didn't the Gizeh fellows run this undertaking back then? If it were true, I should have heard something about it.

**Semjase:**

43. The deception manoeuvre has taken place, and the Gizeh intelligences have even succeeded very well.

44. The deception took place with an American named REINHOLD SCHMIDT, a grain buyer from California.

45. But he was also misused for other things, so he was fooled into travelling to the Arctic with a spaceship and so on.

**Elsa Schröder / Else Schröder**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Billy:**

... I have heard such a strange story, and I would like to ask you for an explanation. Mr. Veit from Wiesbaden brought a letter from a certain Ella or Elsa Schröder or something like that, in which she described a situation she had observed in Turkey some time ago: a woman was digging with a peculiar-looking power shovel for something that she took out of the ground, something that looked like a cylinder. The woman then took this cylinder with her and disappeared into a UFO which then ascended into the sky overhead. Moreover, this young woman had spoken with the UFO woman, who told her that her name was Semjase, Semjase or something similar. Can you tell me anything about his story, whether you know about it?

**Semjase:**

104. Sure, sure, this event is known to me.

105. However it did not happen in Turkey but in Iran, near Zahedan early one morning.

106. I have, luckily while I was shielded from vibrations, dug out from the earth a time-spiral, which was of great importance.

107. We had been searching for it for three years until we finally found it.

108. It was a time projectile for research purposes.

109. At least that's what you would probably call it.

110. Here, this is the projectile. (Semjase brings out a conical spiral shaped device.)

111. This is also the reason why we are going to the edge of the Universe now, because this device came from another Universe.

**Billy:**

So that's what happened. And when did you dig this thing up?

**Semjase:**

112. In the first month of this year.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_040](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_040)

**Billy:**

... But how many Earth-humans are you in contact with if you want to answer this question?

**Semjase:**

63. Since I am here, only with you alone, besides I had once for few minutes contact with an Earth woman in Zahedan.

**Billy:**

You mean in Persia, where you were looking for the cylinder?

**Semjase:**

64. Sure, otherwise I had or have no contacts with Earth-humans.

**Florena:**

*Out of all 3 Plejaren groups (Europe, Asia, America) on Earth, only one person was named Semjase, namely the Semjase of the European group, who took up contact with Billy. Apart from Billy, she never had contacts with other Earth-humans on all continents (except a chance encounter in the Persian desert in the vicinity of Zahedan with a young German woman named Elsa Schröder, which only lasted for a few minutes), and this will remain so in the future.*

Semjase has never been in contact with any other human being on the Earth besides you, except for a somewhat confusing and unforeseen encounter near Zahedan in the Persian desert, where she was met, through carelessness, by a woman from Germany named Else Schröder, which happened many years ago and lasted only a short time, from which no actual contact resulted.

11. This is not only because she never maintained contact with the Earth-humans of this sort, as is imputed to her, but also because she never even wanted contacts with the Earth-humans, with just one exception, which you represent.

12. Another contact only arose once during the whole time that she stayed on the Earth, with a woman named Elsa Schroeder.

13. But this contact took place unintentionally and occurred in the Persian desert in the vicinity of the place Zahedan.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaren have become the

focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

#### **Semjase:**

76. The people I have marked as negative are not contact persons.

77. In any case, they never had contact with extraterrestrial intelligences that reached them from outside of the Earth, neither through free space nor through a dimensional gate, because these penetration possibilities are so hermetically controlled that it is completely impossible for even a tiny particle unit to be able to pass through without being registered by us or the other intelligences monitoring the Earth.

78. If, however, an intrusion into the earthly space takes place, then everything is very precisely monitored and registered.

79. And these controls and registrations do not give any evidence that the negative persons mentioned could be positive.

...

85. But I do not want to exclude the possibility of explaining to you that the persons I have described as negative may have been in connection with the intelligences of Giza or may still be in connection with them, because we do not exercise precise control over them.

**Billy:**

So this possibility remains open?

**Semjase:**

86. Sure, but the persons concerned would have been very badly misdirected.

87. The same goes for those who have been deceived by earthly intelligences, namely by those who have the stolen beam ships of the Germans at their disposal and pretend to be extraterrestrials to earthly men.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_053](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_053)

**Billy:**

Well, then I have a personal question regarding this Siracusa in Sicily. You told me he was a real visual contact or something, with the reservation that you had to be careful about his religious expressions because they were his own works. You know, I have relatives who live nearby there, at least temporarily, and I would like to ask them about Siracusa.

**Semjase:**

167. It is not worth it, because Siracusa can only give a few real details about some flying objects that he has seen and through which he mistakenly received impulse-telepathic messages from foreign beings once or even twice, which he did not know how to use and distorted beyond recognition, which I have only recently learned.

**Billy:**

Gosh, girl, did he not have any personal contacts?

**Semjase:**

168. No, he never had any of those.

169. His contacts refer only to different object directions and to one or two erroneous impulse-telepathic messages, which he mutilated in his incomprehension.

170. Unfortunately, the exact number can no longer be determined, but the impulse-telepathic messages were no more than two.

171. Besides, these messages did not reach us.

**Billy:**

Then he never saw the occupants of the ship?

**Semjase:**

172. No, that is perfectly proven.

**Billy:**

But he had made the occupants drawings made or had them made.

**Semjase:**

173. I am aware of that and it is already about fraud.

174. But now I really do not want to have to deal with such things anymore, neither now nor in the future.

175. Fraudsters and charlatans are in great numbers on the Earth regarding the beamships, etc. and it is not valuable to continue talking about them.

**Billy:**

As you wish, your wish is my command. It is disgusting to have to deal with creatures like that all the time.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_060](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_060)

**Kohun:**

... If you hear at a later time such names as Zilar, Menger, Miller and Nelson or Castillo, Siracusa, Schmitt, Bertossi, Renaud and Villanueva or Klarer later on, then you can be sure that these are definitely the names of frauds.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_251](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_251)

**Billy:**

So there are no contacts between private Earth-humans and extraterrestrials. And as you said, there are also no religious contacts between Earth-humans and extraterrestrials, which means that the stigmatized and his patron Siragusa are nothing else than Mauscheler. This stigmatized, B.G. he calls himself, even wanted to come to me and bring me a very important message from Our Lady and from God the Father personally. For almost a week he had us harassed by third parties speaking different languages in order to be able to arrange a meeting with me. In fact, he and his followers believe that his stigmata are a sign of God, and in truth, as with all stigmatized stigmata, they arise only from a religious insanity and fanaticism, through a psychogenic effect triggered by religious sectarianism, as was the case with the first known stigmatized Francis of Assisi and with several hundred others.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_294](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_294)

**Billy:**

... But since we are already talking about sects, I would like to hear your word about the nonsense that the sect henchmen spout, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contactees, who want to be in physical or telepathic connection with extraterrestrials or other dimensioned ones consistently claim that the extraterrestrial or other dimensioned ones are gods, saints, God's messengers or angels etc., but at least saviors who want to save the people of earth from destruction etc. These claims also exist in relation to you Pleiadians/Plejarans and in particular to you, when I think of the fraudulent claims of those who are said to be in contact with you or with other Pleiadians/Plejarans. I'm thinking in particular of Jani King, Barbara Marciniak, Fred Bell and Penny McLean and their ilk. Of course, Carlos Diaz must not be forgotten either, nor must Siracusa and many others who deal with people other than you. ...

...

**Ptaah:**

70. We Plejadians do not come to earth as gods, angels, saints or the like, and we also do not come to bring salvation, peace, freedom, love, knowledge, wisdom and progress to the earthly world and to earthly men, for all these values must be laboriously worked out by the man of the earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

75. And you too, as our messenger, are not omniscient and not salutary, for knowledge and salvation must be created by man on earth himself.

#### **Semjase:**

135. Wilbert B. Smith, Canada.

136. Direct contact with extraterrestrials as with Fry, but remained silent by order.

137. Was infiltrated as head of the Project Magnet.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_563](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_563)

#### **Ptaah:**

82. A certain Wilbert B. Smith was probably a contactee, but unfortunately one of the negative kind.

83. His contact was only a one-time and absolutely meaningless contact and furthermore only a hypnotic direct contact with the group of the 'Ashtar Sheran', whereby the whole thing was, as already mentioned, effectively of an insignificant nature.

84. As hypnotic direct contacts we call those where the hypnosis is not performed independently by apparatuses, but directly by the human being, but where the hypnotic transmission of energy thanks to hypnosis over long distances is also performed by strong transmitting apparatuses.

85. So Smith, like many other contact persons, was in contact under hypnosis with post-hypnotic aspect, and he did not act consciously and not of his own free will, as it was common practice in the 'Ashtar Sheran' group to keep the contact persons absolutely under control.

86. And this was the case with all the numerous contacts who were abused by the 'Ashtar Sheran' group.

87. Such contacts with Earth-humans were very often the case through the 'Ashtar Sheran' group, whereby this group simply impulsively influenced Earth-humans to make them willing tools for their dark machinations on Earth.

88. These influencers were in great numbers, but none of the human beings ever had any idea what the actual reality of the contacts was and how they took place.

89. In fact, they never had any real physical contact, but always only hypnotic impulsive contact, with real visions also being part of the whole, so that many of those contacts, who were abusively manipulated by the 'Ashtar Sheran' group, were convinced that they had real contact with extraterrestrials.

90. So they were not aware that they had no real encounters with the aliens in this sense, and consequently they also had not flown in their flying apparatus, because in fact they were only pretended to have had real hypnotic visions.

91. Through this hypnotic real vision illusion the contactees were misled in such a way that they actually believed that they had real contacts with extraterrestrials and had flown with their flying apparatus.

92. So they were no longer able to distinguish reality from the hypnotic illusion, and lived or still live in the implanted delusion that their contacts were real.

93. A further fact was that these contactees were hypnotically and suggestively given false data about the origin of the 'Ashtar Sheran' group, thus practically all these contactees were reminded of different places of origin.

94. But all these facts were unknown to us at the time when we gave you the list of these contactees, because at that time we only analyzed the memories of the people concerned.

95. These were, however, so profoundly hypnotically and suggestively manipulated that we were deceived by them and therefore did not recognize the memory manipulation.

96. We only found out the real facts three weeks ago, with better technical possibilities, which we now have at our disposal and which we have now used for the first time.

97. In recent years, we have noticed things that seemed strange to us in various such contactees, which is why we used the new equipment and devices to re-analyze the memory impulses of all still living contact persons and were able to penetrate their hypnotic blockade.

...

100. It must be said, however, that the persons forced into contact in this way are left with no conscious knowledge of their own, but only the post-hypnotic memory, which shortly after the manipulation became so strong that it could not be reversed .

101. And this applies without exception to all those many Earth-humans whom we have named individually or in lists as contact persons and who without exception have been forcibly manipulated in a hypnotic-suggestive-revisionary way by the 'Ashtar Sheran' group.

102. In all cases, however, the impulses were such that the recipients of the impulses had false visions and thought that they had experienced contact, which is why they took notes, wrote books and also made public statements.

103. The reason for this was, on the one hand, that this was supposed to lead to a worldwide disinformation regarding the existence and origin of various extraterrestrials, while on the other hand it was also connected to a plan of the 'Ashtar Sheran' group, which consisted of becoming a ruling power on Earth and finding a new home there.

104. The plan was that this group would act as a kind of savior for the Earth's population, against various 'evil' alien invaders who were supposed to threaten Earth.

105. For this purpose a big spectacle with aerial battles and fights in earth orbit was planned to make everything seem real.

106. And this would finally have led to the 'Ashtar Sheran' group taking over the rule of Earth, as an extraterrestrial armada, so to speak.

107. So all this was aimed at with the hypnotic contacts to Earth-humans, and it was all to come about after official contacts with the Earth governments had been established.

108. This could actually have been achieved by influencing certain Earth-humans through impulses, which would also have included the rulers of all countries, who would have acted according to the impulses in such a way that the plans could have been realised.

109. Since these persons, of whom there were a greater number, all failed and for reasons as yet unknown to us did not fulfill the orders placed in them, the evil plan did not come to pass.

110. All the contactees, whom we also used to call by their names, were supposed to be the pathfinders for the realization of the plans of the 'Ashtar Sheran' group.

111. And since all these Earth-humans were hypnotically and suggestively manipulated by the aliens of the 'Ashtar Sheran' group, which we did not know at that time, we called them real contact persons.

112. That was probably wrong of us, because we let ourselves be misled, which led to false assumptions on your part and also on the part of Earth-humans, which resulted in the assumption that these contact persons with the 'Ashtar Sheran' group had real physical or telepathic contact with any aliens.

113. Of course this was not true, as we know today, but even then it seemed strange to us, because we did not know any other group apart from the three groups unknown to us.

114. So we assumed that these contact persons were connected to the three unknown people we did not know.

115. So this misunderstanding was due to us, which we regret very much.

116. And it should also be mentioned that this form of forced manipulative contacts had nothing to do with our impulse contacts, which we used to have with Earth-humans, but for them unconsciously and in such a way that they assumed that their progressive ideas were their own.

117. In particular, these impulse contacts from our side to scientists took place in order to promote the sciences of medicine and technology among Earth-humans, which has also been

proven by the very rapid developments in the last decades through many inventions and innovations etc ., as is actually the case.

118. Our contacts were also such that the recipients of our impulse transmissions had no knowledge of the whole of the unconscious telepathic information impulses.

119. The 'Ashtar Sheran' group, which finally ended in the DAL universe, as you know what was supposed to cause disaster on Earth, which would have happened if their manipulative machinations with the forcibly contacted Earth-humans had been successful.

120. As for the name 'Alan', which was used by Wilbert B. Smith, it was also a fantastic invention, as were all his utterances.

121. With regard to the name 'Alan', it did not mean that he was a liar, but that the meaning of the name meant 'the liar'.

122. This is described in PP Volume 6, page 264, sentences: **Ptaah 238–248**, the following:

238. *With regard to the name ALAN, or what this word is supposed to be, we found out that it is just a falsely invented word formation which has no value or meaning.*

239. *This word form is also not to be found in any of our languages or in any language we know, of which we know and have stored more than 3.7 million in our entire field of knowledge and expertise.*

240. *You told me about this word formation ALAN during my last visit, so that I could make sure in the meantime that it does not exist in any language known to us.*

241. *According to this, a group of specialists tried to get to the bottom of things in Japan and it turned out that the word formation ALAN is a pure, unwise and lying invention of deceitful and maliciously lying Earth-humans whose evolutionary level is in the lower reaches of the earthly lowest level.*

242. *As a name, this word formation ALAN, which is intended to deceive and cheat, does not appear in the entire area of the universe known to us, but this does not mean that we do not know names of a similar form.*

243. *Thus, for example, the names Alaan, Aaland, Allan, Alann, Aljon, A'Lan and Nala exist in various languages known to us, whereby this last name represents the reverse form of the mad word formation ALAN*

244. *But the meanings for these names are all very negative forms, which is why they are only used there with the human beings who live in degeneration and exist with peoples whose education and observance in matters of truth and truthful evolution is still at a level of primitive form.*

245. *So the names also mean primitive, just as Alaan means 'the truth adverse'.*

246. *Aaland means 'the truth twister', Allan has the meaning 'the truth verifier' and Alann stands for the unworthiness 'the truth hate*

247. *The name Aljon has the meaning 'the destroyer', while A'Lan means 'the deceiver'.*

248. *Nala, the name which in the reverse form would result in ALAN, has the meaning 'the liar'.*

**Billy:**

These are new findings again, which show many things in a new light.

**Ptaah:**

123. That is so, but we are also not immune from mistakes and misguidance, not even in the mentioned relationship by the 'Ashtar Sheran' group, which has been doing very bad things and has caused a lot of trouble regarding alleged physical and telepathic contacts with various extraterrestrials from allegedly different places of origin.

124. As we have now been able to find out, their victims were hypnotically and visionarily duped into alleged physical contacts, as well as into alleged messages of Christian religious form.

125. This, along with various other underhand machinations, which caused wrong assumptions and views in many Earth-humans, even among civil servants and military personnel etc.

126. Also, for the sake of confusion, sightings with various kinds of flying apparatus were actually organized around the world, as well as strange acts of animal mutilation etc., as well as by Earth-humans who were impulsively hypnotized by the 'Ashtar Sheran' group.

127. We only found out about this through Asket, because she told us that during the fighting in the DAL universe four prisoners were taken from the 'Ashtar Sheran' group before their armada was completely destroyed.

128. One of the four prisoners was the first representative of Ashtar Sheran and Armada commander.

129. Recently he, like the three other prisoners, finally agreed to break the silence and reveal the many evil machinations of the group, so that we could get to the bottom of it with their hypnosis contactees and find the truth.

130. These prisoners also gave the names of various such false contactees who had already died, including one Wilbert B. Smith, as well as others in various countries in Europe, Africa, Japan, America, Israel and South America, such as Brazil and Argentina etc., but also Australia and Russia etc.

...

**Billy:**

I can understand that, but now the question arises whether the whole thing with the prisoners and your investigations have perhaps also led to findings with regard to the three groups unknown to you, and if so, which ones?

**Ptaah:**

136. This was also clarified with the prisoners, and their statements make it absolutely clear that the 'Ashtar Sheran' group had no connection whatsoever with the three groups unknown to us.

... But what about the folks who received Ashtar Sheran's messages? As far as I know, one of these people is called Speer. But this one is not on your list. On the other hand, however, there are many other well-known names of persons who are specifically mentioned in books and writings by Ventla-Publishers.

**Semjase:**

178. The Aruseak Group in Berlin is a particularity and does not belong to the areas of extraterrestrial intelligence.

179. As you have been oriented by Quetzal, Aruseak has been pinning his hopes on the Giza intelligences, and therefore it is necessary to wait for further development first

180. Furthermore, we are informed about the names in books and writings of the Ventla-Publishers as well as many other groups and individuals.

181. But as contact persons they are completely foreign to us, although we know from many of them that they partly belong to the Giza intelligences or grossly abuse any truth.

182. The Ventla-Publishers are sectarian in nature, and also publish false contact reports.

**Billy:**

There will be an uproar, Semjase, because Ventla-Publishers has a lot of names ...

**Semjase:**

183. ... of which only a few belong to very few real contact persons.

**Ptaah:**

154. **Anthroposophic medicine** is grounded in a worldwide and very confusing 'spiritual-esoteric' worldview and its associated training and cognitive pathways.

155. Anthroposophy is an attempt to combine elements of German idealism, the world view of Goethe and the gnosis of Far Eastern teachings with the 'scientific' insights of Steiner.

156. An application of the idea of evolution in relation to 'spiritual' development forms a central aspect of this.

157. Steiner took for his anthroposophy evolutionary approaches of the Darwinist Haeckel, as well as especially from the modern theosophy of Helena Blavatsky.

158. In contrast to representatives of a purely secular, scientifically oriented idea of progress, understanding humanity and its development 'spiritually' and supersensibly, anthroposophy sets itself apart from theosophy proper and its eastern religious orientation.

159. Anthroposophy includes evolution, as well as a new interpretation of evolution, which led to extensive controversies about possible social Darwinist and racist aspects at the time when the anthroposophical system first came into being.

160. According to the unreal understanding of the founder Rudolf Steiner, anthroposophical medicine is based on confused esoteric principles of natural science and on anthroposophical 'spiritual science', as well as on research into the phenomena of the physical, the living, the 'soul' and the 'spiritual', which, realistically speaking, raises more questions than real knowledge.

### **Amata Stetter**

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_057](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_057)

#### **Billy:**

... So I want to ask the first question. Amata writes it this way: "Are these large ships, which I see again and again, with a large superstructure and many cabins, simply spaceships or even large-capacity ships? How many people are on a ship like this?"

#### **Quetzal:**

5. This description of the objects is neither one nor the other, but quite simply very large emigration ships with an average diameter of 120 kilometers, with a capacity for human life-forms of around one million.

6. These gigantic ships serve exclusively for emigration purposes, especially when a world is very endangered and destruction is to be considered.

7. These are the same giant migratory ships that were used by our ancestors at the earliest times, when they came from the Lyra-Vega region to Earth and later also settled on our Plejaren constellation.

8. Their external shape and size have been maintained since then, but they have been subject to constant innovations of a technological form, so they are equipped today according to the state of the art.

9. When Amata received our teleimpulses as teleprojections, she saw everything in an extremely reduced form, because she would not have been able to grasp and overview the gigantic size and the reality of it.

**Billy:**

Aha, then she practically saw something like models?

**Quetzal:**

10. No, that is not quite so, because she sees the projections as quite large.

...

**Billy:**

She goes on to write: "What do these creatures mean who, on Thursday night, climbed out of a wonderful blush in the sky, each time after a bolt of lightning that was not followed by thunder, got out of a vehicle and descended on UFOs stationed in the vicinity of our house, on or over trees, etc.? They were all dressed in white robes and they were all looking at me. One climbed down a staircase in a long white garment with wonderful glittering silver stars on the robe. He went under my window and then went to a UFO stationed under a tree. From there he looked up to me, while more and more other beings in white clothes and in whole groups came here.

**Quetzal:**

12. This phenomenon is a teleprojection on our part, for the purpose of triggering memory.

13. The beings wrapped in white clothes embody our ancestors from a period of approximately 70,000 years ago, who came to Earth at that time, but who did not live in fixed houses, but in their free-floating beamships, which they had stationed mainly over forests.

14. Hence the UFOs seen by Amata and floating above trees, as she says.

15. Between the ships there were radiation belts of visible nature, which served as connections between the formations and lit up at intervals.

16. These are the flashes Amata saw.

17. The man dressed in the wonderful robe with the adorning stars was the YHWH of this emigration group, whose most distant descendants still live somewhere on the earth as their own smallest group of former extraterrestrials, but whom we have not yet been able to find by any means imaginable.

18. In the meantime we could only find out with certainty that Amata, from her old personalities, must today be a very distant descendant of the brother of the former YHWH, which means that this group of extraterrestrials, who as mentioned were a part of our ancestors, must have mixed with terrestrial people here on Earth and forgot their actual origin.

19. And to find out how these connections extend now and how, and where today's descendants of these ancestors live is one of our tasks, and that is why we also are making an effort for Amata.

**Billy:**

This is really fantastic; then here's another question from Amata: On Friday evening a vehicle came out behind the moon, hanging on two clouds, and floated down onto the roof opposite our house, which was suddenly covered as if by a white blanket of snow. An old man with white glasses looked out of the window. The vehicle stayed only briefly on the roof, rose again and floated past my window, while the old man looked at me insistently. Then it ascended again to the sky and disappeared behind the moon.

**Quetzal:**

20. This teleprojection is the representation of the brother of the old YHWH to solve further memory factors in Amata.

21. The beamship or vehicle, as Amata says, floating between two clouds, means the representative position of the old man as YHWH.

**Billy:**

Good, then the next Amata question: Other white figures sat again on the opposite balconies. A man in a white robe was lifted out of a UFO by two men in gray working clothes and lifted onto a

stage where he sat down and looked up to me. Down in the courtyard of the neighboring house stood a bunch of people in gray working clothes right next to this stage. One of these men detached himself from the group, lit a star and hung it over the garden railing. More and more people came in large beam or space ships and settled on the surrounding roofs. Then came again beings in white garments and in vehicles which looked like thick tree trunks and had large cabins. With these vehicles they drove directly into an already present big ship. Could these white creatures be sons of heaven?

**Quetzal:**

22. Our ancestors and us in former times were called sons of heaven by the earth-humans.

23. This teleprojection is a reference to the past, the present and the future.

...

41. The white figures Amata had seen on the opposite balconies are teleprojections of the old venerable ones of long gone times.

42. These are the beings who begat and ruled the white earthly human races.

43. But there are also their descendants among them who in peaceful form pushed forward and determined, up to a certain value, the later earthly development of humankind.

44. So they are the true ancestors of the white earthly human race, while the people in gray working clothes (the folk, as Amata calls them) represent earthly mankind in all its colors and races of today, standing next to a large platform.

45. This platform symbolizes the foundation of truth, knowledge and wisdom.

46. Onto which two gray clad Earth-humans lift a man dressed in a white gown, whom they have previously lifted out of a beamship.

47. After they have lifted the white-dressed man onto the stage, one of the two men takes a star and lets it shine in bright light, in order then to hang it brightly on a fence.

48. These pictures symbolize the present.

49. This is the call of time and evolution in the sense of knowledge and dissemination of truth in the Aquarian era.

50. The venerables, dressed in white mentioned above, are and were the origin of all human life existing on the earth today in their known form.

51. Everything was determined and directed and partly pre-programmed by them, but this never elevates them to hierarchical forces or powers, because such values do not exist.

52. However, due to the willfulness of the Earth-humans, who are many races, many things failed and went in very degenerate [got very badly out of control of the good human nature] and negative tracks.

53. Thus it was determined by the decision of the old venerable ones in foreseeing of the coming events that at the time of the Aquarian era a new prophet should appear, who already would have been so in former times as other personalities had who walked the Earth and patiently fulfilled his very heavy duty, true to his mission.

54. So it had been foretold by the venerable ones that at a certain time the same prophet would come again incarnated in a new personality, begotten by predestination and born by earthly parents, as was the case in former times, but begotten at that time by the seed of a son of the heavens.

55. The incarnation of the prophet in the Aquarian age is represented by the image, of two beings dressed in grey, a man and a woman, two earth-humans, lifting a man dressed in white out of a beam ship and putting him on a platform, from where he will spread the knowledge of truth, wisdom and love.

56. The great multitude, as Amata says, represents the mass of earthly humanity that hears and receives his teaching, while his light of wisdom shines and radiates, symbolized by the shining star suspended from the fence.

57. This action takes place through another gray clad being, an Earth woman.

58. This is Amata herself, for she makes the star shine and hangs it on the fence, which represents the barrier between knowledge and ignorance and between truth and untruth.

59. The hanging or placing of the star on the fence symbolizes the state of the Prophet who has overcome the 'barrier of ignorance' so he is able to fulfill his mission.

60. But the doing of enlightening and putting the star on the fence also shows the state of Amata, her important role which she has to exercise in connection with the mission fulfillment of the prophet, because through her connection to our ancestors, which we have meanwhile established, she was destined to help the prophet in the form of her teleprojective connections and contacts to us, to be able to testify through her teleprojective connections and contacts to us that we exist and maintain actual contacts with the prophet himself.

61. This, however, is only of importance in the narrowest of circles through which the basic values in every relationship are developed and disseminated.

...

63. This is fundamentally the interpretive value of this important teleprojection.

64. In Amata's important interest it should also be mentioned that certain projections of these things are unavoidable for us, because only through them can we track down these very old facts anchored in the memory banks and memories penetrating very deeply into her subconscious, which can provide us with valuable information about the connections that are extremely important to us.

65. But Amata should be careful not to deal with the projections more than necessary.

66. On the other hand, we have also noticed that Amata is burdened with misleading teleprojections from an unknown side, which obviously serve a lower purpose.

67. We have known this for some time, but have not yet been able to produce an analysis.

68. So let her exercise caution.

69. We will continue our efforts to find out where these strange teleprojections come from and what their real reasons are.

70. However, this task is made very difficult for us because the teleprojection impulses are so distorted that we cannot locate their origin.

...

74. The further appearing figures with white clothes are the Earth-humans of the future, who through the teachings of the prophet will knowingly become wise and defeat ignorance in any form, whereby they will build large but still primitive spaceships, with which they will fly to other stars and planets foreign to the [Sol] system for the first time after a very long time and establish contact with other races of humans in the universe.

75. This is represented by the flying tree trunks with the large cabins that fly into an already present large ship.

76. This is the interpretation of this teleprojection, which we sent out by teleimpulses for certain reasons and which was apparently actually received by Amata.

...

**Billy:**

A huge thing, I think. But may one know where this prophet now lives, what his name is and where he had already appeared as a prophet before, and under what name?

**Quetzal:**

79. You know him very well because you embody this person, and we suspect that you know that better than we do.

**Ptaah:**

During our conversation, however, she {Asket} mentioned Wendelle Stevens and said that she had also known him personally. However, she did not want to get involved in further explanations in this regard, but referred me to you, which I then also did and you instructed me to ask her again about the place and date of your first encounter with Wendelle Stevens. It was only a few days later that she told me more about your and her first and continuing acquaintance with him. He was also strictly sworn to secrecy and was not allowed to talk to anyone about your early acquaintance. This was also not the case when the predetermined official path to an official acquaintance with him via Lou Zinsstag – Professor C.G. Jung was a distant uncle to her – had emerged. Your much earlier acquaintance with Wendelle Stevens, however, as Asket explained, had to remain as secret as her contact with him. He was under constant surveillance by the secret service and also had to answer questions several times, but because he remained silent and did not give any information about what was suspected of him, false accusations were made against him, which he accepted in silence and was therefore innocently sentenced to a long prison term. Nevertheless, he remained silent because otherwise he would have been charged with endangering the state and would have had to spend the rest of his life as a prisoner. But now that he has passed away, to which Asket said, when I asked her about it, that she would no longer have to keep her silence, she gave some dates where and when you first saw and met Wendelle Stevens. According to her, it was in the United States of America on 14 May 1969, in an area called Casa Adobes, but where the three of you went several times until 1975, in areas Asket called 'Saguoro area', 'Javslina Rocks', 'Pine top Lake' and 'Gila Bend'.

Asket also told me that she had entrusted Wendelle Stevens with the date and location of an upcoming secret test flight concerning a secret new type of fighter aircraft called F 117A, which would take place in the month of June 1981 in an area called 'Groom Lake'. This tempted him, with their help, to enter the area and remain hidden, and then, when the test flight was carried out, to take a large number of photographs at the risk of his life. If he had been noticed by the many guards who secured the whole area, then, as Asket said, he would have been shot immediately without a call.

**Zafenatpaneach:**

... As early as 1980 Semjase told me that on the 27th of May 1979 you and Guido had contacted Wendelle Stevens in America or in an area far outside the city of Tucson – with whom you had already communicated frequently via a telephone system, but about which you both remained silent until the end of his life, as well as about the fact that Guido was involved in this incident, that he also knew Wendelle Stevens and was allowed to fly in Semjase's flying apparatus. Wendelle Stevens guided you that Sunday to another area called Death Valley, where you had already been with Sfath and can boast an experience that no other human being is likely to have so soon.

If I start again from the beginning. The reason for the whole thing was because you had told Guido a strange thing and he was interested in it, consequently he wanted to see the place and the traces of the phenomenon that happens in that desert area from time to time. When you informed Semjase of Guido's interest, which urged him to at least see and enter the place in question himself and also to meet Wendelle Stevens, Semjase agreed to fly him to Death Valley in America with you in their flying apparatus and also to include Wendelle Stevens, which is how it turned out.

98. These were then provided with the full names and addresses of all US Presidents in office from 1950 to the year 2000, as they had been fathomed by my father Sfath through time-forward visits.

99. He was then also responsible – which I only found out today from my father's annals – for the 10 copies reaching the White House in the USA, where they were hidden away as a special secret matter for all presidents, with the involvement of the then President Harry S. Truman, who resided in 1953.

100. However, his memory regarding the secret stash and contact with my father was then erased.

**Billy:**

So Sfath had been in direct contact with Harry Truman.

**Ptaah:**

101. That's according to my father's annals.

**Billy:**

But how was it then that the whole incident was erased from Truman's memory?

**Ptaah:**

102. To explain this would require longer explanations, but they would go too far and would explain facts which I am not allowed to state openly.

103. First, however, it must be explained that the erasure of the relevant memory factors was not forced, but was done with the consent of President Truman.

104. However, I can and may only point out that my father proceeded in 3 steps, the first of which was neuroscientific, in which President Truman himself made an active effort to erase his memory.

105. On the one hand, this occurred as a result of my father's influence of speech, whereby Truman so reshaped, altered and removed his mental context from his memory itself that he was no longer aware of, and thus erased, the whole incident relating to the contact with my father and the hiding of the secret matter.

106. The 2nd step took place in a post-hypnotic manner in order to remove the whole thing as a memory for a long time, but the 3rd step in this context consisted of a co-application of xenon gas, whereby the specific biographical thing that occurred lapsed into amnesia and was thus erased.

**{Eduard/Billy:}**

Still somewhat tired, I awoke in the early morning.

It was, to me, as if I had heard a shot somewhere.

Asket also immediately got up from the couch and quickly approached me at one of the ship's windows.

Some 20 metres away from the ship stood a man who, leaning on his rifle, grinned up at us.

Quite obviously he had fired a shot in order to cause us to notice him.

It was, without doubt, the same man whom we had met at night, some days ago, far from the ship.

Wordlessly, we let ourselves be carried out of the ship and went to the man who, grinning, slowly came to meet us.

He spontaneously reached out his right hand to us and laughed.

**Jitschi:**

That is really a surprise - what in the world!

Come and let me greet you two - that is really a surprise.

I should have thought of that right away, because how would it otherwise have been possible to find you two so sympathetic when you visited me at my camp.

That is really a surprise.

- I am Illyitch Ustinov, but simply call me Jitschi.

That is a surprise.

(He vigorously shook Asket's hand and then mine.)

**Asket:**

1. This surprise was, however, not foreseen.

**Jitschi:**

I believe that - that is really a surprise.

Indeed, I actually did not want to come here.

But I was impelled by something to stumble around here in the area and then I saw this thing there.

At first I believed that everything was only an hallucination.

So I came closer and found that I had in no way gone mad.

I have indeed already seen and experienced very many things, yet, up until now, not this here.

But I will not let myself be made insane because of it, because I have already heard of such things over in America and also in other places.

Where do you come from then - perhaps from Venus or from Mars?

**Eduard:**

I am neither from Venus nor Mars - I am a human of this world like you.

**Jitschi:**

But that cannot be. The crate there is indeed a spaceship.

**Asket:**

2. That is accurate in relation to the ship and with me too.

3. But my friend here is really from this world.

54. But these contacts might not be of great importance, because we would be informed about them very quickly.

55. Another possibility, however, is that their visual contacts took place with intelligences unknown to us, which somehow managed to penetrate unnoticed through our monitoring, which is very unlikely, or they had contact with the Giza Intelligences, which unfortunately we are not always able to monitor very precisely with their dark machinations.

*UFO Sect Wants To Clone People*

With an entirely clear conscience one may call the "Raelian Movement" an imbecilic UFO sect. And now they are once again spouting off in a questionable manner. This sect, founded by French automobile journalist Claude Vorilhon, awaits the blessing of "Elohims" and praises the cloning of human beings. For a cool US \$200,000 the UFO sect claims that it will clone humans. The project is part of the end-of-the-world ideology of Vorilhon, a clever and smart fisherman-of-the-faithful. The story of Vorilhon's sect began on December 13, 1973. This date was also the alleged beginning of the "New Age" when, according to his claims, extraterrestrial entities who call themselves "Elohims" made a revelation to him. Vorilhon, who disseminates untruth, claims that these 1.20 m [4 ft] tall extraterrestrial super beings have visited him in their UFOs and designated him as their mystical conveyor of salvation on Earth. The lively bunch of little extraterrestrial men supposedly introduced themselves to him as this self-proclaimed guru's foster parents. Vorilhon says the Elohims told him they began breeding terrestrials in their laboratories 13,000 years ago but their genetic gameplaying was not very successful, since an alleged inspection from space later revealed that Earth was in chaos. As a result, Vorilhon says, the Elohims felt sorry for their terrestrial wards who were irrationally bashing in each other's skulls, holding wars, committing adultery, performing criminal or villainous acts, and disobeying their creators in other ways as well. Consequently, the creators had to come up with a rescue plan, indeed, an entire rescue mission, to save the depraved earthlings.

In 1975, when the Elohims purportedly revisited Vorilhon, they invited him for a quick outing through the cosmic spheres, where he allegedly had the opportunity to sit at the dinner table with ancient biblical personalities as he visited the Elohims' home planet. There they divulged their plans to "Rael," as they call him. Of course, these plans always fit harmoniously into his delusional assertions to which many thousands of believers have since fallen prey.

Furthermore, so claims Vorilhon, the aliens mandated that he establish a UFO sect, after which he and his followers, along with the terrestrial human population, would be allowed to witness the peaceful invasion by the Elohims near the turn of the millennium.

In 1974--telling rubbish and mad fantasies--"Rael" [aka Claude Vorilhon] wrote his book *The Message of the Extraterrestrials-- The Book That Tells The Truth*. From the onset of his machinations he has also continued to hold lectures and various types of other activities, to which many of his faithful have succumbed. In 1994 he even went so far as to induce the Swiss Raelites into demanding that the Swiss government grant diplomatic immunity to the Elohims. And in order to receive the Elohimial extraterrestrials in style on Judgment Day, Rael's followers simultaneously presented model plans for an ambassadorial residence for the aliens which the fanatically faithful Raelites intended to finance to the tune of 6 million Swiss Franks [approx. US\$ 4 million]. In his reply to the strange demands of the sectarians, former Federal Council Otto Stich whimsically queried them as to how they intended to deal with the aliens at the annual New Year's reception for all diplomats.

Once again in accordance with the false teachings of their guru, the Raelites now believe that through their human cloning project they will rapidly advance toward their goal to salvation. Together with their extraterrestrial Elohimial foster parents, they vie for the salvation of the evil and degenerate terrestrials who are, so they believe, exceptionally degenerate beings, lost almost beyond hope, and total freaks within the entire universe. Hence, their objective is to remedy the many human shortcomings through cloning technology. The Raelites operate from a headquarter in Geneva, Switzerland; a base they established over a period of several years. In order to reach their imbecilic and deranged objectives, to put it mildly, the guru's followers

sacrifice 7% of their entire income, which adds up to quite a healthy bundle considering the sect's membership totals somewhere between 20,000 and 40,000.

**Billy:**

That's part of the illogical laws we have here in Switzerland. By these unreal laws it is forbidden and punishable to officially tell the truth. For this reason, I can be prosecuted for publicly naming the sect chief's fiddling and using terms that the court describes as offensive to personality as those of the sect guru. But let us not do that, because it is of no use. We can only wait and see what happens in the second instance with regard to a judgment. But if we are talking about sects, then I would like to hear your word about the nonsense that the sectarian hooligans are letting go of themselves, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contact persons, who want to be in physical or telepathic connection with extraterrestrials or people of other dimensions, consistently claim that the extraterrestrials or people of other dimensions are gods, saints, messengers of God or angels, etc., but at least salvation bringer, who want to save the people of the earth from destruction, etc.. ...

**Billy:**

... Then there is something else: the cult guru Raël alias Claude Vorilhon and his followers as well as several others, such as unscrupulous doctors in Italy and in some other countries, already want to create human clones. ... Behind all this there is only the desire for prestige and greed for profit, etc., where people are deceived who are incapable of procreation or who have lost a child or an adult and are left in the belief or are fraudulently informed that the deceased could be recreated. I think this is criminal.

**Ptaah:**

88. Which you are right about.

89. The research of terrestrial men concerning the creation of clones is still in its infancy.

90. Besides, irresponsible people like doctors and sectarians etc., lie and deceit, as you rightly said, are doing this, where greed for profit and prestige play a decisive role.

... F.B. {Fred Bell} has contacted us on the Internet complaining that we are revealing his name in connection with his hanky-panky about alleged contacts of his with your daughter Semjase. He wants us to have his name removed from the Internet. I do not agree with this, however, because his untrue allegations should be made public, I think. I think, however, that perhaps some words in the text should be changed so that less aggressiveness is expressed, because you know that in Switzerland and elsewhere in the world we are no longer allowed to call a spade a spade, otherwise legal action will be taken against me and ourselves, such as the

removal of his name from the Internet. For example, in the case of Claude Vorilhon alias Raël, with whom I have been litigating for years because I called a spade a spade and it looks as if the Swiss courts still agree with the guy and are kicking my ass for that. ...

**Billy:**

I have been using the term wangle for quite some time now because it's impossible to quote me in court for it – at least I suppose not – as it happened to me when I spoke my mind openly about a certain wangle. In Switzerland, unfortunately, it is forbidden to speak your mind openly and state the facts by name if you want to expose someone's unfair machinations etc. If you do it anyway, then unfortunately there are tough laws in Switzerland that forbid this and punish you, so that you are muzzled and the truth cannot be publicly disseminated. This is called freedom, justice and the rule of law. In this way, lies, fraud, crime and swindling are rewarded by the legislation, the administration of justice and thus by the courts and their jurisdiction, and also by the fact that, when really serious and most serious crimes as well as violent and capital crimes are committed, the guilty are handled and treated with kid gloves and sentenced to extremely short and inadequate prison terms – if at all, if they are not given a suspended sentence. The greater and more serious the criminal act or crime, and the higher the professional, financial or social position of the perpetrator, the more lenient the judgement of certain courts will be, and the lower the sentences and penalties will be, the more inappropriate and completely inappropriate and scornful of justice. This is in stark contrast to real justice, which is very often trampled underfoot, thereby giving effect to the principle: "The little ones are hanged and the big ones let go". So it also happens that if a person speaks the truth openly and honestly in public with those words that clearly state the facts of the case, he will be punished by law for this, because any liar, cheat, swindler, thief, murderer, charlatan, burglar, work-shy person and criminal can be sued in court, if one publicly exposes his real machinations with the correct descriptions of his character traits and his actions and behaviour.

**Florena:**

4. In fact, it {see *Urandir Fernandes de Oliveira*} is a large-scale fiddle, as you like to call it, probably for security reasons as a result of the unjustified court decisions against you in the case of the cult leader Claude Vorilhon alias Raël.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_619](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_619)

**Billy:**

... Well, then, I have something here that you should read. It is an E-Brief which was beamed to me by Elisabeth Gruber and which is addressed to the FIGU. It is a matter of the sect of the alleged UFO contact Raël, who wants to be in contact with so-called 'Elohim' and on whose behalf he is supposed to be ambassador or something on earth. I'm sure you'll remember that I was sued by this Raël sect because I wrote something about the cult boss Claude Vorilhon that didn't fit into the sect members' stuff. The sect had created a symbol that represented a hexagram with a swastika, which was later replaced by a windmill. The Raël movement, also called Raëlism or Raëlist religion, was until 1976 also known as MADECH ('Mouvement pour l'accueil des extraterrestres, créateurs de l'humanité', German: 'Bewegung für den Empfang der Außerirdischen, Schöpfer der Menschheit'). The 'New Religious Movement' was founded in 1973 by Claude Vorilhon alias Raël (\*1946), who claims to have had an encounter with a representative of an extraterrestrial civilization who had stepped out of a UFO. The group became known for its desire to facilitate human cloning.

**Ptaah:**

27. The whole matter is no more and no less than absolutely ridiculous, and it must show every rational human being on Earth the boundless nonsense spread by this sect.

**Billy:**

The sect obviously does not consist of bright members, because they do not think for themselves, because they are not capable of doing so, so they let their guru think and decide for them. I don't want to say more about this either, because it would carry water into the Rhine. But I wanted to show you how the Raël sect is still doing its stupid mischief.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_650](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_650)

**Billy:**

Thank you, then we will finally have clarity in this respect as to how everything has happened. This also refutes the weak-headed assertion of those lunatics who swear that humanity on Earth was created by extraterrestrials, such as the Raelian sect and other sects spread this nonsense.

**Ptaah:**

74. Extraterrestrials have in very early and also in more recent times only interfered in the development of the ancient terrestrial early human beings, which is why they have played certain determining roles in this respect and have also brought calamity to the Earth.

75. This, too, in the wise of their mating and mixing with the terrestrial early humans beings and so bringing the Sirian genetic manipulation to the Earth.

76. The latter has then spread on a large scale among the earthly humankind by way of heredity and has through aggression, disharmony, jealousy, wars, murders, manslaughter, unpeace and unfreedom, etc., brought a great deal of calamity and has preserved it up to the present time.

77. But so this did not happen as a result of a creation of Earth-humans by extraterrestrials and alleged Elohim etc.

78. By extraterrestrial immigrants, who mated and mixed with the early herd people, on the one hand only the Sirian gene manipulation and other gene transfers caused by race were spread worldwide by inheritance, and on the other hand already early the generally all-encompassing and at that time possible primitive development was promoted in various relations.

79. Only in these forms did the extraterrestrial immigrants of all times make reference to the terrestrial human beings, but never in such a way that terrestrial humanity was created by them, extraterrestrials.

80. So the effective truth is that humanity on Earth has emerged as its own creation from the development of life forms on Earth itself, although certain genetic factors of extraterrestrial immigrants have remained in it from the early days of early earthly humans and also from later times, as well as Sirian gene manipulation in large parts.

**Billy:**

And that you Plejaren, through your teachings, try to do something against the misconduct and the mischief of the old extraterrestrial immigrants, just by teaching and informing, you consider this simply as your obligation, because the old immigrants belonged to the Nokodemion descendant peoples, just like you Plejaren. That's the point, isn't it?

**Ptaah:**

81. That's so, yes.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaren have become the focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

... Today, I have something similar, namely a letter again, which clearly indicates that it is a swindle. Here, if you want to read it...

**Semjase:**

...

7. Is this supposed to be a joke, or have these very faulty words been written with seriously deceitful intention?

**Billy:**

They are really meant to be serious, obviously in order to perpetrate a fraud.

**Semjase:**

8. Then it truly does concern a fraud, which certainly must be explained by me.

9. The few human races in the area of the Cassiopeia constellation in another space-time configuration are well-known to us, but they have no resemblance to the life-forms mentioned in this letter.

10. Also, their flying apparatus do not correspond in any manner to the kind described here, and besides, their technology is not so far and highly developed that they could, with their own flying apparatuses, reach the Earth.

11. The technology of one of the two races is presently developed so far that they prepare just the first flight attempts to outer space, and they stand just a little bit behind Earth's technological development.

12. The second race, which is on another planet behind the Cassiopeia constellation, only has flying apparatuses that master their own planetary space somewhat certainly.

13. Among these facts is the further complication that both of these races of human life-forms exist in a different time plane in relation to the Earth, like I said, so separated from the time plane that is known to the Earth human being and in which they live.

14. So when the human beings of the Cassiopeia constellation one day master space travel, they still will not be able, for a long time, to penetrate into the time plane in which the Earth-humans live their existence.

**Billy:**

And in our time plane known to us, no human life-forms exist, who would be capable of space flight in Cassiopeia, ie in that area?

**Semjase:**

15. Sure, there are human beings there, but these are not yet advanced in space flight, or are not yet so far advanced that they could carry out journeys through universal space.

...

**Billy:**

... Then this Josef Wanderka, who wrote this letter, is just another spinner?

...

**Semjase:**

28. Especially with this letter, it would have had to hit him that an attempted fraud was present because certain similarities to your writings unmistakably point to the fact that these are clearly based on the fact that your written material was reproduced in a distorted and fraudulent form.  
29. A lot of this very clearly and without a doubt points to the fact that this person, Josef Wanderka, has falsified compositions from your writings and from our contact reports in his own favour and has maliciously and intentionally written them down as his own experiences.

#### **Ptaah:**

1059. If it is indeed the case that their statements and reports are not true.

1060. This is the case if these Earth-humans are not in contact with any extraterrestrial life-forms and only fabricate their statements and 'evidence' themselves through their imagination and skill, as was the case with Karl Michalek and George Adamski, for example.

#### **Billy:**

So that means that these people are deliberately creating and spreading lies for some reason?

**Ptaah:**

1061. It is so.

...

1093. Fortunately, real swindlers and frauds are few at present, but there will be very many more in the decades to come who lie and are fraudulently false contactees in this respect, i.e. such Earth-humans who, for selfish or world-improving reasons, etc., create lies, swindles and frauds, have created or will create lies, fraud and deceit to serve their own or other's egoism, delusion and profit, like Michalek and Adamski.

...

80. There probably exist foils of the measurement you have referred to, but they were fraudulently made for unfair purposes by Earth-humans a number of years ago.

**Billy:**

This answer is clear; but what kind of characters are there on these man-made foils?

**Semjase:**

81. They were confusingly, but logically, made by a whole group of earthlings for fraudulent charlatan purposes.

82. But they are truthfully of complete insignificance.

83. Adamski also worked in the same form and also forged such characters for fraudulent purposes.

84. Also Michalek and some others have indulged in the same lower machinations.

One of them was called Adami, or something like that, another one Genovesa and yet another one Michalek. Could you tell me something about them?

**Kohun:**

... The names you mentioned are well known to us, but you mispronounced them: The first is called ADAMSKI, the second, Genovese, and the third, Michalek. 3. The statements made in this report are not only highly implausible and unrealistic, but also correspond to clear and undoubtedly freely invented falsehoods and wild, childish fantasies without any real background.

4. Furthermore, the incredibly stupid and audacious assertions contain such blatant excesses of contradictions that even a person who is uneducated in this field must recognize the incredibility of the whole story.

5. Just looking at the claim concerning the celestial body Aldebaran shows such ignorance and stupidity that I blush with shame when I think of a grown man publicly spreading such nonsense.

6. Aldebaran is on the one hand, as you yourself know very well, an already very far expanding and decaying star, which has only an inherent heat of hardly 5,000 degrees Celsius and no more energy and power to guarantee higher, let alone human or human-like life on any planet.
7. And furthermore, you know this as well as we do, because we also let you see this star, its nearer and farther surroundings and the entire Taurus region on your Great Journey, there are no solid-matter planets in the entire Aldebaran system, only gas planets, which do not and could not carry any higher life apart from bacterial life.
8. So there is also no planet called Arian or inhabitants who would call themselves Arian, who are also supposed to be distant relatives of the Earth-humans.
9. These assertions alone are so nonsensical that I have to ask myself whether the man who invented these dubious stupidities is still in his right mind.

...

12. But now we should not talk about it any further, because in all the nonsense of what is written there is no value at all.

**Billy:**

Then you mean that this work, what is it called, ah yes 'MY UFO EXPERIENCE ON RÜGEN', written under the pseudonym Martin Wiesengrün, is completely worthless.

#### **Billy:**

... not a single person in America or elsewhere on Earth has had contact with Pleiadians until now nor will they have any in the near or distant future. This also shows that I, BILLY, am the only human being on Earth who has ever had any contact with the Pleiadians or will have had any contact. All those who claim the contrary, however, or claim that other people on Earth or they themselves are having physical or spiritual contacts with Pleiadians. no matter how, are simply always very conscious, contemptible, dirty, characterless and indecent, depraved, impertinent and morally degenerate, disgusting, miserable and despicable liars, cheats and deceivers beyond compare. Amongst those who stand out are especially Americans or those of American decent (however, people from other countries, e.g., Germany, Spain, Italy, South America and France, and so forth, fall into the same category of depravity, even though they are not quite as blatant as Americans). Names such as Fred Bell, Roberta Brooks, Siracusa, Rael, Andreas Schneider, Jahnke, Groenke, Griscom, Penny McLean and many others, are daily routine items.

#### **Billy:**

I simply want to point out that so many lunatics on Earth still claim and the longer the more that they have contact with humans or spirit-forms etc. of the Pleiades, e.g. the liar B. F. then the South American or Mexican C. and the Mexican professor anyway, then also the actress M., with whom we had quite bad experiences, but also G. G., who wants to maintain contact with a Pleiades commander Hatoon, then P. M., or as they are called and many, many others, such as R. B. and the super-channel G. C., etc. etc. and so on.

#### **Ptaah:**

767. They all fall under the names of liars, swindlers and fraudsters.

#### **Billy:**

... Is there anything you know about a certain Jani King? Recently I received a fax saying that this women from North Queensland in Australia has written at least two books about...

**Ptaah:**

44. ... alleged contacts with me, which of course is just as much a kind of irrational shady wheeling and dealing as the untenable claims of Penny McLean, Barbara Hand Clow, Barbara Marciniak and Amora Quan Yin and others, who engage in shady wheeling and dealing and claim to be in some way in contact with me or with other persons or some spiritual beings of our people.

45. In the same league also belong F. B. with his made-up contacts to my daughter Semjase as well as Adrain with his story of lies and the alleged contacts in Florida.

46. We have from our side never had such contacts with human beings on Earth – except those known to you, and only those to your person -, and there are also no such contacts at present, and in the future too no such contacts from any human beings on Earth will materialise with anyone of our peoples.

47. But if human beings of the Earth nevertheless claim to be in contact with one of us, or with spirit-beings of our peoples, then this is equivalent to a lie, to a fraud or to a charlatanism.

48. Also schizophrenic processes and suggestive influences as well as self-deception etc. cannot be ruled out in such cases.

49. Liars, swindlers, fraudsters, charlatans and persons with delusional sickness of the kind who claim to be in contact with us, are unfortunately more and more found on Earth.

50. All of them are as a whole, and I must emphasise strongly ALL of them, only poor lunatics, schizophrenics or other delusional-sick ones, or otherwise deliberate liars, swindlers, fraudsters or charlatans.

51. And it is in that context interesting to note that it is only since the time of officially spreading your mission and thus your appearance in public that we Pleiades/Plejaran have become the focus of public interest and have been abused by dozens of delusional-sick ones as well as liars, swindlers and charlatans for alleged contacts with them, whereby all these sick and dishonest persons are assessed by practically all UFO circles to be true contact persons and their delusional or lie and fantasy stories are accepted as true, even though no letter of their blathering is correct – while you as real contact person towards us are in an abusive way accused of being a liar and fraudster and your evidence accused of being falsifications.

**Billy:**

... But since we are already talking about sects, I would like to hear your word about the nonsense that the sect henchmen spout, which also applies to the Raël movement leader. So, the sect gurus and also all alleged contactees, who want to be in physical or telepathic connection with extraterrestrials or other dimensioned ones consistently claim that the extraterrestrial or other dimensioned ones are gods, saints, God's messengers or angels etc., but at least saviors who want to save the people of earth from destruction etc. These claims also exist in relation to you Pleiadians/Plejarans and in particular to you, when I think of the fraudulent claims of those who are said to be in contact with you or with other Pleiadians/Plejarans. I'm thinking in particular of Jani King, Barbara Marciniak, Fred Bell and Penny McLean and their ilk. Of course, Carlos Diaz must not be forgotten either, nor must Siracusa and many others who deal with people other than you. ...

...

**Ptaah:**

70. We Plejadians do not come to earth as gods, angels, saints or the like, and we also do not come to bring salvation, peace, freedom, love, knowledge, wisdom and progress to the earthly world and to earthly men, for all these values must be laboriously worked out by the man of the

earth himself through his reason and understanding as well as through his thinking, feeling and acting.

71. So we also do not solve any problems for the earth-men, because just as we are not saviours, we are also not omniscient, who we could solve and master all problems and evils.

72. So we are not ultimate saviours either, but only simple people, whom we do not rise above the earth-men or other people in the universe, even if we are generally higher developed in all things than the earth-men etc..

73. We only come here in the obligation of bringing certain values of knowledge etc. to man of the earth through you, as well as through teleimpulse impressions etc. unconscious for man of the earth, which he himself must grasp and compile to knowledge.

74. And as I said; as mediator between the earth-man and us serves thereby our only contact person living on earth, namely you, Eduard, to whom you are called 'Billy' according to your destiny, together with the name Eduard Albert Meier given to you at birth.

75. And you too, as our messenger, are not omniscient and not salutary, for knowledge and salvation must be created by man on earth himself.

... So you are not located on the mentioned stars or on any alleged planets, such as the Pleiades, which at the beginning of our contacts we had at first deliberately falsely named as your home stars, in order to later be able to expose liars, deceivers and charlatans, who allegedly or falsely and thus untruthfully would have contacts with you Plejaren. And that this is exactly how it came to be, you knew this in advance through foresight, which is why we started the deceptive manoeuvre with the false place of origin 'Pleiades' and only named your real place of origin Erra with the Pleiaren stars in the ANKAR space-time structure, when in the course of the years various lying alleged contact persons, who claimed to be in contact with you, could be unmasked. ...

However, the fact that I had to name the Pleiades stars as your place of origin at the beginning of our contacts in 1975 according to your instructions was effectively the correct way, because only in this way could the fraudulent alleged Pleiades contactors of both sexes be convicted of lying. It is true that there are still a few lunatics and madmen who claim to be in contact with you, Ptaah, by channelling etc., like the confused Penny McLean etc., ...

**Billy:**

Then one last question, which refers to Gabriele Wittek. You once told me that all her so-called revelations etc. were invented and offered by herself and that not a single word of everything corresponded to the truth. The woman presents herself as a self-proclaimed prophetess, also as a self-proclaimed medium of the sect 'Universal Life' and also as a mouthpiece of God, as did Erika Bertschinger alias Uriella. According to your statements I made a corresponding remark in Bulletin No. 25, on page 21, as a result of which I once again received a harnessed complaint,

this time from France, from a man who obviously had something to do with this woman and who told him various things about his and his wife's life. What is this about?

**Ptaah:**

46. What I explained to you is true.

47. Not a word of what Gabriele Wittek tells as a medium etc. has any origin other than her own.

48. She has no contact with any beings except her own, which means that she actually creates and invents the whole in herself and then imposes it as 'divine wisdom and love' on her believers and other followers.

49. But an alleged alien also plays a certain role here, who for the chosen ones of the sect 'Universal Life' is supposed to be, so to speak, a saviour in need, by one day – probably at the end of the world, since this is also an end-time sect – saving the chosen cult members with a spaceship.

50. And since the woman possesses a good psychological ability – as is characteristic of practically all sect heads, by which they astonish their believers and other followers again and again, combined with a certain knowledge of human nature – it is easy for her to eavesdrop on her followers without them noticing it, consequently she makes all sorts of combinatorial assumptions about her followers, etc., which are often correct. The latter then naturally fall for it and believe everything, so that the woman can do more than others and that she is actually in contact and connection with 'higher' beings.

**Billy:**

... Then once again a question that also refers to something related to UFOs, because there is a story going around on the Internet at <http://projectcamelotportal.com/> about a certain Mr. X who is said to have appeared in December 2005 and who allegedly – according to the title 'Mr. X speaks out on secret UFO archives' – worked on secret archives about UFOs and extraterrestrials for a contractor company of the U.S. Department of Defense. An author Bill Ryan and an author Kerry Cassidy are responsible for the publication of the story. The story seems very strange to me, since certain contradictions appear as well as ideas for world improvement, Raël fantasies, strange claims about statements of alleged extraterrestrials and also inconsistent claims regarding Roswell and other UFO crashes, etc.

**Ptaah:**

45. These fantasies are also known to me, but they are not to be taken seriously, like all the other nonsense, which is spread by many female and male wannabe greats all over the world in an addicted to show off manner in the context of extraterrestrials and their flying machines etc.

#### **Billy:**

If my first sightings of UFOs were only at night, when I saw them as "moving stars," then that changed already after a relatively short time, for on one beautiful and warm late summer afternoon, I saw, to my delight, a spherical object high in the blue sky, slowly drifting along and sinking deeper, until I was able to recognize it as a proper sphere. Then, it vanished all of a sudden and without a trace, without any noise or recognizable reason.

In the following time, the day sightings accumulated, and one day I again felt something strangely foreign in me. It was like a voice somewhere in my head, and somewhere there were also drawn pictures that were inexplicable to me. This inner voice and the pictures prompted me intensively and repeatedly to seek an answer and also to give it. This happened in the late autumn of 1942, just a few months before the transition to my sixth year of age.

These appearances completely foreign to me, this inner voice and the pictures, they somehow worried me, for in my then still own unknowledge about such matters, the thought came to me that I would slowly go crazy and insane. This was a reason for me to approach one of our Protestant pastors, in the hope that he would help me. He then did this very helpfully and with obvious knowledge of the situation, even though I had never told him anything before. As it seemed to me, he was well informed about UFO matters and had a great deal of knowledge in this regard. So he cleared me up in the matters of UFOs and my "inner voice" and the "inner pictures" and explained to me that I should attempt and try as fast as possible to give a response to the voice continuously calling out in me. I can still remember very well that he, while friendly laughing, took away my anxiety with the words, "You need not be afraid, because you know what you hear and see inside you, that's just telepathy." Then, to my astonished and probably also rather uncomprehending face, he explained to me very exactly what I had to understand by telepathy. Together with this, however, he still explained to me very many other things, which I still could not fully understand at that time as a five-year-old boy, but which I

learned to understand fully in later years, as I also became aware that this old and lovable pastor was an initiate.

**Billy:**

... You once told me that Father Zimmermann was called to a contact. Consequently, I thought that at least one contact was personal and physical.

**Ptaah:**

37. No, to my knowledge this was not the case, but all contacts were purely telepathic in nature.

38. Apparently you misunderstood 'being called' and concluded that a personal contact had taken place.

39. Being called to a contact simply means being called to a telepathic contact.

**Billy:**

Then it's like a radio call etc. - you are called, that would be the right version.

**Ptaah:**

40. You can also define it that way, yes.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_690](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_690)

**Ptaah:**

89. Father Zimmermann also knew this, because he was personally contacted by my father Sfath on one occasion and educated in all necessary matters, as a result of which he knew everything about you and your mission and also maintained a friendly relationship with your parents.

90. However, he kept silent about your mission to them and to all other Earth-humans, and he kept this secret all his life.

91. So my father only had a one-time personal contact with him, after which, however, telepathic contacts took place several times, whereby my father also explained to him several times and advised him never to influence you religiously, but simply to teach you neutrally about the Christian religion, because you would have to be instructed about it – as also about other religions and sects – and consequently he refrained from any religious influence in every respect.

...

**Billy:**

Man, that's news. You are telling me things there that I did not know, also that Reverend Zimmermann had a personal contact with your father Sfath ...

**Billy:**

... That everyone was fully on my side was arranged by your father Sfath with Pastor Zimmermann, who in turn agreed with my first teacher, Karl Graf, and then also with Gustav Lehmann, to help me. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_725](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_725)

**Ptaah:**

95. The records show that Father Zimmermann on the one hand concealed his contact with my father, Sfath, you and Professor Jung from his entire family, as was also the case with your two teachers Graf and Lehmann.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_727](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_727)

**Ptaah:**

7. However, you were never a believer in God, but Father Zimmermann was before my father Sfath came into contact with him, after which he was in any case no longer a believer in the sense of the Christian religion.

8. You knew that, but the priest ordered you to keep quiet about it, because neither his family, who were and remained believers in the Bible, nor the authorities and the population were allowed to know anything about it, because his office as priest would have been endangered.

9. When he felt called to become a pastor as a young man, he was very Bible-believing and God-believing, and he remained so until that time when my father contacted him.

10. Particularly significant – which is now also clear and understandable to me – was the behaviour of Pastor Zimmermann, because it is clear from the secret annals that my father Sfath contacted Pastor Zimmermann even before you started school in 1944, and not only through inspirations, but also personally.

11. That he then brought him back to Jmmanuel during a two-day time journey when he was 28 years old and was also able to speak with him via a language converter, you never told me anything about that, just as you never told me that you had already travelled back in time twice with my father before your journey with Asket and were able to speak with Jmmanuel, as well as with all the other earlier prophets.

12. This experience, however, that Pastor Zimmermann was able to talk to Jmmanuel and came to know the reality and thus the falseness of his religious faith, caused him to change his belief in the Bible and God, consequently his faith very quickly changed to an acknowledgement of reality.

...

**Billy:**

Ptaah, excuse me, I had no idea about that, because Sfath never told me. I am really gobsmacked there – really. The fact that Sfath was in personal contact with Reverend Zimmermann and that he even went back to Jmmanuel with him, he never told me about that either, just as Reverend Zimmermann never told me. Sfath, I think, would have told him that he must never speak about it, which he then perhaps understood to mean that he should also remain silent towards me. Sfath never said anything to me about it either, so I could never say anything to you either. And as for my journeys back with Sfath to all the other heralds, I was not allowed to say anything about it to you, Semjase and Quetzal, for your father said that you in particular would learn the whole thing when the correct time came for it, which, however, would be when you gained knowledge of it through your own efforts.

...

**Ptaah:**

... on the one hand your two teachers Graf and Lehmann, as well as also Pastor Zimmermann, were contacted in person by my father Sfath, informed and variously enlightened and instructed.

...

38. He further instructed both of them regarding the reality of creation as well as the falsity of religions, as he also informed them – as was the case with Pastor Zimmermann – that you would suffer terrible slander and be harassed by the school authorities etc. throughout your school years and also for some time afterwards as a result of slander.

39. My father also taught them how the falsity of religions and the faith of Earth-humans came about.

40. Through all the teachings, both teachers caused themselves, as was also the case with Reverend Zimmermann, to turn to the truth from then on and to be helpful to you in a secret way.

...

42. So it was incumbent upon all of them, the two teachers, as well as Pastor Zimmermann, to remain silent, because on the one hand they would have forfeited their reputation and their

livelihood by making an announcement, and on the other hand they would not have been able to provide the necessary help for you, but furthermore also with regard to ...

Several people from America and South America contacted Wendelle Stevens – some of them years ago – who claimed and claim that they had had or still have contact with Pleiades from the Alkyone system, whereby the different Pleiadian contact groups had no knowledge of each other and therefore did not know that other groups were in contact with terrestrial humans.

**Ptaah:**

30. Overall this corresponds only to lies, fantasies, dizziness and fraud, because all Pleiadian-Plejaren groups, and thus also all individuals, have always been – and still are today – under my command, because I am the Jschwish responsible for this solar system, but also the one responsible for the entire Pleiadian-Plejaren systems, so consequently nothing can be done with regard to contacts with terrestrial humans without me having knowledge of it and issuing an order for it.

31. We have already explained to you several times that of us Plejadians/Plejaren only my command is authoritative for the Earth and that apart from the members of my command no other Pleiadian-Plejaren forces have contact with any human beings of the Earth, neither physical nor telepathic.

**Billy:**

I did, because I did not mention his name, because I only mention it to you, nor did I say what the American's reason was for negotiating something so vindictive with Mao, who also hated the hell out of the powerful in the US, which is why he went along with the revenge plan.

Nor do these official calculations include the numbers of Corona-infected and Corona-death victims that have emerged since 1981, when the plague found its first origin after the US-Ameri ... in his hatred of the US agreed with Mao Zedong, ... consequently, now the country is also being hit worst by the plague in late revenge fulfilment, through the fault of the moronic US President Trampel-Tramp-Trump.

**Ptaah:**

It is then recorded that my father Sfath instructed you to write a letter to all governments and public media in Europe, which you then did on Thursday, the 7th of July 1949. After that, however, you explored with my father the next 6 decades from 1970 to 2030 and learned how, why and by what means the viral corona plague will arise and then evolve over the next decades to become the plague. This, my father wrote, will first emerge in mild forms to mutate itself over time, as but also by researchers deliberately commissioned by Mao Zedong in agreement with the vengeful American ... under threat of death, to begin their evil work, which is how it all came about. However, I cannot understand why you want to keep the name of this man secret from the public, because he died, as did Mao Zedong *{died September 9, 1976}*, before the plan of revenge that the two had devised together could be implemented, but is now being fulfilled for them posthumously, so to speak, but not only in the USA as planned, but worldwide. What is further written in my father's notes, however, is that in China, in a secret laboratory in the city of Guangzhou *{southeast coast of China}*, a virus will be created that will escape from a laboratory for the first time in 1976 as a result of carelessness.

**Ptaah:**

Thanks for your understanding. I am aware of what we said on the 6th of November with regard to ending the talk about the Corona plague, but obviously there is a certain final word that needs to be said about it, and that is the following: Our observations show that through various scientific efforts and processes attempts are being made to fathom the origin and cause of the Corona plague. As for the term Corona-19, it is misleading and should be called something else, according to its actual origin. Subsequently, the name should have been traced back to the US-American ... who, full of hatred against America, together with Mao Zedong, laid the foundation for the emergence of the epidemic. Both of them were responsible for this, but they can no longer be prosecuted for it, because they have gone the way of the transient, as in the meantime also all those who have worked in the three different secret laboratories since the mid-1970s on this hate project, which now brings deadly consequences for the entire population of the earth, instead of only for US America, as was fundamentally intended.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_765](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_765)

**Billy:**

However, what is still to be said or explained with regard to the Corona epidemic has already been said since the epidemic emerged in November 2019, and also that the epidemic was

already spread from a laboratory in Southeast China after the middle of 1979, which you obviously do not know. So I will briefly explain that its origins can be traced back to sheer evil hatred of an American, ... , who joined forces with Chinese leader Mao Zedong – who was also quite viciously ambitious against the US – whereby a plan was hatched to create a deadly virus that would then be released in the US to take revenge for something. As I said in this regard, the first precursor of the virus was unintentionally released as early as after the mid-1970s, has mutated some 5,000 times up to the present time, and then in its first rampant form as of January 2019, has already claimed victims all over the world who have fallen ill, with many already dying from it, and without the disease being recognised, consequently the deaths of many human beings have been attributed to other diseases.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_767](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_767)

**Billy:**

And everything we discussed, we also published, and also that this Corona epidemic began to claim many lives on a larger scale as early as January 2019 – although already before, but just less -, as well as that these through secret machinations of the vengeful American ... with the anti-American Mao caused the whole thing together in the 1970s, whereby secret laboratory work began, which already led to the origin of the epidemic in the 1970s. Even then, the first mutations emerged, which continued in large numbers into the new millennium and claimed many human lives because the disease was not recognised and defined as a different disease than it really was. So it was able to continue to develop unchecked, mutating many times, until it was finally discovered in Wuhan, because in the last secret laboratory the whole group became infected through carelessness and carried the disease out and spread it, but all those involved also died. Since then, many questions from all over the world have emerged about this, wanting to know what else has come out of it all. So far, I only know of one person from Brazil who has looked into the whole of these facts and also found out who the American was who made a pact with Mao and then the Corona plague disaster came out of that.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_770](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_770)

**Florena:**

Through the work of lies and deception, which is already a done deal, the whole of what has emerged as the effective origin of the Corona virus in the 1970s between Mao Tse-tung and the American ... who was grown up in hatred against America, is to be prevented, whereby the virus was bred in secret laboratories and then released through carelessness.

**Billy:**

And if it possibly comes to that with the origin of the Corona plague, then it will be to absolve the USA of any guilt, although it was an act of revenge by the American ... in collaboration with Mao Tse-tung, because the hatred of ... was directed against the American people and he wanted to punish them, although this ..., but that is all the same.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_773](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_773)

**Billy:**

It has been delivered to me, and it roughly confirms that an American, just ... .., had been with Mao in the mid-1970s for years and was responsible for the fact that the corona plague or the corona virus could develop in the laboratory. Of course, the connection and the name is not mentioned, because the scientists could not know the whole thing, but it practically confirms the story that the corona plague was developed in the laboratory. Of course, the researchers Dr Steven Quay, the founder of Atossa Therapeutics, and Richard Muller, a former top scientist at Lawrence Berkeley National Laboratory, could not have known that ... .. wanted to take revenge on the US people and secretly used the services of Mao and his secret lab assistants to do so, as I said in 2020.

**Billy:**

But as far as the US secret services are concerned, which are also involved, according to Florena's statement, they have for some time been frantically trying to find out the origin of the Corona epidemic and to hold the Chinese responsible for it. This, just as the WHO is also working in this way, which, however, the Chinese will not let sit on their hands and will defend themselves against. And they will rightly do so, because they really can't help it, and they also don't know anything about the deal and the origin of the whole thing between Mao and the hateful American, both of whom ensured that the epidemic could come about – even if the effect only manifested itself many years later and long after their deaths, and in a different way than was intended, precisely not only that America would be affected, but the whole world. Presumably, the US secret services read in the reports of the talks that an American together with Mao was responsible for the emergence of the epidemic back in the mid-1970s. Probably with all possible lies the truth is now to be covered up and the whole thing is to be maliciously blamed on a natural origin or the Chinese, although they – neither the rulers nor the people – know anything about the deal between the Yank and Mao. As far as I know, all 3 laboratories have been destroyed and the laboratory workers are all dead, ultimately also those who contracted the disease and carried it out as the final form, allowing it to spread.

**Billy {1949}:**

... But all this will still be harmless to what will erupt, which has been brewing since the mid-1970s, through the boundless hatred of an American who will join minds with the Chinese leader. For it will come to pass that millions of human beings of the Earth will die when in the new millennium and at the end of the 2nd decade of the 3rd millennium the corona disease will officially begin to be open and against the truth it will be claimed that its origin is to be sought in bats. The truth, however, will by no means be so, for already in the middle of the 1970s, through the hatred of a man from America and the dictator of China Land, this plague will be created in laboratories and spread far into the 3rd millennium, and thereby much death will be spread throughout the world. ...

... The crown disease will arise in China, but the rulers and the experts of the country will conceal the truth from the world and keep silent, although they will know it – but they will not know the real origin and the real connections. However, despite the knowledge of the existence of the epidemic, no information from the Chinese government and the scientific community will reach the outside world that would contain a warning to humanity that it will spread worldwide in a short time as a pandemic and claim millions of victims. And all this truth of the crown disease will be initially denied – even from China – which will be 'invented' in laboratories by the hatred of a man from America and the complicity of the dictator of that country. It will be bred in China as a plague in laboratories by laboratory experts in about 25 years without being noticed and will mutate and survive all hurdles until the new millennium, the 3rd millennium. Then, due to the carelessness of a laboratory worker, he or she will become infected with the newly developed virus and infect other human beings, who will carry the virus further and cause an epidemic that will soon spread worldwide, causing a pandemic and, moreover, influencing the emerging flu viruses from then on, which, however, can neither be proven by virologists nor by medical

doctors, because research into this foreign mutation is far beyond their knowledge and abilities.

...

... All that will demonstrably emerge at that time – but which will be officially concealed – will be the 'investigation' of a false origin of the epidemic, which is intended to make us forget the effective truth, namely that the origin of the epidemic was an act of revenge by an American who had fallen into hatred. A man who, in the 1970s, secretly joined like-mindedly with the Chinese dictator and, in a spirit of revenge, was able to bring into being the laboratory work that will bring the crown plague in the new millennium. Consequently, it will undoubtedly result in the plague being 'worked out' and ultimately beginning its deadly work of revenge and spreading its work of death not only in America – as is envisaged – but throughout the world. ...

**Ptaah:**

... It turned out – I put it carefully – that the American ... sought advice from a scientist in virology named ..., who is now deceased. Then ... travelled to China, where he agreed with Mao to commission researchers in suitable laboratories, who then began their work according to the order. This was the actual beginning, from which the first laboratory successes resulted and it also happened towards the end of the 7th decade of the 20th century that one of the laboratory assistants became infected with the new artificially created virus and spread this first variation in a disseminating manner. In addition, at the same time as the laboratory worker, 2 female bats of the diverse species Rhinolophidae were infected with the Corona virus, which as a result of the accidental circumstances escaped into the wild and joined their own kind. Consequently, these were also infected, but they remained only carriers of the disease virus, but were themselves immune to the outbreak of the disease. This laboratory-generated and released virus mutated thousands of times until the end of the millennium, infecting human beings who fell ill with a wide variety of ailments, causing many to die, like the laboratory worker himself who was infected by the accident. In the meantime, however, research and tests have continued since then, resulting in the Corona virus. This – again caused by a carelessness of a laboratory accident – again infected a laboratory worker in January 2019, who by infecting

himself carried the virus and in this way spread the Corona plague, which very quickly spread on Earth among the peoples and became a pandemic.

**Billy:**

Interesting – then, as I understand your explanation, the Corona virus is not a virus that came from bats and was further developed, but is effectively a true spawn of human laboratory work, or rather a product of human ingenuity?

**Quetzal:**

295. There are many irresponsible freeloaders who make big deals and immense profits with the UFO believers because they are cheated and financially exploited by the liars, swindlers and swindlers as well as charlatans.

296. This is how many people appear who knowingly and fraudulently claim to be in direct or telepathic contact with extraterrestrials, believing that the innocent are in full swindle.

297. On the other hand, your truthful contacts with us are vehemently denied by know-it-alls and opponents, envyers, autocrats, image addicts, sectarians, etc., and you are portrayed as a liar and a fraud, despite all the irrefutable evidence you can produce; evidence that no alleged contact person can produce.

298. But all this will intensify in the time to come, with the UFO believers running after all the contact swindlers without hesitation, courting them and going astray.

299. Increasingly many will claim through lies and deceit that they are in personal or telepathic contact with Semjase, with Ptaah, with me, or with others of our races, as well as with higher spirit-forms of our planes, in personal or telepathic as well as channeling contact.

300. But everything will only be lies, deceit and dizziness, because no human being on the Earth apart from you will be able to come into any kind of contact with us, just as we will only be able to come into contact with you, for which you know the reasons.

301. Nevertheless, in the next few years a contactee psychosis will spread across the Earth, as well as a true extraterrestrial delusion and a kidnapping delusion by extraterrestrials will appear in relation to belief in all imaginable and unimaginable extraterrestrials.

302. Thereby, through the extraterrestrial fairy tale, will create a financial violent business that will far exceed the previous one and will be coupled with esotericism and parapsychology.

303. This will benefit the secret plans of the countries which are doing their mischief with the flying discs, which is why they are very diligent in their machinations, which they then ascribe to aliens through their information channels, e.g. certain machinations with crop circles, animal massacres and alleged abductions and harm etc. by alleged aliens, in which all sorts of pretences are made by hypnosis and even foreign bodies are implanted in the 'abducted' etc.

304. Thus all possible and impossible aliens are invented, so that the secret plans and machinations can be carried out unchallenged, whereby however also the fear of aliens is stirred up and driven up.

305. So it is a fact that since 1945, when the plans of the air disk technology fell into the hands of the Americans, Russians and English, with few exceptions the whole earthly mankind is lied to and deceived, and to it every means is right – also alleged activities of extraterrestrials.

306. And all those fools, irresponsible, criminals, deceivers, liars and swindlers etc. in matters of alleged contacts with extraterrestrials, spirits, dead and higher beings are co-responsible for the fact that the secret machinations can be promoted in relation to the flying discs, because with their lies and deceptions they promote everything still.

193. A fact which can in no way be dismissed with any humorous phrases, because there is really nothing ridiculous about it, as is the case, for example, with those misguided people who still believe in the boundless nonsense of the circles and figures in the cornfields of Stonehenge in England and around the world, who even worship them and glorify them as works of extraterrestrial or secret occult earthly forces, etc., although all in all everything is only the work of earthly human charlatans, business people and jokers as well as of evil swindlers etc., as you could see yourself when you saw with your own eyes the machinations for the emergence of such circles and figures in cornfields and meadows in Stonehenge and in other places of the earth with Quetzal's help.

194. In this respect another spectacular series of such cornfield circles and cornfield figures is now in the offing, this time in northern Germany, which will make a name for themselves all over the world and attract misguided believers, fanatics, would-be experts, profiteers, ghost seers, etc.

195. Wildest suppositions and assertions of allegedly observed phenomena and UFOs etc. will quickly make the rounds and attract or speculate all those misguided people who believe all the nonsense and mischief in this regard, although these cornfield circles and cornfield figures appearing in Northern Germany will also be nothing but a prank, which will be made in the same way as the circles and figures in Stonehenge and in other places around the globe.

196. In the case of this imminent prank, which is already planned, the authors of the cornfield circles and cornfield figures will soon speak up and openly announce their prank with the hint that they could do just as well as the people of Stonehenge and in the rest of the world.

197. A fact that also comes true, and a work of joke that will not stand back behind the deceptions of Stonehenge and the rest of the world, only that it is not a deception to be committed, as in Stonehenge and all other places on Earth, but just a joke, which after the publication of the circles and figures will soon be made recognizable as a student eulogy, but after many misguided, believers, fanatics, profiteers and wannabe scientists and wannabe connoisseurs of the subject will have exposed themselves to ridicule, which is likely to be true around the middle or end of July. ...

284. The same thing will happen in England as in northern Germany.

285. The fraud and deception with the crop circles will be revealed.

**Billy:**

... You said earlier that in England, too, the vertigo of cornfield circles is finally being uncovered. Does that also apply to all other similar machinations around the world, and is the uncovering of the worldwide giant swindle and this fraud final?

**Ptaah:**

319. My speech was only of the fact that in England the same will happen concerning the cornfield circles as in Germany.

320. So my words mean that some persons in England will be as active as in northern Germany with regard to the circles in the cornfields, whereby these persons will also openly and officially confess their actions in public, if some pseudo-scientists have made a fool of themselves who are consulted for the examination of the pictograms.

**Billy:**

Then it is not a question of actually exposing the whole swindle, neither in England nor in the rest of the world, where the same swindles and frauds are cheerfully continuing. Nor does anything seem to be said about those who belong to that ancient Celtic cult and who have been making such cornfield circles and other cornfield figures, which are also called pictograms, into the cornfields for magical and evocative cult rituals since time immemorial. From Quetzal I know that not only the believers of these old cults, but also followers and members of the witch faith fabricate these mysterious signs and circles into the cornfields, by trampling down the corn in various ways or rolling it down with any kind of equipment, without bending the stalks of the corn or otherwise injuring it. The reason why cornfields of all things are used for this purpose is the fertility of the ear and the fact that not only does life sprout from it, but also the bread is made from it, which in the cultic realm symbolizes the body and soul of human beings and the divine. These Celtic cults led back to the time of the 8th century BC to the Indo-Germanic people of the Celts, who were actually settled in Western Europe, some of whom, however, were very fond of wandering and as a result set off on never - returning journeys throughout the world. Incredible as it may sound, they actually almost reached the remoteness of the last corners of the Earth, where they mixed with various natives and continued their Celtic cults, although often in such a modified form that the origin was hardly recognizable. Yes it was similar or even the same with the Vikings, from whom also the original inhabitants of Switzerland descended. Yes, with regard to the Celts it was so that they spread out especially in England and Scotland and of course indulged in their cults there, as the emigrants in the wide world outside also did. So it was only natural that they erected and created their signs and pictograms etc. already at that time or simply made them, so also the signs and circles in the cornfields, as the Celtic cultists still do today in England and also in many other places in the wide world. Only, these cult pictograms, as they are called, these cornfield circles and cornfield figures of all kinds, these are not made with fraudulent and swindling intentions like those which are made by swindlers, cheats and charlatans, in order to profit from it or to let a certain stupid mass of humanity walk the fool'.

**Ptaah:**

321. Actually you have said and explained everything necessary with it.

322. You only did not mention that with Quetzal's help you could observe not only the machinations of the swindlers, swindlers and charlatans in England and elsewhere on Earth several times, but also the efforts of those who, for cultic reasons, rolled the many signs and circles into the cornfields.

**Billy:**

I did not find it necessary to mention this, because these ritualists do not make the cornfield circles in order to deceive people and to make a profit or to make fun of the stupid believers, but in order to fulfill their rites according to their faith and thus to wish for all good and love for all mankind.

**Billy:**

Whereby the so-called supernatural of course does not exist in any way, because everything and everything is always naturally explainable and also naturally given. The supernatural exists only in the ignorance and the incomprehension of man, because he has no knowledge about all those things which he cannot understand and cannot explain himself. Truthfully everything so-called supernatural is absolutely natural and thus also classified according to the corresponding laws of spirit or matter, which are able to give an explanation for everything and everyone, whereby something supernatural becomes a fact of non-existence. Everything that can be grasped and perceived, everything that can be seen and heard and everything that can be felt, recognized, experienced and experienced, etc., is always real, real and natural in every case, regardless of whether it takes place on a spiritual or material level or on a medium level between spirit and matter, which is so often called the level of the supernatural or the supernatural by parapsychologists and esoterics who do not understand it.

**Billy:**

Then there's another question, which refers to the pictograms themselves: For years now, more and more unknown flying objects have been appearing, which appear in the sky in masses and form figures that can be described as sky pictograms or the like. Do these appearances have any connection with the real crop circle pictograms, I mean whether they are connected?

**Ptaah:**

44. That is not really the case – at least in several cases where we did some research, there were celestial pictograms, but they have nothing to do with the crop circle pictograms and nothing to do with alleged extraterrestrials.

**Billy:**

And both of these manifestations really extend across the whole world?

**Ptaah:**

45. That is right, so not everything that appears to be true is always real, because crop circle pictogram forgers have been at work all over the world for a long time, that is, for years, for whatever ridiculous reasons.

...

**13th May 1996, 14:59 hrs** *{Note: probably a private conversation during Contact 256}*

**Billy:**

*On your last visit you also told me that with regard to the so-called crop circles everything is no longer of a purely earthly human nature, but that for some time now there have also been earth-foreigner influences at play?*

*... Then things have actually changed with regard to crop circle forgeries in certain things, just in the sense that now also extraterrestrial influences are involved.*

**Ptaah:**

8. For quite some time this is actually swinging-wave-based the case.

9. However, this does not mean that the pictograms etc. are not genuine and cannot be traced back to the Earth-foreigners.

10. As always, counterfeits are being made by freeloaders who are not exposed to the swinging waves.

**Billy:**

And what is the connection between the pictograms which are created by the influence of extraterrestrial vibrations of forces? I think it's rather stupid that humans on Earth who are not yet highly developed make themselves felt in this way.

**Ptaah:**

11 So the connection does not exist by coming events within the SOL system and also not by the announcement of the appearance of earth-foreigners, whose ancestors came to Earth earlier.

12. And with regard to the stupidity that you address, you are not wrong, but the stupidity does not lie with earth-foreigners, but with Earth humans themselves, who in this actually quite primitive form want to draw attention to alleged extraterrestrial events, because allegedly a direct and open appearance of extraterrestrials could cause chaos.

13. Through the pictograms, in which even terrestrial humans have a hand in the matter, terrestrial humanity is supposed to be slowly confronted with things of the future, even if this is indeed a very primitive procedure - tailored to terrestrial humans.

14. So the pictograms must not overlook the fact that there are forgeries that are the work of earthly artists, charlatans and swindlers alone.

**Billy:**

I was able to observe such activities with Quetzal's help. But I did not know that pictograms were and are also created in which extraterrestrial vibrations of forces are involved.

**Ptaah:**

15. There was no need for us to mention this earlier, and moreover there was and is a lot of dizziness, lies, charlatantry and deception interwoven in this relationship from the very beginning.

16. This must always be taken into account.

17. We did not give you any false information, but we only concealed certain facts from you, because they would have interfered with your task and would have led many honest seekers into confusion.

18. But now the time has come to give a more precise explanation, because the event from which a connection between terrestrial men and aliens arises has not yet come closer.

**Billy:**

According to your concept, not in the near future.

**Ptaah:**

19. Right. ...

**Billy:**

... how long have you known that extraterrestrial influences are also involved in crop circles? When I watched the deception together with Quetzal, you had not yet mentioned anything about it.

**Ptaah:**

21. That corresponds to the facts.

22. Because we knew about the machinations of swindlers and charlatans regarding the pictograms, we did not care anymore about them, although they appeared more and more frequently.

23. It was not until 1985, when we observed certain things through one of our surveillance flying apparatuses, that we turned our attention to the matter again, whereby we then detected

activities that were also attributed to Earth-foreign force vibrations, through which, among other things, Earth-humans were influenced who were active in matters of the performing arts. ... there are still many questions open regarding the pictograms, and there is still charlatany and deceit, as always, from people who do not represent and produce the pictures as a result of art, but as a result of deceit.

25. The only thing that is certain for us so far is that there are certain extraterrestrial energy influences that influence humans on Earth, among others, so that they are active in making pictograms.

26. This does not mean, however, that everything concerning the so-called crop circles is allegedly of honest origin, that it is traced back to influences of earth-foreign beings.

**Billy:**

So swindlers, charlatans and fraudsters continue to work with us, through whom many crop circle believers are led around on a fool's rope, in addition to the fact that the energy-influenced ones naturally continue to do their art.

**Ptaah:**

27. It should also be explained that the pictogram makers influenced by alien energies are ignorant of the influences, according to which they consider their actions to be their voluntary work.

**Billy:**

But I still find it stupid that highly developed extraterrestrials are supposed to make messages in such a primitive way or have them made by Earth humans influenced by them, as crop circle believers claim.

**Ptaah:**

28. You are not wrong about this, although it must be said that the Earth humans responsible for this are still very far below the development that is peculiar to us Plejaren.

29. But it must also be said that these Earth humans think in this form because they cannot deal openly with reality through their stupidity as Earth humans and because they fear a personal panic or a personal chaos.

30. For this reason, they resort to their primitive faith, namely in the form of faith in extraterrestrials and their alleged signs, which are also supposed to be encoded, so that everything first has to be unravelled and only becomes known in certain circles for the time being.

31. The whole thing thus prevents a mass publication of the real truth in the big public, which is why euphoria, fear, panic or chaos could break out into the crop circle believers.

32. Out of such fears the crop circle pictures are not secretly produced, but the thought plays along that more interest is aroused by the secretiveness etc., whereby it does not play a role, however, that terrestrial humans influenced by extraterrestrial energies are active in relation to the pictogram production and that also swindlers, charlatans and fraudsters do the same in this regard.

**Billy:**

Now then: You told me – when I do not know anymore – that you are working intensively on the clarification of the crop circle phenomena, because you have come across things that in this respect go far back in time. You said that the so-called crop circles had appeared in all last passed centuries. These pictograms and diagrams, etc., as they are also called, are said to have been conjured up in rape fields, corn fields and meadows, even in medieval and ancient times. According to your explanations, however, you Plejaren never bothered about this, on the one hand because there was no interest on your part in it, and on the other hand because you were of the opinion that the figures in the fields were pure earth-man-made work. That was even still seen by you in the eighties in such a way, for which there was also sufficient reason. So

Quetzal took me with him to England once, where I was able to observe how different people – individually or in groups – made crop circles or pictograms. According to your explanations, which you made a few years ago, other forces than those of earth people are supposed to be involved in the creation of the works, and it is exactly these forces that you wanted to get to the bottom of. Since then a few years have passed but you did not give me any more explanations, you just remained silent. Have you not gained any new knowledge or are such knowledge to remain a secret for us earthlings?

**Ptaah:**

19. There is a whole range of new knowledge, but for the time being these still fall within the scope of our directives, which do not yet allow us to release the relevant knowledge to earthlings.

20. Besides, we have not yet clarified everything.

21. But this much I can say, that besides the very many banal crop circle fakes – which since the 20th century even appear worldwide and of course are also constructed by earth-men – also since ancient times energy crop circles resp. energy-pictograms, as we call them, are given, which are based on sources, which we are not allowed to name yet according to our directives, because earth-men have to find the solution of the riddle by progressive research and knowledge by themselves.

22. If we were to openly reveal the knowledge we have gained, then we would violate our directives and, in addition, would negatively influence the course of evolution of earthly humanity, which, however, must never be in our mind and actions.

23. So the investigations and researches for the achievement of results and for all knowledge must be carried out and advanced by Earth humans themselves.

**Billy:**

Nice mess. I thought that you would reveal the secret now. Could you at least tell me what kind of energy sources these crop circles or diagrams and pictograms etc. are? How are these energy sources created and where do they come from? Are there purely earthly forces behind them, such as earthly magnetic energies; are there any extraterrestrial intelligences involved or do extraterrestrial energies simply play a role in this?

**Ptaah:**

24. You are asking very profound questions, dear friend, which actually embarrass me, because I am not even allowed to give an evasive answer, but only an absolutely negative one, in order not to violate our directives.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_328](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_328)

**Billy:**

... But now I would like to talk to you about what we talked about the other day regarding the so-called crop circles. You said that in the next few weeks you could give me permission to talk about what you explained to me. Is that now, or is now the time?

**Ptaah:**

107. The time has come to be able to talk openly about everything, because we have been able to finish our research and clarifications.

108. In addition, since our conversation on this matter, knowledge has come to light among the earthlings that allows me to speak openly about it now. ...

113. As I have already explained in previous conversations, the so-called energy crop circles and energy pictograms are actually connected with extraterrestrial influences, but we first had to find out why you should not talk about them, because false explanations should not be allowed to arise, so that no harm could arise through which the wrong paths could have been taken.

114. But these outside influences are not as much as the crop circle believers assume, who believe that extraterrestrials are directly the originators of these creations.

115. In fact, it is indeed earthmen who in an artistic way and laborious work kick and roll the crop circles and pictograms with suitable aids of quite primitive form into the grain, etc., starting from prefabricated drafts and drawings, which in the beginning were handmade, but for some time now have been very artistically produced on computers and manually transferred to the crop fields etc.

116. So the whole thing is actually, as in old times, and as you have found out quite early on with Quetzal, a pure man-made machine, although it must not be overlooked, as I have explained to you several times already, that extraterrestrial forces are involved.

117. This is not, however, a form of extraterrestrials or extraterrestrial life forms of human or any other material kind, but solely and exclusively cosmic energies, which are taken up by the people sensitive to them and which creatively support their fantasies and ideas.

118. If one starts from these vibrational forces and specifies them, then one can speak of universal evolutionary energies or evolutionary energies, as we do.

119. These are the finest energy-vibrations, which are present universally and are absorbed by every human life form, thus stimulating their fantasy and ideas to develop.

120. Depending on the person and his disposition, these oscillation impulses give rise to the most diverse forms of application and use.

121. In case of making crop circles, the factor of drawing and designing as well as creative arts will appear, where these good values will simply be used by the vibration- resp. impulse-receivers in the way, how it just comes out of the crop circles.

122. This kind of art production is an individual form of each artist, and most of them want to remain anonymous and are content to indulge in their art and enjoy it as well as the confusion and the erroneous faith of certain people who, as a result of their non-realistic thinking, indulge in things that are alien to any reality.

123. It is still to be explained that during the first time when we noticed that extraterrestrial influences were playing a part in the energy pictograms or energy crop circles, that these could be suggestive and impulsive influences of any mischievous extraterrestrial human life forms, which is why we only started research in this direction, which took a long time.

124. Finally we were able to exclude this possibility, so we turned to further research several months ago and finally found the solution to the mystery, which we only managed to do last week. ...

125. What I have not explained yet is the crop circle video, where white coloured objects appear, fly over a crop field and in the next moment wide pictograms appear in the grain. 126. This video, like others of the same or similar kind, are also fakes made on computers.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_329](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_329)

**Billy:**

... On the 13th of May 1996 and the 24th of August 1998, you stated in regard to the crop circles and crop circle pictograms, respectively, that extraterrestrial forces were involved. In the course of your clarifications, however, according to your statements of the 20th of July, i.e. 14 days ago, it has now turned out that these are not extraterrestrials in the sense of life-forms or humans, but extraterrestrial energies, namely evolutionary energies. I have not received any explanation from you, I mean in regard to why you assumed that extraterrestrial life forms would participate in the creation of the crop circles and therefore would have their fingers in the pie as well as the earth humans. Could you give me an explanation of this afterwards?

**Ptaah:**

43. As you know, we, like you, have always known that humans on Earth are behind the making of crop circles.

44. Through Quetzal you were also given the opportunity to observe these earthly human machinations.

45. Now it turned out, however, that since the eighties we observed again and again strange apparently extraterrestrial flying objects, as we assumed, with and in the vicinity of the crop circle pictograms, which has been preserved until today, whereby we have now gained the knowledge that these are not actual extraterrestrial flying objects, but flying objects belonging to Earth.

46. Of course we were interested in what was going on there, but due to our extensive tasks we could not personally seek detailed observations and clarifications, so we exposed a very small stationary observation probe at high altitude, which was equipped with all the necessary exploration facilities.

47. But this did not happen until spring of this year, i.e. a few months ago, although up to then we were still of the opinion that the movements recorded by our registration equipment were extraterrestrial flying objects and would have a direct or indirect connection with the crop circles.

48. Soon it turned out, however, that this was not the case, but that these alien flying objects only had a fraudulent function.

49. A fact that quite obviously was only due to the interest of crop circle believers, who, as we now know, do not come from a different space-time structure, and thus also not from one that is upstream of the earth in the future.

50. And as no influence of these objects could be detected, another small probe was exposed, which records and analyses fine-matter vibrations and thus fine-matter energies.

51. In this episode our scientists used your formulas from the memory banks of Henok and Nokodemion, which you left to us and through which they were able to make the fine-matter energy probe, through which distinct and therefore very powerful evolutive energies could be registered, which are oriented towards the performing arts, i.e. towards a knowledgeable and active mastery of the representation of great artistic works.

52. In this form the mentioned evolutive-energies work in the direction of monumental art, consequently only very large art objects, like the crop circle pictograms, which have a decisive size, as determined by the evolutive energies of the mentioned form, as we could find out according to the Henok-formulas and Nokodemion-formulas.

53. Now humans who are sensitive to these energies are busy according to the determination of the evolutive energies of the mentioned kind and work in drawing and on computers in the creation and design of artistic structures and drawings as well as exact masses, which are then transferred into the cornfields and meadows etc. by treading, stamping and rolling or with other aids.

54. In this way and by the mentioned origin, thus the crop circle pictograms are created.

55. These evolutionary energies, that still has to be explained, refer, as you know very well, to every development of man and every other form of life in the whole universe and since the very beginning of the first life form that came into existence, they have had a specific effect on every genus and type of all forms of life.

56. This explains that all evolution of every form is effected by the evolutionary energies of universal resp. This explains that all evolution of every form is impulsively controlled by the evolutionary energies of universal or creative origin through a predetermined striving for something higher, whereby, however, the conscious life form human being is free in its will to follow and behave according to this and thus to follow the impulses of its own free will or not, as you defined this very precisely in a spiritual teaching work on us and which I would like to repeat here as an explanation, as you will write down my statements as a contact conversation and make them accessible to the Earth humans.

57. This will certainly cause uproar in some earth humans, as there is a widespread opinion that extraterrestrial beings are actually behind the making of the crop circles, but according to our extensive investigations this is actually not the case, as everything can be traced back to Earth human machinations, whereby however, as explained, cosmic or universal, creative evolutionary energies are the triggering factor and the true origin.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_620](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_620)

**Billy:**

... I can now once again talk about the crop circles, of which one only rarely hears anything nowadays, because they have gone out of fashion, so to speak, and because on the other hand it was already certain about 25 years ago that the actual first authors of the pictograms admitted that they fabricated the crop circles in England for fun, which then found imitators in England and even in Europe and the whole world. I had forgotten the names of the two decisive authors of the crop circles, although you had already told me the names of the authors of the crop circles at the beginning of the appearance of the first crop circles, which I was supposed to keep silent about – for whatever reason. The reason did not interest me and does not interest me now. Well, in the meantime I had forgotten the names of the two men, but in the last few days I searched for them on the internet and also found them, and also a description of the whole story.

**Ptaah:**

12. The names of the two men were Doug Bower and Dave Chorley.

**Billy:**

... I want to clarify something. Back in the 1980s and 1990s we talked about crop circles on various occasions, and you always said that they were made by earthlings, and in a rather primitive way, as I was once able to see for myself with your help. In the making of the crop circles, however, it did not remain with the two older men who trampled these pictograms into the grain, as I have already mentioned, but there were many imitators around the world who also made crop circles, in the same way as Doug Bower and Dave Chorley. In the end, the whole thing became a real crop circle hysteria, which has died down again today, but there are still many phantasists who believe that the pictograms were created by extraterrestrials or by magical powers, etc., and would still be created today if earthlings stepped on them again in some crop fields. What interests me now is what you have said several times, that on the one hand energy pictographs can appear in cornfields, cornfields as well as in meadows and forests, but that they are not produced by earthlings, but can appear through ruins hidden in the earth, watercourses and magnetic factors. But you were not allowed to give any information about this, because everything belongs to the area of earthly scientific research, which you were not allowed to disclose according to your directives, because this had to be reserved for earthly researchers and must also continue to be reserved. In the meantime, however, earthly technology is so advanced in every respect that scientists with the appropriate apparatus and equipment have been able to detect and record such natural phenomena for many years, whereby ruins and watercourses etc. hidden in the earth can also be detected and explored. This is correct, or?

**Ptaah:**

14. That is correct, because according to our directives we are not allowed to state any secrets of that kind as findings and facts.

**Billy:**

... What I would like to know now, however, relates to your statements that extra-terrestrial forces have also been involved in the crop circle productions and can also continue to be involved. Basically, all crop circles, and indeed all crop circles without exception, were and are made by earthlings, whereby they are called pictograms by so-called 'crop circle researchers' and crop circle believers. Nevertheless, you have said that extraterrestrial forces are also involved and play a decisive role. I know what it is about and how it is to be understood and that it is not about extraterrestrials who have their fingers in the pie, because these extraterrestrial forces are based on natural universal vibrations, which let an artistic 'vein' vibrate in the human beings, so to speak, through which they create artistic structures. Can you explain something about that, please.

**Ptaah:**

15. Universe-wide, a creative-natural movement vibrates, which spreads artistic impulses in many forms, for example, predominantly in relation to geometric and symmetrical forms, which are important in the production of crop circles, because the Earth-humans who produce these pictograms absorb these vibrations and transform them into works of art according to their meaning, as in pictograms, which they then press into crop fields by treading down the stalks of grain.

16. Apart from geometrical and symmetrical forms, the extraterrestrial or cosmic energetic impulses of art also impart many other forms of art, such as painting, carving, sculpture, drawing and music, etc.

17. I have explained various things to you in earlier private conversations, such as that these creative-natural artistic impulses are of a universal-energetic vibrational nature and are also contained in the cosmic-electromagnetic life energy and stimulate the consciousness of human beings through their subconsciousness in order to become artistically active and to represent and create all kinds of art forms, be it drawing, sculpting or in any other artistic way.

18. Human beings in particular – as well as other life-forms – who are sensitive enough to pick up these vibrations contained in the cosmic-electromagnetic life-energy, can also translate them into many different forms.

19. This is especially true of human beings who have artistic abilities and interests, so that they are especially predisposed or talented to absorb these vibrations.

20. This creative-natural art-mediating vibration also affects all other living beings, such as animals, birds, insects, reptiles, aquatic creatures and amphibians, for which the universal art vibrations are important for nest-building or for mate-making and the play instinct, etc.

21. The same also happens with regard to minerals, which are solids and have a defined chemical composition and also a defined physical crystalline structure.

22. Many of them form themselves into geometrical and symmetrical figures, which consistently arise as universal art from the corresponding creative-natural artistic vibrations.

23. So this art arises not only in Earth-humans, but also throughout the universe in all of nature, in which geometric and symmetrical forms of all kinds are formed through the extraterrestrial or creative-natural art vibrations, such as e.g. Galaxies, circles, crosses, rings, cubes and many other geometrical and symmetrical forms, whereby for Earth-humans the best known in this respect are the crystal forms which arise in minerals of all kinds, but also in snowflakes in infinite variations and in ice formations, etc.

24. From this point of view is to be understood what my daughter Semjase, as well as Quetzal and I, have said in regard to extraterrestrial forces which are involved in the production of crop circle formations.

25. So it is not earthly-planetary vibrations, but extraterrestrial ones, which are of universal form.

26. The Earth-humans who made or continue to make such crop circle pictograms thus find their ideas for them in the extraterrestrial or creative-natural universal artistic vibrations through which all life-forms and all minerals and plants derive benefit.

27. Plants of all kinds use this extraterrestrial art-vibration to form their shapes, just as Earth-humans use it to be artistically active, in whatever way, while other life-forms use this creative-natural art-vibration in various other ways according to their species and kind.

28. And because this art vibration does not emanate from Earth, but moves creatively-naturally universe-wide, we call it extraterrestrial and universal.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_669](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_669)

**Billy:**

... You have told me in confidence some things about the so-called crop circles and also pointed out that about 88% are artistic works of earthlings, but we have not spoken openly about this yet. Although you said that the earthly works or earthly crop circles are made by

extraterrestrial forces, you also said that only from the end of the year 2016 this fact may be officially mentioned, so I will talk about it now. But it would be interesting to be allowed to say something about the remaining 12%, which have other origins than earthly work, whereby I only mention those percentages, which can be traced back to terrestrial-planetary sources, which are also connected to light phenomena, which appear in grain fields etc.

**Ptaah:**

67. Of course we can speak openly about this, if we do not also want to mention the other factors that we are not allowed to address.

**Billy:**

That is the point of my question, because what you said before was never complete, because certain things had to be kept silent about, which is no longer necessary, as I understood your words at the time. And the rest, which still must not be addressed, we do not need to discuss that.

**Ptaah:**

68. Of course, that is correct. –

69. A certain percentage of crop circle appearances is, as you know, not the product of Earth-humans being, although I cannot give the exact percentage for directive reasons.

70. What I openly address in relation to crop circles, as well as other symbolic formations in other natural straw plants resp. in various grain fields, as well as in grass, bamboo, rape and reed resp. sweet grass, does not refer to works of Earth-humans.

71. These are in fact based all over the Earth on purely Earth-magnetic phenomena, which, however, are related to early Earth-humans' energy-force practices, the effective nature of which must be concealed.

72. This is because if today the old practices in this respect, which have fallen into oblivion, were to become known again, then, due to the unreasonableness and greed for war of Earth-humans, their use for the production of a very dangerous military weapon would be unavoidable.

73. This would have extremely far-reaching and serious consequences, which I could not be responsible for if I acted against our directives.

74. It would also not be in our Plejaren sense as a whole.

75. On the other hand, as far as the extraterrestrial influences during the creation of the crop circles are concerned, I can only explain again the same thing in other words as I have already explained to you earlier, namely that the extraterrestrial forces, which are created during the creation of crop circles by Earth-humans, correspond to normal natural universal impulse vibrations. 76. These influence everything and anything, including all genera and species of human beings, including Earth-humans beings, as well as all matter and all fauna and flora.

77. These energetic impulse oscillations correspond to cosmic-natural forces, which create all 'works of art of nature' and also create perfect symmetrical forms of various kinds, which arise everywhere and also in the open nature in everything that exists.

78. All imaginable circle forms, squares, octahedrons, hexahedrons, cubes, crosses, etc. are created, which appear in many materials, such as plants, crystals, ores and especially snowflakes.

79. When it snows, enormous masses of snow crystals fall from the sky as frozen works of art, billions of them, whereby no two snow crystals are the same, because each one is a unique piece of nature or the extraterrestrial-cosmic-universal artistic vibration. ...

83. All living beings are also affected by the whole, and consequently also the human beings, in which the human being creates and brings to bear the whole of the artistic through his consciousness and thus also through his thoughts and imagination as well as through his actions and artistic creations.

84. With regard to crop circles, this is especially true for certain Earth-humans with regard to their artistic impulse vibration receptiveness, if they are sensitive to it.

85. This leads to the special creation of the so-called crop circles, because the cosmic-universal artistic impulses give them this ability.

86. Therefore it has to be said that these crop circles are made by Earth-humans, but they are not purely earth human beings, but effectively an extraterrestrial phenomenon or a cosmic-universal size. ...

97. Other things concerning light phenomena and unknown flying objects around the worldwide crop circles are the result of Earth-humans and private pranks on the one hand, but also of military and espionage research achievements on the other hand.

98. This is especially true in England, which is considered the 'mother of crop circles' in crop circle 'expert circles' and where the main centers of crop circles are surrounded. ...

**Billy:**

... There is, however, one mystery that has not yet been solved, and that is how the angled, altered and sometimes 'burst' or 'exploded' growth nodes of cereal stalks come about. Can you explain something about this?

**Ptaah:**

100. This also has a very simple cause, which is based on the electromagnetic radiation, which creates a tension and thus the knot housing is torn open or 'bursts open', as you say.

101. Exploding cannot be said about this, because the electromagnetic effect does not produce heat, but only tension, which causes the growth nodes to rupture. ...

**Billy:**

... And the fact that the so-called 'crop circle researchers' have suspected for a long time that strong heating causes the growth nodes to 'burst open' is of course pure nonsense, because your father Sfath has explained on the one hand that there is no heat effect, but only a very strong electromagnetism, and on the other hand he has also shown me experimentally that growth nodes in cereals do indeed burst open due to electromagnetic influence. Sfath explained that when heated, the inside of the plant would expand, causing the cells to burst, but that this was not effectively the case, because electromagnetism in this form is a cold process and therefore also acts 'cold', which is also the reason why the growth nodes and stalks would retain their special elasticity and altered shape, which could not be the case if the whole thing was caused by heat radiation. ...

**Billy:**

... I have explained again and again that the crystal heads have nothing to do with extraterrestrials and therefore cannot be traced back to them, but that these crystal heads were made in Germany in the 19th century. Nevertheless, this does not want to be accepted as the truth ...

**Ptaah:**

12. The crystal heads you mentioned, which were found in southern America and attributed to the Maya and supposedly originated from extraterrestrials, were, as you just said, produced in Germany in the 19th century, in the gemstone and diamond cutting workshops of those places that were merged to form the city of Idar-Oberstein in 1933.

13. The client was a wealthy man named Florian Rosenfelder from Germany, who was privately and as a hobby engaged in archaeology and who also brought the crystal heads to the Mayan areas, where he 'discovered' them as a sensation.

14. However, he was only able to place the crystal heads at different places, where he thought to 'discover' them under witnesses, but he was not able to do this anymore, because he died of poisoning, which he suffered from locals, who robbed him.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_593](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_593)

**Billy:**

Then a question about the crystal heads or crystal skulls, especially the one called the Mitchell-Hedges Crystal Skull, because it was allegedly 'discovered' in 1927 by Anna Mitchell Hedges in a temple complex in the jungle of Honduras. The Crystal Skull is said to be a machined rock crystal in the shape of a skull ...

Again and again there are broadcasts on television where the age, origin and purpose of the crystal skulls is known commercially, but the solution to the mystery is not found. Perhaps we should say something about it again, or rather you, to make things clearer.

**Ptaah:**

63. There is not only one crystal skull, but several of them, which are ascribed to old cultures, but also to extraterrestrials and are said to be very old.

64. However, this in relation to extraterrestrials corresponds to nonsensical assertions of insane esoteric believers and phantoms, as well as blind archaeologists etc., who would like to see certain crystal skulls as products of Central or South American advanced civilizations, such as the Incas, Maya or Aztecs.

65. Everything in this respect is based only on assertions which have no archaeological value whatsoever and which cannot be confirmed and substantiated by effective real finds of crystal skulls which have not been fraudulently brought about.

66. In reality, various crystal skulls have been deliberately faked and placed in places to be 'found' there.

67. Various such crystal skulls were made from rock crystal, quartz or other precious stones as replicas of human skulls.

68. They were made in the 19th century in a European centre for crystal cutting, namely in Idar-Oberstein in Germany, in the Rhineland-Palatinate.

69. So the whole thing, as I said, is just nonsensical claims of people who want to ascribe everything to Indian advanced civilizations or extraterrestrials.

70. Truth is that these crystal skulls do not have an age of a thousand years or more, but only of some more than two hundred years.

71. The crystal skulls continue to be counterfeited worldwide, also in a commercial way, and especially in Asia many hundreds of such crystal skulls are produced every year and sold all over the world.

72. Such fake skulls have also repeatedly found their way into museums.

73. Three crystal skulls are particularly well known in this regard, the Mitchell-Hedges crystal skull in the British Museum in London, the London crystal skull in the Wellcome Gallery of the British Museum and the Paris crystal skull in the Musée du quai Branly in Paris.

74. As said before, all these crystal skulls are more modern productions of the modern age, which were made in the 19th century in Idar-Oberstein in Germany, but where other places have to be considered as well, as electron microscopic examinations of the London Crystal Skull show, where traces of processing are demonstrably present, as they are only caused by modern grinding tools.

75. If the time of the first discovery of a crystal skull is investigated, the earliest evidence of this can be found in the 19th century.

76. And if the controversy is discussed whether these are ancient artefacts or modern forgeries, then it must be said that this is completely superfluous, because reason alone does not permit such a thing, because a highly technical, mechanical prerequisite had to be given for the production of the crystal skulls.

77. This is also proven by the traces of very regular abrasion and polishing marks which can only be produced by machines and which could never have been produced by hand.

78. The Mitchell-Hedges crystal skull is probably the most famous, and in life-size production it weighs 5.3 kg.

79. It is said to have been found in 1924 in Lubaantun/British Honduras (note Billy: Today Belize) by Anna Mitchell-Hedges, who was 17 years old at the time, when she is said to have accompanied her adoptive father Frederick Albert Mitchell-Hedges (1882–1959).

80. She is said to have been present at his excavations, but this is not true, because she was not with him when he searched for 'Atlantis', which he believed to have discovered.

81. I was able to clarify this clearly by looking back.

82. This Mitchell-Hedges skull is particularly noteworthy because, in addition to its almost perfect workmanship, it differs from most other crystal skulls because it has a removable lower jaw, made from the same piece of crystal as the skull itself.

83. But also this fact and the great similarity to the London skull cannot hide the fact that this Mitchell-Hedges crystal skull is also a fake.

84. This also does not change the fact that when the skull is illuminated from behind with a strong light, this light is bundled inside the skull so that it shines like a 'third eye' on the forehead and through the two eye sockets.

85. If at that time in Idar-Oberstein there had not been adequate modern apparatus and machines etc. available in accordance with the time and the development, the production of such crystal skulls would not have been possible, so that they could only be produced in the modern world with appropriate devices, as these have existed and been used in Europe for a very long time.

86. Nowadays, such skull sculptures are even produced in large quantities by machine and sold all over the world, whereby the production is mainly from the Asian region, as well as the sale of these products all over the world.

87. Also supernatural forces or techniques of processing from times long past, which are no longer known today, cannot be considered for the production of the crystal skulls, because they simply did not exist at that time, when the advanced cultures of the Incas, Maya and Aztecs etc. were in bloom.

88. If they had had to grind and polish a crystal skull with manual labour, it would have required an enormous amount of manual labour and taken many centuries or even well over 1,500 years, if the whole procedure is calculated with about 12 daily working hours per skull.

89. Although the processing of rock crystal is rather unproblematic, without appropriate machines everything would have been an unsolvable problem for the Maya, Incas and Aztecs etc.

90. In contrast, the techniques for working rock crystal and gemstones have been known and used in Europe for centuries, as can be seen in the drinking vessels made of rock crystal from the baroque period (note Billy: the baroque period was 1575–1770).

91. If we continue to look at the London crystal skull, it is very similar to the 'Mitchell-Hedges skull', but it does not have a removable lower jaw.

92. It is said that this skull was 'found' in Mexico in the 19th century, but another time this is not true, because it was made by the same artisans and was also 'exposed' to be 'discovered'.

93. On the surface of the crystal there are traces which are clearly caused by the use of grinding wheels, but which were not known in the ancient civilizations of the Incas, Maya and Aztecs and therefore could not be used.

94. Furthermore, no occurrence of the corresponding type of crystal from which this skull is made can be found in Mexico, but on the other hand this type of crystal is found in Brazil, from where crystal and gem cutters in Idar-Oberstein had crystals brought here as early as the 19th century.

95. Then there is the Parisian crystal skull, which is considerably smaller than life-size and is made of cloudy quartz.
96. This skull is quite roughly worked and in this respect it does not bear comparison with the Mitchell-Hedges and London skulls.
97. This skull is also said to have been found in a grave in Central America, but this is again a lie in the sense that it was made and left there by an ancient civilization.
98. This skull was forged by an antiquarian named Eugène Boban and then brought to France.
99. The skull was worked with modern milling machines, which is proven by traces of iron, which can be found on the skull.
100. At the time of pre-Columbian peoples, however, iron was demonstrably still unknown.

**Billy:**

It is claimed that even today it is not possible to imitate such skulls.

**Ptaah:**

101. This is also not true, because it can be proved that such crystal skulls have already been reproduced with the most modern technology in good perfection, so that their reproduction is absolutely comprehensible, and in a way that is just as perfect as it was done in the past in Idar-Oberstein with less high-tech possibilities.
102. I am talking about scientific works that have been made, but which have no relation to the hundreds and thousands of skulls made of all kinds of glass, crystals and other materials that have been produced and sold on the world market for decades.
103. Furthermore, it must be clearly stated that it is completely mistaken and misleading as well as irresponsible to claim that the aforementioned crystal skulls have been lost for many centuries, because this is not possible and also not the case, because their production in Idar-Oberstein actually took place in the 19th century, as I personally clarified in my own interest when the matter became public.
104. And the fact that the crystal skulls have been attributed to these magical powers ever since they became known, is as much an absolute nonsense as the fact that a human being dies when he looks into the eye socket of the Mitchell-Hedges crystal skull, which is therefore called the 'Skull of Doom'.

**Curse Of The Pharaohs / King Tut's Curse**

[https://en.wikipedia.org/wiki/Curse\\_of\\_the\\_pharaohs](https://en.wikipedia.org/wiki/Curse_of_the_pharaohs)

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_052](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_052)

**Billy:**

... does a 'curse of the Pharaohs' exist?

**Semjase:**

44. There is no curse of the Pharaohs.
45. This is just a fantastic concoction of legendary nature, as usual created by human beings of the Earth, who believe in recognising some kinds of secrets and mysteries in all things, because of still being caught too much in their religious fantasies, etc.
46. Well, there have always repeatedly been deaths, when the tombs of the Pharaohs were robbed, also by your scientists, because they too conducted robbery of tombs.
47. That can partially be put down to provoked accidents and on the other hand, to the protection measures of the ancient Pharaohs and priests, who were perfectly aware of the upcoming tomb robberies.
48. For this reason they created for example protective provisions and the like.
49. Thus e.g., they let slaves collect the hair-spines from the fruits of ficus-indica cactus, and had them [the cactuses] poisoned by poisoners.

50. Afterwards these spines, impregnated with a millennia-durable deadly poison, were embalmed in the bandages of the deceased Pharaohs, and thus those who at a later time would come into contact with them, whereby, inevitably, the hair-fine spines penetrated into the skin, killing them.

**Billy:**

Fantastic, however with the hairy-spines of ficus-indica, are you talking about those fine as hair spines that grow on the surface of the cactus-fruit?

**Semjase:**

51. Certainly ...

**Ptaah:**

157. Since time immemorial, we have used a bat symbol as a hazard image for radioactivity.

**Billy:**

This is interesting. Is this perhaps related to the bat symbols found in ancient Egyptian pictorial writing?

**Ptaah:**

158. That's right.

159. The bat symbol as a hazard image for radioactivity already existed in our early ancestors who came to earth from the Lyra regions.

160. The symbol thus found its way into Earth of various peoples, whereby in ancient Egyptian regions in particular it was used as a warning sign for anything that in any form had to do with radioactivity.

161. Especially the priests of Egypt at that time often handled radioactive materials and then marked their works etc. with the warning sign of the bat symbol.

162. It was also their own way to mummify the deceased with radioactive substances, which also caused grave robbers to become radioactively contaminated and ill at all times, often resulting in death, which also applies to archaeologists.

163. Thus the radioactivation of corpses was on the one hand a means of mummification and on the other hand also a means of preventing the robbing of corpses and mummies by body and grave robbers, which already existed in very old times.

164. As protection against such robbers served not only the radioactivity, which was won from uranium Pecherz, uranium mica and Carnotit and is both chemically and radiologically very poisonous, but also extremely long-lived and many millennia effective poisons and gases were used.

**Billy:**

I know. There were pure deadly contact poisons as well as poisons in which Figi-d'India spines were soaked, i.e. hair-thin spines of the Indian fig, a cactus fruit. The mummy bandages were then coated with it in order to keep grave robbers away or to punish them if they desecrated the mummy. The hair-thin thorns penetrated into the skin at the slightest touch and thus spread death. Some poisons were such that they brought agonizing deaths only slowly and over many years, while others brought rapid deaths. Deadly gases were also used, which were immediately released when the mummies or burial objects were touched. These gases were then inhaled by the grave robbers, etc., as well as deadly floating poisons, which immediately impregnated the air if there was even the slightest movement. – Well, your explanation should make it clear that the bats symbols on mummy graves etc. in Egypt and the surrounding area have indicated since ancient times that the mummies etc. are radioactive and that danger emanates from them. ...

**Billy:**

It is always said that the undamaged tomb of King Tutankhamun was discovered or excavated in 1922 by a sponsored English archaeologist named Howard Carter in the Valley of the Kings. Unfortunately, I do not know the name of the sponsor, but I know that it has always been claimed that both Howard Carter and the sponsor had enriched themselves with the gold and jewelry treasure of the grave goods. Do you know anything about whether these suspicions were made up out of thin air and are therefore pure invention?

**Ptaah:**

99. There were two men for whom the archaeologist and draughtsman Howard Carter worked as excavation director.

100. One was a certain T. M. Davis, and the actual sponsor was a certain G. E. Earl of Carnarvon, and indeed it is true that the assumption is correct, because both Earl of Carnarvon and Howard Carter enriched themselves by stealing grave goods, because they stole gold values as well as jewels and artefacts.

**Billy:**

The nonsensical story was then told that Carter, because he desecrated Tutankhamun's tomb, died shortly after the opening of the tomb by a curse that was placed on the tomb.

**Ptaah:**

101. In fact a nonsensical story, because the man died of severe blood poisoning because he had contracted a deep infection when he injured himself with his razor.

### **Dalai Lama [Tenzin Gyatso / Bstan-'dzin-rgya-mtsho]**

**Billy:**

... But now I have a question about the Dalai Lama. Yesterday evening we had a little discussion, which led to the question if he belonged to our group, which I answered with a no, because Quetzal once gave me an answer of this form. But we did not talk about whether he, the Dalai Lama, belonged to the outer circle of those who were involved as voluntary advisors and helpers at the decisive early time. Do you know anything about it?

**Ptaah:**

26. His spiritual form and his total block of consciousness are indeed among those former personalities who were active as external, voluntary counsellors and helpers.

27. However, there is no relationship with today's core group, for in his form he works freely, although the circumstances do not correspond exactly to the provisions he was supposed to fulfil.

28. In principle, he should have been a free teacher of the teaching of the spirit, without being bound to any religion.

**Billy:**

This raises a new question: Why did the Dalai Lama come to Buddhism when he should have been a free teacher? I was asked this question, which I then answered as follows, and I hope that I was right: The Buddhist monks, as is generally known, seek their head with the help of meditation and with visions, etc., when such a monk has to take on his new task again. The responsible Buddhist monks now consciously believe themselves to be so far and highly developed that through meditation and vision, etc., they are able to take on their new task. They would receive information and hints where to look for the new head. The child himself is still in childhood at that time and is brought by the monks to their centre, where the child is then taught and trained for many years, so that when his time comes he can take over his office. And the child is allegedly found by the monks because it is to be equipped with extraordinarily high consciousness vibrations, which are supposedly caught and elicited by the monks. From this it

should be evident that a child of this kind already carries out strong consciousness activities at an early age and consequently also has a high development of consciousness, so that it is only a matter of time for the seeking monks until they come across these vibrations and find the child, which then also recognizes objects etc. through meditative influences etc., which e.g. are supposed to have belonged to former heads of Buddhist imprint. Of course this explanation is very simplified.

**Ptaah:**

29. An explanation that can be left at that, because it is true, even if it is very simple, as you say.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_437](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_437)

**Billy:**

Then yet again a bulletin question which relates to the 13th Dalai Lama. The question is this: "Why did the 13th Dalai Lama (Mongolian dalai = "ocean of learned knowledge", and Tibetan bla-ma = "the superior") have to flee from the Chinese?" The question is somewhat confusing, because Quetzal taught me something else, as, however, you also did, consequently, to my knowledge, it was not the 13th Dalai Lama who fled from the Chinese, rather the 14th, who is actually called Bstan-'dzin-rgya-mtsho and who was born in 1935 and enthroned in 1940. His current domicile, if I am not mistaken, is Dharmasala, in the constituent state of Himachal Pradesh in India. In 1959 he fled to India as the Chinese occupied Tibet, because the Dalai Lama is, in truth, not a religious head, rather a political head, even if something else is asserted by the Lamaists who say that he is the highest spiritual dignitary. He emerged as the political power-holder, in the context of the Tibetan government-in-exile led by him, in order to obtain a real autonomous Tibet through negotiations with the Chinese government, whereby the Dalai Lama is then naturally supposed to constitute the sovereign, respectively, the political ruler. The Tibetan government-in-exile is not officially acknowledged by any country. Even when the 14th Dalai Lama emerges as the spiritual dignitary of Lamaism and officially stands up in the world for tolerance among the religions and the peoples, as well as for the observation of humanity's global responsibility, in the background, hidden in his deeds, is actually his political power-nature which he gladly wants to exercise in Tibet and presumably even in the entire world. With him it is therefore about power, ... You have also taught me, that on one hand, the Lamaist Lhasa, the Lamaist centre in Tibet, is, so to speak, a secret world-centre in Asia and that, secondly, Lamaism is a degenerated and despotic sect which cannot be equated with Buddhism, although the Dalai Lama and the Lamaists refer to Buddhism in regard to their religion. Accordingly, the national religion of Tibet also cannot be called Buddhism, rather only Lamaism, which has nothing to do with real Buddhism, if nowadays a true Buddhism may be spoken of at all, because, even with this, very many things were distorted and indeed even in regard to the teaching of Gotama Buddha, consequently the real teaching was only taught, understood and lived by the prophet himself. ... The Dalai Lama, Bstan-'dzin-rgya-mtsho, who today cruises around in the world, promotes a free Tibet and writes books with inexpert content, is no Buddhist at all, rather a Lamaist who strives for state power. Who then still wonders that he had to flee from the Chinese? The fact is that the Tibetan Lamaists committed monstrous atrocities before the Chinese again took over control of Tibet, whereby, at any rate, they are also to blame for unbelievable atrocities. Naturally this truth is vehemently disputed and denied as well as twisted from all sides. ...

...

**Billy:**

Despite these facts, most western countries revere the Dalai Lama in particular, as also, however, do the Tibetan Lamaists, whereby neither these believers nor the western worshippers and followers know the actual facts about the Dalai Lama and Lamaism. The believers of Lamaism are so duped that they follow the Dalai Lama blindly and neither examine the background of this nor the background of the machinations of Lamaism. There are only few real

experts in the entire matter about the Dalai Lama and Lamaism, as, for example, diverse journalists who also name the facts openly, as, for example, in 2000, when the German media openly challenged the Dalai Lama and talked plainly.

- 1) that he defames his critics, respectively, slanders them, and brings them into disrepute;
- 2) that he actively oppresses religious minorities, however, otherwise plays the good human;
- 3) that he has knowingly falsified the history of Tibet and his flight, and so forth;
- 4) that he perfidiously exploits his political status and his power as head of the Lamaists over the believers;
- 5) that he oppresses any political and religious opposition to himself;
- 6) that he has fallen into to a most extreme tyrannical and undemocratic leadership style;
- 7) that he maintains rituals which are misogynistic, respectively, antagonistic to women;
- 8) that he maintained, and maintains, friendship-based contacts with former SS members, respectively, Nazi big-wigs, as well as with neo-Nazis.

What there is further to say relates to the USA – which indeed cannot possibly be any other way at all – whose secret service CIA plays a decisive role in the more recent history of Tibet, as Quetzal once said. The CIA, according to his statement, was the authoritative factor behind the success of the Dalai Lama's flight to India where he lived in exile and was supported by the US secret service as well as the guerrilla army, respectively, the armed Tibetan-Lamaist troops, who caused much harm and perpetrated monstrous atrocities, however, in reality, could not accomplish much to bring Tibet under their and the Dalai Lama's control. Nevertheless, however, the acts of the guerrilla army had a great significance for the moral of the community of Tibetan exiles who fled to various countries, because they hoped that a return to a 'free' Tibet would be possible for them, whereby, however, they only knew the propaganda of the Dalai Lama – which is always still the case – while the truth is withheld from them. And that the CIA in Tibet also forcefully functioned in another way, was also clearly connected, among other things, with the occurrences of uranium which the country had to offer and which was not supposed to fall into the hands of the Russians. ...

**Ptaah:**

37. This year there will be a lot of snow around Easter time.
38. Tibet, and Lhasa in particular, is plagued by great political and religious unrest by the population, directed against China, with the numerous monks also heavily involved, proving that they are not as peaceful as they claim to be.
39. The reason for the bloody and destructive riots is taken as the upcoming Olympic Games, which are a welcome means of stirring up the world against China, which of course fights back harshly and ruthlessly, costing a large number of human lives.
40. The mastermind or originator for this is the Dalai Lama, who in his stupidity works in a subterranean political and domineering way and thereby causes the unrest, whereby he, as it is usual for a wolf in sheep's clothing, handles everything in such a way that nothing can be proven against him.
41. I attribute stupidity to the Dalai Lama because he is not able to judge what he instigates underhandedly, cannot see it through and cannot foresee the consequences.
42. Consequently, he irresponsibly carries out his underhanded work in such a way – he is so clever again – that he only works on his followers and special helpers and messengers orally with his incitements and does nothing in writing, so that nothing can be proven against him.
43. Through his policy as leader of the exile government and spiritual leader, he has great influence and great power over his followers who worship him as a deity, so that he can direct his followers according to his plans and his will, without them realizing his deceitful goals, which are to become the undisputed political and spiritual ruler of Tibet and to secede it from China as independent.

44. The Dalai Lama's supporters deliberately overlook the fact that he displays political power, as well as the fact that he drives his followers with his infamous actions into hardship and misery and even often to their deaths, which is completely irrelevant to him and is calculatedly included in his actions.

45. Officially, he is hypocritical and calls for moderation and peace, while he is deceitfully and underhandedly inciting his followers and believers to resistance against China and to rebellion and unrest.

46. He does this in a way that in his stupidity he himself does not recognize as what it really is, namely that he is a religious and political rebel, who by his actions and conduct drives his believing people mad and into misery and leads them into misery and into continuing enmity against China.

47. He succeeds in this very easily because China does not enjoy a good reputation all over the world and is engaged in many inhuman and inhuman machinations.

48. And the Dalai Lama, in his stupidity and in his striving for power, is not able to estimate what he is doing to his believers with regard to what is happening to them in need, misery and harm by China's brutal and murderous measures, because the Chinese rulers are not squeamish and allow evil and degenerate violence to be used, as has been customary in China since time immemorial.

...

**Billy:**

This is as familiar to me as his misogyny, but he knows how to hide it. So there is stink in Tibet, and as you say especially in the capital Lhasa. I do not think much of the methods of coercion used by the government and the murderous actions of the Chinese government against enemies of the regime and those who think differently, as well as criminals, etc., because all in all it is inhuman and degrading. However, what the Dalai Lama does with the believing people falls into the same category, because through his false religious-political and world-political machinations he lets the believers run into the open knife with the Chinese. He talks loudly about peace while he deceitfully seduces the faithful to resist China instead of honestly trying to reach a compromise with China by giving up his autocratic and unjustified claims of being the political ruler of Tibet and its people. He should be content to be the spiritual leader of the Tibetans who believe in him, who worship him like a god and believe that the sun will not shine if he resigns as leader of the political-religious government in exile, as a Tibetan recently told me when I was talking to him in the waiting room at the doctor's office. These people are so misled by the Dalai Lama and his false speeches that they cannot understand what is really going on and that he is the mastermind behind the fact that there has been a political fire between Tibet and China for a long time, that there is murder and manslaughter, riots, destruction, bloodshed and terror on both sides, both by the Chinese and by the Tibetans themselves, with the supposedly peaceful monks also involved. If the Dalai Lama were to do his duty as spiritual leader, he would not be involved in politics and would not have ambitions as a political leader. If he were who he claims to be, he would be striving for true love and peace and would be trying to find a peaceful solution with China by withdrawing himself as political leader and renouncing any political activity. With that he would also save the lives of many of his believers and give them a better life, because by such an action he would save the Tibetan people from exposing themselves to the murderous machinations of the Chinese rulers when they cause riots and uprisings. Although this would not make Tibet a state in its own right, it would lead to a compromise peace that could last until the balance of power in China changes in such a way that one day Tibet's independence can be negotiated peacefully with responsible and humane Chinese leaders and that this independence can actually be achieved. However, as long as the Tibetan people are still controlled by a Dalai Lama who is greedy for political power and is not prepared to make the necessary compromise, much disaster will continue to befall the misguided Tibetans.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_462](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_462)

**Billy:**

... And while we're on the subject of unpleasantness, I would like to ask you if you know a little bit more today about the Tibet-China thing, by which I mean the Olympic torch relay, which is supposed to go through several countries of the world and even to Mount Everest. I could imagine that the Tibetans in exile and their followers and those of the Dalai Lama will demonstrate against it worldwide.

**Ptaah:**

26. This corresponds to the reality, because through the Dalai Lama's false propaganda and his political and religious machinations, a great many people are being incited and misled with regard to his real intentions and the reality of what is happening in Tibet and its context.

27. Thus, many innocent people are being misled about the reality of things against China and the Olympics, causing riots, Olympic boycott cries, fistcuffs, be incited to other violence and demonstrations, and tarnish the apolitical spirit of the Olympics.

...

**Billy:**

... The Dalai Lama's machinations regarding his claim to power over Tibet and its aspired independence from China is a purely political matter and has nothing to do with the Olympics in China. The fact that he is nevertheless deceitfully inciting his believers and other followers against China and the Olympics in a political way is something that they obviously do not realise, nor do all those government-incompetent rulers who hype him up and see him as a saint. These rulers are so dumb and stupid that they think they can bask in his 'spirituality' and shine with it, not realising that they are shaking hands with a wolf in sheep's clothing, as you called him. As a 'clergyman' he is hypocrisy itself, and what he has to do politically with China is his business alone, for it is he alone among all Tibetans who claims spiritual and political might for Tibet. So, from his side, the whole thing is only a primitive claim to power, through which he is at loggerheads with China, which in turn exerts evil violence in Tibet, with the Tibetans, and indeed also the supposedly peaceful monks, exerting counter-violence. This violence is also exercised by the Dalai Lama, even if he does it deceitfully through the believers and other followers he has misled, who leave their blood or are otherwise harassed or punished, while not a hair on his head is touched. But this should not distract from the fact that China, just like the Dalai Lama and the Tibetans, also commits evil mistakes and spreads fear, terror, horror and death through evil violence, only that China does it openly and thus infuriates the world, while the Dalai Lama remains unscathed through his nasty deceitful machinations, because officially nothing can be proven against him, since he only preaches peace in public, but sows misguidance and violence in the background.

**Ptaah:**

31. His believers and other followers do not want to see or know the real truth.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_463](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_463)

**Billy:**

... The Olympic torch relay is very much disturbed in practically all countries by demonstrations and violent attacks by Tibetans and Tibetans living in the countries where the torch relay takes place. There is howling and raving against China and demands for "Free Tibet". Of course the Dalai Lama is behind all this with his anti-China propaganda. He knows how to get his followers in a rage just by threatening to resign as the big boss of the exile government because they see in him the real saviour.

**Ptaah:**

77. This is what is real.

79. The Dalai Lama uses his believers and other followers to turn the Olympics into an act of political terror and to insult and denigrate China in every possible way.

80. Of course China has been a state of violence and injustice since ancient times, but what is done by the Dalai Lama and his followers and believers is not right.

...

82. And that here now the peaceful competitive spirit of the Olympics is turned into a political power struggle by the machinations of the Dalai Lama and his believers and followers, this is not only wrong and very regrettable, but criminal, inhumane, criminal and a farce of the very same kind.

...

86. Consequently, every human being who joins in the Dalai Lama's power-hungry machinations, disrupts the Olympic torch relay, cries out obscene words against China and demands a free Tibet is in the wrong.

87. This is not the way and not an act of peace, but an evil act of open terror, of which every human being is guilty, who participates in such actions or also cultivates thoughts in this way.

88. For Tibet cannot be freed by the Dalai Lama's conjured up worldwide terror against China, for China is rightly not getting involved in this.

...

91. Should it be that Tibet will one day become independent, then this will require lengthy negotiations as well as reason, reason and logic, which, however, cannot be conducted by the power-hungry Dalai Lama and his envoys, but only by neutral negotiating partners who themselves do not seek religious and political power, as is the case with the Dalai Lama and his envoys.

...

**Billy:**

... it is a boundless disgrace for all those who harass China with regard to the Olympics and the Olympic torch relay, because it is not the Chinese regime that is fundamentally affected by the demonstrations and violent machinations of the fools who are believers and followers of the Dalai Lama, but the entire Chinese population. ... It is already no longer just stupid, it is even primitive and indeed, as you say, criminal and criminal to call what the demonstrators and perpetrators of violence against the Olympic torch relay and against the Chinese people, under the insidious leadership and wicked machinations of the Dalai Lama and his vicious underground army, are doing and are jeopardising the Chinese people's right to hold and experience an Olympic Games in their country at long last. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_465](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_465)

**Billy:**

Just as the Dalai Lama is being hailed and given unjustified aid by all the world's innocent people, while China and its people are being rammed to the ground. Of course, it is no coincidence that there is such an evil sentiment against China, if one thinks of all the horrors that have been repeatedly brought to light in China since time immemorial, but the fact that the Dalai Lama's criminal political machinations are being praised unscrupulously and against all existing truth of his evil deeds is unjust.

**Ptaah:**

41. Earth-humans neither want to see the truth nor know or accept it, because they prefer to be deceived and deceived by false words of hypocrites.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_487](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_487)

**Billy:**

... And I have a bulletin question to answer directly in regard to the Dalai Lama, because people simply do not want to understand what is really going on with this bloke and that he is not the

peaceful human being which he always pretends, worldwide, to be. Truly, he is certainly not a 'Holiness', that is to say, a venerable one, rather, he is a 'feigned Holiness'. The reader's question which I shall answer is: "Why do you abusively insult the Dalai Lama, who is really a peace-loving and good human being? That which you write about him in your bulletins is unbelievable." A. Sanders, Germany.

**Ptaah:**

36. Lies, bigotry and slander hold very much more weight for the Earth-humans than does the truth.

**Billy:**

An article has also appeared in which something is said about that which is really behind the Dalai Lama. So, the talk therein is also that the truth about him is this: he pretends to be a worldwide apostle of peace and is followed by millions of faithful who transfer millions in funds to him with which he can carry out and finance his secret work in Tibet. Millions, from which the misogynist can also live very well, whereby it is primarily the woman – of all people – who believe in him, who finance him, as thanks, as it were, that he is ill-disposed towards them, but – because of his faked pious and peace-loving nature – they do not realise it. But his image as an apostle of peace does not correspond to the truth, just as his "holiness" is also only the mask of his sanctimoniousness. Born Tenzin Gyatso, he was appointed, as a child, to the position of 14th Dalai Lama, respectively, to the position of the highest ecclesiastical dignitary and political head of Lamaism. Enthroned from 1935 until 1940, he fled to India after China occupied Tibet in 1959 and ended the bloody goings on and the serfdom maintained by the Dalai Lama, and the punishments of blinding, flogging, hacking off of limbs and appropriation of the property of Tibetans who had committed punishable offences. He set up his Indian residence in Dharamsala in the state of Himachal Pradesh. Since the advent of the Tibetan government-in-exile, he has been the leader whereby, however, this government-in-exile is not officially acknowledged by any country. Nevertheless, however, many powerful state figures of diverse countries crawl up the Dalai Lama's backside and help him. Officially, the government-in-exile supports negotiations with the Chinese government in order to obtain real autonomy for Tibet. At the international level, the Dalai Lama sanctimoniously devotes himself to love, peace, freedom and tolerance among the religions and peoples, as well as to the observation of humanity's global responsibility. For that reason he was also awarded the Nobel Peace Prize in 1989. Thereby, however, the fact was completely disregarded (probably due to ignorance) that, behind his actions and his sanctimonious behaviour, he strives for religious and political might, and leads a Tibetan resistance movement. This positions itself against the brutal force of the Chinese and has caused great harm since it has been in existence. The members of this underground army call themselves "freedom-fighters", whereby, however, in reality, they commit terrorist acts against the Chinese occupiers. The weapons they employ are extremely varied and range from slingshots, knives, pistols and rifles, and swords, right up to captured Chinese artillery. Therewith, and by means of their underhandedness, their hate and their thirst for blood and revenge – which they call fearlessness – they taught the Chinese occupiers angst, but they also taught them to raise themselves up, more brutally than ever, against the Tibetans. And all that leads back to the so "peaceful" and "love-preaching" Dalai Lama. Truly there is nothing pertaining to the "freedom-fighters" – secretly led by the Dalai Lama – which would position them passively against the Chinese occupation, because peace-readiness is, for them, just as much a sanctimonious farce and, indeed, exactly to the degree maintained by their leader. Yet the simple Tibetans, as well as the exiled Tibetans, and the worldwide believers and followers of the Dalai Lama, know nothing of all that. However, the Chinese Tibetan occupation, for which the whole thing is a military nightmare, knows better. And one can understand this well when one knows that the Tibetan underground army, Chushi Gangdruk, still exists today and carries out its murderous mischief against the Chinese occupation. This underground army, lead by Gyalo Thondup, a brother of the Dalai Lama, was, namely, never disbanded. Earlier, they were

supported by the US-American CIA, and indeed for around 25 years. When this was the case, the Dalai Lama also managed to obtain the USA's support, for himself and the exiled Tibetan court, against China. Thereby, with this Dalai Lama-USA connection, armed conflicts were also fought out with the Chinese occupiers by means of USA powers and Tibetan Chushi Gangdruk fighters, whereby it was said, of the Tibetan "peace-fighters", that, over a long period of time, for every Tibetan killed, ten Chinese had been killed. The Dalai Lama's flight was already prepared in 1951, and indeed with the help of the US American secret services' CIA, whereby, at the same time, with their help, great treasures were also already secretly smuggled to India out of the Dalai Lama's main city, Lhasa: primarily gold dust and silver bullion with a current value of around 65 million Swiss francs, respectively, about 47.5 million euros. Then, years later, the Dalai Lama's flight took place; well-organised by the CIA, which had earlier, in the USA, already trained a small, elite army of "freedom-fighters" – and indeed in Camp Hale in the Rocky Mountains – which then also accompanied and protected the Dalai Lama as he fled. It comprised around 350 soldiers and 50 "freedom-fighters". But that was not enough, because the elite fighters had still other tasks to carry out, as, for example, the guerrilla war, but also in that they, as paratroopers, jumped out of smuggled B-17 bombers which bore no national emblems, and led a terrorist form of war against the brutal Chinese occupiers. And so that they could not talk, they were equipped with very fast-acting cyanide poison capsules, which they were required to swallow in the event of being taken prisoner. Yet that was still not enough, because the CIA also pottered about outside of Tibet, as, for example, in the Kingdom of Mustang in Nepal, where a rebel army of more than 12,000 terrorist fighters was set up, which carried out murderous actions against the Chinese occupation in Nepal. And the fact that all the CIA machinations, in association with Tibet, has cost the USA hundreds of millions of dollars, is naturally clear, yet even today that is not known by the American people. Also, that the Dalai Lama was paid 186,000 US dollars annually would not be known by the American people. Only in 1972 was the CIA's direct support for the Tibetan resistance suspended, only, however, to be continued by a private – although federally organised – financing, as well as by means of the help of ignorant Dalai Lama followers. One can name, for example, the NED (National Endowment for Democracy) which spent, and still spends, millions of US dollars in order to damage China and to claim that China steers the bloody unrest in Tibet. The NED claims this contrary to better knowledge, and, self-evidently, contrary to its denial of all its activities in regard to that. And what the CIA carried out earlier in Tibet is carried out these days in secret by his Feigned-Holiness, the Dalai Lama.

25. And to this article here in relation to the explanations and the descriptions from the book '[The Shadow of the Dalai Lama](#)' it is to be said that effective facts are mentioned, which, however, on the one hand are not accepted as truth by the believers who follow the Dalai Lama, and on the other hand by various governments of various countries as well as by many of the world's population, whereby blinded faith reasons play just as large a role as, however, also profit reasons in relation to secret service, political and economic machinations etc.

**Billy:**

I will also add the other article that appeared in the journal TAXI under the title 'Der Schleiermacher' by Martin Ulrich, which is sold by unemployed people who can earn a supplement to their welfare money. The article is freely available and published by the editors of TAXI for FIGU, and is a treatment of the book 'The Shadow of the Dalai Lama' (816 pages, by Victor and Victoria Trimondi, published by Patmos in 1999). The content of the article and the book is about the Dalai Lamas etc. and their inhumane, misanthropic and inhuman machinations in Tibet. Unfortunately, there are no more books about this article in bookshops, because they are sold out. Some people say that the majority of the 1999 edition was bought up

and destroyed by Dalai Lama friends. Whether this really corresponds to the facts is unfortunately not known. The book is unfortunately out of print, but may still be found as read copies in second-hand bookshops and at AMAZON. Similarly to this book, 'The Shadow of the Dalai Lama', there is another work worth reading by an author called Colin Goldner, entitled '[The Case of a God-King](#)' (2nd edition 2008 expanded, 736 pages, ISBN 7335 3-86569-021-1 from Albin Verlag, Aschaffenburg), although this book, which is also worth reading, is still available in bookshops, so it can still be bought by those interested.

**Billy {1949}:**

As for the present Dalai Lama – who is already in the service and on the payroll of the USA and the CIA with many dollars – he is now doing everything he can to shake up Chinese oppression through a guerrilla movement, financially supported by the USA with millions of dollars, which he will make act violently against the Chinese. In the process, as already mentioned, he is chosen as the 14th Dalai-Lama, whose real name is Tenzin Gyatso, to be the ringleader of the Tibetan free fighters with large bribes from the USA, who in his greed for money has already allowed himself to be bought by the secret service.

The Dalai-Lama is a liar who is already deceiving the whole world in his juveniles and will also lie and deceive the world throughout his life, as very clear foresight clearly proves. He will do everything in this respect and try to present himself as a peaceful angel, but in reality he is a wolf in sheep's clothing and will be partly responsible for all the violent riots in Tibet that will continue well into the third millennium. He will stop at nothing, just as the entire criminal Nazi regime in Nazi Germany stopped at nothing. So everything will be completely different from the Dalai Lama and Tibet-friendly propaganda worldwide and all lies and deceit will be carried far into the future. But also in Tibet many things will change when the Dalai-Lama, who is still young and selfish today, will flee to India and then to the West in 10 years' time and consequently leave his believers in Tibet in the lurch and far behind him and he will live a good and lying life paid for by stupid believers in foreign countries until old age. And in all respects, even after his flight in 10 years' time, he will live carelessly on large donations and tributes from his stupid believers and other godly followers, as has been the case with all religious leaders since time immemorial and will also remain so for a long time to come. ...

**Billy:**

If only the Buddhist sectarianism of Lamaism in Tibet is examined, it reveals the same evil as in Myanmar, for what the Lamas and Panchen Lamas have done there would knock Siddharta Gautama's hat off his head and he would turn over in his grave in disgust, shame and pain (note Wikipedia: Penchen Lama is the title of an important reincarnation lineage of the Gelug order in Tibetan Buddhism. The Penchen Lama is considered the second highest Trülku of the Gelugpa and traditionally the emanation of the 'Buddha of Immeasurable Light' Amitabha). If I were to describe the atrocities of Lamaism in Tibet alone, I would have to write several books about it, but I can recommend a book that shows some of what has become of Buddhist sects that practice completely false teachings of Buddhism that have absolutely no real connection to the original teachings of Siddharta Gautama any more. To gain a really clear insight into yesterday's and today's Buddhist sects, especially Lamaism and its Panchen Lama as well as the equally mendacious Dalai Lama Tenzin Gyatso (note: today's Dalai Lama, who is especially adored by women, although he despises and hates them abysmally – I wonder why?), the book '[The Shadow of the Dalai Lama](#)' by Victor and Victoria Trimondi/PATMOS-Verlag/Düsseldorf is recommended.

### **Billy {1947}:**

... America, since time immemorial – especially now through Harry S. Truman, who since his installation as the 33rd president of the USA – secretly and without the knowledge of the people – interferes in the political affairs between China and Tibet because of wanting to drive the Chinese out of Tibet. This is the case because he secretly worships the current Dalai Lama, who, as a 5-year-old boy in 1940, was enthroned as the 14th Dalai Lama, who is listed as the head of the Tibetans. He is supposed to be a 'man of peace' in the future but in reality, he is not. In truth, even at his young age, he is a high-handed and devious rebel, conspirator, insurrectionist and evil terror to the women whose enemy he is, which he knows how to conceal; consequently they will follow him. However, he does not like them while he lyingly pretends equal rights to them, in order to secure their allegiance to him and needed support as well as to be sure of their gifts of grace to the religious leader. Contrary to his hypocrisy, it must be said that even at his young age he is only a 'man of discord, falsehood and misogyny', and as religiously mendacious as others and the Panchen Lamas before him. Their believers who are in bondage to them were, and still are, mistreated worse than slaves; by means of torture their torturers cut off fingers, hands, arms, legs or ears of the believers, or they allowed their believers to be blinded if they did not do what was demanded of them. With my own ears I heard the 14th Dalai Lama idealising the conditions in the former Tibet, where I saw with my own eyes the opposite of what he mendaciously claimed. With my own eyes I saw how the Lamaist monks, together with some members of a noble class, chastised serfs and slaves who were supervised by the monk police and were subjected to corporal punishment with Gewalt that mutilated their limbs or even blinded them. A fact, however, that will be disputed by the Tibetan government-in-exile when the 14th Dalai Lama, aka Tenzin Gyatso, waves his sceptre and flees Tibet.

However, as far as the present Dalai Lama is concerned – who is on the payroll of the USA and the CIA with many dollars – he tries to do everything possible to shake the Chinese occupation, namely with a guerrilla movement financially supported by the USA with many millions of dollars, which the young Dalai Lama allows to proceed against the Chinese with Gewalt. As the 14th Dalai Lama and with slush funds from the USA – as already said – he thereby becomes the ringleader of the Tibetan freedom fighters, who, in his greed for might and money, allows himself to be bought by the secret service CIA.

Already since his youth, the young 14th Dalai-Lama has been a liar, wherethrough he deceives the whole world and will prove this doing all his life, which clearly conducted foresights show clearly. He will present himself as a peaceful angel, but who in reality is a wolf in sheep's clothing, who will be partly responsible for all the gewaltsam riots in Tibet until the 3rd decade of the 3rd millennium. He will not shy away from any infamous action, which he will conceal from the outside world after he has fled Tibet and will continue his life in the government-in-exile under the protection of the USA. Therefore everything will be totally different from his Tibet-friendly propaganda worldwide, and all the lies and deceit will be carried far into the future. But everything will change in Tibet when the young and selfish 14th Dalai-Lama will flee and consequently abandon his believers in Tibet, when he will live a good but mendacious life in government in exile until old age, paid for by believers of low intelligentum. And even after his escape he will live in a carefree form from large taxes, gifts and donations from his believers that are of low intelligentum and from devoted followers, as has been the case with all religious leaders since time immemorial and will remain so in the distant future.

### **Erich von Däniken**

[https://en.wikipedia.org/wiki/Erich\\_von\\_D%C3%A4niken](https://en.wikipedia.org/wiki/Erich_von_D%C3%A4niken)

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_119](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_119)

**Billy:**

... Can you tell me, perhaps, how many things of Erich von Däniken correspond to the correctness and the truth, with regard to his representations and assertions? Maybe you can give me a percentage?

**Semjase:**

33. Sure, I can do that, because in recent times, I have dealt very intensively with these things
34. His basic statements regarding the intelligences from the depths of universal space and influencing the human beings of Earth are to be confirmed completely.
35. But his statements in reference to many ancient relics of bygone times are, in most cases, based on very extravagant fantasies.
36. Only less than 4% of his statements correspond to reality, as I could determine through the most exact calculations.
37. The man Erich von Däniken, unfortunately, tends too much to force all ancient findings and everything existing here since time immemorial into the area of extraterrestrial intelligences because he is too caught up in these things and has long lost the clear overview, if he ever possessed this at all, which is doubtful after everything that I have analysed.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_155](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_155)

**Billy:**

Also responsible for this is, indeed, the damn delusional belief of human beings, who are still fueled by the likes of Erich von Däniken and Peter Krassa and through whom they still earn huge sums of money thereby.

**Quetzal:**

88. That is also of correctness because by such fantasy-story writers, many people become led astray and even led to such degenerate [those who have gotten very badly out of control of the good human nature] human beings, such as this Hansi Hauck {see [Tatunca Nara](#)}.
89. Not only are the misled and fantasy believers confused and partially or heavily disturbed in their consciousnesses by fantasy writers such as Erich von Däniken and Peter Krassa, but they also sometimes run the risk of losing their lives, like in this case.
90. However, this disturbs the fantasy writers very little or not at all because for them, it is always just important that they obtain prestige and riches through their fantasy stories and writings, which truly have no significant value, however.

**Billy:**

Unfortunately, the earth-humans grasp at sensations, and in their unknowledge of the truth, they allow themselves to be taken for fools, and indeed, taken literally. They do not want to know the real and true truth, which is why they run after such dreamers, as they also do with the sects and religions.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_216](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_216)

**Billy:**

So all of the various allegations are rubbish, such as the ones that the geoglyphs {see [Nazca Lines](#)} would mark or indicate underground rivers or that these are prehistoric airfields of or for extraterrestrials, as this, along with other things, is fantasised by Erich von Daniken.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

... You know that I don't think much of Erich von Däniken's writing, especially not because I know of you that in his writing only 4 (four) percent of his assertions come close to the truth, which is admittedly very much. But I don't like his self-opinionated posturing and megalomania, which doesn't make him sympathetic to me. The fact that he accuses me of lying and cheating leaves me actually cold, because to want to be resentful or instructive to megalomaniacs and

autocrats is not to be because they are too small in their consciousness and mind to be able to grasp and evaluate complaints or teachings. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_399](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_399)

**Billy:**

Then I would like to take up the following: Erich von Däniken as well as Krassa and various others who write about historical events, claim in countless cases that all over the world there is evidence in many peoples or that they have found such evidence that extraterrestrials are supposed to have intervened in the development of the terrestrial human beings. They also submit all kinds of photos and materials that they consider and declare as evidence. In my opinion and according to your statements, however, most of this evidence is worthless, because very many of the things show no relation to extraterrestrials, but only to the works of man on earth. Semjase, you and Quetzal, you once declared that it is only about 4 percent of everything that Erich von Däniken describes in relation to things of extraterrestrial origin. Is that still true, or has his hit rate increased since then?

**Ptaah:**

7. At that time, when Erich von Däniken's researches concerning things of extraterrestrial origin were stated by us with 4 percent, it referred to all his researches at that time.
8. But what he has continued to produce since then and what he calls extraterrestrial origin, or rather what is supposed to be evidence that things would point to extraterrestrial gods and space travellers, is simply based on unfounded assumptions, hopes and illusions.
9. Thus, since our statement, with all the material further collected by him, the percentage of the correctness of his statements has fallen to below 0.6 percent.

**Billy:**

Which proves that extraterrestrials were extremely rare on Earth in ancient times etc., as was the case with certain gods who were extraterrestrials, while most of the deities were pure inventions of Earthmen and therefore imaginary figures. So an enormous number of things of the old times are of pure earthly human origin, so in relation to technology and thus to mechanics, medicine, architecture, mathematics, geometry and all knowledge and ability in every respect. ...

## **Dark Energy**

[https://en.wikipedia.org/wiki/Dark\\_energy](https://en.wikipedia.org/wiki/Dark_energy)

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_228](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_228)

**Billy:**

... Is it possible to determine the mass of matter in our visible material universe if you completely exclude the other six belts?

**Quetzal:**

85. It would be unscientific and arrogant to try to do this, because the entire expanse of our universe is so vast and involved in constant change that it is impossible to calculate exactly.
86. Moreover, our universe – like any other, of course – consists not only of gross matter, but also of pure energies, one of which is black energy, as we call it, which is responsible for a certain form of antigravity in the material universe and is estimated to account for 3/5 of all universal energies.
87. Matter must also be seen in different forms, so on the one hand the visible and tangible matter, which is very small to be calculated with about 0.5/5, while on the other hand still the dark matter is 1.5/5.
88. But, as I said, this information is only based on estimations and calculations, which, due to the constant change of the visible material universe, are not constant but extremely variable.

89. To want to name exact results would therefore be nonsensical and arrogant and, moreover, ridiculous, because exact calculations cannot be made due to the constant change of the universe.

**Billy:**

Then I guess it would be fair to say that our material universe belt is actually dominated by black energy, right?

**Quetzal:**

90. That is of correctness.

**Billy:**

We know, after all, that the total universe does not expand forever, but only expands until the time of 155.5 trillion years, and then succumbs to contraction. During the expansion process of the entire universe, the visible material universe also becomes larger and larger, if I look at the whole thing correctly. And since this must be the case, there must also be different temperatures in our universe, because I assume that heat and cold must be generated by the constant change movement. Am I correct in my assumption?

**Quetzal:**

91. That is of correctness.

92. Although the temperature fluctuations are universe-wide and very minimal, they occur mainly in those parts of our material universe where the uninterrupted change through the outer, immaterial belts takes place.

93. This is what we call the transitionless open change zone.

**Billy:**

This transformation zone does produce a rushing sound, as Ptaah taught me on the Great Journey. I was also allowed to hear it through the technical devices in the giant spacecraft. It was simply gigantic. Ptaah explained to me that the earthlings call this phenomenon cosmic background radiation and assume that the big bang took place there in that zone and that the universe also ended there.

**Quetzal:**

94. Which does not correspond to correctness, as you know.

**Billy:**

Of course, because that's where the actual total universe begins with its other six immeasurable belts. Ptaah also said that the differences in temperature are actually very small and therefore only subject to tiny fluctuations caused by fluctuations caused by differences in density in all regions of our material universe.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_230](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_230)

**Billy:**

... Then a question regarding Albert Einstein's general theory of relativity: He taught that the light rays in the vicinity of large masses run in curved paths.

**Quetzal:**

609. That is of rightness.

610. Therefore, it is not a theory, but the reality.

611. However, the light rays are not only bent in the outer space by large masses such as stars and planets, but also by so-called wild magnetic fields in the outer space as well as by neutrino masses and dark energy masses etc., which assemble in the outer space.

612. The same applies equally on planets, but in hardly measurable form, if artificial light sources are used on them, because they also bend unnoticeably when their light encounters larger masses.

**Billy:**

And since light has a mass and a weight, it can probably also be used for the braking effect if it is only strong enough. So I think that a tremendously strong spotlight could, for example, even bring a moving vehicle to a standstill.

**Quetzal:**

613. This is of rightness, but the light source would have to be beam bundled and tremendously strong.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_435](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_435)

**Billy:**

If I am right, then that means that our material belt – that is to say, our visible, material part of the universe – will persist for 32,000,000,000 more years, before a transformation occurs again. And how must one imagine this transformation?

**Ptaah:**

76. The entirety of the coarse-matter material, of every kind, renews itself. Consequently, therefore, new galaxies, stars and planets, and so forth, come into existence.

77. With this transformation, which takes place within about 2,000,000,000 years, certain residues remain, which are deposited both in the transition zones, and in the material belt, as dark energy and as particle-like dark matter, which can, with special technologies, be captured and measured.

78. This dark matter is, therefore, very much older than the actual coarse matter material of the visible material belt – that is to say, than the visible part of the universe – which is mistakenly referred to as the universe by the Earth-humans, although this material belt constitutes only one part out of the seven parts which make up the actual universe.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_529](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_529)

**Ptaah:**

31. But well, what I am allowed to say is at least that the Dark Energy is the actual centrifugal force of the material belt, which is erroneously considered by the terrestrial science of astrophysics and astronomy to be the entire universe, leaving aside the other six Universe Belts because they are unknown to scientists.

32. The centrifugal force runs through the entire material belt, whereby it spreads out according to its rotation.

33. And that the speed to the outside increases more and more is due to the fact that the centrifugal force in the inner area of the belt is logically lower than in the outer areas.

34. And as the extension of the matter belt increases, the outward speed also increases, and consequently the galaxies etc. move away from the inner area of the matter belt with ever-increasing speed.

35. I am not allowed to explain more about this.

**Billy:**

That is enough for the time being, because your explanation will give our scientists many nuts to crack, as it will also do with many other things. These clever people do not even know that the Creation of Universal Consciousness is a pure spirit-energy-individuality, which itself does not think, but where everything is aimed at causing all things to become existent, to pass away and become again, by purely spiritual-physical and natural-physical laws. But since letting something become an existence in the human sense, such as an idea and love for the thing etc., is called and valued as something valuable, already in primeval times attempts were made to explain this to the human beings by speaking of an idea and love of the creation of universal consciousness. This, although the Creation does not consciously create these values, but only practices them spiritually and physically, which is called universal consciousness for the understanding of the human beings. In the human sense, Creation is not consciously active, as

is characteristic of the human being, but rather individually in terms of spiritual physics, from which natural laws and laws of nature arise, which in a causal form work independently.

**Ptaah:**

36. This also corresponds to our findings.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_530](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_530)

**Billy:**

... On the 3rd of November we talked about the dark energy in the universe, through which everything accelerates outwards. But this dark energy, respectively the centrifugal force of the rotating matter belt, has nothing to do with the so-called dark matter, which is being puzzled about by earthly scientists. This should be said before more rascals come along and claim that dark energy and dark matter are one and the same thing.

**Ptaah:**

120. It is good that you bring it up, because they are actually two different things, because the dark energy is one thing, while the dark matter is something completely different, but I am not allowed to make any explanations.

**Billy:**

Exactly, that is what you explained on my Great Journey, which is why I have also mentioned it now, so that the matter is clear: Dark Matter is really a form of matter, an extremely fine form of matter, but not a pure form of energy, which is where centrifugal force comes from. Energy itself is a mass at rest, so to speak, but it has the ability to unfold power from within itself and have an effect. At least that is how I remember your explanations. However, when it comes to energy and power, the human beings of the Earth always talk about only one thing in relation to energy and power, even though they are fundamentally two different values, because energy is not power, but power is created from energy.

**Ptaah:**

121. Your words will not please many Earth-humans, but they correspond to what should really be understood by energy and power.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_544](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_544)

**Billy:**

When I was in the fourth grade of primary school, and my teacher was Hans Frei - it was in 1948 - your father, Sfath, explained to me that altogether there are seven major powers of nature in the universe: on the one hand, the gravity, then the electromagnetism as well as the strong and weak nuclear power, and further the ...

**Ptaah:**

29. Stop, you are not permitted to openly name the three others, as indeed my father already had forbidden it to you.

30. These three other powers of nature are not yet known of by the terrestrial physicists, and they are still not allowed to discover them, because premature cognitions would have severe consequences.

**Billy:**

All right, excuse me, it remains withheld. It is certainly not in my interest to betray confided secrets, as I really only wanted to talk about the fact that there are not only the four natural powers known to the terrestrial physicists, rather also the remaining three which are still unknown to them, which exist as certain tiny and ultra-tiny particles, as related to the gravity, the electromagnetism and the strong and weak nuclear power. Also, the dark energy and the dark matter are included in the realm of particles, whereby certain of these particles, which are indeed also energies with powers, are supposed to be discovered in the foreseeable future, as you have said recently. Although it will still take a while, the success is to be understood - indeed according to your explanation - as a prediction. Additionally, I assume that I may say

that, These - let us say, the normal or simple elementary particles - in turn contain, in sevenfold wise, still tiny particles, which, as I learned from Sfath, can be designated as ultra-tiny, ultra-elementary particles, so to speak. Even when I with this statement draw attention to the fact, that a fundamental seven-fold chain of natural powers exists and that other particles exist in the already known and unknown elementary particles and that only then, below that series of seven, that begins, wherefrom originally everything evolved from pure spirit-energy, I thereby betray no secret, because all of that corresponds to the spiritual teaching, in which I indeed also mention these things openly. And since the terrestrial physicists, especially the particle physicists, lack the inner and fundamental knowledge about the actual spirit-energetical structure of these things, they anyway are not able to comprehend anything of which I speak. There would probably have to be exact statements and explanations in order for the physicists to get any benefit from it. Among the physicists, the physical cognitions in relation to the true and fundamental structure and the exact interrelationships of the material, are indeed still in the material realm of the material, because till this day they have not yet become so smart that they would have arrived at the thought that the origin of all material, everything which exists and the entire universe as a whole, cannot be explained simply from the perspective of the purely material realm. So, the elementary particles, as such - despite their energetical tininess and inconspicuousness - are also purely material and not immaterial, because the immaterial is of pure spirit-energetical nature, and that energy alone is the absolutely one and only origin of all things and all material of any kind. And thereby, belonging to the material is everything which is solid material, liquid and gaseous, which can also be perceived by the human being and measured in the most various ways and detected, as your father explained to me according to your physics. However, that which is fine-fluidal, and high-fine-fluidal, consists of pure spirit-energy, and this is not graspable for the human being. And alone this spirit-energy is the origin of all existence of those things which can be registered, detected and measured in any manner by the human being, while, up to the present time it is not yet possible, nor will it be possible for a long time into the future, for human beings to provide evidence for, and measure, the creational-natural spirit-energy. But since those terrestrial physicists - who deal with the origin of life, and therefore also with the solid, liquid and gaseous material, and who attempt to explore everything in this regard - lack even the most minimal cognition regarding the spirit-energy from which everything in its absolute origin has arisen and come about, they are still very far from being able to research for and gain cognitions about how the process of coming into material being results from the purely spiritual energy. Like children who poke around in their food annoyedly and do not find in it what tastes good to them, so the terrestrial physicists poke around in an area where they cannot find the real origin of all things. Of course it is necessary, with the research related to this, to recognize the purely material aspects of the material and then to in the right way utilize these cognitions so as to do no harm with them, but if the real origin of all things is to be recognized, then after all the cognition must mature that it lies in the spirit-energy. However, this energy has nothing to do with that which is erroneously designated as 'spirit' by the human beings of Earth, which as such is supposed to embody what is the human consciousness. The spirit, that is to say, the spirit-energy, is not the consciousness, because the spirit, or indeed the spirit-energy, does not think and it creates no 'spiritual' property, because this is reserved for the material consciousness alone. Thus, in human beings - or other life forms - also no 'illness of the spirit' can appear, rather only a consciousness-clouding and consciousness-illness, and so forth, because the spirit, that is to say, the spirit form, ie, the spirit-energy, is absolutely off limits and not capable of being influenced by anything whatsoever such as diseases etc. from the material realm.

**Billy:**

... That's enough said, you do not need to mention more, besides he told me emphatically to keep quiet about what he taught me, because scientists have to find out for themselves what really is. The 3 central stars, which we simply call 'black holes', have been 'discovered' in the meantime, but the full reality of this is not yet known to earthly scientists, nor is the real truth of the energy of the existence of the universe, nor the basic matter of the universe, which they call 'dark energy'. Years ago I once talked to Ptaah about this, but I did not say what this matter actually is in truth, because officially I am not supposed to talk about it. The clever ones have to find out everything for themselves, and only slowly, slowly, because too much knowledge, too much too soon, only brings harm. The truth of this fact is proven by the far too rapid technical development alone, whereby the murder instruments weapons have been brought to such a level that with them the earth can fly apart into the infinity of the universe. Fortunately, it is not yet possible for the earthlings to penetrate into the other 6 universes of Creation, although they suspect that these exist, but see their existence as dimensions of the future and past and do not know that the 6 universes are their own spatialities and precisely universes of creation.

**Billy:**

... Is it possible to determine the mass of matter in our visible material universe if you completely exclude the other six belts?

**Quetzal:**

85. It would be unscientific and arrogant to try to do this, because the entire expanse of our universe is so vast and involved in constant change that it is impossible to calculate exactly.

86. Moreover, our universe – like any other, of course – consists not only of gross matter, but also of pure energies, one of which is black energy, as we call it, which is responsible for a certain form of antigravity in the material universe and is estimated to account for 3/5 of all universal energies.

87. Matter must also be seen in different forms, so on the one hand the visible and tangible matter, which is very small to be calculated with about 0.5/5, while on the other hand still the dark matter is 1.5/5.

88. But, as I said, this information is only based on estimations and calculations, which, due to the constant change of the visible material universe, are not constant but extremely variable.

89. To want to name exact results would therefore be nonsensical and arrogant and, moreover, ridiculous, because exact calculations cannot be made due to the constant change of the universe.

**Billy:**

Then I guess it would be fair to say that our material universe belt is actually dominated by black energy, right?

**Quetzal:**

90. That is of correctness.

**Billy:**

We know, after all, that the total universe does not expand forever, but only expands until the time of 155.5 trillion years, and then succumbs to contraction. During the expansion process of the entire universe, the visible material universe also becomes larger and larger, if I look at the whole thing correctly. And since this must be the case, there must also be different temperatures in our universe, because I assume that heat and cold must be generated by the constant change movement. Am I correct in my assumption?

**Quetzal:**

91. That is of correctness.

92. Although the temperature fluctuations are universe-wide and very minimal, they occur mainly in those parts of our material universe where the uninterrupted change through the outer, immaterial belts takes place.

93. This is what we call the transitionless open change zone.

**Billy:**

This transformation zone does produce a rushing sound, as Ptaah taught me on the Great Journey. I was also allowed to hear it through the technical devices in the giant spacecraft. It was simply gigantic. Ptaah explained to me that the earthlings call this phenomenon cosmic background radiation and assume that the big bang took place there in that zone and that the universe also ended there.

**Quetzal:**

94. Which does not correspond to correctness, as you know.

**Billy:**

Of course, because that's where the actual total universe begins with its other six immeasurable belts. Ptaah also said that the differences in temperature are actually very small and therefore only subject to tiny fluctuations caused by fluctuations caused by differences in density in all regions of our material universe.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_360](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_360)

**Billy:**

... It must have been 1946, if I remember correctly, when Sfath explained to me that there are two different types of dark matter in the universe and in the material belt of the universe, respectively. He spoke of a heavy and a light dark matter. As I still remember well, he said at that time that only through these two forms of dark matter could the material universe and all the galaxies, suns, planets, comets, meteors and gas nebulae etc. be created. This is understandable to me, but Sfath did not say how these two forms of dark matter form galaxies etc. In this respect, am I right in assuming that the two forms of dark matter cause and go through very specific physical processes, and that they cause a change of matter and, through rotation, a compression, and that gravity is then also created, by which an actual compression is stimulated, which goes beyond a normal compression? And is it correct that the infinitely existing electrons and neutrinos also play a role in this process, since they also have a certain mass and, under certain circumstances, come together to form rivers or streams in the space of the universe and also condense?

**Ptaah:**

45. That can be confirmed, but to speak about it officially in an explanatory way from my side at this point in time would be against our directives.

**Billy:**

I see. Our scientists are not yet ready.

**Ptaah:**

46. That's the meaning of my words.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_435](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_435)

**Billy:**

If I am right, then that means that our material belt – that is to say, our visible, material part of the universe – will persist for 32,000,000,000 more years, before a transformation occurs again. And how must one imagine this transformation?

**Ptaah:**

76. The entirety of the coarse-matter material, of every kind, renews itself. Consequently, therefore, new galaxies, stars and planets, and so forth, come into existence.

77. With this transformation, which takes place within about 2,000,000,000 years, certain residues remain, which are deposited both in the transition zones, and in the material belt, as dark energy and as particle-like dark matter, which can, with special technologies, be captured and measured.

78. This dark matter is, therefore, very much older than the actual coarse matter material of the visible material belt – that is to say, than the visible part of the universe – which is mistakenly referred to as the universe by the Earth-humans, although this material belt constitutes only one part out of the seven parts which make up the actual universe.

**Billy:**

The Dark Matter in the universe, we have talked about it a few times, but it was only in a private way, so nothing was ever written about it in the contact reports. Yes, you also kept me quiet about this topic, the last time was about five years ago. Is it still not allowed to say anything about it, I mean, what is the task of Dark Matter and what do you call it?

**Ptaah:**

7. It is not necessary to remain silent about it, so you can openly reveal your knowledge.

**Billy:**

Which you could also do, but if you think that I should say something about it, then please: If I remember correctly, you call dark matter 'expansion substance', which also has the property that it makes every solar system, every galaxy and the entire universe expand. So it is a kind of expansion matter.

**Ptaah:**

8. That is true.

**Billy:**

Can black holes also form in dwarf galaxies, or is this only true for large galaxies?

**Ptaah:**

209. They can also occur in small galaxies and dwarf galaxies, as well as in free space, where black holes have been formed since the formation of the matter belt.

**Billy:**

Then black holes are not necessarily dependent on galaxies to form?

**Ptaah:**

210. No, because black holes can also form in free space due to very specific circumstances.

**Billy:**

And what are these circumstances?

**Ptaah:**

211. I am not allowed to talk openly about that, because I have to leave the research of these things to earthly scientists.

212. For them, it must be enough to know that black holes also originate in free world-dream.

**Billy:**

And so this is only possible in the matter belt, which our scientists mistakenly see as the universe, because they don't know that the matter belt is only one of seven belts, while the other six contain no coarse matter.

**Ptaah:**

213. Your assumption is true that black holes can only form in the matter belt, because only in the matter belt are the necessary conditions for their formation.

214. In the other matter-less universe belts the formation of black holes is not possible.

**Billy:**

Aha, then the case is clear; therefore, certain physical factors are necessary for this, such as vibrations or radiations, dark matter and fine matter, which compress and thus become so dense that they become an enormously heavy mass and develop a tremendous gravity and thus an attraction of gigantic strength.

**Ptaah:**

215. I am not allowed to give any information about that.

216. It is also not given to me that I could consciously violate our directives.

**Ptaah:**

56. To be said straight away is that the terrestrial scientists err to a large degree in regard to the Sun's lifespan, because it is a dying star and its real remaining lifetime accordingly amounts to only 1,500,000,000 to 2,500,000,000 years.

57. To say, further to that, is that the star has drifted for years in a weak dynamic phase, and only becomes more active now and again, for example, in March 2010.

58. The dynamic of the Sun is based on cycles of approximately eleven years which, in turn, are connected with the magnetic fields which, however, also impede the emergence of the energy which surges from the interior of the sun.

59. But an even greater number of other factors exists through which all processes are determined.

60. Dark matter, which for the terrestrial scientists is still very mysterious, therefore thereby plays a certain role, and indeed in particular in regard to the transport of the Sun's hot energy, because without the influence of the dark matter this would not be possible .

... On the 3rd of November we talked about the dark energy in the universe, through which everything accelerates outwards. But this dark energy, respectively the centrifugal force of the rotating matter belt, has nothing to do with the so-called dark matter, which is being puzzled about by earthly scientists. This should be said before more rascals come along and claim that dark energy and dark matter are one and the same thing.

**Ptaah:**

120. It is good that you bring it up, because they are actually two different things, because the dark energy is one thing, while the dark matter is something completely different, but I am not allowed to make any explanations.

**Billy:**

Exactly, that is what you explained on my Great Journey, which is why I have also mentioned it now, so that the matter is clear: Dark Matter is really a form of matter, an extremely fine form of matter, but not a pure form of energy, which is where centrifugal force comes from. Energy itself is a mass at rest, so to speak, but it has the ability to unfold power from within itself and have an effect. At least that is how I remember your explanations. However, when it comes to energy and power, the human beings of the Earth always talk about only one thing in relation to energy

and power, even though they are fundamentally two different values, because energy is not power, but power is created from energy.

**Ptaah:**

121. Your words will not please many Earth-humans, but they correspond to what should really be understood by energy and power.

**Billy:**

Then the question whether you can tell me the mass ratio with regard to all the coarse matter and dark matter in the universe, or whether you are also not allowed to do so?

**Ptaah:**

10. There is no secrecy for this.

11. The Dark Matter in the entire universe is about seven times more in terms of mass than the total mass of all other forms of matter.

When I was in the fourth grade of primary school, and my teacher was Hans Frei - it was in 1948 - your father, Sfath, explained to me that altogether there are seven major powers of nature in the universe: on the one hand, the gravity, then the electromagnetism as well as the strong and weak nuclear power, and further the ...

**Ptaah:**

29. Stop, you are not permitted to openly name the three others, as indeed my father already had forbidden it to you.

30. These three other powers of nature are not yet known of by the terrestrial physicists, and they are still not allowed to discover them, because premature cognitions would have severe consequences.

**Billy:**

All right, excuse me, it remains withheld. It is certainly not in my interest to betray confided secrets, as I really only wanted to talk about the fact that there are not only the four natural powers known to the terrestrial physicists, rather also the remaining three which are still unknown to them, which exist as certain tiny and ultra-tiny particles, as related to the gravity, the electromagnetism and the strong and weak nuclear power. Also, the dark energy and the dark matter are included in the realm of particles, whereby certain of these particles, which are indeed also energies with powers, are supposed to be discovered in the foreseeable future, as you have said recently. **Billy:**

... Once again I would like to talk about 'black matter', because the earthly astrophysicists are still bickering about what it might be, but they just don't get to the point. We have talked about this matter several times, but you have always said that you are not allowed to give any information about it. ...

Here is my question: On the one hand you say that 'Dark Matter' is an expanding substance or matter, but on the other hand you also once said that only through 'Dark Matter' is gravity possible and can function. Isn't that a contradiction? Somehow I just do not understand the whole thing, it confuses me.

**Ptaah:**

103. As far as I am allowed to make a statement, I will explain the following:

104. Dark matter is an interactive mass, which means that it is massive particles which – measured in the atomic range – have an enormous weight.

105. These massive particles have an interaction that is related to both gravity and expansion force, which is why I explained that dark matter is expansion matter, although I did not mention that it is also gravity matter.

106. So without the dark matter there would be neither centrifugal force nor gravity.

107. So without gravity no expansion substance can exist, and without expansion matter no gravity.

108. Both factors, centrifugal force and gravity, are everywhere, but they are only perceptible and therefore also measurable, but not visible, because they radiate neither light nor darkness visible to the eye.

109. I am not allowed to explain more about this.

**Billy:**

So far I understand what you are saying, but I would be interested to know how it works and other connections, as well as whether 'dark matter' also exists in the 'black holes', which seems logical to me, although I also know, because you told me, that there are small and large 'black holes' in the whole space of the universe, apart from the central 'black holes' at the centre of the galaxies.

**Ptaah:**

110. I am not allowed to explain further about 'dark matter', but with regard to 'black holes', I can say once again that they exist in almost incalculable numbers throughout the universe, and also in free space.

111. So there are large ones that comprise or contain millions of times the masses of the sun, while others are small and almost puny, as you once said, because they do not cover even one cubic metre.

112. And, of course, 'black holes' also contain 'dark matter'.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_592](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_592)

**Billy:**

Thanks, then once again I have a question about dark matter, which you call expansion matter. I was asked a question about what is meant by this. So I answered what you explained to me, that expansion substance is the universal gravitational force, which runs through the whole universe like a net and forms knots in groups, in constant change. And if I myself have understood correctly what you have explained to me, then the entire network corresponds to an invisible gravitational energy, which attracts or forms and collects every form of fine matter, and at the same time expands or expands, from which material formations and even galaxies are formed, whereby in this respect the very energetic nodes play a particularly important role. So this invisible universal gravity net, especially its nodes, forms all kinds of fine-matter, whereby this fine-matter matter is not yet known to earthly scientists. The nodes are constantly widening and expanding, which ultimately results in visible matter that develops into galaxies. And because the dark matter expands in this way, you call it expansion substance, whereby the invisible matter develops and expands into nodes or visible matter, from which planets, suns and whole galaxies develop over billions of years. Dark matter is not to be confused with the factor called dark energy, which corresponds to the universal centrifugal force.

**Ptaah:**

80. This is correct, but this only corresponds to what I have explained to you, which you may also pass on.

81. However, our directives do not allow me to explain more about this, because the knowledge of Dark Matter can hold many dangers for the earthly sciences, precisely when it is made useful and used for far-reaching destructive weaponry.

**Billy:**

This is understandable, for the barbaric earthlings will be in a state of barbaric destructive fury for a long time to come, and will therefore immediately convert all knowledge and materials they acquire into mortal and destructive weapons. Therefore, I have also only explained what I have understood, knowing that the explanations are not the yellow of the egg, but only a superficial explanation. In the worst case, all the madmen of this world, the degenerate rulers and their

vassals, would even blow up the Earth if the means to do so fell into their blood-soaked hands. For all these mighty men are blind in their lust for power and domination, and they are not able to use their intellect, just as they cannot use reason. ...

**Quetzal:**

519. That is what I was about to say.

520. The Hebrew name is Yam-Hammelah = Dead Sea, which however is also known to you.

521. The lake is 15 kilometres wide and 80 kilometres long and covers an area of 1,020 square kilometre.

522. Due to the peninsula Lisan as well as due to solid sediments of salt, the lake i.e. the Dead Sea is divided into a small basin in the south and a large basin in the north.

523. The Dead Sea is about 400 meters deep, and the bottom of the Dead Sea lies at the deepest point 829 meters below sea level, which is the deepest depression on Earth.

524. The origin of the Dead Sea can be traced back to a primeval earthquake, during which the salty and partly rocky earth was deeply torn open and formed a deep canyon, in which in the course of time many waters accumulated, especially through the very ancient Jordan, which flows into the salt lake in the north.

... What is actually up with the Qumran Dead Sea Scrolls? Quetzal explained to me in 1985, just like Sfath shortly before his departure, that at the beginning of the year 1947, a nomadic shepherd had found ancient scrolls from the time before Jmmanuel's birth in a cave near the village or place of Khirbet Qumran by the Dead Sea. However, neither Quetzal nor Sfath told me more details about it. Can you tell me more about it? I read somewhere that the scrolls of Jmmanuel or so are ascribed

**Ptaah:**

277. The scrolls of Qumran at the Dead Sea do not represent the history and teaching of Jmmanuel but rather of a self-appointed, megalomaniacal, and self-glorifying Jewish scribe, referred to as Son of God and highest of all angels, by the name of Menahem.

278. He was a revolutionary who mixed the old teachings of the Bible with new ideas and with his own ideas and – in this context, in a self-proclaimed manner – called himself prophet and referred his followers, with regard to his person, to the testimony of the prophet Isaiah regarding the coming Messiah, whereby he saw himself as this Messiah.

279. As a result of his actions and his delusion, he was rejected by the Pharisaic scribes and was ultimately pursued and threatened with death.

280. Menahem, the self-proclaimed prophet, founded the Essene sect, which was also known at that time as the Qumran Sect.

281. He was their supreme leader and maintained that he was the Son of God, and he related Isaiah's statements – about the sufferings, the life, the crucifixion, and the alleged "resurrection from the dead," which was announced by former prophets in reference to Jmmanuel – to himself and disseminated this.

282. Then, he actually became ostracized and pursued, in order to be murdered, then, in Jerusalem by Roman soldiers, after which he was left lying in an alleyway for three days, before he was taken and buried by sect members.

283. He had assembled 160 disciples around himself, who then invented and spread the alleged story of the Resurrection and the Ascension after some time.

284. The false prophet, in an arrogant and megalomaniacal manner, called himself "The Beloved" and "The Companion of the King," and by this, he meant God-King.

285. Thus, in his delusion, he presumed himself as the chosen Messiah and saw himself seated on the "Throne in the Council of the Gods and Angels," so therefore, also seated in heaven at the right hand of God.

286. Unlike Jmmanuel, who never called himself Messiah, who also did not see himself as such and who forbade his disciples from ever calling him such, Menahem was eager to be regarded, respected, and revered as Messiah.

287. And when, in the future, it will be claimed by those who are ignorant that Jmmanuel had received the teachings of Menahem, which will happen in the foreseeable time, it will not only represent falsehood but also defamation and slander against Jmmanuel and the true teaching.

288. Jmmanuel did not receive or continue on a tiny piece of the self-styled sect leader, for the truth is that the prophet Menahem, out of his own grace and as a stroke of fate, encountered the secret, old-traditional teaching of the spirit, which was reported to him in an oral manner.

289. It was the true teaching, as taught by the ancient prophets, and then also taught by Jmmanuel, in the execution of his mission and also in detail to certain parts, according to the instructions of Gabriel and several others who were involved in the affair.

290. From this, it cannot and may not in any way be said in the coming time that Jmmanuel had used Menahem's teachings for his own purposes.

291. Such an assertion corresponds to a bad misrepresentation of the actual truth.

292. In the coming time, a large number of books will be written about the Qumran Scrolls, but these won't contain the facts, unfortunately, but rather untenable theories and assertions, etc. and, thus, not the truth and not the real connections, and these won't reveal the reality.

293. But back to the false prophet, Menahem:

294. He had succumbed to the delusion that he had reached a superhuman state, where he saw himself as immune to carnal desires and as standing over every possible capacity for physical suffering, and he also said this.

295. A nonsense that he also preached all around, not just within his sect.

296. In equal measure, he also presumed himself as the most glorious in magnificence person and, at the same time, the most despicable person on Earth, but only despicable in the eyes of his adversaries.

297. In his delusion, he also presumed himself as absolutely infallible and as elevated above the whole world, as this is found as a parallel with the Pope.

298. Furthermore, he was so blinded and arrogant in his delusion that he himself described his false teachings and speeches as absolutely incomparable.

299. In very great measure, he glorified himself and saw himself not only as Messiah and Prophet but also as God himself.

**Billy:**

So Jmmanuel had no connection at all with the Qumran Sect, respectively with the Qumran Essene Sect.

**Ptaah:**

300. That corresponds to what I explained.

**Billy:**

... I am interested in the development of the life, its classification, the spirit and its development and how it is concerning the so-called rebirth.

**Semjase:**

...

8. Therefore, concerning this, I can also only explain to you what is known to us and what we assume to be given.

9. On the whole, there are actually only five very important points that we exactly know of, while two further points are of no certainty yet for us either.

10. This is because they already lead us into the secrets of the Creation, which is unapproachable for us too.

11. Nevertheless, I don't want to withhold our assumptions from you.

12. The life from the beginning to the end is divided, as said, into seven (7) main stages or main periods.

13. These in turn are divided into seven (7) sub-periods, hence resulting in its entirety.

14. The sub-stages or sub-periods can be compared to grades in school, except that these must not be calculated for one year, but for one human lifetime.

15. This means that a very specific form of development and a very specific goal of development lie in a sub-stage.

16. Once all seven (7) sub-stages are passed through, which can take hundreds of thousands of years, then a main period is completed.

17. The spiritual life form is completely genderless, because a gender is without exception only characteristic of organic life, which guarantees its reproduction.

18. But organic life, like spiritual life, is subject to the law of rebirth, in order to guarantee a development in both forms.

19. Thus, every human life form has to live through seven (7) distinct main stages or periods and in each case seven (7) associated secondary or sub-stages (periods).

20. In the case of location-dependent organic life-forms, the periodic effects of the seasons are determinative, whereas in the case of spirit-evolutive or spirit-dependent life-forms (such as e.g. the human being) the periods are irregular and are often set individually.

21. They therefore do not fall under a very distinct cycle like plants etc.

22. A rebirth of the spirit-dependent human being after his/her death of the body, can therefore already reoccur after fractions of a second or however only after decades, centuries, millennia or after hundreds of thousands of years.

23. If a spirit-conditioned life is destroyed prematurely, that is, without it having reached a relative evolutionary goal, then it is to its disadvantage.

24. This is because it cannot fully pass through and complete its sub-period and must repeat i.e. complete this period through an intermediate life or during a normal life cycle in order for it to nevertheless achieve the period's goal.

**Billy:**

So that means that this life may under certain circumstances have to be lived a second time?

**Semjase:**

25. In a sense, yes; at least from the moment a life was forcibly destroyed.

26. Accordingly, the life is naturally then also shorter, because it only has to make up for something "missed" in order to fulfil the period's goal.

27. The whole thing however, can be made up during a normal life cycle, as the case may be.

**Billy:**

So then one could call it, that it would be the hell, a punishment so to speak?

**Semjase:**

28. Sure, because hell in truth means a self-inflicted punishment which must be served, always providing that the life is destroyed i.e. ended by oneself.

29. In other words this means that a sin, a self-caused error, must be made good again.

30. If however the life is destroyed by the hand of a third-party, then of course one cannot speak of punishment or atonement etc..

**Billy:**

Aha, so then hell and sin in a religious sense are of pure nonsense?

**Semjase:**

31. Viewed that way, yes.

**Billy:**

So does this then mean that nobody is met with guilt, if he/she makes errors in life, which he/she can make up for in the form that, he/she recognises the error or whatever one wants to call it, no longer making it and takes it in as knowledge, from which then a degree of essence of the wisdom must result?

**Semjase:**

32. You are able to astonish me because your interpretation meets the deepest core of the truth.

...

46. The seven main stages or main periods each represent one full period with in turn their sevenfold subdivisions.

47. You would say that this would be one semester.

48. Therefore, in your sense this would be called a semester-life, during which seven different subjects have to be completed.

49. I want to explain this to you schematically:

50. 1. Primary life
51. 1) Primary development of the intellect and the consciousness.
52. 2) Primary intellectual and consciousness-based thinking.
53. 3) Primary intellect-based thinking.
54. 4) Primary use of intellect and consciousness-power.
55. 5) Primary intellectual actions.
56. 6) Primary wilful thinking and acting.
57. 7) Intellectual conduct of the life.
- Life-forms in these stages are designated by already rationality-endowed beings as mentally ill (ill in consciousness), as idiots etc., whose consciousness and intellect, however, are in reality simply not yet developed in knowledge-based terms (new spirit, who has to first form itself through learning and experience etc.)
58. 2. Rationality-based life
59. 1) Primary development of rationality.
60. 2) Effective realisation of the rationality and its use.
61. 3) Primary recognition and acknowledgement of higher influences.
62. 4) Belief in higher influences without having knowledge.
63. 5) Belief in higher powers, deluded belief, fear of evil, veneration of what is good, etc. and so on. Germination time for religions etc.
63. Present stage of the average Earth-human \*\*\*\* 6) Primary recognition of the real reality. Stage of knowledge-based development. Research, first spiritual cognitions and their use: "spiritual healing", telepathy, etc. etc.
64. 7) Primary development of knowledge and essence of wisdom.
65. 3. Intellect-based life
66. present stage of the educated Earth-human = scientists, etc. \*\*\*\* 1) High-level development of the intellect. High technology, second use of spiritual power with first cognitions. Primary procreation of life-forms.
67. \*\*\*\* 2) Realisation and use of knowledge, truth and essence of wisdom. Slow reduction of belief-assumptions.
68. \*\*\*\* 3) First utilisation of knowledge and essence of wisdom.
- \*\*\*\* 4) Recognition and utilisation of the laws of nature. Creation of hyper technology. Second procreation of life-forms.

69. \*\*\*\* 5) Natural use of knowledge and essence of wisdom in recognition of spiritual powers. Further reduction of belief-assumptions.
70. 6) Life in the knowledge of the essence of wisdom, truth and the logic.
71. present stage of some few borderline and humanities scholars \*\*\*\* 7) Primary recognition of the reality as real Absolutum.
72. 4. Real life 1) Clear knowledge about the reality as real Absolutum.
73. 2) Recognition of the spiritual knowledge and the spiritual essence of wisdom.
74. 3) Utilisation of the spiritual knowledge and the spiritual essence of wisdom.
75. 4) Recognition of the reality of the Creation and her laws.
76. Your *{Billy Meier's}* present stage, which is already tending toward the next one \*\*\*\* 5) Life according to the creational laws. Clarification of the spirit and the intellect. Recognition of the real task and power of the spirit. Total reduction of all belief-assumptions.
77. \* 6) Deliberate and directed utilisation of spiritual and consciousness-based powers.
78. 7) Procreation of first viable life-forms.
79. 5. Creational life 1) Procreation and direction of life-forms.
80. 2) Creation of machine/apparatus-based viable life-forms.
81. 3) Development of spiritual and consciousness-based power for the control of material and organic life-forms.
82. Present stages of our *{Plejaren}* races \*\*\*\* 4) Wilful control of the life and all its forms and species.
83. \*\*\*\* 5) Stage of recognitions. Recollections of past lives, etc.
84. \*\*\*\* 6) Essence of wisdom kingship = JHWH. The second to last highest might-knowledge.
85. \*\*\*\* 7) Recognition of the spiritual peace, the universal love, and the creational harmony.
86. 6. Spiritual life 1) Acknowledgment and realisation of the spiritual peace, the universal love and the creational harmony.
87. 2) Life in purely spiritual forms.
88. 3) Spiritual Creations.
89. 4) Disembodiment of the spirit from organic bodies.
90. 5) First spiritual existence.

- 91. 6) Final spiritual existence.
- 92. 7) Transition into the Creation.
- 93. 7. Creation-life 1) Twilight sleep over seven periods (eternities).
- 94. 2) Awakening and beginning of creating in the Creation as Creation, during seven periods/eternities.
- 95. 3) Creating of life-forms.
- 96. 4) Creating of new spirit (1.1) in the relative absolute fulfilment of the Creation.
- 97. 5) Creation of spiritual greatness in the Creation.
- 98. 6) Relative absolute fulfilment of the Creation in the Creation.
- 99. 7) Last attaining of highest absolutely full development of the seventh period/eternity.

100. The twilight sleep of the Creation outlasts 7 periods/eternities/great times (311,040,000,000,000 years amount to one period/eternity/great time).

101. By the twilight sleep of the Creation, all life and the entire universe cease to exist.

102. Only after her newly awakening does she begin to create everything anew.

103. During her twilight sleep there is neither space nor time; there is only the nothing, since they lie asleep in the unending womb of the Creation and the null time.

104. If there is no creating thought, then there is also no power, no time, and no space; there is only duration in the nameless nothing.

...

107. But concerning the nameless nothing, don't think too much about it, for it is also a mystery to us, which we cannot solve.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_007](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_007)

**Semjase:**

184. A "world of spirits," as you called it, does not exist.

185. There are only the fine-fluidal worlds in this regard.

186. These are worlds that are located in other dimensions and harbour bodiless spirit forms.

187. When a spirit leaves a material body, then it cannot simply settle down anywhere; it must inhabit a body again, i.e. it enters a fine-fluidal world, thus a world of spirit forms, of which there are countless ones.

188. There, the spirit lives as its own form for so long, until it returns again into a newly created host body.

**Billy:**

Aha, that means that the spirit will as a human being not always have the same material body and not the same personality, if I understand it correctly, because you just said a newly created body.

**Semjase:**

189. Right.

190. This means that every spirit form normally has a residence (body) that is specially tailored to it, in which it lives through its life in material form.

191. Over an entire main period one can thus observe that the facial features of the host body are not always alike and that they therefore change very noticeably.

192. This applies until a high spiritual level is reached.

193. Not with very low, but with very high spiritual levels the faces of all host bodies of the various spirit beings begin to resemble each other.

194. So when a guest body has died then the spirit leaves it and normally enters a fine-fluidal world.

195. There too it has to live through certain periods again, before it can call upon a host body anew.

196. But if a host body is due to some circumstances destroyed with *Gewaltsamkeit* and prematurely, before it is brought to life by the spirit on the 21st day, then it can happen that the spirit in question does not as soon as possible look for another host body and inhabits it, but that it remains in the realm of the other world.

...

200. So the normal process is that the spirit re-enters the fine-fluidal world and in turn while learning spends another period there.

...

202. The overall consciousness-blocks, which enter fine-fluidal worlds like the spirit forms themselves, are no further along in their knowledge than they were in their material life.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_010](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_010)

**Semjase:**

3. The human being is bearer of a spirit that does not die and that, even in deepest sleep of the human being, never sleeps, that records all thoughts and impulsations, that tells the human being whether his/her thoughts are right or wrong, if he/she has learned to pay attention to it.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_011](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_011)

**Semjase:**

8. Immediately strive for the establishment of this group *{FIGU}* because the time presses, for this group will also be determinant for the fact that people can join you, who committed themselves through previous determinations in previous lives to be active and cooperative in modern times in this group, with regard to the spreading of the teaching of the spirit and the truth and for your whole mission.

...

**Semjase:**

93. But even when death reaches the human being, the seer and recognizer in him, the spirit, cannot die, for as a fragment of the Creation, it is of eternal duration, like also the overall consciousness block.

...

**Semjase:**

105. Everything that the human being inherits, everything that he brings with him from the past through billions of existences, everything that he, in this life or in past lives, has enjoyed, known, read, learned, or experienced lies hidden not in his subconscious but in the memory banks.

106. Therefore, he does not master the technique of concentration, and therefore, he does not command his subconscious and does not make full use of all his knowledge and capability.

107. The longing for all his knowledge and capability coming from past lives, for the experiences and for the wisdom, thus, does not lie hidden deeply within him.

108. He must only recognize and accept the truth – thus, acknowledge it and utilize it himself.

109. But for this, it is necessary for him to fight against his own stupidity and to acknowledge that the material intellect does not constitute a human being if it does not also work together in the same measures with the spiritual intellect.

110. When this happens and when the human being recognizes his spirit, the whole abundance gathered in previous lives will arise again in knowledge and wisdom, capability, freedom, love, and peace and will richly benefit him, once he learns to get all these values from the memory banks and to utilize them himself.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_024](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_024)

**Semjase:**

69. The consciousness dwelling in the human being, however, has only stored in itself all those things and facts which it learns and collects in the course of its existence in the material body and life.

...

71. In countless other lives man must continue to research, seek and find; he must therefore accumulate further knowledge, insights and experiences, which are then anchored in him and in the storage banks as ability.

72. Since besides the spirit after the material death of the body also the overall consciousness-block dwells in the death life and there it processes and anchors in itself the results achieved in life, this results in the factor called by you subconsciousness.

73. Became human form again, through a rebirth, the new consciousness – connected with the knowledge and ability of the storage banks via the subconscious – anchors itself in the human being, who slowly evolves through the material consciousness and through new learning and a gathering of knowledge and transforms everything into a conscious-based ability.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_031](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_031)

**Billy:**

... when I look at your ship, then...

...

Yes, indeed, but this flying metal coffin...

**Semjase:**

59. Do not worry about it, as you still are not able to solve the tension within your own thoughts, which trace far back to a past life.

...

**Ptaah:**

59. You *{Billy Meier}* gained the fundamental cognitions, however, through **the use of the storage bank's impulses from previous lives**, as well as from the trips into the past, which liberated you thoroughly and for all time from any existing heresies.

...

**Ptaah:**

553. The averagely developed Earth human being already has an age of over 2.8 million years.

554. It took him/her this time to develop from absolute ignorance through many incarnations to the present spiritual and consciousness level.

...

559. This also makes it clear that if an Earth human being speaks of a Master etc. of 10 or 20 million years of age having communicated with him/her, that this is quite simply untruth, to say the least.

560. According to the laws of the Creation and according to the reality of all time planes, such a Master, Guru or Perfect One must have an age of 40 to 60 million years in order to be able to get rid of the material body at all.

561. This, however, does not mean that this being has already reached relative perfection, because until then, 60 to 80 billion (60,000,000,000 to 80,000,000,000) years are necessary until the pure-spiritual incarnation into the plane of Arahata, because also in the semi-

spiritual and pure-spiritual realms the creative laws are the same, since becoming and passing determine the course of evolution.

562. Spiritual incarnation, however, is subject to other forms and laws than is the case with material life-forms.

563. So a life-form of 10 or 20 or 100 or 300 million years of age can never correspond to the pure-spiritual form of a being that is even relatively close to perfection.

564. These levels are reached only after the incarnational course of evolution of many billions of years, which, however, without exceptions, are not less than 57 billion (57,000,000,000) years.

565. According to earthly terms, and taking the existence of earthly man as an example, one or two million years of age with the corresponding incarnations correspond approximately to the state of a nine-month-old child after its birth.

...

586. As a comparison, Earth-humans live an average of 70 years, then pass away as material life-forms in order to incarnate again as material life-forms at a later time.

587. Each life lived means for him/her the passing through a certain stage of evolution until he has reached a certain level of spirit.

588. Compared to the times of the Creation, this level of spirit can be called the Great Time.

589. The course of evolution of the material life-form can be calculated in  $7 \times 7$ , as in the case of the Creation itself:

590. To reach a higher level of spirit the life-form must pass through seven stages of evolution.

591. Seven levels are in the value of the whole, so seven different levels of spirit must be worked out.

592. When this is done, then a relative perfection is reached, after which the relatively spiritualised form enters into Creation.

593. Each spiritual level, however, is divided into 7 sub-levels, as I have already explained.

594. Explained a little more simply this is called:

595. A material life-form has to live through seven sub-levels of evolution in order to reach the next higher level.

596. Such levels are in turn their seven, which are each divided into seven evolutionary sub-levels, which thus gives the values seven times seven as a prerequisite (= 7 main levels, 7 sub-levels,  $7 \times 49$  further sub-levels, which are again multiplied sevenfold; note Billy).

597. The years of material and then of spiritual life-forms are to be reckoned in their evolution in many millions and billions of years up to relative perfection, while the time of the Creation itself is of course many times greater.

...

601. If the life-forms ultimately enter into the Creation itself as perfection, then it evolves further into relative perfection within itself and, after passing through the  $7 \times 7$  great times, becomes the primordial Creation and begets a new creation out of this form.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_036](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_036)

**Ptaah:**

49. ... he *{Hans Jacob}* knows very well that this life-form *{Straubinger}* has fallen into a Christian fanaticism, which will make them very strongly dependent on the cult religion in their next life as a new personality by means of memory bank impulses which it will recall.

50. This fanaticism is so pronounced that, according to our probability calculations, it will neutralise itself only after its fourth revival as new personalities in the memory banks.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_042](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_042)

**Semjase:**

56. But to your question it has to be said, that the burial of the deceased is the natural form, because it has been like this since the ur-beginning.

57. But everything speaks against a total elimination, etc. because the loss of certain fluidal powers which will persist for some time in the lifeless body, etc. must not be ignored, which of course become volatile through combustion or total elimination.

**Billy:**

How long will these powers remain in the dead body?

**Semjase:**

58. They can last for centuries or even millennia, but at the longest until the skeleton is destroyed.

**Billy:**

And are these powers important?

**Semjase:**

59. They can be for the environment, for those who remain behind or the offspring, but also as a reconnection factor for the new personality after the rebirth of the overall consciousness-block and the spirit-form.

**Billy:**

So you are suggesting a burial should be preferred after all?

**Semjase:**

60. Certainly, I already explained that by the fact that this funeral is the normal form.

...

61. The Earth-humans seem to be unaware of the facts about the destructive powers of fire.

62. On the other hand, however, the type of burial is really to be carried out according to desire, because every form of life should be able to decide for itself.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_053](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_053)

**Billy:**

You have knowledge of their personalities in their former existence?

...

What were those two?

**Semjase:**

66. They, resp. their old personalities, did not lead an enjoyable life, and since then they have only made very little progress in their development with their new personalities.

...

67. Their stay in otherworldly realms was very short, consequently they still carry parts of their former personality within them, because their overall consciousness-block incarnated again too early and they withdrew too much old information from the memory banks.

**Billy:**

... But if I am not mistaken about your just made statement, then it actually means that both vegetate in a very low consciousness-based standing without a complete personality change, because otherwise their new personality birth would not have taken place so quickly. Am I right?

**Semjase:**

68. Sure, it is, and everything is very unpleasant about them.

...

101. And as I have already mentioned, the two men Bertossi and Arends, have not made any significant spiritual or consciousness-based progress with their personalities since then in their last life, and still live today in discouraging forms corresponding to the time and life of that time.

102. Their negative concerns are only minimally better than in their former lives, and they are still lying just like their personalities before them.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_055](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_055)

**Billy:**

... A further question is whether Earth-humans, if they have developed accordingly, can incarnate on other star-systems resp. on their planets.

**Semjase:**

207. Your question is illogical, you know very well that this is not the case, because a life-form can only incarnate again and again on that planet where it is also different or isolated.

**Billy:**

I know that, the question was not mine, nor was it my next: Do beings from other stars or planets incarnate on the sun or Earth, and if so, with a certain mission?

**Semjase:**

208. Just as on Earth, deceased life-forms can only incarnate on those planets or worlds on which they lived until their death.

209. But if several extraterrestrial intelligences incarnate on Earth, which very rarely occurs, then they were brought here or will be brought here during their lifetime, because then they lived until their death, lived and then of course incarnated or incarnate here.

210. It is never the case that beings die on other planets and then incarnate on Earth, because both the spiritual and the physical forms are planet-bound.

211. It would therefore not even be possible, according to the laws of sevenness and cosmic order, for a life-form to die on an earthly neighbouring planet and incarnate again on Earth if the neighbouring planet naturally carried life-forms.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_057](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_057)

**Billy:**

... Have some of you *{Plejaren}* incarnated on the Earth?

**Semjase:**

78. You know that this is impossible because none of us died on the Earth ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_061](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_061)

**Semjase:**

128. ... it is not good for Earth-humans to be oriented about the personality and the concerns of their former lives.

129. If knowledge of these things becomes necessary, then they will experience it through their own memories.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_072](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_072)

**Semjase:**

17. Furthermore, every individual works for their own evolution, not just in this life but already for the next rebirths as well.

18. Many of your group *{FIGU}* will find their next incarnations as new personalities in the centre as built by you, which will be steered with our and your own help as well as by the Centre built by you, for which we will give you the instructions.

...

21. Some of the present group will spend an extremely short time in the beyond area, before they come to the Centre and join into the group as other personalities through a rebirth into physical form.

22. The first of the present members will again incarnate as another person into the group between the years 2012 and 2025, others between 2033 and 2036, and the rest between the years 2045 and 2072, always assuming that everything fulfils itself.

23. The reason for this rapid succession, is that the work is not allowed to lie fallow and must be continued forward so that the knowledge, despite all coming confusion and maliciousness, slowly spreads over your world, because only as a result will those of the enormously further growing humanity grasp the knowledge and be guided onto the path of true evolution.

...

26. Surely, despite a desertion of the group and the mission and despite nasty betrayal among others, the first will be Olga, Amata, Claire and Elsa, who again will incarnate as female life-forms, if all is actually fulfilled, which however partly is in question.

27. Their names and personalities however, as you know, will no longer be the same, but such of a special type, which today on Earth would sound strange and which I am not officially allowed to mention.

28. Thus, however, it will also be with all of the others, with Engelbert who again will appear as a male life-form between 2053 and 2066, when at the same also Margareth will incarnate as a male life-form, as well as also Herbert, however always assuming that everything fulfils itself, and then as new personalities.

29. Between 2065 and 2072 then Jacobus, Marcel, Kalliope, Conrad, Hans, Paula and Pauli appear again in addition to several further persons, whose names are unknown to you, who however in the course of the near future and next few years will still come to meet you.

30. Also, leaving and betraying group members are also in the next life with new personalities, not to be ruled out and who again will confront the group and the mission, if all finds its correction, which however is often in question.

...

37. As you, however, have already explained in earlier times you wanted your mission to be fulfilled up to the end, consequently you, respectively, your spirit-form for the next few millennia cannot once again stay away prolonged years in the beyond area, but in rapid form, repeatedly at various locations on Earth, you incarnate, or, it incarnates, in order to fulfil tasks with other peoples and races of your world, whereby you certainly as a new personality also will appear again in contact with your now existing group, which indeed will further spread itself.

...

39. The members belonging to your group will recognise you with each appearance, as well as these themselves amongst one another.

...

42. All of your descendants come again sooner or later to the group, partly already by the year 2067, because some will already soon leave this world, in order to undertake certain tasks with rebirths as new personalities after a really short absence.

43. The still looser members belonging to the group, as you call them, will incarnate again on different occasions already by the year 2065, partly in your Centre, yet the majority outside, such however that they first will come to the group, only after they have become independent.

...

46. Mariella and Helga will again be female life-forms and incarnate between 2068 and 2071.

47. Mara changes to a male life-form, while Martin, Dolfi and Renato retain their gender.

48. They all appear again as new personalities first after the year 2110, as in fact also all of the others.

**Billy:**

Aha, and where will they see again the light of the world?

**Semjase:**

49. Mariella and Helga will under certain circumstances be in the centre, while all of the others are to be outside of it, but will eventually come to the group, although some of them will be born thousands of kilometres away.

**Billy:**

Thanks for the information. There would then still be Pleja and Guido, what about them?

**Semjase:**

50. – Are you thinking here about Anke?

**Billy:**

Naturally.

**Semjase:**

51. Both will be born outside of the Centre; the girl after the year 2090 and the man after the year 2081, after which he then again finds the final path to the group.

52. Consequently, Guido will not be far from the Centre and comes to the group, while with Anke the matter is still not clear.

53. However, there are the new personalities to consider.

**Billy:**

Why not? I mean Anke.

**Semjase:**

54. She herself is still not clear in regard to certain things.

55. However, she also might stay away from the Centre in the manner that she only occasionally appears there, because she will not leave this world there, because she soon goes another way.

**Billy:**

Ah, so that's it. Is it that, in departing from life in the Centre, it is then necessary for certain things?

**Semjase:**

56. Surely, because in order to be able to incarnate in the centre there is needed a certain help of each individual.

57. This is connected to the Sohar-Centre *{see the last entry here, a meditation area at the Semjase Silver Star Center}*, which requires, that each determined day a certain action and a certain thought process must be carried out by each individual group member, as a result of which first the aim directed incarnation with the destination of the rebirth in the centre location or in the nearby surrounds can be successful.

**Billy:**

Oh, now I understand. The intended Sohar-Centre is then probably a swinging wave<sup>[1]</sup> and radiation centre with some energies and crystals, etc., yes?

**Semjase:**

58. Surely, it is so.

**Billy:**

Then, I know about it. Something similar I know already from a Himalayan monastery, where certain gurus, true masters, determine their birthplace as new personalities. It is an incarnations...

**Semjase:**

59. Stop, for you know, that you are officially not allowed to mention this.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_073](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_073)

**Semjase:**

9. If you are clear about everything to come and all of you want to make provisions not only for this life but also for the next, then you will know how to raise the necessary capital and will be able to do so.

10. Some of you are already knowing enough that you will be able to participate decisively in this, so that you can certainly acquire and build the Centre *{Semjase Silver Star Center}*.

**Billy:**

Are you so sure?

**Semjase:**

11. Yes, even if some people still have some doubts.

12. Each one must become clear and know that for the first time since their origin they have 100% certainty in the determination of their incarnation and place of birth and can therefore already now provide for their later life as a new personality.

13. But this exception is only because the great mission is connected with it, because normally the course of evolution for the determination of the next place of birth would still take many thousands of years.

14. Those who therefore now strive for it under our guidance gain an unheard of advantage and the possibility of a faster evolution, which advances them after the next life by about 124 years in the consciousness and spirit evolution, whereby they become an elite, which slowly evolves in later times as spiritual leadership for the Earth, after which the spiritual leadership of the Earth can then be carried out by them.

**Billy:**

All sorts of things.

**Semjase:**

15. Sure, but everyone determines their own future, and so they have also determined for themselves that they were chosen for their future on the basis of their merits, and that also applies to those members who will fall away again.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_074](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_074)

**Semjase:**

6. So do not worry about the fact that you cannot contribute large financial means to the purchase of the property, because you have already given many times more than anyone else can ever give.

7. Sure, you have received a lot of help in the last months, from all our common friends, from Jacobus, Olga, Margreth, Amata, Guido, Elsa and Engelbert, but also from Hans and some others, for which we are very grateful to them, because through their untiring help alone everything was able to maintain and develop to the present state.

8. Had they not done so, everything would have gone much more laboriously and taken years, but this would have destroyed already established plans, especially those of the incarnation processes.

...

**Billy:**

And if the purchase still does not come about?

**Semjase:**

...

25. A failure would also mean that the already predetermined incarnations would have to fail in the absence of the Centre and that an irreparable confusion would then arise among the initiates.

...

27. You must not be discouraged by anything, for the property is vital for each individual, in the present time as well as in all later times, when the revival of the new personalities begins.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_076](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_076)

**Menara:**

47. Furthermore, all those who cannot be responsible for their duty have to bear the damage themselves, because they do not only offend the present, but also the future and at least the next life with the new personality.

...

**Menara:**

61. Even in some there is still too much thought and the will to be more than others.

62. This partly because they erroneously assume that they are higher in knowledge than others, which in truth is wrong and corresponds to self-deception, but also because they believe themselves imaginatively or by the lying false statements of mediums to have been allegedly great or otherwise important personalities in earlier lives.

63. But as you yourself know very well, there is currently no person in your group area who would have been even remotely an important personality in their former lives, because for certain reasons they left all their activities unfinished before they learned them.

**Billy:**

I know some things, but not everything. What I have found out so far, however, only confirms your statement. In fact, as I at least know so far, no one of the group has worked for a long time in previous lives because they were prevented from doing so for a very specific reason. We would say that the profession had been abandoned before one third of it was in. And nobody really got any further than that, apart from housewives and pottery.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_079](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_079)

**Semjase:**

281. Yes – this certainty can truly become apparent to each individual if each individual defeats the ego, for in truth it is only the mist of the ego that prevents the prospect of the realm of true life, of the spiritual, beyond the transformation of becoming and passing away.

282. This is because the ego, the I, attaches too much importance to its own well-being, because in most people it develops further to egoism.

283. Thus, doubts and uncertainties hang over the individual as well as over the entire humankind of the Earth, like heavy thunderclouds from which thunder and lightning break unpredictably for the Earth-human called into existence by egoism and materialism and all other unworthy things to which he/she has become subject and by which he/she is imprisoned.

284. To fight this shall be one of your first recommendations, for only when, through the knowledge of the truth, the sun of the love, embodying the manifestation of the spirit of the life, rises up on the horizon of one's psyche, thereby driving away the storm clouds, will one be able to perceive how close they really are to certainty and how unfounded their fear and anxiety was.

285. Unfortunately, for many human-beings, only the death of their physical body means the beginning of their actual life and thus the gradual resurgence of their inner Sohar. [In the book Talmud Jmmanuel, Sohar, aka, Zohar is defined as, the radiant splendour of spiritual-Creational energy]

286. When, however, the next incarnation takes place, the same can apply again in the new life through a further ignorance, if an improvement in life was not laboriously struggled for and worked for by the preceding personality.

287. Only through a truly inner rebirth will the darkness of absolute or semi-lightlessness within an earthly existence be ended, when the light of the inner being becomes visible to you and the action of the consciousness of life no longer appears to you only as a dull fate, which you yourselves in truth create in deformity.

288. But when at last the Sohar shines in you, then you recognise the invisible, the might of the spirit and of the consciousness as well as their unlimited power as the true workings, while the visible workings already disappear again as a shadow, but remain as a permanent and invigorating memory, in order to continue to work and to be evolutionarily serviceable.

289. It is still the case with many of you that behind all love and wanting to be loving lurks naked fear – fear of the end of love, fear of the passing away of a loved one, fear of being separated and reunited, and above all fear of changing to the beyond from this world.

290. These fears are joined by that of pain, originating from ignorance and erroneous teachings, that all life always falls victim to death and evermore lives on in another life, in which it is destroyed and must be destroyed, in order to be [exist].

291. A terrible thought, truly, but it is only of earthly human nature, arising from the incomprehension of the truthly truth, for all life lives out of the other life, that is true so far, but life does not murder other life in order to be able to exist and live itself.

292. One is coordinated with the other, and one helps the other to live, in order to be again positioned in the passing away at its given time, when it has fulfilled its time and its task.

293. Life is not a progressive sacrifice and becoming sacrificed, as the earth-human mistakenly accepts it and is bolstered in it through corresponding erroneous teachings.

294. Rather, it is in truth, only a becoming and passing away in the sense of the constantly advancing evolution and purely in the sense of the creational rules, recommendations and laws, to which Creation itself is in every respect classified.

295. So it is only a matter of many great times of rebirth and renewal in the wheel of passing away and becoming.

296. Thus the passing away, the death, reaches into the heart of life, but likewise the life, the becoming, reaches deep down into the heart of death, whereby two realms complete each other, which take over each other simultaneously and gradually bring each other to cognition.

**297. Life does not strive for the overcoming of a single passing away/death, but for the overcoming of the passing away and becoming in general, via evolution.**

298. It works towards the upward development of everything that has become, towards that which is imperishable in the innermost of innumerable myriads of life-forms and works towards the ultimate goal of all creations, towards the Creation, towards universal-consciousness.

299. The actual meaning of life in the material realm is simply that:

300. Self-defeat of the always wanting-to-dominate ego and the following evolution in the totality of the consciousness and of the spirit.

301. To defeat oneself therefore means that you should help your highest self to victory in order to recognise an even higher self, namely the Creation's self, into which you will awaken through even higher evolution.

302. Sure, it is one of the most difficult tasks of your life, but it is also the most beautiful, the most valuable and the most productive.

303. For behind this task awaits for you the supreme certainty of your all-great-life BEING beyond all external and physical forms of existence.

304. Since your spirit of life in you is a part of the spiritual energy of creation, it is necessary to reflect on this creational root of your being in order to unite yourselves through true internalisation with the all-great-time within yourselves, for to be one with the spirit of life in yourselves, with the part of Creation in yourselves, means to become absolutely free, so also free from the fear of passing away, of death.

305. To be one with the part of Creation's energy in yourself also means to recognise your other ego behind your outer ego, namely the creational self.

306. It is certainly the greatest, for the still inwardly unprepared ones but truly the most terrifying thing that can happen to a human being, namely to truly see and recognise himself/herself – his/her innate ego, which reaches beyond all spheres and boundaries and floats beyond all senses into the all-great-time and humanly incomprehensible realms of the Creation.

307. But the one who unites himself/herself with the part-piece of Creation within himself/herself, with the spirit, solves at the same time the riddle of the passing away, of death, which is so frightening for the human being and yet truthfully harmless, if he/she recognises death as only the other side of life, which means nothing else than sleep in the physical realm, which replaces the wakefulness of the day.

308. Only human irrationality, ignorance and blindness believe that sleep is the darker side of life, which is why it is the same in reference to death.

309. Of course, many other factors are reflected in the fear of death, but it would be absurd to mention them all.

310. All that remains to be explained to you is:

311. What the life-abandoned human body is only imperfectly able to unravel, the part of Creation in you is able to reveal with all clarity and truth, namely the certainty of your absolute duration in the all-great-timeliness.

312. You should look unswervingly to the tasks of your life on the Earth, in the knowledge that **on this side the realms of coarse matter rule and in the otherworld the realms of fine**

**matter rule, but that the divided realms of this side and the other side [the other world] are a single realm, present in the same place, but dimensioned differently, and therefore not in the same period.**

313. Of course, it seems that the total sum of misery and suffering on planet Earth is much greater than that of joy and happiness.

314. But this is only a fallacy on your part, which your erroneous teachings, handed down and implanted by yourselves, are of the confused and dangerous view that this is, in fact, so.

315. Not at all, however, for need and suffering, as well as joy and happiness, are always in balance in their measures.

316. Through your wrong thinking alone you overestimate, register and keep in constant remembrance need and suffering, while in joy and happiness you all too quickly forget the events and you lose the memory of them.

317. For you have not yet learned to move in balance in these matters and to register negative as well as positive things in equal measure and to preserve them as memories.

318. Nevertheless, you are able to see and recognise the human being's destiny, if you are able to change conditions and establish an island of Sohar and security from out of the shores of darkness.

319. You need not disturb and worry about the duration of time, for millions and billions of years may still fall into the past before the realisation of the highest goal.

320. Many millions and billions of years are still devoted to you and are given to you to smooth out again the creation-related face of your creational homeworld, which has been ruttled by you, but you must now be devoted to the change presented to you to grasp the goal of the evolution, to truly grasp, evaluate, and establish the goal of the helpful hand and the knowledge material presented to you.

*{Note: It is recommended to read the full (albeit redacted) Contact Report to have a better understanding of the following statements. This conversation may be concerning the Sohar-Centre (see the last entry here), a meditation area at the Semjase Silver Star Center.}*

**Ptaah:**

29. You know very well that an absolute thought-block, i.e. a full thought-blockade, must prevail in the supervisor in the actual ..., otherwise the fluidal powers unite and the aura swinging-waves, which then settle in these mixed forms in the crystal centres, which would be dangerous for the new incarnation, because the mixed fluidal forms would affect the two total consciousness-block forms, after which both would then try to penetrate into the same body during the process of a renewed life [reincarnation of spirt].

30. So this monitoring task can only be performed during the first time by one person who is able to neutralise himself in every way – you.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_088](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_088)

**Semjase:**

77. But from this, it results with great probability that Adolf, Konrad, Hans, Herbert and all the others of the same kind will finally leave the group area in not too distant time, whereby then, unfortunately, some acts of revenge by certain renegades against you, us and the mission are to be expected.

**Billy:**

Then a question: Do I have any relations with them from earlier times?

**Semjase:**

78. If you think of the latest previous lives, then no.

**Billy:**

That is what I wanted to know, because I have not been able to clarify anything about this myself yet, because time just did not allow me to. But what about Guido? I could not find anything for my personalities of the last lifetimes, at least not in connection with our task. The same applies to Herbert, Adolf, Margreth, Olga, Renato, Konrad, Hans and all others.

**Semjase:**

79. Neither Herbert nor Guido had any last-time relationships or connections in their area of responsibility.

80. Other and very early connections existed, however, very well in the reference to all, and from those the connections of the present time resulted.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_097](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_097)

**Billy:**

... I know very well that it is possible, through such brain interventions and manipulations, whose forms, etc. are incomprehensible and unknown to me, to prolong the life of a human being by centuries or millennia, but only up to the point where the body becomes barren of any regeneration. Such manipulation, however, cannot lead to the life of the life form in question becoming endless, or even only relatively endless, because the spirit leaving the body must inevitably take place sooner or later, if an evolutionary process is to take place. This is because everything collected in life must also be transformed into knowledge and wisdom in a spiritual form, i.e. in the realms beyond. If this change process would suddenly fall flat, then the material-consciousness would one day become stupid and the spirit-form would stagnate. It must therefore be the case that every form of life has a certain and corresponding lifespan only depending on the state of its knowledge and the possibility of evolution.

**Quetzal:**

35. This is very correctly expressed.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_099](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_099)

**Quetzal:**

37. For the Sohar-Centre and your efforts for it and the evolution of the individuals who are left behind, we will continue to strive, because for those who truly strive there should be no discrimination in this respect.

38. Their help will also be needed for later incarnations.

...

55. Wrong actions and wrong thinking lead to the destruction of the whole task, but also to the destruction of the group, which is why each of the fallible members of the group should finally make a thoughtful and corrective effort to integrate themselves into the right values and act accordingly and also think in the same manner, otherwise they put their own evolution into question and again fall into stagnation, which would bring bad consequences for their later personalities in later incarnations.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_101](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_101)

**Billy:**

... I have a question to which I only want one answer in the report, but that I do not want my question to be mentioned.

...

**Quetzal:**

61. They are based on incarnation transmissions, because what was already created in the human being in previous lives and was of permanence, as you know, is held for all time in the storage banks and is impulsively reawakened i.e. withdrawn by the new personality from the storage banks again in the next life.

62. For example, a once profoundly existing, fine-fluidal based love is not simply totally eliminated by death, but is transferred to the spiritual realm, which returns it impulsively to the material realm at the next incarnation via the spiritual consciousness, subconsciousness and the Gemüt [fine-fluidal spiritual counterpart to the half-material psyche], when the corresponding factors meet again, whereby it comes to bloom anew and expands more and more, up to the culmination point, where it unifies itself in universal form and unites itself with all that lives in gross material and creational-energetic form.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_102](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_102)

**Billy:**

... But now you should give me some more information about the Centre.

**Quetzal:**

...

120. Our analyses have shown that in all the group members, in spite of the bruises and the opposition of those who can still be described as renegades, the necessary quantum of fluidal powers, which serve as incarnation magnetism, was stored.

...

**Billy:**

Well, then another question: Slowly I find myself dumb because the longer I go on, the more unclear it becomes to me as to what the terms incarnation and reincarnation mean. As I have been taught, these terms mean one and the same thing, namely incarnation or simply rebirth, whereby incarnation simply means incarnation and reincarnation means rebirth or birth, which translates both into an understandable language. But now especially the parapsychologists come and set the incarnation for the past and also for Jmmanuel's 'Incarnation as Divinity', while they only set the term reincarnation as rebirth.

**Quetzal:**

151. These terms come from the ancient Greek language, and this rather naive distinction has already struck us, which is why I talked to Ptaah about it, who learned the ancient Greek language in Greece, when it was the only colloquial language there.

152. His explanation was that both terms were used in the same form and for the same purpose and that there was no difference, because the term incarnation only functioned as an abbreviation of the term reincarnation.

153. Therefore, if you simply use the term incarnation, then you are not making a speech mistake or a naming mistake, because incarnation in this sense is only the abbreviation of reincarnation.

*{Note: Please see the full Contact Report for the context of this entry.}*

**Quetzal:**

34. If he *{Jacobus Bertschinger}*, therefore, does not bring about a change in his diet in the foreseeable future, then his condition will worsen, after which he will soon no longer be master of his senses and will act unreasonably in the form of leaving your group, which already strongly moderates in him and thereby consciously and maliciously destroys his own predetermined path, which would have very bad consequences for him for the next personalities of the next incarnations.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_104](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_104)

*{Note: Please see the full Contact Report for the context of this entry.}*

**Quetzal:**

53. But on the other hand, those fallible ones determine this for themselves, who do not strive for everything in an honest manner but only make demands, are treacherous and believe

themselves to be privileged, which this is why they exclude themselves from our entire community and thus destroy their entire future for very many incarnations to come.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_109](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_109)

**Quetzal:**

15. The new regulations in reference to the internal group are, in accordance with the advice of the High Council, the following:

...

17. The composition of the internal group was planned and formed in its early stages by the members who were meritorious in their other personalities of previous lives and who had made themselves determinant in the circle of truth announcers at very early times, which dates back to several thousands of years.

...

43. 7) The task of the coming time of later incarnations of the individual group members is rooted in the fact that they, through the present preparatory achieving of a higher evolution, become capable of instructively informing Earth humanity in the teaching of the spirit and in the utilisation of the powers of consciousness.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_112](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_112)

**Billy:**

... how is it with you: do you actually dance, too? I mean, like with us, men and women together, etc.?

**Semjase:**

7. Such rhythmic movements are well-known to us, and the Earth-humans have also taken this over from our ancestors.

8. These rhythmic movements are, to my knowledge, known among all human forms in the Universe, only in very different forms.

9. But the rule is that male life-forms among us do not indulge in such rhythmic movements together with female life-forms but only alone or among their peers.

10. In contrast to the animal world, the sense for rhythmic movements among human life-forms is pronounced with the female life-form, while the male life-form often appropriates this out of pure egoism and out of expediency, even though his movements of this kind are often very unaesthetic and almost foreign to nature.

11. But the other reason also lies in the fact that many male life-forms, due to the reversals of the incarnation cycles, are no longer fully pronounced in their masculinity and carry certain female traits in themselves, which then also express themselves in these rhythmic movements and come to appearance.

**Billy:**

That sounds just as if such men are not full-fledged men because due to the incarnation cycle disturbances, they are not fully pronounced as male life-forms, evidently in this case because of a too premature birth of the new personality?

**Quetzal:**

58. That is, in a certain framework, of correctness, and on the other hand, the incompleteness of a male-life form does indeed appear if he calculatingly gives himself over to rhythmic movements, so to dancing, as you said.

59. Your explanation in the form of questioning corresponds to the exact correctness and ascertainment of the facts.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_114](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_114)

**Billy:**

... But now, can you still give me a few more tips about our core group members? I would like to know, to what extent these stood in connection in the incarnations between today and the last two thousand years.

**Quetzal:**

60. There are, in fact, various and very interesting connections there, which I have not yet fully worked out, however.

61. Therefore, I would only like to give you one tip relating to this, that all their physical bodies repeatedly changed in the interim from that time to the present time, so they eked out their lives alternately as male and female life-forms and, of course, also always as other personalities.

62. An interesting case, though, with special data, points out that Maria, your wife, and Madeleine were triplet sisters several centuries ago as other personalities and became a talking point in certain things.

63. But so also did various others of the current group members become a talking point in other times as other personalities, for they actuated themselves organisationally in the matter of the spiritual teaching and even established organisations that have remained existent up to the current time.

64. In particular, I would like to mention in this connection the now very distinct organisation of the "[Great White Brotherhood](#)," which was established and called into life by the former personality of someone who performs very valuable services today as a group member in your group.

**Semjase:**

163. An exact determination of time only occurs in each case when a spiritual life-form has separated from the material body and has gone into the otherworldly area, in order to work further there as a purely spiritual form and to evolve further.

164. In your highly evolved case, however, the fact is already given that you, in your material life, can make a fairly accurate determination of the year of your next incarnation, but this can still vary a little, so by about two to three years.

165. This self-determination possibility of the rebirth time of the spirit-form still in the material, so in the physical life, can only take place, however, if a life-form has already reached a certain spiritual evolution potential, as this is the case with you.

166. However, since you are presently able, in your current physical state, to bring about such a predetermination that is accurate to within two to three years, then this can still change up to the end of your life in such a manner, through your further evolution, that the data will be very accurate.

...

**Semjase:**

200. Even though you already moved over from the Lyra region to the Earth at a very early time, I have always disregarded this and have always seen you as an Earth-human.

...

202. But from now on, I will try to see you again for that which you truly are.

203. I am sorry, but due to your rigorous effort to present yourself as a genuine Earth-human, you have also directed my thoughts in this direction; thus, I saw you as an Earth-human.

**Billy:**

Somehow, I am, indeed, also such an Earth-twit. For the Devil knows how long, I have already clambered around on this world, after I came to this planet. Since then, I have lived so many lives here as the most varied personalities that I am no longer able to count them. I have an earthly physical body with a spirit from the depths of the Universe, as I already said once eight and a half thousand years ago as another personality. This earthly body, however, binds me to this planet and is connected with it – from its dust, so to speak – which is why I also have a

feeling in me that I somehow belong here. At the same time, I just ask myself: how will I, with such a body, one day go back to my actual home?

**Semjase:**

204. It will no longer be an earthly one, for at the established point in time, parents for you will come to the Earth, who will procreate your new personality on this world and will give birth to this with your spirit form on your original homeworld, after your spirit form will have taken possession of its descendant in the mother's womb.

**Billy:**

Ah, then I am, indeed, calmed. Does this also happen, then, with all the others, who are still roaming around here on the Earth?

**Semjase:**

205. Certainly, it will be likewise with them.

**Billy:**

That is really comforting to know. But tell me, are there also those in our group, who do not come from this planet originally?

**Semjase:**

206. Sure, many, but I would not like to mention the names to you now openly.

... can one of you tell me whether Elsi *{Moser}* was something in my last life *{as Grigori Yefimovich Rasputin (see here and here)}*, damn... I mean, whether we knew each other?

**Semjase:**

18. No, that was not the case, for at that time *{1869-1916}*, she was not incorporated into an incarnation.

**Billy:**

And in my life before *{as Jakob Ludwig Felix Mendelssohn Batholdy (see here and here)}*?

**Semjase:**

19. There, she was a friend.

20. But at that time *{1809-1847}*, both of you were otherwise married up to the ends of your lives.

21. I would not like to mention more about that for the time being.

**Billy:**

Then please still tell me, however, whether Elsi has had one or two other incarnations since then?

**Semjase:**

22. Since then, it has not been only one, that is, not just the current one.

24. But they never had closer relations before, and also not after that, which we have clearly determined in the meantime since our last contact.

...

26. But truthfully, the two of them, with which I address Bernadette *{Brand}* and Engelbert *{Wächter}*, were never closer together than in a good friendship between two families, over approximately 38 years.

27. But more was not to be noted, and since then, the two met for the first time again in your group.

35. From our side, we can no longer agree, under the present circumstances, to be helpful to her *{Elsi Moser}* through impulses, as we also can no longer do this in the future for other fallible group members.

...

40. According to the explanation of the High Council, ultimately, it will yet so happen with the fallible ones, such being lawfully determined, that after the deaths of the fallible ones, their following lives will no longer be given to the area of knowledge and to fast-paced evolution; instead, they will arise in primitive people, who are still ignorant of the knowledge of spirit and who still count as primitive people among the human beings of this world.

41. Moreover, it should be possible that the following lives can, in full knowledge, be made fully aware of the present life and of the mistakes of the persons concerned, which were deliberately committed in malice, and this up to seven consecutive lives, without ever being given the opportunity of being able to leave the place of birth and, in the meantime, being able to arrive in civilised parts of the world. *{Note: See also sentence 108 below, and the following entry from Contact Report 188.}*

42. However, the High Council still sees another possibility, namely that the fallible ones reflect upon the truth and love, so that after some following lives, they can be newly integrated into a community that is aware of the process of evolution, like the present one, through which a few truth-thinking ones are led and through which progress is made with them, whereby a certain part of the goal can still be achieved, and all necessary values can later follow from that.

...

43. According to the explanation of the High Council, this law represents a real possibility that some day, the fallible ones can yet achieve their evolution.

...

**Billy:**

... On the other hand, I think that it is fairly common among certain human beings of the Earth that they behave themselves in such a ricocheting manner. And if I keep in mind what has sometimes happened in the past lives of many of these people and what prospects they had for this present life, before you recently looked after them, then I think that their lousy machinations are rather damn primitive and that dirty thanks are due for this. Especially when you now speak primarily of Elsi, I think that just she should be of the greatest gratitude for your help and impulses, which have led her to a better life than what she herself has determined in life.

**Quetzal:**

51. That is of correctness, nevertheless, practically all of the fallible ones do not know that in their last or in several of their past lives, they lived as different personalities, who did not live according to their destinies to such an extent that their following lives necessarily had to be impaired by the impulses of their memory bank, and this led to degrading lifestyles.

52. But that their present existence has run within a good framework and that this has only happened through our assistance, because we have broken through their old dispositions from which they had malignantly distanced themselves, of this they are not aware.

...

**Billy:**

So the whole thing, nevertheless, again leads to the fact that they themselves are responsible for their deeds and actions, even if the past commitments of their former lives are not known to them, and on the other hand, it is that each person always only makes the best out of their present life, without knowing about their lives before. So it does not matter whether they know what was in their previous lives, even though a few things may be of use. A wide variety of human beings fantasise that they had only acted evolutionarily in the past lives and led a good life, even though this often does not correspond to the truth, such as with Mrs. Elsi, who lived in Germany before her present life and who came to an inglorious end there as another personality. ...

...

**Quetzal:**

60. Elsa's true destiny, also in relation to the mission, is lost in her subconscious, and this has been the case for more than half a millennium.

61. Since then, she has only lived at the edge of these determinations in a form according to notion, whereby she gave preference to worldly pleasures and vices, however, in every one of her past lives as other personalities, which led in her last eight lives, without exception, to a violent end, which I will mention individually if I make up my mind to reveal these secrets to the group members.

62. In any case, the contents of her last eight lives always led to the fact that her life and her lifestyle were very negative and got very badly out of control of the good human nature, thus, we had to use actions in logic and rationality for her present existence, in order to let her shape her life in a form that was positive in certain things.

63. So also her birth occurred in a place and in a family that were not originally determined by her, but which we chose for her.

64. That you also played a certain role with her during childhood, this was also planned by us.

...

67. But now, to come to speak on her last life, I need to explain this, her destiny, which was created at that time in connection with the present life, was rather vile, by which she would have sunk into extremely negative depths again.

...

74. Burdened from her current life which had been brought forward, she ingratiated herself with a larger number of men and did not exactly remain loyal to her husband.

...

85. The case of her former life in Rostock as the master carpenter's wife, Mrs. Wendt, is stored under the year 1835 in the archives there.

...

108. But now, the breach of her promise has persuaded the High Council to give its advice towards the removal of impulse assistance, the discontinuance of the contacts, and the abandonment of the further life monitoring of the fallible ones, who can be reincarnated – up to seven consecutive lives among the people of the Earth, with the full memory of this life and of their committed mistakes and deeds – where they will have no opportunity at all of arriving into knowing civilisations or of making their way up to a higher position in the nation in which they are born.

109. Through this, during several lives, they will become aware of the awfulness of their wrong and malicious acts that were committed in their present life.

110. Thus, the fallible lives will then be of full thoughtfulness, due to their knowledge that their people will be thousands of years ahead of them, without these ignorant ones being able to come under this knowledge so that they may bring it to use.

111. If we explain these actions in logic and rationality, then we do not act against the existing laws because the laws of Creation themselves include such provisions, according to which these natural laws always begin to work whenever a human life-form gets very badly out of control of the good human nature and threatens to destroy certain Creational goals.

112. If the following lives are then lived according to natural laws, then in each case, there is a reintegration into the old form, whereby the normal condition prevails once again, so the memories of the past lives only appear as a notion.

113. If, after such events, a life-form again breaks out into becoming very badly out of control of their good human nature, then there is no elimination of the spirit-form, as you well know, but a further rectified series of rebirths.

11. Furthermore, I have to explain to you that now, in spite of everything, one sanction [editors note: Clarified by Christian Frehner: some ancient extra rules for a defined group of spirit-forms, who had in the past voluntarily committed to what is called the Codex, have since the 1990s no longer been in effect and will never be reactivated again.] remains in force, as it was recommended in an advisory wise by the High Council, namely, that during seven successive incarnations no contacts whatsoever take place with the group community, that consequently these lives are to be lived through among other peoples and circumstances, if an exclusion from the group has to take place due to malicious violations or if a group member excludes himself/herself or allows himself/herself to be excluded due to betrayal and mission destructive actions and thus due to a decision of his/her own in this respect.

**Billy:**

So, my son, you told me recently that in the coming time, genetic research would be widely discussed, but also a renewed debate would break out regarding the concept of the incarnation, as this was already the case in earlier centuries, I mean in terms of the incarnation, and thus, the moment is meant in which the fetus becomes animated in the womb through the spirit-form that is capable of rebirth, which includes the entire consciousness block of the new personality that is created by the spirit in the fetus in which the spirit respectively enters.

...

**Quetzal:**

...

5. But the fact is that there is no soul because in truth, this is identical with the psyche, which could have allowed the fertilised egg to become filled with reason, but that in truth, it exclusively deals with the spirit-form which is capable of rebirth, respectively the spirit, nothing of this was mentioned at all.

...

13. ... the animation of the fetus takes place via the spirit-form on the 21st day after conception, with which also the heart begins its rhythmic activity, and thus begins the existence of the individual because at the same moment, when the rebirth, respectively the reincarnation, of the spirit-form takes place in the fetus, the new personality, along with the entire consciousness block, becomes born into new life.

...

31. I still have just a brief explanation to deliver, with regard to what was presented, in reference to the incarnation, respectively the animation of the fetus by the spirit-form:

32. As revealed from a future review, the absurd and erroneous claim – that from the moment of conception, respectively from conception to human life, the fetus would be a reason-gifted life-form and, thus, an individual – will recently be reaffirmed, maintained, and taught, again by an ignorant layman, with respect to the rebirth of the spirit-form and its animation of the fetus.

**Billy:**

... Then something else: the creational spirit form of the person is wrongly designated as the soul, but at the same time, the value of the psyche embodies this according to today's better understanding and sense. Now, the spirit form – respectively what the person designates as the soul, which is capable of wandering according to Christian and other religious faiths, even the so-called soul-wandering – is denied, especially by medical science and by many other would-be knowledge directions, as well as its ability to be reincarnated. How long will it be until the incorrigible ones acknowledge the fact, as it is even set forth by the spiritual teaching [aka Creation energy teaching], that the spirit form actually exists and is arranged into reincarnations?

**Quetzal:**

23. With great certainty, the twentieth century will bring no scientific insight relating to this.

372. The Earth-human considers that he/she will live new lives over and over again in striving for that which is higher in accordance with the Creational laws and recommendations through many new personalities in reincarnation of the spirit-form and the overall-consciousness block, namely in the obligation of a Creational path that he/she consciously develops in every logical, good and positive form.

373. But this means that every person must strive for his/her advancement through every personal responsibility, and society must also make that possible for them.

**Question:**

*I assume that the so-called punitive incarnations, to which those core-group members were assigned who are destined to be in the core-group, are not punitive incarnations at all, because that would not make any sense to me at all according to the spiritual teaching. I see it rather as*

*the case that these, when they realised that as bearers of the mission and task they had become unfaithful to their commitment, sought a way to anchor the mission and the associated task more firmly within themselves.*

**Billy:**

*Yes, you can put it that way. Those faithful to their mission have perceived the decisive impulses from the memory banks, deciphered them correctly and put them to use, consequently seeking and finding the path of the mission and now walking along it, as they have done since time immemorial. On the one hand, the mission and their use of it serves primarily their own evolution, and on the other hand, it also serves to instruct human beings themselves and to impart to them love, knowledge and wisdom, as well as inner peace and inner freedom, balance and harmony.*

*{Jeremiah's predictions}*

413. They will learn to understand procreation and birth and life, death and dying, and will lose all fear and dread of them, because they will turn to the teaching of the Prophet.

414. And the human being will have the time of several lives, because their age will be prolonged, and they will become knowledgeable that the light is never extinguished and that life continues also in death and in revival, for their knowledge will become comprehensive wisdom.

**Billy:**

... But something else: have you already found out that certain Earth-humans are simply invincible in reference to religious faith, concerning everything that is just purely man-made? I am thinking, for example, of rebirth and of what is maintained and erroneously taught in relation to this, that the personality becomes reincarnated; although, this is not the case because, after the death of the body, the personality is dissolved by the entire consciousness block and becomes pure energy, from which, through the entire consciousness block, an entirely new personality is created, which is no longer identical to the preceding one. Only the spirit-form becomes reborn, respectively reincarnated, and thus, not the personality. But now, there are the super clever ones who deny this and claim that Jesus Christ, respectively Jmmanuel, will be reborn as a personality, but this is utter nonsense, just like the erroneous religious teaching that deceased human beings, within the scope of rebirth, would become reincarnated as animals.

**Ptaah:**

269. These absurdities are well-known to me, but it is extremely difficult and often quite impossible to be able to teach human beings who are infected with such delusional beliefs because every religious or sectarian faith enslaves everything in the world of apprehension, the world of thought, and the world of feeling of the person and evokes a certain obsession in such a manner that reason becomes turned off and becomes completely devoid of any purpose, whereby any clear logic is nipped in the bud.

270. Religion, as this is common on the Earth among the human beings, is like a vicious drug, which disrupts and kills both the intellect and reason.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_238](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_238)

**Billy:**

... But I actually wanted to talk about something else, namely the fact why {Menachem} [Begin](#) will go through all the horrors of all hells during his pre-death process and then finally succumb to madness. The reason for this is to be found in the fact that during his life this mass murderer absorbs all the horrors and pains of a physical and psychological nature and stores them in the

memory banks, and thus everything that he has consciously or unconsciously inflicted on his victims. This storage takes place in unconscious form and is deposited impulsively in the planetary memory banks. The unconscious storage of these impulses is so strong that a determination of the wrongdoer arises from it, which has a direct effect on him. This means that this criminal and mass murderer makes the psychological and physical horrors of his victims, which he unconsciously absorbs, his own destiny for his death, although this does not extend to the next life of a new personality. This is the form of self-punishment of such fallible ones, if they cannot fully remove that part of the guilt in the fallible life, which leads to the normal process of removal of guilt in the following death-life of the total consciousness block through processing, but which does not result in the form of assistance to the former victims in their next lives and new personalities. A process which can be fulfilled in codex members up to 7000 reincarnations if everything takes its normal course, but which falls away through the dissolution of the codex and is really only made possible by a codex provision. Even mass murderers of the normal and non-code-bound kind are not able to go the normal course of dying, for through their criminal and life-destroying deeds or through their other capital crimes they force themselves to a self-punishment of the kind mentioned. According to the law of Creation, this self-punishment is given as a logical possibility, but it can only come into function through the illogical thinking of the human being. Illogical thinking is based on the fact that one wrongly assumes that they can ausarten [get very badly out of control of the good human nature] with impunity without being called to account. In his illogical thinking, however, one does not recognise that he/she has a conscience that refers him/her, via the subconscious, to a punishing destiny that affects the dying [process]. Even if one thinks of a person as having no conscience or only a wicked conscience, then this is not correct, for the conscience does not only work in the form that its work becomes obvious in the life in question, but it also works in the aforementioned form that it sends impulses via the subconscious into the memory banks and thus creates a destiny for the state before the actual dying process. These kinds of determinations are always and in every case fulfilled and inevitable in all their horrors, fears and pains. In fact, however, they are a product of the fallible human being himself/herself who, through their conscience, creates such determinations which they disregard and do not want. This, however, is the compensating justice through the laws of the Creation, which themselves know no punishment and no punitive measures, but only ways by which the human being punishes himself/herself when they misbehave. However, all this has in no wise anything to do with the misunderstood karma through which human beings allegedly then have to atone for their deeds in the previous life as a new personality in the next life. This assertion is absolutely false and irrelevant, for no creational law knows such a form of karmic punishment or similar nonsense. The self-punishment mentioned is based on completely different things, which I have already explained.

... May I now ask you once again for certain things regarding the previous lives and names, etc. of the group members and loved ones? ...

**Ptaah:**

...

92. On the one hand, every person must recognise and process the truth and all things through his/her own reason, and on the other hand, the person becomes dependent on such information and no longer acquires it himself/herself.

93. But if you or we would be given the desired information, especially with regard to certain aspects of previous lives or to practises and guidelines in the present life, then for the persons concerned, we would take the self-initiative to fathom everything, to handle everything correctly, and take sole responsibility for everything.

94. However, we may not do this, even if one continues to ask for it so often.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_246](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_246)

**Billy:**

... My next question relates to the freezing or shock freezing of all kinds of life-forms: If, for example, a person is shock frozen for any reason, perhaps to overcome time, etc., then I assume that this person is in a kind of apparent death. This means, however, that the spiritual form does not leave the body, but remains in it until the time when the body is revived. Am I right in my assumption? To my knowledge you yourself have used such methods in the past, have you not?

**Ptaah:**

129. That is correct, as is your explanation.

130. If the body of a material form of life would die through shock freezing, etc. or simply be abandoned by the spiritual form, then this spiritual form would not return to the corresponding body again, but would enter the afterlife realm, from where it would then enter an absolutely new body again for the purpose of reincarnation.

131. Once a spirit form has left a body, it never returns to the body it has left, but without exception selects only the new body destined for the next life.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_250](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_250)

**Billy:**

... There are also many doctors, etc., who simply sell poisons to the suicidal, often at sinfully expensive prices, with which they can then carry themselves or with the help of others from life to death. In addition I find that any form of active or inactive and so as any direct or indirect euthanasia is murder as well as suicide. Man does not live to kill himself or have himself killed at will. Both, I find, correspond not only to a boundless cowardice, but also to an absolute irresponsibility towards oneself as well as towards life, evolution and the creative laws and commandments. Man has his life and lives it in order to live life evolutively in all responsibility. The life itself as well as the honour and responsibility of man demand a conscious permanence until the natural end of life. And truly it takes strength, intellect and courage as well as a great responsibility, inestimable much more than it takes to kill itself or to be killed. Courage, strength, love, intellect and responsibility are indeed needed for life, but not for cowardly murder or suicide. Murder or suicide, however, cannot be seen as murder or suicide and cannot be judged if terminally ill people, who are perhaps still plagued by severe pain, insist that they are not connected to life-supporting machines and equipment, etc., or maltreated with purely life-supporting drugs, etc., in order to continue to maintain the extinguishing and naturally dying life as dearly as possible by all conceivable means. To reject such measures, I think, has nothing to do with suicide or murder, because it only guarantees natural dying, which is the absolute right of every human being, on which he can and may insist. However, this really only applies if a person is truly consecrated to death and everything is not just a pure life-supporting measure that delays the inevitable death by machine, apparatus, medication, etc.. Pure painkillers are of course not affected, because they are not only life-supporting, but also pain-relieving.

**Ptaah:**

128. This irresponsible evil of euthanasia or indirect euthanasia as well as suicide is well known to us, and none of these forms can be approved by us, because they all violate the creative laws and commandments and thus the responsibility of life and evolution.

129. No responsible Earth-human can agree with these murders and suicides either.

130. All these forms are despicable and inhumane.

**Billy:**

Natural dying is one of the last experiences and the greatest experience in the life of a human being, which is never given by suicide or by letting oneself be killed by sight.

**Ptaah:**

131. That is a true word.

**Billy:**

The question remained whether beheading with a guillotine really guaranteed that fast and 'humane' death, as the inventor of the killing machine had hoped. It had been observed before that the faces of the beheaded moved for some time. In 1795, for example, the German anatomist Samuel Thomas Soemmerring heard from colleagues that "the lips of a cut-off human head were moving" or "that the cut-off heads were grinding with their teeth". From this the professor concluded that in severed heads the consciousness and thus also the sensation of pain were preserved for a considerable time.

Imagine that: As the last clear thought before death, a decapitated human being has the horrible realization that he has been decapitated and is now lying there in two parts. An idea or an event that an upright man probably does not wish for his worst enemy and the worst criminal. ...

...

... But now the question about the killing method of decapitation: To what extent is it true that a decapitated human being does not consciously notice the cutting off of his head, as the doctors claim? You and Quetzal once told me something else.

**Ptaah:**

8. With regard to the painlessness that is supposed to occur in the head and body during beheading, it has to be said that this is indeed the case and that the medical clarifications are correct.

9. However, this is only true if the head is completely separated from the trunk within a fraction of a second.

10. What is against all truth, however, is the fact that consciousness disappears within a few seconds with the separation of the head from the trunk, because in fact it continues to exist for several minutes and is therefore active, which under certain circumstances can last up to twenty and more minutes.

11. This, however, cannot be established with the equipment and devices of the most modern kind that have been conventional on Earth until now, because the actual brain activity is switched off within seconds, which, however, does not apply to the consciousness itself, because this still functions for quite a while without the actual and ascertainable brain activity, and consequently the heads fully realize everything by beheading the executed for long and terrible minutes before the consciousness actually goes out.

12. But if the earthly physicians claim otherwise and thus the opposite, then this does not only correspond to arrogance and ignorance of the facts.

... Moreover, it is not the case that a cloned person has the personality of the person from whom the cells are taken for cloning. So it is lies and deception and even more if it is claimed by the cloning creators that a certain child or another certain human being can be recreated by cloning. In any case, it is a completely different person with an absolutely new personality, and thus with a completely different possibility of development, different thoughts and feelings, different views and interests, as well as with an absolutely different character, and so on.

Through cloning only a form of life arises – in this case a human being – which looks only externally the same as the human being from whom the cell or cells are taken for cloning. Cloning thus never creates the same person from whom the cell is taken. ...

**Billy:**

Then a somewhat tricky question, which I unfortunately could not answer: Do dying in sleep also lead to dying experiences?

**Ptaah:**

37. This is possible, but not the absolute rule.

**Billy:**

And what is it like before dying, just before the state of agony occurs, so to speak in the waking state – with full consciousness?

**Ptaah:**

38. This is not the case, because in the waking state no dying or near-death events can occur.

...

### ***Subsequent Explanation***

*With regard to the question of whether or not dying in sleep also results in dying experiences, the answer was that such experiences are only given when a state of agony appears in sleep. Agony means to lie in the death struggle, whereby the 'struggle' is related to freeing oneself from life in order to surrender to death.*

... Another question: One of you once answered a question about this by saying that active or passive euthanasia would be tantamount to murder one way or the other, in any case, so that the hypocritical oath and sense would be grossly violated and trampled on.

**Ptaah:**

33. That is correct.

34. Active or passive euthanasia is and remains murder, because no man has the right to determine the life and death of another man or his own life in such a way that an unnatural death is consciously brought about.

35. But if this is disregarded, then in any case a murder or suicide takes place, which corresponds to a tremendous human assumption by which creative laws are disregarded and raped.

**Billy:**

What about when simply life-supporting machines are turned off, when bodily functions are only maintained by such apparatuses?

**Ptaah:**

36. Even such apparatuses are unnatural, for they not only rob man of the dignity of natural dying, but they also tinker with the craft of natural dying.

37. If there is no hope for improvement of health and the natural preservation of life, then no apparatuses may continue to keep the dying body alive senselessly.

**Billy:**

I do not think that can be called active or passive euthanasia and therefore not murder, can it?

**Ptaah:**

38. That corresponds to the correctness.

30. For my part, I have something to say about Jacobus {*Bertschinger*} and his behaviour on the 19th of May.

...

36. His behaviour was incredibly primitive and even primatial and shameful, but he does not seem to comprehend this and to feel comfortable and big at the same time, whereas he does not realize that he is humiliating himself unbelievably deep and only harming himself, as it was the case with his last 7,000 personalities, who came out of his total block of consciousness.

37. He thinks extremely confused and cannot see from it that he will always be the loser, as was always the case with his former personalities.

38. And if he does not change his thinking and his whole attitude, then nothing will change for the better with him, whereby he will always remain the disadvantaged one.

**Ptaah:**

22. The human being is an independent individual, his own personality with his own ideas, thoughts, feelings, abilities and possibilities as well as his own character and all that makes him a human being.

23. This means, however, that he cannot simply be programmed, but that he has to become very laboriously pregnant with reason and understanding and just as laboriously learn and change.

24. But all this takes up a great deal of time, not only days, weeks, months, decades, centuries and millennia, but millions of years, during which the reincarnations of the spirit form and the total block of consciousness take place, old personalities pass away, new ones arise and live, whereby unstoppable learning and progress are made.

25. But this is precisely the reason why it is necessary to learn inexorably, that proclaimers and wise men must teach men inexorably throughout all times that no man is without error and that, by this alone, he must put himself on an equal footing with all other men and go to the same level, so as not to rise above the others and their fallibility and to believe that he has progressed better, smarter, more intelligent and higher than the others.

**Quetzal:**

29. But this is understandable to you {*Billy*}, because your earliest personalities of earliest lives existed for a very long time, many millions and even billions of years before ours, and consequently, through our own personalities of all former lives and until today, there was no possibility to store such enormous and immeasurable values in the most diverse planetary, galactic and universal memory banks, from which we could profit today.

30. So we are dependent on your explanations and advice as well as on the higher concerns of the teaching of the spirit through your person, because only you are able to give them to us, because only you are able to use all the frequencies of your former personalities in a harmonious way, to rebuild and use all the deposited knowledge, all the love and wisdom as well as the knowledge, experiences, experiences and abilities and all the knowledge and understanding etc. again and again in every new life of every new personality.

...

**Billy:**

You see, this is exactly why people have been attacking me for years, making me out to be the greatest, the brightest, the most clever, the most able, the most knowledgeable, and so on. But when I think of all the things I don't know and cannot do, don't understand and cannot control, I feel like the smallest worm in the universe, even less than the tiniest microbe. For I know that I do not know much, if I may put it that way, with regard to all things that are outside of that which relates to the spiritual and creative and to the laws and commandments relating to it. I can certainly fall back on a certain life experience and on experiences as well as on some abilities which have resulted from my present life, but I cannot and do not want to shine with it, even if perhaps some things have been extraordinary and not commonplace and are not experienced and experienced by human beings en masse etc. But that is not why I think and feel greater or more important than any other human being is. In fact, I think and feel equal to any other earthling or anyone else in the depths of the universe, and no matter if child, woman or man. So I am no more and no less than any other human being. Effectively I am neither a hero nor a superhuman, nor supernatural or omnipotent. Truly, all my life I have tried to be no more and no less than a man of action, to fulfil my duty as a human being and my mission and my promise in this regard, without deriving power from it in any form whatsoever, without making profit from it, without being arrogant, sectarian, lying, unjust and domineering or indulging in idleness, exploiting my fellow human beings or oppressing, harassing, harassing or enslaving, servant or deceiving them, etc. I would like to say this very clearly and plainly for all those who slanderously spread other things about me, who expect me to do all the things and malignities I have mentioned and try to blame me.

**Florena:**

22. As a result of my ignorance, the question has arisen in me as to what the total block of consciousness of the human being is formed from.

23. Since the creation of the spirit-forms by the Creation, has this block been created from the ground up by a creative law in such a way that every spirit-form has one attached to it, or does it form a separate unit which only comes into being in a human being when a spirit-form reincarnates in him?

...

**Billy:**

... Man's entire block of consciousness may well be based on a creative law, but it is not integrated into the spirit-form from the ground up. In fact, this block is only created by the spirit-form itself, by the power of the creative law that the spirit-form must also consist of the two poles negative and positive in the existence of the material body. The spirit-form itself forms the positive value, while the total block of consciousness embodies the negative value, which is directly related to the material consciousness emanating from it, which influences itself by its own power to form thoughts and also evolves itself. At the same time the material consciousness is also connected in a special form with the whole material body, which is why it is also said that the material body forms the negative value. This is also true with regard to animals etc., except that here there is a total instinct-consciousness and instinct-consciousness and thus no conscious awareness. But now back to the spirit-form, which creates the total block of consciousness in humans, or in the animal world etc. the total instinct consciousness block. First there is a still ignorant New-Spirit-Form – in humans as well as in animals etc. – which does not yet have a total block of consciousness resp. total instinct-consciousness, whereby from this block a human consciousness resp. a material consciousness or in animals etc. an animal instinct-consciousness could be created. And when we speak only of human beings, a new spirit that is still ignorant and that inhabits a material body for the first time will be subject to the creative law, which is impulsively stored in the spirit-form, of creating a total block of consciousness from within itself. This then creates out of itself again the conscious material

consciousness and thus the actual personality, which then copes with the material life, learns and after the death of the material body passes away again. Connected with the spirit-form, which after the death of the material body changes into its own afterlife, the same happens with the total block of consciousness, which also enters its own afterlife. In this area the block works through its neutral energy together with the personality to completely process everything that has not yet been processed from the past and present life. When this processing is completed, the personality is dissolved by the power and energy of the total block of consciousness into pure neutral energy, which no longer contains any old personality impulses. This neutral spiritual energy is then used by the entire block of consciousness to create an absolutely new personality and thus a new consciousness, which no longer has any similarities whatsoever with the dissolved and past personality or with the old consciousness. This new personality is then born together with the reincarnatable spirit-form and its total consciousness block in a new human body. From this it also follows that no personality and therefore no human being can be reborn, because this is reserved solely for the everlasting spirit-form. Only the spirit-form is thus classified by the creative laws of rebirth, but not the personality.

... But what happens to the deceased human beings, I mean, how are they laid to rest – cremated or buried, etc.?

**Ptaah:**

60. The deceased are laid out upon a stone bed far away from residential areas in especially created for them, individual small, yet very stable stone houses, after which the entrance is closed with rocks and boulders.

61. After that, the deceased are left to decompose.

**Billy:**

Do you mean by this something like a vault? Is it with the bereaved then also as is usual on Earth, that they visit these tombs?

**Ptaah:**

62. No, this does not likewise belong to tradition as well as also not the decoration of tombs with flowers, etc.

63. Also, no inscriptions are displayed, and no ritual at all is indulged in, at the burial.

64. Among all races exists also no fear of dying and death.

39. And finally, it must be explained that on all worlds in the universe that bear higher and higher life, the evolutionary course to man or the incarnation through evolution is the same, and consequently primate beings or first beings arise everywhere, from which on the one hand the genus man develops through further evolution, while the remaining first beings fall victim to a degeneration of the form of consciousness and thus remain primates or become ape beings, as they are called by the terrestrial human being.

**Billy:**

... But another question I am always being asked: Even in your country, deceased bodies are burned at will. I am always asked why you do this, because the burning of the body destroys the

fluid vibrations. Although I know that this is not the case, because the skeleton is preserved when the body is burned, it would be interesting to know why this is so.

**Ptaah:**

98. Burning is a process of cold fire that does not produce heat.

99. You can imagine it as if something is burned and dissolved with dry ice.

100. So the cold fire only dissolves the actual body, without affecting the skeleton.

101. Through the process of the cold fire burning, the mental fluid vibration of the human being settles into the skeleton and is thus preserved, whereby the following personalities can use the powers again when they are born through the rebirth of the spirit form and the total consciousness block.

**Billy:**

Short, concise and clear. Unfortunately not yet possible with us. – Well, then, I suppose, after this cold burning process, the skeleton is buried.

**Ptaah:**

102. That's correct.

103. In this regard, we have burials in graves and catacombs, as well as burials in small ossuaries far away from residential areas.

#### ***Kitchen Conversation from 28th November 1984***

*... In the same way, however, this also happens in a neutral way when the mental fluid forces are deposited in rooms, places or objects, which can then be used again by the next personality after its birth. It follows that new personalities can then adopt and express the characteristics and behaviour etc. of their old personalities. However, this is not obligatory, because it is solely up to each individual personality whether or not it accepts or does not accept the neutral in the deposited mental vibrations and their energies and forces old peculiarities and behaviours through reconnections.*

#### ***Prophecy and Prediction***

*2) So I see and grasp things through time until the most distant future, which is still hidden from the earthly man. Many years will have passed when my prophecies and predictions have been fulfilled and a new and better time will begin.*

...

*133) As ever, even in the Third Millennium, the terrestrial human being will for a long time not know why he lives and dies, what death means and what rebirth and birth means, for as ever he will uselessly wave his arms in vain, searching in vain for the truth of creation and its laws and commandments, because he will cling – as he has done since ancient times – to the religions and sects that make him whimper like little children.*

...

*162) And it will be at that time that mankind will remember the prophecies of the true prophets and what once was in all the past, just as they will know what the future will be, because they will be able to see, through foresight, the events and the course and changes of the world, of humanity and of the universe, as well as the mystery of living and dying, and therefore will no longer be afraid of their own death, for they will know that life is eternal, alternating with the life of death and the new life on earth, as determined by creation through its unshakable laws, which are unchanging and eternally valid.*

**To Question 1) {Billy's answer to questions from Johannes Buchholz}:**

... I teach the facts of the spiritual teaching also with regard to the truth of the effective (possibilities) of favouring the laws of nature. So the whole thing forms a common basis – namely the rejection of angels, gods and demons etc., because they are schizophrenic and believing fantasy figures – namely the representation of the doctrine of truth as well as the doctrine of the favourable treatment of the laws of nature, if they are correctly followed. With this, however, it is not possible for error and falsehood to attune oneself to the 'pure being', for this is not possible for any human being, even if he has the rank of an Ischwisch or Srut. The latter is classified in the highest possible form of the evolution of consciousness that a human being can achieve before he puts down his material body and dives into the purely spiritual planes, of which there is no longer any connection to the material world and to human beings. Consequently, incarnations or reincarnations into the material world can no longer take place from the spiritual planes. This was the time of the existence of the creation resp. of the about 46 trillion (46,000,000,000,000) years old universe, for very specific and special reasons only once possible with regard to Nokodemion, but this was only possible through the pure spirit plane Arahat Athersata in cooperation with the highest pure spirit plane Petale 12 billion (12,000,000,000) years ago and since then never again.

...

**To Question 3) {Billy's answer to questions from Johannes Buchholz}:**

... It is well known that after dying, the personality is dissolved by the total consciousness block into pure neutral energy, from which the G-block creates a completely new personality with a completely new consciousness. It is this new form of consciousness-personality – which has no longer any relation to the former form consciousness-personality - that is then born, together with the reincarnation of the spirit form, to which the total consciousness block also belongs (see 'Rebirth, Life, Dying, Death and Mourning', Wassermannzeit-Verlag). So it is absolutely impossible that a once lived personality can be reborn or reincarnated, because the old teachings of Hinduism and Buddhism etc. are pure charlatanism, just like the false doctrine that the human spirit or personality and its consciousness can be reborn in an animal form.

...

**Answer {Billy's answer to questions from Johannes Buchholz}:**

...

With regard to the descriptions of reincarnation in the following way: "in the Puranas, rare possibilities of temporary human rebirth in animal bodies are also described, where the spirit form may be aware of its previous incarnation and where the animal form may have served previous human offences against natural laws, sometimes as a result of being cursed by other people or by clinging to certain thoughts of an animal form in the last moment of human life. Is there such a thing?" I am actually not surprised that you simply accept all this nonsense and bullshit without hesitation and believe what you have written and are obviously impressed and biased by it. But no: It is really pure nonsense that a human spirit form can reincarnate in an animal form, neither as a result of previous human infringements, nor as a result of being cursed by other people, nor by clinging to certain thoughts of an animal form in the last moment of human life (with regard to these things I would like to recommend my book 'Rebirth, Life, Dying, Death and Mourning').

The question "from your description 'The new life is not built on the burdens or burdens of the former life, because these were mastered in their entirety in the former life...' the question arises: often life ends abruptly, without having had time to master obvious mistakes or burdens. You start again where you left off, right?": "Of course, man begins his new life where the last one left off. The exact facts can be found in the above-mentioned book 'Rebirth, Life, Dying, Death and Mourning', which is recommended to read and study, because it describes all the things and facts that provide exhaustive information on the whole subject of all your questions concerning rebirth, the hereafter, etc. etc. ...

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_469](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_469)

**What the Truth may tell us**

*... Consciousness and psyche of all creatures, in turn, are on a journey through time and through the countless manifestations of life, encompassing many physical existences. And in this process death is a lead to a new birth as well as the transformation into the world of the hereafter and the purely spiritual. ...*

...

*Christianity also intervened in the life after death, as a result of which the faithful since the existence of the Catholic Church have fallen into terrible obsessions. The rebirth of the spirit-form is strictly denied and the hereafter is presented as a kind of limbo called purgatory and as actual hell. Contrary to this, heaven was invented, in which a God supposedly has his residence and welcomes into his kingdom all those who piously dance to his violin. And with reference to this psychotic fantasy, the Christian religion – as well as sects and certain other religions – claims that heaven is virtually the terminus for human life. But anyone who fundamentally sins against the Christian faith and everything connected with it, will inevitably end up in hell for eternity and will have to suffer endless and terrible torture there. But all people who die – except the saints – cannot go straight to heaven in the process, for everyone must first be purified by purgatory, and this over a period of millions of years, in order to become purified and worthy of heaven in the form of alleviated tortures in hell, and thus to attain heavenly purity. If we take a look at all this Christian-religious nonsense, we can see that the whole thing is an extraordinarily underdeveloped attitude of consciousness that could only develop from a sick human brain. And every human being who study the relevant religious writings of Christianity and the other religions and sects of the same or similar orientation must recognize, if they are capable of clear thinking and reason, that the authors and advocates of all these absurdities are and were psychopaths throughout, who transferred their own irrational fears and delusions to their pathologically stupid and primitive, false, idiotic and incomprehensible heresies. Seen in this way as a whole, the religious and sectarian teachings of life and of the last things of all existence are not just one great error, but an all-encompassing, misleading and malicious lie, through which innumerable human beings go astray, far from the truth, to rot in ignorance of untruth. This is because, through the false teachings of religions and sects, philosophies and ideologies, they are given a completely false and frightening idea of life and of the effective truth and of the real creative laws and commandments. And so, all religions and sects, all philosophies and ideologies, and all human beings who adhere to them, have simply not grasped the true meaning of truth.*

**Billy:**

Once again I would like to bring the language to the so-called 'regressions to past lives' that are done by certain charlatans etc. by putting people under hypnosis and then having some crazy 'regressions' that are not in accordance with the truth of past lives. Recently I had another question about this, explaining the fact that hypnotized people usually only fantasize about 'recollections' or reproduce any of their own 'memories' or those of other human beings who have read, experienced or heard them in the present life, etc. This charlatan hypnotising and 'recalling' usually happens precisely because the hypnotist does not have sufficient skills to put the hypnotized person into a trance state through which he can retrieve information from his own memory banks. With sufficient abilities and the necessary skills and knowledge, such information regarding one's own former persons can also be retrieved through a meditative state, as it is also possible through hypnosis, when there is a real expert in hypnotic abilities. As I am not sufficiently engaged with this to be able to orientate myself about what is being done in this field on Earth, I would like to ask you if you know more about this, and if in the meantime, as we have talked about these things, there are now specialists in hypnosis who are able to bring

about real regressions by retrieving information from the memory banks. I am not referring to the practices carried out by well-known charlatans for the sake of money, but I am thinking of really good professionals in hypnosis who are capable of influencing their hypnotized persons in such a way that they can retrieve real and truthful information from their own memory banks.

**Ptaah:**

32. It is a number of years since we last had a private conversation on this subject.

33. And since we are also observing these things you mentioned according to our clarification work, as you know, I can tell you that in the meantime it has become apparent that a few specialists in hypnosis have developed who are able to make real regressions by guiding those they hypnotize in such a way that they can retrieve true information from their own memory banks.

34. However, the number of those who are capable of hypnosis is not great, so that we cannot speak of a general progress in these matters.

**Billy:**

... But now a question about the slanderer ... in ..., who has been publicly slandering me for well over 20 years all over the world ... what personality he had in his former life and what he had been, etc.

**Ptaah:**

...

143. The former personality, respectively the person who existed in his last life of the person living today ... was Florian Back, who, besides other false names, also took the name Emil Wallenburg from a novel, with the result that he died in Neu-Kitschen on the 18th of October in the year 1893 by the jury court for an attempt to rob and murder a shoemaker's apprentice in August 1877. He had not committed this crime, but someone else, namely a day labourer named Johann Skarke.

...

145. Florian Back was born on the 14th of July 1863 in Bavaria and was a good-for-nothing and criminal.

146. At an early age he was put in a reformatory in a place called Breitenau for several years, after which he became a tramp and hobo and worked as a beggar, thief and burglar in Germany and Austria.

147. Judged by the courts as an incorrigible antisocial element, he was sentenced to prison in over 50 cases.

...

**Billy:**

... But the bad character of this Florian Back is obviously also in the successor ... broken through, just in a different way. According to the dates mentioned above, there was only a short stay in the afterlife from the old to the new personality, which is perhaps the reason why the present personality respectively person ... is still strongly affected by the impulses of Florian Back which are stored in the memory banks and which he uses for his bad machinations because he is not able to control them.

**Ptaah:**

149. This possibility may be true.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_570](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_570)

**Ptaah:**

10. In this respect, about 13,500 years ago, when the mission started again, those who directly and indirectly carried or fulfilled the mission took an oath to cooperate in every new missionary activity for the rest of their lives.

11. This refers, however, to the fact that the oath applied to all the persons of that time, who will of course also appear in the future as new personalities of a new incarnation, and who will be assigned to the mission and committed to it.

12. The last time this obligation applies in relation to the present mission, which has to be fulfilled now and in the future, and which ends with the year 3999 for all the persons connected with it.

13. Until then, each personality involved in the mission will have a lifelong commitment to fulfil its missionary duties, provided, however, that the personality in question finds its way into the direct sphere of the person fulfilling the mission, which in this specific case is the active teaching members of FIGU, both now and in the future.

**Billy:**

What is it like when this oath is broken, which present and future persons do not remember?

**Ptaah:**

14. Of course, every personality is free to voluntarily engage in the mission and its duties, and also to realize that there is a deep connection to it.

15. This deep insight arises in every personality connected with the mission as a presentiment about the old oath, so it cannot be said that there is no memory of it.

16. When this oath is broken by a personality, it distances itself from the fulfilment of duty sworn by its former personality, which lasts until the year 3999, the consequence of which is that the whole course of evolution is correspondingly cumbersome and difficult, as is the case with all the human beings who are not mission-related and therefore not directly involved in it from a doctrinal point of view.

**Billy:**

So there is no delinquency in the sense of the word, but rather a serious evolutionary hindrance, which means, so to speak, that there is a damage that hinders evolution, whereby the evolutionary progress in life is as laborious, cumbersome, difficult and always recoiling as it is usual with the human being?

**Ptaah:**

17. That is the case, yes.

**Billy:**

In the Nokodemion storage banks I have learned a word regarding the difference between the spirit and the human, which vividly presents, that the spirit of the human is a tiny part of Creation energy in the human. So this can with the human for example in a way be compared to, as the human body is similar to a guest house, in which the spirit stays as guest, where it also feeds itself and makes payment for this. If the guest house however is demolished or somehow destroyed, then the spirit, which indeed is guest, leaves the place of destruction. For humans is to be realized that this means, that the spirit in him as guest lives and learns (receives food and lodging) and at the same time it enlivens (pays for food and lodging) to the entire body; and when the human dies, then the spirit escapes immediately from the body and goes over into its beyond area, in order then with the next, new personality in the next life again in it, to become bound and to be a new guest in a new human body.

...

**When the spirit leaves the human body, then it escapes into its beyond plane, which exists in the same space as the present-reality of the planet, though the so-called beyond plane is in another dimension in comparison to the real material reality space, and I mean in finest spiritual-energetic nature.** Regarding the planet, the beyond plane therefore is arranged around it, like this plane however also is further existing universe wide, however in contrast to the material reality plane in a finest material, to which the human as material life-form in no way has access and consequently nothing can be seen and nothing detected. Therefore,

is it in this plane impossible for human to see or somehow detect, the material body escaping spirit, respectively spirit-form.

That the beyond area of the planet in a differently dimensioned form than the real material reality space is not only arranged for it, but also in the entire universe, this has its reason. So emerges from the spirit teachings, that if a planet is destroyed or simply made incapable of life, that the on there existing spirit-forms and the other lying fallow spirit energies then are not destroyed, but that these 'emigrate', in order to 'travel' for so long through space, until a new planet is found, on which human life exists. On this planet the spirit-forms 'settle' then again, mix themselves with the already there existing ones and so go forward again, respectively, further into a cycle of reincarnation, respectively rebirth.

... The 'doctrine of truth, doctrine of the spirit, doctrine of life' is thus founded in creative-natural truths which are given in reality and which also make it clear that man has at his disposal a tiny part of the spirit of creation which enlivens him as a 'spiritual form' and is capable of reincarnation, which also states that man in his existence is a being which is not limited to just one life, but through many new incarnations lives on again and again as new personalities. This means that not the human being as such, but only his spiritual form is reincarnated or reborn, while the human being passes away in death as such with his consciousness and personality and is transformed into a new, neutral energy, from which a new consciousness with a new personality is created by the total block of consciousness created by the spiritual form in the afterlife area. The new personality is then born into the new human body on the 21st day after the conception of a new human body, together and at the same moment in which the spiritual form also reincarnates into the new body, namely into the Colliculus superior (in the 'roof of the midbrain' = paired nodal point), whereby the physical body and thus also the consciousness is enlivened and the pure instinctual state of the fetus, which existed until then for 21 days, is awakened to effective life. This enables the new human being or his new consciousness with his new personality to develop, whereby in the course of time after birth he can effectively exceed all possibilities he thinks he has. Through the proper functioning of his consciousness and thoughts, he will not only be able to solve all his personal problems and achieve his self-imposed goals, but he will actually be able to expand his consciousness and create knowledge, wisdom and love, as well as balance and peace, freedom and harmony within himself and for his environment. ...

... The meaning of human life lies in the development of consciousness, therefore he should get to know and consciously perceive, learn and obey the creative laws and commandments, also out of his own free will. For this man is given his own free will, but on the other hand also responsibility is imposed on him, which he has to perceive, but also again in pros and cons concerning his own decision and his own free will. Through his own deliberate decisions and the resulting consequences, he must learn what is constructive, good, positive and right, beneficial and beneficial and what is not. And the consequences resulting from his decisions are then also what shape his human individuality and quality, whereby it must be noted, however, that from the spiritual origin all human beings are equal, namely by being equipped with a spiritual form which is capable of reincarnation and evolution, which is in all human beings constantly of purely spiritual-energetic and constant form, and which also enlivens man. This, while on the other hand every human being is fundamentally different from every other in terms of his or her sense of consciousness, personality, character and behaviour. ...

**Billy:**

... Then the following, which would interest me, namely the matter of the little more than 144,000 extraterrestrials who came to Earth from the subsequent peoples of Nokodemion and also died here. Their spirit-forms were and are since then on Earth of course always classified as reincarnation, even in bodies of newborn personalities again and again. It must be said, however, that these 144,000 or so people must in no way be associated with the alleged 144,000 'light beings' from the 'Santinians' who are supposed to live on Earth, which, however, corresponds to complete nonsense. Also absurd is the Christian-religious assertion that allegedly 144,000 are 'Chosen' – according to Christian faith, of course, only Christians should be the ones who are therefore favoured by the Christian religion and its sects – who are to be 'deprived' and 'saved' when the world perishes, as already absurdly claimed in the Bible. But what interests me now is: Where do the 144,000 spirit forms enliven today's people, or where do the associated personalities live today who came to Earth about 13,500 years ago? And my question only refers to these 144,000, but not to others of the same number. To my knowledge, they should at the present time be scattered all over the entire Earth, indeed mostly one by one, as it emerges from the Nokodemion storage-bank.

**Ptaah:**

...

5. The little more than 144,000 spirit forms of the then distant descendants from Nokodemion peoples, who immigrated to Earth about 13,500 years ago, exist at present partly in living personalities, which are scattered all over Earth practically in all peoples, whereby they usually live their lives individually.

6. Today there are also a few small groups, but they are really very small and consist of only a few people and are concerned with the 'teaching of truth, teaching of the spirit, teaching of life'.

7. These new personalities have come together in modern times – whose primeval ancestors came to Earth from foreign worlds at an early age – to form small groups from the 144,000 or so Nokodemion peoples, as a result of the missionary spread emanating from you and the FIGU.

8. Thus it is said that these small groupings have arisen from the ongoing mission efforts, whereby among these groupings there are of course not only personalities who come from the 144,000 or so former successors of Nokodemion, but there are also persons among them who possess pure Earth-created spirit forms, following that they are pure Earth-humans.

9. But also these – or at least a part of them – are oriented towards the creative-natural laws and commandments as taught by the doctrine, and also with them everything happens apart from religions and sects.

...

11. And it must still be said that of course only a certain part of each of the 144,000 or so spirit forms enlivens new personalities who are in current lives, whereby we assume an estimate of about half in this respect.

**Billy:**

So about half, then they are quite thinly sown in the mass Earth humanity of more than 8.5 billion. ...

...

**Ptaah:**

...

22. All those of these extraterrestrial immigrants who remained on Earth also died there, and since then their spiritual forms have also reincarnated and will continue to reincarnate on Earth, precisely in ever new personalities of newly born Earth-humans.

23. So the 144,000 emigrants and their superiors and leaders were integrated worldwide as instructors into all existing earthly peoples and large tribes as well as various groups in which they had to act as instructors.

24. And like I said:

25. Many also fulfilled this obligation and thus led Earth humanity in technical, medical and scientific regard on a higher level, however always in accordance with the possibilities prevailing at that time and also further on Earth.

26. In this way everything has been carried and developed since then up to the present time, consequently by the descendants of the old extraterrestrial immigrants from the Nokodemion descendants who came to Earth – who since then have been born again and again as new personalities and continue to be born -, innovations in medicine and technology etc., as well as new insights and expanded knowledge have been brought and continue to be brought.

...

31. If for a moment ... yes here yes, our annals refer to a number of eight different emigration powers of 144,000 persons each and 228 superiors each, who came to Earth in the course of more than two million years from the Nokodemion descendant peoples.

32. And here is a total number of 1,151,828 people who were involved.

33. Of these persons, 575,914 remained on Earth, died there and are born again with their old reincarnating spirit-forms as new personalities.

### **Spirit and Consciousness**

*... The spirit or spirit form of man (and other life-forms) is classified as reincarnation or rebirth, which is not the case for consciousness and its energy and power. The human spirit or spirit energy collects knowledge from the human consciousness impulsively and accumulates it into wisdom or impulse impregnated energy. So everything happens purely in terms of impulse energy and therefore has nothing to do with thoughts or thinking as it is peculiar to consciousness alone. ...*

...

*In the Nokodemion memory banks I learned a word about the difference between the spirit and the human being that clearly shows that the human spirit is a tiny part of the human spirit of creation. Thus the human body can be compared with the human being, for example, by comparing the human body with an inn where the spirit lingers as a guest, where it also nourishes itself and pays for it. But if the inn is torn down or otherwise destroyed, then the spirit, who is the guest, leaves the place of destruction. Applied to man, this means that the spirit lives and learns in him as a guest (receives food and lodging) and at the same time enlivens the entire body (pays for food and lodging); and when man dies, the spirit immediately escapes from the body and passes into his afterlife area, only to be bound to it again in the next new personality in the next life and to be a new guest in the new human body.*

...

*When the spirit leaves the human body, it escapes into its afterlife plane, which exists in the same space as the present reality of the planet, whereby the so-called afterlife plane is dimensioned differently from the real material reality space, namely in the finest material-spiritual-energetic nature. In relation to the planet, then, the plane beyond is arranged around it, just as this plane continues to exist universe-wide, but in relation to the material plane of reality in a subtle material plane to which man as a material form of life has no access whatsoever and consequently cannot see or perceive anything and cannot communicate with the other. So in this plane it is impossible for a person to see or otherwise perceive the spirit or the spiritual form that has escaped from the material body or to somehow communicate with it.*

*The fact that the otherworldly realm of the planet is arranged in a different dimension than the real material space of reality not only in this space, but also in the entire universe, has its*

justification. Thus it follows from the spiritual teachings that when a planet is destroyed or simply becomes unviable, then the existing spirit forms and other unused spirit energies on it are not destroyed, but are 'migrated' to 'move' through the world space until a new planet is found on which human life exists. On this planet the spirit forms or spirit energies then 'settle' again, mix with already existing ones there and reach again or further into a cycle of reincarnation or rebirth.

#### **4. Question:**

*Every life-form possesses a spirit-form, which incarnated for the first time as a new spirit-form in this time. What determines whether a new spirit-form incarnates into a certain life-form or whether a spirit-form reincarnates into a certain life-form?*

#### **Answer:**

*There is no determination that a spirit-form incarnates into a certain life-form, but only a determination into which genus/species a spirit-form reincarnates.*

**The facts of the matter are this:** *Around every planet and throughout the universe exists the creative spirit-energetic mass from which every tiny spirit-form for every material form of life emerges.*

*The spirit-form by which individuals are enlivened forms itself from the ground up according to the corresponding life-forms when it enters or is born into a form of life as only a tiny new spirit-form or as a neutral-positive, tiny spirit-forming mass. The entire great mass of the Spirit Form, which encompasses all planets and world space objects and the entire universe, exists in its own universe-wide spirit-energetic sphere, but is absolutely neutral-pulsing and ineffective in its original state. In this form, the entire mass of spirit-form lies fallow and has never been bound to any form of life. A binding of a clusters of spirit-forms to an indefinite form of life only arises when a tiny separation of the spirit from the entire neutral planetary and universal mass of spiritual energy takes place. Thus, a tiny fragment of spiritual energy separation from the entire planetary resp. universal spiritual form energy is created and forms a new spirit-form, if a new life-form of any genus or species has to be 'committed' by a new spirit-form. If this is the case, then the new spirit-form, which has never before incarnated or reincarnated, gives birth as neutral spirit-form energy/spirit-form agglomeration into the new material life-form, which can belong to any genus or species.*

*The tiny fragment agglomeration of new spirits is invisible, and when it is first incarnated in the brain of an individual – regardless of genus or species – it immediately harmonises itself harmoniously with the form of life concerned and 'programs' itself, so to speak, on the individual concerned. This, when a neutral spirit-energetic mass, which is a tiny fragment, is first born or incarnated into a human being as a new spirit-form, then it determines itself impulsively as a human spirit-form and remains so for all time. If, on the other hand, a neutral new spirit-form moves into another life-form of another genus or species, such as an animal, reptile, bird or fish, then it 'programs' itself on it and thus becomes the spirit-form of an animal, reptile, bird or fish. So the new spirit-form adapts itself to the first individual form that enlivens it, only to reincarnate itself into a similar individual form again and again after each passing of the corresponding life-form. The new spirit-form, which through the first incarnation has impulsively begun to evolutionize in the individual, is thus from now on assigned to the same individual line and reincarnates only in this line.*

*Every neutral new spirit-form that incarnates for the first time in the brain of an individual is therefore absolutely neutral in every form, follows this also neither male nor female, but absolutely specific to a certain life-form and individuality and its continuous life line. Only then, however, when the spirit-form moves into the brain of an individual and animates it – in humans in the 'roof of the midbrain' = paired node = colliculus superior – because a living brain requires this, does the human spirit-form develop into the correspondingly necessary form. And so in*

*man the spirit-form is called the human spirit-form, in other life-forms accordingly the animal, animal, android or any other necessary and according to the individual oriented spirit-form. Only through the first entry of the tiny fragment new spirit-form or spirit-form energy into the brain of an individual does it develop into the life-form and the spirit-form belonging to it and named after its species.*

**Billy:**

Man should never forget to have a real, good and positive dream for self-control and self-esteem and self-realization in order to be a true, honourable and worthy man, who through his healthy thoughts and feelings can also perceive, experience, experience and understand that he is a true man among his peers in his actions, deeds and behaviour. He must know that he really lives his dream and carries it into the future until his death, which he can face with honour and dignity and say that he has lived his life in a decent, honourable, worthy and humane way in joy, love and contentment.

**Billy:**

... Something goes through my mind, so I want to make sure that I remember the words of your father Sfath when he explained to me that if a person falls into mourning, this has to be overcome within 10–14 days, otherwise he will suffer mental-psychic-conscious damage resulting from depression.

...

Thank you, then: sadness and depression are basically two different factors, but sadness can trigger depression, which is primarily caused by the loss of a loved one, which is quite normal, regardless of whether the loss is caused by death or separation. These two types of grief are therefore a natural reaction to the loss of a human being, while grief can also affect a human being in other ways, such as by the loss of something on which the human being is attached and which he or she loves. This can be very diverse, as for example the loss of an animal, an object, photos or the homeland etc., thus in this way innumerable can be considered as a loss which triggers grief. However, the strength of grief can vary greatly from person to person, with age also playing a role, so it can vary greatly between young and older or old people. If the basic features of mourning are taken into account, they are the same for all people, but the depth and experience of mourning, the length of mourning and the memory of mourning vary greatly. It is unavoidable that during a period of mourning a person feels extremely depressed and very vulnerable, hardly interested in anything and no energy, no properly functioning memory, and no longer has any strength. In addition, he falls into apathy, loss of appetite and concentration as well as insomnia, which can lead to depression if these conditions and grief last more than 10-14 days and are not ended rationally. Physical complaints can also occur, such as intestinal and stomach disorders, which are often associated with diarrhoea. So the sadness is very similar to depression, but not the same. While both are similar states, there are differences between these two states of thought-feel-psychic-consciousness. A grief, however profound it may be, can be alleviated and finally ended by man himself, by his grief work and the grief process to be lived through. And he can do this by learning, through the processing of mourning, to detach himself from that which is old in order to turn to the new, or by detaching himself from that which has elapsed and gone, in order to turn to the new and thus to life again. As Sfath taught me, there are basically four important phases to consider in a grieving process in order to get over the grief and thus also over the loss in a reasonable time. We have talked about this before, and some things have been clarified, but I would like to say the following today:

- 1) First, when a loss occurs, there is a protest and a denial of the unchangeable fact, because the whole thing does not want to be realized. So first there is a state of thought and behaviour of that, as if nothing had happened and everything had remained the same as before.
- 2) The whole situation is properly realized, perceiving the loss, but creating a despair that causes fear of the loss suffered, leading to an emotional outburst and confusion with fear, pain, guilt, guilt and anger.
- 3) Now follows the perception and recognition of the loss, whereby this and the separation are slowly accepted and accepted, as well as a detachment and, so to speak, a parting from the loss suffered. Thus the inner relationship to what appeared as a loss changes, at least if it is a human being, a new inner, memorable connection to him is built up, while the attention and all senses are again directed to the outside world.
- 4) Through the re-perception and re-turning to the outside and the environment, the return to the current life takes place, whereby the interests for one's own existence and life as well as for events in the environment and the need for new social relationships are openly awakened again.

The human being has the possibility through mourning to process a loss and the associated pain of loss in a thought-emotional-psychic-conscious way and also to cope with it without breaking down. But that means that he has to use his mind and his reason and does not 'cultivate' mourning endlessly, because otherwise depressions inevitably occur that are very difficult to deal with. The mourning rites and the forms of mourning are very different in the different cultures, but the goal is always the same, namely to protect the thoughts, feelings and psyche as well as the consciousness from a serious damage. You can see the difference to a depression: Normally grief disappears on its own, even if it takes some time. And this usually also occurs when the first depressive attacks can occur after 10–14 days, but these are not relevant if the coping with grief is ended in a good way after a few more days – at most 3–4 days. However, if the depression then takes hold during this time, it usually persists, but only if nothing is done about it. An unresolved grief can become a depression in a short time if the loss suffered is not overcome by reason or if several losses occur in quick succession. If this is the case, then the loss mourning continues in such a way that the mourning person no longer comes out of it, whereby depressions inevitably become.

**Ptaah:**

11. If this is the case, then specialist medical help is unavoidable before the depression becomes chronic.
12. In mourning or depression, as you mentioned, losses related to people, animals, a home or objects, etc., can also be included as causes.
13. It should be noted that mourning and depression are clinically different, although mourning processes can also degenerate into different forms, which I will briefly mention:
14. 1) 'Pathological grief'.
15. If such a one appears, then a denial of reality takes place, whereby the person concerned cannot in any way feel grief and sorrow, because effectively a lack of sorrow is given.
16. Such 'missed grief' can lead to depression and psychosomatic illness.
17. This condition can occur as a direct consequence of loss, but can also be delayed because it does not break out until later.
18. 2) 'Long-term grief'.
19. This results from the fact that grief is delayed for a longer period of time, and expresses itself much more intensively than in normal cases, namely because it is exaggerated and chronically degenerates.
20. 3) 'Employment grief'.
21. In this case, the human being is increasingly concerned with the object of the loss

- suffered with his thoughts, feelings, psyche and consciousness, instead of freeing himself from it in his thoughts.
22. 4) 'Burying yourself in mourning'.
  23. This kind of sadness results from the fact that the human being withdraws in his thought-feel-psyche-consciousness-pain in relation to the social life in strong or complete way, even isolates himself from his relatives and acquaintances etc. in his thought-feel-psyche-consciousness.
  24. 5) 'Cold sorrow'.
  25. This results in a state of chronic grief over a longer period of mourning, with the result that life is 'stopped' and no longer taken into account, so to speak, and after the loss an adaptation to existence and life is no longer taken into account and there is also no longer any interest in it.
  26. It is important that mourning processes are clearly distinguished from depression, because it is a fact that on the one hand a mourning process is often overlooked, but on the other hand it is misinterpreted as depression.
  27. Mourning and depression are basically similar, but different, which is why mourning must be clearly defined.
  28. Grief produces a state of mourning, which is determined and expressed by emotional surges, emotional paralysis, pain and feelings of guilt, fear of loss and separation, grievance, loss of the goal of life, emptiness and void of the world, unhappiness, joylessness, helplessness, social withdrawal, loss of relationships, crying, thoughts of loss and loss, inactivity and lack of appetite, etc.
  29. An irrational search for what has been lost and loss is just as much a consequence of grief as an emerging disorientation and disorganization.
  30. Grief is also a phase-like process, especially when a person is lost, where thought-feel numbness occurs as a result of a shock phase, which can also trigger a physical breakdown and outbursts of affect, as well as a state of inability to accept the loss.
  31. But such a phase process also produces a paralyzed withdrawal, sheer despair, sorrow and longing, as well as aggression.

#### **Billy:**

... But for many human beings it is completely unclear whether life after death exists, because they also cannot explain how their consciousness is created. I learned from your father Spath at a young age, as well as later and up to now again and again from the memory banks of Nokodemion, that the exchange of information between the material human consciousness and the spirit-energetic world of creation is responsible for the existence of consciousness. No earthling has been able to explain this up to now, so that no one could really teach that even after death a consciousness continues to exist impulse-energetically, but not up to date anymore, but in the form of, as I said, impulse-energy of consciousness and knowledge, which is stored in the memory banks, while on the other hand the content of the material consciousness after dying is dissolved in the level of the total consciousness block, after which a new consciousness as well as a new subconsciousness and even a new personality are created for the successor personality and these are then born as one block. Unfortunately, the earthlings resist these explanations, especially the scientists who deal with this matter, because their consciousness resists every explanation that is incomprehensible to them. But in fact the material world is not everything, because there is more than just the material. If quantum physics is used for this purpose, it provides decisive indications and proof, even in much deeper forms, that there is much more than just the material and visible, but also everything that is detached from the material world and from space and time and exists in purely spiritual-energetic levels. And this world is not simply the image of the inner world of human beings, but

fundamentally it represents the entire spirit-energy structure of creation respectively the creation of universal consciousness. Nevertheless, these two world forms, the material and the spiritual world, are closely connected with each other, so that there is an intensive exchange of information between them. And this exchange of information takes place through the levels of the memory banks and the total consciousness block, which is also the one that creates the consciousness of human beings and which therefore provides for a new one after dying and in the life of death. When we look at our universe, then from this a prominent creativity emerges, from which something new is constantly being created in infinite diversity, and this is where the inner and the other world come into play. Seen from the human being's point of view, everything new in the universe originates in the material world, but this is fundamentally wrong, because first respectively first everything and everything originates in impulsive spirit-energetic form, and through this the exchange of information from the spirit-energetic world with the material world is created. However, it must be remembered that everything in the spirit-energy world of creation Universal Consciousness is all-permanent, whereas in the material world everything old and new is inevitably transitory.

Basically, at some point in the material world, everything has come into existence anew, but it has also passed away again; but if everything that ever existed in the material world has long since disappeared from it, then everything in the spirit-energy world has remained and remains all-permanent and represents a perfect memory that can never be erased and can never pass away, and therefore it also remains and is imperishable through all 1049 forms of Creation and all six absolute forms up to the 'BEING-Absolutum'. The material body of the human being is extremely active and on the molecular level it always produces something new, so also the change of the manifold life-forms, as well as the organic change of the human being. At the same time, the exchange of information with the spirit-energy world takes place. Consequently, every human being, like every other life-form of perishable material body, also has an imperishable body in the inner world, which is connected with the spirit-energy world of the Creation Universal Consciousness. Every material body dies sometime, but with death only the material activity of the material consciousness and therefore also of the body is ended, whereby it falls prey to decay. But the imperishable spirit-energy form that animates the body survives death, which means that, in connection with a new material body, new life arises from death. This also clarifies the question of how consciousness is created, because if it were created entirely by the material brain, then death would mean the absolute end of it altogether. So the assertion of neurological research is completely wrong that – due to ignorance of the spiritual-energetic impulses from which the new consciousness arises from the level of the otherworldly total consciousness block – consciousness arises from the activity of the neurons.

If we look at the workings of human consciousness, then it can actually be said that it creates abstract information that appears in the brain language centre and is formed as thoughts that are expressed as words and also create feelings. And this abstract information does not come about through the activity of the neurons, but through the exchange of information with the spirit-energy world. This could not be shown so far, despite intensive efforts of the neurosciences. Effectively, therefore, the information is supplied by the exchange of information between the spiritual-energetic level of creation Universal Consciousness and the material consciousness, whereby this factor leads to the fact that information keeps appearing in the active brain of human beings, as it is also the case with regard to ideas that manifest themselves in the subconsciousness, as I have described it according to the spiritual teachings in the article 'Origin of the Idea' (note 'Ur-Ur-Ur-Ur-Ur-Ursprung aller Existenz', page 37 and 'Diversikum', page 372). So it is not simply information coming from the inside of the body respectively from the neurons, although these and the whole brain itself play a very important role, because the neuron and brain block ensure that the unconsciously received information is put together in an orderly and logical way. So all this together creates the material consciousness respectively its content, respectively the close connections between the spirit energy level as well as the activity

and the content of the material consciousness and the working of the brain. It is therefore very decisive that the material consciousness of human beings is not produced by the brain, but from the spiritual-energetic world of the so-called universal consciousness or creation universal consciousness, whereby the whole thing in this respect embodies nothing other than an impulse memory of spiritual-energetic-electromagnetic nature, which is called universal consciousness respectively creation universal consciousness only for the sake of human understanding. And this is therefore the key to life after death in the life of death, whereby in the afterlife level of the total block of consciousness the information budget of human consciousness is dissolved, after which the total block of consciousness creates a new content potential as a new block of consciousness, which is then born as material consciousness together with a likewise new subconsciousness as well as with the new personality in a new human body. The block of information in the human consciousness does not survive death, nor does the body. As a result, after death it is no longer the brain that ensures the orderly composition of a new consciousness, but rather the total block of consciousness, which is spirit-formed in its existence and is also integrated in the universal consciousness. This means that after death the content of the consciousness is completely dissolved by the total block of consciousness and thus a new one is created, which will be completely different from the previous consciousness. Therefore, it is also certain that after the death of a human being, he will not reappear through a rebirth, but that life does not end and will also never end with death, because the content of the old consciousness is deleted by the total block of consciousness and a new consciousness with new content is created. The life of human beings and all life-forms in the universal expanse – as well as the universe itself – is such that life after death is never definitely over. Every life form has a spirit-form respectively a spirit-energy-form, which is reborn as an inseparable part of the universe up to the highest absolute forms, namely up to the fusion with the 'BEing-absolute'. If human beings, all life-forms of fauna and flora as well as the universe etc. had come into being by pure chance, as is claimed by narrow-minded and ignorant scientists, then this would really be extremely strange and would not make sense, nor would the universal, respectively eternal life of the reborn spirit-form. Also the dissolving of the material consciousness and the complete decay of the human body – and all life in general – after death, as well as the rebirth of a new body with a new consciousness, subconsciousness and a new personality would not make sense. The spirit-energetic world, which in human beings – and all life-forms of fauna and flora – as spirit-form respectively spirit-energy-form enlivens the material body – in humans with seat in the 'roof of the midbrain' = paired node = colliculus superior -, brings into play that very important aspect, through which the circle is closed and the whole gives a conclusive overall picture. The entire exchange of information between all different kinds of material forms of consciousness, forms of instinct consciousness and forms of impulse consciousness, as well as the spirit energy levels of universal consciousness respectively the spirit energy world, has the effect that in the entire universe, more and more complex living beings inevitably arise. This shows at another time that human beings and all human-like beings, as well as all myriads of other life-forms of all genera and species of fauna and flora, did not come into existence by chance, but that there is an order behind it, which corresponds to an impulse order. And this again proves that all earthly and universe-wide life of every form, genus and species also continues in new forms after death and has absolute meaning. And for this purpose I can recite the following, which I have written here – moment, yes, here it is – When a human being has died, respectively is effectively dead, he cannot be resuscitated. A resuscitation is only possible if the human being is not yet dead resp. is not dead, consequently his spirit resp. his spirit-form has not yet left the body. If, however, the human being has actually died and is therefore dead, then his spirit or spirit-form has already left the body, and consequently no resuscitation can take place. The spirit respectively the spirit-form only revives a living body, and that on the 21st day after procreation. But if the body is dead, then a spirit-form does not return to it, because it never revives a dead body.

A spirit-form can never lose its energy and power, because it is integrated into the eternal energies and powers of creation, which as universal consciousness energetically encompasses everything and anything. This also means that the spirit-form is immortal and is inseparably connected with the creation of universal consciousness. With regard to human beings, they are only enlivened by the spirit-form, and when they die, the spirit-form changes into its afterlife. It remains in this realm until it – since it alone is capable of reincarnation respectively rebirth – returns to a human being and revives it when a new human being with a new personality is born. It thus expressly states that a new human being incarnates with a new consciousness and with a new personality, because the old consciousness and the old personality of the deceased person are dissolved by the deceased into pure subtle energy in the otherworldly realm of the total consciousness block. From this neutral energy a new consciousness and a new personality is formed through the total block of consciousness. These are then – together with the reincarnating spirit-form – born into the new human body respectively into the foetus. The spirit-form only ever enlivens the same line of spirit and human being respectively their consciousness and personality, which are inseparably connected with the spirit-form through the total block of consciousness. So it is given that always the same spirit-form connected with the total block of consciousness enlivens the associated line of consciousness and personality. From the whole it also follows that when a human being dies, he or she, respectively his or her consciousness and personality are not reborn. Consequently, there is not a rebirth of human beings, but only a rebirth respectively reincarnation of the spirit-form. This is because the consciousness and personality of the deceased human being is dissolved and transformed into pure, subtle, neutral energy through the total block of consciousness in its afterlife. From this neutral energy a new consciousness with a new personality is formed, which is then born into the new human being during his incarnation, together with the reincarnating spirit-form. The reincarnation of the spirit-form and the incarnation of the new consciousness and the new personality takes place on the 21st day after procreation.

It is impossible for human beings to locate and trace the human spirit – at least at the present time – because they have neither the necessary apparatus nor any other means to locate and measure the spirit energy. The human being cannot see the human spirit respectively the spirit-form, because the pure creative spirit-energy cannot be perceived by the human eye and also cannot be felt. There are also not yet any apparatuses or analytical devices etc., also not in the field of ultraviolet or infrared, through which it would be possible to make the spirit respectively the spirit-form or the creative spirit-energy visible or measurable at all. It is also not possible for any particular state of consciousness of human beings to see the spirit respectively the spirit-form, because the spiritual energy is as absolutely invisible as pure air.

The spirit, respectively the spirit-form of human beings is of purely creative-spiritual-energetic nature and has nothing to do with consciousness, nor with the brain waves that can be perceived and measured. Erroneously, since ancient times consciousness has been called the 'spirit' of human beings, although the nature of the spirit is completely different from that of consciousness. The spirit respectively the spirit-form of human beings is purely creative, while consciousness is a factor of human beings and is responsible for creating thoughts out of it, whereby the whole reason also arises out of it, so also understanding and reason. The spirit, respectively the spirit-form is only the creative-natural given energy, which animates the human body.

When the spirit leaves the human body, then it escapes into its beyond plane, which exists in the same space as the present reality of the planet, whereby the so-called beyond plane, contrary to the real material reality space, is differently dimensioned, namely in a subtle spiritual-energetic nature. In relation to the planet, therefore, the otherworldly plane is arranged around the planet, just as this plane continues to exist throughout the universe, but in relation to the material reality plane it is in a subtle reality to which human beings, as a material life-form, have no access whatsoever, and consequently they can neither see nor perceive anything.

Therefore, on this level it is impossible for human beings to see or otherwise perceive the spirit respectively the spirit-form that has escaped from the material body.

That the afterlife realm of the planet is arranged in a different dimensional form than the real material reality space not only in this, but also in the entire universe, has its reason. Thus it follows from the spiritual teachings that if a planet is destroyed or simply becomes incapable of life, then the spirit-forms existing on it and the other dormant spirit-energies are not destroyed, but that these 'migrate' to 'wander' through world-space until a new planet is found on which human life exists. On this planet the spirit-forms then 'settle' again, mix with those already existing there and thus enter again or further into a cycle of reincarnation or rebirth.

**Question 12 – Answer:**

*In the year 3999 all the spirit-forms of all the members or faithful of the Mission, who have worked in it and have worked themselves up into the evolutionary level set by the level 'Arahat Athersata', will leave the Earth and reincarnate in new personalities in a higher evolutionary humanity of another world. These new personalities will continue their evolutionary path as wise human beings, whose spirit-forms will one day, according to the creative law of evolution, enter the 'High Council' level and then the 'Arahat Athersata' level. ...*

The Plejaren as very distant descendants of their very early ancestors from the lineage of the primordial prophet/primordial annunciator Nokodemion therefore come from the ANKAR dimension into the DERN universe resp. into the DERN dimension or just into the DERN space-time structure and thus also to Earth. This is because a large number of their early ancestors settled on the Earth planet millions of years ago and then also died there, whereby their spirit-forms are still reborn on the Earth world over many reincarnations and animate human beings, whose development the Plejaren strive for.

**Ptaah:**

155. ... a rebirth of an Earth human being cannot be possible because only his spirit-form is classified as reincarnation

156. Consequently, only a new personality can be born – not reborn – which has an entirely different individuality, a different appearance, a different form, as well as an absolutely different nature and other peculiarities than these factors were inherent in the old and deceased personality.

[https://www.futureofmankind.co.uk/Billy\\_Meier/Contact\\_Report\\_711](https://www.futureofmankind.co.uk/Billy_Meier/Contact_Report_711)

**Ptaah:**

85. This is well known to us Plejaren, and we also know through the teaching of Nokodemion that in order to be above all susceptibility and backsliding into the old negative patterns of degenerations, violence, wars, hatred, falsehood and wickedness etc., it takes much more than just the change to peace, freedom, justice and righteousness etc. in the human being, and that all this cannot simply be worked out through the normal development of understanding, reason, intelligence and knowledge.

86. But this 'very much more' is only possible for a human being – no matter who, how, what and from where he is, whether from Earth, from our Plejaren planets or elsewhere – when very thoroughly and intensively throughout all times it is learned to perceive reality and the truth contained therein and to implement all the resulting knowledge for self and self-development in a correct positive and evolutionary way.

87. And the comprehensive realisation which gradually matured in all the human beings of our Plejaren populations also led to the realisation of the fact that all becoming of all natural-creative flourishing requires long periods of time, which in this respect led all Plejaren peoples to the realisation and understanding that they would never stop learning, but would have to learn all their lives and keep on learning, because learning would never come to an end, but would continue endlessly and also in every new life in relation to every new personality.

88. So it became clear and understandable that learning must never end and therefore must always continue in each new life of each new personality for many millennia, decades-thousands, centuries-thousands and millions of years until the eventual entrance into the higher planes of the 'High Council' and higher.

89. But this also meant – and this was recognised in the course of time – that throughout all the times that the human being incarnates again and again as a new personality and exists and lives as a material life-form, he must endlessly learn and keep on learning, which is why he, as a learning human being, will also never be immune from making mistakes again and again in order to learn from them and to continue everything better and learning positively.

90. However, this was also connected with the realisation that as a result of the lifelong learning process of each new personality, there was also the danger and possibility, connected with and timeless throughout all new incarnations and new personalities, of falling back into the old behaviour patterns of earlier personalities – despite each higher development achieved.

**Billy:**

... Therefore, ontologically seen or from the point of view of the entire being, with regard to material constitutions of all life-forms, there is none that could not fall back into old negative-evil or positive-good norms. However, this backsliding must be understood in such a way that it refers to the inner character impulses that exist in a negatively degenerated form and have not yet been overcome, worked through or neutralised. And this is fundamentally the case with all life-forms, because all living beings, as a result of their natural behaviour with regard to their will to live and their will to self-preservation, developed from the ground up combative forms or impulses, urges and drives. It is these that, depending on the life-form, became fixed in the innermost character-block or instinct-block ages ago and became a fixed component, but which, likewise depending on the life-form, develop specifically. ... In the case of higher life-forms, which are capable of a conscious higher development of consciousness, this does not regulate itself, but fundamentally only through an independent, conscious mental-learning function appropriate to understanding, reason and intelligence. Only through this is it possible for the life-form – and in this respect I am speaking of the human being – to 'tame', transform, dissolve and neutralise the impulses fixed in its innermost character, which it has created and fixed in itself in a degenerate way as evil and violence etc., also itself in a conscious way. This, however, is a very long process and even after death affects all new personalities again and again, for each new personality is only able to process and neutralise an extremely small part of its degenerations, which are glowing in the innermost character, during the entire lifetime of its material body. The whole process of complete dissolution up to the time when the human being is no longer born as a new personality with a physical or material body, lasts until only the evolutionised and all-embracing spirit-form remains and no more material body can be born. And the fact that this process of dissolving all the degenerations fixed in the innermost character takes such an infinitely long time, in order to process, dissolve and neutralise them, is due to the fact that these impulses of inner degenerations break through again and again in all life-forms, so also in the human being, in every new life with every personality, consequently they are also lived outwardly. In this way, however, the degenerations that are lived out externally are perceived and also absorbed by fellow human beings and thus infiltrate them, whereby they are

caught up again by their old negative, evil and violent ways and become addicted to them again or relapse. ...

death, decapitated

**Billy:**

... we recently talked in the kitchen of the centre about the fact that after the actual death of the human being, the consciousness continues to work for 15-20 minutes, and namely in such a way that it still perceives everything that is happening all around it. This, however, is only in terms of perception, without the consciousness still maintaining own thoughts, but thus rather only taking in perceptions, something which, however, cannot be ascertained by our medics, etc. The whole phenomenon could perhaps be compared to a kind of tape recorder, which records everything but is not able to reproduce any sound, because it happens to run soundless, when it is played back. This is how it happens, and namely also when beheading takes place or when the human being dies in some other way, in an accident or the like. Sfath explained that only in the completely switched-off state of conscious perception matters would be different, namely then, when during the dreamless deep sleep the death would occur and the consciousness would completely 'run dry'. Then, as he explained, the perception would also be present, but would be such that it would only take in emptiness.

...

**Billy:**

... About 20 or more years ago we talked about the fact that after death the consciousness can still perceive everything that can be noted by it for 15 to 20 minutes. The consciousness in a severed head or the consciousness of a decapitated human being still perceives what is happening for 15 to 20 minutes. Admittedly, it is only a kind of unconscious perception without being able to consciously think about it, just as it cannot be medically determined that the consciousness still perceives everything in the underground, so to speak, during this time.

*{excerpt from the introduction to a new book being written at the time by Billy, Lehre der Schöpfungsenergie [Teaching of Creation-energy]}*

In the endless void and the endless duration, which are called nihilo resp. nothing, nothing exists, consequently not even a nothing is given, which cannot be comprehended by the very

Earth-human and very limited mind as well as by its reason and consequently cannot be understood. In his short thinking – despite his megalomania that he is the 'Crown of Creation' – he is still far from being able to comprehend and understand what reality and its truth effectively is. Thus he also does not understand – and it is not even possible for him to comprehend – that a nihilo resp. nothing can be in non-existence and that something can develop from it, namely the form of an energy, which in turn is able to stimulate something else, from which something is able to develop. But this non-existence can be equated, for example, with the state of death, which is invisible, not perceptible and not present in such a way that it can be seen, grasped, heard or felt. Nevertheless, it is omnipresent and can occur at any time, without being seen by human beings themselves, although it can be recognised resp. ascertained at present as 'existence'. It is undoubtedly omnipresent, real and active, but in such a way that it can only be detected by human beings when a living being is afflicted by death resp. has died and its life function has ceased to be active. The human being sees the dead body, but not the energy death itself, so that this energy remains invisible and intangible as well as inexplicable to him.

### **Decalogue-Dodecalogue (2017 English translation)**

{page 182}

... Nothing ends with the death - least of all, the life, because death means only a station of the continuance in the striving of all creatures and creations, existence and evolution and therefore, a continuance of the life, which one does not have to cast aside as affliction and suffering, in order to press thereupon to no longer have to possess a physical body, in order to finally live as a 'glorious master of a higher degree' in higher spheres, in order to be able to loftily judge over the poor confused ones remaining behind on the Earth, because these are too lowly intelligent and stupid in order to be able to obtain the sublimity themselves. What imbecility coined purely by humans, because ageing means evolving, and death means evolutive transition to new life and consequently, to new striving.

Death means continuity in new, powerful life, whose sense, once again, lies in the striving for that which is higher and for the highest possible relative-absolute-fulfilment in the unstoppable progressing evolution of creational-natural imprint, given to all life and all existence through the creational evolution-principle. Death means life, and therefore this requires no death-dogmas and no survival-beyond-life-dogmas. The truth, namely, is very much simpler than what the human brains have contrived and fantasised since time immemorial through false philosophies and religious-sectarian irrational teachings: the sense of the life is evolution and so therefore, striving for that which is higher and more absolutely-fully-developed; and therefore, life does not mean suffering and affliction, but rather, fulfilment through striving; therefore however, the death also does not mean suffering and affliction, but rather, change in the becoming and passing of the endless rebirth to a new, powerful, striving and therefore, evolving life. Death, in turn, means new life and death means striving, advancement, higher development - evolution in the following of the creational development-principle.

Every single rationally capable *Wesen* is born in order to evolve, thereto compelled and driven by the creational impulse of the striving for that which is higher, more rational and more absolutely-fully-developed; and every single rationally capable *Wesen* is integrated into the laws

of the reincarnation, of the rebirth. A process of the endless change in the becoming and passing and again becoming of the reincarnation process, thus there are unendingly many lives to live in evolutive, striving form before one day, after 60-80 million years, every evolution-state is reached, through continuous striving for that which is higher and more absolutely fully developed, whereby the physical body changes and slowly becomes a pure fine-fluid-form, which slowly changes itself into the pure-spirit-form.

If false philosophies, religions, sectarianism and false worldviews were able to ascertain the false immortality dogma and the death dogma elsewhere, thus, e.g., through the truth of the continued existence of the life through the death and its striving for new life, then all ardent fervour for gods, saints, masters, gurus and sublime ones, as well as for swindlers and deceivers and sick ones like channelers, mediums, contactees, emissaries of gods, enlightened ones, mediums for the dead, Jesus' mouthpieces and all holy ones, exorcists and priests of all kinds, etc., would quickly grow cold and vanish. However, this can only then occur when the human being finally becomes rational and willing to comprehend and acknowledge the pure creational truth of the teaching of the spirit, and namely in such a wise, that he/she also actually recognizes this creational truth and teaching through his/her own fathoming thought-work as well as knowledge- and truth-ascertainment. Thereby, room would be made for a total disinterest towards all delusional thinking and towards all false-philosophical-religious-sectarian irrational teachings, dogmas and enticements. If the confused ones and fanatics and the other followers of false philosophies, religions and sects, could and were able to recognise the truth that life and death are an unceasing striving for continuous new life and for that which is higher and more absolutely-fully-developed, then they would also recognise the truth of the striving, in the progress of which there is never an end and can never be an end because the evolution unstoppably progresses, and never finds an end even in the highest of all highest and in the most absolutely-fully-developed of all that which is absolutely-fully-developed, so therefore, not even in the Absolute Absolutum. Therefore, nothing can fall prey to a final death because all and everything of all existence and all creation in the entire presence of the unending BEING is integrated into the reality of the ur-eternal existence. Therefore, there is no possibility of a final death-state and consequently, a state of obliteration because the striving of all existence and all creatures itself proves that absolutely no end exists, neither in any form of the evolution nor in the BEING. However, the human being must himself/herself recognise and himself/herself comprehend, and therefore prove this creationally given truth to himself/herself through the exploration of the knowledge and the truth within himself/herself and through its recognition. Only thereby is he/she able to recognise that the death means no destruction, no final dissolution and no elimination. A fact, from which results that the life, in and of itself, possesses immortality, in contrast to all pathologically-dumb, contrary claims of all existing false philosophies, false worldviews, religions and sects that attempt to prove an impossibility of the immortality of the life.

**{page 218}**

All existing life is also Creation ~ Creation is the universe, the celestial bodies and all life of fauna and flora and every life, the becoming and passing and the life in general - thus, the Creation is therefore also contained, pulsating and existing in everything living - even in the death, which only represents a different dimensioned form of the life; even therein, the Creation is existing, because the death is also pulsated through by the Creation and is Creation itself, like every other life, whichever kind and form and dimension it is.

**{Thomas Hall:}**

Very briefly, could you describe what the average Earth human experiences between lives.

**{Billy:}**

That's not possible because we don't remember and we don't have the words to describe it. No personality exists anymore, and therefore no thoughts as we are familiar with in our lifetime. It's the spirit form and the "comprehensive consciousness block" (Gesamtbewusstseinsblock) that enter the Beyond. The spirit form and the comprehensive consciousness block "analyses/reviews" (= aufarbeiten) what has not been digested/assimilated prior to death. Love, wisdom etc. are transformed into a fine-matter form. The former personality is dissolved and transformed into neutral energy. Then a new personality is "worked out"/developed which incarnates - together with the spirit form - into an embryo at the 21st day after conception. The new personality has nothing in common with the former one!

Nothing is carried over to the next "incarnation" (= personality). The only thing that is inherited is genetic information by/from the parents.

**{Lonnie Morton:}**

Concerning reincarnation, after the death and the time we spend in the beyond, do we come back in the next life within a 1000 mile radius of where we died? Or, can we come back anywhere on the planet?

**{Billy:}**

It is not we who come back into a new incarnation, but it's an entirely new personality who has nothing in common with the former "user" of the spirit form.

As a rule, people are reincarnated into the same culture, race or nation etc. where they died.

This means, that e.g. an Afro-American person in the USA will incarnate as an Afro-American

person again, in the USA and not in Africa. And if a German speaking Swiss person dies, he will incarnate again somewhere in Switzerland, Austria, Germany or Liechtenstein, etc. In other words: A spirit form will not incarnate in France, then in Tibet, in Nigeria, and in Greenland, etc. etc. Incarnations occur within the group of people and cultures where one lived (and thought!) in one's former life.

**{Joseph Emmanuel:}**

In answer to a question posed to you from this discussion board recently, you said that, as a rule, people are reincarnated into the same culture, race or nation where they died, emphasizing as an example that an Afro-American in the USA will reincarnate as an Afro-American again in the USA and not in Africa. Then you said, a spirit form will not reincarnate in France, then in Tibet, then Nigeria. . . Incarnations occur within the group of people and cultures where one lived (and thought!) in one's former life. If this is so, how is it that your spirit has reincarnated as a Jew in Israel, then an Arab in Saudi Arabia (Mecca) and then as a Swiss in Switzerland? This seems to contradict the answer you have given.

**{Billy (and Christian Frehner):}**

This is no contradiction because there wasn't a big difference between the civilizations etc. of Palestine and Arabia (or India) at that time. The reincarnations followed the path of the spreading knowledge across to Europe (during a time period of many hundreds of years, and several incarnations).

Perhaps it's wise now to give some additional information regarding Billy's earlier explanations: The explanations which you quoted above are directed to ( meant for) persons who are not yet familiar with the laws of reincarnation. It's a simplified explanation.

Actually, reincarnation doesn't depend on the skin color, but on the education and civilization and evolutional level of a person, a group of persons, peoples, nations, etc. From this follows that, as an example, a white US American person may reincarnate as a black US American person, and vice versa. And an educated European scientist will not reincarnate in the Amazon jungle among a native tribe, etc.; and a person who strongly or fanatically believes in Islam or Jewish faith (e.g. who lives in Arabia or Israel, etc.) will not incarnate into a well-educated family in Sweden or Holland, etc.

What really matters regarding reincarnation is the level of evolution (of understanding, knowledge, freedom of thinking, culture, etc.) of a person, both on a personal level, and also regarding the surrounding society. The average level of evolution/civilization of a nation has an influence on the location of incarnation of a spirit form.

An average Swiss person (or rather his spirit form) who is accustomed to (more or less) freedom of speech, democracy, security, welfare, pluralism, etc., will not reincarnate in Arabia or some other country where religion has a strong hold on the everyday life of the citizens. (As a rule: The more religious a nation is, the more opposed to progress it is, and the less evolved with regard to civilization/technique etc. it is.)

**{Kaare:}**

How much say does our own spirit have in regards to selecting next incarnation, i.e. is it our own spirit that decides and select next suitable incarnation, or is this being selected for it?

**{Billy:}**

Our spirit doesn't have a say in this.

The next incarnation is "selected" by way of natural/creational laws, on a vibratory level. --- In our modern times with the immense overpopulation there has come a factor of disorder into the whole process. In other words, spirit forms have to incarnate again before the "comprehensive consciousness block" (Gesamtbewusstseinblock) has completely dissolved the old personality and/or completed the new personality. From this results that so many human beings suffer from a variety of ailments, handicaps, problems, "softness", proneness to drug addiction, etc. etc.

**{Joseph Emmanuel:}**

When I consider the lives of certain individuals, such as those who are driven to succeed in becoming what they desire to be, it seems to me that the strength of will they possess to achieve their goal is insurmountable. I can't imagine that such a strong personality wouldn't have a major influence on future incarnations, particularly on that incarnation directly succeeding it. I would have thought that the spirit form of such an individual would reincarnate in the body of someone who is destined to live an equally notable life, within a similar, if not the same, profession. My question is, therefore, do the spirit forms of successful individuals reincarnate into lives that are destined to perform similar roles? For example, would the spirit form of someone in power reincarnate into the life of someone who is also likely to acquire a position of power?

**{Billy:}**

No. An incarnation as a king can be followed by an incarnation as a beggar, and then as a shepherd, etc. etc.
